AUTHORITY: §§ 571.225 to 571.288 issued under secs. 2 and 3, 63 Stat. 945, 946, sec. 104, 64 Stat. 198; 7 U. S. C. Sup. 1641, 1642.

GENERAL

§ 571.225 *General statement.* In order to encourage the sale and exportation by commercial exporters of wheat produced in the United States and flour processed in the United States from such wheat and in order to exercise the rights, obtain the benefits and fulfill the obligations of the United States under the International Wheat Agreement, the Commodity Credit Corporation (referred to in this subpart as CCC) pursuant to the authority conferred by Public Law 421, 81st Congress, offers to make payments to exporters under the terms and conditions stated in this subpart. Information pertaining to the operation of this program and forms prescribed for use thereunder can be obtained upon request directed to the address shown in § 571.275, or from the Director, PMA Commodity Office: U. S. Department of Agriculture, located in the cities listed in § 571.263.

ELIGIBILITY FOR PAYMENT BY THE COMMODITY CREDIT CORPORATION

§ 571.230 *General conditions of eligibility.* (a) Payment under this program will be made to an exporter in connection with the net quantity of wheat or flour exported to an eligible country from the United States and the net quantity of wheat or flour in customs bond in Canada exported to an eligible country from Canadian ports, excluding West Coast Canadian ports, pursuant to a sale for which he has received a confirmation by the Vice President of Commodity Credit Corporation, who is the Assistant Administrator for Commodity Operations, Production and Marketing Administration (referred to in this subpart as Vice President), in accordance with § 571.248, subject to the additional conditions set forth in this subpart. Payment also will be made to an exporter

for wheat or flour exported prior to sale and for which the exporter has received a confirmation by the Vice President subject to the conditions contained in § 571.238.

(b) No export payment will be made for wheat or flour exported in a mixture which is partly derived from wheat produced outside the United States.

(c) In any case where the Wheat Council, subsequent to confirmation by the Vice President, determines that a sale, or any part thereof, is ineligible to be, or to remain, recorded because of non-compliance with the applicable regulations of the importing country governing purchase and importation under the International Wheat Agreement, payment may be withheld by the Vice President or required to be refunded if already made.

§ 571.231 *Time of sale.* Sales entered into after the date of this offer and not later than June 30, 1953, for recording against the 1951–52 or 1952–53 Wheat Agreement year quotas, are eligible for payment under this offer. Sales must be entered into during periods in which an announced rate is in effect, and in reliance thereon, in order to be eligible for payment. Under no circumstances shall a sale be considered as entered into until the purchase price has been established. The time of sale shall be the earliest date on which a firm contract exists between buyer and seller and on which a firm price has been established. In order to receive payment at the announced rate in effect at the time of sale, it is important that the exporter give timely Notice of Sale as required by § 571.255 (a) and present documentary evidence that the sale was consummated at such time.

§ 571.232 *Date of exportation.* (a) Wheat and flour sold for recording against the 1951–52 Wheat Agreement guaranteed quantities must be exported by July 31, 1952, unless approval is obtained from the Vice President to export subsequent to July 31, 1952. Wheat or flour sold for recording against the 1952–53 Wheat Agreement guaranteed quantities must be exported during the period August 1, 1952 and July 31, 1953, inclusive, unless approval is obtained from the Vice President to export either prior to or subsequent to that period.

(b) Wheat or flour sold for export in a specified export rate period must be exported before the end of that period in order for the exporter to obtain the export payment rate applicable to that sale, unless an extension is obtained from the Vice President changing the export date to a later period. In the event that export takes place after the specified rate period and the exporter has not obtained an extension from the Vice President to change the export date to a later period, the export payment rate will be that which was in effect at time of sale, or time of giving Notice of Sale, whichever is lower, for the period in which actual export takes place. It will be the policy to grant an extension if it can be shown that exportation under the contract has been delayed by circumstances beyond the exporter's and importer's control and is not due to intentional violation of the contract.

§ 571.233 *Exports to eligible countries.* Exports of wheat or flour under this program shall be made only to the eligible country named in the Notice of Sale and the Declaration of Sale, and to a buyer identified with the Declaration of Sale and supporting evidence of sale unless:

(a) The buyer identified with the Declaration of Sale directs that shipment be made to another Wheat Agreement country,

(b) The Government of the eligible country named in the Notice of Sale and Declaration of Sale or the Government of the eligible country to which shipment is directed consents to the recording of the sale against its guaranteed quantity, and

(c) The exporter obtains, prior to export, authority from the Vice President to export to an eligible country other than the purchasing country named in the Notice of Sale and Declaration of Sale.

§ 571.234 *Excess quantities exported.* Payment will not be made on quantities loaded on vessels or exported by rail or truck which exceed by more than 1 percent the quantity shown on the Declaration of Sale, or, in the case of bulk wheat, a loading tolerance as specified in the contract but which shall not exceed 5 percent of the contract quantity, unless clearance is obtained from the Vice President, in which case a new Declaration of Sale and a new confirmation of sale for the additional quantity is required. Payment will be made without additional clearance where, in the case of flour or bagged wheat, the loaded quantity does not exceed the contract quantity by more than 1 percent, and in the case of bulk wheat the loaded quantity does not exceed the contract quantity by more than 1 percent or a loading tolerance as specified in the contract but not to exceed 5 percent.

§ 571.235 *Reports.* The exporter shall submit the reports and documents specified in §§ 571.255 to 571.258, inclusive.

§ 571.236 *Proof of export.* Proof of export and submission of specified supporting documents must have been made in accordance with § 571.262.

§ 571.237 *Reentry or diversion.* If any quantity of wheat or flour exported under this subpart is unloaded in the United States or Canada prior to being imported into some country other than the United States or Canada, or because of the exporter's action or with his consent is at any time unloaded in the United States or Canada or diverted to another country while en route, payment may be withheld, or if payment has already been made, the exporter may be required to make such refund or other adjustment as deemed appropriate by the Vice President: *Provided*, That if the wheat or flour with respect to which payment may be withheld or refund required under this section is lost, destroyed or damaged, the amount of the payment withheld or refund required shall not exceed the amount realized or which might reasonably be realized by the exporter over the price at which it was sold to the eligible country. The exporter shall notify the Vice President immediately upon becoming cognizant of any unloading or diversion of wheat or flour with respect to which payment may be withheld or refund required under this section and furnish information as to the condition of such wheat or flour and any claim he may have in connection with any damage or loss thereto or destruction thereof.

§ 571.238 *Wheat and flour exported prior to sale.* (a) In connection with the quantity of wheat and flour exported prior to sale, payments will be made only on that portion thereof which has been reported in accordance with paragraph (b) of this section and only on sales made by the actual exporter of such wheat or flour, and not to any other party who buys such wheat or flour and re-sells it to an eligible country.

(b) In order to receive export payment the exporter must have reported the exportation of such wheat or flour to the Vice President within one week after the date of such exportation as defined in § 571.285 unless additional time for reporting is granted by the Vice President. This report which will be considered as a certification by the exporter, must include the following information:

(1) Date of exportation.

(2) Port of exportation.

(3) Country and port of original destination of wheat and flour.

(4) Name of ocean vessel upon which loaded.

(5) Quantity:

(i) Wheat in bushels.

(ii) Flour in net hundredweight.

(6) Class and grade of wheat; or type and extraction of flour.

(7) The report shall also contain a statement that the vessel contains wheat or flour sold to an eligible country under the terms of the Wheat Agreement by the exporter filing the report, as provided in paragraph (c) of this section.

(c) Only wheat or flour which is loaded on a vessel which also carries wheat or flour which has been sold by the same exporter to an eligible country as provided in this subpart shall be reported in paragraph (b) of this section, and shall be eligible for export payment when sold. In the case of full cargo shipments the unsold portion shall not exceed one-third of the total cargo. In the case of part cargo lots the unsold portion shall not exceed 2,000 metric tons.

(d) At such time as the wheat or flour is sold to an eligible country, the exporter shall report the sale to the Vice President as provided in § 571.255, and shall submit all other reports and documents as required by this subpart. In reporting the sale the exporter must state that the wheat or flour sold was reported to the Vice President as provided in paragraph (b) of this section. This may be done by the use of the code word "Abroad."

(e) The export rate applicable to such sale shall be that rate in effect at time of sale, or time of giving Notice of Sale, whichever is the lower for the current export rate period, which applies (1) to the port from which the wheat or flour was exported, and (2) to the eligible country shown in the Notice of Sale and the Declaration of Sale, or the country of final destination, whichever is lower.

(f) In addition to the documents required under § 571.262, the exporter will be required in the case of flour to submit with Public Voucher Form FDA–564 a document which carries a description of such flour. The exporter should obtain separate bill or bills of lading for both the unsold and sold quantities of wheat or flour exported.

(g) All other conditions of this subpart, except as modified by paragraphs (a), (b), (c), (d), and (e) of this section are applicable to sales described by this section.

EXPORT PAYMENT RATES AND ANNOUNCEMENTS

§ 571.240 *Announcement of rates.* Export payment rates will be announced from Washington, D. C., daily or at intervals of up to 7 days. Announcement of rates will be released at approximately 3:30 p. m., e. s. t. (see § 571.288), and will remain in effect until 3:30 p. m., e. s. t., on the expiration date stated in the announcement at which time a new announcement will be made. No rates will be announced on Saturday, and rates effective after 3:30 p. m., e. s. t., on Friday will be considered as in effect until 3:30 p. m., e. s. t., of the market day succeeding Saturday unless the announcement specifically provides otherwise. Announcement will be available through a press release, ticker service, and through eight PMA Commodity Offices at Portland (Oregon), San Francisco, Minneapolis, Kansas City (Missouri), Dallas, Chicago, New Orleans and New York City. Different rates of payment based upon export ports or areas, destinations, period of exportation, or other factors, may be announced for the same period.

§ 571.241 *Determination of rates.* The rate in effect at the time of sale or the time of giving Notice of Sale, as required by § 571.255 (a), whichever rate is the lower, shall be the rate applicable to the sale. In the case of resales of wheat or flour, the export rate for such sales will be that applicable to the original purchasing country or the country of final destination, whichever is lower. The supporting evidence as proof of sale submitted by the exporter, in form prescribed in § 571.256 (d), will be the basis for determining the time of sale. The following are factors which may be determinative of the time of sale:

(a) Time of filing by the exporter of a cablegram or other written acceptance of a definite offer to purchase received from the foreign buyer.

(b) Time of receipt by the exporter of a cablegram or other written acceptance by the foreign buyer of a definite offer by the exporter to sell.

(c) Time of filing by the exporter of a cablegram or other written confirmation of the booking of a shipment or shipments to be made pursuant to an open offer of the exporter to sell or a standing order of the buyer to purchase. It must be clear from the evidence, however, that the exporter is empowered by the terms of the open offer or standing order to firm the contract by issuing a confirmation. For example, if he is authorized to confirm the sale at a price which may be established at his option, the evidence must show that such is the understanding between buyer and seller, otherwise it will be necessary for the buyer also to confirm the price, and receipt of the buyer's confirmation will establish the time of sale.

(d) If export is wholly by truck or rail and the time of sale cannot be determined on the basis of the factors set forth in paragraphs (a), (b), or (c) of this section, the sale will be deemed to have been made at the time of issuance of inland bill of lading, or if none is issued, at the time of clearance through United States customs. If export is by ocean carrier and time of sale cannot be determined as outlined above, the sale will be deemed to have been made at the time of issuance of ocean carrier bill of lading, or if none is issued, at the time the wheat or flour is loaded on board ocean carrier.

(e) If the time of day at which the sale was consummated is not established and two payment rates are in effect on the day established in accordance with paragraphs (a), (b), (c), or (d) of this section, the time of consummation of sale will be deemed to be at the time the lower of the two rates was in effect.

§ 571.242 *Conversion factors.* (a) If a single per bushel payment rate applicable to both wheat and flour is in effect, the following conversion factors shall be used to determine the wheat equivalent (in bushels) of flour:

	Bushels per 100 pounds flour
Whole wheat flour	1.67
Patents and straight grade flour (up to 72 percent extraction)	2.33
Flour clears	2.33
80 percent extraction flour	2.17
Semolina and Farina	2.33

(b) If a separate per hundredweight payment rate for flour is in effect, the following conversion factors shall be applied to the announced rate to determine the rate applicable to a particular type of flour:

	Factor
Patents and straight grade flour (up to 72 percent extraction)	1.000
Flour clears	1.000
Semolina and Farina	1.000
80 percent extraction flour	.931
Whole wheat flour	.717

If sales are made at any other extraction rates between 72 and 100 percent, a conversion factor will be furnished by the Vice President upon request.

§ 571.243 *Statement of status of purchases and sales.* The Vice President will issue not less often than weekly, a statement as to the progress of purchases and sales by individual importing and exporting countries against their guaranteed quantities. The Vice President will furnish to any exporter upon request such information as he has available as to the status of the fulfillment of guaranteed quantities under the Wheat Agreement.

§ 571.244 *Maximum and minimum prices.* Maximum prices at which wheat may be sold under the Wheat Agreement will be announced from time to time by the Vice President. The Wheat Agreement provides that to such maximum prices may be added such carrying charges and marketing costs as may be agreed between buyer and seller. (See § 571.255 (b) (3) (i)). The Vice President also will announce minimum prices when appropriate.

CONFIRMATION OF SALE

§ 571.248 (a) *Confirmation of sale.* Upon receipt of the Notice of Sale required by § 571.255 the Vice President will confirm the sale by telegram and specify that the transaction, or any part thereof, is eligible for payment upon proof that the conditions set forth in this program have been met, unless he determines that the transaction is ineligible for entry in the records of the Wheat Council under the provisions of the Wheat Agreement or unless he determines that the transaction would not obtain for the U. S. the maximum benefits under the Wheat Agreement. Accordingly, it may be to the exporter's advantage in some instances to ascertain from the Vice President prior to making a sale whether the sale may be confirmed. It shall be the responsibility of the exporter to protect himself (for example, by inserting an appropriate provision into his sales contract) against the possibility that the transaction will not be confirmed. It shall not be the duty or responsibility of the Vice President to guarantee that a transaction which appears to the exporter prior to sale to be eligible for recording in the Wheat Council's records, will be confirmed.

(b) *Assigning of numbers.* Each confirmation by the Vice President will be assigned a number which shall be called the PMA Sales Number. This number will be included in the confirmation of sale, and thereafter shall be shown on the Declaration of Sale (See § 571.256), the Notice of Export, and Voucher Form FDA–564, and in all correspondence with reference to the transaction.

§ 571.249 *Eligibility for entry in the Wheat Council's records.* The Wheat Agreement provides that:

(a) *Wheat.* A transaction or part of a transaction in wheat-grain between a participating exporting and importing country is eligible for entry in the Wheat Council's records against guaranteed quantities of those countries for a crop year:

(1) *Provided*, That (i) it is at a price (determined to be the equivalent price at port of export to No. 1 Manitoba Northern bulk wheat in store Fort William-Port Arthur, Canada), not higher than the maximum nor lower than the minimum in effect during the crop year in which the loading period specified in the transaction falls and (ii) the exporting and importing countries have not agreed that it shall not be entered against their guaranteed quantities, and

(2) To the extent that (i) both the exporting and importing countries concerned have unfilled guaranteed quantities for the crop year, and (ii) that the loading period specified in the transaction falls within that crop year.

(b) *Flour.* If a commercial contract or governmental agreement on the sale and purchase of flour contains a statement, or if the exporting country and the importing country concerned inform the Wheat Council that they are agreed that the price of such flour is consistent with the maximum or minimum price in effect during the crop year in which the loading period specified in the transaction falls, the wheat-grain equivalent of such flour shall, subject to the conditions prescribed in paragraph (a) (1) and (2) of this section, be entered in the Wheat Council's records against the guaranteed quantities of those countries. If there is not such statement or agreement as specified in this paragraph, either country involved in the transaction may request the Wheat Council to decide whether the quantity sold should be entered in its records and the Wheat Council shall decide whether the price at which the flour was sold justified the entry of the transaction in the records.

ELIGIBLE COUNTRIES

§ 571.253 *Eligible countries.* An eligible country shall be any one of the following countries, including all territories for the foreign relations of which the Government of that country is responsible, unless announcement has been made excepting certain territories:

Austria.	Italy.
Belgium.	Japan.
Bolivia.	Lebanon.
Brazil.	Liberia.
Ceylon.	Mexico.
Costa Rica.	Netherlands.
Cuba.	New Zealand.
Denmark.	Nicaragua.
Dominican Republic.	Norway.
Ecuador.	Panama.
Egypt.	Peru.
El Salvador.	Philippines.
Germany.	Portugal.
Greece.	Saudi Arabia.
Guatemala.	Spain.
Haiti.	Sweden.
Honduras.	Switzerland.
Iceland.	Union of South Africa
India.	United Kingdom.
Indonesia.	Venezuela.
Ireland.	
Israel.	

The foregoing list may be amended from time to time. Nothing in this subpart shall be deemed to authorize the exportation of wheat or flour in violation of any statute, order or regulation now in existence or hereafter established.

REPORTS

§ 571.255 *Notice of sale*—(a) *Time.* (1) Notice of the consummation of a sale of wheat or flour for export shall be given to the Vice President within the time stated in the rate announcement as the final time for filing such notices, unless such time is extended by the Vice President.

(2) The order in which transactions are reported (time of filing telegraphic notice or time of giving telephonic notice) assumes importance when guaranteed quantities are near to being filled. Notices of Sale should normally be filed by telegraph or by telephone. Telephone notices should be confirmed immediately by telegraph.

(3) If notice is not given by telephone, and the exporter desires to take advantage of the current rate of payment, the telegram reporting sale must be filed before 3:30 p. m., e. s. t., on the expiration date shown in the rate announcement.

(4) A Notice of Sale may include all sales made to any one eligible country during any 24-hour period ending at 3:30 p. m., e. s. t. It shall be normal practice when such multiple sales are submitted on one telegraphic Notice of Sale to assign one PMA Sales Number to apply to all sales to a particular country shown on that telegram. Sales made to any one eligible country during any 24-hour period which are reported on separate telegrams will be assigned individual PMA Sales Numbers.

(b) *Information required.* In giving Notice of Sale the exporter must report the following information:

(1) Date and time of sale.

(2) Contract quantity:

(i) Wheat in bushels.

(ii) For bulk wheat the contract loading tolerance, if any, in percentage, but not in excess of five percent.

(iii) Flour in net hundredweight.

(3) Sale price:

(i) In the case of wheat, the sale price must be shown on an f. o. b. vessel bulk basis, except that on exports from West Coast ports price may be given on an in-store basis. In addition, the coast of export must be shown. If, because of marketing costs and carrying charges as provided for in § 571.244, the sales price exceeds the maximum price, the Notice of Sale must show the total price and the amount thereof included as charges for marketing costs and carrying charges, each shown separately. If a carrying charge has been determined and announced by the CCC in connection with the maximum price, no additional carrying charge shall be included in the sales price. The f. o. b. or the in-store price shown shall include all charges and commissions necessary to the sale and moving of the wheat to the f. o. b. or the in-store position. For example, a selling agent's commission shall be included, whereas guaranteed out-turn insurance shall not be included.

(ii) In case of flour, the sales price need not be shown but the notice must contain a certification that buyer and seller agree that the price of the flour is consistent with the terms of the Wheat Agreement. This may be reported by the code word "Akord."

(4) Purchasing country.

(5) Name of purchaser. (In cases in which the sale involves more than one purchaser, the Notice of Sale should contain the name of one purchaser and the word "others.")

(6) The Number of each import license, buying permit, or similar authorization applicable to the sale, for those countries where such is required for IWA transactions, unless otherwise authorized by the Vice President.

(7) Delivery period specified in contract.

(8) Class and grade of wheat.

(9) The word "Abroad" for wheat or flour exported prior to sale. (See § 571.238 (d).)

(10) Such additional information in individual cases as may be requested by the Vice President.

§ 571.256 *Declaration of sale and evidence of sale*—(a) *Time of submission and required copies.* (1) The exporter shall prepare a Declaration of Sale (Wheat Agreement Form No. 1) and mail it to the Vice President normally within two days after receipt of the Vice President's confirmation.

(2) The Declaration of Sale must be submitted in triplicate where there is only one buyer, and in quadruplicate where there is more than one buyer. The original and all copies shall be signed in an original signature by the exporter or his authorized representative and forwarded to the Vice President. One copy of the Declaration of Sale will be acknowledged and returned to the exporter.

(3) One Declaration of Sale normally should be submitted by the exporter for each sale identified by a PMA number assigned in the Confirmation of Sale (see § 571.248 (b)), although this is not mandatory. If more than one Declaration of Sale is submitted, the letters A, B, C, etc., shall be added to the PMA Sales Number on the respective declarations.

(b) *Information required.* The information to be entered on the Wheat Agreement Form No. 1, Declaration of Sale, is as follows:

(1) The PMA Sales Number as assigned in the Confirmation of Sale.

(2) Date and time of sale.

(3) Name of purchaser, or purchasers.

(4) The Number of each import license, buying permit, or similar authorization applicable to the sale, for those countries where such are required for IWA transactions. The applicable number(s) shall be entered following each buyer's name. All applicable numbers shall be so entered, even though such numbers were reported in the Notice of Sale.

(5) Quantity sold:

(i) Wheat in bushels. If, in the case of bulk wheat, the sales contract provides for a loading tolerance, the amount of such tolerance, but not to exceed five percent, given in percentage figures shall be entered directly following the quantity sold.

(ii) Flour in net hundredweight.

(6) Purchasing country. (If the country of final destination is other than the purchasing country the country of final destination shall be shown on a parenthetical entry following the name of the purchasing country.)

(7) Delivery period specified in the contract.

(8) Class and grade of wheat or type and extraction of flour. In the case of flour, the class of wheat from which the flour was milled must be shown where possible. For example, "Hard Spring."

(9) Price and basis upon which price determined:

(i) The sales price in the case of wheat must be given on an f. o. b. vessel bulk basis on exports from Gulf and East Coast ports and on an in-store or f. o. b. vessel, bulk, basis on exports from the West Coast ports. If, because of marketing costs and carrying charges as provided for in § 571.244, the sales price of wheat exceeds the maximum price, the Declaration shall show the total price and the amount thereof included as charges for marketing costs and carrying charges, each shown separately. If a carrying charge has been determined and announced by the CCC in connection with the maximum price, no additional carrying charge shall be included in the sales price. The f. o. b. or the in-store price shown shall include all charges and commissions necessary to the sale and the moving of the wheat to the f. o. b. or the in-store position. For example, a selling agent's commission shall be included, whereas guaranteed out-turn insurance shall not be included.

(ii) The price for flour must be given as stated in the sales contract.

(10) Export rate per bushel of wheat or per hundredweight of flour in effect as determined by § 571.241.

(11) Coastal area from which it is anticipated exportation will be made.

(12) Such additional information in individual cases as may be requested by the Vice President.

(c) *Name in which filed.* The Declaration of Sale must be filed in the name of the exporter who has sold the wheat or flour to a foreign buyer. Persons or firms selling wheat or flour to others who resell such wheat or flour to foreign buyers are not exporters. If a sale is made under a trade name, the Declaration of Sale may be filed under such name provided the name of the actual exporter and the relationship between the two is clearly established by an appropriate signature on the Declaration and all other documents to it, such as:

American Milling Company
(Trade name)
U. S. Milling Company
(s) John Smith, *Secretary*

(d) *Evidence of sale.* Supporting evidence of sale, in one copy only, must be filed with each Declaration of Sale. Such evidence may be in the form of certified true copies of offer and acceptance or other documentary evidence of sale including contracts exchanged between exporter and buyer. In the case of flour the exporter must also furnish a signed statement or other acceptable evidence, such as an exchange of cables, to the effect that buyer and seller agree that the price of the flour is consistent with prices specified in the Wheat Agreement.

§ 571.257 *Notice of export*—(a) *Time of submission and required copies.* Only one Notice of Export, Wheat Agreement Form No. 2, is required in connection with any one Declaration of Sale. Such Notice of Export must be filed by the exporter normally within three days after date of export of the last shipment against the quantity shown as sold on the applicable Declaration of Sale, unless such time of filing is extended by the Vice President.

(b) *Information required.* The Notice of Export shall contain the following information:

(1) PMA sales number.

(2) Date of export of final shipment.

(3) Country of destination.

(4) Total quantity actually loaded on all shipments made in connection with applicable Declaration of Sale:

(i) Wheat in bushels, excluding dockage.

(ii) Flour in net hundredweight.

(5) The U. S. coastal area or areas from which the wheat or flour was exported. If more than one coastal area is involved, the quantity exported from each should be shown. This information should be entered on Wheat Agreement Form No. 2 even though not specifically called for on the form.

(6) Such additional information in individual cases as may be requested by the Vice President.

§ 571.258 *Additional reports.* The exporter shall file such additional reports as may be required from time to time by the Vice President, subject to the approval of the Bureau of the Budget.

APPLICATION FOR PAYMENT

§ 571.260 *Application for payment.* The exporter shall file application for payment under this program in the manner set forth in §§ 571.261 and 571.263.

§ 571.261 *Public Voucher Form FDA–564.* An original and two (2) copies of Form FDA–564 must be prepared and submitted together with the evidence of exportation set forth in § 571.262. Supplies of Form FDA–564 and detailed instructions regarding the preparation and submission of Forms FDA–564 and supporting documents may be obtained from the PMA Commodity Offices listed in § 571.263 or from the office indicated in § 571.275.

§ 571.262 *Documents required to evidence exportation by exporters*—(a) *Bills of lading or Shipper's Export Declaration.* Each voucher must be supported by one copy of the applicable on-board ocean carrier bill of lading signed by an agent of the ocean carrier which shows that the wheat or flour is destined for the buyer identified with the Declaration of Sale and supporting evidence. Where loss, destruction or damage occurs subsequent to loading on board ocean carrier but prior to issuance of on-board bill of lading, one copy of a Loading Tally Sheet or similar document may be submitted in lieu of such bill of lading; or if exported wholly by rail or truck, one authenticated copy of the Shipper's Export Declaration authenticated by the appropriate United States Customs official, which identifies the shipment(s) and shows date of clearance into the foreign country. In the case of wheat, the voucher must also be supported by one copy of an Export Grain Inspection Certificate issued by an inspector holding a license under the United States Grain Standards Act. Where shipment is exported from a Canadian port, the voucher also must be supported by one copy each of the following documents:

(1) For wheat:

(i) A signed or certified true copy of the bill of lading or other document covering the movement of the wheat from the United States to Canada, and

(ii) A signed or certified true copy of document evidencing the holding of the wheat in customs bond in Canada.

(2) For flour:

(i) A signed or certified true copy of the bill of lading or other document covering the movement of the flour from the United States to Canada, and

(ii) A statement by the exporter, certified as being a true and correct statement, that the flour for which export payment is claimed is the same flour covered by the bill of lading or other document as required by subdivision (i) of this subparagraph. If the final destination of the shipment is an eligible country not shown on the ocean bill of lading, the exporter also shall furnish an authenticated copy of Shipper's Export Declaration showing country of final destination.

(b) *Shipper or consignor other than exporter.* If the shipper or consignor named in the on-board ocean bill(s) of lading of the Shipper's Export Declaration(s), covering wheat or flour exported, is other than the exporter named in the Notice of Sale and Declaration of Sale, waiver by such shipper or consignor of any interest in the claim in favor of such exporter is required. Such waiver must clearly identify the on-board ocean bill(s) of lading or Shipper's Expert Declaration(s) submitted to evidence exportation. If the shipper or consignor is neither the exporter named in the Notice of Sale and Declaration of Sale, nor the consignee identified with the Declaration of Sale and supporting evidence of sale, the exporter must submit, in addition to the waiver, a certification by such shipper or consignor that he acted only as a freight forwarder, agent of exporter, or agent of consignee, and not as buyer and seller of the wheat or flour shown on the documents submitted to evidence exportation.

(c) *Statements evidencing resale.* In connection with the sale of wheat or flour under the Wheat Agreement to an eligible country which is resold for export to another eligible country, the following additional documents must be included with the voucher:

(1) A statement by appropriate government authority of the original purchasing country, or the government of the eligible country to which shipment is directed, to CCC to the effect that the sale may be recorded against the Wheat Agreement guaranteed quantity of that country. A copy also should be submitted to the Vice President. (In some cases this statement may be furnished directly to the Vice President at the discretion of the appropriate authority of the purchasing country instead of being submitted with the voucher, in which event appropriate notation should be made on the voucher.)

(2) A statement from the buyer directing shipment to the second Wheat Agreement country if the contract or supporting evidence of sale does not provide for such shipment.

(d) In the event of export prior to sale such additional documents as required by § 571.238 (f) must also accompany the voucher.

§ 571.263 *Submission of vouchers for payment.* Exporters should submit vouchers and required supporting documents to the offices listed below which service the States in which the exporters' invoicing office is located.

OBLIGATION AND DEFAULT

§ 571.265 *Exporter's agreement with CCC.* Giving Notice of Sale to CCC by the exporter, when confirmed by CCC, shall constitute an agreement by the exporter to export the quantity of wheat or flour within the prescribed period stated in the Notice of Sale and in accordance with this subpart, in consideration of the undertaking of CCC to make an export payment.

§ 571.266 *Cancellation of sale or failure to export.* (a) The exporter shall notify the Vice President promptly in every case where, after giving Notice of Sale as required in § 571.255, a sale is canceled by the exporter or by the importer, and he must state the reason for such cancellation. The exporter also shall notify the CCC promptly when, for any reason, it becomes apparent to him that he will not be able to fulfill his obligation to the CCC by making shipment within the prescribed period.

(b) If the Vice President determines that any exporter due to the cancellation of a sale or failure to export or for other reasons, has failed to discharge fully any obligation assumed by him under this subpart such exporter may be denied the right to continue participating in this or any subsequent program for such period as the Vice President may determine or until the exporter has complied with such terms as the Vice President may prescribe. Such terms, among other things, may

(1) Require the refund of payments previously made to the exporter in an amount equivalent to twenty (20) percent of the payment applicable to the quantity of wheat or flour with respect to which the exporter has failed to fulfill his obligation, or

(2) Require the making of future shipments not in excess of such quantity at a payment rate which is reduced by an amount equivalent to twenty (20) percent of the payment rate applicable to such quantity, or

(3) Require a combination of subparagraphs (1) and (2) of this paragraph.

MISCELLANEOUS PROVISIONS

§ 571.270 *Records and accounts.* Each exporter shall maintain accurate records showing sales and deliveries of wheat or flour exported or to be exported in connection with this program. Such records, accounts, and other documents relating to any transaction in connection with this program shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for two years after date of export.

§ 571.271 *Assignments.* No exporter shall, without the written consent of the Vice President, assign any right of the exporter against the CCC under this subpart. The exporter may, however, name a joint payee on Voucher Form FDA-564.

§ 571.272 *Good faith.* If the Vice President determines that any exporter has not acted in good faith in connection with any transaction under this subpart, such exporter may be denied the right to continue participating in this program or the right to receive payment under this subpart in connection with any sales previously made under this program, or both.

§ 571.273 *Amendment and termination.* This offer may be amended or terminated by the Vice President at any time by public announcement of such amendment or termination. Any such amendment or termination shall not be applicable to sales for export (which otherwise comply with the terms of this offer) made before the effective time and date of such amendment or termination.

§ 571.274 *Persons not eligible.* No member or delegate to Congress, or resident commissioner, shall be admitted to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 571.275 *Submission of reports.* The Notice of Sale, Declaration of Sale, Notice of Export, and related reports required under this subpart to be submitted to the Vice President, should be addressed as follows:

Chief, Wheat Agreement Staff,
Production and Marketing Administration
(In telegrams: "PMA"),
U. S. Department of Agriculture,
Washington 25, D. C.

DEFINITIONS

§ 571.280 *Vice President.* "Vice President" means the Vice President of the Commodity Credit Corporation who is Assistant Administrator for Commodity Operations, Production and Marketing Administration.

§ 571.281 *Wheat Agreement.* "Wheat Agreement" means the International Wheat Agreement ratified by the President on June 17, 1949, pursuant to the advice and consent of the Senate.

§ 571.282 *Wheat Council.* "Wheat Council" means the International Wheat Council established by Article XIII of the Wheat Agreement.

§ 571.283 *Wheat.* "Wheat" means wheat grown in the United States and as defined in the Official Grain Standards of the United States. The quantity of wheat exported which is eligible for export payment shall be determined by deducting from the total weight of the shipment, the weight of any dockage indicated on the inspection certificate issued at time of loading for export.

§ 571.284 *Flour.* "Flour" means flour processed in the United States from wheat as defined in § 571.283, including semolina and farina, but shall not include wheat products produced during a continuing process of manufacturing processed wheat products other than flour or flour mixes which are composed principally of wheat-flour.

§ 571.285 *Export.* Wheat or flour shall be deemed to have been "exported" when loaded on board an ocean carrier, or, if shipment to the eligible country is wholly by truck or rail, when the shipment clears United States Customs.

§ 571.286 *Ocean carrier.* "Ocean carrier" means the vessel on which final shipment from the United States or Canada, other than shipments between such countries, is intended to be made pursuant to a sale confirmed under this program.

§ 571.287 *United States.* "United States" includes the territories and possessions of the United States.

§ 571.288 *3:30 e. s. t.* "3:30 e. s. t." means 3:30 eastern standard time, except that when Washington, D. C., is on daylight saving time 3:30 e. s. t., means 3:30 eastern daylight saving time (2:30 e. s. t.).

Effective time and date. This offer shall be effective on June 23, 1952, at 3:30 p. m., e. s. t.; however, sales may not be made for recording against the 1952–53 Wheat Agreement guaranteed quantity of any importing country until authorized in the daily export payment rate announcement (see § 571.240.)

NOTE: The record keeping and reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 19th day of June 1952.

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES, AND OTHER PRODUCTS

WINTER PEARS

On May 13, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 4352) regarding proposed amendments to the United States Standards for Winter Pears. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following amendments are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1952 (Pub. Law 135, 82d Cong., approved August 31, 1951).

1. In § 51.332 (d) (8) (i) (*d*) insert variety name "Flemish Beauty" after "Easter Beurre."

2. In § 51.332 (d) (10) (iv) (*d*) insert the name "Flemish Beauty" after "Easter Beurre."

3. Add a sentence to the end of the paragraph under subdivision (c) of § 51.332 (d) (12) (i), to read as follows: "On Flemish Beauty smooth russeting shall be permitted on the entire surface."

Effective time. The amendments to the United States Standards for Winter Pears contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

Done at Washington, D. C., this 18th day of June 1952.

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 728—WHEAT

SUBPART—1953–54 MARKETING YEAR

Sec.
728.301 Basis and purpose.
728.302 National marketing quota for wheat for 1953–54 marketing year.
728.303 1953 acreage allotments for wheat.

AUTHORITY: §§ 728.301 to 728.303 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 304, 332, 333, 335, 371, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1304, 1332, 1333, 1335, 1371.

§ 728.301 *Basis and purpose.* The regulations contained in §§ 728.301 to 728.303 are issued to announce that no national marketing quota for wheat shall be in effect during the marketing year beginning July 1, 1953, and that no national, State, county, or farm acreage allotments for wheat will be established for the 1953 crop under the provisions of Title III of the Agricultural Adjustment Act of 1938, as amended.

Section 335 of the act provides, in effect, that whenever in the calendar year 1952 the Secretary of Agriculture determines (1) that the total supply of wheat for the 1952–53 marketing year will exceed the normal supply for such marketing year by more than 20 per centum, or (2) that the total supply of wheat for the 1951–52 marketing year is not less than the normal supply for such marketing year and that the average farm price for wheat for three consecutive months of such marketing year did not exceed 66 per centum of parity, the Secretary shall, not later than July 1, 1952, proclaim such fact and a national marketing quota shall be in effect on the marketing of wheat during the 1953–54 marketing year. Section 332 of the act requires the Secretary, not later than July 15 of each marketing year, to ascertain and proclaim the total supply and the normal supply of wheat for such marketing year and to proclaim the national acreage allotment for the next crop of wheat.

Section 371 (b) of the act authorizes the Secretary of Agriculture to dispense with marketing quotas or acreage allotments for any basic agricultural commodity if he finds, after appropriate investigation, that such action is necessary to effectuate the declared policy of the act, or to meet a national emergency or increase in export demand for the commodity. Section 304 of the act provides that in carrying out the purposes of the act, it shall be the duty of the Secretary to give due regard to the maintenance of a continuous and stable supply of agricultural commodities from domestic production adequate to meet consumer demand at prices fair to both producers and consumers.

Pursuant to Section 371 (b) of the act, an investigation has been made to determine whether marketing quotas should be proclaimed for the 1953–54 marketing year. On the basis of that investigation, it is hereby found and determined that it is necessary, in order to effectuate the declared policy of the act and to meet the present national emergency, that marketing quotas should not be proclaimed for the 1953–54 marketing year. Accordingly § 728.302 states that no quotas will be in effect for that marketing year.

Pursuant to section 371 (b) of the act, an investigation has been made to determine whether acreage allotments should be in effect for the 1953 wheat crop. On the basis of that investigation, it is hereby found and determined that it is necessary, in order to effectuate the declared policy of the act and to meet the present national emergency, to dispense with national, State, county, and farm acreage allotments for the 1953 wheat crop. That action is made effective by the issuance of § 728.303.

Prior to taking the action herein, public notice was given (17 F. R. 4655), in accordance with the Administrative Procedure Act (5 U. S. C. 1003), that the Secretary was preparing to determine whether marketing quotas are required for the 1953 wheat crop, and to determine and proclaim the national acreage allotment for that wheat crop. The notice also stated that the Secretary had under consideration the matter of dispensing with marketing quotas and acreage allotments under the applicable provisions of the act, including sections 304 and 371 (b). All written submissions which were received within the period stated in the notice have been considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 728.302 *National marketing quota for wheat for the 1953–54 marketing year.* The average farm price for wheat has not been as low as 66 per centum of the parity price for wheat for three successive months in the 1951–52 marketing year. The total supply of wheat for the 1952–53 marketing year is determined to be 1,604 million bushels. The normal supply of wheat for such marketing year is determined to be 1,253 million bushels. This total supply exceeds the normal supply by more than 20 per centum. However, pursuant to the applicable provisions of the act, including section 371 (b), it has been determined that no national marketing quota for wheat shall be in effect during the 1953–54 marketing year.

§ 728.303 *1953 acreage allotments for wheat.* No national, State, county or farm acreage allotments will be established for the 1953 wheat crop.

Issued at Washington, D. C., this 19th day of June, 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 924—MILK IN DETROIT, MICH., MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED

§ 924.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, as amended, and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Detroit, Michigan, during May 12–16, 1952, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Detroit, Michigan marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than June 20, 1952, this order amending the said order, as amended. This action is necessary in the public interest in order to reflect current marketing conditions and to insure the production of an adequate supply of milk. Accordingly, any further delay in the effective date of this order, as amended, and as hereby further amended, will seriously impair orderly marketing of milk in the Detroit, Michigan marketing area. The provisions of the said amendatory order are well known to handlers—the public hearing having been held May 12–16, 1952, and the decision having been executed by the Secretary on June 16, 1952. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (See section 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the Detroit, Michigan marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who, during the determined representative period (April 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

Amend § 924.52 by inserting at the end of the first paragraph after the word "section" the following: "*Provided*, That for the months of May, June and July, there shall be credited to each handler with respect to butterfat used in the manufacture of butter and skim milk used in the manufacture of non-fat dry milk solids in the handler's plant, or transferred to and so used in a plant not operated by a handler after first allocating such butterfat and skim milk to any uses in such plant other than for the manufacture of butter and non-fat dry milk solids, an amount per pound of butterfat equal to the excess of the Class II price determined under this paragraph over a price computed as the sum of the prices determined under subparagraphs (1) and (2) of paragraph (a) of this section less 67 cents, such excess to be multiplied by 0.18, and an amount per hundredweight of skim milk equal to such excess multiplied by 0.36."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 19th day of June 1952, to be effective on and after the 20th day of June 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[Plum Order 5]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 936.427 *Plum Order 5*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237, 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 25, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 25, 1952; and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 25, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Tragedy plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 5 x 6 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 6 x 6 standard pack in a standard basket if said quantity does not exceed twenty-five (25) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 5 x 6 standard pack, as aforesaid. The aforesaid 5 x 6 standard pack and 6 x 6 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 5 x 6 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 5 x 6 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{5}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 6 x 6 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{5}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{3}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{3}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

The shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

LIMITATIONS OF SHIPMENTS

§ 936.428 *Plum Order 6*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 25, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 25, 1952, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 25, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Eldorado plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed eleven and eleven one-hundredths (11.11) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

The shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 936.429 *Plum Order 7*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 25, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 25, 1952; this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 25, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Wickson plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed thirty three and one-third ($33\,^1/_3$) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper, shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

The shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 936.430 *Plum Order 8*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 25, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 25, 1952; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any

preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 25, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship any package or container of Burbank plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) Such plums are of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this regulation, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measures less than $1^{7}/_{16}$ inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m., of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

The shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 936.431 *Plum Order 9*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the Amador, Apex, California Blue, Earliana, Gros Hungarian, Satsuma, Improved Satsuma, Shiro, Splendor, and Standard varieties (hereinafter referred to as "miscellaneous varieties of plums"), in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 25, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of the miscellaneous varieties of plums are expected to begin on or about June 25, 1952, this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 25, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship any package or container of miscellaneous varieties of plums unless such plums grade at least U. S. No. 1.

(2) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m., of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

The shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulation applicable to such shipment.

(3) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the term "U. S. No. 1," shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360.

PART 936—FRESH BARTLETT PEARS, PLUMS AND ELBERTA PEACHES GROWN IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 936.432 *Plum Order 10*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett

pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 26, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 26, 1952; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 26, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship any package or container of Gaviota plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed two hundred (200) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped from such shipping point of such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{13}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

The shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

§ 957.309 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and in Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and amended order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth in this section, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of

handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning 12:01 a. m., m. s. t., June 25, 1952, and ending on 12:01 a. m., m. s. t., June 1, 1953, no handler shall ship potatoes of any variety unless such potatoes meet the requirements of the U. S. No. 2 or better grade, $1\frac{7}{8}$ inches minimum or larger diameter or 3 ounces minimum weight, except that no handler may ship potatoes of the red skin varieties unless (i) such potatoes meet the requirements of the U. S. No. 1 or better grade, $1\frac{7}{8}$ inches minimum or larger diameter, (ii) such potatoes meet the requirements of the U. S. No. 2 or better grade, $1\frac{1}{2}$ inches minimum or larger diameter, and (iii) such potatoes meet the requirements of the U. S. No. 1 grade, Size B, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein.

(2) Pursuant to § 957.55, each handler may ship not in excess of five hundredweight per week without regard to the limitations set forth in subparagraphs (1) and (3) of this paragraph and §§ 957.42 and 957.65.

(3) During the period beginning 12:01 a. m., m. s. t., June 25, 1952, and ending 12:01 a. m., m. s. t., November 1, 1952, no handler shall ship (i) Russet Burbank potatoes which are more than "moderately skinned" as such term is defined in the U. S. Standards for Potatoes, which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, (ii) potatoes of the red skin varieties if more than 20 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, as such terms are used in the U. S. Standards for Potatoes, and (iii) potatoes of the White Rose variety if more than 35 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, as such terms are used in the U. S. Standards for Potatoes: *Provided*, That the grade and size requirements set forth in subparagraph (1) of this paragraph will be equally applicable to potatoes shipped under the maturity requirements set forth in this subparagraph.

(4) The limitations set forth in subparagraphs (1) and (3) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Seed, (ii) export, (iii) sale to the Federal government under programs authorized by the Secretary of Agriculture, (iv) canning, dehydration, or manufacture or conversion into starch, flour, meal, and alcohol, and (v) charity: *Provided*, That each handler prior to making special purpose shipments pursuant hereto shall file an application with the committee for permission to make such shipments, shall have each of such shipments (except shipments of seed potatoes) inspected pursuant to § 957.65 and shall pay assessments in connection therewith pursuant to § 957.42, and for each such shipment made pursuant to subdivisions (ii), (iv), and (v) of this subparagraph, shall furnish a copy of the bill of lading applicable thereto to the committee: *Provided further*, That each handler making shipments of potatoes pursuant to subdivision (ii) of this subparagraph shall include in his application applicable thereto, the export license number and shall enter such number on the Federal-State inspection certificate and bill of lading applicable to such shipment, or in the event that no export license is required on such shipment the handler thereof shall furnish the committee with a copy of the Department of Commerce Shippers Export Declaration Form No. 7525-V applicable to such shipment, and that each application to ship potatoes pursuant to subdivisions (iv) and (v) of this subparagraph shall be accompanied by the applicant handler's certification and the buyer's certification that the potatoes to be shipped are to be used for the purposes stated in the application.

(5) The terms used in this section shall have the same meaning as when used in Order No. 57, as amended (7 CFR Part 957), and the aforementioned grades and sizes shall have the same meanings assigned these terms in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein.

In the Matter of Zlotnick the Furrier, Inc., a Corporation, Samuel D. Zlotnick, Sidney Zlotnick, and Mrs. Renee Z. Kraft, Individually and as Officers of Zlotnick the Furrier, Inc., a Corporation

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on July 17, 1950, issued and subsequently served its complaint in this proceeding upon the respondents named in the caption hereof, charging said respondents with the use of unfair methods of competition in commerce and unfair and deceptive acts and practices in commerce in violation of the provisions of said act. After the issuance of said complaint and the filing of respondents' joint answer, pursuant to leave to withdraw such original answer and to file a substitute answer dated September 20, 1950, as granted by the hearing examiner of the Commission duly designated in the complaint to act in this proceeding, respondents' substitute answer was filed, in which answer the respondents admitted all the material allegations of fact set forth in the complaint and waived all intervening procedure and further hearing as to the facts. On January 3, 1951, the hearing examiner filed his initial decision.

Thereafter, within the time permitted by the rules of practice of the Commission, counsel supporting the complaint and respondents filed notices of their intention to appeal from the initial decision of the hearing examiner, said appeals subsequently were filed herein, and the proceeding regularly came on for final consideration by the Commission upon the complaint, the substitute answer, the initial decision of the hearing examiner, the appeals therefrom, briefs filed in support of and in opposition to said appeals, and oral argument; and the Commission, having duly considered the record and having ruled upon said appeals and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes the following findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondent, Zlotnick The Furrier, Inc., a corporation, and its officers, representatives, agents and employees, and respondents, Samuel D. Zlotnick, Sidney Zlotnick, and Mrs. Renee Z. Kraft, their representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of fur products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or by implication, that the customary or regular price of respondents' merchandise is any amount in excess of the price at which such merchandise is being offered for sale or has been sold by respondents in recent regular course of business, or otherwise misrepresenting the customary or regular price of respondents' merchandise.

(2) Representing, directly or by implication, that respondents' regular prices are reduced prices or that any savings are afforded to purchasers of respondents' garments in excess of those savings actually afforded.

(3) Using pictures or illustrations purporting to be bona fide illustrations of garments therein identified as to grade, type or price which are being offered in respondents' stores, unless any garment so designated is in stock or otherwise available to customers under the conditions stated in such advertising matter and at such price as may be designated in the advertisement.

(4) Representing, directly or by implication, that respondents' prices are lower than those charged by competitors unless respondents' prices are lower than prevailing competitive prices for merchandise of like grade and quality or representing that respondents' prices are so low as to cause competitors to seek to buy respondents' garments for resale when such is not the case.

(5) Representing, directly or by implication, that respondent's garments are in any manner guaranteed unless the terms of such guarantee or warranty are clearly disclosed in immediate conjunction therewith and unless respondents in fact afford the guarantee of security represented, or enforcing or attempting to enforce any policy of refusing to permit the return of merchandise or to make refunds therefor when the enforcement of any such policy would be in derogation of any guarantee made in connection with the sale of respondents' merchandise.

(6) Representing that such of respondents' garments as are characterized by defective or inferior materials or workmanship are of high quality, that merchandise fashioned in old or discontinued styles are superbly or modernly styled or that garments made from damaged, or old or obsolete less valuable furs contain luxurious peltries.

(7) Representing that trade-in allowances on old or previously used fur coats may be obtained by purchasers of new garments from respondents when the prices of respondents' merchandise have been advanced above respondents, regular prices in any amount serving to nullify or offset such allowances.

(8) Representing, directly or by implication, that delivery of merchandise will be made to purchasers upon payment made or completed of one-third or any other part of the purchase price of garments sold or which have been laid aside for the customer under respondents' lay-away plan without clearly and simultaneously disclosing that the time of delivery depends upon establishment of a credit rating acceptable to respondents for payment of the balance due; or using any other sales plan which misleads or deceives purchasers or enables respondents' salesmen to mislead or deceive purchasers respecting the terms and conditions under which possession of respondents' merchandise will be accorded to the customer.

(9) Marking respondents' merchandise with prices in excess of those at which respondents expect to sell such merchandise in regular course of business.

(10) Removing or stripping identifying markings from garments at the time of delivery thereof to purchasers for the purpose of eliminating purchasers' knowledge as to the exact garment being delivered or failing to provide customers with written data identifying the garments purchased by them in instances in which respondents have appropriated from or required the return from customers of purchase contract agreements or other documentary identification of the garments being sold.

(11) Failing to deliver to any purchaser complying with the terms of the sales agreement the garment selected and bought by such purchaser.

(12) Refusing to refund the payments of any purchaser who has complied with the terms of the sales agreement in instances in which respondents fail to deliver to the purchaser the garment bought and selected by him.

It is further ordered, That the charges of the complaint referred to hereinbefore in the last two paragraphs of the "Conclusion" be, and the same hereby are, dismissed.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order,

[1] Filed as part of the original document.

file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 31, 1952.

In the Matter of Lester Rothschild Individually and Trading as Gen-O-Pak Company

This proceeding was heard by Webster Ballinger, hearing examiner, theretofore duly designated by the Commission, upon the amended complaint of the Commission, respondent's answer, and hearings at which testimony and other evidence (which were duly recorded and filed in the office of the Commission) were introduced before said examiner in support of and in opposition to the allegations of said amended complaint.

Thereafter the proceeding regularly came on for final consideration by said examiner on the amended complaint, the answer thereto, testimony and other evidence, and proposed findings as to the facts and conclusions presented by respective counsel, oral argument not having been requested, and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

Thereafter the matter was disposed of by the Commission's "Order denying respondent's appeal from initial decision of the hearing examiner, decision of the Commission and order to file report of compliance", Docket 5853, March 27, 1952, as follows:

This matter came on to be heard by the Commission upon the respondent's appeal from the initial decision of the hearing examiner herein and upon the briefs and oral argument of counsel in support of and in opposition to said appeal.

Respondent contends in said appeal that the hearing examiner's findings as to the facts and conclusion that the respondent has engaged in unfair and deceptive acts and practices in connection with the sale and use of certain post cards and form letters to obtain information from or concerning delinquent debtors, and his order against the continuation of such acts and practices, are not substantiated by the evidence in the record; and that the hearing examiner erred in failing to make certain conclusions of law to the effect that the activities of the respondent challenged in the amended and supplemental complaint are not in interstate commerce, that the relief sought is an attempt by the Commission to regulate the use of the mails, that the activities of the respondent do not as a matter of law constitute any deception or tendency to deceive, that the statements and representations made by the respondent are true, and that all of the acts and practices of the respondent are lawful, valid, and legitimate.

The record herein shows that the respondent sells certain post cards and form letters which are used to obtain information from or concerning delinquent debtors. The post cards and form letters are shipped by the respondent from his place of business in Illinois to customers located in various other States of the United States. Such customers address such cards and letters and return them to the respondent, who then mails them. Respondent trades under the names of "Gen-O-Pak Company", "Manpower Classification Bureau", and "American Deposit System". One of the cards sold and distributed by respondents contains the representation that the respondent is holding a package for the person from whom or about whom information is requested. The package referred to on the card is made up by the respondent and contains pen points and advertising matter relating to pen points. One of the form letters sent out by the respondent, under the trade name of "Manpower Classification Bureau", contains the representation that the respondent is operating a labor classification bureau or other bureau for the purpose of obtaining information as to the manpower or employment situation or the availability of manpower in certain areas. Another form sent out by the respondent, under the trade name of American Deposit System, contains the representation that a sum of money has been deposited with the respondent for the person from whom or about whom information is requested. Respondent's business, so far as recipients of the form letters are concerned, has nothing to do with manpower classification or employment surveys and no money has been deposited with the respondent for persons to whom the letters are sent. The only money sent by the respondent to such persons is 3 cents. The statements and representations contained in the post cards and form letters so sold and distributed by the respondent, as well as his use of the trade names "Manpower Classification Bureau" and "American Deposit System", clearly have the capacity and tendency to mislead and deceive the recipients of such cards and letters. It is immaterial that the record does not contain evidence of actual deception.

Respondent's contentions that the Commission is without jurisdiction in this matter because the respondent is not engaged in interstate commerce and also because the relief sought is an attempt to regulate the use of the United States mails, which power, if it exists, is vested solely in the Postmaster General of the United States, are without merit. As stated hereinabove, respondent sells and ships the cards and form letters to customers located in States other than the State of Illinois. After such cards and letters are addressed by such customers, they are returned to the respondent for mailing to the addressees and information received by respondent is forwarded to his customers. These acts and practices clearly constitute commerce as "commerce" is defined in the Federal Trade Commission Act. The Federal Trade Commission is vested with the duty and authority to prevent unfair and deceptive acts and practices in commerce. The fact that the respondent may have used the United States mails in connection with his engaging in the aforesaid unfair and deceptive acts and practices in commerce does not serve to divest the Commission of its authority and responsibility in this respect.

[1] Filed as part of the original document.

The Commission is of the opinion that the findings as to the facts in the hearing examiner's initial decision are supported by substantial, probative evidence in the record; that the conclusion contained therein is correct; and that the order is adequate and appropriate to provide proper relief from the respondent's unlawful acts and practices.

The Commission, therefore, being of the opinion that the respondent's appeal is without merit and that the initial decision of the hearing examiner is appropriate in all respects to dispose of this proceeding:

It is ordered, That the respondent's appeal from the initial decision of the hearing examiner be, and it hereby is, denied.

It is further ordered, That the initial decision of the hearing examiner, a copy of which is attached, shall, on the 27th day of March, 1952, become the decision of the Commission.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist.

The order in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That respondent Lester Rothschild, individually and trading as Gen-O-Pak Company, or under any other name, and his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution, or use in commerce, as "commerce" is defined in the Federal Trade Commission Act, of forms, letters, cards, or any other written or printed material for use in obtaining information concerning debtors or alleged debtors, do forthwith cease and desist from:

(1) Using, or placing in the hands of others for use, any stationery in connection with the location of delinquent debtors or the collection of money due by a delinquent debtor, containing respondent's name, or any trade name used by him, unless the words "Collection Service" appear immediately in connection or conjunction therewith in type of like or equal size.

(2) Representing, or placing in the hands of others means of representing, directly or by implication, that money or other property is being held for persons concerning whom information is sought or that the information sought is for use in determining whether the person about whom information is requested may be the person for whom money or other property has been deposited, unless money or other property has in fact been so deposited and the amount of money or description or value of the property is accurately stated.

(3) Using the words "Manpower Classification Bureau," or any other words, which import or imply that respondent's business is that of gathering and furnishing information relative to employment or that respondent's business is other than that of obtaining information concerning debtors or alleged debtors.

(4) Using the name "American Deposit System" or any other name which imports or implies that respondent is a depository or is engaged in the business of receiving and holding money for persons from whom or about whom information is sought.

(5) Using or placing in the hands of others for use forms, letters, cards, or any other printed or written material which represents, directly or by implication, that respondent's business is other than that of obtaining information for use in the collection of debts.

Issued: March 27, 1952.

In the Matter of Basic Vegetable Products, Inc., Gentry, Incorporated, Puccinelli Packing Company, J. R. Simplot Company, Corporations, Their Officers, Directors, Agents, Representatives, and Employees

This proceeding was instituted by complaint, which charged respondents with the use of unfair methods of competition and unfair or deceptive acts and practices in violation of the provisions of section 5 of the Federal Trade Commission Act.

It was disposed of, as announced, by the Commission's "Notice" of acceptance of consent settlement through the consent settlement procedure provided in Rule V of the Commission's Rules of Practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on March 18, 1952, and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order to cease and desist, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That respondents Basic Vegetable Products, Inc., Gentry, Incorporated, Puccinelli Packing Company and J. R. Simplot Company, corporations, their officers, directors, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of dehydrated or processed onion powder, garlic

[1] Filed as part of the original document.

powder, onion flakes or garlic flakes, or onions or garlic in any other processed forms, in interstate commerce, do forthwith cease and desist from doing, performing, continuing, cooperating, participating or engaging in, or carrying out any planned common course of action, understanding, agreement, combination or conspiracy between any two or more of said respondents, or between any one or more of said respondents and another or others not parties hereto, to do or perform any of the following acts or practices:

1. Exchanging, distributing or relaying by any method or means information in any form as to prices, terms and conditions of sale, trade discounts or volume discounts where the purpose or effect thereof is to fix, stabilize, or maintain prices, terms and conditions of sale, trade discounts or volume discounts.

2. Fixing, establishing or maintaining prices.

3. Fixing, establishing or maintaining terms and conditions of sale.

4. Fixing, establishing or maintaining trade discounts or volume discounts.

5. Fixing, establishing or maintaining any arrangement for resale prices, terms or conditions of sale.

6. Exchanging, distributing or relaying among the respondents or any of them or through any medium or central agency information concerning prices charged particular customers or information concerning sales or shipments when the identity of the manufacturer, seller or purchaser can be determined or disclosed through such information and which has the purpose or effect of aiding in securing compliance with the prices, terms or conditions of sale as announced by any one or more of the respondents.

It is further ordered, That the said respondents, separately or collectively, in connection with the offering for sale, sale and distribution of the said products, do forthwith cease and desist from doing, performing, continuing, participating or engaging in, or carrying out any agreement, arrangement, act or practice providing for the establishment or maintenance of resale prices on any commodity herein involved between themselves or between other producers or between wholesalers or between brokers or between factors or between retailers or between persons, firms, or corporations in competition with each other.

Provided, however, That nothing contained herein shall be construed to prohibit any of the respondents from entering into such contracts or agreements relating to the maintenance of resale prices as are permitted under the provisions of the Miller-Tydings Act.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By direction of the Commission.

AUTHORITY: §§ 68.1 to 68.5 issued under Pub. Law No. 290, 82d Cong.

§ 68.1 *Invoices; marking; bond.* (a) Articles intended for exhibition under the provisions of Public Law No. 290, 82d Congress, and valued at more than $100, are subject to the usual certified invoice requirements if of a class for which such invoices are required under the Tariff Act of 1930 and the regulations issued thereunder. The certified invoices shall be on foreign service Form 138 (Invoice of Merchandise) and shall contain the information prescribed under section 481 of the Tariff Act of 1930 (19 U. S. C. 1481).

(b) The marking requirements of the Tariff Act of 1930, as amended, and the regulations promulgated thereunder will not apply to articles imported under the regulations in this part except when such articles are withdrawn for consumption or use in the United States, in which case they shall be released from customs custody only upon a full compliance with the marking requirements of the tariff act, as amended, and the regulations promulgated thereunder.

(c) The International House, Incorporated, shall give to the collector of customs at New Orleans, Louisiana, a bond in an amount to be determined by the collector and containing such conditions for compliance with Public Law No. 290, 82d Congress, and the regulations in this part, as shall be approved by the Bureau of Customs.

§ 68.2 *Entry; appraisement; procedure.* (a) All entries under the regulations in this part shall be made at the port of New Orleans, Louisiana, in the name of the International House, Incorporated, which shall be deemed for customs purposes the sole consignee of the merchandise entered under the act and which shall be held responsible to the Government for all duties and charges due the United States on account of such entries; but, in the case of merchandise withdrawn from entry under the regulations in this part, an entry under the general tariff law in the name of any person duly authorized in writing by the International House, Incorporated, to make such entry, may be accepted by the collector.

(b) Articles to be entered under the regulations in this part which arrive at ports other than New Orleans shall be entered for immediate transportation without appraisement to the latter port in the manner prescribed by the general customs regulations.

(c) Upon the arrival at the port of New Orleans of articles to be entered under the regulations in this part, they shall be entered on a special form of entry to read substantially as follows:

ENTRY FOR EXHIBITION

Entry No. .....

Entry at the port of New Orleans of articles consigned or transferred to the International House, Incorporated, under ..... I. T. No. ..... ex S. S. ..... on the ..... day of ....., 19....., for exhibition purposes under Public Law No. 290 of the 82d Congress, approved April 3, 1952.

Mark	Number	Package and contents	Quantity	Invoice	Value

INTERNATIONAL HOUSE, INC.,
By .....

(d) Upon such entry being made, the collector shall issue a special permit for the transfer of the articles covered thereby to the buildings in which they are to be exhibited or used, or, in the discretion of the collector, to the appraiser's stores for examination and subsequent transfer to the buildings in which they are to be exhibited or used. The articles shall be tentatively appraised prior to their exhibition or use. All imported exhibits entered under the regulations in this part shall be kept segregated from domestic articles and imported duty-paid articles and shall not be removed from the exhibition building except in accordance with § 68.5 (a).

(e) If for any reason articles imported for entry under the regulations in this part are not upon their arrival to be delivered immediately at an exhibition building, the importer should so indicate to the collector in writing, who will cause such articles to be placed in a bonded warehouse under a "general order permit" at the importer's risk and expense, and such articles may be entered at any time within one year from the date of importation for exhibition, as herein provided for, or under the general tariff law, or for exportation. If not so entered within such period, they will be regarded as abandoned to the Government.

(f) Articles which have been admitted without payment of duty for exhibition under any customs law and which have remained in continuous customs custody or under a customs exhibition bond may be transferred to entry for exhibition at the fair in the manner prescribed in § 10.49 (c) of the Customs Regulations of 1943 (19 CFR 10.49 (c)), except that in each case an entry under paragraph (c) of this section shall be filed, which shall supersede any previous entry, and no new bond other than that specified in § 68.1 (c) shall be required. Imported articles in bonded warehouses under the general tariff law may be transferred to entry for exhibition at the fair in the manner prescribed in § 8.33 of the Customs Regulations of 1943 (19 CFR 8.33).

§ 68.3 *Compliance, provisions of Plant Quarantine Act of 1912, and Federal Food, Drug, and Cosmetic Act of June 25, 1938.* The entry of plant material subject to restriction under the Plant Quarantine Act of 1912, as amended (7 U. S. C. 151 to 164a, inclusive, 167), shall not be permitted except under permits issued therefor by the Bureau of Entomology and Plant Quarantine, Department of Agriculture, and in accordance with the plant quarantine regulations. The entry of food products shall conform to the requirements of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq.; 21 U. S. C. 301 et seq.) and regulations issued thereunder.

§ 68.4 *Detail of customs officers to protect revenue; expenses.* (a) The collector of customs at New Orleans, Louisiana, shall detail an officer to act as his representative at the fair and shall station inside the exhibition buildings as many additional customs officers and employees as may be necessary properly to protect the revenue.

(b) All actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody of imported articles together with the necessary charges for salaries of customs officers and employees in connection with the supervision and custody of, and accounting for, articles imported for exhibition at the fair or transferred thereto for exhibition, shall be reimbursed by the International House, Incorporated, to the Government, payment to be made monthly to the collector of customs, New Orleans, Louisiana, for deposit to the credit of the Treasurer of the United States as a refund to the appropriation "Collecting the Revenue from Customs."

§ 68.5 *Withdrawal of Articles from exhibition for exportation, abandonment, destruction, or for consumption or entry under the general tariff law; involuntary abandonment.* (a) Any articles entered under the regulations of this part may be withdrawn for exportation, for abandonment to the Government, for destruction under customs supervision, or for consumption or entry under the general tariff law, but not otherwise, at any time prior to the opening of the fair or at any time during or within three months after the close of the fair. Upon the withdrawal of such articles for consumption or for entry under the general tariff law, or at the expiration of three months after the close of the fair in the case of articles not previously so withdrawn, they shall be appraised with due allowance made for diminution or deterioration from incidental handling or exposure. Such appraisal shall be final in the absence of an appeal to reappraisement, as provided in section 501 of the Tariff Act of 1930, as amended (19 U. S. C. 1501). In the case of such articles withdrawn from entry under the general tariff law under a warehouse bond or a bond conditioned upon exportation, the statutory period of the bond and any extension thereof shall be computed from the date of withdrawal from entry under the provisions of Public Law No. 290 of the 82d Congress.

(b) At any time prior to the opening of the fair, or at any time during or within three months after the close of the fair, any article entered hereunder may be abandoned to the Government or destroyed under customs supervision, as provided in § 15.4 of the Customs Regulations of 1943 (19 CFR 15.4).

(c) Any articles entered under the regulations in this part which have not been withdrawn for consumption, entry under the general tariff law, or exportation, or which have not been abandoned to the Government or destroyed under customs supervision, before the expiration of three months after the close of the fair, shall be regarded as abandoned to the Government.

[1] SEC. 2. All articles which shall be imported from foreign countries for the purpose of exhibition at the International Trade Fair and Inter-American Cultural and Trade Center, to be held at New Orleans, Louisiana, from November 30, 1953, to May 31, 1954, inclusive, by the International House, Incorporated, a corporation, or for use in constructing, installing, or maintaining foreign exhibits at the said trade fair, upon which articles there shall be a tariff or customs duty, shall be admitted without payment of such tariff, customs duty, fees, or charges under such regulations as the Secretary of the Treasury shall prescribe; but it shall be lawful at any time during or within three months after the close of the said trade fair to sell within the area of the trade fair any articles provided for herein, subject to such regulations for the security of the revenue and for the collection of import duties as the Secretary of the Treasury shall prescribe: *Provided*, That all such articles, when withdrawn for consumption or use in the United States, shall be subject to the duties, if any, imposed upon such articles by the revenue laws in force at the date of their withdrawal; and on such articles which shall have suffered diminution or deterioration from incidental handling or exposure, the duties, if payable, shall be assessed according to the appraised value at the time of withdrawal from entry hereunder for consumption or entry under the general tariff law: *Provided further*, That imported articles provided for herein shall not be subject to any marking requirements of the general tariff laws, except when such articles are withdrawn for consumption or use in the United States, in which case they shall not be released from customs custody until properly marked, but no additional duty shall be assessed because such articles were not sufficiently marked when imported into the United States: *Provided further*, That at any time during or within three months after the close of the trade fair, any article entered hereunder may be abandoned to the Government or destroyed under customs supervision, whereupon any duties on such article shall be remitted: *Provided further*, That articles which have been admitted without payment of duty for exhibition under any tariff law and which have remained in continuous customs custody or under a customs exhibition bond and imported articles in bonded warehouses under the general tariff law may be accorded the privilege of transfer to and entry for exhibition at the said trade fair under such regulations as the Secretary of the Treasury shall prescribe: *And provided further*, That the International House, Incorporated, a corporation, shall be deemed, for customs purposes only, to be the sole consignee of all merchandise imported under the provisions of this Act, and that the actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody, together with the necessary charges for salaries of customs officers and employees in connection with the supervision, custody of, and accounting for, articles imported under the provisions of this Act, shall be reimbursed by the International House, Incorporated, a corporation, to the Government of the United States under regulations to be prescribed by the Secretary of the Treasury, and that receipts from such reimbursements shall be deposited as refunds to the appropriation from which paid, in the manner provided for in section 524, Tariff Act of 1930, as amended (U. S. C., 1946, edition, title 19, sec. 1524).

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter A—Armed Services Procurement Regulations

MISCELLANEOUS AMENDMENTS

Miscellaneous amendments have been made in the Armed Services Procurement Regulation as reflected in the document set forth below, dated March 1, 1952.

WILLIAM C. FOSTER,
Acting Secretary.

MAY 7, 1952.

PART 400—GENERAL PROVISIONS

SUBPART C—BASIC POLICIES

1. Place of delivery: Addition of § 400.306 states the uniform policy of the Armed Services with relation to payment of transportation charges for domestic and foreign procurements. Amendments to §§ 401.201 (c) (7) and 402.101 (d) serve as cross-indices.

§ 400.306 *Place of delivery.*

§ 400.306–1 *Domestic shipments.* Unless there are valid reasons to the contrary (such as, but not restricted to, industry practice, applicability of state taxes, or destination unknown) the procurement of supplies from sources and for delivery within the continental limits of the United States will be in accordance with the following policy:

(a) When it is estimated that any single contract will require a shipment to a single destination which will not equal a minimum carload lot (a minimum carload lot shall be deemed to be one which weighs approximately 20,000 pounds), delivery will be made on the basis of all transportation charges paid to destination.

(b) When it is estimated that any single contract will require a shipment of a minimum carload lot, delivery shall be either on the basis of (i) f. o. b. carrier's equipment, wharf, or freight station (at the Government's option) at or near contractor's plant, at a specified city or shipping point, or (ii) all transportation charges paid to destination, whichever is the more advantageous to the Government. In formally advertised procurements the Invitation for Bids shall provide that bidders may bid on either or both bases set forth in this paragraph. Bids shall be evaluated on the basis of over-all cost to the Government.

§ 400.306–2 *Shipments outside the continental United States.* In the case of supplies purchased within the continental United States for ultimate delivery to destinations outside of the continental United States, wherever possible, regardless of the quantity of the shipment, delivery will be made on the basis of f. o. b. carrier's equipment, wharf, or freight station (at the Government's option), at or near contractor's plant, at a specified city or shipping point. Shipments included in this policy are those in which supplies are shipped directly to a port area for export or to storage areas for subsequent re-shipment to a port area for export.

§ 400.306–3 *Shipments originating outside the continental United States.* In the case of shipments originating outside the continental limits of the United States, the policy with respect to place of delivery shall be in accordance with procedures prescribed by each respective Department.

(R. S. 161; 5 U. S. C. 22)

PART 401—PROCUREMENT BY FORMAL ADVERTISING

SUBPART B—SOLICITATION OF BIDS

1. Amendment to § 401.201 (c) (7) serves as a cross-index to § 400.306.

§ 401.201 *Preparation of forms.*

• • •

(c) *Schedule.* • • •

(7) Time, place and method of delivery (see § 400.306 of this subchapter).

2. Waiver of bid bonds: Amendments to §§ 401.404 and 409.102 clarify the authority to waive bid bonds when the bidder fails to furnish such bonds by reason of inadvertence; these amendments are based on 31 Comp. Gen. 20.

SUBPART D—OPENING OF BIDS AND AWARD OF CONTRACT

§ 401.404 *Minor informalities or irregularities in bids.* The Contracting Officer shall give to the bidder an opportunity to cure any deficiency resulting from a minor informality or irregularity in a bid, or in the alternative, when it is not to the disadvantage of the Government, may waive any such deficiency when time does not permit the curing thereof. Illustrative examples of minor informalities or irregularities are the following: Failure to furnish required catalogs, cuts or descriptive data; failure to furnish information required by the Invitation for Bids concerning such matters as (a) number of employees and (b) place of manufacture.

§ 401.404–1 *Failure to furnish a bid bond.* Under certain circumstances, the failure to furnish a bid bond may be treated as a minor informality or irregularity in the bid. Such a deficiency may be cured or waived where it did not result from the inability of the bidder to obtain a bid bond because of its financial status or some similar reason, but was due to inadvertence or other excusable cause. The correction or waiver of such deficiency should be permitted only after a thorough investigation has been made of the facts pertinent to such deficiency and an excusable cause has been clearly established.

(R. S. 161; 5 U. S. C. 22)

PART 402—PROCUREMENT BY NEGOTIATION

SUBPART A—USE OF NEGOTIATION

1. Amendment to § 402.101 serves as a cross-index to § 400.306.

§ 402.101 *Negotiation as distinguished from formal advertising.* • • •

(d) Consideration of delivery requirements (see § 400.306 of this subchapter).

SUBPART E—ADVANCE PAYMENTS

2. Advance payments: Amendments to §§ 402.502, 402.503, and 402.505, and new §§ 402.506 and 402.507 reflect recent changes in advance payments policy. Responsibility and authority for making advance payments is now vested in the Assistant Secretaries of each Department responsible for the comptroller function; interest will be charged at the rate of 4 percent per annum, except as specifically authorized; where the prime contractor receives interest-free advance payments, except in connection with certain specified contracts, he is required to charge and credit to the account of the Government, 4 percent interest on advances made to subcontractors and down payments; commitments in relation to advance payments may not be made without the approval of the Assistant Secretary above mentioned; advance payments must be restricted to interim cash needs arising during the reimbursement cycle; contracts for the acquisition of facilities at cost for Government ownership and GOCO profit type contracts are treated as ordinary profit contracts requiring interest on advance payments.

§ 402.502 *Authority to make advance payments.* Pursuant to the authority of section 5 of the act, advance payments may be made under negotiated contracts executed before or after the effective date of this regulation in any amount not exceeding the contract price and upon such terms as the parties shall agree, provided:

(a) Adequate security for such advance payments is obtained;

(b) Provision for advance payments is in the public interest or in the interest of national defense, as determined by the Assistant Secretary of a Department responsible for the comptroller function in accordance with the requirements of Subpart C of this part; and

(c) Provision for advance payments is necessary and appropriate in order to procure the required supplies or services, as determined by the Assistant Secretary of a Department responsible for the comptroller function in accordance with the requirements of Subpart C of this part.

§ 402.503 *Limitations on authority to make advance payments.* Advance payments shall not be authorized unless all of the following requirements are satisfied:

(a) No other contractor is available to furnish the desired supplies or services, upon terms satisfactory to the Department, without provision for advance payments;

(b) Generally, except for (1) nonprofit contracts with nonprofit educational or research institutions for experimental, research and development work, and (ii) contracts solely for the management and operation of Government-owned plants, advance payments should not be authorized unless no other means of adequate financing is available to the contractor, and the amount of the authorization is predicated upon use of the contractor's own working capital to the extent possible;

(c) Advance payments should be used sparingly and care should be taken to see that advances outstanding do not exceed the actual reasonable requirements for the contracts; the amount of the advance payment in any case should be based upon an analysis of the cash flow required under the contract and as a general rule should not exceed the interim cash needs arising during the reimbursement cycle;

(d) The Government may not be committed in any manner directly or indirectly to make an advance payment without the approval of the Assistant Secretary of a Department responsible for the comptroller function and no procurement involving advance payments may become final until such approval is obtained.

§ 402.505 *Interest on advance payments.* (a) Interest will be charged on all advance payments hereafter authorized at the rate of 4 percent per annum on the unliquidated balance: *Provided however,* Advance payments may be approved without interest when in connection with contracts which provide for performance at cost (without profit or fee to the contractor), or, in unusual cases, when specifically authorized by the Assistant Secretary of a Department responsible for the comptroller function. In this connection, contracts for acquisition of facilities at cost, for Government ownership, in combination with or in contemplation of supply contracts or subcontracts, and cost-plus-mixed-fee or other profit type contracts for the management or operation of Government-owned plants, will be treated as ordinary profit contracts requiring interest on advance payments.

(b) Contracts with interest-free advance payments, hereafter authorized, should provide that the contractor will charge interest at the rate of 4 percent per annum on advances or down payments made by the contractor to subcontractors or material men on subcontracts or purchase orders related to such contract, during the period when such contractor is entitled to receive, or has outstanding, such interest-free advance payments from the Government, and that interest charged on such advances or down payments will be credited to the account of the Government. However, interest need not be charged on advances by the contractor in connection with non-profit subcontracts with nonprofit educational or research institutions for experimental, research, or development work.

§ 402.506 *Reports.* Each Department shall submit reports of financing activities at such times and in such form as may be prescribed by the Assistant Secretary of Defense (Comptroller).

§ 402.507 *Resolution of disagreements.* If a disagreement arises between the financing office and the interested procuring activity in any Department as to whether, to what extent, or in what form, financing should be furnished, the matter will be referred immediately to and resolved in the higher echelons of authority responsible respectively for financing and procurement functions, subject to any issue being resolved ultimately by the Secretary of the Department concerned.

(R. S. 161; 5 U. S. C. 22)

PART 403—COORDINATED PROCUREMENT

SUBPART A—SINGLE DEPARTMENT PROCUREMENT

1. Interdepartmental procurement: The use of DD Form 448 and DD Form 448–1 are now mandatory by amendment to § 403.109.

§ 403.109 *Preparation of purchase requests.* (a) DD Form 448, Military Interdepartmental Purchase Request, will be prepared by the Requiring Department to request the procurement of supplies or services from the Purchasing Department. This form, when received by the Purchasing Department, authorizes the Purchasing Department to purchase the supplies or services listed thereon or to furnish the items from stock, in accordance with agreements between the Departments concerned.

(b) Preparation of DD Form 448, Military Interdepartmental Purchase Request, and DD Form 448–1, Continuation Sheet, will be in accordance with procedures prescribed by each respective Department.

(R. S. 161, 6 U. S. C. 22)

PART 405—FOREIGN PURCHASES

SUBPART B—CANADIAN PURCHASES

1. Canadian Commercial Corporation: Section 405.201 has been amended to show a change of address for the Canadian Commercial Corporation.

§ 405.201 *Purchases from Canadian suppliers.* Any contract with a supplier or contractor located in the Dominion of Canada may be made with and administered through the Canadian Commercial Corporation (a corporation owned and controlled by the Government of Canada), which has offices at No. 2 Building, Lyon Street, Ottawa, and at 2001 Connecticut Avenue NW., Washington, D. C. Under any such contract made with the Canadian Commercial Corporation, direct communication with the Canadian supplier or contractor is authorized only in connection with problems of inspection and technical matters: *Provided,* That, if any such problem would affect the contract price, approval of the Canadian Commercial Corporation shall be obtained. All payments under any such contract made with the Canadian Commercial Corporation shall be made to that Corporation at its Washington office.

SUBPART C—DUTY AND CUSTOMS

2. Purchases of war material abroad: The form of the entry certificate to obtain exemption from duty has been changed by amendment to § 405.301–1.

§ 405.301–1 *Entry certificate.* The entry certificate referred to in § 405.301 will be printed, stamped, or typed on the face of Customs Form 7501 or at-

tached thereto, and will be executed by a duly designated officer or civilian official of the appropriate Department in the following form:

I certify that the procurement of this material constituted an emergency purchase of war material abroad by the Department of the (Indicate Army, Navy, or Air Force) and it is accordingly requested that such material be admitted free of duty pursuant to the act of June 30, 1914 (34 U. S. C. 568) or section 12 of the act of February 19, 1948 (5 U. S. C. 219b, 626e)

PART 406—CONTRACT CLAUSES AND FORMS

SUBPART A—CLAUSES FOR FIXED-PRICE SUPPLY CONTRACTS

1. Default: A correction has been made to existing contract clause § 406.103–11 *Default*, by changing the word "delivery" in paragraph (d) line 5 to "deliver."

2. New contract clauses and amendments to existing clauses: Modifications to existing contract clauses § 406.103–21 *Termination for convenience of the Government* and § 406.104–11 *Vinson-Trammell Act*, together with new contract clauses §§ 406.103–22, 406.104–14, 406.104–15, and 406.104–16, covering Ceiling Prices, Subcontracting, Examination of Records and Gratuities, respectively, are set forth in the following Subpart A—Clauses for Fixed-Price Supply Contracts.

Section 406.103–21 *Termination for convenience of the Government.* Insert the contract clause appropriate for use in fixed-price supply contracts as set forth in Part 407, Subpart G, of this subchapter, §§ 407.701 and 407.705–1.

§ 406.103–22 *Compliance with ceiling prices.*

CEILING PRICES

Contractor agrees that the prices invoiced hereunder will not exceed the lower of (i) the contract prices or (ii) any applicable ceiling prices established by the Office of Price Stabilization or other authorized Government agency. The above clause will be inserted in all contracts, irrespective of dollar value, including purchase orders under $1,000, except contracts with foreign contractors which are to be performed outside of the continental limits of the United States, its territories and possessions.

§ 406.104–11 *Vinson-Trammell Act.* (a) In accordance with the requirement of section 3 of the Vinson-Trammell Act as amended and extended (34 U. S. Code 496 and 10 U. S. Code 311), and except as provided in paragraphs (b) and (c) of this section, any contract in an amount which exceeds or may exceed $10,000, known to be for the construction or manufacture of any complete aircraft or naval vessel, or any portion thereof, except contracts any of the receipts or accruals from which are subject to the Renegotiation Act of 1951, shall contain the following clause, except that in any advertised contract there may be inserted at the beginning of such clause the words "If this contract is in an amount which exceeds $10,000":

VINSON-TRAMMELL ACT

The Contractor agrees that this contract shall be subject to all the provisions of the Vinson-Trammell Act as amended and extended (34 U. S. Code 496 and 10 U. S. Code 311), and shall be deemed to contain all the agreements required by section 3 of said act; provided, however, that this clause shall not be construed to enlarge or extend by contract the obligations imposed by said act. In compliance with said act, the Contractor agrees to insert in such subcontracts hereunder as are specified in said act either the provisions of this clause or the provisions required by said act.

(b) In any contract where only certain items or lots totalling more than $10,000 are subject to the Vinson-Trammell Act, the foregoing clause should be modified to make the agreement of the Contractor applicable only to such items or lots. In any contract where only certain items or lots totalling $10,000 or less would otherwise be subject to the act, the foregoing clause should not be included in the contract even though the total amount of the entire contract exceeds $10,000.

(c) In any contract, otherwise subject to the Vinson-Trammell Act, for scientific equipment used for communication, target detection, navigation or fire control, as is designated by the Secretary of the Department concerned, the clause prescribed in paragraph (a) of this section shall not be included in such contract, and the following clause shall be inserted in lieu thereof:

VINSON-TRAMMELL ACT

The Secretary having designated the supplies called for by this contract to be scientific equipment used for communication, target detection, navigation or fire control, the provisions of the Vinson-Trammell Act as amended and extended (34 U. S. Code 496 and 10 U. S. Code 311) are not applicable to this contract.

§ 406.104–14 *Subcontracting.* Insert the clause set forth below in all fixed-price supply contracts, in amounts exceeding $5,000, except those contracts entered into with foreign contractors which are to be performed outside of the continental limits of the United States, its territories and possessions:

SUBCONTRACTING

(a) It is the policy of the Government as declared by the Congress to bring about the greatest utilization of small business concerns which is consistent with efficient production.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to small business concerns that the Contractor finds to be consistent with the efficient performance of this contract.

§ 406.104–15 *Examination of records.* In accordance with the requirements of section 4 of the act, as amended, the following clause will be inserted in all negotiated fixed-price supply contracts.

EXAMINATION OF RECORDS

(a) The Contractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under this contract, have access to and the right to examine any directly pertinent books, documents, papers and records of the Contractor involving transactions related to this contract.

(b) The Contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under this contract with the Government, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (i) purchase orders not exceeding $1,000 and (ii) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

§ 406.104–16 *Gratuities.* Insert the clause set forth below in all fixed-price supply contracts, except contracts with foreign governments obligating solely funds other than those contained in Department of Defense appropriation acts.

GRATUITIES

(a) The Government may, by written notice to the Contractor, terminate the right of the Contractor to proceed under this Contract if it is found, after notice and hearing, by the Secretary or his duly authorized representative, that gratuities (in the form of entertainment, gifts, or otherwise) were offered or given by the Contractor, or any agent or representative of the Contractor, to any officer or employee of the Government with a view toward securing a contract or securing favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing, of such contract: *Provided*, That the existence of the facts upon which the Secretary or his duly authorized representative makes such findings shall be in issue and may be reviewed in any competent court.

(b) In the event this contract is terminated as provided in paragraph (a) hereof, the Government shall be entitled (i) to pursue the same remedies against the Contractor as it could pursue in the event of a breach of the contract by the Contractor, and (ii) as a penalty in addition to any other damages to which it may be entitled by law, to exemplary damages in an amount (as determined by the Secretary or his duly authorized representative) which shall be not less than three nor more than ten times the costs incurred by the Contractor in providing any such gratuities to any such officer or employee.

(c) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

(R. S. 161; 5 U. S. C. 22.)

PART 409—BONDS AND INSURANCE

SUBPART A—BONDS

1. Waiver of bid bonds: Amendments to §§ 409.102 and 401.404, supra, clarify the authority to waive bid bonds when the bidder fails to furnish such bonds by reason of inadvertence; these amendments are based on 31 Comp. Gen. 20.

§ 409.102 *Bid bonds.* Bid bonds may be required when, and only when, the solicitation of bids for a contract to be entered into as a result of formal advertising specifies that the contract is to be supported by a performance bond or by performance and payment bonds. Whenever a bid bond is required, the penal sum thereof shall be in an amount deemed adequate by the Contracting Officer for the protection of the Government.

(R. S. 161; 5 U. S. C. 22)

PART 411—LABOR

SUBPART A—BASIC LABOR POLICIES

1. Labor relations: The Departments may not take independent action with respect to labor matters without prior approval of the Office of the Assistant Secretary of Defense (Manpower and Personnel) and must also advise that office of any labor dispute which affects or threatens to affect important procurement. (See amendment to § 411.101.)

§ 411.101 *Labor relations.* Each Department shall maintain and encourage the best possible relations with industry and labor in order that the Government may procure needed supplies and services without delay. All problems arising out of the labor relations of private contractors, and all communications with labor organizations or Federal agencies relative thereto, shall be handled in accordance with procedures prescribed by each respective Department and consistently with the following general policy:

(a) The Departments shall exchange information with respect to labor matters for the purpose of maintaining a uniform labor policy throughout the Department of Defense.

(b) With respect to labor relations matters in general, each Department shall not take any independent action, the result of which would have the effect of establishing major policy, unless each such action falls within an established policy of the Department of Defense, or unless prior approval of the Office of the Assistant Secretary of Defense (Manpower and Personnel) has been obtained. Each Department must determine for itself what actions involve major policy. Recommendations for plant seizure or for injunctive action against labor or management would be examples of actions establishing major policy.

(c) Where any labor dispute significantly affects, or so threatens to affect, important procurement, the Department concerned shall notify the Office of the Assistant Secretary of Defense (Manpower and Personnel) and any other interested Department of all information relevant thereto.

(d) Each Department shall remain impartial in, and shall refrain from taking a position on the merits of, a dispute between labor and private management. No Department shall undertake the conciliation, mediation, or arbitration of a labor dispute.

(e) Each Department shall take other action in connection with labor relations problems which is consistent with its procurement responsibilities, as for example:

(1) Giving notice of the existence of a labor dispute, which affects, or threatens to affect, procurement of supplies or services, to the Government agency which has responsibility for conciliation, mediation, arbitration, or other action with respect thereto.

(2) Advising the Government agency, responsible for action with respect to labor disputes, or the parties to a labor dispute, of factual information pertaining to procurement of the supplies or services involved, to the extent consistent with security regulations.

(3) Seeking to obtain such voluntary agreement between management and labor as will permit, notwithstanding the general continuance of the dispute, uninterrupted procurement of military supplies and services, provided such activity does not involve the Department in the merits of a labor difference or dispute.

2. Overtime policy. Department of Defense policy with regard to wage and salary compensation is stated in the amendment to § 411.102. Where two or more Departments have current contracts in a single facility, there must be agreement prior to the authorization of overtime, etc., subject to resolution of any disagreements by the Munitions Board.

§ 411.102 *Wage and salary compensation.* It shall be the policy of each Department that contracts will be performed, so far as practicable, without the use of overtime, extra-pay shifts, or multi-shifts. This policy may permit the authorization of overtime, extra-pay shifts and multi-shifts when it is necessary to meet essential deadlines in the performance of the contract. Such an authorization shall, wherever practicable, be limited to and be the minimum required for, the accomplishment of specific work.

(a) Prior to the authorization of overtime, extra-pay shifts and multi-shifts, consideration should be given to the practicability of using other facilities for the furnishing of all or a portion of the supplies or services.

(b) Where two or more Departments have current contracts in a single facility, there will be an agreement between the interested Departments on the authorization of overtime, prior to such authorization. In the event the Departments concerned are unable to reach an agreement, the matter will be referred promptly through the Departmental member of the Munitions Board to the Munitions Board for decision.

(c) The above policy should not be construed to authorize payment for overtime, extra-pay shifts and multi-shifts where, under an existing contract, the contractor is already obligated without the right to additional compensation therefor to meet the desired delivery schedule, even though it is necessary for such a contractor to use overtime, extra-pay shifts or multi-shifts to meet such schedule.

(R. S. 161; 5 U. S. C. 22)

PART 414—CONTRACT COST PRINCIPLES

1. Cost principles—allowance of pension and retirement plans: Amendments to §§ 414.001, 414.204, 414.304, 414.403 and addition of §§ 414.600 and 414.601 establish cost interpretations with reference to allowability of pension and retirement plans.

§ 414.001 *Effective date of part.* This part shall be complied with on and after March 1, 1949, although compliance is authorized from the date of its issuance (but see Subpart F of this part as to effective dates of cost interpretations set forth therein).

SUBPART B—SUPPLY AND RESEARCH CONTRACTS WITH COMMERCIAL ORGANIZATIONS

§ 414.204 *Examples of items of allowable costs.* Subject to the requirements of § 414.201 with respect to the general basis for determining allowability of costs, and irrespective of whether the particular costs are treated by the contractor as direct or indirect, the following items of costs are considered allowable within the limitations indicated:

(a) Advertising in trade and technical journals, provided such advertising does not offer specific products for sale but is placed for the purpose of offering financial support to journals which are valuable for the dissemination of technical information within the contractor's industry (but see § 414.205 (a)).

(b) Bonds and insurance, including self-insurance (but see § 414.205 (p)).

(c) Compensation of corporate officers, executives and department heads. (The term "compensation" includes all amounts paid or set aside, such as pension and retirement benefits in accordance with the interpretation set forth in § 414.601, salaries, royalties, license fees, bonuses, and deferred compensation benefits. The total compensation of an individual may be questioned and the amount allowed may be limited; and in connection therewith, consideration will be given to the relation of the total compensation to the services rendered).

(d) Depreciation and depletion, based on cost of acquisition (but see § 414.205 (b) and (o)).

(e) Directors and executive committee fees and expenses; the expenses of stockholders meetings, annual reports, and reports and returns prepared for governmental authorities; and registry and transfer charges resulting from changes in ownership of securities issued by the contractor.

(f) Freight, transportation, and material handling.

(g) Improvement of working conditions, employer-employee relations, and standards of performance.

(h) Jigs, dies, fixtures, patterns, drawings, and special tools.

(i) Legal, accounting, and consulting services and related expenses (but see § 414.205 (d) and (l)).

(j) Manufacturing and production engineering, that is, engineering related immediately to manufacturing and production as distinguished from research, experimentation, and development.

(k) Materials and supplies.

(l) Memberships in trade, business and professional organizations.

(m) Miscellaneous office and administrative services and supplies, including communication expenses.

(n) Overtime compensation for direct or indirect labor, to the extent expressly

provided for elsewhere in the contract or otherwise authorized by the Government.

(o) Patents, purchased designs, and royalty payments, to the extent expressly provided for elsewhere in the contract or otherwise authorized by the Government.

(p) Pension and retirement plans in accordance with the interpretation set forth in § 414.601 and group health, accident and life insurance plans (but see § 414.205 (p)).

(q) Plant maintenance and protection.

(r) Recruiting (including "help wanted" advertising) and training of personnel.

(s) Research and development specifically applicable to the supplies or services covered by the contract.

(t) Salaries and wages, direct and indirect (but see § 414.204 (c)).

(u) Subcontracts and purchase orders.

(v) Taxes (but see § 414.205 (i) and (r)).

(w) Traveling expenses.

(x) Vacation, holiday and severance pay, sick leave and military leave, to the extent required by law, by employer-employee agreement or by the contractor's established policy.

SUBPART C—RESEARCH CONTRACTS WITH NONPROFIT INSTITUTIONS

§ 414.304 *Examples of items of allowable costs.* Subject to the requirements of § 414.301 with respect to the general basis for determining the allowability of costs, and irrespective of whether the particular costs are treated by the contractor as direct or indirect, the following items of cost are considered allowable within the limitations indicated:

(a) Bonds and insurance, including self-insurance (but see § 414.305 (k)).

(b) Freight, transportation, and material handling.

(c) Library expenses (but see § 414.303–1 (c)).

(d) Materials and supplies.

(e) Miscellaneous office and administrative services and supplies, including communication expenses.

(f) Patents, purchased designs, and royalties, to the extent expressly provided for elsewhere in the contract or otherwise authorized by the Government.

(g) Pension and retirement plans in accordance with the interpretation set forth in § 414.601 and group health, accident and life insurance plans (but see § 414.305 (k)).

(h) Protection and maintenance of Government-owned or of rented equipment.

(i) Salaries and wages, direct and indirect (but see § 414.305 (l)).

(j) Subcontracts and purchase orders.

(k) Taxes (but see § 414.305 (e)).

(l) Traveling expenses.

(m) Vacation and sick leave pay, to the extent required by law, by employer-employee agreement or by the contractor's established policy.

SUBPART D—CONSTRUCTION CONTRACTS

§ 414.403 *Examples of items of allowable costs.* • • •

(q) Pension and retirement plans in accordance with the interpretation set forth in § 414.601 and group health, accident and life insurance plans (but see § 414.404 (b), (d) and (m)).

SUBPART F—COST INTERPRETATIONS

§ 414.600 *Scope of subpart.* This new subpart sets forth interpretations of certain cost principles contained in other subparts of this section.

§ 414.601 *Pension and retirement plans.*

§ 414.601–1 *Effective date and applicability.* This cost interpretation pertains to §§ 414.204 (c), 414.204 (p), 414.304 (g) and 414.403 (q) and applies to contracts, executed as a date on or after January 1, 1952, of which the provisions of any such sections are made a part.

§ 414.601–2 *Interpretation.* (a) Cost of pension and retirement plans, including reasonable incidental benefits, such as disability, withdrawal, insurance or survivorship allowances which are deductible from taxable income in accordance with the Internal Revenue Code and the regulations of the Bureau of Internal Revenue, are allowable except to the extent they are determined to be unreasonable or unallowable under any other provision of this cost interpretation. Costs of such plans established by nonprofit or other organizations not subject to payment of Federal income taxes are also allowable except to the extent they are determined to be unreasonable or unallowable under any other provision of this cost interpretation.

(b) Pension or retirement plans of a contractor which are subject to approval of the Bureau of Internal Revenue must have been so approved before costs under the plans may be accepted as charges to Government contracts. Many plans of nonprofit or other tax exempt organizations are also reviewed and approved by the Bureau of Internal Revenue, when not so reviewed and approved, each such plan will be reviewed, and approved or disapproved, by the Department to which audit cognizance is assigned, using insofar as applicable, the criteria and standards of the Internal Revenue Code and the regulations of the Bureau of Internal Revenue. In any case, where the Bureau of Internal Revenue withdraws approval of a plan, approval of amounts allocated to contract costs will be withdrawn accordingly.

(c) The approval of a pension or retirement plan by the Bureau of Internal Revenue will, as a general rule, be the only approval required by the Departments; however, the right is reserved to require submission of any plan for consideration by a Department and to disapprove such plan in its entirety or any feature thereof whenever the circumstances in a particular case are deemed to warrant such action. Such consideration will be the responsibility of the Department to which audit cognizance is assigned, and the subsequent action taken by that Department will generally be accepted by the other Departments.

(d) Approval of a pension or retirement plan by the Bureau of Internal Revenue or by the Departments does not imply that the cost thereof for any particular year will be allowable for apportionment to contract costs, except to the extent costs for that year meet all other requirements of the Bureau of Internal Revenue as a deduction for income tax purposes, and are acceptable under the provisions of this cost interpretation and other provisions of this section.

(e) Pension and retirement costs constitute a part of the total compensation by a contractor to any individual covered by the plan, and accordingly, are subject to the provisions of this section with respect to reasonableness of the total compensation paid to the individual for the services rendered.

(f) Where contributions to pension or retirement plans are based on profits, providing that provisions of the Internal Revenue Code and regulations of the Bureau of Internal Revenue have been met, the amount allowable for apportionment to contracts in any one year shall be the amount contributed to the pension trust(s) for that year, but not to exceed 15 percent of the total compensation otherwise paid or accrued in that year to the individuals covered under the plan(s).

(g) The allowability of costs of lump sum purchases of annuities or of periodic cash payments made to provide pension or retirement benefits for retiring or retired employees, other than incurred under approved pension or retirement plans, will be subject to consideration on an individual case basis.

(h) Credits which became available or are foreseeable must be taken into account in an equitable manner in determining pension and retirement costs subject to apportionment to a military contract. In some instances, this may require adjustments to costs in anticipation of the realization of credits. For example, such action would normally be appropriate where contractors' organizations are substantially expanded for the performance of military contracts and there is a reasonable expectation that, upon completion of the contracts, the services of practically all or a large number of the additional employees will be terminated with the result that contractors will benefit from contributions made on behalf of these employees, because such personnel will not acquire vested rights under the terms of the plans.

(i) In any current or future contract no cost allowance will be made which would duplicate, in whole or in part, an allowance previously made under a prior contract.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter HI—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Amdt. 20]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

ADDITIONAL AND ALTERNATIVE METHODS OF CHART CONSTRUCTION AND PRICING

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization General Order No. 2 (16 F. R. 738), this Amendment 20 to Ceiling Price Regulation 7 (16 F. R. 1897) is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Section 41 of Ceiling Price Regulation 7 describes more completely than the section before amendment the additional and alternative methods of chart construction and pricing which are provided in supplementary regulations to CPR 7. In view of the fact that this amendment in no way affects the substance of the regulation, the Director has not found it practicable or necessary to consult with industry representatives.

AMENDATORY PROVISIONS

Section 41 of Ceiling Price Regulation 7 is amended to read as follows:

SEC. 41. *Additional and alternative methods provided in supplementary regulations.* Methods of preparing pricing charts and methods of determining ceiling prices additional or alternative to those specified in this regulation are provided in supplementary regulations as follows:

(a) Special pricing methods for certain chain stores, mail order establishments, departmentalized establishments, and consignor and consignee-outlets are set for in Supplementary Regulation 1.

(b) Alternative and special methods for preparing list date charts and pricing in certain cases are set forth in Supplementary Regulation 2.

(c) Supplementary Regulation 3 provides the method for establishment of ceiling prices by wholesalers and retailers for certain home canning supplies.

(d) Supplementary Regulation 4 provides a method for the establishment by manufacturers and wholesalers of uniform dollar-and-cent ceiling prices for retail or wholesale and retail sales of certain branded articles.

(e) A method for deleting "unrepresentative" category charts is set forth in Supplementary Regulation 6.

(Sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 20 shall become effective June 28, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

Ceiling Price Regulation 7, Supplementary Regulation 6]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

SR 6—ALTERNATIVE PRICING METHOD FOR RETAILERS WITH UNREPRESENTATIVE CATEGORY CHARTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 726), this supplementary regulation is issued.

STATEMENT OF CONSIDERATIONS

The accompanying supplementary regulation to Ceiling Price Regulation 7 makes available to retailers an alternative method whereby they may determine ceiling prices for articles included in categories listing an unrepresentative number of price lines. Retailers qualified to use this alternative method determine ceiling prices for articles in such "unrepresentative" categories as if the categories were never listed in their pricing charts.

On the list date many retailers did not handle lines of merchandise within a category that reflected the number of price lines normally carried during the selling season. For any such category, the pricing chart provided the seller with markups that generally were not typical for articles normally in their line. Under the provisions of this supplementary regulation, a seller who can produce records to substantiate the fact that his chart is unrepresentative for a category may use the specified alternative method, subject to his filing a report and receiving an acknowledgement thereof from the OPS.

To determine whether a chart is unrepresentative for a category a seller selects the calendar week during the period from February 27, 1950 through February 26, 1951, in which he offered for sale the greatest number of price lines for articles in that category offered during that week and compares the number of price lines for articles in the category offered during that week with the number of price lines for that category shown on his pricing chart. If the number of price lines shown on his chart is less than one-third of the number of price lines for articles in that category offered in the week selected in the period from February 27, 1950 through February 26, 1951, the pricing chart may be considered "unrepresentative" for that category and the category may be deleted from his chart. In that case the seller proceeds to determine ceiling prices under the regulation as if he had not filed a pricing chart for the deleted category.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Unrepresentative chart category.
3. Alternative method for unrepresentative categories.
4. Reports.
5. Records.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* Under this Supplementary Regulation 6, a seller may at any time elect to delete from his pricing chart any category for which his chart is "unrepresentative" and thenceforth determine ceiling prices under the applicable provisions of Ceiling Price Regulation 7 as if he had never filed a chart for that category. "Unrepresentative" chart category is described in section 2 of this supplementary regulation.

If prior to the date of deletion you used the "unrepresentative" category chart for determining ceiling prices for articles in the "unrepresentative" category either as a seller whose chart included the "unrepresentative" category or in another department or store, you must redetermine your ceiling prices for all the articles in that category.

If you used the "unrepresentative" category chart prior to the date of deletion for determining ceiling prices for articles in any other category pursuant to the provisions of sections 36 (Rule 5) and 37 (Rule 6) of Ceiling Price Regulation 7, you may elect to redetermine your ceiling prices for those articles; you may not, however, use an "unrepresentative" category chart for determining ceiling prices for articles in any new category pursuant to rules 5 and 6 after the date of deletion of the "unrepresentative" category.

An election once made under this supplementary regulation may not be changed. The alternative method is described in section 3 and may be used only after you file and OPS has acknowledged the report described in section 4.

SEC. 2. *Unrepresentative chart category.* You determine whether your chart for a category is "unrepresentative" as follows:

(a) Select the calendar week during the period February 27, 1950 to February 26, 1951 inclusive, in which you offered the greatest number of price lines in a category.

(b) Compare the number of price lines for articles in the category offered during that week with the number of price lines for that category shown on your pricing chart.

(c) If the number of price lines shown in the category on your pricing chart is less than one-third of the number of price lines for articles in that category offered in the week selected in (a) above, the pricing chart for the category is "unrepresentative."

SEC. 3. *Alternative method for unrepresentative categories.* If your pricing chart for any category is unrepresentative and you have sufficient data available to substantiate this fact, you may delete that category from your pricing chart pursuant to section 4. After receipt of the OPS acknowledgement there referred to, you determine ceiling prices under the applicable provisions of CPR 7 as if you had never filed a pricing chart for that category.

SEC. 4. *Reports.* You may not sell or deliver any article pursuant to this regulation unless you have first filed the report described below with your "OPS office" ("OPS office" is defined in footnote 2 to CPR 7) and received a written acknowledgement thereof from OPS. The report must be signed by you if you are an individual proprietorship; by a partner if you are a partnership; or by an officer or duly authorized agent if you

are a corporation. The report must contain the following information:

(a) Your name and address;

(b) Identification by number and description of each "unrepresentative" category chart you wish deleted from your chart;

(c) The dates of the week in the year February 27, 1950 to February 26, 1951, during which you were offering for sale the greatest number of price lines in each category listed under (b);

(d) Identification of the records on hand which substantiate the fact that your chart for each of the categories listed under (b) is "unrepresentative" (as the term is defined in section 2).

(e) If pursuant to section 1 of this supplementary regulation you elect to redetermine ceiling prices for articles in categories other than the deleted category, identify by number and description the categories thus affected.

Following receipt of the acknowledgement of your report and before selling any article pursuant to this supplementary regulation you must note under the appropriate category number in column 1 of your pricing chart the following: "This category has been deleted from my chart under Supplementary Regulation 6."

SEC. 5. *Records.* In addition to the records you are required to keep pursuant to CPR 7, you must preserve for inspection by OPS:

(a) The OPS acknowledgement described in section 4 of this supplementary regulation;

(b) A copy of the report filed pursuant to section 4; and

(c) The records referred to in paragraph (d) of section 4.

Effective date. This supplementary regulation shall become effective on June 28, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 9, Revision 1, Supplementary Regulation 2, Revision 1]

CPR 9—TERRITORIES AND POSSESSIONS

SR 2—CEILING PRICES FOR MANUFACTURERS MAKING SALES SUBJECT TO CPR 9

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Revision 1 of Supplementary Regulation 2 to Ceiling Price Regulation 9 is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 2 to Ceiling Price Regulation 9 as originally issued on September 7, 1951, provided a method for determining ceiling prices for sales in the territories and possessions of the United States by manufacturers or wholesalers located in the continental United States. Ceiling Price Regulation 9 has been revised and as revised applies to sales of commodities which at the time of sale are located in one of the territories and possessions of the United States. Ceiling Price Regulation 9, Revision 1, also now contains a method whereby wholesalers and retailers located in the continental United States or in one of the territories selling a commodity located in another territory at the time of sale may determine their ceiling prices. This revision of Supplementary Regulation 2, therefore, covers only manufacturers making sales subject to Ceiling Price Regulation 9, Revision 1.

This revision of Supplementary Regulation 2 provides that the ceiling price for a manufacturer making a sale subject to Ceiling Price Regulation 9, Revision 1, is his current ceiling price, computed under the applicable Ceiling Price Regulation (other than Ceiling Price Regulation 61), at the port of shipment, plus the markup which he enjoyed in the base period on sales in a territory as distinguished from sales at the port of shipment. Any manufacturer making sales subject to Ceiling Price Regulation 9, Revision 1, who has no base period experience for such sales, or who does not now have a ceiling price at the port of shipment, may apply under section 4 of this revision of Supplementary Regulation 2 for the establishment of a markup.

Because of the nature of this Supplementary Regulation, it has been impracticable to consult with the sellers affected, including trade organizations. A number of suggestions have been received from individual manufacturers, however, and careful consideration has been given to their recommendations.

In the opinion of the Director of Price Stabilization, this regulation is necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this Supplementary Regulation does.
2. Ceiling prices.
3. Customary markup.
4. Commodities which cannot be priced under other sections.
5. Adjustments.
6. Percentage markups.
7. Applicability of Ceiling Price Regulation 9, Revision 1.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup., 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this Supplementary Regulation does.* This Supplementary Regulation provides a method whereby manufacturers making sales subject to Ceiling Price Regulation 9, Revision 1, may determine their ceiling prices.

SEC. 2. *Ceiling prices.* If you are a manufacturer, your ceiling price for a sale subject to Ceiling Price Regulation 9, Revision 1, is that price which is your current ceiling price computed under the applicable ceiling price regulation (other than CPR 61) to the same class of purchaser at the port of shipment plus your customary markup for sales in the particular territory in which the commodity is located, computed in accordance with section 3 of this supplementary regulation. If you made a sale in the base period, but customarily had no differential between port of shipment selling prices and territorial selling prices, your ceiling price for sales subject to CPR 9 is your port of shipment ceiling price. The term "base period" means the period from December 19, 1950, to January 25, 1951.

SEC. 3. *Customary markup.* Your customary markup to a class of purchaser for a commodity is the dollar and cent difference between your base period selling price of that commodity at the port of shipment and your base period selling price of that commodity to the same class of purchaser in the territory in which the commodity is located. If you had more than one base period selling price of a commodity to the same class of purchaser at the port of shipment, you must use the average of those base period selling prices in computing your markup, and similarly, if you had more than one base period selling price of a commodity in the territory, you must use the average of those base period selling prices in computing your markup.

SEC. 4. *Commodities which cannot be priced under other sections.* If it is impossible for you to determine your markup for a commodity under the preceding sections of this supplementary regulation, you must apply by registered mail return receipt requested, to the Director of Region XIV, Office of Price Stabilization, 1405 G Street, N. W., Washington, D. C., for the establishment of a markup to be used in determining your ceiling price. This application must contain the following information:

(a) Your business name and address.

(b) A description of the commodity.

(c) The reason you are unable to determine your markup under section 3 above.

(d) The class of purchaser, the current port of shipment ceiling price to each class of purchaser, and the name of the port of shipment.

(e) Current cost of shipment from the port to the territory and the cost of preparation for shipment.

(f) Name of territory.

(g) Your proposed markup to various classes of purchasers. (If you propose a percentage markup, you must comply with section 6 of this supplementary regulation.)

You may not sell the commodity at a price higher than your port of shipment ceiling price until the Director of Price Stabilization has notified you, in writing, of the establishment of your markup

SEC. 5. *Adjustments.* If it is apparent, from your records, that your base period selling price in a territory did not reflect a mainland selling price increase, you may apply to the Director of Region XIV, Office of Price Stabilization, 1405 G Street, N. W., Washington, D. C. for an adjustment. The application must be signed by an authorized person and must contain the following information:

(a) Your business name and address.

(b) A description of the commodity.

(c) The current port of shipment ceiling price to the same class of purchaser.

(d) Current cost of shipment from the port to the territory and the cost of preparation for shipment.

(e) The name of the territory.

(f) Your markup calculated in accordance with section 3 of this Supplementary Regulation.

(g) The date and amount of the increase in the mainland selling price prior to January 25, 1951.

(h) Any subsequent increases in the territorial selling price in the base period, and the reason therefor.

(i) The reason why the mainland increase was not reflected in the territorial selling price in the base period.

(j) Your proposed markup for sales to each class of purchaser.

The Director of Price Stabilization, or his delegatee, may approve, disapprove, or revise downward your proposed markup. You may not, under any conditions, make sales at the ceiling price based on any markup higher than your markup computed under Section 3 until the Director of Price Stabilization, or his delegatee, has notified you in writing of his approval of your proposed markup.

SEC. 6. *Percentage markups.* Instead of using a dollar and cent markup, as provided in Section 3, you may calculate percentage markups, for each commodity for all future sales by dividing your dollar and cent markup of each commodity, as established above, by the port of shipment selling price used to establish that markup. If you elect to use a percentage markup, you must notify the Director of Region XIV of the Office of Price Stabilization, 1405 G Street, NW, Washington, D. C., by registered letter of your decision prior to offering commodities for sale on this basis. This notification must include your business name and address, and the class of purchaser to whom you sell (distributor, importer, retailer, consumer, etc.). Having made this election, you must use a percentage markup on all subsequent sales on a business wide basis.

SEC. 7. *Applicability of Ceiling Price Regulation 9, Revision 1.* Except as modified by this Supplementary Regulation, all the provisions of Ceiling Price Regulation 9, Revision 1, apply to sales by you.

Effective date. This Revision 1 of Supplementary Regulation 2 to Ceiling Price Regulation 9, Revision 1, is effective June 28, 1952.

NOTE: The reporting requirements of this Supplementary Regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 17, Supplementary Regulation 8]

CPR 17—GASOLINES, NAPHTHAS, FUEL OILS AND LIQUEFIED PETROLEUM PRODUCTS, NATURAL GAS, PETROLEUM GAS, CASINGHEAD GAS AND REFINERY GAS

SR 8—ADJUSTMENT OF CEILING PRICES OF NO. 2 FUEL OIL IN BALTIMORE AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency Order No. 2, this Supplementary Regulation No. 8 to Ceiling Price Regulation 17, is hereby issued.

STATEMENT OF CONSIDERATIONS

This action authorizes an increase of $0.003 per gallon for tank wagon deliveries of No. 2 Fuel Oil in the Metropolitan Baltimore, Maryland area. Such increase is based upon and is consistent with the principles embodied in the industry earnings standard.

Early in the 1951-52 heating season, sellers of domestic heating oils in the Baltimore, Maryland area applied for a price increase. Data was submitted by individual firms which showed that despite increases in the volume of sales their percentage of profit as related to sales and net worth was significantly lower than that of 1950 and prior years.

Application of the industry earnings standard to the fuel oil distributors in the Baltimore, Maryland area indicated that an increase of $0.003 per gallon for tank wagon deliveries of fuel oil to domestic consumers in the Metropolitan Baltimore, Maryland area was necessary to meet the minimum requirements of the standard.

In the judgment of the Director of Price Stabilization the increase herein granted is consistent with the principles embodied in the earnings standard as applied to distributors of essential commodities in a local area.

In the formulation of this regulation there has been consultation with industry representatives, including trade associations representatives, and consideration has been given to their recommendations.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization this Supplementary Regulation 8 is generally fair and equitable and necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this regulations does.
2. Increase in ceiling prices.
3. Applicability of provisions of Ceiling Price Regulation 17.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation is applicable to those sellers of No. 2 Fuel Oil when selling that product to consumers at the tank wagon level in the Baltimore, Maryland area. It permits these sellers to add $0.003 per gallon to their ceiling price.

SEC. 2. *Increase in ceiling prices.* On and after the effective date of this regulation each seller of No. 2 Fuel Oil may increase his ceiling price for this product $0.003 per gallon for tank wagon deliveries in the City of Baltimore, Maryland or within a radius of 16 miles from Baltimore City Hall.

SEC. 3. *Applicability of provisions of Ceiling Price Regulation 17.* Sellers covered by this supplementary regulation shall remain subject to all the provisions of Ceiling Price Regulation 17, as amended, except such provisions as are inconsistent herewith.

Effective date. This supplementary regulation shall become effective on the 28th day of June 1952.

[Ceiling Price Regulation 82, Amdt. 4]

CPR 82—CEILING PRICES FOR FROZEN FRUITS AND BERRIES OF THE 1951 AND LATER PACKS

REVISED PRICING METHOD FOR ITEMS NOT SOLD DURING THE BASE PERIOD AND MISCELLANEOUS CHANGES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 82 is hereby issued.

STATEMENT OF CONSIDERATIONS

As originally issued, Ceiling Price Regulation 82 applied only to the 1951 pack of frozen fruits and berries. The Office of Price Stabilization is now revising the regulation, but processors and base distributors must now be provided with ceiling prices for packs commenced after January 1, 1952. Therefore, as an interim measure, CPR 82 is being amended to make it applicable not only to the 1951 pack but also to later packs of frozen fruits and berries. This is accomplished in this amendment by changing the title and section 1 (a) of CPR 82.

Consideration has been given to changing the container size classifications of Table I in section 2 (b) to more nearly reflect industry practice. Such changes were made in CPR 81. However, since such changes in CPR 82 would require recalculation of ceiling prices for practically all frozen fruits and berries and would necessitate a complete review by the Office of Price Stabilization of the adjustment factors named in the table, it has been determined that changes in container size classifications for frozen fruits and berries will not be made in CPR 82 but will be effected in the 1952 pack tailored regulation.

Section 2 (c) is amended to make it clear that the appropriate raw material adjustment in Table II is the adjustment for the area in which the processor's factory is located. This conforms the provision to the original intent of the regulation and brings it in line with similar provisions in CPR's 81, 55, and 56.

The permitted adjustments in Table II for freestone peaches in the area designated "All other states", for pears in the Oregon and Washington area, and for fresh prunes in Washington and Oregon are revised to reflect changes made pursuant to section 402 (d) (3) to make appropriate allowances for substantial reductions in merchantable crop yields of the named fruits in those areas. These increases conform to a public statement previously issued by the Office of Price Stabilization and are the same as those made effective in CPR 56, the canned fruit and berry regulation, by Amendment 5 to that regulation.

This amendment revises section 5, paragraphs (a), (b) and (d) of section 6 and paragraph (a) of section 19. These changes are the same as those made in CPR 81 by Amendment 4 to that regulation. Since the statement of considerations issued with that amendment explains the reasons for such changes, and those reasons apply equally to this amendment, it is incorporated herein. However, in the case of frozen fruits and berries the review of price information discloses that price distortions cannot be corrected by the use of November 1951, selling prices or by the use of dollar-and-cents prices as in the case of frozen vegetables. Accordingly SR 1 to CPR 82 is being continued in effect until such time as the regulation can be amended to add a provision for individual adjustments, and for a reasonable time thereafter to permit the processing of the applications by OPS. Until the expiration of this "reasonable time", sellers who have previously elected to determine ceiling prices under SR 1 are not required to recalculate their ceiling prices under the amended sections 5 or 6, nor to file the reports required by section 19, as amended. At such time as SR 1 is revoked recalculation under the regulation, as amended, and the filing of the new ceiling prices will be required. Sellers who have elected to remain under CPR 82 and not SR 1, who have previously calculated or obtained ceiling prices under section 5, 6, or 7 of CPR 82 and who are now able to calculate ceiling prices under section 5 as revised by this amendment, are required to do so and to report such recalculated ceilings.

The definition section is amended to provide a definition of the phrase "Customary allowances, discounts and price differentials" which was inadvertently omitted from CPR 82 as originally issued. The definition specifies that the discounts, allowances and price differentials referred to in section 15 are those in effect prior to and during the base period.

The Director of Price Stabilization has consulted with representatives of the industry, including trade association representatives, before issuing this amendment, and has given consideration to their recommendations. It is his judgment that the provisions of this amendment are generally fair and equitable, comply with all applicable provisions of the Defense Production Act of 1950, as amended, and are necessary to effectuate the purposes of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 82 is amended in the following respects:

1. The title of Ceiling Price Regulation 82 is amended to read as follows: "CPR 82—Ceiling Prices for Frozen Fruits and Berries of the 1951 and Later Packs."

2. Section 1 (a) is amended to read as follows:

(a) *What products and sellers are covered.* This regulation establishes ceiling prices for sales by processors and base distributors of the 1951 and later packs of all frozen fruits and berries. This regulation does not apply to sales of frozen citrus products or other frozen fruit or berry concentrates and purees.

3. Section 2 (c) is amended in the following respects:

a. In subparagraph (2) the phrase "for the area in which your factory is located" is added immediately after certain of the references to "Table II" so that the text of subparagraph (2) preceding the table shall read as follows:

(2) If your 1951 cost is greater than your 1948 cost and if the permitted adjustment listed in Table II, for the area in which your factory is located is a plus figure, you shall use either your actual increase or the appropriate increase listed in Table II, for the area in which your factory is located, whichever increase is less. If your 1951 cost is greater than your 1948 cost, and if the permitted adjustment listed in Table II, for the area in which your factory is located, is a minus figure, you shall use the appropriate increase listed in Table II. If your 1948 cost is greater than your 1951 cost and if the permitted adjustment listed in Table II, for the area in which your factory is located, is a plus figure, you shall use your actual decrease. If your 1948 cost is greater than your 1951 cost and if the permitted adjustment listed in Table II, for the area in which your factory is located, is a minus figure, you shall use either your actual decrease or the appropriate decrease listed in Table II, whichever is the larger.

b. Table II is amended by changing the permitted adjustments in dollars per unit as follows:

Peaches, freestone—All other States from +16.31 to +46.61
Pears—Oregon, Washington from −7.30 to +3.90
Prunes, Fresh—Washington, Oregon from +28.00 to +31.00

4. Section 5 is deleted and a new section 5, reading as follows, is substituted therefor:

SEC. 5. *Ceiling prices for items not sold during the base period.* This section applies to most items for which ceiling prices cannot be calculated under section 2, 3, or 4 of this regulation.

(a) *Processors.* If you sold the same product during the base period, you shall calculate a ceiling price by comparing the price of a "comparison item" and of the item for which you are calculating a ceiling price. You may use this method only if:

The "comparison item" and the item for which you are calculating a ceiling price are both of the same product and differ in one or more of the following respects: container type, container size, variety, grade or style of pack;

You compare the price of the "comparison item" to a class of purchaser (i. e. your price to wholesalers or your price to other processors and base distributors as specified in section 2 of this regulation) and the price of the item for which you are calculating a ceiling price to the same class of purchaser;

Prices for both items are adjusted to an f. o. b. factory basis, including no more than one month's storage charges;

Both items are within one of the container size ranges, which follow:

20 ounces and less;
More than 20 ounces to 10 pounds, inclusive.
More than 10 pounds to 30 pounds, inclusive.
More than 30 pounds.

(1) *Calculating ceiling prices by comparison with other items appearing on your price list or written quotation.* This subparagraph provides a method of determining a ceiling price for an item you did not sell during the base period by making a comparison between the opening prices for that item and for a "comparison item" as quoted on your "price list" or "written quotations". The "comparison item" is limited to an item of the same product for which you are able to figure a ceiling price under section 2 or 4 of this regulation, even though you no longer sell that particular item of the product. Your "price list" or "written quotations" means the first written opening price list or writen quotation from among your lists or quotations for 1950, 1949, or 1948 (in that order) on which the comparison item and the item being priced both appear. If the "comparison item" and the item for which you are calculating a ceiling price do not both appear on the opening price list or "written quotation", you may, for either item, use the first written price list or written quotation issued after the opening price list or written quotation, provided that the interval between each price list or written quotation does not exceed sixty days, and provided that both the "comparison item" and the item for which a ceiling price is being calculated are of the same year's pack .

(i) *Items which differ only in container size or container type.* You shall select as a "comparison item" from your price list or written quotations that item differing only in container size or type which is nearest in container size to the item for which you are calculating a ceiling price. Divide the price on your price list or written quotation for that item by the price on your price list or written quotation for the comparison item. Then multiply the ceiling price as determined under section 2 or 4 of this regulation of the comparison item by the quotient obtained by this division. The result is your ceiling price per unit of sale for the item, f.o.b factory, to the same class of purchaser, including no more than one month's storage charges.

(ii) *Items which differ in variety, grade or style of pack.* If you cannot determine your ceiling price under subdivision (i) of this subparagraph you shall select as a "comparison item" from your price list or written quotation that item differing in variety, grade or style of pack (which may or may not also differ in container size or container type) which is nearest in price to the item for which a ceiling price is being calculated. Divide the price on your price list or written quotation for that item by the price on your price list or written quotation for the comparison item. Then multiply the ceiling price as determined under section 2 or 4 of this regulation for the comparison item by the quotient obtained by this division. The result is your ceiling price per unit of sale for the item, f. o. b. factory, to the same class of purchaser, including no more than one month's storage charges.

(2) *Calculating ceilig prices for items for which ceiling prices cannot be determined under subparagraph (1).* If you are unable to calculate your ceiling price for an item under subparagraph (1) of this paragraph but are able to calculate ceiling prices for other items of the same product under section 2, 4 or subparagraph (1) of this paragraph, you shall calculate your ceiling price for the item for which you are seeking to establish a ceiling price in the following manner.

(i) Select as a "comparison item" an item of the same product for which you are able to calculate a ceiling price under section 2, 4 or subparagraph (1) of this paragraph, even though you no longer sell that particular item of the product, and which differs from the item for which you are calculating a ceiling price in one or more of the following respects: Container size, container type, variety, grade (if an item of the same grade is not available), or style of pack. This comparison item shall be the item of the same grade of the product whose "current direct cost" per unit of sale is closest to that of the item being priced, or if there is no item of the same grade, the comparison item shall be the item of the product whose "current direct cost" per unit of sale is closest to that of the item being priced. "Current direct cost" means the sum of the amounts (not higher than permitted by law) which it costs you for direct processing labor, ingredients and packaging materials.

(ii) Determine the "current direct cost" per unit of sale of the comparison item.

(iii) Determine the "current direct cost" per unit of sale of the item for which you are calculating a ceiling price.

(iv) Divide the current direct cost of that item by the current direct cost of the comparison item.

(v) Multiply the ceiling price for the comparison item selected in subdivision (i) of this subparagraph by the quotient obtained in subdivision (iv) of this subparagraph. The result is your ceiling price per unit of sale for the item, f. o. b. factory, to the same class of purchasers, including no more than one month's storage charges.

(b) *Base distributors.* If you sold the same product during the base period, you shall calculate a ceiling price by comparing the price of a "comparison item" and of the item for which you are calculating a ceiling price in the same manner as processors make this calculation under paragraph (a) of this section. However, in making this calculation the ceiling price for the comparison item you use shall be one figured under sections 2, 3, or 4. In making the calculation under paragraph (a) (2) you may, if necessary, use a ceiling price for the comparison item calculated under paragraph (a) (1) of this section. In addition, in making the calculation under paragraph (a) (2), wherever the phrase "current direct cost" is used you shall substitute "acquisition cost". "Acquisition cost" means the 1951 "weighted average acquisition cost" determined in the manner provided in section 3 (b) of this regulation.

5. Section 6 is amended in the following respects:

a. Pararaphs (a) and (b) are amended to read as follows:

(a) *Processors.* (1) If you are a processor and are unable to calculate your ceiling price for an item under sections 2, 4, or 5, you shall use as your ceiling price for that item the simple average of the f. o. b. factory ceiling prices for the same class of sale (including no more than one month's storage charges) of the three processors of the same item who are most competitive with you and who are located in the same pricing area as you are. If there are only two such processors in the area, use the simple average of the two available ceiling prices. If there is only one such processor in the area, you may use his ceiling price.

(2) If you are unable to determine your ceiling price under subparagraph (1) of this paragraph because such competitive processors do not pack the product in the same size container as the item you are pricing but do pack an item differing only in container size, and if such container is within the same size range, as specified in section 5 (a) of this regulation, as the item you are pricing, use the simple average of such ceiling prices (or the ceiling price, if only one is available) as the ceiling price for a "comparison item" and calculate your ceiling price for the item being priced under section 5 (a) (2), using your own direct costs for the comparison item.

(b) *Base distributors.* If you are a base distributor and are unable to calculate your ceiling price for an item under section 3 or 5, you shall use as your ceiling price for that item the simple average of the f. o. b. factory ceiling prices for the same class of sale (including no more than one month's storage charges), and for the same item, of the three sellers (either processors or base distributors) who are most competitive with you and who are located in the same pricing areas as you are. If there are only two such sellers in the area, use the simple average of the two available ceiling prices. If there is only one such seller in the area, you may use his ceiling price.

b. Paragraph (d) is amended to read as follows:

(d) *Application for ceiling prices.* If you are unable to obtain the ceiling prices of the required processors or base distributors located near you, or if you believe that the ceiling prices obtained by using the provisions of paragraph (a) or (b) of this section are not representative of the competitive price level at which you have customarily sold your products, or if you use merchandising methods in their sale and distribution different from those of such processors or base distributors, you may apply to the Office of Price Stabilization for an individual authorization of a ceiling price in accordance with section 7 of this regulation.

6. Section 19 (a) is amended to read as follows:

(a) If you sell items covered by this regulation you are required to determine ceiling prices in accordance with the provisions of this regulation, as amended, or any supplementary regulation thereto, and to file a report on OPS Public Form 97 with the Fruit and Vegetable Branch, Office of Price Stabilization, Washington 25, D. C., of the ceiling prices so determined. If at any time this regulation is amended or supplemented to provide a different pricing method than you previously used in calculating your ceiling price for an item or to change the level of ceiling prices theretofore established by this regulation, you are required to recalculate your ceiling price in accordance with the provisions of the regulation as so amended or supplemented unless it is specified that such recalculation is optional. Copies of the reporting form are available at any office of the Office of Price Stabilization. All items of a particular product shall be included on one form. However, you shall file an additional report if ceiling prices for some items of a product are determined at a later date, or if because of amendment of this regulation, or by supplementary regulation thereto, you are required or permitted to recalculate your ceiling prices.

Notwithstanding the provisions of sections 5 and 6 of this regulation, as amended, and the foregoing provisions of paragraph (a) of this section, you are not required to recalculate your ceiling prices under section 5 or 6, as amended, at this time if you have elected to determine your ceiling prices under SR 1 to CPR 82 by using November 1951, prices, nor are you required to file the reports called for by this section 19 until such time as SR 1 is revoked.

7. Section 26 (p) is added to read as follows:

(p) "Customary allowances, discounts and price differentials" means those differentials for cash discount, allowance for buyer's labels, for unlabeled goods, for difference in volume of sale, for class of buyer, or for method or time of delivery, which were customary in the business of the seller and in effect prior to and during the base period.

Effective date. The effective date of this amendment is July 11, 1952, or such earlier date between June 23, 1952 and July 11, 1952, as you may select. If you select an earlier date, this amendment becomes effective as to you upon that date for all of your items covered by this amendment.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

STATEMENT OF CONSIDERATIONS

This amendment adds the following commodities to those suspended from price controls by section 3 of General Overriding Regulation 4, Revision 1: Sales, when made by a manufacturer, of sheets, pillow cases, towels, bedspreads, napkins, tablecloths, diapers, blankets, cordage, twine and thread, provided that the fiber weight of these commodities after production, but before finishing, consists 50 percent or more of cotton and less than 25 percent of any one of either wool, rayon, nylon or fibers other than cotton; except sales in the territories and possessions of the United States.

GOR 4—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

SUSPENSION OF BURLAP, JUTE, COTTON AND PAPER OPEN MESH BAGS AND ASSOCIATED COMMODITIES

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 3 to General Overriding Regulation 4, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds the following commodities to the list of those for which the application of any ceiling price regulation is suspended, provided that the cost or weight of their material content consists 50 percent or more of jute, cotton or paper open mesh fabric: Burlap and cotton bags; burlap and cotton spiral tubing; burlap and cotton laminated sheets, tubes and covers; burlap strips; and paper open mesh bags and yardage. Sales of these items when both new and used are included in this suspension.

This action is taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. As was required in the case of the items previously suspended by this General Overriding Regulation, sellers must preserve and keep available those records they were required to have on hand as of the effective date of this amendment.

On April 28, 1952 ceiling prices on burlap were suspended by Amendment 1 to CPR 40 and Revision 1 of General Overriding Regulation 4. Similar action has recently been taken with respect to cotton textiles. The greater part of the burlap available in this country is used in the production of the commodities listed above. The burlap bag industry, for example, uses approximately 75 percent of the burlap imported into the United States. In 1951 about 407,000,000 yards of burlap was used for bags out of 534,000,000 yards consumed for all purposes in the United States. At the present rate of consumption there is in excess of 4 months' supply of burlap now available in the United States and India, and the United States alone holds stocks equal to approximately 3 months of normal consumption. The capacity of the industry to produce bags and other burlap products is far in excess of the demand for these products.

As was more fully detailed in Amendment 1 to CPR 40, jute, from which burlap is made, is expected to be in plentiful supply during the foreseeable future, and since June 1951 there has been a gradual decline in burlap prices. Burlap is the principal cost element in all of the burlap commodities being suspended by this amendment. In bags, for example, the burlap alone accounts for 75 percent to 85 percent of the cost. As could be expected, the decline in burlap prices has been reflected in the prices of commodities made from burlap. The history of prices for burlap bags and other burlap commodities is closely similar to that of the burlap itself and it can be expected that this similarity will continue in view of the large manufacturing capacity and the adequacy of supplies.

Accordingly, it is the judgment of the Director that price controls on the burlap commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. The Director may at any time terminate or modify the suspension action relating to these commodities if he determines that such action is necessary in the interest of the stabilization program. In any event, the suspension of the burlap commodities will be terminated whenever the suspension of burlap is terminated.

The supply and price situation with respect to the cotton commodities which are covered by this amendment is analogous to that of the burlap commodities. Cotton bags, spiral tubing, laminated sheets, tubes and covers compete directly with the same commodities made from burlap. The prices of these cotton commodities will not rise as long as the cost of cotton greige goods does not advance and the burlap commodities remain in adequate supply and do not increase in price. Less than 10 percent of the cotton greige goods produced in this country are used for cotton bags and associated commodities suspended by this amendment. There appears to be an adequate supply of cotton greige goods available for all purposes for the foreseeable future.

Paper open mesh bags and yardage are sold in competition with cotton open mesh fabric and bags. Cotton and paper open mesh bags have customarily sold at the same prices. Bags made of cotton open mesh and paper open mesh fabrics are interchangeable in their use and the price of each is limited by the price of the other. It is not believed that paper open mesh yardage and bags will increase in price unless there is a similar increase in the price of the competing products. The price movements for the paper fabrics and products affected by this amendment have been almost identical with those of cotton open mesh material and commodities.

It is therefore the judgment of the Director of Price Stabilization that price controls on these cotton and paper open mesh commodities are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. The Director may at any time terminate or modify the suspension of control of these commodities if he determines that such action is necessary in the interest of the stabilization program and he will in any event terminate this suspension of ceiling prices when the suspension of controls on cotton textiles is terminated.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 3 of General Overriding Regulation 4, Revision 1, is amended by adding the following two paragraphs:

(g) Burlap bags; burlap spiral tubing; burlap laminated sheets, tubes and covers; and burlap strips; provided the cost or weight of material making up these commodities consists 50 percent or more of jute fabrics; except sales made in the territories and possessions of the United States.

(h) Cotton and paper open mesh bags; cotton spiral tubing; cotton laminated sheets, tubes and covers; and paper open mesh yardage; provided the cost or weight of material making up these commodities consists 50 percent or more of cotton or paper open mesh fabric; except sales made in the territories and possessions of the United States.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective June 23, 1952.

GOR 4—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

SUSPENSION OF LEATHER-MAKING RAW STOCK AND LEATHER

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 4 to General Overriding Regulation 4, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds the following commodities to those suspended from price controls by section 3 of General Overriding Regulation 4, Revision 1: (1) Imported and domestic hides and skins and the cut parts thereof suitable for making leather, whether raw, partially cured, fully cured, or semi-tanned; (2) imported and domestic leather, including finished or unfinished splits and leather cut stock, except when sold at retail and except scrap leather not suitable for producing cut parts. This suspension does not apply to sales made in the territories and possessions of the United States.

This action is being taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved. In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

Amendment 1 to Ceiling Price Regulation 2, Revision 2, effective April 28, 1952, suspended ceiling prices on domestic cattlehides, kips and calfskins. Current prices of imported bovine hides and skins are at about the same level as domestic prices. The world supply and demand situation indicates that world prices will not increase materially within the foreseeable future.

Cattlehides, kips and calfskins constitute the largest source of leather and their prices exert a considerable influence upon prices of other hides and skins in both world and domestic markets. Consequently, the prices of other hides and skins have fallen to a level which is now materially below existing ceiling prices under the General Ceiling Price Regulation. Most current prices are even lower than pre-Korea. For example, present prices of domestic and imported sheep and lamb skins are about 50 percent below existing ceilings and one-third less than in June 1950. Prices of other hides and skins have followed the same downward pattern.

Tanners' pipelines both in this country and in other important consuming countries are reportedly filled, and other information similarly indicates that the supply of the hides and skins for which ceiling prices are being suspended by this amendment is adequate to meet the foreseeable demand. It therefore appears that a rapid increase in hide and skin prices here or abroad is not likely to occur within the foreseeable future.

This amendment also suspends price ceilings on all types of leather, with the exception of certain scrap leather which is currently selling at ceiling prices. In general, leather prices move in close relationship with hide and skin prices and in most cases leather prices are now relatively as far below ceilings as are the prices of the leather-making raw stock.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interest of the stabilization program.

In general, price ceilings on hides and skins covered by this amendment will be reimposed when the suspension of ceilings on domestic cattlehides, kips and calfskins is terminated. If necessary, however, separate action may be taken at any time with respect to any of the other hides or skins. Price ceilings on leather will be reimposed when ceilings are reimposed on the corresponding raw materials, or at such other time as may be necessary in the judgment of the Director.

AMENDATORY PROVISIONS

Section 3 of General Overriding Regulation 4, Revision 1, is amended by adding the following two paragraphs:

(i) Imported and domestic hides and skins and the cut parts thereof suitable for making leather, whether raw, partially cured, fully cured, or semi-tanned, except sales in the territories and possessions of the United States.

(j) Imported and domestic leather, including finished or unfinished splits and leather cut stock, except scrap leather not suitable for producing cut parts, sales in the territories and possessions of the United States, and sales at retail.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154.)

Effective date. This amendment shall become effective June 23, 1952.

[General Overriding Regulation 7, Revision 1]

GOR 7—EXEMPTIONS AND SUSPENSIONS OF CERTAIN FOOD AND RESTAURANT COMMODITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Revision 1 of General Overriding Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 7 is an across-the-board regulation intended to exempt certain food commodities and related edible and inedible commodities largely of agricultural origin. Most of the commodities thus exempted have been removed from price control because they are insignificant in the cost of living, in business costs, or in the cost of the defense effort, as their prices have little or no effect upon the price ceilings of other commodities which are important to such costs, and because retaining them under price control would have involved administrative burdens out of proportion to their importance. More detailed statements of the reasons for exempting the particular commodities previously exempted may be found in the Statements of Considerations accompanying the original regulation and its amendments.

These exemptions are continued in the sections of Article II of this revised GOR 7. In addition, Article III is now added to GOR 7 and will be used to suspend the application of all ceiling price regulations to sales of specified commodities. Section 10, which is the first section of Article III, is added to GOR 7 by this revision. That section suspends controls applicable to sales for off-premise consumption of imported and domestic bulk whiskey, bulk wine, packaged distilled spirits and packaged wine for the reasons set forth in detail below. Controls applicable to sales of those commodities for on-premise consumption (Ceiling Price Regulations 11 and 134) are not suspended because the general "soft market" conditions described below have not exhibited themselves in that area.

This action is taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director of Price Stabilization, price controls with respect to the sales of the commodities whose ceiling prices are suspended by this revision are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved. In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

Bulk whiskey. Dollars and cents ceiling prices for domestic bulk whiskey are presently set by SR 1 to CPR 78. These ceiling prices are, in general, the prices prevailing during the General Ceiling Price Regulation (GCPR) base period. For many months the selling prices of this commodity have been declining from these levels with the result that at the present it is possible to purchase supplies of domestic bulk whiskey at prices ranging from 30 to 47 percent below ceiling prices. The reason for declining prices for domestic bulk whiskey is an abnormal supply situation which has developed over the past few years. The average yearly production of domestic bulk whiskey during the years 1946–1949 was 150 million gallons. During 1950 production dropped to 120 million gallons but in 1951 it jumped to 200 million gallons. On the other hand, tax paid withdrawals of domestic bulk whiskey have not exceeded 90 million gallons in any year since repeal of prohibition. As a result of this imbalance between production and withdrawals, inventories of domestic bulk whiskey have become so great that the present supply is sufficient to meet normal consumption for approximately 8 years. In addition, it is estimated that the production of domestic bulk whiskey in 1952 will be about 150 million gallons, with the result that inventories will be even further increased.

As is normal in a situation where supply so greatly exceeds consumption requirements the prices for domestic bulk whiskey have steadily dropped. Another factor has intensified this downward pressure, however. Domestic bulk whiskey may be kept in United States Government bonded warehouses for only 8 years after which time the full federal excise tax of $10.50 per proof gallon must be paid and it must be withdrawn. By 1953 the inventory of whiskey distilled in 1945—a relatively large distillation—will have to be withdrawn. This will encourage distillers to an increasing degree to attempt to move surplus stocks of aged whiskeys to avoid paying this tax on large amounts within a short time. And this attempt to move surplus stocks will have an additional depressing effect on bulk whiskey prices.

As prices for domestic bulk whiskey are substantially below ceiling and are still declining and as the inventories are so great, the Director has determined that controls should be suspended. At the same time price controls on sales of imported bulk whiskey, which are covered by CPR 31, are also suspended since hardly any sales of that commodity are made and maintaining controls at this time would serve little purpose.

Packaged distilled spirits. As would be expected, the large inventories of domestic bulk whiskey have had a depressing effect on the level of prices of packaged domestic distilled spirits sold at wholesale and at retail for off-premise consumption. This decline has not, however, exhibited itself in a manner normal in other trades, that is by a general decline across-the-board in prices for particular brands of spirits. Sales of spirits at retail are made through State owned stores in 17 States and in these States the prices are set by law. Also, with the exception of two States and the District of Columbia, the remaining States, in which the sale of packaged distilled spirits is legal, have statutes which make it illegal to reduce the price charged for particular brands below a specified amount. In addition, distillers have established brand prestige through various advertising and are reluctant to reduce prices on these brands inasmuch as part of the prestige value of the brand is in the price itself.

The decrease in the level of packaged domestic distilled spirits prices has come about in various ways. In order to avoid depreciating the prestige of established brands, distillers have begun marketing new brands or reestablishing old brands which have been dormant. Although the spirits sold under a new brand name may be the same as those sold under an existing brand, the new brand is sold at a lower price. Also, wholesalers and large retailers have started buying and bottling domestic bulk whiskey and selling it under private labels. Again, although there may be no objective difference between the private label and the distilled spirits sold under the brand name of the distillery, the private label is sold at a lower price. In addition, the age of the whiskeys sold under the traditional brand names has been increasing due to the pressure of forced withdrawals of domestic bulk whiskey from United States Government bonded warehouses.

Such an increase in the age of the whiskey sold entitled the distiller to an increase in his ceiling price. Few sellers have made this recalculation and thus are in fact selling at prices below their allowable ceiling prices. Finally, for 16 percent (by volume) of existing brands there has been a price decrease since the GCPR base period.

Thus, as with bulk whiskey, sales for off-premise consumption of package domestic distilled spirits are being made at price levels below ceiling prices and supplies are more than adequate to meet even abnormally high consumption.

Imported packaged distilled spirits are also, in a number of cases, selling below ceiling prices and are in more than adequate supply. However, of greater significance is the fact that most imported spirits must compete with domestically produced merchandise and, consequently, can be expected to follow the price movements of domestic spirits. Even to the extent that this does not occur, as may be the case with items of particular appeal (such as Scotch whiskey) or items in extreme short supply, the fact that the sale of imports accounts for such a small percentage of the total sales of spirits makes the burden of controlling this relatively minor item in the current general "soft market" situation outweigh the value derived from control. Consequently, the Director has decided to suspend controls on imported packaged distilled spirits sold for off-premise consumption.

Wines. The ceiling prices for domestic bulk wines and for producer sales of domestic packaged wines are established under the GCPR and SR 30 thereto. In general those ceiling prices represent the highest prices charged in January 1951 (which were based on the cost of the 1949 grape crop) plus the increased cost to the seller of the 1950 crop of grapes used by the particular seller in producing the wines sold after January, 1951. Ceiling prices for wholesale and retail sales of domestic packaged wines are presently determined under SR 2 to CPR 78 or GCPR.

Current bulk wine prices are approximately 55 percent below bulk wine ceiling prices. Similarly, packaged wine prices (sold for off-premise consumption) declined substantially immediately after January, 1951, and presently show no tendency to revert to their former level.

Wine production in 1951 was 30.9 percent greater than 1950 production and, in fact, approached the production record set by that industry in 1946. Gross inventories of wines in 1951 exceeded the 1950 gross inventories by 23.6 percent, and the ratio of inventory to sales in 1951 was 292 percent as compared with the 176 percent average ratio for the years 1946 through 1950. Finally, grape crop prospects for 1952 are normal.

As for imported wines, which are presently covered by GCPR, CPR 31 and CPR 78, SR 2, sharp declines in wholesale and retail prices of a number of brands have occurred in the past two years occasioned both by the fact that there is an ample supply of imported wines and that those wines are competitive with domestic wines. Present data indicate that the high level of production of imported wines is being maintained and that no appreciable upward movement in prices is likely to occur in the foreseeable future.

Lifting suspension. The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interest of the stabilization program. In any event, however, controls will be reimposed under the following circumstances:

Controls on bulk whiskey and on packaged distilled spirits will be reimposed at such time as the simple average of the selling prices of bulk whiskey 3 years of age and older increases to a level 20 percent below the simple average of the ceiling prices for such ages. In addition, ceiling prices on packaged goods will be reestablished either (1) when the weighted average of distillers' list prices advances above the levels prevailing under the GCPR during 1951, or (2) when the weighted average dollar-and-cent spread between distillers' and retailers' prices increases above the weighted average dollar-and-cent spread reflected during 1951 under Ceiling Price Regulation 78, Supplementary Regulation 2 (the tailored regulation for distributors of packaged spirits).

The information necessary to make the determinations needed for recontrol of bulk whiskey and packaged distilled spirits will be gathered in three ways. In the first place, the suspension provisions of this revision provide that the Director of Price Stabilization may request or require price quotations of bulk whiskey from a representative sample of sellers. Secondly, a representative group of distillers who sell case goods will be requested or required to submit price lists monthly whenever prices are changed or new brands added to their lists. Finally, the Director of Price Stabilization or his authorized representative periodically will collect retail price data on important brands.

As for bulk wines and packaged wines, the reimposition of controls will depend primarily upon the price movements of bulk dessert wine, which accounts for about 67 percent of total bulk wine production and sales. The prices of bulk dessert wine and bulk table wine ordinarily move in the same direction and the prices of packaged wine are generally closely tied to bulk wine prices. Specifically, controls both on bulk and on packaged wine will be reimposed when and if the prices for bulk dessert wine reach a level at least 20 percent below the ceiling prices for that wine. Weekly bulk market price reports are available for use in tracing the significant price movements.

The movement of prices on packaged wine will also be watched so as to determine whether they are increasing independently of increases in bulk wine prices. Controls will be reimposed on packaged wine when prices reach the January 1951 level.

REGULATORY PROVISIONS

ARTICLE I—GENERAL PROVISIONS

Sec.
1. What this regulation does.

ARTICLE II—EXEMPTIONS

2. Exemptions.

ARTICLE III—SUSPENSIONS

Sec.
10. Suspension of controls applicable to distilled spirits and wines.

AUTHORITY: Sections 1 to 10 issued under 64 Stat. 816, as amended; 50 U. S. C. App. Sup., 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup., 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this revised regulation does.* The sections contained in Article II of this revised regulation exempt all sales of the commodities listed therein, unless otherwise stated, from any ceiling price regulation issued by the Office of Price Stabilization. The sections contained in Article III suspend the application of any ceiling price regulation to the stated sales of the commodities listed therein.

ARTICLE II—EXEMPTIONS

SEC. 2. *Exemptions.* No ceiling price regulation heretofore issued or which may hereafter be issued by the Office of Price Stabilization shall apply to sales of the commodities specifically listed in the following paragraphs:

(a) *Meat and related products.* (1) Pituitary glands, pancreas glands, and suprarenal glands (also known as adrenal), when those products are sold in the raw or semi-processed state. ("Pituitary glands, pancreas glands, and suprarenal glands (also known as adrenal)" mean those glands which are obtained as by-products in the slaughter of bovine (cattle and calves), ovine (sheep and lambs) and porcine (swine) species. "Raw or semi-processed state" means the ordinary state of preservation common to the slaughtering industry in which those commodities are sold by the slaughterer if he sells directly or through an intermediate seller.)

(2) Dead stock or dead animals when sold for the recovery of inedible products.

(b) *Fish.* (1) Canned Maine whole soft shell clams.

(c) *Specialty food items.* (1) All sales of the following domestically produced or imported specialty food items.

(i) Water ground corn meal.

(ii) These fish and sea food items: pates; pastes; purees; clam juices; fish roe; caviar; fish and sea food hors d'oeuvres.

(iii) Frozen hollandaise sauce.

(iv) These canned fruits and berries: whole or half citrus fruits (not sectionized); brandied, liquor flavored, or stuffed fruits or berries (except olives); cocktail slices and sticks (fruits); cocktail cherries with stems; and white Catawba grape juice.

(v) Wine or liquor jells and jellies which do not contain unfermented fruit or fruit juices; preserved kumquats; melon and fruit rind.

(vi) Hollandaise sauce, plain.

(vii) The following canned poultry items: livers; hearts; gizzards; and pates.

(viii) Wild game, canned; turtle meat, canned; pate de foie gras, canned; and rattlesnake meat, canned.

(ix) Pickled rind.

(x) Wild rice.

(xi) The following canned soups: turtle, wine flavored; smoked turkey; game bird; fish or sea food (except clam chowder); almond; artichoke; broccoli; cucumber; and water cress.

(xii) Rock candy syrup.

(xiii) Herbal vinegar; and wine vinegar.

(xiv) Truffles; capers; canned snails; crepes suzette; canned fried worms; babas in tins; walnut sauce; and Easter egg dye.

(xv) Bird seed, bird biscuit and other bird food.

(xvi) Coffee packed in bags, each containing only the amount necessary to make one ordinary cup of coffee.

(2) Sales by importers, wholesalers and retailers only of the following domestically produced or imported specialty food items in consumer size containers: smoked tongue; cocktail frankfurters; meat pates; French onion soup; cocktail mushrooms; cheese dressings; wine gelatins and wine dessert powders; sauces (except meat sauces) containing fish or sea food.

(3) All sales of the following imported specialty food items when imported in consumer size containers: breakfast cereals; cocoa, chocolate and cereal drink preparations; roasted coffee in containers of two (2) pounds or less; cookies, crackers, toast; non-sterile processed fish (except herring and salmon); fruits, berries and fruit juices (except pineapple and pineapple juices); gelatin and pudding mixtures; jams, jellies, preserves, honey; macaroni and spaghetti products; mayonnaise and salad dressing; canned meats (except beef and beef products) in containers of two (2) pounds or less; pickles and relishes; spices and herbs; soups; syrup; tea; canned vegetables and vegetable juices, dried and dehydrated vegetables; vinegar.

(d) *Grocery products.* (1) Packaged domestic whiskey bottled prior to December 5, 1933. (The terms "packaged," "domestic," and "whiskey" are defined in Ceiling Price Regulation 78, as amended, the Basic Alcoholic Beverage Regulation.)

(2) Honey, but only when sold by packers thereof.

(3) Unpopped or popped popcorn. ("Popped popcorn" means plain, seasoned, or flavored popcorn; it does not mean any commodity consisting of popped popcorn combined with one or more other products.)

(4) Sorghum syrup, but only when sold by producers therof.

(5) Pure maple sugar candy, which is candy made from pure maple syrup with no other ingredients added.

(6) Natural or distilled water, provided it is neither carbonated nor flavored.

(7) Corn cobs.

(8) Edible sugar cane molasses, but only when sold by producers thereof. ("Edible sugar cane molasses" means the liquid product obtained when any part of the commercially crystallizable sugar is extracted for sugar cane, provided that the total sugar content is not less than 57 percent by weight, the sulphated ash content is not more than 9 percent by weight, and the soluble non-sugar solids are more than 6 percent of total soluble solids.) Producers of edible sugar cane molasses are, however, subject to the following record keeping and reporting requirements:

(i) *Records.* Every producer who in the regular course of business produces edible sugar cane molasses shall make and keep for inspection by the Director of Price Stabilization for a period of two years complete and accurate records of each sale or purchase made after November 16, 1951. The records must show the date of the sale or purchase, the name and address of the seller and purchaser, and the price charged or paid, itemized by quantity and type. The records must indicate whether each purchase or sale is made on an f. o. b. shipping or on a delivered basis, and in the former case the shipping and transportation charges unless delivery is by common carrier. Records must also show all premiums, discounts and allowances.

(ii) *Reporting.* Producers selling edible sugar cane molasses shall notify the Office of Price Stabilization, Food and Restaurant Division, Washington 25, D. C., within ten days after making any increase in prices above those in effect on November 16, 1951. The report should include the General Ceiling Price Regulation price with the terms and conditions of sale and the new price with the terms and conditions of sale.

(e) *Canned fruit, vegetable and berry products.* The following domestically processed canned (in tin or glass) or packaged fruit, vegetable and berry products:

(1) Canned artichoke products whose vegetable ingredient consists predominantly of artichokes or parts thereof.

(f) *Miscellaneous.*

(1) Fur seal meal.

(2) Safflower oil and safflower seeds.

(3) Copra slab cake produced in the United States, copra oil meal produced in the United States, and copra pellets produced in the United States.

ARTICLE III—SUSPENSIONS

SEC. 10. *Suspension of controls applicable to distilled spirits and wines.* (a) On and after June 23, 1952, the application of all ceiling price regulations, heretofore or hereafter issued by the OPS, to sales for off-premise consumption of imported and domestic bulk whiskey, imported and domestic bulk wines, and imported and domestic packaged distilled spirits and wines is suspended. If, however, you are a seller of those commodities for off-premise consumption and were required by any regulation heretofore issued to keep, prepare, or preserve any record concerning those commodities, you shall continue to preserve and make available for examination by the OPS, in the manner and for the period set forth in that regulation, all such records which you were required to have on June 21, 1952. In addition, the Director of Price Stabilization or his authorized representative may, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, request or require you to submit data pertaining to prices charged for those commodities and to changes made in the prices of those commodities after June 21, 1952. This suspension will continue unless and until the Director of Price Stabilization terminates or modifies it.

(b) Definitions of terms used in this section 10 are contained in Article III of Ceiling Price Regulation 78, as amended.

Effective date. This revised regulation is effective June 23, 1952.

NOTE: The record-keeping and reporting requirements of this revised regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[General Overriding Regulation 14, Amdt. 16]

GOR 14—EXCEPTED AND SUSPENDED SERVICES

CERTAIN TEXTILE SERVICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 16 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds to the list of services suspended from price control those services which are performed in the course of the manufacture or processing of any fiber, yarn or fabric as to which the applicable ceiling price regulation has been suspended, or which has been excepted from price control.

Price controls over certain fibers, yarns and fabrics have been suspended because those commodities generally are selling at prices materially below ceilings and are not expected to reach ceilings in the foreseeable future. In general, a low level of selling prices of commodities has a depressing effect on the charges for services connected with the manufacture or processing of these commodities. As long as the prices of these commodities do not rise to any significant degree, resistance against increased charges for the services will continue. And since it is not anticipated that the prices of the commodities will reach ceilings in the foreseeable future, it appears that market forces will operate to prevent appreciable increases in the service charges as well.

This amendment also suspends from price control services performed in the manufacture and processing of American-Egyptian Cotton. American Egyptian Cotton is not subject to price control, having been excepted by section 14 (s) (5) of the General Ceiling Price Regulation. Inasmuch as controls are being suspended by this amendment as to services such as ginning, baling and wrapping on American Upland cotton, it is considered advisable to suspend price control on those services when they are performed upon American-Egyptian cotton.

In the judgment of the Director, controls over the services suspended by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interest of the stabilization program. In any event, this suspension will be terminated as to a service when controls are re-activated as to the fiber, yarn or fabric on which the service is performed.

All records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respect:

1. Section 4 is amended by adding paragraph (b), to read as follows:

(b) The application of any ceiling price regulation, now or hereafter issued, to the services listed below, is suspended until further notice by the Director of Price Stabilization; *provided, however,* That persons who were required by any regulation heretofore issued to keep, prepare, or preserve any record concerning these services, shall continue to preserve and make available for examination by the Office of Price Stabilization, in the manner and for the period set forth in said regulation, all such records which they were required to have on June 21, 1952, or, in the case of services added to this section by subsequent amendment, which they were required to have on the effective date of any such amendment.

(1) All services performed in the manufacture or processing of any fiber, yarn, or fabric as to which the applicable ceiling price regulation has been suspended or which have been excepted from price control. Such services include ginning, baling, wrapping, throwing, commission weaving, commission warping and slashing, wool scouring, top making, spinning, burling and mending, garnetting, carbonizing, winding, dyeing, finishing, bleaching, scouring, napping, printing, mercerizing, singeing, shrinking, felting, shearing, water-proofing, gas-proofing, saponifying, embossing, moireing.

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 6, Revision 1]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 6—MILK PRODUCTS FOR FLUID CONSUMPTION IN SPRINGFIELD, MASS., MILK MARKETING AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738) and Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559), Delegation of Authority No. 41 (16 F. R. 12679) and Region I Redelegation of Authority No. 22 (17 F. R. 260), this Revised Area Milk Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Since the date Area Milk Price Regulation 6 was issued, a petition for amendment of Area Milk Price Regulation 6 has been received from dealers in the Springfield Milk Marketing Area. The Springfield District Office of the Office of Price Stabilization, in addition to processing and giving effect to the request of the milk dealers contained in the petition for amendment, considers it appropriate now, in the light of the more recent information it has, to make a number of additional corrections and clarifications. Accordingly, the Springfield District Office of the Office of Price Stabilization is issuing the accompanying revision of Area Milk Price Regulation 6, rather than a lengthy amendment, for the convenience of the industry. The General Ceiling Price Regulation issued on January 26, 1951, pointed out that the general freeze which it imposed on prices at all levels of production and distribution was an emergency measure made imperative by the urgency of bringing the inflationary spiral to a halt. On September 24, 1951, Supplementary Regulation 63 became effective permitting adjustments of ceiling prices for fluid milk products in individual marketing areas upon petition or upon the initiative of the appropriate District or Regional Director. Pursuant to this authority, as delegated and redelegated, this revised Area Milk Price Regulation is being issued adjusting prices for the Springfield Milk Marketing Area on sales of milk, cream, and cottage cheese within that area by processors and distributors. Sales by retail stores are not covered by this revised regulation. Milk products and sales not covered by this revised regulation remain subject to the provisions of the General Ceiling Price Regulation.

The marketing area was determined after considering all relevant factors such as places where milk is processed and utilized, places where milk in the area originates, the prevailing wage rates in the area, and historic differences in retail pricing between this area and the rest of the state. Moreover, sellers covered by this revised regulation proposed this area to the Springfield District Office.

This revised regulation provides uniform adjustments of ceiling prices determined under section 3 of the General Ceiling Price Regulation. Under this method each seller applies a uniform set of adjustments to the highest prices he charged for fluid milk product items during the period December 19, 1950, to January 25, 1951.

The uniform adjustments and the resulting ceiling prices give effect to increases in cost of direct labor, containers and raw materials between the pre-Korean period and a current period, and to changes in selling prices between the pre-Korean and General Ceiling Price Regulation base periods. In addition, this revised regulation takes into consideration increases in the cost of the so-called fringe benefits such as Federal Insurance Contributions Act payments, Federal and State Unemployment Compensation Act payments, Workmen's Compensation Insurance premiums, paid vacations, employer pension contributions, etc., where such payments are directly applicable to direct processing and distribution labor. These expenses were not all considered when the original Area Milk Price Regulation 6 was issued.

Current raw material prices upon which the uniform adjustments are predicated are specified in section 5, and were applicable to May 1952. As future increases and decreases in these prices take place, equivalent upward adjustments in ceilings will be permitted, and equivalent downward adjustments must be made.

Increases in the cost of milk from the pre-Korean period to the current period, and future milk cost changes, upon which adjustments under this revised regulation are based, reflect changes in the minimum Class I price to producers.

Calculations were based on data submitted by a representative group of distributors. The revised regulation is a result of petitions received from 7 distributors who represent approximately 60 percent of the volume of milk sold in the area. Among those petitioning were large, medium, and small dealers. Spot checks and audits were made to determine the accuracy of reported costs and sales volumes contained in the petitions.

Every effort has been made to conform this revised regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this revised regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of the Springfield District Office of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this revised regulation.

In the judgment of the Director of the Springfield District Office of the Office of Price Stabilization, the provisions of this revised Area Milk Price Regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

The Director of the Springfield District Office of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives

of the Defense Production Act of 1950, as amended; and to all relevant factors of general applicability.

The Director has consulted the industry to the extent practicable and has given due consideration to its recommendations.

AUTHORITY: Sections 1 to 17 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this revised area milk price regulation does.* This revised area milk price regulation, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, provides uniform adjustments of ceiling prices determined under section 3 of the General Ceiling Price Regulation for sales of fluid milk products in the Springfield, Massachusetts Milk Marketing Area. These adjustments are applied to the highest prices at which you sold fluid milk product items to a particular class of purchaser during the period December 19, 1950, through January 25, 1951. This revised regulation provides for further ceiling price adjustments in accordance with future variations in the costs of raw milk and cream.

SEC. 2. *Where this revised area milk price regulation applies.* The provisions of this revised regulation apply to the Springfield, Massachusetts Milk Marketing Area which consists of the entire area within the boundaries of Hampden and Hampshire Counties in the Commonwealth of Massachusetts.

SEC. 3. *Sellers and sales covered by this revised regulation.* This revised regulation covers retail and wholesale sales of milk, cream, and cottage cheese by processors and distributors, and sales of these products by processors to distributors. This revised regulation covers all such sales to a purchaser located outside the area unless the products are resold outside the area. It does not cover any sales to a purchaser located outside the area unless the products are resold inside the area.

SEC. 4. *Ceiling price adjustments.* Your ceiling price for a sale of a fluid milk product to a particular class of purchaser shall be the highest price you charged each purchaser for the item during the period December 19, 1950, through January 25, 1951, adjusted by a uniform adjustment in accordance with the applicable provisions of this section.

(a) *Basic container sizes.* The uniform adjustments for all fluid milk product items packaged in basic container sizes shall be as shown in the following table:

Product	Container size	Uniform adjustment	
		Retail and wholesale sales	Sales to [illegible]
Milk	Quart	No adjustment	Minus [illegible]
Heavy cream (above 34 percent butterfat)	½ pint	do	No adjustment
Light cream (16–34 percent butterfat)	do	do	Minus [illegible]
Creamed cottage cheese	16 ounces	Plus $0.05	Minus [illegible]

(b) *Other sizes.* The uniform adjustment for each fluid milk product item which is packaged in a container of a size other than the basic container size applicable to the particular product shall be an amount which is in the same relationship to the uniform adjustment applicable to the basic container size as the other size is to the basic size. Examples of adjustments for other container sizes are included under section 5.

SEC. 5. *Adjustments for raw material cost changes.* Your ceiling prices as established by section 4 shall be adjusted to reflect future changes in raw material costs of milk and cream in accordance with the provisions of this section. However, such adjustments are also subject to the "rounding" provisions of section 6.

(a) *Specified prices.* Ceiling prices determined pursuant to section 4 are predicated upon the following specified prices for May 1952:

Minimum Class I milk price per hundredweight payable to producers, as announced by the Federal Milk Market Administrator for the Springfield, Mass., Marketing Area: $5.95.

Weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as announced by the Federal Milk Market Administrator: $29.915.

Gross skim value for 100-pounds skim per 100-pounds Class 2 milk, as announced by the Federal Milk Market Administrator: $1.2364.

(b) *Changes from specified prices; basic sizes.* If the most recently announced price if a product specified in paragraph (a) of this section is higher than the specified price, you may increase your ceiling prices for applicable items of fluid milk products packaged in basic container sizes by an equivalent rate per unit. If the most recently announced price is lower than the specified price you must decrease your ceiling prices for such items by the equivalent rate per unit.

Example No. 1. You are a processor or distributor of milk in quart containers. The price of $5.95 per hundredweight specified for Class I milk in Section 5 (a) is later increased to $6.39 per hundredweight. Subtract $5.95 from $6.39 and divide the difference of $0.44 by 46.5 (the number of quarts in 100 pounds of milk). The equivalent rate of increase per quart of milk is therefore $.0046 cents per quart.

Example No. 2. You are a processor or distributor of heavy and light cream in half-pint containers. The price of $29.915 per can for 40-quart can of 40 percent cream specified in Section 5 (a) is later increased to $32.915. Subtract $29.915 from $32.915 and divide the result of $3.00 by the particular divisor shown below for each of these items, to obtain the indicated adjustment. In each case, the divisor represents the number of ½ pints which would contain the same quantity of butterfat as a 40-quart can of 40 percent cream. It is to be assumed that the respective grades of cream contain the indicated percentages of butterfat.

Item	Divisor	Adjustment (rounded)
½-pint heavy cream (40 percent).	160	1.9
½-pint light cream (20 percent).	320	[illegible]

(c) *Changes from specified prices; other sizes.* Adjustments of ceiling prices of fluid milk products packaged in container sizes other than the basic container sizes, and due to changes from specified prices, shall be calculated as follows. First, calculate the adjustment for the basic container size, in accordance with paragraph (b) of this section. Then, apply the "rounding" provisions of section 6 (a) for the basic container size. The adjustment for each item packaged in another-sized container shall be in the same relationship to the "rounded" adjustment as the other size is to the basic size.

Example. You are a processor or distributor of milk in ½-pint and 8-quart containers and of light cream in quarts. The price changes referred to in Examples No. 1 and No. 2 in section 5 (b) take place. The further calculations are:

Product	Rounded adjustment for basic container size (cents)	Adjustment for other sizes
Milk	1.0 per quart	[illegible]
Light cream	1.0 per ½ pint	4.0 per [illegible]

SEC. 6. *Rounding of fractions.* (a) If, in computing an adjusted ceiling price pursuant to section 5, you arrive at a unit price which involves a fraction of a cent, you may increase and you must decrease it to the nearest ½-cent per quart of milk, ½-pint of cream and pound of cottage cheese, in accordance with the following table:

Increase or decrease from specified price (in cents):	Increase or decrease (cents)
Up to 0.250	0
0.251 to 0.750	½
0.751 and over	1

(b) Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product sold in a particular transaction, or during a customary billing period, after rounding of fractions in unit prices as provided in paragraph (a) of this section, shall be dropped if less than ½-cent and may be increased to the next higher cent if ½-cent or more.

SEC. 7. *Sellers who cannot price under other sections.* If you are unable to establish a ceiling price for the sale of an item covered by this revised regulation either because you did not sell that item during the period December 19, 1950, through January 25, 1951, or for any other reason, you may, in writing, apply to the Springfield District Office of the Office of Price Stabilization for a determination of a ceiling price for the sale of the item or of the method you shall use for computing a ceiling price for the item. The application shall contain an explanation of why you are unable to determine the ceiling price, the reason you believe the proposed price is in line with the level of ceiling prices otherwise established by this regulation, and the raw material cost price upon which it is based. You may not sell the item until the Director of the Springfield District Office of the Office of Price Stabilization notifies you by Letter Order of your ceiling price or method of computing your ceiling price. After such determination of your ceiling price you shall compute your adjustment comparable to those provided in section 5 from the price specified in the Letter Order of the Director of the Springfield District Office of the Office of Price Stabilization.

SEC. 8. *Reports.* (a) Within five days after the effective date of this revised regulation, you shall deposit in the mail a registered letter to the Director of the Springfield District Office of the Office of Price Stabilization, Springfield, Massachusetts, notifying the Director of your ceiling prices, as determined by you under section 4 of this revised regulation, for each item of fluid milk products. This report shall be on OPS Public Form 124 which may be obtained from that office.

(b) Within five days after the date of an official announcement indicating that the price of a product specified in section 5 (a) is less than the specified price, you shall deposit in the mail a registered letter to the Director of the Springfield District Office of the Office of Price Stabilization, Springfield, Massachusetts, giving the following information:

(1) Your ceiling price, as determined under section 4 of this revised regulation for each item of fluid milk products;

(2) The adjusted ceiling price for each item of fluid milk products determined under section 5 of this regulation.

(c) Upward adjustments in your ceiling prices pursuant to section 5 of this revised regulation, may not be made before you deposit in the mail a registered letter to the Director of Springfield District Office of the Office of Price Stabilization, Springfield, Massachusetts, giving the information listed in paragraph (b) of this section.

SEC. 9. *Transfers of business or stock in trade.* If the business, assets or stock in trade of a processor or distributor is sold or otherwise transferred after the effective date of this revised regulation, and the transferee carries on the business, or continues to deal in fluid milk products, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject under this revised regulation if no such sale or transfer had taken place, and the transferee's obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the sale or transfer which are necessary to enable the transferee to comply with the record provisions of this revised regulation.

SEC. 10. *Records.* (a) With respect to fluid milk products covered by this revised regulation, the provisions of section 16 of the General Ceiling Price Regulation are hereby continued in effect, insofar as they apply to the preparation and preservation of "base period records" and such "current records" as were required to be made with reference to sales between January 26, 1951, and the effective date of this revised regulation.

(b) You shall prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, and keep available for examination by the Office of Price Stabilization all records showing, with respect to fluid milk products covered by this revised regulation, prices and material and labor costs in the period January 1, 1950, to June 30, 1950, inclusive; records, showing cost, prices, and sales for the other applicable periods and dates referred to in Supplementary Regulation 63 to the General Ceiling Price Regulation, and records necessary to determine whether you have computed your ceiling prices correctly. The records to be preserved under this paragraph must include appropriate work sheets. The work sheets may be in any convenient form so long as they include all data and calculations required to determine your ceiling prices.

(c) You must prepare and keep available for examination by the Office of Price Stabilization for a period of two years, records of the kind which you customarily keep showing the prices which you charge for fluid milk products covered by this revised regulation.

SEC. 11. *Evasion.* Any practice which results in obtaining directly or indirectly a higher price than is permitted by this revised regulation is a violation of this revised regulation. Such practices include, but are not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in agreements, and trade understandings.

SEC. 12. *Charges lower than ceiling prices.* Lower prices than those established under this revised regulation may be charged, demanded, paid or offered.

SEC. 13. *Sales slips and receipts.* If you have customarily given a purchaser a sales slip, receipt, or similar evidence of purchase, you shall continue to do so. Upon request from a purchaser, regardless of previous custom, you shall give the purchaser a receipt showing the date, your name and address, the name of each item sold, and the price received for it.

SEC. 14. *Power of Director.* The Director of the Springfield District Office of the Office of Price Stabilization may at any time disapprove and revise downward ceiling prices established under this revised regulation, so as to bring prices so established into line with the level of ceiling prices for such items otherwise prevailing in the area.

SEC. 15. *Prohibitions.* After the effective date of this revised regulation, regardless of any contract or other obligation, you shall not sell and you shall not buy in the regular course of business or trade, any fluid milk product at a price in excess of the ceiling price established for it by this revised regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 16. *Penalties.* (a) Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for damages provided for by the Defense Production Act of 1950, as amended.

(b) *Violations of reporting requirements.* If any person subject to this revised regulation fails to file the reports required by this revised regulation, or if any person required to do so by this revised regulation fails to establish a ceiling price, or apply to the Director of the Springfield District Office of the Office of Price Stabilization for the establishment of a ceiling price, then the Director may issue a Letter Order establishing ceiling prices for the fluid milk products such person sells. Any ceiling price established in this manner will be in line with ceiling prices established by this revised regulation. The order establishing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this revised regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this revised regulation or of the various penalties for failure to do so.

SEC. 17. *Definitions.* (a) *Milk.* This term means standard milk; homogenized milk; vitamin and mineral fortified milk; high fat milks; milks of special curd tensions and other milks with special dietary qualities and properties; buttermilk; chocolate milk; skim milk, plain; skim milk, vitamin or mineral fortified; skim milk drinks such as chocolate milk; and any other milk or skim milk variation; regardless of whether such products are sold in glass, paper or other type of containers, or in bulk.

(b) *Cream.* This term means cream of various percentages of butterfat, including soured cream, regardless of whether such products are sold in glass,

paper, or other type of containers, or in bulk.

(c) *Fluid milk products.* This term means milk, cream, and creamed cottage cheese.

(d) *Retail and wholesale sales.* This term means sales by a processor or distributor to a purchaser other than a distributor. Examples are sales to homes, stores, restaurants, and institutions.

(e) *Basic container size.* This term means one quart for milk items, one-half pint for cream items, and 16 ounces for cottage cheese items.

(f) *Terms defined elsewhere.* All terms not defined in this revised regulation but defined in Supplementary Regulation 63 to the General Ceiling Price Regulation or in the General Ceiling Price Regulation shall be construed as therein defined unless otherwise clearly required by the context of this revised regulation.

Effective date. This revised area milk price regulation, pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, is effective June 20, 1952.

NOTE: The record keeping and reporting requirements of this revised regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

GILBERT C. HANCOCK,
Director of the Springfield District Office.

GENERAL WAGE PROCEDURAL REGULATION

REPORTS FILED FOR NEW PLANTS

Pursuant to the Defense Production Act of 1950 (64 Stat. 816, as amended by Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), Executive Order 10233 (16 F. R. 3503), and General Order No. 3, Economic Stabilization Administrator (16 F. R. 739), this amendment to the General Wage Procedural Regulation (16 F. R. 10018) is hereby issued:

AMENDATORY PROVISIONS

The text of subparagraph (3) of section 4.4 (a) is redesignated as subdivision (i), and a new subdivision (ii) is added to section 4.4 (a) (3) to read as follows:

(ii) The provisions of subdivision (i) of this subparagraph shall not apply to a unilateral report filed pursuant to General Wage Regulation 9 where at the time the report was filed there was no certified or recognized collective bargaining representative of any of the employees involved in the report, and no election had been ordered by the National Labor Relations Board, or similarly authorized State agency, and no consent election agreement had been executed, to determine the status of a labor organization as the collective bargaining agent for any of such employees. The processing of such unilateral report shall, however, be without prejudice to the right of any labor organization thereafter certified or recognized to bargain with the employer concerning such rates and to submit any resultant agreement for Board approval.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Unanimously adopted by the Wage Stabilization Board on June 5, 1952.

PART 151—PROCEDURES BEFORE THE SOLICITOR

MISCELLANEOUS AMENDMENTS

a. In § 151.100 *Requisites of application* amend paragraph (b) to read as follows:

(b) The application for a permit must be made in writing. It must state the name, address and business of the applicant and must set forth the name and the scientific education, training and experience, particularly with reference to bacteriology and pathology, of the person who will handle, or will supervise and direct the handling by others of, the tissues which will be mailed under the permit.

b. Amend § 151.102 *Revocation and suspension of permits; basis* to read as follows:

§ 151.102 *Revocation and suspension of permits; basis.* (a) Permits to receive diseased tissues may be suspended or revoked upon evidence that the person upon whose stated qualifications the application was granted (see § 151.100 (b)), or one substituted for him as provided in subparagraph (b) of this section, fails to possess the necessary qualifications as to scientific education, training and experience.

(b) Permits shall not be valid with respect to diseased tissues handled by any person other than the one named in the application, or persons acting under his supervision and direction; or by, or under the supervision and direction of, some other person qualified in accordance with § 151.100 (b) whose name and statement of qualifications shall be filed with the Solicitor prior to the receipt of the tissues.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 201—GENERAL REGULATIONS

CONTRACTS FOR CERTAIN CANNED FRUITS AND VEGETABLES; TEMPORARY EXTENSION OF EXEMPTION FROM PROVISIONS OF WALSH-HEALEY PUBLIC CONTRACTS ACT

On September 7, 1951, pursuant to authority vested in me by section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35-45) (hereinafter called the "act") I granted, after an open hearing, an exception permitting the award of contracts for the procurement of the following canned fruits and vegetables for the Armed Forces of the United States until and including December 31, 1951, without the inclusion therein of the representations and stipulations of section 1 of the act (16 F. R. 9290):

Apples, canned.
Applesauce, canned.
Apricots, canned.
Asparagus, canned.
Beans, lima, canned.
Beans, string, canned.
Beets, canned.
Berries, canned.
Carrots, canned.
Catsup, tomato.
Cherries, sour, canned.
Cherries, sweet, canned.
Corn, cream style, canned.
Corn, whole grain, canned.
Figs, canned.
Fruit cocktail, canned.
Grapefruit, canned.
Juice, citrus.
Juice, grape.
Juice, pineapple.
Peas, green, canned.
Peaches, canned.
Pears, canned.
Pineapple, canned.
Plums (prunes), canned.
Potatoes, sweet, canned.
Pumpkin, canned.
Puree, tomato.
Sauce, cranberry.
Spinach, canned.
Tomato juice, canned.
Tomato paste, canned.
Tomatoes, canned.

By order published in the FEDERAL REGISTER January 3, 1952, this exemption was extended through June 30, 1952. In accordance with § 201.601 of the regulations issued pursuant to the act (41 CFR 201.601), the Secretary of the Army has made a written finding, transmitted through the Department of Defense on June 6, 1952, that the conduct of vital procurement will be impaired unless this exemption is extended through the balance of calendar year 1952 for the canned fruits and vegetables specified; and pursuant to section 6 of the act and upon the basis of this finding, the Secretary of the Army has requested the Secretary of Labor to grant an extension of the exemption during the calendar year 1952.

For the purpose of providing sufficient time for a thorough study of all of the factors involved in this requested extension, and in order to avoid any interruption to procurement of the commodities involved, a temporary extension of this exemption to August 15, 1952, is herewith ordered.

Signed at Washington, D. C., this 18th day of June 1952.

MICHAEL J. GALVIN,
Acting Secretary of Labor.

VESSEL INSPECTION REGULATIONS

PUBLIC HEARING ON PROPOSED CHANGES

1. The Merchant Marine Council will hold a public hearing on Tuesday, July 22, 1952, commencing at 9:30 a. m., in Room 2020, Coast Guard Headquarters, Thirteenth and E Streets NW., Washington, D. C., for the purpose of receiving comments, views, and data on certain proposed changes in the vessel inspection regulations as generally described in Items I to XXXII, inclusive, below.

2. The proposed changes in the regulations, together with the statutory authority for making such changes, are generally described by subjects in paragraphs 6 to 83, inclusive. The Merchant Marine Council Public Hearing Agenda (CG-249) has been prepared. Due to the extent of the revision of regulations required, this agenda has been printed in five booklets containing eight volumes of material arranged by subjects. The volumes and titles are as follows:

Volume I—Passenger Vessels.
Volume II—Cargo and Miscellaneous Vessels.
Volume III—Uninspected Vessels.
Volume IV—Electrical Engineering.
Volume V—Marine Engineering.
Volume VI—Bulk Grain Cargo.
Volume VII—Load Lines.
Volume VIII—Manning of Vessels.

This agenda contains the specific changes proposed and where possible the

present and proposed regulations are set forth in comparison form, together with reasons for the changes where necessary. Comments on the proposed changes in the vessel inspection regulations are desired. Copies of this agenda have been mailed to persons and organizations who have expressed a continued interest in the subjects under consideration and have requested that copies be furnished them. Copies of the agenda will be furnished upon request to the Commandant (CMC), United States Coast Guard, Washington 25, D. C., so long as they are available. After the extra copies available for distribution are exhausted, copies will be available for reading purposes only in Room 4104, Coast Guard Headquarters, or at the offices of the various Coast Guard District Commanders.

3. Comments on the proposed regulations are invited. All persons who desire to submit written comments, data, and views prior to the hearing for consideration in connection with the proposed changes should submit them in writing for receipt prior to July 18, 1952, by the Commandant (CMC), Coast Guard Headquarters, Washington 25, D. C., or comments, data, and views may be presented orally or in writing at the hearing. In order to insure consideration of comments and to facilitate checking and recording it is essential that each comment regarding a proposed section shall be submitted on Form CG–3287 showing the specific item and page number of the agenda, section number, the proposed change, the reason or basis (if any), and the name, business firm or organization (if any), and the address of the submitter. There is a small quantity of this form attached at the end of each agenda. In the event additional forms are required, they may be obtained upon request. Oral comments may be submitted before the Merchant Marine Council on July 22, 1952. At the public hearing the proposed revisions and amendments to the regulations will be considered in the order of the item numbers assigned to the various subjects under consideration.

4. On November 19, 1951, the fifteenth country deposited its ratification of the 1948 Convention for Safety of Life at Sea with the British Government. Therefore, the requirements contained in this Convention will come into force on November 19, 1952, insofar as the United States is concerned. The United States Coast Guard is one of the primary governmental agencies concerned with the administration of the 1948 Convention for Safety of Life at Sea, and the Commandant is charged with implementing this Convention by promulgating the necessary vessel inspection regulations to give force and effect to the Convention. It will, therefore, be necessary that the proposed regulations set forth in the agenda be considered and comments submitted at once in order to permit the publication of the regulations as soon as possible after the public hearing so that all persons concerned will be aware of the new requirements coming into effect on November 19, 1952.

5. The style of presentation of the present vessel inspection regulations in 46 CFR Chapter I does not show readily the applicable requirements to passenger vessels, dry cargo vessels, and miscellaneous types of vessels in the merchant marine. The Administrative Procedure Act requires that regulations having future force and effect shall be published in such a manner that persons affected thereby will be able to understand the requirements applicable to them. The Revised Statutes containing the basic authority for vessel inspection regulations have been amended many times and other laws which supplement or complement the Revised Statutes, as well as many conventions and treaties ratified since 1872, have a direct bearing on the vessel inspection regulations. It is necessary that the format of the vessel inspection regulations applicable to certain types of vessels in the merchant marine be revised in order that those concerned or affected will be able to readily determine what regulations are applicable to them. Since it is necessary to revise many of the vessel inspection regulations in order to implement the 1948 Convention for Safety of Life at Sea, it is proposed to accomplish a revision of the format of the regulations, as well as a revision of the requirements, at the same time. Because of the scope and extent necessary in the navigation and vessel inspection regulations, the proposed regulations to be considered at this public hearing are in addition to the proposed regulations considered at the public hearings held September 18, 1951, and March 25, 1952.

VOLUME I—PASSENGER VESSELS

6. To implement the 1948 Convention for Safety of Life at Sea, as well as to revise the vessel inspection regulations applicable to passenger vessels, so that passenger vessel requirements will be in one subchapter, it is proposed to cancel the present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as certain load line regulations and motorboat regulations applicable to passenger-carrying motorboats or motor vessels, and place them in one subchapter entitled "Passenger Vessels." In Items I to IX are the specific requirements set forth by general subjects.

ITEM I—GENERAL PROVISIONS

7. It is proposed to establish a new Part 70 entitled "General Provisions" applicable to passenger vessels. This part will contain regulations regarding authority and purpose, application of regulations to all types of vessels, definitions of terms used, equivalents permitted in lieu of present requirements, and references regarding marine engineering requirements. It is also proposed to cancel 46 CFR 43.015, 45.012, and 46.017, regarding equivalents, which are now published in the load line regulations.

8. The authority for regulations regarding general provisions applicable to passenger vessels is in R. S. 4405, 4462, 49 Stat. 1544, sec. 17, 54 Stat. 166, and sec. 5 (e), 55 Stat. 245, as amended; 46 U. S. C. 375, 462, 367, 526p, and 50 U. S. C. App. 1275.

ITEM II—INSPECTION AND CERTIFICATION

9. It is proposed to establish a new Part 71 containing the applicable vessel inspection requirements for passenger vessels. This part will set forth requirements for certificate of inspection, permit to proceed to another port for repair, permit to engage in excursions, inspection of vessels, initial inspection, annual inspection, reinspection, special surveys, sanitary inspection, inspection of tail shafts, drydocking, repairs and alterations, gas freeing, and plan approval. It is proposed to consolidate requirements previously published in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120); and construction and alteration of passenger vessels of 100 gross tons and over (46 CFR Part 144); as well as requirements in 46 CFR 46.024, regarding plans and inspections of new and converted vessels for load line purposes; which will all be canceled.

10. The authority to prescribe regulations regarding inspection and certification for passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375, 416). The regulations interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4423, 4426, 4428–4434, and 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, and 12, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1544, 1935, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 361, 362, 391, 392, 399, 400, 404, 406–412, 435, 366, 395–397, 363, 367, 660a, 1331–1333, and 50 U. S. C. App. 1275.

ITEM III—CONSTRUCTION AND ARRANGEMENT

11. It is proposed to establish a new Part 72, regarding the construction and arrangement of passenger vessels. This part will cover requirements for hull structure, structural fire protection, means of escape, ventilation, accommodations for officers and crew, accommodations for passengers, and rails and guards. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120); and construction and material alteration of passenger vessels (46 CFR Part 144); as well as 46 CFR 27.4–4, regarding ventilation of motorboats and motor vessels, which will all be canceled.

12. The authority to prescribe regulations regarding construction and arrangement of passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4490, as amended, sec. 3, 24 Stat. 129, 41 Stat. 305, sec. 5, 49 Stat. 1384, secs. 1 and 2, 49 Stat. 1544, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 482, 483, 363, 369, 367, 1331–1333, and 50 U. S. C. App. 1275).

ITEM IV—WATERTIGHT SUBDIVISION

13. It is proposed to establish a new Part 73, regarding watertight subdivision of passenger vessels. This part will set forth requirements regarding application of regulations, special definitions, rules for subdivision, peak and machinery space bulkheads and shaft tunnels, double bottoms, penetrations and openings in watertight bulkheads, watertight bulkhead doors, openings in vessel's sides below the bulkhead deck, openings above the bulkhead deck, and special requirements for vessels contracted for prior to 19 November 1952. It is proposed to cancel the load line regulations in 46 CFR 46.1 to 46.6, inclusive, regarding rules for determining subdivision load lines for passenger vessels, 46.9, regarding extent of double bottom, 46.12, regarding watertight floors, 46.13, regarding manholes, 46.20, regarding openings and watertight bulkheads, 46.21, regarding types of watertight doors, 46.22, regarding location of allowed types of doors, 46.23, regarding watertight doors and their operation and fittings, 46.24, regarding design and installation of watertight doors, 46.25, regarding tests of watertight doors, 46.27 to 46.32, inclusive, regarding openings in vessel's sides below the bulkhead deck, 46.33 to 46.36, regarding openings above bulkhead deck, 46.012, regarding relaxations from regulations, as well as applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120), and marine engineering regulations regarding wells and double bottoms in 46 CFR 57.10.

14. The authority for regulations regarding watertight subdivision of passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4490, as amended, sec. 3, 24 Stat. 129, 41 Stat. 305, sec. 5, 49 Stat. 1384, secs. 1 and 2, 49 Stat. 1544, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 482, 483, 363, 369, 367, 1331–1333, and 50 U. S. C. App. 1275), and Executive Order 7548, dated February 5, 1937 (2 F. R. 307).

ITEM V—STABILITY

15. It is proposed to establish a new Part 74, regarding stability of passenger vessels. This part will set forth requirements regarding application of regulations, stability tests, stability standards, ballast, stability instructions for operating personnel, and stability letter issued by the Coast Guard. The proposed regulations will cover new requirements regarding stability of vessels in damaged condition and stability tests for passenger vessels which are necessary to implement the 1948 Convention. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120), as well as load line regulations in 46 CFR 46.024, 46.5, 46.11, regarding vessel plans, stability, and center girder, will all be canceled.

16. The authority for regulations regarding stability of passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4490, as amended, sec. 3, 24 Stat. 129, 41 Stat. 305, sec. 5, 49 Stat. 1384, secs. 1 and 2, 49 Stat. 1544, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 482, 483, 363, 369, 367, 1331–1333, and 50 U. S. C. App. 1275).

ITEM VI—LIFESAVING EQUIPMENT

17. It is proposed to establish a new Part 75, describing the lifesaving equipment necessary for passenger vessels. This part will set forth requirements regarding application of regulations, general provisions pertaining to stowage and marking of lifeboats, life rafts, life floats, and buoyant apparatus; equipment for lifeboats, life rafts, life floats, and buoyant apparatus; davits; blocks and falls; lifeboat winches; installations of lifeboats, davits, and winches; life preservers, wood floats; ring life buoys; water lights; line-throwing appliances; embarkation aids; portable radio apparatus; and ship's distress signals. Extensive revisions have been made in the proposed regulations to implement the 1948 Convention. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, lakes other than the Great Lakes, and rivers will be canceled (46 CFR Parts 59, 60, 76, 94, 113). It is also proposed to cancel 46 CFR 27.2–2, regarding the number of life preservers on passenger motorboats and motor vessels since such requirements will be included in the passenger vessel regulations.

18. The authority for regulations regarding lifesaving equipment for passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4426, 4481, 4482, 4488, and 4491, as amended, secs. 1 to 21, 49 Stat. 1544, 54 Stat. 163–167, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 404, 474, 475, 481, 489, 367, 526–526t, 1331–1333, and 50 U. S. C. App. 1275).

ITEM VII—FIRE PROTECTION EQUIPMENT

19. It is proposed to establish a new Part 76, regarding fire protection equipment for passenger vessels. This part will set forth requirements regarding application of regulations, fire detecting and extinguishing equipment, fire main systems, steam smothering systems, carbon dioxide extinguishing systems, foam extinguishing systems, water spray extinguishing systems, manual sprinkling systems, automatic sprinkling systems, electric fire detecting systems, pneumatic fire detecting systems, smoke detecting systems, manual alarm systems, hand portable fire extinguishers, and semiportable fire extinguishing systems, and fire axes. The revisions proposed include additional requirements necessary to implement the 1948 Convention. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120), as well as motorboat regulations applicable to passenger-carrying motorboats and motor vessels in 46 CFR 25.1–1 to 25.1–8, for navigation lights, 27.1–1, for navigation lights and sound producing devices, and 25.3–1, for fog bells, since these requirements have been revised and included in the proposed regulations.

22. The authority for regulations regarding vessel control and miscellaneous systems and equipment for passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, and 4426, as amended, 49 Stat. 1544, secs. 1 to 21, 54 Stat. 163–167, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245 (46 U. S. C. 391, 392, 404, 367, 526–526t, 1331–1333, and 50 U. S. C. App. 1275).

ITEM IX—OPERATIONS

23. It is proposed to establish a new Part 78, regarding operations of passenger vessels. This part will set forth application of regulations, and description of penalties, and requirements regarding notice to mariners and aids to navigation; notice of casualty and voyage records; persons allowed in pilothouse and on navigation bridge; station bills; doors required to be closed at sea; tests, drills, and inspections required at sea; steering orders; unauthorized lights; proper use of searchlights; lookouts, pilothouse watch, patrolmen, and watchmen required while at sea; reports of

20. The authority for regulations regarding fire protection equipment for passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, and 4483, as amended, 49 Stat. 1544, secs. 1 to 21, 54 Stat. 163–167, secs. 1 to 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526–526t, 163–167, 1331–1333, 463a, and 50 U. S. C. App. 1275).

ITEM VIII—VESSEL CONTROL AND MISCELLANEOUS SYSTEMS AND EQUIPMENT

21. It is proposed to establish a new Part 77, regarding passenger vessel control and miscellaneous systems and equipment required thereon. This part will set forth requirements regarding application of regulations, marine engineering, electrical engineering, internal communication systems, anchors, chains and hawsers, magnetic compasses, radiotelegraph, radio direction finder, navigation lights and shapes, whistles, fog horns, fog bells, sound equipment, and emergency equipment. It is proposed to add new regulations regarding anchors, chains and hawsers, and magnetic compasses, which agree with present practices, but have not been previously written as regulations. The necessary regulations to implement the 1948 Convention for Safety of Life at Sea have been added. It is proposed to cancel the applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120), as well as motorboat regulations applicable to passenger-carrying motorboats and motor vessels in 46 CFR 25.1–1 to 25.1–8, for navigation lights, 27.1–1, for navigation lights and sound producing devices, and 25.3–1, for fog bells, since these requirements have been revised and included in the proposed regulations.

accidents, repairs, and unsafe equipment; cable traveller; log book entries; vehicular ferries; railroad passenger car ferries; display of plans; markings required for fire and emergency equipment; general markings required on vessels; posting placards containing breeches buoy instructions; and prohibition regarding carrying of excess steam. It is proposed to cancel the present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120), as well as load line regulations in 46 CFR 46.26, regarding closing watertight doors at sea, 46.020, regarding drills and inspections, and 46.021, regarding log book entries, and marine engineering regulations in 46 CFR 57.20–20, regarding report of chief engineer on renewal of fusible plugs. Present procedures and practices have been included in the proposed regulations so that the requirements will be easier to understand and to determine what is required. In addition, the proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been added.

24. The authority for regulations regarding the operations of passenger vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4453, as amended, 49 Stat. 1544, secs. 1 to 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 435, 367, 1331–1333, and 50 U. S. C. App. 1275).

VOLUME II—CARGO AND MISCELLANEOUS VESSELS

25. To implement the 1948 Convention for Safety of Life at Sea, as well as to revise the vessel inspection regulations applicable to cargo and miscellaneous vessels, so that these requirements will be in one subchapter, it is proposed to cancel the present applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as certain load line regulations and motorboat regulations applicable to motorboats or motor vessels, and place them in one subchapter entitled "Cargo and Miscellaneous Vessels." In Items X to XVII are the specific requirements set forth by general subjects.

ITEM X—GENERAL PROVISIONS

26. It is proposed to establish a new Part 90 entitled "General Provisions" applicable to cargo and miscellaneous vessels. This part will contain regulations regarding authority and purpose, application of regulations to all types of cargo and miscellaneous vessels, definitions of terms used, equivalents permitted in lieu of present requirements, and references concerning general marine engineering requirements and general electrical engineering requirements. The proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been included. It is also proposed to amend 46 CFR 30.01–5, regarding application of regulations for tank vessels, as well as to cancel 46 CFR 43.015 and 45.012, regarding equivalents, which are now published in the load line regulations. The applicable requirements previously published in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, and in the motorboat regulations will be canceled (46 CFR Parts 24–28, 59–65, 76–83, 94–102, 113–120).

27. The authority for regulations regarding general provisions applicable to cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, 4488, 29 Stat. 1544, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 481, 367, and 50 U. S. C. App. 1275).

ITEM XI—INSPECTION AND CERTIFICATION

28. It is proposed to establish a new Part 91 containing the applicable vessel inspection requirements for cargo and miscellaneous vessels. This part will set forth requirements for the certificate of inspection, permit to proceed to another port for repair, inspection of vessels, initial inspection, annual inspection, sanitary inspections, inspection of tail shaft, drydocking, repairs and alterations, gas freeing, and plan approval. The proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been included. It is also proposed to consolidate requirements previously published in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, and certain requirements from the motorboat regulations, which will be canceled (46 CFR Parts 26, 27, 59–65, 76–83, 94–102, 113–120).

29. The authority for regulations regarding inspection and certification of cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4423, 4426, 4428–4434, and 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, and 12, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1544, 1935, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 361, 362, 391, 392, 399, 400, 404, 406–412, 435, 366, 395–397, 363, 367, 660a and 50 U. S. C. App. 1275).

ITEM XII—CONSTRUCTION AND ARRANGEMENT

30. It is proposed to establish a new Part 92, regarding the construction and arrangement of cargo and miscellaneous vessels. This part will cover requirements for hull structure, structural fire protection, means of escape, ventilation, accommodations for officers and crew, and rails and guards. The present applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds and lakes other than the Great Lakes, and rivers, and certain requirements regarding ventilation in the motorboat regulations, will all be canceled (46 CFR Parts 26, 27, 59–65, 76–83, 94–102, 113–120). The proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been included.

31. The authority for regulations regarding construction and arrangement of cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4490, as amended, 41 Stat. 305, secs. 1 and 2, 49 Stat. 1544, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 482, 483, 363, 367, and 50 U. S. C. App. 1275).

ITEM XIII—STABILITY

32. It is proposed to establish a new Part 93, regarding application of stability requirements for cargo and miscellaneous vessels, stability test requirements, stability standards, ballast, stability instructions for operating personnel, and stability letter issued by the Coast Guard. The proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been included. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, will all be canceled (46 CFR Parts 59–65, 76–82, 94–102, 113–120).

33. The authority for regulations regarding the stability of cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4490, as amended, 41 Stat. 305, secs. 1 and 2, 49 Stat. 1544, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 482, 483, 363, 367, and 50 U. S. C. App. 1275).

ITEM XIV—LIFESAVING EQUIPMENT

34. It is proposed to establish a new Part 94, describing the lifesaving equipment necessary for cargo and miscellaneous vessels. This part sets forth requirements regarding application of regulations; general provisions pertaining to lifesaving equipment; requirements for lifeboats and life rafts; stowage and marking of lifeboats and life rafts; equipment for lifeboats and life rafts; davits, blocks and falls; lifeboat winches; installation of lifeboats, davits, and winches; life preservers, ring buoys and water lights; line-throwing appliances; embarkation aids; portable radio apparatus for lifeboats on cargo vessels engaged in international voyages, and ship's distress signals. Extensive revisions have been made in the proposed regulations to implement the 1948 Convention for Safety of Life at Sea. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, will be canceled (46 CFR Parts 59, 60, 76, 94, 113). It is also proposed to cancel certain requirements in the motorboat regulations, regarding life preservers and other lifesaving devices required for certain cargo and miscellaneous motor vessels (46 CFR Parts 24 to 28), since such requirements will be included in the cargo and miscellaneous vessel regulations.

35. The authority for regulations regarding lifesaving equipment for cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4426, 4481, 4482, 4488, and 4491, as amended, secs. 1 and 2, 49 Stat. 1544, secs. 1 to 21, 54 Stat. 163–167, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 404, 474, 475, 481, 489, 367, 526–526t, and 50 U. S. C. App. 1275).

ITEM XV—FIRE PROTECTION EQUIPMENT

36. It is proposed to establish a new Part 95, regarding fire protection equipment for cargo and miscellaneous vessels. This part will set forth requirements regarding application of regulations; fire detecting and extinguishing equipment, where required; fire main systems; steam smothering system; carbon dioxide extinguishing system; foam extinguishing system; water spray extinguishing system; hand portable fire extinguishers and semi-portable fire extinguishing systems; and fire axes. The revisions proposed contain requirements necessary to implement the 1948 Convention for Safety of Life at Sea; in addition, the other requirements were extensively revised to reflect a better arrangement. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as fire extinguishing equipment required for certain cargo and miscellaneous motor vessels in the motorboat regulations, will be canceled (46 CFR Parts 24–28, 61, 77, 95, 114).

37. The authority for regulations regarding fire protection equipment on cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, and 4483, as amended, secs. 1 and 2, 49 Stat. 1544, secs. 1 to 21, 54 Stat. 163–167, sec. 2, 54 Stat. 1028, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526–526t, 463a, and 50 U. S. C. App. 1275).

ITEM XVI—VESSEL CONTROL AND MISCELLANEOUS SYSTEMS AND EQUIPMENT

38. It is proposed to establish a new Part 96, regarding vessel control and miscellaneous systems and equipment for cargo and miscellaneous vessels. This part will set forth requirements regarding application of regulations; marine engineering systems; electrical engineering and internal communication systems; anchors, chains, and hawsers; magnetic compasses; radiotelegraph; radio direction finder; navigation lights and shapes; fog horns; fog bells; sounding equipment; and emergency equipment. The necessary regulations to implement the 1948 Convention for Safety of Life at Sea have been added. It is proposed to add new requirements regarding anchors, chains, hawsers, magnetic compasses, radiotelegraph, radio direction finder, and certain emergency equipment which agree with present practices but have not been previously written as regulations. It is proposed to cancel the applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as certain requirements applicable to cargo and miscellaneous motor vessels in the motorboat regulations, since these requirements have been revised and included in the proposed regulations (46 CFR Parts 24–28, 59–65, 76–83, 94–102 113–120).

39. The authority for regulations regarding vessel control and miscellaneous systems and equipment for cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, and 4426, as amended, 49 Stat. 1544, secs. 1 to 21, 54 Stat. 163–167, and sec. 5, 55 Stat. 244, 245 (46 U. S. C. 391, 392, 404, 367, 526–526t, and 50 U. S. C. App. 1275).

ITEM XVII—OPERATIONS

40. It is proposed to establish a new Part 97, regarding operations of cargo and miscellaneous vessels. This part will set forth the application of regulations, description of penalties, requirements regarding notices to mariners and aids to navigation; notice of casualty and voyage records; persons allowed in pilothouse and on navigation bridge; station bills; tests, drills, and inspections; steering orders; unnecessary whistling; unauthorized lights; proper use of searchlights; lookouts; reports of accidents, repairs, and unsafe equipment; cable travellers; log book entries; markings for fire and emergency equipment, etc.; markings on vessels; placard or breeches buoy instructions; and prohibition regarding carrying of excess steam. The regulations necessary to implement the 1948 Convention for Safety of Life at Sea have been added. The other requirements have been revised in order to have a better presentation of material. The present procedure and practices have been included in the proposed regulations so that the requirements will be easier to understand and to determine what is required. The present applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR Parts 59–65, 76–83, 94–102, 113–120), as well as certain requirements in the load line regulations as set forth in 46 CFR 43.020 and 45.017, regarding log book entries, will be canceled since these requirements have been revised and included in the proposed regulations.

41. The authority for regulations regarding operations of cargo and miscellaneous vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417, 4418, 4426, and 4453, as amended, secs. 1 and 2, 49 Stat. 1544, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391, 392, 404, 435, 367, and 50 U. S. C. App. 1275).

VOLUME III—UNINSPECTED VESSEL REGULATIONS

42. The motorboat regulations in 46 CFR Parts 24 to 28, inclusive, will be revised to the extent that only those requirements applicable to uninspected vessels will be together. The proposed regulations applicable to passenger vessels, and cargo and miscellaneous vessels, have been placed in the regulations for "Passenger Vessels" and "Cargo and Miscellaneous Vessels", respectively. Appropriate cross references have been included in the text of the regulations which may be affected by regulations in other subchapters. It is proposed to cancel all the motorboat regulations in 46 CFR Parts 24 to 28, inclusive, applicable to uninspected vessels. These regulations will be in one subchapter entitled "Uninspected Vessels". In Items XVIII to XX, inclusive, are the specific requirements set forth by general subjects.

ITEM XVIII—GENERAL PROVISIONS

43. It is proposed to establish a new Part 24 entitled "General Provisions" applicable to uninspected vessels. This part will contain the regulations regarding authority and purpose, application of regulations to various types of vessels, definitions of terms used, equivalents permitted in lieu of present requirements, and general marine engineering requirements for certain steam-propelled motorboats of over 40 feet in length. Many of the present practices which have not been previously written as regulations have been incorporated into the proposed regulations in order to provide a better arrangement and understanding of the requirements. The applicable requirements previously published in the motorboat regulations will be canceled (46 CFR Parts 24–28).

44. The authority for the regulations containing general provisions applicable to uninspected vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375, 416). The regulations interpret or apply sec. 17, 54 Stat. 166 (46 U. S. C. 526p).

ITEM XIX—REQUIREMENTS

45. It is proposed to establish a new Part 25 containing the requirements for uninspected vessels. This part will set forth requirements regarding the application of the regulations to vessels, navigation lights and shapes, whistles, fog horns, fog bells, life preservers and other livesaving equipment, fire extinguishing equipment, carburetor backfire flame arrestor, ventilation, and liquefied petroleum gas for cooking, heating, or lighting. Minor revisions in the text of present regulations and editorial changes in arrangement of material have been made so that the requirements will be easier to understand and to determine what is required. The present requirements in the motorboat regulations will be canceled (46 CFR Parts 24–28).

46. The authority for the regulations containing the requirements for uninspected vessels (motorboats) is in R. S. 4405 and 4462, as amended (46 U. S. C. 375, 416). The regulations interpret or apply sec. 17, 54 Stat. 166 (46 U. S. C. 526p).

ITEM XX—OPERATIONS

47. It is proposed to establish a new Part 26 containing the requirements affecting the operation of uninspected vessels. This part will set forth requirements regarding application of regulations, description of penalties, procedures for mitigation or remission of fines or penalties, boarding officers, exhi-

bition of motorboat operator's license, and licensed personnel in charge. The present requirements have been revised and current practices and procedures have been included in the proposed regulations so that the requirements will be easier to understand and to determine what is required. The present applicable requirements in the motorboat regulations will be canceled (46 CFR Parts 24–28).

48. The authority for the regulations regarding the operation of uninspected vessels (motorboats) is in R. S. 4405 and 4462, as amended (46 U. S. C. 375, 416). The regulations interpret or apply sec. 17, 54 Stat. 165 (46 U. S. C. 526p).

VOLUME IV—ELECTRICAL ENGINEERING

49. To implement the 1948 Convention for Safety of Life at Sea, as well as to revise the vessel inspection regulations regarding electrical apparatus and equipment so that these requirements will be in one subchapter, it is proposed to cancel the present applicable requirements regarding electrical apparatus and equipment in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as certain requirements in the load line regulations, tank vessel regulations, and motorboat regulations. These regulations will be in one subchapter entitled "Electrical Engineering Regulations." In Items XXI to XXIV, inclusive, are the specific requirements set forth by general subject.

ITEM XXI—GENERAL PROVISIONS

50. It is proposed to establish a new Part 110 entitled "General Provisions" applicable to electrical apparatus and equipment when installed on various types of vessels. This part will contain the regulations regarding authority and purpose, application of regulations to various types of vessels, references to specifications, standards, and codes issued by private organizations which are acceptable to the Coast Guard, definitions of terms used, and equivalents permitted in lieu of present requirements. The proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been included. In addition, many of the present practices which have not been previously written as regulations have been incorporated into the proposed regulations in order to provide a better arrangement and understanding of the requirements. It is proposed to amend 46 CFR 30.01–5, regarding application of regulations for tank vessels, as well as to cancel 46 CFR 43.015 and 45.012, regarding equivalents, which are now published in the load line regulations. The applicable requirements previously published in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, and in the motorboat regulations, will be canceled (46 CFR Parts 24–28, 59–65, 76–83, 94–102, 113–120).

51. The authority for the regulations regarding electrical engineering is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426, 4427, 4433, and 4453, as amended, sec. 20, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1384, 1544, 54 Stat. 166, 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 526p, 1331–1333, and 50 U. S. C. App. 1275).

ITEM XXII—ELECTRICAL SYSTEM, GENERAL REQUIREMENTS

52. It is proposed to establish a new Part 111, containing the applicable inspection requirements for electrical systems when used on board various types of vessels. This part will set forth requirements regarding the application of the regulations to vessels, general requirements for electrical systems, generators, storage batteries, transformers, motors, electrical couplings for propulsion, switchboards and propulsion controls, distribution panel boards, motor controllers (overcurrent protection and disconnecting means), distribution and circuit loads, overcurrent protection, wiring methods and materials, special requirements for certain locations and systems, and electrical equipment and installations on vessels contracted for prior to November 19, 1952. The proposed regulations to implement the 1948 Convention for Safety of Life at Sea have been included. It is also proposed to include regulations describing current practices not previously published. The present applicable requirements in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, and in the construction or material alteration of passenger vessels of 100 gross tons or over propelled by machinery, regarding electrical apparatus and equipment will be canceled (46 CFR Parts 59–65, 76–83, 94–102, 113–120, 144).

53. The authority for the regulations setting forth the general requirements for electrical systems is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416.) The regulations interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426, 4427, 4433, and 4453, as amended, sec. 20, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1384, 1544, 54 Stat. 166, 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 526p, 1331–1333, and 50 U. S. C. App. 1275).

ITEM XXIII—EMERGENCY LIGHTING AND POWER SYSTEM

54. It is proposed to establish a new Part 112, regarding emergency lighting and power systems when installed on various types of vessels. This part will set forth requirements regarding application of regulations, general requirements for emergency lighting and power systems, classification of emergency lighting and power systems, emergency loads, operation of emergency systems having both a temporary and final source of emergency lighting power, operation of emergency system having an automatic starting diesel-engine-driven emergency generator as the sole source of emergency lighting and power, operation of emergency system having a storage battery as the sole source of emergency lighting and power, operation of a manually-controlled emergency system having a storage battery or a diesel-engine-driven generator as the sole source of emergency lighting and power, installations requiring an alternating-current temporary source of supply, visible indicators and test switch, emergency diesel-engine-driven generator sets, storage battery installations, and emergency lighting and power systems for vessels contracted for prior to November 19, 1952. The revisions proposed contain requirements necessary to implement the 1948 Convention for Safety of Life at Sea. In addition, other regulations describing current practices have been incorporated into this part. The present applicable regulations in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, will be canceled (46 CFR Parts 59–65, 76–83, 94–102, 113–120).

55. The authority for regulations regarding emergency lighting and power systems when installed on various types of vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426, 4427, 4433, and 4453, as amended, sec. 20, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1384, 1544, 54 Stat. 166, 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 526p, 1331–1333, and 50 U. S. C. App. 1275).

ITEM XXIV—COMMUNICATIONS AND ALARM SYSTEMS AND EQUIPMENT

56. It is proposed to establish a new Part 113, regarding communication and alarm systems and equipment when installed on various types of vessels. This part will set forth the application of the regulations, general provisions regarding communication and alarm systems and equipment, automatic fire detecting fire and alarm systems, manual fire alarm systems, sprinkler alarm systems, general alarm system, sound powered telephone and voice tube systems, engine order telegraph systems, rudder angle indicator system, refrigerated spaces alarm system, emergency loud speaker system, and navigation lights. The regulations necessary to implement the 1948 Convention for Safety of Life at Sea have been added. In order to have a better presentation of requirements, regulations are proposed which set forth present practices not previously published. Extensive revisions have been made in the present applicable regulations now contained in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers and, therefore, these regulations will be canceled (46 CFR Parts 59–65, 76–83, 94–102, 113–120).

57. The authority for regulations regarding communication and alarm systems and equipment when installed on various types of vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426, 4427, 4433, and 4453, as amended, sec. 20, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1384, 1544, 54 Stat. 166, 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 526p, 1331–1333, and 50 U. S. C. App. 1275).

VOLUME V—MARINE ENGINEERING

58. The Marine Engineering Regulations and Material Specifications (CG–115) as contained in 46 CFR Parts 50 through 57 (Subchapter F—Marine Engineering) will be revised and the requirements will be placed in 46 CFR Parts 50 to 61, inclusive. Most of the proposed changes in the regulatory requirements were considered at the public hearings held September 18, 1951, and March 25, 1952. The proposed changes to be considered at this public hearing for the most part concern those items which are affected by the transfer of requirements in order to have a better arrangement of material. It has been determined that certain requirements now published in the tank vessel regulations and in general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as certain requirements in the motorboat regulations, more appropriately belong in the marine engineering regulations, and, therefore, will be transferred to Subchapter F—Marine Engineering. It is also proposed to transfer certain specification requirements for equipment from the marine engineering regulations and the tank vessel regulations to Subchapter Q—Specifications of Chapter I of Title 46, Shipping, CFR. Certain changes in the regulations are also necessary to implement the 1948 Convention for Safety of Life at Sea and have been included in this agenda. In Items XXV to XXVIII, inclusive, are the specific proposed revisions set forth by general subject.

ITEM XXV—MARINE ENGINEERING; TANK VESSELS

59. It is proposed to cancel tank vessel regulations in 46 CFR Subpart 32.10 regarding cooking and heating equipment on board tank vessels. These requirements will be transferred to Subchapter F—Marine Engineering as a new subpart 55.16. It is proposed to revise 46 CFR Subpart 32.35, regarding main and auxiliary machinery, by consolidating the material and inserting appropriate cross references to the requirements which will be continued in Subchapter F—Marine Engineering. In view of the proposal to incorporate the design, construction, and testing requirements for safety relief valves on unfired pressure vessels containing liquified compressed gases in a new specification, designated as 46 CFR subpart 162.018 in Subchapter Q—Specifications, it is proposed to cancel the specification requirements for safety relief valves in 46 CFR 38.10–15 and insert appropriate cross references. The proposed specifications are set forth in Item XXIX of the agenda. As a result of a shore fire in a liquified petroleum gas installation, it is proposed to amend 46 CFR 38.10–10, regarding piping and fittings for unfired pressure vessels containing liquified compressed gases, to require flange and manhole cover gasket material to be fire resistant at a maximum of 1,000° F.

60. The authority for regulations regarding marine engineering on tank vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417a and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391a, and 50 U. S. C. App. 1275).

VOLUME V—MARINE ENGINEERING

58. The Marine Engineering Regulations and Material Specifications (CG–115) as contained in 46 CFR Parts 50 through 57 (Subchapter F—Marine Engineering) will be revised and the requirements will be placed in 46 CFR Parts 50 to 61, inclusive. Most of the proposed changes in the regulatory requirements were considered at the public hearings held September 18, 1951, and March 25, 1952. The proposed changes to be considered at this public hearing for the most part concern those items which are affected by the transfer of requirements in order to have a better arrangement of material. It has been determined that certain requirements now published in the tank vessel regulations and in general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, as well as certain requirements in the motorboat regulations, more appropriately belong in the marine engineering regulations, and, therefore, will be transferred to Subchapter F—Marine Engineering. It is also proposed to transfer certain specification requirements for equipment from the marine engineering regulations and the tank vessel regulations to Subchapter Q—Specifications of Chapter I of Title 46, Shipping, CFR. Certain changes in the regulations are also necessary to implement the 1948 Convention for Safety of Life at Sea and have been included in this agenda. In Items XXV to XXVIII, inclusive, are the specific proposed revisions set forth by general subject.

ITEM XXV—MARINE ENGINEERING; TANK VESSELS

59. It is proposed to cancel tank vessel regulations in 46 CFR Subpart 32.10 regarding cooking and heating equipment on board tank vessels. These requirements will be transferred to Subchapter F—Marine Engineering as a new subpart 55.16. It is proposed to revise 46 CFR Subpart 32.35, regarding main and auxiliary machinery, by consolidating the material and inserting appropriate cross references to the requirements which will be continued in Subchapter F—Marine Engineering. In view of the proposal to incorporate the design, construction, and testing requirements for safety relief valves on unfired pressure vessels containing liquified compressed gases in a new specification, designated as 46 CFR subpart 162.018 in Subchapter Q—Specifications, it is proposed to cancel the specification requirements for safety relief valves in 46 CFR 38.10–15 and insert appropriate cross references. The proposed specifications are set forth in Item XXIX of the agenda. As a result of a shore fire in a liquified petroleum gas installation, it is proposed to amend 46 CFR 38.10–10, regarding piping and fittings for unfired pressure vessels containing liquified compressed gases, to require flange and manhole cover gasket material to be fire resistant at a maximum of 1,000° F.

60. The authority for regulations regarding marine engineering on tank vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417a and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391a, and 50 U. S. C. App. 1275).

ITEM XXVI—MARINE ENGINEERING; CONSTRUCTION; LOW PRESSURE HEATING BOILERS

61. It is proposed to revise 46 CFR 57.10–45, regarding requests for increase in pressure, by requiring the piping system and machinery to meet the applicable requirements for the pressure increases requested and by transferring these requirements to 46 CFR 52.01–55.

62. In view of the proposal to establish a new specification for the design, construction, and testing of boiler safety valves, designated 46 CFR Subpart 162.001 in Subchapter Q—Specifications, it is proposed to delete the specification requirements from 46 CFR 52.65–5, 52.65–10, and 52.65–15, and to insert appropriate cross references.

63. In view of the proposal to incorporate the design, construction, and testing requirements for safety valves and relief valves in low pressure heating boilers in new specifications, designated 46 CFR Subparts 162.012 and 162.013 in Subchapter Q—Specifications, it is proposed to cancel the specification requirements from 46 CFR 53.03–60, 53.03–65, and 53.05–45 and to insert appropriate cross references. The proposed specifications are set forth in Item XXIX of the agenda.

64. The authority for regulations regarding marine engineering requirements is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417a, 4418, 4426, 4429–4434, and 4453, as amended, 49 Stat. 1544, 54 Stat. 346, 1026, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391a, 392, 404, 407–412, 435, 367, 1333, 463a, and 50 U. S. C. App. 1275).

ITEM XXVII—MARINE ENGINEERING; PIPING SYSTEMS; ARC WELDING, GAS WELDING, AND BRAZING

65. It is proposed to amend 46 CFR 55.07–25, regarding installation of piping systems, by permitting collision bulkheads on passenger vessels to be pierced below the margin line by more than one pipe when the forepeak is divided to hold two different liquids. This change is in agreement with the 1948 Convention for Safety of Life at Sea. Because of the establishment of separate subchapters containing inspection regulations for passenger vessels, cargo and miscellaneous vessels, and uninspected vessels, it is proposed to incorporate certain existing requirements presently in 46 CFR Part 27 of the motorboat regulations with similar requirements now in Subchapter F—Marine Engineering by revising 46 CFR 55.10–45 and 55.10–50 regarding gasoline fuel systems and diesel fuel systems. The present requirements regarding the use of liquefied petroleum gases for cooking and heating in the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers, and tank vessel regulations (46 CFR subpart 32.10, 61.25, 77.24, 95.24, and 114.25), are being revised and transferred to 46 CFR subpart 55.16 in Subchapter F—Marine Engineering in order to have a better arrangement of material.

66. It is proposed to amend 46 CFR 56.01–25, 56.01–30, and 56.01–35 regarding arc welding in order to clarify the limitations applicable to Classes I, II, and III arc welded pressure vessels. The requirement that heating boilers be fabricated as a Class II pressure vessel has been eliminated since shop inspection is no longer mandatory for these units.

67. The authority for regulations regarding marine engineering requirements is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417a, 4418, 4426, 4429–4434, and 4453, as amended, 49 Stat. 1544, 54 Stat. 346, 1026, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391a, 392, 404, 407–412, 435, 367, 1333, 463a, and 50 U. S. C. App. 1275).

ITEM XXVIII—MARINE ENGINEERING; MAIN AND AUXILIARY MACHINERY; REPAIRS; INDEPENDENT FUEL TANKS; INSTALLATION TESTS, INSPECTIONS, MARKING, AND OFFICIAL FORMS

68. It is proposed to editorially revise the format of the Marine Engineering Regulations and Material Specifications (CG–115) in Subchapter F of Chapter I of 46 CFR, Shipping, by expanding the number of parts assigned to the requirements contained therein. This proposed recodification and redesignation of parts will make a better arrangement of requirements regarding main and auxiliary machinery, fuel tanks, installations, test, inspections, repairs, etc. The new parts to be published in Subchapter F—Marine Engineering have been redesignated as follows:

Part 57—Main and Auxiliary Machinery;

Part 58—Repairs to Boilers, unfired pressure vessels, and appurtenances;

Part 59—Independent internal combustion engine fuel tanks;

Part 61—Installation test, inspections, markings, and official forms.

69. The proposed new Part 57, regarding main and auxiliary machinery, will contain the design and construction requirements for such machinery. The requirements for steering gear and the requirements for refrigeration machinery will be in this part. The regulation to implement the 1948 Convention for Safety of Life at Sea regarding power for going astern has been included as 46 CFR 57.05–5. In establishing this new Part 57, it is proposed to revise 46 CFR 32.35–10 and 32.35–15 in the tank vessel regulations, 46 CFR 27.4–1 and 27.5–1 in the motorboat regulations, and 46 CFR 46.39 in load line regulations and transfer these requirements to 46 CFR Part 57.

70. The proposed new Part 59 will contain requirements regarding independent internal combustion engine fuel tanks and consists of revised requirements from 46 CFR subpart 55.16, regarding independent internal combustion engine fuel tanks, in the marine engineering regulations and 46 CFR 27.4–2 and 27.5–2 regarding fuel tanks and piping, in the motorboat regulations.

71. It is proposed to establish a new Part 61 regarding installation tests, inspections, markings, and official forms. The present regulations in Part 57 covering tests, inspections, markings, and official forms have been revised and transferred to Part 61. The revised regulations to implement the 1948 Convention for Safety of Life at Sea regarding inspection and survey have been added to the regulations. In this Part 61 only the requirements which have to be further revised have been set forth in the agenda. The other changes were considered at the public hearing held September 18, 1951.

72. The authority for regulations regarding marine engineering requirements is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417a, 4418, 4426, 4429–4434, and 4453, as amended, 49 Stat. 1544, 54 Stat. 346, 1026, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391a, 392, 404, 407–412, 435, 367, 1333, 463a, and 50 U. S. C. App. 1275).

ITEM XXIX—MARINE ENGINEERING; SPECIFICATIONS

73. It is proposed to add four new specifications regarding the design, construction, and testing requirements for power boiler safety valves, low-pressure heating boiler safety valves, low-pressure, hot water, heating boiler relief valves, and safety relief valves on unfired pressure vessels containing liquefied compressed gases, designated as 46 CFR subparts 162.001, 162.012, 162.013, and 162.018, respectively, in 46 CFR Part 162, Subchapter Q—Specifications. The proposed specifications set forth the requirements for the manufacturer to follow in manufacturing such equipment, and cover requirements for design, construction, testing, materials, workmanship, marking, and procedure for approval.

74. The authority for regulations regarding marine engineering requirements is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4417a, 4418, 4426, 4429–4434, and 4453, as amended, 49 Stat. 1544, 54 Stat. 346, 1026, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 391a, 392, 404, 407–412, 435, 367, 1333, 463a, and 50 U. S. C. App. 1275).

VOLUME VI—BULK GRAIN CARGO

75. These proposed regulations are intended to implement and complement the 1948 Convention for Safety of Life at Sea. At the present time proposed legislation has been suggested to Congress to extend the application of Chapter VI of the 1948 Convention for Safety of Life at Sea regarding carriage of grain to every vessel operating on coastwise navigable waters within the limits of the jurisdiction of the United States when such vessel is not on an international voyage and subject to the 1948 Convention. The regulations are proposed at this time in order to allow public consideration so that these requirements may be published and be in effect on and after November 19, 1952, when the 1948 Convention becomes effective.

ITEM XXX—REGULATIONS GOVERNING THE LOADING AND STOWAGE OF GRAIN ON VESSELS

76. It is proposed to add a new Subchapter M, entitled "Regulations Governing the Loading and Stowage of Grain on Board Vessels," to 46 CFR Chapter I, which will contain Part 144, regarding bulk grain cargoes. The purpose of these regulations is to promote safety in the handling, stowage and transportation of grain on board vessels on any navigable waters within the limits of the jurisdiction of the United States, including its territories, and possessions excepting only the Panama Canal Zone, and to make more effective the provisions of Chapter VI of the 1948 Convention for Safety of Life at Sea relative to the carriage of grain. The proposed regulations are the minimum requirements for the handling, stowage, and transportation of loose grain in bulk on board vessels. The regulations will apply to every passenger and every cargo vessel of 500 gross tons or over when carrying loose grain in bulk as cargo on an international voyage (excepting the Great Lakes), or on an intercoastal voyage, or a coastwise voyage. The proposed regulations in 46 CFR Part 144 will contain requirements regarding scope of regulations, application to vessels, definitions, required uprights, shores, stays, feeders, bins, bulkheads, security of hatches, equivalents, detailed loading and stowage regulations regarding bagged grain, holds or compartments partially filled with loose grain in bulk, holds or compartments entirely filled with loose grain in bulk, location of stowage for light grain and heavy grain in bulk and special regulations for vessels shifting ports.

77. The authority for regulations regarding the loading and stowage of grain on vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416).

VOLUME VII—SUBDIVISION LOAD LINES

78. Because of the many transfers of regulations from 46 CFR Part 46 of the Load Line Regulations (CG–176) to other subchapters, as well as revisions necessary to implement provisions of the 1948 Convention for Safety of Life at Sea which deal with subdivision of passenger vessels, it is proposed to revise 46 CFR Part 46 in the load line regulations in their entirety.

ITEM XXXI—PART 46—SUBDIVISION LOAD LINES FOR PASSENGER VESSELS; LOAD LINE REGULATIONS

79. It is proposed to completely revise 46 CFR Part 46, regarding subdivision load lines for passenger vessels in the load line regulations, so that these regulations will state the load line requirements applicable before a passenger vessel will be marked and certificated as to subdivision load lines; assignment, marking, and recording of subdivision load lines; administration of subdivision load lines; and application of requirements to passenger vessels. The procedure for the determination of the subdivision load lines, as well as special construction features, have been transferred from this Part 46 to 46 CFR Subpart 72.01 and Parts 73 and 74 in the proposed subchapter for passenger vessels. The requirements regarding bilge and ballast systems, piping, inlets and discharges, ash chutes, astern power, and auxiliary steering have been transferred to the proposed revision of 46 CFR Subchapter F—Marine Engineering.

80. The authority for regulations regarding subdivision load lines is in sec. 2, 49 Stat. 888, as amended (46 U. S. C. 88a), and E. O. 7548, dated February 5, 1937 (2 F. R. 307).

VOLUME VIII—MANNING OF VESSELS

81. The style of the present vessel inspection regulations does not show readily the requirements regarding the manning of passenger vessels, cargo and miscellaneous vessels, and uninspected vessels. Therefore, it is proposed to transfer the manning requirements to a separate Subchapter F to be entitled "Manning" in 46 CFR Chapter I. The proposed regulations will require the Officer in Charge, Marine Inspection, to make the original determination regarding the minimum manning requirements considered necessary for the safe operation of each vessel subject to inspection by the Coast Guard. The proposed regulations also reflect present practices and procedures followed by the Coast Guard which have not been previously published in regulation form. Some of the navigation and inspection laws do not authorize the establishment of a minimum number of officers and members of the crew to be carried on board a vessel but state that the vessel shall not be operated or navigated unless certain manning requirements are met. In these cases it is the responsibility of the owner, master, or person in charge or command of the vessel to determine if the officers and crew carried meet the requirements of the applicable laws.

ITEM XXXII—MANNING OF VESSELS

82. It is proposed to establish a new Subchapter P, entitled "Manning," which will be added to Chapter I of Title 46 CFR and will consist of Part 157 regarding manning of vessels. It is proposed to review and transfer the applicable requirements from the general rules and regulations for vessel inspection, ocean and coastwise, Great Lakes, bays, sounds, and lakes other than the Great Lakes, and rivers (46 CFR 59–65, 76–83, 94–102, 113–120), as well as regulations regarding hours of labor on shipboard (46 CFR Part 131), language test for seamen (46 CFR Part 135), able seamen (46 CFR Part 140), and manning of inspected vessels (46 CFR Part 141), which are also published in the Rules and Regulations for Licensing and Certificating of Merchant Marine Personnel (CG–191), to 46 CFR Part 157. The requirements regarding number of radio officers or radio telegraph operators required to

implement and complement the 1948 Convention for Safety of Life at Sea have been added.

83. The authority for regulations regarding manning of vessels is in R. S. 4405 and 4462, as amended (46 U. S. C. 375 and 416). The regulations interpret or apply R. S. 4401, 4417a, 4426, 4427, 4438, 4438a, 4453, 4463, 4477, 4488, and 4551 (j), as amended, sec. 2, 37 Stat. 733, secs. 2 and 13, 38 Stat. 1164, 1169, sec. 1, 49 Stat. 1544, sec. 7, 53 Stat. 1147, secs. 7 and 17, 54 Stat. 166, sec. 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended (46 U. S. C. 364, 391a, 404, 405, 224, 224a, 435, 222, 471, 481, 643 (j), 223, 673, 672, 367, 248, 526f, 526p, 1333, and 50 U. S. C. App. 1275).

Dated: June 18, 1952.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard,
Commandant.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

EXEMPTION OF CERTAIN TRANSACTIONS FROM SECTION 16 (b)

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal for the amendment of §§ 240.16b–2 and 240.16b–5 (Rules X-16B–2 and X-16B–5) under the Securities Exchange Act of 1934.

Section 240.16b–2 (Rule X-16B–2) provides an exemption from section 16 (b) of the act for transactions of purchase and sale of securities in the course of a public distribution of an issue of securities on behalf of an issuer, or a person standing in a control relationship to the issuer, where a director or officer of the issuer is an underwriter or is connected with an underwriter of the issue. The purpose of the amendment is to broaden the exemption provided by the rule so as to make it available for transactions of purchase and sale of securities in the course of a distribution of a block of securities on behalf of a security holder not standing in a control relationship to the issuer.

Section 240.16b–5 (Rule X-16B–5) exempts transactions which consist of an exchange of one security for another by way of redemption where both the old and new securities are substantially and in practical effect equivalents, and no substantially different interest is acquired by the exchange. The amendment is not intended as a substantive change in the rule. It is designed merely to remove ambiguities in its language.

The text of the rules as proposed to be amended is as follows:

§ 240.16b–2 *Exemption from section 16 (b) of certain distributing transactions.* (a) Any transaction of purchase and sale of a security which is effected in the distribution of a substantial block of securities of the same class shall be exempt from the provisions of section 16 (b) of the act, to the extent specified in this section, as not comprehended within the purpose of said section, upon the following conditions:

(1) The person effecting the transaction is engaged in the business of distributing securities and is participating in good faith, in the ordinary course of such business, in the distribution of such block of securities;

(2) The security involved in the transaction is a part of such block of securities and is acquired by the person effecting the transaction, with a view to the distribution thereof, from the issuer or other person on whose behalf such securities are being distributed or from a person who is participating in good faith in the distribution of such block of securities; and

(3) Other persons not within the purview of section 16 (b) of the act are participating in the distribution of such block of securities on terms at least as favorable as those on which the person effecting the transaction is participating and to an extent at least equal to the aggregate participation of all persons exempted from the provisions of section 16 (b) of the act by this section, however the performance of the functions of manager of a distributing group and the receipt of a bona fide payment for performing such functions shall not preclude an exemption which would otherwise be available under this section.

(b) The exemption of a transaction pursuant to this section with respect to the participation therein of one party thereto shall not render such transaction exempt with respect to participation of any other party therein unless such other party also meets the conditions of this section.

§ 240.16b–5 *Exemption from section 16 (b) of certain transactions in which securities are received by redeeming other securities.* Any acquisition of an equity security (other than a convertible security or right to purchase a security) by a director or officer of the issuer of such security shall be exempt from the operation of section 16 (b) upon condition that:

(a) The equity security is acquired by way of redemption of another security of an issuer substantially all of whose assets other than cash (or government bonds) consist of securities of the issuer of the equity security so acquired, and which:

(1) Represented substantially and in practical effect a stated or readily ascertainable amount of such equity security,

(2) Had a value which was substantially determined by the value of such equity security, and

(3) Conferred upon the holder the right to receive such equity security without the payment of any consideration other than the security redeemed;

(b) No security of the same class as the security redeemed was acquired by the director or officer within six months prior to such redemption or is acquired within six months after such redemption;

(c) The issuer of the equity security acquired has recognized the applicability of paragraph (a) of this section by appropriate corporate action.

All interested persons are invited to submit data, views and comments on the above proposals in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before July 18, 1952.

By the Commission.

ORVAL L. DUBOIS,
Secretary.

[17 CFR Part 240]

OWNERSHIP OF SECURITIES HELD IN TRUST

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt a rule relating to the filing of reports required by section 16 (a) of the Securities Exchange Act with respect to the ownership of securities held in trusts, and to adopt a statement of the basis for and purpose of such a rule, substantially as follows:

Statement of basis for and purpose of proposed rule. Section 16 (a) requires beneficial owners of more than ten percent of any class of any equity security registered on a national securities exchange and officers and directors of the issuer of such a security to file reports with the exchange and with the Commission indicating the extent of their beneficial ownership of equity securities of the company and any changes in such ownership which occur. No definition of the words "beneficial owner" appears in the act. The legislative history of the section indicates that the Congress had in mind, specifically, that the Commission should not require "street name" holders of securities or trust companies with only the bare legal title to securities to file reports.

"Beneficial ownership" within the meaning of section 16 must be construed in context and is not necessarily identical with similar concepts in other contexts such as tax law, nor does it depend solely upon the form in which the trust is established. It is, to some extent, dependent upon an analysis of the precise relationship between the trustees and the beneficiaries. An officer who holds stock of his corporation in trust for his son usually has the same control over the securities and the same incentive to buy and sell the stock so that his son may realize profits as if he owned the securities outright. His interest is quite different from that of the mere record owner, which the legislative history indicates should be excluded from the requirements of the section. This is the basis for requiring, under the proposed rule, that section 16 (a) reports should be filed by any trustee who is an officer, director, or ten per cent stockholder where any beneficiary of the trust

is a member of his immediate family or where the trustee has a beneficial interest in the trust himself. Where such a trustee himself holds securities, his personal holdings should be combined with those of the trusts he administers in computing the ten per cent interest which would render him subject to the reporting requirements of section 16 (a).

Certain beneficiaries of trusts, too, will be required to file reports with respect to trust securities. If the beneficiary is an officer or director of a company with registered equity securities, he will be required to report all trust holdings and transactions in the equity securities of the company. Similarly, if the beneficiary holds over ten per cent of any class of registered equity securities, he will be required to report the trust holdings and transactions. In computing the ten per cent interest his personal holdings will be combined with the trust holdings only in those instances where his interest in the trust is a present right to receive income or principal or where he has acquired his interest by purchase.

Of course, if any single trust itself is a 10 per cent stockholder, reports should be filed on behalf of the trust. Holdings of trusts with similar terms and beneficiaries should be combined in computing the 10 per cent interest required to fall within the reporting requirements where either the settlor or the trustees are the same. To the extent reports are filed on behalf of the trust by the trustee in either his personal capacity or his trust capacity, the beneficiaries are relieved of the necessity for filing.

Persons who possess the power to revoke a trust for their own benefit, either alone or in conjunction with someone else, are also considered, in the proposed rule, the beneficial owners of the securities held by the trust.

The proposed rule would provide substantially as follows:

§ 240.16a–8 *Ownership of securities held in trust.* (a) The following persons shall be deemed to have such beneficial ownership of securities held by a trust as to require them to file the reports covering the securities held by the trust as are required by § 240.16a–1 when they are officers or directors of the issuers of the securities, or when the securities held by the trust, together with any other securities beneficially owned, exceed the ten per centum specified in section 16 (a):

(1) Persons who possess the power to revoke or modify the terms of a trust, either alone or in conjunction with someone else;

(2) Trustees of irrevocable trusts who have an interest, contingent or vested, in income or corpus of the trust;

(3) Trustees of irrevocable trusts who hold title to securities for the benefit of one or more members of their immediate families;

(b) Beneficiaries of a trust shall be deemed to have such beneficial ownership of securities held by the trust as to require them to file the reports covering the securities held by the trust which are required by § 240.16a–1 when:

(1) They are officers or directors of the issuers of the securities held by the trust or

(2) They own more than ten percent of any class of any registered equity security (other than an exempted security) of the issuer of equity securities held by the trust, the ten percent being computed for the purposes of this subparagraph as including (i) any securities of which they have a beneficial ownership as elsewhere defined in this part, (ii) any securities held in any trust in which they acquired an interest for a valuable consideration on their part, and (C) any securities held in any trust in which they have a present right to receive either income or principal.

(c) Not more than one report need be filed to report any holdings or with respect to any transaction in securities held by a trust, regardless of the number of officers, directors or 10 percent stockholders who are either trustees or beneficiaries of a trust, provided that the report filed shall disclose the names of all trustees and beneficiaries who are officers, directors or 10 percent stockholders.

(d) A trust or related group of trusts shall be deemed a "person" for the purpose of § 240.16a–1. In determining whether the trusts are beneficial owners, directly or indirectly, of more than 10 percent of any class of any equity security (other than an exempted security) which is listed on a national securities exchange, the holdings of two or more trusts shall be combined if they have substantially similar terms and beneficiaries and if either the settlor or the trustees are the same.

(e) As used in this section the "immediate family" of a trustee means:

(1) A son or daughter of the trustee, or a descendant of either;

(2) A step-son or step-daughter of the trustee;

(3) A brother, sister, step-brother, or step-sister of the trustee;

(4) The father or mother of the trustee, or an ancestor of either;

(5) A step-father or step-mother of the trustee;

(6) A son or daughter of a brother or sister of the trustee;

(7) A brother or sister of the father or mother of the trustee;

(8) A son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law of the trustee.

For the purposes of determining whether any of the foregoing relations exist, a legally adopted child of a person shall be considered a child of such person by blood, and a brother or sister by the half blood shall be considered a "brother" or "sister."

(f) For the purpose of this section a trust shall be defined to exclude registered investment companies and business trusts having over twenty-five beneficiaries.

(g) Nothing in this section shall be deemed to impose any duties or liabilities with respect to any transactions or holdings prior to its effective date which would not otherwise be imposed by the act.

All interested persons are invited to submit data, views and comments on the above proposals in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before July 18, 1952.

By the Commission.

[17 CFR Part 240]

REPORTS OF DIRECTORS, OFFICERS, AND PRINCIPAL STOCKHOLDERS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission, acting pursuant to the authority vested in it by the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 16 (b), and 23 (a) thereof, has under consideration proposals for the amendment of Rules X-3B-2, X-16A-1, X-16A-3, and X-16A-4, relating to section 16 of the Securities Exchange Act of 1934.

Section 240.3b-2 (Rule X-3B-2) at present defines an "officer" to mean a "president, vice president, treasurer, secretary, comptroller, and any other person who performs for an issuer, whether incorporated or unincorporated, functions corresponding to those performed by the foregoing officers." In the case of Colby v. Klune, 178 F. 2d 872, the Court of Appeals for the Second Circuit indicated that the definition should also include other corporate employees performing important executive duties of such character that they would be likely, in discharging their duties, to obtain confidential information about their company's affairs. The proposed rule would adopt the views expressed by the Court.

Section 240.16a–1 (Rule X-16A-1), at present, sets forth the persons who must report their holdings and the changes in their holdings of securities pursuant to section 16 (a). It designates the equity securities with respect to which reports are required and the type of information which should be included in the reports. However, no provision of the rule, at present, deals with options, puts, calls, or straddles.

The proposed rule seeks to remedy this omission by requiring holders of options, puts, calls, straddles and other such privileges to file the reports required by section 16 (a). It has been suggested that complete disclosure of beneficial ownership and changes in such ownership of equity securities requires a disclosure of holdings and changes in the holdings of the options, puts, calls, and straddles which relate to the securities.

Section 240.16a–3 (Rule X-16A-3), at present, permits a person who is a member of a partnership which owns equity securities that are subject to the reporting requirements of section 16 (a) to either report the entire amount of such equity securities owned by the partnership or to report only that amount which represents his proportionate interest in the partnership. The Court of Appeals for the Second Circuit, in Rattner v. Lehman, 193 F. 2d 564, has indicated that either the partnership or one of its members might, under some circumstances, be liable under section 16 (b) of the Securities Exchange Act for all the profits realized by the partnership from short-swing trading in the securities of a company in which one of the partners is an officer, director or 10 per cent stockholder. It has also been suggested that only by reporting all holdings and all changes in the beneficial ownership of equity securities held by a partnership in which one of the partners is an officer, director, or ten per cent stockholder of the issuer of the securities can the full extent of the beneficial interest in the securities held by the partner be disclosed. To accomplish this purpose, it is proposed that Rule X-16A-3 be amended to require any person who is a member of a partnership which owns securities of an issuer of which he is an officer, director, or ten per cent stockholder to report the entire amount of such securities.

Section 240.16a–4 (Rule X-16A-4), at present, exempts those securities from the duties and liabilities imposed by sections 16 (a) and 16 (b) which are held (1) in the estate of a deceased person, (2) by representatives of an incompetent, (3) by persons such as receivers and trustees in bankruptcy who are authorized by law to administer the estate or assets of others, or (4) by the issuer. It has been proposed that these exemptions be withdrawn.

Estates of deceased persons, representatives of incompetents, and other persons authorized by law to administer the estate or assets of others, it is suggested, should be subject to the same requirements as other persons who obtain confidential information by reason of their relationship to an issuer of securities. Issuers, it is suggested, do not need the exemption from section 16 (b) contained in the present rule because a suit under that section would be fruitless for it would result in a recovery by the issuer in a suit against itself. Insofar as issuers beneficially owning over 10 percent of any class of their own registered equity securities are concerned, the withdrawal of the exemption would require them to file the reports required by section 16 (a) with regard to these holdings.

The texts of the proposed rules are as follows:

§ 240.3b–2 *Definition of "officer."* The term "officer" means a president, vice president, treasurer, secretary, comptroller, and any other corporate employee performing executive duties of such character that he would be likely, in discharging his duties, to obtain confidential information about his company's affairs, and any other person who performs for an issuer, whether incorporated or unincorporated, functions corresponding to those performed by any of the foregoing persons.

§ 240.16a–1 *Reports under section 16 (a).* (a) • • •

(b) For the purposes of this section the acquisition or disposition of an option, a put, a call, a straddle, or any other privilege of buying a security from or selling a security to another without being bound to do so shall be deemed such a change in the beneficial ownership of the security to which such privilege relates as to require the filing of a report reflecting the acquisition or disposition of such privilege. Nothing in this paragraph, however, shall exempt any person from filing the reports required upon the exercise of such option, put, call, straddle or other privilege of buying or selling a security without being bound to do so.

§ 240.16a–3 *Manner of reporting holdings and changes in ownership under Rule X-16A-1.* (a) • • •

(b) A partner who is required under § 240.16a–1 to report in respect to any equity security owned by the partnership shall include in his report the entire amount of such equity security owned by the partnership but may state that he has an interest in such equity security by reason of his membership in the partnership, without disclosing the extent of such interest.

All interested persons are invited to submit data, views and comments on the above proposal in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before July 18, 1952.

By the Commission.

ORVAL L. DUBOIS,
Secretary.

SURETY COMPANIES ACCEPTABLE ON FEDERAL BONDS

JUNE 17, 1952.

A Certificate of Authority has been issued by the Secretary of the Treasury to the above company under the act of Congress approved July 30, 1947, 6 U. S. C. secs. 6–13, as an acceptable surety on Federal bonds. An underwriting limitation of $220,000.00 has been established for the company. Further details as to the extent and localities with respect to which the company is acceptable as surety on Federal bonds will appear in the next issue of Treasury Department Form 356, copies of which, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Section of Surety Bonds, Washington 25, D. SPENT BONE BLACK

TARIFF CLASSIFICATION

JUNE 17, 1952.

It appears probable that a correct interpretation of paragraph 1555, Tariff Act of 1930, requires that spent bone black (referred to on some invoices as spent animal charcoal or spent bone char) be classified under paragraph 1555 as waste, not specially provided for, dutiable at the modified rate of 4 percent ad valorem rather than free of duty under paragraph 1685.

Information received by the Bureau indicates that this merchandise is now chiefly used as an ingredient in the manufacture of animal and poultry feeds. Accordingly, pursuant to § 16.10a (d), Customs Regulations of 1943, notice is hereby given that the existing uniform practice of classifying such merchandise under paragraph 1685 as a substance chiefly used for fertilizer or as an ingredient in the manufacture of fertilizers is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of this merchandise which are submitted in writing to the Bureau of Customs, Washington 25, D. C. To assure consideration of such communications they must be received in the Bureau not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

NETS AND NETTINGS MADE ON KNITTING MACHINE

TARIFF CLASSIFICATION

JUNE 17, 1952.

The Bureau in its letter to the collector of customs at New York, New York, dated June 17, 1952, ruled that nets and nettings made on a knitting machine are classifiable according to the component material of chief value and not as fabrics or articles made on a lace or net machine under paragraph 1529 (a).

In any case where this ruling results in the assessment of duty at a higher rate than has heretofore been assessed

under a uniform practice, it shall be applied only to such or similar merchandise entered for consumption or withdrawn from warehouse for consumption on or after 30 days after the date of publication of the abstract of this decision in a forthcoming issue of the weekly Treasury Decisions.

2⅜ PERCENT TREASURY BONDS OF 1958

OFFERING OF BONDS

JUNE 16, 1952.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for bonds of the United States, designated 2⅜ percent Treasury Bonds of 1958. The amount of the offering is $3,500,000,000, or thereabouts.

2. Subscriptions from others than commercial banks for their own account will not be restricted in amount.

3. Subscriptions from commercial banks for their own account will be restricted in each case to an amount not exceeding the combined capital, surplus, and undivided profits, or 5 percent of the total deposits, as of December 31, 1951, whichever is greater, of the subscribing bank. Commercial banks are defined for this purpose as banks accepting demand deposits.

II. *Description of bonds.* 1. The bonds will be dated July 1, 1952, and will bear interest from that date at the rate of 2⅜ percent per annum, payable on a semiannual basis on December 15, 1952, and thereafter on June 15 and December 15 in each year until the principal amount becomes payable. They will mature June 15, 1958, and will not be subject to call for redemption prior to maturity.

2. The income derived from the bonds shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $500, $1,000, $5,000, $10,000, $100,000 and $1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than commercial banks will not be permitted to enter subscriptions except for their own account. Subscriptions from commercial banks for their own account will be received without deposit. Subscriptions from all others must be accompanied by payment of 10 percent of the amount of bonds applied for.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, and to the limitations on commercial bank subscriptions prescribed in section I of this circular, and within the limitation of the amount of the offering, subscriptions for amounts up to and including $100,000 from commercial banks, and subscriptions in any amounts from all other subscribers, will be allotted in full and subscriptions for amounts over $100,000 from commercial banks will be allotted on a percentage basis, to be publicly announced when allotments are made. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par and accrued interest, if any, for bonds allotted hereunder must be made or completed on or before July 1, 1952, or on later allotment. In every case where payment is not so completed, the payment with application up to 10 percent of the amount of bonds applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its District.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

1⅞ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES B-1953

OFFERING OF CERTIFICATES

JUNE 16, 1952.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for certificates of indebtedness of the United States, designated 1⅞ percent Treasury Certificates of Indebtedness of Series B-1953, in exchange for 1⅞ percent Treasury Certificates of Indebtedness of Series B-1952, maturing July 1, 1952.

II. *Description of certificates.* 1. The certificates will be dated July 1, 1952, and will bear interest from that date at the rate of 1⅞ percent per annum, payable with the principal at maturity on June 1, 1953. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all taxes, now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before July 1, 1952, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series B-1952, maturing July 1, 1952, which will be accepted at par, and should accompany the subscription. The full amount of interest due on the certificates surrendered will be paid following acceptance of the certificates.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

TOBE DEUTSCHMANN CORP. ET AL.

SUSPENSION ORDER

Hearings having been held in the above-entitled matter on the 28th and 29th days of April 1952, the 12th day of May 1952, and the 14th day of June 1952, before Ernest J. Brown, a Hearing Commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority's General Administrative Order 16-06 (16 F. R. 8628) dated July 21, 1951, and Implementation 1 to National Production Authority's General Administrative Order 16-06 (16 F. R. 8799); and

The respondents, Tobe Deutschmann Corporation, Tobe Deutschmann, and Henry P. Shopneck having been duly apprised of the specific violations charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings, and each of them being represented by Leon J. Kowal, an Attorney at Law, of 11 Beacon Street, Boston, Massachusetts, and Thomas J. Dodd, an Attorney at Law, of Hartford, Connecticut; and

A motion for leave to amend the statement of charges having been duly filed and allowed on April 28, 1952; and

The respondents having filed answers herein denying the charges, testimony having been taken, and stipulations with respect to facts having been filed in lieu of the presentation of additional evidence in support of and in opposition to the statement of charges as amended, it is hereby determined:

Findings of fact. 1. Tobe Deutschmann Corporation is a corporation organized and existing under the laws of the State of Delaware. It has a usual place of business in Norwood, Massachusetts. It is engaged in the manufacture of electronic equipment. It employs between 750 and 800 persons.

2. Tobe Deutschmann is president of the respondent corporation, and is the owner of approximately sixty-one percent of its capital stock. He is the active executive head of the business.

3. Henry P. Shopneck is purchasing agent of the corporation. He is not an officer or member of the Board of Directors, and is not an owner of stock in the corporation. On October 5, 1950, he received written authority from the corporation to extend DO ratings on behalf of the corporation in connection with the purchase of materials in its behalf. Mr. Shopneck acted with full authorization on behalf of the corporation with respect to all of the matters and transactions hereinafter referred to in which he participated.

4. Between October 14, 1950, and February 19, 1951, the corporate respondent, acting by and through the respondent Shopneck, placed DO rated orders for various gages and sizes of sheet steel in a total quantity of 337,449 pounds. With respect to 25,582 pounds (Charge 1) and 20,100 pounds (Charge 4) there was no right to apply a DO rating. With respect to the remainder of said total quantity, the corporate respondent was authorized to apply DO ratings to the extent, but only to the extent, of its material requirements for the fulfillment of contracts carrying DO ratings. The corporate respondent used DO ratings to purchase quantities substantially in excess of its said requirements, the amount of the excess not being subject to precise determination. The respondents thereby violated section 11.4 (b) and 11.8 (f) of National Production Authority Regulation 2, dated October 3, 1950 (15 F. R. 6632), as amended October 12, 1950 (15 F. R. 6911), and January 11, 1951 (16 F. R. 352).

5. Between April 7, 1951, and May 28, 1951, the corporate respondent herein, acting by and through the individual respondents, sold 232,063 pounds of sheet steel obtained by the application of DO ratings. Some portion of the total quantity sold was damaged, under-size, or otherwise unsuitable for the purposes for which it had been obtained. It is impossible to determine precisely what portion thereof was suitable for the purpose for which it was obtained with the use of DO ratings. A substantial portion of the steel sold was sold in violation of section 17 (a) of National Production Authority Regulation 2, dated October 3, 1950 (15 F. R. 6632), as amended February 27, 1951 (16 F. R. 1953).

Conclusion. During the period beginning October 14, 1950, and ending May 28, 1951, the respondents herein, Tobe Deutschmann Corporation, Tobe Deutschmann, and Henry P. Shopneck, violated the provisions of National Production Authority regulations, orders, and directives as herein above cited by purchasing with the use of DO ratings, substantial quantities of sheet steel in excess of requirements, and by selling substantial quantities of sheet steel obtained with the use of DO ratings in violation of such National Production Authority regulations, orders, and directives.

In order to correct the unauthorized purchases and sales of steel occasioned by the violations found herein, and in order to prevent future violations of National Production Authority regulations, orders, and directives by these respondents,

It is accordingly ordered:

1. That the respondents, Tobe Deutschmann Corporation, its successors and assigns, Tobe Deutschmann, and Henry P. Shopneck be, and they hereby are, severally prohibited from acquiring, using, and disposing of any controlled materials or materials under control of National Production Authority for a period of fourteen days commencing the 16th day of June, 1952.

2. That all allocations and allotments of carbon steel be withdrawn and withheld from Tobe Deutschmann Corporation, its successors and assigns, Tobe Deutschmann, and Henry P. Shopneck for a period of one year commencing June 16, 1952, without prejudice, however, to the obtaining by the said Tobe Deutschmann Corporation of an authorized production schedule with respect to products it has heretofore manufactured or may hereafter manufacture.

Issued this 12th day of June, 1952.

NATIONAL PRODUCTION AUTHORITY,
By ERNEST J. BROWN,
Hearing Commissioner.

[Ceiling Price Regulation 7, Section 43, Special Order 26, Amdt. 1]

BULOVA WATCH CO.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 26 under Section 43 of Ceiling Price Regulation 7 established ceiling prices at retail of watches manufactured by Bulova Watch Company having the brand name "Bulova".

Thereafter, the Bulova Watch Company filed an application to amend the special order to include within the coverage of the special order watches having the brand name "Westfield". It appears that the applicant may legally sell the items at the selling prices listed in its application and that the ceiling prices at retail requested are no higher than the level of ceiling prices under Ceiling Price Regulation 7. Therefore, this amendment adds watches having the brand name "Westfield" to the coverage of the special order.

Amendatory provisions. Special Order 26 under Section 43 of Ceiling Price Regulation 7 is amended in the following respects:

1. Following paragraph 1, insert the following subparagraph 1 (a):

1 (a). The ceiling prices for sales by any seller at retail of watches sold at wholesale by the Bulova Watch Company having the brand name "Westfield" shall be the proposed retail ceiling prices listed by the Bulova Watch Company in its application dated February 19, 1952, (as supplemented and amended by its application of April 2, 1952) and filed with the Office of Price Stabilization, Washington 25, D. C. The prices listed in the wholesalers application dated February 19, 1952 shall become effective on receipt of a copy of the notice for such articles but in no event later than June 24, 1952.

2. In paragraph 2, delete the words "paragraph 1" and substitute therefore, the words "paragraphs 1 and 1 (a)"

3. In paragraph 2 following the word "manufacturer" insert the words "or wholesaler."

4. In paragraph 4 following the word "manufacturer", wherever it appears, insert the words "or wholesaler".

Effective date. This amendment shall become effective June 19, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[Docket Nos. G-1810, G-1938, G-1939]

TEXAS-OHIO GAS CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

JUNE 17, 1952.

On June 6, 1952, oral argument was held before the Commission on the motion filed by Staff Counsel to dismiss the application for a certificate of public convenience and necessity, filed by Texas-Ohio Gas Company (Applicant) at Docket No. G-1810.

Applicant had not concluded the presentation of all of its supporting evidence at the time of the filing of the motion to dismiss.

On April 14, 1952, one day prior to the opening of the hearing at Docket No. G-1810, Applicant filed with the Commission an application at Docket No. G-1938, pursuant to section 3 of the Natural Gas Act, for an order authorizing it to import natural gas from the Republic of Mexico, to supply up to 200,000 Mcf of gas per day for the project at Docket No. G-1810.

On said April 14, 1952, Applicant filed an application for a Presidential Permit, pursuant to Executive Order No. 8202, to construct, maintain, and operate facilities at the borders of the United States for the importation of natural gas from the Republic of Mexico, all as hereinbefore referred to.

Public notice of the filing of the applications at Docket Nos. G-1938 and G-1989 has been given, including publication in the FEDERAL REGISTER on April 30, 1952 (17 F. R. 3836).

Applicant has requested that the applications at Docket Nos. G-1938 and G-1939 be consolidated for purpose of hearing with the proceeding at Docket No. G-1810.

Although Executive Order No. 8202 does not require the Commission to hold a hearing or provide opportunity therefor, it appears that in the circumstances of this matter, it would be in the public interest to hold a hearing with respect to the application filed at Docket No. G-1939 jointly with the hearing on the proceedings at Docket Nos. G-1810 and G-1938.

The Commission finds:

(1) It would be in the public interest to defer ruling on Staff's motion to dismiss the proceeding at Docket No. G-1810 until the conclusion of the introduction of all Applicant's supporting evidence, and that the hearing should be reconvened.

(2) Good cause exists to consolidate the proceedings at Docket Nos. G-1938 and G-1939 for purpose of hearing with the proceeding at Docket No. G-1810.

The Commission orders:

(A) Decision on Staff's motion to dismiss the proceeding at Docket No. G-1810, be and the same is hereby reserved, pending the conclusion of Applicant's presentation of all of the supporting evidence which it is then prepared to offer.

(B) The proceedings at Docket Nos. G-1938 and G-1939 be and the same are hereby consolidated for purpose of hearing with the proceeding at Docket No. G-1810.

(C) The public hearing in these proceedings shall reconvene on July 7, 1952, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

(D) After Applicant has presented all of its evidence in support of the applications at Docket Nos. G-1810, G-1938, and G-1939, other parties, including Staff Counsel, may conduct so much of their cross-examination as they are then prepared to undertake. Thereupon, the Presiding Examiner shall recess the hearing pending further order of the Commission.

(E) Interested State commissions may participate, as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: June 18, 1952.

By the Commission.

Secretary.

[Docket No. G-1974]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JUNE 18, 1952.

Take notice that Cities Service Gas Company (Applicant), a Delaware corporation, address Oklahoma City, Oklahoma, filed on June 11, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to transport natural gas for sale to Forbes Air Force Base near Topeka, Kansas, and for such purpose to construct and operate approximately 57,000 feet of 8-inch pipeline connecting said Forbes Air Force Base with a point on Applicant's 16-inch pipeline in Shawnee County, Kansas.

The estimated cost of the proposed facilities is $152,400, which cost is proposed to be paid by the United States Air Force.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 9th day of July 1952. The application is on file with the Commission for public inspection.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951 (P. L. 139, 82D CONGRESS)

JUNE 20, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations, and the availability of housing and community facilities and services for such defense workers and military personnel in each of the areas set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Public Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that each of said areas is a critical defense housing area.

Camp Atterbury, Indiana, area. (The area consists of Bartholomew, Brown, Johnson, Morgan, Shelby and Jackson Counties; the Townships of Clay, Washington, Marion, Sand Creek and Jackson in Decatur County, all in Indiana.)

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-127, 59-12, 59-3, 70-1606]

ELECTRIC BOND AND SHARE CO.

NOTICE OF FILING, NOTICE OF AND ORDER FOR HEARING, ORDER OF CONSOLIDATON AND REINSTITUTION OF PROCEEDINGS

JUNE 18, 1952.

Notice is hereby given that on June 13, 1952, Electric Bond and Share Company ("Bond and Share"), a registered holding company, filed an application with this Commission, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, requesting approval of a plan dated June 12, 1952. The said application and plan set forth a proposed program for Bond and Share which is summarized below and which includes a request for exemption from the provisions of the act pursuant to section 3 (a) thereof.

Bond and Share's present capitalization consists solely of 5,250,358 shares of common stock. Its assets consist of cash and cash items in the amount of approximately $16,000,000, and common stocks of the following companies:

	Shares held	
	Number	Percent of total
American Power & Light Co.	183,000	3.5
The Southern Co.[1]	361,157	2.3
United Gas Corp.	3,165,781	27.01
American & Foreign Power Co., Inc.	3,402,856	71.6
Ebasco Services, Inc.	10,000	100.0

[1] Bond and Share has declared a dividend in the aggregate amount of 210,014 shares of the common stock of The Southern Co. payable on June 25, 1952, to stockholders of record on May 22, 1952.

Bond and Share is under commitment to dispose of its holdings of the stock of American Power & Light Company ("American"). The Commission has approved a plan for the distribution by American of its holdings of the stock of its subsidiary, the Washington Water Power Company, and has pending before it a plan of Bond and Share for the distribution by it of the shares of stock of the Washington Water Power Company to be received in the distribution by American.

On September 6, 1949, Bond and Share filed an application for approval of a plan setting forth a program of future operations and also requesting relief from its commitment to dispose of the 2,870,653 shares of the common stock of United Gas Corporation ("United"). These shares were acquired by Bond and Share pursuant to application filed by it in the course of reorganization proceedings of Bond and Share's then subsidiary, Electric Power & Light Corporation, subject to a commitment to dispose of said shares within one year but reserving the right to seek relief from that commitment in appropriate proceedings before the Commission.

In 1951, pursuant to a rights offering made by United, Bond and Share acquired, subject to the foregoing commitment, additional United stock so that it now holds 3,165,871 shares or 27.01 percent of those outstanding.

On October 14, 1949, the Commission issued its notice of and order for hearing (Holding Company Act Release No. 9416), ordering that hearings be held on the application of Bond and Share, reinstituting proceedings under sections 11 (b) (1) and 11 (b) (2) directed to Bond and Share, and consolidating the proceedings. That notice and order directed that at the hearings to be held attention be directed solely to the issue concerning the right of Bond and Share to acquire the stock of United, for retention, and reserved for further hearings and determination the remaining issues then specified, without prejudice to the Commission's specifying additional matters and questions, all as set forth in the said notice and order for hearing.

After hearings, briefs and argument, the Commission, on February 6, 1952, issued its findings and opinion and order (HCA Release No. 11004).

The findings and opinion stated, in part:

On the basis of the foregoing, we conclude that there is no basis for relieving Bond and Share from its commitment to dispose of its United stock. We find that Bond and Share may not acquire or retain such holdings and that its application for an exemption should be denied. Accordingly, Bond and Share must proceed to take appropriate steps for the disposition of its holdings of United stock. However, nothing in this opinion should be construed as approving or disapproving Bond and Share's program to become an investment company or as precluding the adoption, in connection with such program if approved, of an appropriate method of expeditiously disposing of the United securities consistent with such investment company program and as and to the extent required under the standards of the act.

The accompanying order concluded:

It is ordered, That Bond and Share's aforesaid request for relief from its commitment to dispose of its holdings of United common stock and the aforesaid request for an exemption under sections 3 (a) (3) and 3 (a) (5) of the act be and they hereby are denied, and that Bond and Share be and it hereby is directed to proceed to take appropriate steps for the expeditious disposition of its aforesaid holdings of the common stock of United.

On April 4, 1952, Bond and Share filed a petition for review of the Commission's order in the Court of Appeals for the District of Columbia Circuit pursuant to section 24 (a) of the act. On April 28, 1952, Bond and Share filed with the Commission an application for approval of a plan proposing, in general, that it become an exempt holding company holding the securities of American & Foreign Power Company, Inc. ("Foreign Power") and Ebasco Services, Incorporated ("Ebasco") and 9.98 percent of the common stock of United, and setting forth, among other things, a program for the disposition of the remaining shares of the United stock held by it. By reason of the pendency of the appeal and the filing of this plan, the Commission, on May 2, 1952, issued an order inviting argument before it on the question of the procedure to be following under the circumstances. Argument was held on June 9, 1952, and the Commission has this day issued its memorandum opinion thereon. Prior to that argument, Bond and Share filed a Statement of Position, revising its program for the distribution of the United stock and stating that an amendment would be filed to its plan proposing that Bond and Share retain less than 5 percent of the common stock of United and that it would distribute 656,250 shares of the United stock to the stockholders of Bond and Share in the year 1952. That amendment has since been filed as the instant plan.

The plan, generally, provides:

1. Bond and Share will dispose of an amount of the common stock of United (not less than 2,598,750 shares) which will reduce Bond and Share's holdings thereof to less than 5 percent of the total outstanding by the end of the year 1955, as more fully described below.

2. Bond and Share will retain its entire investment in Ebasco and its investment in Foreign Power subject to the sales and possible purchases of Foreign Power stock discussed below.

3. Bond and Share will dispose of its holdings of the common stock of the Southern Company and American, or the securities distributed by American, during the year 1952.

4. Bond and Share will use proceeds derived from the disposition of properties, and other funds, for investment in new or established enterprises, subject to the limitations discussed below.

5. Bond and Share requests an exemption from the provisions of the act except section 9 (a) (2) thereof, upon condition that Bond and Share will either register as an investment company under the Investment Company Act of 1940, or will otherwise subject itself to the provisions of said act, to the extent, and in a manner approved by the Commission; such exemption to become effective automatically when Bond and Share shall have made the dispositions heretofore described and shall have reduced its holdings of United Stock below 5 percent.

6. Bond and Share also requests the issuance of an interim exemption order prior to the issuance of any order approving the plan permitting Bond and Share forthwith to commence its investment program.

Bond and Share proposes to dispose of not less than 2,598,750 shares of the common stock of United as follows:

Year of disposition	Method of disposition			Total dispositions
	Distributions		Rights offerings	
	Capital	Dividends		
	Shares	*Shares*	*Shares*	*Shares*
1952	656,250		525,000	1,181,250
1953		210,000	525,000	735,000
1954		210,000	262,500	472,500
1955		210,000		210,000
Total	656,250	630,000	1,312,500	2,598,750

The proposed capital distribution for the year 1952 will be at the rate of one share of United stock for each eight shares of Bond and Share stock held. This distribution will be made on a distribution date which shall be as soon as practicable, but not more than ninety days after approval of the plan by the Commission, and by an enforcement court if Bond and Share requests court enforcement of the plan. Such distribution will be accomplished by Bond and Share's mailing certificates for the appropriate number of full shares of United stock to the holders of record of Bond and Share stock at the close of business on the Record Date, and such stock will be registered in the respective names of such record holders of the Bond and Share stock. No fractional shares of the United stock will be issued in such distribution, but in lieu thereof Bond and Share will instruct its distribution agent to sell, for the account of Bond and Share stockholders entitled thereto, the number of shares which would otherwise be deliverable as fractional shares, and to pay to the stockholders entitled thereto the gross proceeds from such sale.

In the calendar years 1953, 1954, and 1955, Bond and Share proposes to distribute as dividends to its stockholders that number of shares of United Gas common stock the market value of which at the time or times of the declaration of the dividends will aggregate approximately 90 percent of Bond and Share's estimated net income for the calendar year in which such dividends are declared. It is estimated that by the payment of dividends as provided in this paragraph Bond and Share will dispose of approximately 210,000 shares of United Gas stock in each of the calendar years 1953, 1954, and 1955, a total of 630,000 shares.

During the years 1952, 1953, and 1954, Bond and Share will offer to its stockholders rights to purchase common stock of United at prices which will be not less than 25 percent below the market prices prevailing at the times for such offerings. The rights offerings in the years 1952 and 1953 will be on the basis of one share of United stock for each ten shares of Bond and Share stock, and in the year 1954 will be on the basis of one share of the United stock for each twenty shares of Bond and Share stock. The right to purchase stock will be evidenced by transferable purchase warrants. Subscriptions will be accepted only for full shares of the United stock, and Bond and Share will provide facilities whereby holders may purchase sufficient rights to enable them to subscribe to one full share, or to sell such rights as are less than the number necessary to subscribe to one full share. The plan provides that should not less than 85 percent of the stock offered at such time be subscribed for at the conclusion of the offering period, holders of Bond and Share stock, who have not exercised or sold their warrants, will be paid the cash amount representing the value of their warrants based upon either the final average price received by the subscription agent in connection with the sale of rights on the last day of the offering period, or, in the alternative, the amount received from the actual sale of such rights less expenses incurred or calculated.

The schedule of dispositions heretofore set forth is calculated upon economic conditions and market levels prevailing as of the time of filing of the plan. Should there be any deviation from the schedule heretofore set forth so that Bond and Share has not disposed of the number of shares set forth, it will, prior to December 31, 1955, sell such number of shares of the United stock as will be necessary to bring its holdings of that stock to below 5 percent at that time.

In the event United shall, during the period in which Bond and Share contemplates making these dispositions, offer additional shares of its common stock to its stockholders, Bond and Share proposes to have the right to purchase its proportionate amount of such stock provided that it will dispose of any such additional shares acquired to the extent necessary to bring its holdings at December 31, 1955 down to less than 5 percent of any

such additional stock issued in addition to the 567,031 shares it proposes to retain.

In order to utilize its potential capital losses, Bond and Share contemplates sales of the Foreign Power stock from time to time. In that way, it states, tax losses will be realized which may equal or exceed the then current year's ordinary income of Bond and Share, and dividends paid by Bond and Share in such years would not be taxable as ordinary income. Bond and Share contemplates that purchases of Foreign Power common stock may also be made and requests exemption from any requirement of filing applications with the Commission with respect to such sales or purchases, but states that purchase of the Foreign Power stock would not be made until advance public notice of such purchase had been given by Bond and Share in a manner satisfactory to the Commission. The plan also provides that Bond and Share will file with the Commission monthly reports relating to any purchases or sales of the Foreign Power stock made by Bond and Share during the preceding calendar month. It also provides that Bond and Share will not purchase any senior securities of Foreign Power without permission of the Commission.

In connection with the investment program of Bond and Share, the plan provides that Bond and Share will make no investment in securities of any domestic holding company or domestic public utility company which will make such company an affiliate of Bond and Share. Additionally, Bond and Share will make no purchases of any voting securities of any holding company or public utility company in the United States, which company was formerly a direct or indirect subsidiary of Bond and Share except that Bond and Share may purchase stock of United as heretofore discussed. The plan also provides that Bond and Share, without prior approval of the Commission, will not purchase any voting securities of any domestic holding company or domestic public utility company, except as previously noted concerning Foreign Power and United, to which Ebasco is currently rendering service except with permission of the Commission, and that Ebasco will not render any service to any domestic holding company or domestic public utility company (except United and Foreign Power) of which Bond and Share owns any voting securities.

Bond and Share requests that the Commission modify its order of November 21, 1950, concerning the tripartite contract among Bond and Share, United and National Research Corporation so as to remove any impediments to the continued participation in that contract by Bond and Share.

Bond and Share will submit an amendment to the plan to reflect certain modifications in its charter.

The plan contains provisions for modifications, withdrawal and changes in the manner or method of carrying out the plan. Additionally, Bond and Share reserves the right, at any time prior to approval of the plan, to file appropriate applications and declarations with the Commision to separately effect certain of the transactions proposed in the plan. Any transactions thus separated and consummated pursuant to Commission approval shall have the effect of withdrawing that particular transaction from the plan.

The Commission considering that the application and plan raise issues that should not be resolved to prior to notice and opportunity for hearing with respect thereto; and

It also appearing appropriate that the hearings heretofore held on the application of Bond and Share, dated September 6, 1949, be made part of the proceedings herein and that the issues reserved in the notice and order for hearing in connection therewith, dated October 14, 1949 (Holding Company Act Release No. 9416), are now appropriately the subject of exploration in these proceedings, and it appearing appropriate that evidence be taken in connection therewith:

It is hereby ordered, That hearings in the above-entitled consolidated proceedings shall be held on July 9, 1952, at 10:00 a. m., e. d. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 101 will advise as to the room in which such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before July 7, 1952, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examinaton of the application and plan and that upon the basis thereof the following matters and questions are presented for consideration, in addition to the issues reserved in Holding Company Act Release No. 9416, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the plan as submitted, or as it may be modified, is necessary to effectuate the provisions of section 11 (b) of the act, and whether any further action should be taken by the Commission in order that Bond and Share shall fully comply with the provisions of that section of the act;

2. Whether the plan, as submitted, or as it may be modified, is fair and equitable to the persons affected thereby, and what further action, if any, is necessary by the Commission in order to make such plan fair and equitable to the persons affected by it;

3. Whether the dispositions of the common stock of United as proposed by Bond and Share are in accordance with the applicable standards of the act, and the Commission's orders thereunder, and whether such dispositions constitute fair and equitable treatment to the stockholders of Bond and Share;

4. Whether, in connection with the transactions proposed, there will remain any affiliated relationship as defined in the act between United and Bond and Share;

5. Whether the Commission should grant Bond and Share's application for an interim order allowing it to proceed to make investments as proposed prior to approval of the plan.

6. Whether the application for exemption requested by Bond and Share, pursuant to section 3 of the act, should be granted, and, if so, what terms and conditions, if any, should be imposed in the public interest or the interest of investors or consumers;

7. Whether the plan provisions concerning investments by Bond and Share in certain holding company and utility situations are appropriate under the standards of the act and, if not, what terms and conditions should be imposed in connection therewith;

8. In the event the Commission shall approve the plan, what restrictions, if any, should be imposed in connection with the relationships between Bond and Share and United;

9. Whether the Commission should grant Bond and Share's request to modify the order of November 21, 1950, concerning the National Research Corporation contract, and, if so, what further terms or conditions, if any, should be imposed in connection therewith;

10. Whether the Commission should adopt the plan as submitted, or as it may be modified, or whether another plan to achieve compliance by Bond and Share with the standards of section 11 (b) of the act should be proposed and/or approved by the Commission;

11. Generally, whether the transactions proposed in the plan are in all respects in the public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and the rules and regulations thereunder; and, if not, what modifications should be required to be made therein, and what terms and conditions, if any, should be imposed to satisfy the applicable statutory standards.

It is further ordered, That at the aforesaid hearing, attention be given to the foregoing matters and questions.

It is further ordered, That jurisdiction be reserved to separate, either for hearing in whole or in part, or for disposition in whole or in part, any of the issues, questions, or matters, herein set forth or which may arise in these proceedings, or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly and expeditious disposition of the matters involved in accordance with the standards of the act.

It is further ordered, That notice of this hearing be given by registered mail to Bond and Share, to United, and to parties and participants who have previously appeared herein, that notice shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases under the act; and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER; and

It is further ordered, That Bond and Share shall give notice of this hearing to all its security holders (in so far as the identity of such security holders is known and available to it) by mailing to each of said persons a copy of this notice and order for hearing at least 15 days prior to the date set for said hearing.

By the Commission.

CANADA GENERAL FUND, INC.

NOTICE OF APPLICATION

JUNE 20, 1952.

Notice is hereby given that Canada General Fund, Inc. (the "fund"), a Delaware corporation which is a registered investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order exempting certain transactions described herein from the provisions of sections 13 (a) (1), 14 (a), 15 (a), 16 (a), 22 (e) and 32 (a) (2) of the act.

The application states that the fund has registered under the act as a diversified, closed-end, management investment company with an authorized capitalization of 5,000,000 shares of capital stock, $1.00 par value, none of which is outstanding, the fund has not issued or received any subscriptions for any stock and has no assets. It has the power to invest in securities of issuers organized in Canada, in securities of issuers wherever organized whose principal activities are in Canada, and in United States and Canadian government securities.

The fund requests an order of the Commission under section 6 (c) of the act exempting the fund (1) from the requirements of section 14 (a) of the act in order to permit an initial offering of securities at a time when the fund has no assets; (2) from the requirements of section 13 (a) (1) of the act in order to permit the fund to change its classification from that of a closed-end to an open-end investment company without a stockholder vote; (3) from the requirements of sections 15 (a), 16 (a), and 32 (a) (2) of the act so that the fund may operate for a limited period without stockholder approval of an investment advisory contract, without stockholder election of directors, and without stockholder approval of the selection of independent public accountants, until the stockholder approval required by said sections 15 (a), 16 (a) and 32 (a) (2) can be obtained with respect to these matters at an annual meeting of stockholders to be held in September 1952; and (4) from the requirements of section 22 (e) of the act to the extent necessary to allow the directors to suspend the right of redemption of shares of the fund upon the closing or restriction of trading upon the Toronto Stock Exchange or the Montreal Stock Exchange.

The fund states that it proposes to make a public offering of its capital stock through the underwriters in an amount to net the fund at least $5,000,000. Thereafter, the fund proposes to become a diversified, management investment company of the open-end type pursuant to a vote of the board of directors upon completion of the original public offering. The underwriting agreement will require the fund to change from a closed-end to an open-end status not later than five full business days after the settlement date, which must occur not later than 30 days after the effective date of the initial registration of shares under the Securities Act of 1933. The underwriting agreement will further provide that the fund may not invest its funds earlier than five business days following the date upon which the fund becomes an open-end company. It is asserted that it will be advantageous for the fund to make its initial offering of shares as a closed-end issuer since if the fund initially sold its shares as an open-end company, certain provisions of the Rules of Fair Practice of the National Association of Securities Dealers would prevent the underwriters from giving a firm commitment or conducting stabilizing operations during the distribution period.

The fund proposes that the underwriters will agree that if any shares are taken, the underwriters will take down for distribution to the public sufficient shares that the fund will receive a net amount of at least $5,000,000. It is asserted that the fund will in this manner be assured of commencing business as an investment company with assets substantially in excess of the $100,000 required by section 14 (a) (1) of the act.

Prior to beginning operation as an investment company, the fund will enter into a contract for the investment advisory and management services of Boston Management and Research Company and into a contract with Vance, Sanders & Co. whereby that partnership will undertake to act as principal underwriter for shares of the fund at such date as the fund may become an open-end company. The fiscal year of the fund ends June 30th and the date of its annual meeting of stockholders is fixed by its by-laws as September 16, 1952. It is proposed to take appropriate stockholder action at the first annual meeting of stockholders with respect to an investment advisory contract, the selection of the fund's independent public accountants, and the election of directors.

Section 22 (e) of the act provides, in part, that no registered investment company shall suspend or postpone the right of redemption of any redeemable security in accordance with its terms for more than seven days after tender except for any period (1) during which the New York Stock Exchange is closed other than customary week-end and holiday closings or (2) during which trading on the New York Stock Exchange is restricted, and except for certain other conditions not herein relevant. The certificate of incorporation of the fund provides that the directors may suspend the right of redemption of the fund's shares for any period during which the New York, Toronto or Montreal Stock Exchange is closed, other than the customary week-end and holiday closings, or during which trading on any one of those exchanges is restricted (as determined by rules of the Commission). The applicant asserts that the Toronto or Montreal Stock Exchange might be closed during a period when the New York Stock Exchange was open and that under such circumstances the general market for securities of Canadian companies might be substantially depressed and reliable quotations might not be available.

Section 6 (c) of the act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any transaction from any provision of the act if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application in whole or in part and upon such conditions as the Commission may deem necessary or appropriate may be issued by the Commission on or at any time after July 3, 1952, unless prior thereto a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the general rules and regulations promulgated under the act. Any interested person may submit to the Commission in writing, not later than July 1, 1952, at 5:30 p. m., e. d. s. t., his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

VOLUME 17 NUMBER 124

Washington, Wednesday, June 25, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10365

SUSPENSION OF CERTAIN PROVISIONS OF THE OFFICER PERSONNEL ACT OF 1947, AS AMENDED, WHICH RELATE TO OFFICERS OF THE MARINE CORPS

By virtue of the authority vested in me by section 426 (c) of the Officer Personnel Act of 1947, as amended (Public Law 67, 82nd Congress), it is hereby ordered as follows:

1. Except as provided in paragraph 2 hereof, the operation of those provisions of Title III of the Officer Personnel Act of 1947, as amended, which relate to the distribution in grades, promotion by selection, temporary promotion, and discharge on second failure of selection for promotion, of officers of the Marine Corps of the grades of second lieutenant and above are hereby suspended until June 30 of the fiscal year following that in which the national emergency proclaimed by Proclamation No. 2914 of December 16, 1950, shall end.

2. Notwithstanding the provisions of paragraph 1 hereof, the operation of those provisions of Title III of the Officer Personnel Act of 1947, as amended, which relate to the promotion of officers of the Marine Corps shall not be regarded as suspended in the case of any officer of the Marine Corps whose name is on this date on a promotion list as a result of selection for promotion pursuant to that Act.

3. This order supersedes Executive Order No. 10266 of June 30, 1951, so far as that order relates to the suspension of the operation of provisions of the Officer Personnel Act of 1947, as amended, for commissioned officers of the Marine Corps of the grades of captain and below.

PART 729—PEANUTS

MARKETING QUOTA REGULATIONS FOR 1952 CROP

The amendments herein are based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, applicable to peanuts (7 U. S. C. 1301–1376) and are made for the purpose of amending peanut marketing quota regulations for the 1952 crop relating to the marketing phase of the program. The first amendment defines the term "excess moisture" appearing in the definition of "pound". The second amendment changes the definition of "Memorandum of Sale, Form MQ–93—Peanuts (1952)" by providing that such form will be used to record and report data with respect to all purchases of peanuts. The third, fourth, and fifth amendments simply delete all references in the regulations to Form MQ–94.

The regulations as originally issued provided that a Form MQ–94 would be used to report and record data with respect to the inspection and marketing of quota peanuts purchased by buyers for price support purposes. In view of the manner in which loans and purchases will be made in connection with the price support program for the 1952 crop of peanuts, it has been determined that it will not be necessary for buyers to report purchases and loans to the State Production and Marketing Administration Committees by means of Form MQ–94.

Farmers in the southernmost areas of the United States will soon begin harvesting their 1952 crops of peanuts; therefore, it is essential that the amendments contained herein be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1003) is impracticable and contrary to the public interest, and the amendments contained herein shall be effective upon filing of this document with the Director, Division of the Federal Register

The marketing quota regulations for the 1952 crop of peanuts (17 F. R. 4317) are hereby amended as follows:

1. Section 729.341 (r) is amended to read as follows:

(r) "Pound" means that quantity of farmers stock peanuts equal to one pound standard weight. If peanuts have been graded at the time of marketing, the poundage shall be the weight thereof excluding foreign material and excess moisture. (Excess moisture means moisture in excess of seven percent in the southeastern and southwestern areas or eight percent in the Virginia-Carolina area as such areas are defined in the 1951 peanut price support bulletin (16 F. R. 6851, 7200). If shelled peanuts are marketed, the poundage thereof shall be converted to the weight of farmers stock peanuts by multiplying the number of pounds of shelled peanuts by 1.5, and the result shall be the number of pounds considered as marketed under these regulations.

2. Section 729.341 (u) is amended to read as follows:

(u) "Memorandum of Sale" means Form MQ–93—Peanuts (1952), used (1) to record and report data with respect to all purchases of peanuts and (2) to record and report data with respect to peanuts shelled for or by producers.

3. Section 729.341 (v) is deleted in its entirety.

4. Section 729.354 (a) is amended to read as follows:

(a) Each marketing of peanuts from a farm shall be recorded by the buyer or his representative on a marketing card issued for the farm on which the peanuts were produced, if such marketing card is presented to the buyer by the producer at the time the peanuts are marketed. Each marketing of peanuts without a marketing card shall be subject to the penalty, unless the marketing consists of shriveled, damaged, split, and broken peanut kernels which were produced in shelling not in excess of that quantity of farmers stock peanuts for a producer which the county committee determined is reasonable for seed purposes on the producer's farm for the 1952 crop. The marketing of such shriveled, damaged, split, and broken peanut kernels will be identified by a Form MQ–93—Peanuts (1952), Memorandum of Sale, partially executed by a member of the county committee to show the quantity of peanuts that is reasonable for seed purposes on the producer's farm for the 1953 crop. Buyers will record and report data with respect to all peanuts purchased on Form MQ–93—Peanuts (1952), Memorandum of Sale: *Provided, however,* That a person who is not engaged in the business of buying peanuts for movement into the regular channels of trade shall not be required to execute Form MQ–93—Peanuts (1952), identifying purchases of peanuts from producers, if the county committee has determined that it would be administratively impracticable to require such buyer to execute forms, keep the records, and make the buyer's reports required in §§ 729.340 to 729.369, in which case the producer marketing the peanuts shall be responsible for reporting each marketing to the county committee as provided in § 729.356.

5. Section 729.362 (b) is amended to read as follows:

(b) *Form MQ–93—Peanuts (1952).* Buyers shall record and report data on Form MQ–93—Peanuts (1952) with respect to all peanuts purchased. The Production and Marketing Administration's copies of all Forms MQ–93—Peanuts (1952), with remittances covering the penalties due as shown on Form MQ–93—Peanuts (1952), shall be forwarded to the State committee by means of MQ–79—Peanuts (1952), Buyers Weekly Report and Transmittal to State PMA Office, not later than the end of two calendar weeks following the week in which the peanuts were marketed.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 813, Amdt. 1]

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

SUBPART—1952

DETERMINATION AND PRORATION OF AREA DEFICIT

Basis and purpose. This amendment is issued pursuant to the Sugar Act of

1948 for the purpose of prorating an area deficit which is hereby determined. Section 204 (a) of the act provides that the Secretary shall from time to time determine whether any domestic area, the Republic of the Philippines, or Cuba will be unable to market its quota. If he so finds with respect to the Republic of the Philippines, the quotas for Cuba and foreign countries other than Cuba and the Republic of the Philippines shall be revised by prorating to such areas an amount of sugar equal to any deficit so determined.

The Sugar Act provides that the quota for any domestic area, the Republic of the Philippines, Cuba or other foreign countries as established under the provisions of section 202 shall not be reduced by reason of any determination of a deficit and makes the proration of any such deficit a mere mathematical computation. In addition to the determination and proration of the deficit between Cuba and foreign countries other than Cuba and the Republic of the Philippines in accordance with the specific requirements of section 204 (a) of the act, further proration is made among the individual countries in the "other foreign countries" group pursuant to section 204 (d). The method of proration among such "other foreign countries" used herein will not prejudice the interest of any country. None of those not sharing in the deficit determined herein has supplied raw sugar in 1949, 1950, or 1951 indicating that none of them is in a position to supply raw sugar to which entries under this proration are limited by section 204 (a). Only two of these countries have made any marketing against their existing prorations for 1952 and none has yet marketed the full amount of its existing proration. Any of these countries can qualify for additional quota in the reallocation of the September 1 quota balance by having filled their prorations in effect on that date.

In order to afford sellers of sugar in affected areas an adequate opportunity to market the additional sugar authorized by this amendment, and thereby protect the interest of consumers, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is unnecessary, impracticable and contrary to the public interest and the amendment herein shall become effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C. Sup. I, 1100) and the Administrative Procedure Act (60 Stat. 237) Sugar Regulation 813 (16 F. R. 13032) is hereby amended by adding § 813.33 and paragraph (b) to § 813.34 to read as follows:

§ 813.33 *Determination and proration of area deficits*—(a) *Deficit in quota for the Republic of the Philippines.* It is hereby determined, pursuant to subsection (a) of section 204 of the act, that for the calendar year 1952 the Republic of the Philippines will be unable by an amount of 200,000 short tons of sugar, raw value, to market the quota established for that area in § 813.32.

(b) *Proration of deficit in quota for the Republic of the Philippines.* An amount of sugar equal to the deficit determined in paragraph (a) of this section is hereby prorated, pursuant to subsection (a) of section 204 of the act, as follows:

Area:	*Additional quota in terms of short tons, raw value*
Cuba	190,000
Foreign countries other than Cuba and the Republic of the Philippines	10,000

§ 813.34 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines.* * * *

(b) *Additional prorations.* An amount of sugar equal to that part of the deficit prorated to foreign countries other than Cuba and the Republic of the Philippines under paragraph (b) of § 813.33, is hereby prorated, pursuant to subsection (d) of section 204 of the act, as follows:

Country:	*Additional proration in pounds, raw value*
Dominican Republic	5,391,700
Haiti	745,160
Mexico	4,877,000
Peru	8,986,140
Total	20,000,000

Statement of bases and considerations. In the initial quota determination for 1952 it was stated that crop estimates then current indicated that the Republic of the Philippines had a fair chance to fill its 1952 quota. Processing of the 1951–52 crop sugarcane in the Philippines is now nearing completion and the crop is estimated at 1,040,000 short tons, equivalent to 1,065,000 tons raw value. Of this about 287,000 tons raw value have been set aside for local consumption and about 36,000 tons entered the continental United States in 1951. It is expected that about an equal quantity of 1952–53 crop sugar will arrive in the U. S. in 1952. Thus the current prospect is that about 778,000 short tons, raw value, of Philippine sugar will be available to the continental U. S. in 1952, leaving a deficit of about 200,000 short tons, raw value, in the statutory quota amounting to 974,000 short tons, raw value. This deficit has been prorated to Cuba and foreign countries other than Cuba and the Republic of the Philippines on the basis of 95 percent (190,000 tons) to Cuba and 5 percent (10,000 tons) to "other foreign countries" as required by the act. The 10,000 tons of additional quota for foreign countries other than Cuba and the Republic of the Philippines have been prorated on the basis of their existing prorations of 1952 quota to the four countries in this group which supplied raw sugar to the United States in 1949, 1950 and 1951. This basis is the best present indication of the interest of the countries concerned in supplying raw sugar to the United States market.

After giving effect to the changes set forth in this amendment to Sugar Regulation 813, the quotas for all areas are as follows:

BASIC QUOTAS, PRORATIONS OF DEFICIT AND ADJUSTED QUOTAS FOR 1952

[Short tons, raw value]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

CREWS' EFFECTS

Section 10.22 (b), Customs Regulations of 1943 (19 CFR 10.22 (b)), as amended, provides that articles in the possession of or owned by a crew member, when written declaration and entry are required therefor, shall be described and declared on a Declaration and Entry of Crew Members for Imported Articles, Customs Form 5123.

The regulation of the Military Air Transport Service will require that its Form PT-10 be filed as an individual customs declaration by crew members of that Service. Since Form PT-10 is substantially similar to Customs Form 5123, it is believed that it may be accepted in lieu of the latter form from crew members of the Military Air Transport Service. It is also believed possible that other Services may wish to use similar forms. Section 10.22 (b), Customs Regulations of 1943, is, therefore, hereby further amended by inserting the following after "5123," in the first sentence: "or other form approved by the Commissioner of Customs,".

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 135, Supplementary Regulation 1]

CPR 135, SR 1—SALES OF BAKERY ITEMS TO EATING AND DRINKING ESTABLISHMENTS LOCATED IN THE METROPOLITAN NEW YORK AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 1 to Ceiling Price Regulation 135 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation permits New York restaurant bakers, at their option, to eliminate the discounts and differentials they are required to maintain under CPR 135 if they make the compensatory adjustments and recalculations in ceiling prices provided for under this regulation.

As under the GCPR, bakers under CPR 135 are required to maintain separate ceiling prices for each class of purchaser. Generally speaking, bakers establish their ceiling prices under CPR 135 for each class of purchaser by applying their GCPR discounts or differentials for such class to their ceiling price for their largest buying class of purchaser.

Similarly, as under section 22 of the GCPR, the term class of purchaser under CPR 135 means a purchaser or group of purchasers to whom a baker customarily sold at a price different from the price or prices at which he sold any other purchaser or group of purchasers.

Their experiences under the GCPR have demonstrated that the New York restaurant bakers will be subject to certain difficulties if they are required to calculate their ceiling prices by applying these GCPR discounts and differentials. The GCPR froze the ceiling prices of the restaurant bakers at a time when an unsystematic discount and differential structure prevailed in the industry. The discounts and differentials of these bakers bore no relationship to any functional differences between restaurant customers, such as differences in location or in volume of purchases. Nor did differences in such discounts and differentials have any cost basis. The amount of the discount or differential, if any, which a particular restaurant obtained was often solely the result of its bargaining power. One restaurant might have enjoyed a large discount, while another restaurant, similarly situated in all objective respects, might have obtained only a slight discount or no discount at all. In many instances, large and small volume buyers obtained the same discount.

Discount and differential structures and practices of this nature existed before the GCPR base period. They were the result of unusually intense competition between restaurant bakers. These bakers deal with many different labor union locals, and negotiations are not conducted on an industry-wide basis. Starting with 1948, strikes were called by various labor union locals against individual bakers at different times. Upon settlement of the strikes and the resumption of operations these bakers offered varying discounts to regain their customers. Competitors retaliated and the net effect was to increase the use of discounts.

Rectification of this discount and differential situation was not permitted under the GCPR freeze nor is it permissible under CPR 135. This supplementary regulation offers a method of doing so. Restaurant bakers may under this supplementary regulation eliminate all discounts and differentials required to be maintained under CPR 135. However, in fairness to the customers and in accordance with standards of sound price control the effective level of ceiling prices cannot be permitted to rise above the level provided for in CPR 135. Accordingly, this regulation reduces the level of CPR 135 list ceiling prices to offset the elimination of discounts and differentials. This is accomplished by a combination of pricing techniques. First, dollars-and-cents ceiling prices are fixed for number 3 and 4 loaves of bread and vienna rolls. These items account for 82 percent of the restaurant bakers' sales and are by far their most important items. Secondly, a new factor of 1.09 is applied to all other items instead of the CPR 135 factor of 1.16.

Dollars-and-cents ceiling prices are provided for the most important items for several reasons. First of all this technique is the most practicable one for insuring that the level of ceiling prices under this supplementary regulation will be no higher than the level of ceiling prices under CPR 135. Moreover, the dollars-and-cents ceiling prices elimi-

nate the possibilities of disrupting historical price differentials between items that might otherwise result if any other technique were applied. Finally, dollars-and-cents ceiling prices are by far the easiest to apply. The need for issuance of this regulation as promptly as possible, however, rendered impracticable any consideration of extending dollars-and-cents ceiling prices to the less important items. Application of the factor of 1.09, however, will produce substantially the same level of ceiling prices for these items that would have resulted from the setting of dollars-and-cents ceiling prices.

New York restaurant bakers will use as their ceiling prices for the number 3 and 4 loaves and vienna rolls the applicable dollars-and-cents ceiling prices set forth in this regulation. No reports are required for these items, but bakers who elect to establish their ceiling prices for them under this regulation must file a statement of their election to do so with the appropriate OPS District Offices. They establish their ceiling prices for all other items sold during 1949 by applying the factor of 1.09 to their 1949 prices. No reports are required for items sold during 1949. Ceiling prices for items not sold in 1949 are established by following virtually the same instructions as are set forth in CPR 135.

Generally speaking, all other pricing provisions of CPR 135 are incorporated by reference under this supplementary regulation. Among other things, however, wherever the restaurant baker uses these provisions he must apply ceiling prices established under this supplementary regulation rather than CPR 135 ceiling prices. This requirement has been added to insure that ceiling prices for new items, adjustments, and the like will result in levels which are in line with the ceiling prices and other adjustments otherwise established by this supplementary regulation.

This regulation only applies to sales to restaurants in the metropolitan New York area. Bakers subject to this supplementary regulation continue to establish their ceiling prices for non-restaurant sales under CPR 135.

FINDINGS OF THE DIRECTOR

In the judgment of the Director of Price Stabilization, the provisions of this supplementary regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable requirements of that Act.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Election to establish ceiling prices under this regulation.
3. Ceiling prices for number 3 and 4 loaves and for vienna rolls.
4. Ceiling prices for other items.
5. Application of other provisions of Ceiling Price Regulation 135.
6. General applicability of Ceiling Price Regulation 135.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup., 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SEC. 1. *What this supplementary regulation does.* (a) This supplementary regulation applies to sales of bakery items to "eating and drinking establishments" located in the "metropolitan New York area".

(b) "Eating and drinking establishments" include but are not limited to restaurants, hotels, (including room service), taverns, cafes, cafeterias, soda fountains, boarding houses, catering establishments, field kitchens, lunch wagons and delicatessens. It covers establishments such as hot dog stands at athletic events even when they are only temporarily at a particular location.

(c) "Metropolitan New York area" means the following counties in the State of New York: New York, Kings, Queens, Bronx, Richmond, Rockland, Westchester, Suffolk and Nassau; and the following counties in the State of New Jersey: Bergen, Hudson, Union, and Passaic.

SEC. 2. *Election to establish ceiling prices under this regulation.* (a) If you are a baker who makes any sales described in section 1, you may if you wish, establish your ceiling prices for such sales under this supplementary regulation instead of under Ceiling Price Regulation 135.

(b) If you use this supplementary regulation: (1) you must apply it to all sales of all items to eating and drinking establishments located in the metropolitan New York area; (2) you may discontinue the discounts and differentials which you would have been required to maintain for such sales under Ceiling Price Regulation 135.

(c) If you elect to use this supplementary regulation you must file by registered mail, return receipt requested, with your District OPS Office, a report containing: (1) your name and address; and (2) a statement that you have elected to use this supplementary regulation.

SEC. 3. *Ceiling prices for number 3 and 4 loaves and for vienna rolls.* (a) Your ceiling prices for the items described in Table A are the applicable dollars-and-cents ceiling prices set forth in the same table.

TABLE A—CEILING PRICES FOR CERTAIN LOAVES AND ROLLS

Item	Ceiling price
No. 3 loaf of white, rye, whole wheat or pumpernickel bread	$0.40
No. 4 loaf of white, rye, whole wheat or pumpernickel bread	.53
Large vienna rolls (per dozen)	.30
Small vienna rolls (per dozen)	.22

(b) The baked weights corresponding to the items and ceiling prices on Table A are the baked weights (or, in the case of the rolls, sizes) at which you sold those items during 1949. If you did not sell an item described in Table A during 1949 your baked weight (or, in the case of the rolls, size) at the ceiling prices set forth in that table must at least be the baked weight or size, as the case may be, at which your most closely competitive baker sold the same item during 1949 to eating and drinking establishments located in the metropolitan New York area.

SEC. 4. *Ceiling Prices for other items.* (a) If you sell an item which is not described in Table A of section 3, establish your ceiling price under the first of the following provisions of this section which you are able to use:

(b) (1) Your ceiling price for a sale of an item under this regulation is your highest "list price" during 1949 for that sale multiplied by 1.09.

(2) "List price" means the price to which you applied your discounts or differentials in arriving at the amounts payable to you upon sales of items to eating and drinking establishments located in the metropolitan New York area.

(c) (1) If you are unable to calculate a ceiling price for an item under paragraph (b) of this section because you did not make a sale of the item during 1949 to any eating and drinking establishment in the metropolitan New York area, establish your ceiling price as follows:

(2) (i) If the item is a white pan bread item, establish your ceiling price by following the same directions as are set forth in section 2.2 (a) of Ceiling Price Regulation 135 except that the ceiling price borrowed by you must be a ceiling price established under this supplementary regulation.

(ii) You may begin to sell the item under paragraph (c) (2) of this section as soon as you have sent by registered mail, return receipt requested, to your District OPS Office a report containing the following information: your name and address; a statement that you are establishing your ceiling price or ceiling prices under this paragraph (c) (2) of section 4 of the supplementary regulation; a description of the item (including baked weight) for which you are establishing a ceiling price under paragraph (c) (2) of this section; the ceiling price under this supplementary regulation of your most closely competitive baker, his name and address; and your proposed ceiling price.

(3) If the item is not a white pan bread item establish your ceiling price by following the instructions set forth in section 2.3 of Ceiling Price Regulation 135 except that any ceiling price used by you for this purpose must be one that has been fixed under this supplementary regulation.

(4) If you are unable to calculate a ceiling price under any of the foregoing provisions of this section you may apply for the establishment of a ceiling price by following the same directions as are set forth in section 2.4 of Ceiling Price Regulation 135 except that:

(i) you must accompany your application with a statement that you are requesting the establishment of a ceiling price under this supplementary regulation; and

(ii) your ceiling prices and those of your most closely competitive baker, which you are required to include in your application, must be ceiling prices established under this supplementary regulation.

SEC. 5. *Application of other provisions of Ceiling Price Regulation 135.* If you wish to make any of the adjustments or calculations of ceiling prices provided for in sections 2.5–2.10 and 2.12 of Ceiling Price Regulation 135, you may do so by following the instructions set forth in those sections except as follows:

(1) You must substitute for the ceiling price mentioned in such instructions the corresponding ceiling price established under this supplementary regulation.

(2) Wherever the term "class of purchasers" or "largest buying class of purchasers" is mentioned in such instructions, substitute eating and drinking establishments located in the metropolitan New York area.

(3) Any report or application which you are required to submit under the foregoing instructions must be accompanied by a statement that you are submitting such report or application for sales of items governed by this supplementary regulation.

(4) If you use the instructions of section 2.6 of CPR 135, apply paragraph (b) of that section to the sweet goods items for which you have established your ceiling price under paragraph (b) (1) of section 4 of this supplementary regulation. Apply paragraph (c) of section 2.6 of CPR 135 to the sweet goods items for which you have established your ceiling prices under paragraph (c) (2), (c) (3) or (c) (4) of section 4 of this supplementary regulation or for which you have made adjustments in net weight.

(5) Wherever in section 2.7–2.10 of CPR 135 reference is made to section 2.1 of the same regulation, substitute section 4 (b) (1) of this supplementary regulation.

(6) You must also specify the section of Ceiling Price Regulation 135 you used in making your calculations and in filing your report or application.

SEC. 6. *General applicability of Ceiling Price Regulation 135.* All provisions of Ceiling Price Regulation 135 which are not inconsistent with the provisions of this supplementary regulation remain in full force and effect under this regulation.

Effective date. This supplementary regulation to Ceiling Price Regulation 135 becomes effective June 24, 1952.

NOTE: The record-keeping and reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Director of Price Stabilization.

[Distribution Regulation 1, Revision 1, Amdt. 2]

DR 1—FAIR DISTRIBUTION OF LIVESTOCK AND MEAT

SLAUGHTER FOR FARMERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, delegation of authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 2 to Distribution Regulation 1, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment permits registration of new Class 2 slaughterers wishing to slaughter only for farmers who may have slaughtering done for them under sections 10 and 11 of Distribution Regulation 1, Revision 1.

Farmers qualifying under sections 10 or 11 of the regulation may have livestock slaughtered for them by registered Class 1 and Class 2 slaughterers. There are a number of areas in which adequate facilities are not readily available to have such slaughter performed. In such places and elsewhere much farm slaughter has been done at the farmers' premises.

Permitting registration of sanitary establishments to slaughter for farmers only will promote the proper utilization of livestock and meat in a number of ways. It will permit sanitary slaughter for farmers, and thus will move farm slaughter operations from the farmers' barnyards to adequate slaughter facilities. Since in barnyard slaughter hides and offal are often lost and proper chilling facilities are usually not available, the change will permit more complete and hygienic utilization of meat and meat products resulting from slaughter. Under this change the number of commercial slaughterers will not be increased, since registrations granted under this new subsection will be limited to slaughter for farmers only.

At the same time, and without endangering the allocation of livestock and meat into normal trade channels, a number of rural businesses will be put into a more favorable economic condition, due to the source of new revenue in farm slaughtering fees.

Conclusions. The provisions of this amendment are necessary and appropriate to promote the national defense. They do not modify the policy of the Office of Price Stabilization to maintain the fair distribution of livestock and meat; that distribution continues as far as possible among the commercial processors who participated in the distribution pattern during the base period of distribution preceding the imposition of controls.

In formulating this amendment, the Director of Price Stabilization has not consulted with industry representatives. The amendment affects only a minute fraction of the nation's slaughterers. The affected slaughterers are scattered throughout the country; no panel of industry representatives could reasonably be constituted which could represent the views of this group. Therefore, the Director finds that special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

In the judgment of the Director, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title I of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Distribution Regulation 1, Revision 1, is amended in the following respects:

1. Section 15 is amended by re-designating section 15 (b) as section 15 (c) and inserting before it a new section 15 (b) to read as follows:

(b) You may be granted registration as a new Class 2 slaughterer of livestock for Class 3 slaughterers and persons authorized under section 11 of this regulation to have livestock slaughtered for them, on such conditions as the Director of Price Stabilization may deem necessary to further the policy of this revised regulation, if you submit a signed application stating:

(1) Your name and address (if you are a corporation, state the name and address of each person owning stock amounting to more than 10 percent of the total issued. If you are a partnership, state the name and address of each person with an interest of 10 percent or more in the partnership);

(2) That you will not slaughter livestock for anyone, including yourself, who is not authorized to have livestock slaughtered for him under Section 10 or 11 of this regulation; and

(3) A description of the sanitary facilities with which your plant is equipped. To be registered, your establishment must meet the sanitary requirements of section 15 (a).

If you are registered under the provisions of this section, you must submit to the Office of Price Stabilization District Office where you are registered, within ten days after the end of each calendar month, all statements furnished you during that month by Class 3 and Section 11 slaughterers pursuant to sections 10 (b) or 11 (b). Compliance with this requirement is a condition of continuing registration.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date: This amendment shall become effective on June 23, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[General Overriding Regulation 14, Amendment 17]

GOR 14—Exempted and Suspended Services

ARMORED CAR SERVICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 14 adds to the list of services exempted from ceiling price regulation the rates and charges of armored car companies for the transportation and guarding of money, securities and other valuables.

As stated in the statement of considerations accompanying General Overriding Regulation 14, the services exempted by it are those which the Congress has exempted or those which have little or no significance upon the cost of living, or which cannot practically be controlled. Armored car service is important to banks and others handling large sums of money, securities and other easily disposable valuables. However, in terms of cost it is a relatively insignificant item to them and it has virtually no effect upon the general level of prices or upon the cost of living. Furthermore, the principal value of the armored car service is found not in the transportation as such, but in the protective custody afforded during transportation. As a practical matter the purchaser of armored car service pays for the personal service of guards, the furnishing of which has already been exempted from price control by subparagraph (67) of section 3 (a) of GOR 14. Finally, this guard service and transportation is so highly individualized that there are no readily definable classes of purchasers or patterns of rates or charges upon which to establish or adjust ceiling prices. The administrative burden of attempting to maintain fair and equitable price control without such a pattern far outweighs the benefit to be derived from the maintenance of control. Accordingly these services are added to the list of exempted services in GOR 14.

Prior to the formulation of this amendment, consultation was had with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

It is the judgment of the Director that the exemption herein will not defeat or impair the stabilization program or the objectives of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended by adding at the end of paragraph (a) of section 3 a new subparagraph (103), as follows:

(103) Transportation by armored motor vehicles of money, securities and valuable articles and guarding services incident thereto.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment 17 to General Overriding Regulation 14 shall become effective June 24, 1952.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter B—Wage Stabilization Board

[General Wage Regulations 6 and 8, Revised, and Resolution 71, Interpretations]

Interpretations to General Wage Regulations 6 and 8, Revised, and Resolution 71

PIECE AND INCENTIVE RATES

Pursuant to the Defense Production Act of 1950 (64 Stat. 816, as amended by Pub. Law 96, 82d Cong., Executive Order 10161 (15 F. R. 6105), Executive Order 10233 (16 F. R. 3503), and General Order No. 3, Economic Stabilization Administrator (16 F. R. 739)), the following interpretations to General Wage Regulation 6 (16 F. R. 1951), General Wage Regulation 8, Revised (51 F. R. 12808), and Resolution No. 71 are hereby issued.

Nathan P. Feinsinger,
Chairman.

How You May Adjust Piece and Incentive Rates Without Prior Board Approval Under General Wage Regulations 6 and 8, Revised

This interpretation is intended to assist you in determining whether adjustments to employees paid on a piece rate, or other type of incentive wage system are permissible, on a self-administering basis, under the provisions of General Wage Regulations 6 and 8, Revised, and Resolution No. 71 of the Wage Stabilization Board. It contains illustrations and explanations of proper calculations in a variety of situations; only a few of which are likely to be necessary for your purposes. Paragraph headings indicate the particular type of problem covered in each paragraph.

All of the explanations and examples are based upon the simple principle (applicable to units which include piece or incentive employees) that you may raise your piece and base incentive rates by a direct application of the percentages permissible under Regulations 6 and 8, Revised, to such rates. As long as the increases are made on a uniform percentage basis to all rates, the problem is simple. The calculations become more complex, however, when non-uniform adjustments are involved; particularly where the appropriate unit includes both time and incentive employees. These problems are discussed below, and form the bulk of this interpretation.

(1) *Certain general principles.* (a) This interpretation relates solely to adjustments in the earnings of incentive workers resulting from general and cost-of-living increases. It is not intended to limit variations in earnings which result from increased productivity under the normal operation of an existing incentive system. Similarly, increases in earnings since the base pay period resulting solely from increased productivity do not have to be offset as general increases under General Wage Regulation 6.

(b) Employees paid on a piece rate or incentive basis may constitute a separate appropriate employee unit, or may be combined with employees paid on a time basis in a single appropriate employee unit, whichever is best adapted to preserve existing contractual or historical relationships.

(c) This interpretation refers only to general and cost-of-living increases. It is not intended to govern the establishment of rates for new or changed jobs or operations, or other adjustments governed by General Wage Regulation 15; nor does it apply to changes in an incentive system, as such. If the rates for new or changed jobs or operations since the base pay period were established in accordance with the principles of General Wage Regulation 15, general and cost-of-living increases permissible under General Wage Regulations 6 and 8 may be applied to such rates.

(d) The methods set forth below are not intended to exhaust proper ways of applying the increases permissible under General Wage Regulations 6 and 8. Persons desiring to increase their piece or incentive rates by methods which vary from those enumerated below should file a petition on Form WS-100 for prior Board approval.

(e) Wherever, in this interpretation, reference is made to payrolls, these are to be taken exclusive of any premium pay for overtime, but inclusive of the payment at straight time for all hours worked. (Thus, assume a total payroll of $1,050 for 1,000 hours of work of which 100 hours were paid at the overtime rate of time and one-half, or $1.50. The overtime premium pay which equals $50 (100 hours × 50 cents) shall be excluded from the payroll. In other words, the total payroll shall be given as $1,000 and hours of work as 1,000 hours.)

General Wage Regulation 6

(2) *Resolution No. 71.* Resolution No. 71, adopted by the Wage Stabilization Board on December 4, 1951, sets forth the standards for applying increases permissible under General Wage Regulation 6 to piece rates and to the base rates of incentive jobs. The Resolution, as interpreted herein, supersedes all prior inconsistent instructions and interpretations of the Wage Stabilization Board with respect to piece and incentive rates. (Par. 3, General Instructions, Use of Form WS-6a; Interpretation No. 6-27, I. B. 4; Nos. 6-69 and 6-73, I. B. 10.)

RAISING THE RATES

(3) *Uniform percentage application.* Resolution No. 71 is designed to permit the direct application of the ten percent in situations where piece or incentive employees are involved. Calculations under this Resolution are thus carried

in the form of percentages rather than cents per hour. Where piece work or incentive employees are involved, and it is desired to apply the appropriate percentage to their rates, you are not required to use the straight-time hourly earnings during the base pay period. Thus, if no general increases have been granted in the unit since the base pay period, and it is desired to apply the 10 percent uniformly to all jobs, each such piece rate or job rate can simply be increased by 10 percent.

(E. g., 10 cents per item to 11 cents per item, $2 per dozen pieces to $2.20 per dozen pieces; $1.50 per hour to $1.65 per hour.)

(4) *How to calculate the net effect of increases granted in varying percentages.* Under Resolution No. 71, the 10 percent may be applied to each rate (as described above), or the percentages applied to different jobs may vary, provided that the average increase does not exceed 10 percent as calculated below. You may not, however, apply a general increase to the piece rates applicable to a given job classification unequally, without prior Board approval.

(E. g., If you have "pressers" and "sewers" paid on a piece rate basis, you may increase all the "pressers" rates by a given percentage and all the "sewers" rates by a different percentage provided that the over-all increase for the unit does not exceed 10 percent. You may not, however, raise the "presser rate" for garment "A" by 5 percent and garment "B" by 15 percent, except with the prior approval of the Board.)

Where an increase is given in varying percentages as between jobs, the calculation of the net effect of such increases requires several computations. The following method shall be used for calculating the net effect of each general increase granted since January 15, 1950, or which is currently proposed:

(a) Choose the payroll of the unit for the period immediately preceding the date of the increase (e. g., $10,000).

(b) Recompute this payroll to include the particular increase. In other words, you calculate what the earnings during that same payroll period would have been if the new rates were in effect during that period (e. g., $10,200).

(c) Subtract the actual payroll "a" (exclusive of the increases) from the recomputed payroll "b" (including increases). This difference will represent the actual dollar and cent increase on the total payroll (e. g., $10,200—$10,000=$200).

(d) The ratio between this amount "c" and the actual payroll "a" will give the net effect of each wage increase expressed as a percentage

(E. g., $\frac{\$200}{\$10,000}=0.02$ or 2 percent)

(5) *How to determine the effect of past increases where more than one has been granted.* The calculation of the total effect of several past increases is based on compounding of prior percentages of increases into a single, combined percentage. To do this, first determine the percentage of each individual increase as shown in paragraphs (3) or (4) above. Write percentages of each increase as a decimal number (e. g., 2 percent should be written as 0.02). Then add 1.00 to each such figure (e. g., 1.02) and calculate the product of the resultant numbers (e. g., if there were two prior increases, one of 2 percent, the other of 3 percent, multiply $1.02\times1.03=1.0506$). The product so secured less 1.00 will give the total effect of past increases as a compounded percentage (e. g., 1.0506—1.00=0.0506 or 5.06 percent of increase).

(6) *How to determine the percentage that you may distribute.* To determine the percentage of increase which you may distribute without the Board's approval under General Wage Regulation 6 compute the ratio between 1.10 and the compounded percentage (expressed in decimal form) of past increase plus 1.00 as calculated in (5) above, and subtract 1.00 from such ratio.

(E. g., If past increases were 5.06 percent, the percentage of increase that can be given to the unit is $\frac{1.10}{1.0506}-1.00=0.047$ or 4.7 percent. That means that whatever proposed increases are made in all piece or base rates, the total effect of the proposed increase, as calculated in the manner described in (4) above, cannot exceed 4.7 percent).

(7) *The percentage side payments (paragraphs A (2) and B (2) of Resolution 71).* In certain circumstances it may be desirable to leave the piece rates or base rates unchanged, and to add the permissible percentage of increase to the earnings calculated on the basis of the rates in existence prior to the increase. Such a practice may be followed under Resolution No. 71 provided that the percentage is permissible in accordance with the calculations described above.

(E. g., If a 5-percent increase is permissible, and an employee earns $40 in one week on old piece or incentive rates, you may pay him an additional 5 percent of $40 during that week or $2.00, making his total earnings $42.00 for that week. If during the following week he earns $39 at old piece or incentive rates, you may pay him an additional 5 percent of $39 during that week or $1.85, making total earnings of $40.85 for that week.)

PAYING THE INCREASE AS A CENTS PER HOUR SIDE PAYMENT

(8) *Calculating the allowable cents per hour amount.* An employer and Union, if any, may determine to distribute the permissible increase under General Wage Regulation 6 to employees in the unit as a cents per hour side payment to be included in each regular pay envelope rather than to incorporate it into the piece rates or base rates of incentive jobs. In such case, the 10 percent allowance is based upon the total straight-time earnings, including incentive earnings, during the base pay period (the payroll period ending on or after January 15, 1950). Since all affected employees would receive the payment of this adjustment in the form of an hourly payment, and no adjustments in the piece or base rates are involved, the provisions of Resolution No. 71 would only become applicable if you desire to discontinue the payment in the manner described in paragraphs A (3) and B (3) of the Resolution, and paragraph (9) below.

An allowable cents per hour increase thus calculated (on the basis of total straight-time earnings, including incentive earnings in the base pay period) cannot be incorporated directly into the piece rates or base rates, unless done in accordance with paragraph (9) below, or with prior Board approval.

(9) *Discontinuing a cents per hour side payment and raising the rates.* If a permissible cents per hour increase instituted since the base pay period has been paid as a cents per hour side payment, it is permissible to discontinue such cents per hour side payment, to ignore such increase for offsetting purposes under General Wage Regulation 6 and to make a direct application of the permissible percentage to the piece rates or base rates. The permissible percentage should be calculated in the same manner as described in paragraphs (3)–(6) above (ignoring side payments to be discontinued).

(E. g., on April 1, 1951, a 15 cents per hour increase was granted under General Wage Regulation 6, which was paid as a cents per hour side payment. Last week pieceworkers earned an average of $60 on piece rates, plus an additional increment of $6 representing 15 cents per hour for 40 hours of work. If it is desired, you may now discontinue the 15 cents per hour side payment, and raise the piece rates by ten percent, so that the average earnings for last week's payroll under the new piece rates would still be $66).

WHERE THE APPROPRIATE EMPLOYEE UNIT INCLUDES BOTH TIME AND INCENTIVE EMPLOYEES

The examples described above have all related to a unit containing only piece or incentive workers. As indicated in paragraph 1 (b), however, it may have been the practice to treat these employees as being in the same employee unit as employees paid on a time basis. Where such is the case, it is permissible to apply the principles of Resolution No. 71 (increasing the rates on a percentage basis) to the entire unit. The following paragraphs are designed to illustrate the proper method of making the calculations under General Wage Regulation 6 and Resolution No. 71 in such situation.

(10) *How to determine the percentage which you may distribute to the unit as a whole (time and pieceworkers).* (a) The calculation of total effect of all past increases to all employees in the unit (both time and incentive) should be made in the same manner as described in paragraphs (3)–(5) above; the calculation of the permissible percentage for the entire unit in the same manner described in paragraph (6).

(b) If you are discontinuing a cents per hour side payment, the amount of such payment should not be included in the calculations.

(11) *How to determine whether a negotiated increase exceeds the percentage permissible for the unit as a whole—(a) Across the board percentagewise.* Under the authority of Resolution No. 71, you may apply the permissible percentage on an across the board basis to all rates, hourly job rates as well as piece or incentive base rates, where a unit is composed of both time and incentive employees. In such case the percentage applied should not exceed the amount determined in accordance with paragraph (10) above.

(b) *Where the increase is negotiated in cents per hour to time employees; and percentagewise to pieceworkers.* If such an increase is negotiated by the parties, the effect of the proposed increases over the entire unit should be calculated on the basis of the preceding payroll period in the same manner as heretofore described.

(E. g., suppose that the total payroll is $10,000 of which $4,500 was paid to time workers and $5,500 to incentive or piece workers. If the time workers are to receive an increase of 5 cents per hour and piece workers an increase of 4 percent, first calculate the total wage increase which each group will receive. In the case of time workers, the total increase would equal the amount of hourly increase, or 5 cents, multiplied by the number of hours they worked during that preceding week; if the total hours amounted to 3,000, the total increase to time workers would then be $3{,}000 \times \$0.05 = \$150$. In the case of piece or incentive workers the increase would be equal to 4 percent of their payroll, i. e., 4 percent of $5,500 or $220. The total increase to all workers would then be the total of increases to the two groups ($150 plus $220 equals $370). The total effect of the increase is a ratio of $370 to the payroll before the increase or $\frac{\$370.00}{\$10{,}000.00} = 0.0370$ or 3.70 percent.)

If this percentage does not exceed the percentage calculated in paragraph (10) above, the proposed wage increases may be paid without the Board's approval.

(c) *Where the increase is negotiated in cents per hour to all employees (including pieceworkers) to be incorporated into the piece or base rates.* If you negotiate your increase in terms of cents per hour for everybody in the unit and you want to incorporate the increase into the piece rates or base rates of incentive employees, you must make two calculations: First, to determine whether the increase exceeds the permissible percentage for the unit as a whole; second, to determine the percentage by which the piece rates or base rates are to be raised. The first problem is considered here; the second in paragraph (12) below.

(E. g., assume the facts in subparagraph (b) above, a total payroll of $10,000; $4,500 to time and $5,500 to pieceworkers. If the total hours worked by time workers was 3,000, and the total hours worked by pieceworkers was 2,750, the total payroll with the proposed 5 cents per hour increase would be $10,000 plus $287.50 or $10,287.50.)

The ratio of the total payroll increase ($287.50) to the total payroll for both groups ($10,000.00) will give you the total effect of the increase for the entire unit, which figure may not exceed the percentage determined in paragraph 10 above

(E. g., $\frac{\$287.50}{\$10{,}000.00} = 2.875$ percent)

(12) *How to determine the percentage by which piece or base rates are to be raised.* In the example under paragraph 11 (c) the increase was negotiated in terms of cents per hour for all workers in the unit, including incentive workers; and we indicated the method to use in determining whether the negotiated amount (expressed as a percentage) exceeded the permissible percentage for the unit as a whole and could be put into effect under Resolution No. 71 without prior Board approval. Having determined that the increase is permissible, it is necessary to convert the cents per hour amount into a percentage to be applied to the piece rates, or base rates, as the case may be. The calculation of such percentage is made as follows:

(a) Calculate the total dollars and cents increase negotiated for incentive employees only based upon the hours worked in the preceding payroll period in the same manner described above (e. g., 5¢ per hour times 2,750 hours equals $137.50).

(b) Calculate a ratio between the total amount of the increase ($137.50), and the payroll of the incentive employees before the increase ($5,500).

(E. g., $\frac{\$137.50}{\$5{,}500} = 2.5$ percent)

This percentage (2.5 percent) represents the increase which may be incorporated into the piece or base rates under the example used in paragraph 11 (c).

(13) *The same method of calculation applies where you wish to discontinue a cents per hour side payment and raise the rates.* If you wish to raise the piece or base rates by a percentage equivalent to the side payment to be discontinued, you calculate a ratio between the total amount of the side payment during the preceding payroll period, and the total payroll of piece or incentive employees during that same period (exclusive, however, of the side payment).

(E. g., if the total payroll of incentive employees was $5,500, and the total side payment to such employees was $250, the percentage equivalent would be $\frac{\$250}{\$5{,}250}$ or 4.76 percent).

The piece or base rates may, therefore, be increased by 4.76%, provided that the effect of the increase for the unit as a whole does not exceed the permissible percentage as calculated in the manner described in paragraph (10) above. To determine the effect of the increase over the entire unit you calculate a ratio between the total increase to be made ($250) and the total payroll for the entire unit (but exclusive of the side payment $10,000 − $250 = $9,750).

(E. g., $\frac{\$250}{\$9{,}750} = 2.56$ percent)

(14) Examples 10–13 all speak in terms of applying a given percentage to the piece or base rates. Actually these adjustments may be made on a nonuniform basis, subject to the limitations discussed above. If it is desired to make such nonuniform adjustments, the calculation of whether the effect of the increases exceeds the permissible percentage should be made in the same manner as described in paragraph 4 above.

GENERAL WAGE REGULATION 8, REVISED

RAISING THE RATES

(15) When a cost-of-living increase is to be made in accordance with the provisions of General Wage Regulation 8, Revised, you may apply the increase on an across-the-board percentage basis so that each piece rate or base rate reflects a percentage increase equal to the percentage change in the index since the index base date.

(E. g., a base rate which was $1.00 on the base date may be raised to $1.02 when the index rises 2 percent above the base index. If another subsequent change brings the index up to 3 percent above the base index, the rate may be increased to $1.03.)

(16) Where it is desired to grant the remaining percentage allowable under General Wage Regulation 6 at the same time as an increase under General Wage Regulation 8, Revised, the allowable percentages under each of these regulations may be combined by compounding these percentages.

(E. g., if 2 percent is still allowable under General Wage Regulation 6, and 2.8 percent is allowable under General Wage Regulation 8, Revised, the allowable percentage would be calculated by multiplying 1.02 by 1.028 and subtracting 1.00 from the product (e. g., $(1.02 \times 1.028) - 1.00 = 1.04856 - 1.00 = 0.04856$, or 4.856 percent).)

(17) You may also apply the cost-of-living increase to the hourly base rates of incentive jobs on an across-the-board cents per hour amount basis. In such case the effect of such increase cannot exceed the percentage change in the index since the index base date. The effect of such increase is determined by comparing the payrolls with and without the increase in the same manner as described in paragraph (4) above. If prior cost-of-living increases have been made under General Wage Regulation 8, Revised, the computations should conform to paragraphs (5) and (6) also.

(18) It should be noted that the method described in paragraphs (15), (16) and (17) may not, under certain circumstances allow an incorporation of the adjustment into the piece or base rates in the manner described in Example No. 5 under the answer to Question No. 9, on page 8, Questions and Answers under General Wage Regulation 8, Revised. That answer is hereby withdrawn, and adjustments hereinafter instituted must conform to the method set forth above.

(19) *Percentage side payment.* Instead of actually adjusting the individual piece or base rates, the percentage increase may be distributed as a separate item on the payroll calculated by applying the permissible percentage to the incentive earnings during each pay period.

(20) *Cents per hour side payment.* You may also pay the cost-of-living adjustment as an hourly side payment, and not incorporate it into the piece or base rates. In such case the calculation of the hourly amount to be distributed should be made in accordance with the Questions and Answers to General Wage Regulation 8, Revised. If and when it is desired to change the method of paying this cost-of-living increase from a side hourly payment and to incorporate it into the piece or base rate, the hourly side payment may be discontinued and the piece or base rates raised in accordance with paragraphs (15), (16) and (17) above.

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

LIST, FOR INFORMATION ONLY, OF TREATIES, AGREEMENTS AND ARRANGEMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of June 1952;

The Commission having under consideration the Appendix to Part 2 of its rules and regulations; and

It appearing, that the proposed changes are not substantive and do not in any way affect the requirements of any of the Commission's rules and regulations, that said changes consist of the addition and deletion of information;

It is ordered, That, effective immediately, Appendix A to Part 2 of the Commission's rules and regulations is amended as set forth below.

PART 9—AERONAUTICAL SERVICES

ELIGIBILITY OF LICENSEE

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of June 1952;

The Commission having under consideration the matter of amending § 9.612 of its rules and regulations governing Aeronautical Services to permit subsidiaries of manufacturers of aircraft or major aircraft components to be licensees of flight test stations; and

It appearing, that a subsidiary corporation, even though it specializes in communications, is precluded under § 9.612 from obtaining a license for a flight test station and performing such communication service for its parent company unless the subsidiary itself manufactures either aircraft or major aircraft components; and

It further appearing, that the said § 9.612 should be amended in a manner which would make eligible for a flight test station license either a parent corporation or its subsidiary if either corporation is engaged in the manufacture of aircraft or major aircraft components; and

It further appearing, that a change of this nature would expedite the employment of flight test radio in the production of material essential to national defense and, therefore, a public rule making proceeding thereon would be contrary to the public interest, and that for the same reason and since it relieves a restriction this amendment should be made effective immediately;

It further appearing, that the authority for this amendment is contained in sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended;

It is ordered, That, effective immediately § 9.612 of the Commission's rules and regulations governing Aeronautical Services is amended to read as follows:

§ 9.612 *Eligibility of licensee.* A flight test station license may be granted only for use by either,

(1) Manufacturers of aircraft or major aircraft components, or

(2) A parent corporation or its subsidiary if either corporation is a manufacturer of aircraft or major aircraft components.

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42, 45, 61]

ADMINISTRATOR

DELEGATION OF AUTHORITY TO PERMIT AIR CARRIERS UNDER CONTRACT TO MILITARY SERVICES TO DEVIATE FROM CERTAIN PARTS OF CIVIL AIR REGULATIONS

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board an extension of the authority granted by Special Regulation SR-367 as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention: Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by July 10, 1952. Copies of such communications will be available after July 14, 1952, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Some time ago the Air Transport Association (ATA) on behalf of several scheduled air carriers under contract to the military services requested that authority be granted to such carriers to permit them to deviate from certain provisions of Parts 40, 41, 42, 45, and 61 of the Civil Air Regulations, under which they were then required to operate, in order to permit such carriers to accomplish expeditiously the mission assigned them by the military services. ATA stated that, in view of the type of operations that these carriers had been requested to perform, certain provisions of those parts imposed an undue burden upon the air carriers involved. It appeared that several difficulties encountered in complying with current regulations resulted from the fact that some of the air carriers were acting in the capacity of prime contractors with the military services, while others were acting as subcontractors and were merely furnishing aircraft and/or flight crews to another air carrier for use in operations conducted pursuant to the military contracts. It should be noted that Parts 40, 41, 42, 45, and 61 were designed to be applicable to scheduled and irregular

air carrier operations performed under normal operating conditions. The Board believed that the type of operation which air carriers were expected to perform in executing their obligations under military contracts was a specialized type of operation different in many respects from the normal type of air carrier operation envisaged by the then current Civil Air Regulations relating to air carrier operations. For those reasons, the Board, on July 28, 1950, adopted Special Civil Air Regulations SR–349 which delegated authority to the Administrator to permit air carriers under contract to the military services to deviate from certain parts of the Civil Air Regulations in performing such contracts, such authority to terminate on August 1, 1951. This authority was extended to August 1, 1952, by SR–367.

Since the military requirements, as a result of which Special Civil Air Regulations SR–349 and SR–367 were promulgated, continue to exist, and since no serious objection to the regulation has been raised during nearly 2 years of operations under it, the Board believes the Civil Air Regulations applicable to air carriers should continue to be adjusted to the type of operation to be conducted under military contracts to the extent that the Administrator finds that deviation from those regulations is necessary or desirable for the expeditious conduct of such operations. Accordingly, the Board concludes that the provisions of SR–367 should be immediately extended for one year to maintain the delegated authority in the Administrator without lapse.

The Board considers it necessary to continue to limit the operations conducted pursuant to any deviation granted by the Administrator to those operations conducted pursuant to military contracts and to require that all operations conducted in accordance with such deviations be conducted in accordance with such terms and conditions as the Administrator may prescribe in granting the deviation. It is anticipated that the Administrator will continue, as part of the procedure in issuing a deviation of major importance, to coordinate his decision with the Board and the appropriate military authorities.

Accordingly, it is proposed to extend the authorization granted by Special Regulation SR–367 to August 1, 1953, as follows:

1. Contrary provisions of the Civil Air Regulations notwithstanding, the Administrator may, upon application by an air carrier, authorize an air carrier under contract to the military services, or an air carrier furnishing civil aircraft and/or flight crews to another air carrier for use in operations conducted pursuant to a contract with the military services, to deviate from the applicable provisions of Parts 40, 41, 42, 45, and 61 to the extent that he finds upon investigation a deviation from those regulations is necessary or desirable for the expeditious conduct of such operations.

2. Any authority granted by the Administrator pursuant to this regulation shall be limited to those operations conducted pursuant to military contracts and shall not be applicable to any other type of operation.

3. The Administrator shall, in any authorization granted pursuant to this regulation, specify the terms and conditions under which the air carrier may deviate from the currently prescribed regulations, and each carrier shall, in the conduct of operations pursuant to military contracts, comply with such terms and conditions.

This regulation shall terminate August 1, 1953, unless sooner superseded or rescinded.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560)

Dated: June 19, 1952, at Washington, D. C.

By the Bureau of Safety Regulation.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 13]

[Docket No. 10217]

COMMERCIAL RADIO OPERATORS

OPERATING AUTHORITY

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. A proposed amendment to Part 13 of the Commission's rules is set forth below. This amendment relates to the grade of operator required at certain coast stations. If the change in § 13.61 of the rules governing Commercial Radio Operators is adopted as proposed, persons holding restricted radiotelephone operator permits would be authorized to engage in the normal operation of certain VHF coast stations.

3. This amendment is issued under authority of sections 4 (i), 303 (l) and 303 (r) of the Communications Act of 1934, as amended.

4. Any interested party who is of the opinion that the proposed rules should not be adopted in the form set forth herein may file with the Commission on or before August 11, 1952, a written statement or brief, setting forth his comments. At the same time, any person who favors the Rules as set forth may file a statement in support thereof. The Commission will consider all comments, briefs and statements presented before taking final action in the matter. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given such interested parties.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: June 11, 1952.

Released: June 11, 1952.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE, *Secretary.*

Section 13.61 (h) of the rules governing Commercial Radio Operators is proposed to be amended to read as follows:

§ 13.61 *Operating authority.* • • •

(h) *Restricted radiotelephone operator permit.* Any station except:

(1) Stations transmitting television, or

(2) Stations transmitting telegraphy by any type of the Morse Code, or

(3) Any of the various classes of broadcast stations other than remote pickup and ST broadcast stations, or

(4) Ship stations licensed to use telephony for communication with Class I coast stations on frequencies between 4000 kc and 30 Mc, or

(5) Public coast stations other than in the territory of Alaska licensed to operate on any frequency designated by the Commission primarily for distress, safety or calling purposes, or

(6) Coast stations other than in the territory of Alaska while employing a frequency below 30 Mc, or

(7) Coast stations at which the power in the antenna of the unmodulated carrier wave is authorized to exceed 250 watts;

(8) At a ship radar station the holder of this class of license may not supervise or be responsible for the performance of any adjustments or tests during or coincident with the installation, servicing or maintenance of the radar equipment while it is radiating energy: *Provided*, That nothing in this subparagraph shall be construed to prevent any person holding such a license from making replacements of fuses or of receiving type tubes;

Provided, That, with respect to any station which the holder of this class of license may operate, such operator is prohibited from making any adjustments that may result in improper transmitter operation, the equipment is so designed that the stability of the frequencies of the transmitter is maintained by the transmitter itself within the limits of tolerance specified by the station license, and none of the operations necessary to be performed during the course of normal rendition of the service of the station may cause off-frequency operation or result in any unauthorized radiation, and any needed adjustments of the transmitter that may affect the proper operation of the station are regularly made by or under the immediate supervision and responsibility of a person holding a first- or second-class commercial radio operator license, either radiotelephone or radiotelegraph as may be appropriate for the class of station involved, who shall be responsible for the proper functioning of the station equipment.

ALASKA

AIR NAVIGATION SITE WITHDRAWAL NO. 100; REVOCATION

JUNE 17, 1952.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 2.22 (a) (2) of Delegation Order No. 427, of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Air Navigation Site Withdrawal No. 100, dated October 14, 1935, as amended June 14, 1939, covering a tract of unsurveyed land described by metes and bounds, containing approximately 32.14 acres, near Circle Hot Springs, Alaska, is hereby revoked, effective as of the date of this order.

The lands released from Air Navigation Site Withdrawal No. 100, by this order are included in the application of the Division of Aeronautics, Territory of Alaska, Fairbanks 09328, under section 16 of the Federal Airport Act of May 13, 1946 (60 Stat. 179; 49 U. S. C. 1115), for the development of the Circle Hot Springs Airport and therefore not subject to other disposal.

SPENCER LIVE STOCK EXCHANGE

DEPOSTING OF STOCKYARD

It has been ascertained that the Spencer Live Stock Exchange, Spencer, West Virginia, originally posted on August 12, 1937, as being subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act. The owner of such stockyard has ceased operating a public market at the place at Spencer, West Virginia, originally posted and is now operating a public market at a new location at Spencer, West Virginia. Therefore, notice is given to the owner of such stockyard and to the public that the stockyard originally posted on August 12, 1937, is no longer subject to the provisions of the Packers and Stockyards Act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which is no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 19th day of June 1952.

[Delegation of Authority 60, Supplement 1]

DIRECTOR OF THE REGIONAL OFFICE REGION II, NEW YORK, N. Y.

DELEGATION OF AUTHORITY TO ACT UNDER CPR 135, SUPPLEMENTARY REGULATION 1—SALES OF BAKERY ITEMS TO EATING AND DRINKING ESTABLISHMENTS LOCATED IN THE METROPOLITAN NEW YORK AREA

By virtue of the authority vested in me as Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Supplement 1 to Delegation of Authority 60 is hereby issued.

1. Authority is hereby delegated to the Director of the Regional Office, Region II, Office of Price Stabilization:

(a) To receive reports under section 2 (c) of Ceiling Price Regulation 135, Supplementary Regulation 1.

(b) To fix ceiling prices upon application under paragraph (c) (4) of section 4 of Ceiling Price Regulation 135, Supplementary Regulation 1.

(c) To adjust ceiling prices under section 5 of Ceiling Price Regulation 135, Supplementary Regulation 1.

2. The authority hereby delegated may be redelegated to the Directors of the District Offices, Region II, Office of Price Stabilization.

3. All authority heretofore delegated by Delegation of Authority 60 under provisions of Ceiling Price Regulation 135 which are not inconsistent with the provisions of Ceiling Price Regulation 135, Supplementary Regulation 1, continue to apply under this Supplement 1 to Delegation of Authority 60. This includes the authority to:

(a) Request further information concerning any ceiling price reported pursuant to the provisions of Ceiling Price Regulation 135, Supplementary Regulation 1, or concerning any application for a ceiling price made pursuant to the provisions of Ceiling Price Regulation 135, Supplementary Regulation 1.

(b) Disapprove or reduce, at any time, ceiling prices determined, reported, or proposed under Ceiling Price Regulation 135, Supplementary Regulation 1.

This delegation of authority shall take effect on June 24, 1952.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10218]

WILLIAM C. MOSS (KSEY)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of William C. Moss (KSEY), Seymour, Texas, for modification of license; Docket No. 10218, File No. BML-1473.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of June 1952;

The Commission having under consideration the above-entitled application requesting a modification of license to increase power from 100 w to 250 w, unlimited time on 1230 kc at Station KSEY, Seymour, Texas.

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station KSEY as proposed, but that the application may involve interference with one or more existing stations.

It is ordered, That, pursuant to Section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing at a time and place to be specified by subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KSEY as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of Station KSEY as proposed would involve objectionable interference with Stations KPAT, Pampa, Texas, KWTX, Waco, Texas, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the operation of Station KSEY as proposed would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether the installation and operation of Station KSEY as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That J. C. Daniels, licensee of Station KPAT, Pampa, Texas, and KWTX Broadcasting Company, licensee of Station KWTX, Waco, Texas, are made parties to this proceeding.

FEDERAL POWER COMMISSION

[Docket No. E-6438]

VIRGINIA ELECTRIC AND POWER CO.

NOTICE OF APPLICATION

JUNE 18, 1952.

Take notice that on June 16, 1952, an application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by Virgina Electric and Power Company (hereinafter called "Virginia Company"), a corporation organized under the laws of the State of Virginia and doing business in the States of Virginia, West Virginia, and North Carolinia, with its principal business office at Richmond, Virginia, seeking an order authorizing the acquisition, by purchase, of the outstanding shares of Capital Stock of Hydro-Electric Corporation of Virginia (hereinafter called "Hydro Corporation"). Virginia Company proposes to purchase the outstanding shares of Capital Stock of Hydro Corporation, consisting of 1,500 shares of Preferred Stock, and 4,000 shares of Common Stock. Virginia Company proposes immediately thereafter to cause the dissolution of Hydro Corporation and its subsidiary, Meadow Creek Corporation, and to assume the liabilities of Hydro Corporation and Meadow Creek Corporation; the consideration for the Preferred and Common Stock of Hydro Corporation to be acquired, the application states, is $550,000 in cash. Virginia Company proposes to acquire and consolidate the assets of Hydro Corporation. The principal asset of Hydro Corporation is a 7,500 kw hydro station (Cushaw), on the James River, near Snowden, Virginia; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 7th day of July 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission and available for public inspection.

BONNEVILLE PROJECT, COLUMBIA RIVER, OREGON-WASHINGTON

NOTICE OF REQUEST FOR CONFIRMATION AND APPROVAL OF REVISION OF GENERAL RATE SCHEDULE PROVISIONS

JUNE 18, 1952.

Notice is hereby given that the Administrator of the Bonneville Project has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, a proposed revision of § 2.2 in its General Rate Schedule Provisions applicable to the sale of wholesale power.

The proposed § 2.2, defining measured demand provides that:

Except where deliveries are scheduled as hereinafter provided, the purchaser's measured demand for any class of power, for any point of delivery, and for any period, shall be the largest of the thirty-minute integrated demands at which such class of power is delivered to the purchaser at such point during such period.

If the contractual arrangements provide for the delivery of more than one class of power to the purchaser at any point of delivery, the total thirty-minute integrated demands at such point will be determined from measurements as specified in the contract, or estimated where metering or other data are not available for such determination. The portion of each of such demands assignable to each class of power will be determined according to the terms of the contract.

If the flow of electric energy to the purchaser at any point or points of delivery cannot be adequately controlled because the purchaser's system is interconnected with one or more systems which are also interconnected with the Government's system, the purchaser's measured demand for each class of power, for such point or points, and for any period, shall be the largest of the hourly amounts of such class of power which are scheduled for delivery to the purchaser at such point or points during such period.

Any person desiring to comment or to make representations with respect to the foregoing should submit the same on or before July 18, 1952, to the Federal Power Commission, Washington 25, D. C.

SCRAP LEATHER FROM HUNTSVILLE, ALA., TO CARROLLVILLE, WIS.

APPLICATION FOR RELIEF

JUNE 20, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. W. Boin's tariff I. C. C. No. A-816.

Commodities involved: Scrap leather, having value only for fertilizer purposes, carloads.

From: Huntsville, Ala.

To: Carrollville, Wis.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-816, Supp. 78.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[No. 31050]

SO. PAC.-MO. PAC. INCREASED PASSENGER FARES

NOTICE OF HEARING

JUNE 19, 1952.

By petition dated April 30, 1952, the common carriers operating within western territory, listed in the appendix set forth below, request this Commission to authorize them to increase their interstate basic passenger fares for transportation in coaches and in sleeping and parlor cars as follows:

1. Increase the basic one-way fares for transportation in sleeping and parlor cars by 10 percent. The basic fare so increased will approximate 3.85 cents a mile.

2. Increase the basic one-way fares for transportation in coaches by 10 percent. The basic fare so increased will approximate 2.75 cents a mile.

3. Dispose of fractions with respect to one-way fares as follows: when total increased fares result in a fraction of a cent, fractions of less than 0.5 cent shall be dropped, and fractions of 0.5 cent or greater shall be increased to the next whole cent.

4. Increase the minimum one-way fare (now 15 cents) to 20 cents.

5. File and publish the increased one-way fares herein sought on short notice, to-wit, five days, by simple form of tariff publication.

6. If petitioners are authorized to increase their basic one-way fares as herein sought, they seek authority to publish on short notice:

(a) Round-trip station-to-station fares for transportation in standard sleeping and parlor cars of 166⅔ percent of the proposed one-way fare of 3.85 cents a mile.

(b) Round-trip station-to-station fares for transportation in coaches of 180 percent of the proposed one-way fare of 2.75 cents a mile.

7. Increase interline fares between stations on the lines of petitioners, on the one hand, and stations on the lines of connecting railroads, on the other hand, to the extent necessary to reflect the increases herein sought on the lines of petitioners.

8. Increase excess baggage charges by applying the present excess baggage scale to the increased one-way basic fares for transportation in sleeping and parlor cars.

The Commission is asked to modify its orders of December 6, 1920, in No. 11775, Arkansas Rates and Fares, 59 I. C. C. 471, of January 27, 1951, in No. 11809, Nebraska Rates, Fares, and Charges, 69 I. C. C. 644, and of December 18, 1942, in No. 28846, Increases in Texas Rates, Fares, and Charges, 253 I. C. C. 723, so as to authorize petitioners to establish increases in their intrastate fares and charges within the States of Arkansas, Nebraska, and Texas, corresponding to the increases sought herein in their interstate fares and charges, or such increases as may be authorized, and such other relief under section 13 of the Interstate Commerce Act as may be necessary to enable petitioners to make effective in those States the rates proposed in their petition.

The Commission is further asked to grant such relief from the provisions of section 4 of the Interstate Commerce Act as may be necessary to permit the establishment and maintenance of the increased fares, and to modify all outstanding orders to the extent necessary to permit them to be made effective.

This petition has been docketed as No. 31050, So. Pac.-Mo. Pac. Increased Passenger Fares and is assigned for public hearing July 16, 1952, 9:30 a. m., U. S. standard time (or 9:30 a. m., local daylight saving time, if that time is observed) at the Mark Twain Hotel, St. Louis, Mo., before Hearing Examiner Aubrey T. Palmer.

A copy of this notice has, on the date hereof, been sent by regular mail to the said petitioners, the Governors and the rate regulatory authorities of the States traversed by petitioners, and at the same time copies have also been deposited in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of the Federal Register, Washington, D. C.

By the Commission.

NORTHERN NATURAL GAS CO. AND PEOPLES NATURAL GAS CO.

ORDER PERMITTING WITHDRAWAL OF APPLICATION FILED

JUNE 19, 1952.

Northern Natural Gas Company ("Northern"), a public utility holding company, having filed on September 25, 1950, an application, and amendments thereto, pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935 ("act") for an order exempting it and its subsidiary company from the provisions of said act; and

Northern, on June 6, 1952, having notified the Commission that on June 2, 1952, its public utility subsidiary, Peoples Natural Gas Company, was liquidated and dissolved and that Northern no longer has any subsidiary companies which are public utility companies within the meaning of said act; and

Northern having requested permission to withdraw the aforesaid application filed pursuant to section 3 (a) (3) of the act; and

It appearing that Northern is no longer a public utility holding company and that its application for exemption has become moot, and the Commission deeming it appropriate to grant the aforesaid request of Northern:

It is ordered, That the request of Northern to withdraw its pending application filed pursuant to section 3 (a) (3) of the act be, and the same hereby is, granted.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

JUNE 19, 1952.

Notice is hereby given that Arthur Tarbet, Trustee of the C. A. Leonard Trust, has filed an application with this Commission requesting exemption on behalf of himself, as Trustee, and the Trust from the provisions of the Public Utility Holding Company Act of 1935 pursuant to section 3 (a) (1) of the act.

Notice is further given that any interested person may, not later than July 11, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request and the issues, if any, of fact or law raised by said application proposed to be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. Said application may be granted at any time after July 11, 1952.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the facts contained therein, which are summarized as follows:

Applicant is the trustee of the C. A. Leonard Trust which was created under the will of the late C. A. Leonard. Applicant maintains his office in Blackwell, Oklahoma, and the business of the Trust is carried on in the State of Oklahoma. The Trust is engaged in the production and sale of oil, the production, purchase and sale of natural gas at retail, and the ownership of two farms. During the 12 months ended April 30, 1952, gross income of the Trust amounted to $78,610 from the sale of oil and $17,664 from the sale of natural gas. NORTHERN NATURAL GAS CO. ET AL

ORDER DECLARING THAT COMPANY HAS CEASED TO BE HOLDING COMPANY

JUNE 19, 1952.

In the matter of Northern Natural Gas Company, Peoples Natural Gas Company, File No. 70-2823; Northern Natural Gas Company, File No. 30-169.

The Commission having heretofore, after public hearings held with respect thereto, adopted and published its findings and opinion and order dated May 20, 1952 (Holding Company Act Release No. 11260), with respect to the acquisition by Northern Natural Gas Company ("Northern"), a registered holding company, of all the assets and the assumption of all the liabilities of Peoples Natural Gas Company ("Peoples"); Northern having also in connection therewith requested that the Commission find and declare, pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935, that Northern has ceased to be a holding company;

In connection with the aforesaid findings and opinion, the Commission having stated, among other things, that it appeared to it that upon the consummation of the proposed transactions such an order under section 5 (d) of the act would be appropriate upon the renewal by Northern of its request; Northern now having renewed this request and in connection therewith stating that as at the close of business on May 31, 1952, Northern acquired the assets and assumed the liabilities of Peoples, the only public utility subsidiary of Northern, that Northern transferred to Peoples all the latter's issued and outstanding common stock which stock was thereupon canceled by Peoples, and that on June 2, 1952, Peoples was dissolved in accordance with section 39 of the General Corporation Law of the State of Delaware, the state of Peoples' incorporation; this filing further stating that on May 26, 1952 the Board of Directors of Northern resolved to recommend to Northern's stockholders that at the next meeting of such stockholders the Certificate of Incorporation of Northern be amended so as to require the affirmative vote of two-thirds of the outstanding voting stock to modify the provision therein relating to cumulative voting;

The Commission now finding that Northern has ceased to be a holding company:

It is ordered and declared, Pursuant to section 5 (d) of the act that Northern has ceased to be a holding company and subject to the following terms and conditions its registration under the act has ceased to be in effect:

(1) That at the first meeting of stockholders of Northern (or any adjournments thereof) following the date of this order, Northern submit to the stockholders for their approval and recommend the adoption of an amendment to the Certificate of Incorporation as described in the above mentioned resolution adopted May 26, 1952;

(2) That in connection with the solicitation of proxies for such first meeting (or any adjournments thereof) Northern shall not utilize any solicitation material unless, at least 10 days prior to the use thereof, Northern has submitted to this Commission a copy of said material and the Commission has notified Northern that it has no objection to the use of said material; and

(3) That Northern report promptly, after its occurrence, the result of the stockholders' vote on the proposed amendment to its Certificate of Incorporation.

It is further ordered, That this order shall become effective forthwith upon issuance.

("Columbia"), a registered holding company, and United Fuel Gas Company ("United Fuel"), a subsidiary company of Columbia, having filed a joint application-declaration and an amendment thereto with this Commission pursuant to sections 6 (b), 9, 10, and 12 (b) of the Public Utility Holding Company Act of 1935, and Rule U-45 promulgated thereunder, with respect to the following transactions:

Columbia will make a cash capital contribution to United Fuel in the amount of $3,000,000. Columbia will increase its investment in the common stock of United Fuel by $2,999,918.94 and will charge $81.06 (the amount of the contribution which is applicable to the minority interest) to operating expense. United Fuel proposes to credit $3,000,000 to its capital surplus.

United Fuel proposes to issue and sell, at par, to Columbia $10,800,000 principal amount of 3⅝ percent Installment Promissory Notes. These Notes will be registered and dated from the date of their issue. The principal amounts thereof will be due in equal annual installments on February 15 of each of the years 1954 through 1978. Interest will be payable semi-annually on February 15 and August 15.

The joint application-declaration states that such funds are required by United Fuel to finance its 1952 construction program and to purchase "cushion" gas in connection with its gas storage program. In this connection it is stated that in providing the funds to United Fuel, Columbia will first make capital contributions when and as funds are required by United Fuel up to a maximum amount of $3,000,000, and thereafter, if additional funds are required, Columbia will purchase 3⅝ Percent Installment Notes from United Fuel up to a maximum amount of $10,800,000. None of the proposed transactions will be consummated subsequent to March 31, 1953.

Columbia also proposes to make a capital contribution to United Fuel by forgiving $6,000,000 principal amount of 2¾ percent open account advances owing to Columbia and due June 1, 1952. Columbia proposes to increase its investment in the common stock of United Fuel by $5,999,837.88 and will charge $162.12 (the amount of the contribution which is applicable to the minority interest) to operating expense. United Fuel proposes to credit $6,000,000 to its capital surplus.

Appropriate notice of said joint application-declaration having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint application-declaration, as amended, within the period specified or otherwise, and not having ordered a hearing thereon; and

The Public Service Commission of West Virginia having issued an order authorizing the issuance and sale by United Fuel of its 3⅝ Percent Installment Notes; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

COLUMBIA GAS SYSTEM, INC., AND CENTRAL KENTUCKY NATURAL GAS CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK AND PROMISSORY NOTES BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT COMPANY

JUNE 19, 1952.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its subsidiary Central Kentucky Natural Gas Company ("Central Kentucky"), having filed a joint application and an amendment thereto with this Commission pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 with respect to the following proposed transactions:

Central Kentucky proposes to issue and sell and Columbia proposes to acquire, for $600,000 in cash, 24,000 shares of common stock, par value $25 per share. Central Kentucky also proposes to issue and sell and Columbia proposes to acquire $575,000 principal amount of 3⅝ Percent Installment Promissory Notes. Said Notes would be registered and the principal amounts thereof would be payable in twenty-five equal annual installments on February 15 of each of the years 1954 to 1978, inclusive. Interest on the unpaid principal amount thereof would be payable semi-annually on February 15 and August 15.

Columbia states that in providing Central Kentucky with $1,175,000 of new money, it would first purchase common stock, at par, when and as funds are required, up to a maximum amount of 24,000 shares. Thereafter, Columbia would purchase 3⅝ percent notes of Central Kentucky, as funds are needed, up to a maximum principal amount of $575,000. It is further stated that Central Kentucky would not issue or sell any such common stock or 3⅝ percent notes subsequent to March 31, 1953.

The joint applicants represent that the proceeds from the sale of the additional common stock and 3⅝ percent notes would be used by Central Kentucky for the purpose of financing its scheduled 1952 construction program.

Appropriate notice of said joint application having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint application, as amended, within the period specified or otherwise, and not having ordered a hearing thereon; and

The Public Service Commission of the Commonwealth of Kentucky having issued an order authorizing the proposed issuance and sale of the said common stock and notes by Central Kentucky; and

The Commission finding with respect to said joint application, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application, as amended, be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application, as amended, be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

COLUMBIA GAS SYSTEM, INC., AND OHIO FUEL GAS CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK AND INSTALLMENT PROMISSORY NOTES BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT COMPANY

JUNE 19, 1952.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its subsidiary the Ohio Fuel Gas Company ("Ohio Fuel"), having filed a joint application and an amendment thereto with the Commission pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 with respect to the following proposed transactions:

Ohio Fuel proposes to issue and sell and Columbia proposes to acquire 117,843 shares of common stock, par value $45 per share ($5,302,935) and a maximum of $14,697,065 principal amount of 3⅝ Percent Installment Promissory Notes. Ohio Fuel represents that the proceeds, in the amount of $20,000,000, to be derived from the sale of such securities, would be used to finance, in part, its 1952 construction program estimated to cost $20,764,543 and the purchase of "cushion" gas in connection with its gas storage program in the estimated amount of $1,600,000. Columbia proposes first to purchase common stock, at par, when and as funds are required, up to a maximum amount of 117,843 shares, and thereafter to purchase 3⅝ percent notes of Ohio Fuel, as funds are needed, up to a maximum principal amount of $14,697,065. It is further stated that Ohio Fuel would not issue or sell any such common stock or 3⅝ percent notes subsequent to March 31, 1953.

In addition, it is proposed that Ohio Fuel's outstanding 2¾ percent open account loans in the principal amount of $8,500,000, owing to Columbia and repayable on June 1, 1952, be funded into long-term securities. Ohio Fuel proposes to issue and Columbia proposes to acquire, at par, $8,500,000 principal amount of 3⅝ percent notes as payment and liquidation of the aforementioned open account loans.

The 3⅝ percent notes to be issued by Ohio Fuel would be registered and the principal amounts thereof would be payable in twenty-five equal annual installments on February 15 of each of the years 1954 to 1978, inclusive. Interest on the unpaid principal amount of said notes would be payable semiannually on February 15 and August 15.

Appropriate notice of said joint application having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint application, as amended, within the period specified or otherwise, and not having ordered a hearing thereon; and

The Public Utilities Commission of the State of Ohio having issued an order authorizing the proposed issuance and sale of the common stock and notes by Ohio Fuel; and

The Commission finding with respect to said joint application, as amended,

that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application, as amended, be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application, as amended, be, and the same hereby is granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

SOUTHERN CO. ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER RESULTS OF COMPETITIVE BIDDING FOR UNDERWRITING OF COMMON STOCK RIGHTS OFFERING AND OVER FEES AND EXPENSES

JUNE 19, 1952.

In the matter of the Southern Company, Alabama Power Company, Georgia Power Company, File No. 70-2863.

The Southern Company ("Southern"), a registered holding company, and two of its public utility subsidiary companies, Alabama Power Company and Georgia Power Company, having filed a joint application-declaration, with amendments thereto, proposing, among other things, to offer to its stockholders rights to subscribe for the purchase of 1,004,510 additional shares of its $5 par value common stock on the basis of one additional share for each sixteen shares of common stock now held, and also proposing to offer such shares as are not subscribed for by its stockholders to underwriters, pursuant to the competitive bidding requirements of Rule U-50, at the subscription price to be determined by Southern, the underwriters' bids to specify an aggregate amount of compensation to be paid for their commitments; and

The Commission by order dated June 4, 1952, having granted and permitted to become effective the joint application-declaration, as amended, subject to the condition, among others, that the proposed issuance and sale of common stock shall not be consummated until the results of the competitive bidding, pursuant to Rule U-50, shall have been made a matter of record in this proceeding and a further order shall have been entered with respect thereto, and jurisdiction having been reserved therein over the payment of fees and expenses to be incurred in connection with the proposed transactions; and

Southern, on June 19, 1952, having filed a further amendment to said joint application-declaration in which it is stated that Southern has designated a subscription price of $12.75 per share for the additional shares of its common stock, has invited bids, pursuant to Rule U-50, with respect to the compensation to be paid the underwriters for purchasing, at the subscription price of $12.75 per share, the common stock not taken by subscription and has received the following bids:

Bidding group headed by—	Amount of compensation		Aggregate net proceeds to company [1]
	Per share	Aggregate	
Lehman Bros	$0.097	$97,437.47	$12,[illegible]
The First Boston Corp	.115	115,538.65	12,[illegible]
Union Securities Corp. and Equitable Securities Corp	.1179	118,029.63	12,[illegible]
Morgan Stanley & Co	.1595	160,216.34	12,[illegible]
Kidder, Peabody & Co			
Merrill Lynch, Pierce, Fenner and Beane			

[1] After deducting amount of compensation bid only.

The amendment having further stated that Southern has accepted the bid of Lehman Brothers, as set forth above; and

The record having been completed with respect to the fees and expenses to be incurred in connection with the proposed transactions, which are estimated as set forth below:

Federal original issue tax	$9,240
Filing fee, Securities and Exchange Commission	1,492
Listing on New York Stock Exchange	2,500
Charges of transfer agent and registrar	28,000
Charges of subscription agent	109,000
Cost of stock certificates and warrants	11,520
Blue Sky expense	2,000
Mailing expense	23,000
Printing and preparation of Form U-1, registration statement, financial statements, prospectus, competitive bidding papers, letters to stockholders, etc	50,000
Fees of counsel	10,000
Expenses of counsel	200
Fees of accountants	5,050
Services of Southern Services, Inc	7,000
Miscellaneous	10,000
Total	269,002

It appearing that Southern requested various financial institutions to submit proposals with respect to their charges for acting as subscription agent in connection with the proposed issuance and sale of Common Stock, that five bids were received, and that Southern accepted the bid of Chemical Bank & Trust Company in the amount of $109,000; and

It further appearing that the proposed fee of Reid & Priest, counsel for the underwriters, which is to be paid by said underwriters, is $6,000; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be received for said stock, the compensation to be paid to the underwriters, or otherwise; and it appearing to the Commission that the fees and expenses are not unreasonable provided they do not exceed the amounts estimated, and it appearing appropriate to the Commission that the jurisdiction heretofore reserved over the subscription price per share, the results of competitive bidding, and over the fees and expenses incurred in connection with the proposed transactions be released;

It is ordered, That the joint application-declaration, as further amended, be granted and permitted to become effective forthwith, and that the jurisdiction heretofore reserved over the subscription price, the results of competitive bidding, and over the fees and expenses incurred in connection with the proposed transactions, be, and the same hereby is, released, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

AMERICAN GAS AND ELECTRIC CO.

SUPPLEMENTAL ORDER

JUNE 19, 1952.

American Gas and Electric Company ("American"), a registered holding company, having filed a declaration, and an amendment thereto, pursuant to the provisions of sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder wherein American proposed to issue and sell $20,000,000 principal amount of __ percent Sinking Fund Debentures due 1977 and 170,000 shares of $10 par value common stock; and

The Commission having, by order dated June 5, 1952, permitted said declaration, as amended, to become effective, subject to the condition, among other things, that the proposed issue and sale of said debentures and common stock not be consummated until the results of the competitive bidding had been made a matter of record in this proceeding, and a further order shall have been entered by this Commission in the light of the record so completed, and the Commission having also reserved jurisdiction over the payment of fees and expenses of all counsel; and

American having, on June 19, 1952, filed a further amendment to said declaration in which it is stated that it has offered such debentures and common stock for sale pursuant to the competitive bidding requirements of Rule U-50 and has received the following bids:

FOR THE DEBENTURES

Said amendment stating that American has accepted the bid of Halsey, Stuart & Co., Inc. for the debentures and the bid of The First Boston Corporation for the common stock, as set out above, and that the debentures will be offered for sale to the public at a price of 100.75 percent of the principal amount, resulting in an underwriters' spread of 0.55 percent of the principal amount, and that the common stock will be offered to the public at a price of $60.25 per share, resulting in an underwriters' spread of $1.687 per share; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the issue and sale of said debentures and common stock, and the underwriters' spreads and their allocations:

It is hereby ordered, That the jurisdiction heretofore reserved in connection with the issue and sale of said debentures and common stock be, and the same hereby is, released and the said declaration, as further amended, be, and the same hereby is, permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved over the payment of the fees and expenses of all counsel be, and the same hereby is, continued.

UNITED STATES TARIFF COMMISSION

[Investigation 4]

EDIBLE TREE NUTS

NOTICE OF HEARING

The United States Tariff Commission, on the 19th day of June 1952, ordered a public hearing in the above entitled investigation to be held on the 28th day of July 1952 at 10 a. m., e. d. s. t., in the Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D. C. The purpose of the hearing is to receive information and views from interested parties as to programs of the United States Department of Agriculture which will be in operation for the crop year 1952-53 with respect to almonds, filberts, walnuts, or pecans, and on the question as to what action, if any, should be taken under section 22 with respect to imports of almonds, filberts, walnuts, Brazil nuts, or cashews.

The Tariff Commission investigation relating to imports of almonds, filberts, walnuts, Brazil nuts, and cashews was instituted under section 22 of the Agricultural Adjustment Act on April 13, 1950. The Commission made an interim report on the investigation to the President on November 24, 1950. At that time the Commission found no basis for the imposition of restrictions under section 22 on imports of any of the commodities covered by the investigation. The investigation was continued, however, and, after a public hearing held in September 1951, the Commission made another report to the President. On December 10, 1951, the President issued a proclamation giving effect to the Commission's recommendation in the latter report. The proclamation imposed a fee, in addition to the duties imposed under the Tariff Act of 1930, of 10 cents per pound on imports of shelled almonds and blanched, roasted, or otherwise prepared or preserved almonds entered, or withdrawn from warehouse, for consumption during the period October 1, 1951 to September 30, 1952, inclusive, in excess of an aggregate quantity of 4,500,000 pounds and provided that, of the imports not subject to the additional fee, not more than 500,000 pounds might consist of blanched, roasted, or otherwise prepared or preserved almonds.

In the 1951 report the Commission advised the President that it was continuing the investigation and would keep in close touch with developments with respect to the Department of Agriculture's programs for tree nuts and of the marketing conditions for these commodities, and that it would report to the President regarding any later action which may be found to be necessary to carry out the purposes of section 22 of the Agricultural Adjustment Act, as amended.

Request to appear. Interested parties desiring to appear and to be heard at the public hearing should notify the Secretary of the Commission in writing at its offices in Washington, D. C., in advance of the date set for the hearing.

I hereby certify that the above hearing was ordered by the United States Tariff Commission on the 19th day of June 1952.

TARIFF COMMISSION

Investigation Regarding Imports of Almonds, Filberts, Walnuts, Brazil Nuts, and Cashews

Notice is hereby given that a public hearing in connection with the investigation instituted under section 22 of the Agricultural Adjustment Act, as amended, on April 13, 1950, will be held on the 28th day of July 1952 at 10 a. m., e. d. s. t., in the Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D. C. The purpose of the hearing is to receive information and views from interested parties as to programs of the United States Department of Agriculture which will be in operation for the crop year 1952–53 with respect to almonds, filberts, walnuts, or pecans, and on the question as to what action, if any, should be taken under section 22 with respect to imports of almonds, filberts, walnuts, Brazil nuts, or cashews.

The Tariff Commission investigation relating to imports of almonds, filberts, walnuts, Brazil nuts, and cashews was instituted under section 22 of the Agricultural Adjustment Act on April 13, 1950. The Commission made an interim report on the investigation to the President on November 24, 1950. At that time the Commission found no basis for the imposition of restrictions under section 22 on imports of any of the commodities covered by the investigation. The investigation was continued, however, and, after a public hearing held in September 1951, the Commission made another report to the President. On December 10, 1951, the President issued a proclamation giving effect to the Commission's recommendation in the latter report. The proclamation imposed a fee, in addition to the duties imposed under the Tariff Act of 1930, of 10 cents per pound on imports of shelled almonds and blanched, roasted, or otherwise prepared or preserved almonds entered, or withdrawn from warehouse, for consumption during the period October 1, 1951 to September 30, 1952, inclusive, in excess of an aggregate quantity of 4,500,000 pounds and provided that, of the imports not subject to the additional fee, not more than 500,000

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1952-CROP DRY EDIBLE BEAN LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1952-crop of dry edible beans. The 1952 C. C. C. Grain Price Support Bulletin 1 (17 F. R. 3521), issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1952, is supplemented as follows:

Sec.
601.1651 Purpose.
601.1652 Availability of price support.
601.1653 Eligible beans.
601.1654 Warehouse receipts.
601.1655 Determination of quantity.
601.1656 Determination of quality.
601.1657 Credit for loss or damage.
601.1658 Maturity of loans.
601.1659 Delivery of beans to CCC.
601.1660 Support rates.
601.1661 Storage in transit.
601.1662 Settlement.

AUTHORITY: §§ 601.1651 to 601.1662 issued under sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1053; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1447, 1421.

§ 601.1651 *Purpose.* This supplement states additional specific requirements which, together with the general requirements contained in the 1952 C. C. C. Grain Price Support Bulletin 1 (17 F. R. 3521), apply to loans and purchase agreements under the 1952-Crop Dry Edible Bean Price Support Program.

§ 601.1652 *Availability of price support*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and through purchase agreements. Farm-storage loans will not be available to cooperative marketing associations of producers.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever beans of the eligible classes are grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that beans cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support must be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1953, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* (1) An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing eligible beans in 1952 as landowner, landlord, tenant or sharecropper.

(2) A cooperative marketing association of producers shall be deemed to be an eligible producer for warehouse-storage loans and purchase agreements on any class of eligible beans produced by eligible producer-members, provided (i) all beans of such class marketed or acquired by the association are produced by producer members; (ii) the producer members are bound by contract to market their beans of such class through the association and the association does not release any such beans for the purpose of permitting producer members to ob-

tain individual price support loans or purchase agreements; (iii) the proceeds of the eligible beans marketed by the association are shared proportionately among the eligible producer-members according to the class, grade and quantity of such beans each delivers to the association; (iv) the association has authority to obtain a loan on the security of the beans and to give a lien thereon as well as authority to sell such beans.

(3) All determinations with respect to cooperative marketing associations of producers pursuant to this section shall be made by or under the direction of the PMA State committee.

§ 601.1653 *Eligible beans.* Eligible beans must meet the following requirements:

(a) The beans must have been produced in the continental United States in 1952 by an eligible producer.

(b) Except in the case of cooperative marketing associations, the beneficial interest in the beans must be in the producer tendering the beans for loan or for delivery under a purchase agreement, and must always have been in him or in him and a former producer whom he succeeded before the beans were harvested. In the case of cooperative marketing associations, the beneficial interest in the beans must have been in the producers who delivered the beans to the association and must always have been in them or in them and former producers whom they succeeded before the beans were harvested.

(c) The beans must be dry edible beans of the classes Pea, Medium White, Great Northern, Small White, Flat Small White, Pink, Small Red, Pinto, Red Kidney, Large Lima and Baby Lima.

(d) Beans placed under loan must (1) grade U. S. Choice Handpicked, U. S. Extra No. 1, U. S. No. 1, or U. S. No. 2, or (2) must be beans (hereinafter referred to as "thresher run" beans) which have not been commercially cleaned; which have a moisture content not in excess of 18 percent; which, after deduction of foreign material, contain not more than 8 percent of other defects, as these terms are defined in the United States Standards for Beans; which are not musty, sour, heating, hot, weevily, materially weathered, or otherwise of distinctly low quality; and which do not have any commercially objectionable odor.

(e) Beans delivered under a purchase agreement must grade U. S. Choice Hand-picked, U. S. Extra No. 1, U. S. No. 1, or U. S. No. 2.

(f) If offered for a farm-storage loan, beans must have been stored for at least 30 days prior to inspection for measurement, sampling, and sealing, unless otherwise approved by the PMA State committee.

§ 601.1654 *Warehouse receipts.* Warehouse receipts, representing beans in approved warehouse-storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer or cooperative marketing association, must be properly endorsed in blank so as to vest title in the holder, and must be issued by a warehouse approved by CCC under CCC Form 28, "Bean Storage Agreement". The receipts must be negotiable and must cover eligible beans actually in store in the warehouse.

(b) In order to be acceptable under the loan program, each warehouse receipt, or the accompanying supplemental certificate must contain a statement that the beans are insured in accordance with CCC Form 28, "Beans Storage Agreement," and if such insurance was not effective as of the date of deposit of the beans in the warehouse, the warehouseman must certify as to the effective date of the insurance and that the beans are in the warehouse and undamaged. The insurance on commingled beans must be obtained by the warehouseman. Insurance on beans with respect to which the warehouseman does not guarantee quality (hereinafter called identity-preserved beans) must be obtained by either the producer or the warehouseman. If the insurance is obtained by the producer it must be assigned to the warehouseman, with the consent of the insurance company, before a loan will be made and the warehouseman must also certify that the insurance has been assigned to him with the consent of the insurance company. Insurance is not required in order for warehouse receipts to be purchased under the purchase agreement program.

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross and net weight of beans, the class, and the grade or all grading factors used in the determination of the quality of the beans.

(d) In the case of identity-preserved beans, the warehouse receipt shall show the lot number and number of bags in the lot, and the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.1659 (b).

§ 601.1655 *Determination of quantity—(a) When loans are made on farm storage or identity-preserved beans.* (1) At the time the loan is made the quantity of beans may be determined either by weight or, if stored in bulk, by measurement. Where the quantity is determined by measurement, 2.1 cubic feet shall constitute 100 pounds.

(2) In the case of bagged beans grading U. S. No. 2 or better, loans shall be made on the net weight of the lot or on a quantity determined by multiplying the number of bags by 100 pounds, whichever is less. In the case of other eligible beans, loans shall be made on the basis of the net weight of sound beans in the lot. Sound beans shall be beans free of dockage and other defects as defined in the United States Standards for Beans.

(3) If the beans are stored in sacks, a deduction of three-fourths pound per sack shall be made from the gross weight of sacked beans, except where the net weight is shown on the warehouse receipt.

(b) *At time of delivery.* (1) The quantity of beans delivered to CCC from other than an approved warehouse, or delivered in an approved warehouse as identity-preserved beans shall be determined on the basis of net weight and bag count at the point of delivery, in accordance with § 601.1662 (c).

(2) The quantity of beans delivered to CCC in an approved warehouse where the warehouseman guarantees the quality and quantity shall be the net weight of beans specified on the warehouse receipt or supplemental certificate.

§ 601.1656 *Determination of quality.* (a) The class, grade and all quality factors shall be determined in accordance with the United States Standards for Beans. An inspection certificate issued by a licensed inspector is required on all farm-storage loans.

(b) Where quality is guaranteed by the warehouseman, the class and grade delivered under a warehouse-storage loan or purchase agreement shall be that shown on the warehouse receipt. In all other cases the class and grade shall be determined from a Federal or Federal-State inspection certificate, issued by or under the supervision of the Grain Branch, PMA.

§ 601.1657 *Credit for loss or damage.* The amount to be credited to the producer for loss or damage assumed by CCC, in accordance with § 601.1515 of 1952 C. C. C. Grain Price Support Bulletin 1, shall be determined by multiplying the number of hundredweight of sound beans lost or destroyed by the support rate for U. S. No. 2 beans of the class lost or destroyed, except that if the warehouse receipt or an official inspection certificate covering the beans shows a grade of U. S. No. 2 or better, the amount credited shall be determined by multiplying the net weight of the beans lost or destroyed by the support rate for the class and grade of such beans.

§ 601.1658 *Maturity of loans.* Loans mature on demand but not later than April 30, 1953.

§ 601.1659 *Delivery of beans to CCC.* If the warehouse recipt represents beans not commercially cleaned and graded, the producer must arrange to resubmit warehouse receipts on cleaned, graded, and bagged beans at the time of delivery in accordance with instructions issued by the county committee. The following terms and conditions shall apply with respect to packaging and charges:

(a) *Packaging.* Beans must be packed 100 pounds net in bags equal to or better than (1) new bags made of 36-inch, 10.4 ounce A or B quality common jute or heavier weight jute, or (2) new cotton bags, 36-inch, 2.34 yards osnaburg or 40-inch 2.50 yard osnaburg. If new bags are not available, beans may be packed in No. 1 used bags made of 36-inch, 10.4 ounce A or B quality jute or heavier, free of holes, patches, or other defects, satisfactory for the proper conservation of the product, and thoroughly cleaned before being filled. Bag seams must be sufficiently strong to develop the full strength of the cloth. Bags will be marked to show the commodity name and class, and the net weight when packed; and the name and address of the packer.

(b) *Charges.* (1) Storage, bagging, cleaning, inspection fees and all other charges, including cost of movement to normal railroad shipping point where the warehouse is not located on a railroad (but not including receiving and loading-out charges), incurred on beans up to the time of delivery to CCC, shall be paid by the producer prior to such delivery or shall be paid from the settlement value: *Provided, however,* That on the quantity of eligible beans stored in an approved warehouse and delivered to CCC under a loan or purchase agreement, CCC will assume warehouse-storage charges (not in excess of those allowed under the storage agreement in effect for the 1952 crop with CCC) accruing after April 30, 1953.

(2) In the case of identity-preserved beans, the producer shall pay any unpiling, turning, repiling, or other warehouse charges, except loading-out charges, incident to official weight and grade determinations.

§ 601.1660 *Support rates.* (a) The loan rate for eligible beans grading U. S. No. 2 or better, and meeting the packaging requirements of § 601.1659 (a), shall be the applicable support rate shown in paragraph (b) of this section, for the class, grade, and county where produced, however, if the beans have been moved by truck to approved storage in a higher loan rate county, or if the warehouseman guarantees delivery by truck to approved storage or on track in such higher support rate county, the loan rate shall be the support rate for the county in which the beans are stored or to which delivery is guaranteed. Any charges specified in § 601.1659 (b) which are unpaid shall be paid from the proceeds of the loan, including receiving and loading-out charges at any warehouse other than the original warehouse (applicable to warehouses in which original warehouseman guarantees delivery in a different county).

(b) The support rates per 100 pounds net weight established for dry edible beans are as follows:

Class of beans	1952 support price[1]
Red Kidney	$9.60
Pink	8.40
Small red	8.45
Large Lima	11.80
Baby Lima	6.45

§ 601.1661 *Storage in transit.* (a) Reimbursement will be made by CCC to producers or warehousemen for paid-in rail freight (including freight tax) on beans stored in approved warehouses, subject to the following conditions:

(1) The movement from point of origin to storage point must be an "in-line" movement as determined by CCC, and must be no greater than 100 miles from the point of production unless otherwise approved by CCC prior to the date of shipment.

(2) The freight must have been paid in by the person claiming reimbursement and he must not have been otherwise reimbursed.

(3) The warehouseman must furnish the descriptive data on all freight bills or transit tonnage slips on all eligible beans received into the storage facility at the time and in the manner stipulated in Bean Storage Agreement in effect with CCC for the 1952 crop.

(4) The freight bills or transit tonnage slips must be made available to CCC in accordance with the provisions of Form CCC 28, "Bean Storage Agreement."

(5) Not more than one transit stop must have been used on the billing.

(6) The freight bills must be otherwise acceptable to CCC under the terms of the storage agreement.

(b) Reimbursement for paid-in freight under this section will be made by the appropriate PMA Commodity Office subsequent to actual delivery of the beans to CCC pursuant to a loan or purchase agreement.

§ 601.1662 *Settlement.* The settlement value of the beans delivered under a loan or purchase agreement shall be determined as set forth in this section.

(a) *Applicable county rate.* Settlement shall be made at the support rate for the county in which the beans are produced except as follows:

(1) In the case of farm-storage loans and purchase agreements, settlement shall be made at the support rate for the county where the beans are delivered if the beans have been delivered to such county by truck.

(2) In the case of warehouse-storage loans, both identity-preserved and guaranteed, if the warehouse is located off the railroad, settlement will be made with the producer at the support rate for the county to which the warehouseman guarantees delivery for loading.

(b) *Applicable support rate for class and grade.* If the beans are stored in an approved warehouse and the quality is guaranteed by the warehouseman, settlement will be made with the producer at the applicable support rate for the quality of beans shown on the warehouse receipt. In other cases of beans delivered under loans and purchase agreements, settlement shall be made as follows:

(1) *Loans.* (i) In the case of farm-storage loans and warehouse-storage loans on identity-preserved beans, settlement shall be made at the applicable support rate for the class and grade of the beans delivered.

(ii) If the beans are of a grade for which no support rate has been established, the settlement value shall be the settlement rate established for the grade placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade placed under loan and the market price of the beans delivered as determined by CCC: *Provided, however,* That in the case of thresher-run beans which, when delivered are not of a grade for which a support rate has been established, the settlement value shall be the settlement value for the lowest grade for which a support rate has been established, less the difference, if any, at the time of delivery, between the market price for such grade and the market price of the beans delivered, as determined by CCC.

(2) *Purchase agreements.* Under purchase agreements, beans will be purchased at the applicable support rate for the class and grade of the eligible beans delivered.

(c) *Quantity on which settlement will be made.* Settlement will be made on the basis of each bag containing 100 pounds net weight of beans. The producer will be paid or credited for the net weight of the lot delivered or for a quantity determined by multiplying the number of bags by 100 pounds, whichever quantity is less. If all the beans in the lot are not weighed, the net weight shall

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

EXPENSES AND RATES OF ASSESSMENT FOR THE 1952–53 SEASON

On June 3, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 4989) regarding the expenses and the fixing of the rates of assessment for the 1952–53 season pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order) and set forth in the aforesaid notice, it is hereby found and determined that:

§ 936.206 *Expenses and rates of assessment for the 1952–53 season*—(a) *Expenses.* The expenses likely to be incurred by the Control Committee during the 1952–53 season for the maintenance and functioning of such committee and the respective commodity committees, established pursuant to the provisions of the aforesaid amended marketing agreement and order, are as follows:

(1) Bartlett pears, $20,347.20;

(2) Early varieties of plums, $21,210.00;

(3) Late varieties of plums, $22,540.00;

(4) Elberta peaches, $15,077.30.

(b) *Rates of assessment.* The following rates of assessment, which each handler shall pay in accordance with the applicable provisions of said amended marketing agreement and order, are hereby fixed as the respective handler's pro rata share of the aforesaid expenses;

(1) 7½ mills ($0.0075) per standard western pear box of Bartlett pears, or its equivalent in other containers or in bulk:

(2) 1 cent ($0.01) per standard four-basket crate of early varieties of plums, or its equivalent in other containers or in bulk;

(3) 1 cent ($0.01) per standard four-basket crate of late varieties of plums, or its equivalent in other containers or in bulk; and

(4) 3½ mills ($0.0035) per California peach box of Elberta peaches, or its equivalent in other containers or in bulk.

Notwithstanding the approval of the aforesaid expenses, none of such funds may be used to pay any wage or salary that is inconsistent with the Defense Production Act of 1950, as amended, Executive Order No. 10161, or any supplementary order, directive, or regulation pursuant thereto.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) the respective rates of assessment are applicable to all fresh Bartlett pears, early varieties of plums, late varieties of plums, and Elberta peaches shipped during the 1952–53 season; (2) shipments of plums have already commenced and shipments of Elberta peaches are expected to begin on or about June 20, 1952, with shipments of Bartlett pears following on or about July 1, 1952; (3) the provisions of this section do not impose any obligation on a handler until such handler ships plums, Elberta peaches or Bartlett pears; and (4) it is essential that the specification of the assessment rates be issued immediately so that the aforesaid assessment may be collected and thereby enable the said Control Committee and commodity committees to perform their duties and functions in accordance with said amended marketing agreement and order.

Terms used in the amended marketing agreement and order shall, when used in this section, have the same meaning as is given to the respective term in said amended marketing agreement and order.

RECODIFICATION

EDITORIAL NOTE: Federal Register Document 52-1692, appearing at page 1246 of the issue for Saturday, February 9, 1952, has been corrected as follows:

In § 959.130 (a), the reference "§§ 959.54, 959.56, 959.57, or any combination thereof" has been changed to read: §§ 959.40 to 959.60, inclusive, or any combination thereof".

PART 962—FRESH PEACHES GROWN IN GEORGIA

EXPENSES AND RATE OF ASSESSMENT FOR THE 1952–53 FISCAL PERIOD

Notice was published in the June 3, 1952, daily issue of FEDERAL REGISTER (17 F. R. 4989) that consideration was being given to the proposals regarding the expenses and the fixing of the rate of assessment for the 1952–53 fiscal period under the marketing agreement, as amended, and Order No. 62, as amended (7 CFR Part 962), regulating the handling of fresh peaches grown in the State of Georgia, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Industry Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 962.206 *Expenses and rate of assessment for the 1952–53 fiscal period*—(a) *Expenses.* The expenses necessary to be incurred by the Industry Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning March 1, 1952, will amount to $23,220.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles peaches shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at one and one-half cents ($0.015) per bushel basket of peaches (net weight 50 pounds), or its equivalent of peaches in other containers or in bulk.

Notwithstanding the approval of the aforesaid expenses, none of such funds may be used to pay any wage or salary that is inconsistent with the Defense Production Act of 1950, as amended, Executive Order No. 10161, or any supplementary order, directive, or regulation pursuant thereto.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) shipments of peaches from Georgia are now being made; (2) the rate of assessment is applicable to all fresh peaches shipped during the 1952–53 fiscal period, (3) a large volume of the Georgia peach crop is handled by itinerant truckers and cash buyers who operate in the area only part of the season; and (4) in order for the regulatory assessment to be collected, especially from those handlers who do not have definite or established places of business in the production area, it is essential that the specification of the assessment rate be issued immediately so as to enable the said Industry Committee to perform its duties and functions under said amended marketing agreement and order.

As used in this section, the terms "handler," "handles," "shipped," "peaches," "production area," and "fiscal period" shall have the same meaning as is given to each such term in the said amended marketing agreement and order.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 14, Amdt. 14]

CPR 14—CEILING PRICES OF CERTAIN FOODS AT WHOLESALE

ALLOWANCE FOR COST OF LABELS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 14 to Ceiling Price Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment permits wholesalers who furnish the labels for Table A items to add to their "net cost" the difference between the actual cost of the labels and the label allowance received from their supplier. They do this by adding their label cost to their "net cost" and deducting their label allowance. However, wholesalers who have an adjustment under section 27b of this regulation will not be allowed to do this on any item covered by that adjustment.

In order to ensure competitive existence, it has been a customary practice for wholesalers to have processed food items packed under a label which they furnish in preference to the labels regularly furnished by their supplier. The supplier usually gives an allowance to such a wholesaler because he has saved money by using the wholesaler's labels. Section 4 (a) of this regulation, which deals with the computation of net cost, until now has allowed the wholesaler to keep that allowance as part of his net cost.

In the past, where there was a difference between the allowance made to the wholesaler by his supplier and the actual cost of labels to the wholesaler, the wholesaler customarily reflected this difference in his selling price.

The present markups in Table A, which are essentially the same as those used by the Office of Price Administration in MPR 421, contain a factor for cost of labels. However, at the time of the 1942 margin survey, on which MPR 421 markups were based, there was very little private label business as compared with today. Therefore, a very small proportion of the data collected contained a label cost factor. For this reason the label cost factor contained in the average markups is extremely small.

This was not important under OPA because there was little difference between label cost and the allowance made by the supplier, and wholesalers were required to absorb only a very small amount either dollars-and-cents or percentagewise.

Available data now make it clear that the spread between the actual cost of labels to a wholesaler and the amount allowed the wholesaler by the supplier has increased since 1942, when the markups now in use were first established, by an average of over 250 percent. This large spread has resulted from the fact that while label costs have advanced in recent years, the label allowances have remained almost stationary.

On some commodities bearing an owned or exclusively controlled label or brand a wholesaler may, under certain conditions, be permitted by section 27b of CPR 14 to add a percentage factor to net cost to cover product promotion, including among other things label cost, thus recovering his label cost on the commodities he has specified in his application to use section 27b. As already indicated, for the much more numerous wholesalers who furnish labels but who do not qualify under section 27b, the present markup factor covering label costs is so small as to have no effect at all. To provide equitable treatment, this cost factor should also be recognized for them. Therefore, OPS is now permitting wholesalers to add their actual out-of-pocket label costs to net cost. This technique has been used instead of a percentage or flat dollars-and-cents adjustment because, while suppliers normally give a fixed label allowance for a given item of merchandise, individual wholesalers use labels which vary widely in cost.

In the formulation of this amendment, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable and has given full consideration to their recommendations. In his judgment the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to relevant factors of general applicability.

AMENDATORY PROVISIONS

Section 4 (a) is amended to read as follows:

SEC. 4. *Directions for applying the rule*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the item, based on its most recent delivery to you before May 14, 1951. Your "net cost" will be the amount you paid your supplier less all discounts except (1) discounts on items in category #5, "Cookies, crackers, toast and crumbs", (section 35 (b) (5)), (2) the discount for prompt payment, and (3) swell allowance, plus label costs and all transportation charges you paid except local trucking and local unloading. This exception shall not apply to any shipments by water. In such cases, there may be added also as part of the cost of transportation the cost of moving the shipment from the place at which it was processed to the dock, the cost of unloading at that dock, wharfage, handling, tollage and usage charges, the cost of marine insurance, the cost of loading the goods on a car, truck or other conveyance at the port of discharge and the cost of transporting that shipment from the port of discharge to receiving point. However, cost of loading the shipment at the place at which it was processed, segregation charges and cost of unloading at receiving point may not be added. Treat as a separate item each kind, brand, grade, variety, container-size and container-type.

(1) Your net cost must be figured on purchases of a customary quantity from a customary type of supplier delivered to your usual receiving point by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

(2) Figure the net cost of the unit in which you receive delivery (i. e., per dozen, per case, per bag, etc.) to the nearest cent.

(3) For items you "manufacture or otherwise process" use the special rules in section 17.

(4) For items on which you have an adjustment pursuant to section 27b you figure your net cost as set forth in this section but you do not add label cost or deduct any label allowance.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective on June 28, 1952.

[General Ceiling Price Regulation, Amdt. 8 to Supplementary Regulation 15]

GCPR, SR 15—Exception for Certain Services

Suspension of Price Control on Certain Service Charges in Connection With White Flesh Potatoes

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to Supplementary Regulation 15 is hereby issued.

Statement of Considerations

This amendment restores the suspension from price control of the rates, charges and compensation for services performed in connection with harvesting, preparing for market and marketing of white flesh potatoes. In view of the revocation of CPR 113, and all amendments and supplementary regulations thereto unprocessed white flesh potatoes are no longer under price controls. Accordingly, the reason for excluding the service charges of other fruits and vegetables, as set forth in the Statement of Considerations accompanying Amendment 2 to Supplementary Regulation 15 to the General Ceiling Price Regulation, applies with equal force to the service charges incurred with respect to white flesh potatoes.

In the formulation of this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

In the judgment of the Director of Price Stabilization, this amendment is generally fair and equitable and complies with all applicable provisions of the Defense Production Act of 1950, as amended.

Amendatory Provisions

Section 2 (a) (3) of Supplementary Regulation 15 to the General Ceiling Price Regulation is amended by deleting the phrase "(Except white flesh potatoes)" so that subparagraph (3) of said section shall read as follows:

(3) *Services in connection with fresh fruits, vegetables, berries, and tree nuts.* The provisions of the General Ceiling Price Regulation shall not apply to rates, fees and charges for services performed in connection with harvesting; car and truck pre-cooling and top-icing; packing and prepackaging; and buying and selling of fresh fruits, vegetables, berries, and tree nuts, pending formulation of regulations applicable generally to fresh fruits, vegetables, berries, and tree nuts, but in no event shall this suspension extend beyond November 4, 1952; *Provided, however*, That during the period of this suspension, persons performing these services shall maintain the current records required to be maintained by section 16 (b) of the General Ceiling Price Regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to Supplementary Regulation 15 to the General Ceiling Price Regulation shall become effective June 24, 1952.

[Ceiling Price Regulation 22, Amdt. 48]

CPR 22—Manufacturers' General Ceiling Price Regulation

Modification of Apparel Exemption as to Fabric Gloves

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law, 81st Cong., Pub. Law 96, 82d Cong.) Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 48 to Ceiling Price Regulation 22 is hereby issued.

Statement of Considerations

This amendment modifies the apparel exemption in paragraph (f) of Appendix A in regard to dipped plastic and dipped rubberized fabric gloves. Amendment 42 to CPR 22 placed dipped plastic fabric gloves, formerly covered by CPR 45, Rev. 1, under the coverage of CPR 22, the regulation thought best suitable for this industry. The purpose of Amendment 42 was to place dipped plastic fabric glove manufacturers under the same regulation as manufacturers of dipped rubberized fabric gloves and to eliminate the necessity of some manufacturers of both types of gloves having to establish ceiling prices for their commodities under two regulations. However, since the issuance of Amendment 42 to CPR 22, it has come to the attention of the Office of Price Stabilization that some manufacturers, whose principal business is the manufacture of fabric gloves covered by CPR 45, Rev. 1, also produce some dipped plastic and dipped rubberized fabric gloves, for which under Amendment 42 to CPR 22 they would have to establish ceiling prices under this regulation.

The purpose of this amendment is to give effect to the underlying purpose of Amendment 42 to CPR 22, namely, to permit manufacturers of dipped plastic and dipped rubberized fabric gloves whose principal glove production consists of dipped gloves to establish ceiling prices for both their dipped and undipped fabric gloves under CPR 22 and to leave manufacturers of such gloves whose principal production consists of undipped fabric gloves under the coverage of CPR 45, Rev. 1. This method would eliminate wherever possible the necessity of many manufacturers having to establish their ceiling prices under two regulations. However, manufacturers who produce a substantial amount of both dipped plastic or dipped rubberized fabric gloves and undipped fabric gloves will be required to establish ceiling prices for their dipped gloves under CPR 22 and for the undipped fabric gloves under CPR 45, Rev. 1. Concurrently with the issuance of this amendment, an amendment to CPR 45, Rev. 1 is being issued to reflect the changes incorporated in this amendment.

In view of the corrective nature of this amendment, special circumstances have rendered formal consultation with industry representatives impracticable. Informal consultations were had, however, with representatives of industry, including trade associations, and their views were taken into consideration in the drafting of this amendment.

Amendatory Provisions

Ceiling Price Regulation 22, as amended, is further amended in the following respects:

1. Appendix A, paragraph (f) is amended as follows:

(a) By striking out the last sentence in the first paragraph of (f) (1) which reads as follows: "Plastic dipped fabric gloves are not excepted by this paragraph" and substituting therefor the following sentence: "Not excepted by this paragraph are (i) fabric gloves when produced by a manufacturer whose net sales of dipped plastic and dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, (ii) dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales."

(b) By striking out in the "examples of commodities excepted under this paragraph" the parenthetical phrase "(but not including plastic dipped fabric gloves)" and substituting instead "(but not including fabric gloves and dipped plastic and dipped rubberized fabric gloves specified in paragraph (f) (1) of Appendix A)".

(c) By striking out in the "examples of commodities not included in this exception" the words "plastic dipped fabric gloves" and substituting instead the words "fabric gloves when produced by a manufacturer whose net sales of dipped plastic and dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales", so that Appendix A, paragraph (f) will now read as follows:

(f) (1) Apparel, apparel furnishings or apparel accessories, except as specifically stated below, made of textile materials, leather, fur, plastic, other materials which are normally sewed as part of the assembly operation or a combination of any such materials; (2) component parts manufactured exclusively for further processing into or for use as part of apparel, apparel furnishings or apparel accessories. Not excepted by this paragraph are (i) fabric gloves when produced by a manufacturer whose net sales of dipped plastic and dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, (ii) dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales.

The following are examples of commodities excepted under this paragraph:

(1) Men's, boys', women's, misses', children's, toddlers' and infants' outerwear, underwear, headwear, hosiery, foundation garments, lounging and leisure wear, bedwear, althletic and special sports apparel, bathing suits and trunks, theatrical and masquerade costumes, ecclesiastical and academic vestments, occupational service apparel, burial clothes, gloves (but not including fabric gloves and dipped plastic and dipped rubberized fabric gloves specified in paragraph (f) (1) of Appendix A), handbags, pocketbooks, purses, wallets, billfolds, coin purses, money belts, muffs, muff bags, key cases, belts, suspenders, garters, garter belts, hose supporters, arm bands, ear muffs, sun shades, scarfs, mufflers, stoles, separate collars, separate cuffs, neckties, neckwear, handkerchiefs, abdominal supporters, sanitary belts and aprons, infants' bands, bibs and other articles of a similar nature.

(2) Hat bodies, sewn pockets, brassiere and underwear straps, collar and cuff sets, shoulder pads, shields, waist bands, unassembled garments sold in package form, and other similar manufactured articles.

The following are examples of commodities not included in this exception: Slide fasteners, buttons and other closures, thread, artificial flowers, cuff links, separate buckles, tie clips, feathers, diapers, key chains, plumes, umbrellas, parasols, canes, costume jewelry, ribbons, compacts, cigarette cases, barrettes, hair furnishings, hair nets, tobacco pouches, carrying cases, dressing cases, brief cases and luggage, fabric gloves when produced by a manufacturer whose net sales of dipped plastic or dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

Effective date. This amendment is effective June 30, 1952.

CPR 30—Machinery and Related Manufactured Goods

Approval of Manufacturers' List Prices and Discount Structures That Were in Process of Revision on June 24, 1950

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 33 to Ceiling Price Regulation 30 is hereby issued.

Statement of Considerations

This amendment permits manufacturers covered by Ceiling Price Regulation 30 who before June 24, 1950, were in the process of revising their published list prices and in connection therewith

not later than December 31, 1951, amounted to 25 percent or more of his total glove sales.

The following are examples of commodities excepted under this paragraph:

(1) Men's, boys', women's, misses', children's, toddlers' and infants' outerwear, underwear, headwear, hosiery, foundation garments, lounging and leisure wear, bedwear, althletic and special sports apparel, bathing suits and trunks, theatrical and masquerade costumes, ecclesiastical and academic vestments, occupational service apparel, burial clothes, gloves (but not including fabric gloves and dipped plastic and dipped rubberized fabric gloves specified in paragraph (f) (1) of Appendix A), handbags, pocketbooks, purses, wallets, billfolds, coin purses, money belts, muffs, muff bags, key cases, belts, suspenders, garters, garter belts, hose supporters, arm bands, ear muffs, sun shades, scarfs, mufflers, stoles, separate collars, separate cuffs, neckties, neckwear, handkerchiefs, abdominal supporters, sanitary belts and aprons, infants' bands, bibs and other articles of a similar nature.

(2) Hat bodies, sewn pockets, brassiere and underwear straps, collar and cuff sets, shoulder pads, shields, waist bands, unassembled garments sold in package form, and other similar manufactured articles.

The following are examples of commodities not included in this exception: Slide fasteners, buttons and other closures, thread, artificial flowers, cuff links, separate buckles, tie clips, feathers, diapers, key chains, plumes, umbrellas, parasols, canes, costume jewelry, ribbons, compacts, cigarette cases, barrettes, hair furnishings, hair nets, tobacco pouches, carrying cases, dressing cases, brief cases and luggage, fabric gloves when produced by a manufacturer whose net sales of dipped plastic or dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

Effective date. This amendment is effective June 30, 1952.

Amendatory Provisions

Ceiling Price Regulation 30 is hereby amended in the following respects:

Section 3 is amended by adding a new paragraph (d) to read as follows:

(d) Notwithstanding any of the foregoing provisions of this section, if you were in the process of revising your published list prices before June 24, 1950, and incidentally in connection therewith, revising the discount structures, and if you actually issued and made effective these new published list prices and discount structures on or before January 25, 1951, you may apply to the Director of Price Stabilization for approval of these list prices and discount structures in accordance with the provisions of this paragraph. Your application must be filed by registered mail with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and must contain the following information:

(1) Your business name and address.

(2) A copy of your published list price before and after the revision and a copy of your published list price showing any increases you have made in these list prices to reflect increases in your ceiling prices determined in accordance with Ceiling Price Regulation 30 or any appropriate supplementary regulation thereto.

(3) A copy of your discount schedule, if any, before and after revision.

(4) A statement by a responsible officer of your company that this revision was actually in process before June 24, 1950, and that the revised list prices and discount schedules were made effective on or before January 25, 1951.

You may not use these published list prices or certify to your resellers that these published list prices have been approved until the Director of Price Stabilization has approved in writing those published list prices.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 33 to Ceiling Price Regulation 30 shall become effective June 25, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1952.

[Ceiling Price Regulation 45, Amdt. 3 to Revision 1]

CPR 45—Apparel Manufacturers' General Ceiling Price Regulation

Modification of Coverage of Dipped and Undipped Fabric Gloves

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 83d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this Amendment to Ceiling Price Regulation 45, Revision 1, is hereby issued.

Statement of Considerations

Amendment 2 to CPR 45, Revision 1, removed manufacturers of dipped plastic fabric gloves from the coverage of CPR 45, Revision 1. Simultaneously, CPR 22 was amended to cover those manufacturers. Since the manufacturing processes of dipped plastic and dipped rubberized fabric gloves are similar, and manufacturers of dipped rubberized fabric gloves are required to establish ceiling prices under CPR 22, those amendments were issued so that manufacturers of both types of gloves could establish ceiling prices for these commodities under CPR 22, the regulation considered most suitable for this industry, instead of finding themselves governed by two different regulations.

Since the issuance of those amendments, however, it has come to the attention of the Office of Price Stabilization that some manufacturers, whose principal business is the manufacture of fabric gloves covered by CPR 45, Revision 1, also produce some dipped plastic and dipped rubberized fabric gloves for which they would have to determine their ceiling prices under CPR 22.

The purpose of this amendment is to give full effect to the underlying purpose of Amendment 2, namely, to permit manufacturers of dipped plastic and dipped rubberized fabric gloves to use for those gloves the regulation under which they establish ceiling prices for most of their gloves. The effect of this amendment, therefore, is to place under CPR 45, Revision 1 those manufacturers of dipped plastic and dipped rubberized fabric gloves whose principal glove production consists of undipped gloves, and to place under CPR 22 those manufacturers of the same products whose principal glove production consists of dipped

gloves. However, manufacturers who produce a substantial amount of both dipped and undipped fabric gloves will be required to establish their ceiling prices for the dipped fabric gloves under CPR 22 and for the undipped fabric gloves under CPR 45, Revision 1. Concurrently with the issuance of this amendment, an amendment to CPR 22 is being issued to reflect the changes incorporated in this amendment.

In view of the corrective nature of this amendment, special circumstances have rendered formal consultation with industry representatives impracticable. Informal consultations were had, however, with representatives of the industry, including trade associations, and their views were taken into consideration in the drafting of this amendment.

AMENDATORY PROVISIONS

Ceiling Price Regulation 45, Revision 1, as amended, is further amended in the following respects:

1. Section 1 is amended as follows:

By striking out the sentence which reads as follows: "Specifically excluded from this regulation, however, are plastic dipped fabric gloves.", and substituting therefor the following sentence: "Specifically excluded from this regulation, however, are (1) fabric gloves when produced by a manufacturer whose net sales of dipped plastic and dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, (2) dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales."; so that section 1 will now read as follows:

SECTION 1. *Sellers and sales covered by this regulation.* This regulation covers you if you are a manufacturer located in the 48 states of the United States, the District of Columbia, or the Territory of Hawaii (not including any other territories or possessions) of (a) apparel, apparel furnishings, or apparel accessories, except as specifically excluded below, made of textile materials, leather, fur, plastic, other materials which are normally sewed as part of the assembly operation, or a combination of any such materials, or (b) component parts manufactured exclusively for further processing into or for use as a part of apparel, apparel furnishings, or apparel accessories, or (c) footwear made of felted, knitted, or woven fabrics, or combinations of such fabrics, and which is not normally made by shoe or rubber manufacturers, or (d) overshoes and similar footwear worn for weather protection, which are made entirely of plastic except for trimmings and closures. This regulation applies to the sale, including sales at retail, of any such articles of which you are the manufacturer provided that they are fabricated within the 48 states of the United States, the District of Columbia, or any of the territories or possessions of the United States. Specifically excluded from this regulation, however, are (1) fabric gloves when produced by a manufacturer whose net sales of dipped plastic and dipped rubberized fabric gloves in his last fiscal year ending not later than December 31, 1951, amounted to 75 percent or more of his total glove sales, (2) dipped plastic and dipped rubberized fabric gloves when produced by a manufacturer whose net sales of these gloves in his last fiscal year ending not later than December 31, 1951, amounted to 25 percent or more of his total glove sales. Examples of articles which are covered by this regulation and of articles which are not covered by this regulation, are contained in Appendix A.

This regulation supersedes the General Ceiling Price Regulation for sales by manufacturers of the articles covered by this regulation.

2. Appendix A is amended as follows:

By striking out, immediately after the word "gloves" in paragraph (1) of that portion of Appendix A entitled "Examples of articles covered by this regulation", the following parenthesized words "(but not including plastic dipped fabric gloves)" and substituting therefor the following parenthesized words "(as limited by Section 1 of this regulation)", so that subparagraph (1) will now read as follows:

1. Men's, boys', women's, misses', children's, toddlers' and infants' outerwear, underwear, headwear, hosiery, foundation garments, lounging and leisure wear, bedwear, athletic and special sports apparel, bathing suits and trunks, theatrical and masquerade costumes, ecclesiastical and academic vestments, occupational service apparel, burial clothes, gloves (as limited by section 1 of this regulation), handbags, pocketbooks, purses, wallets, billfolds, coin purses, money belts, muffs, muff bags, key cases, belts, suspenders, garters, garter belts, hose supporters, arm bands, ear muffs, sun shades, scarfs, mufflers, stoles, separate collars, separate cuffs, neckties, neckwear, handkerchiefs, abdominal supporters, sanitary belts and aprons, infants' bands, bibs, and other articles of a similar nature.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date: This amendment is effective June 30, 1952.

CPR 67—RESELLERS' CEILING PRICES FOR MACHINERY AND RELATED MANUFACTURED GOODS

USE OF MANUFACTURERS' PUBLISHED LIST PRICES AND DISCOUNTS WHERE MANUFACTURER HAS RECEIVED SPECIFIC APPROVAL OF THOSE LIST PRICES AND DISCOUNTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 8 to Ceiling Price Regulation 67 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment is being issued concurrently with Amendment 33 to Ceiling Price Regulation 30. That amendment adds a provision to Ceiling Price Regulation 30 which will permit manufacturers who were in the process of revising published list prices and discount structures on June 24, 1950, to apply for and receive approval of such list price and discount structures provided they were made effective before January 25, 1951. The purpose of this amendment to Ceiling Price Regulation 67 is to permit resellers of commodities produced by manufacturers who have received approval of their published list prices pursuant to Amendment 33 to Ceiling Price Regulation 30 to use those published list prices to determine their ceiling prices under the provisions of Ceiling Price Regulation 67.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 67 is amended in the following respects:

Section 3 (a) (4) is amended to read as follows:

(4) All discounts from the published list price (including cash discounts) which the manufacturer, who issued the price list, currently has in effect must be the same as the discounts which that manufacturer had in effect on June 24, 1950, unless that manufacturer has received approval of revised or changed discounts in accordance with the applicable ceiling price regulation. If the manufacturer has received approval of revised or changed discounts you may use this section or section 4 to determine your ceiling prices.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective June 25, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Ceiling Price Regulation 67, Supplementary Regulation 2]

CPR 67—RESELLER'S CEILING PRICE FOR MACHINERY AND RELATED MANUFACTURED GOODS

SUPPLEMENTARY REGULATION 2—MANUFACTURERS' SUGGESTED RESALE PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 2 to Ceiling Price Regulation 67 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation permits resellers of commodities covered by Ceiling Price Regulation 67 to use, in certain instances, manufacturers' published price lists to establish their ceiling prices, although discounts or margins established by these published price lists are not the same as those that were in effect on June 24, 1950. However, before such new price lists may be used, the reseller must receive a written notification from the manufacturer that the price list has been approved by the Office of Price Stabilization. This approval will be granted under certain conditions. Section 3 (a) (4) of CPR 67 presently prohibits the use of manufacturers' published price lists by resellers where the discounts are not identical to those in effect on June 24, 1950.

It has long been the practice of resellers of parts and accessories covered by this regulation to establish their resale price on the basis of manufacturers' published price lists. It has likewise been the historical practice for manufacturers to make minor changes in price relationships between items on this list, or between categories of items on this list, reflecting changes in marketing practices. These changes are in the nature of equalizations and their net effect is fundamentally unrelated to the basic problems of price stabilization. Changes of this nature have taken place since June 24, 1950, and are still continuing. The Office of Price Stabilization recognizes that over a period of time in an active economy, such price lists cannot maintain an absolutely static structure with respect to individual item discount practices. Such discount changes, not affecting either the manufacturers' net prices or the over-all realization or margin of the resellers, make the price lists unavailable to the reseller under the present rule in CPR 67. Because of the number of parts that are sold, the inability of the resellers to use a published price list works a hardship on them.

This supplementary regulation, therefore, authorizes the use of a price list in which such discount changes have been made, provided, however, that the manufacturer shows to the satisfaction of the Office of Price Stabilization that the proposed changes will not affect the manufacturers' net ceiling price per item and will not increase the over-all realization or the average margin enjoyed by the reseller under the prior price list.

Resellers affected by the changes in manufacturers' price lists are not required under this supplementary regulation to establish their ceiling prices on the basis of the new published price lists, but may avail themselves of the provisions of section 4 of CPR 67, which generally, incorporates the technique of applying percentage markups over net invoice costs.

In the opinion of the Director of Price Stabilization the provisions of this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Applications for the approval of new price lists.
3. Applicability of CPR 67.
4. Definitions.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161 Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation permits you, if you are a reseller of commodities subject to Ceiling Price Regulation 67 to establish, at your option, your ceiling prices on the basis of a manufacturers' published list price even though the discounts from the published list price issued by the manufacturer are different from the discounts which the manufacturer had in effect on June 24, 1950, provided the manufacturer files the report required by section 2 and notifies you in writing that his proposed published price list has been approved by the Office of Price Stabilization. A statement that "this price list has been approved by the Office of Price Stabilization" will be acceptable.

SEC. 2. *Application for the approval of new price lists.*—(a) *Application.* Before any new price list may be put into effect under this supplementary regulation, the manufacturer issuing the price list must file the information required by paragraph (b) with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C. The manufacturer may not put the new price lists into effect without prior written approval of the Director of Price Stabilization. Discount schedules for commodities subsequently added to the price lists must follow the same pattern and incorporate the same general methods as those previously approved by the Director. The Director may approve, disapprove, modify, or request further information concerning an application for the establishment of a new price list.

(b) *Report.* The manufacturer's report must contain the following information:

(1) A description of the changes to be made in list prices or discounts.

(2) A statement that the manufacturer's net ceiling price per item will not be affected by the changes.

(3) A statement that the weighted average margins of resellers using the proposed price list will be the same or less than the weighted average margins of resellers using the price list in effect during the period April 1 through June 24, 1950. In determining the weighted average margins, the basis of weighting shall be the resellers' volume of sales during the last six months' period prior to the filing of this report for which data are available or the last fiscal year for which data are available. If resellers' volume of sales is not available, the manufacturer's volume of sales may be used as the basis of weighting.

SEC. 3. *Applicability of CPR 67.* All of the provisions of CPR 67 which are not inconsistent with this supplementary regulation remain applicable to you.

SEC. 4. *Definitions.* All terms used in this supplementary regulation have the same meaning as in CPR 67.

Effective date. This supplementary regulation to Ceiling Price Regulation 67 shall become effective June 25, 1952.

GOR 9—EXEMPTION FROM PRICE CONTROL OF IMPORTED REFINED COPPER AND COPPER REFINED FROM IMPORTED COPPER-BEARING MATERIALS AND IMPORTED SCRAP

SALES OF FOREIGN PRIMARY COPPER AND SALES OF COPPER BY REFINERS USING IMPORTED RAW MATERIALS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 9 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 9 exempts from price control all sales of foreign primary copper and domestic copper refined from imported ores, concentrates, and imported raw materials including scrap.

Under the terms of an agreement between the United States and Chile, the price of Chilean copper being sold to the United States was set at 27½ cents per pound. Domestic refiners using foreign raw materials were also required to pay prices equivalent to the 27½ cent price for their foreign materials.

In order to place copper refined domestically from imported material on an equal price basis with refined copper imported from Chile SR 46 to the GCPR was issued on July 26, 1951.

On May 8, 1952, Chile terminated its agreement to sell a portion of its copper output to the United States at 27½ cents per pound. Henceforth, all Chilean copper would be offered through ordinary commercial channels for sale at the best prices procurable.

Since supply of domestic copper is insufficient to meet defense and essential civilian requirements, the Acting Director of Defense Mobilization on May 21, 1952, established and announced the policy which would be followed by the

United States Government in order to encourage the importation of copper. The text of this announcement follows:

The agreement between the United States Government and the Chilean Government allocated 80 percent of the production of companies in Chile controlled by United States interests for purchase and import into the United States by U. S. private firms at 27½ cents a pound. It left the remainder of the production of copper in Chile to sell at much higher prices on the world market. This agreement was terminated by Chile as of May 8, 1952. The termination of this agreement and the copper strike in Chile, together wth the Chilean stoppage of copper shipments since May 8 have produced shortages of copper for essential uses of the mobilization program in the United States.

It is necessary to meet the difficulties raised by these shortages and to permit the resumption of imports from Chile. It is also desirable to encourage an increase in the imports of copper from foreign countries, including Chile, over those previously prevailing. Consequently, the Government of the United States has adopted the following policies to meet the emergency:

1. In order to encourage importation of adequate supplies of foreign copper by private buyers under existing conditions, the United States Government is acting through the Office of Price Stabilization to permit brass mills and copper wire mills to add to their ceiling prices an amount representing 80 percent of any increase in cost of foreign copper above the 27½ cents level contained in the Chilean agreement which has just been terminated. The Office of Price Stabilization will periodically announce the permitted increases in ceiling prices which will be adjusted to reflect variations in foreign prices of copper and in the ratio of foreign copper used. The initial adjustments will become effective on June 16, 1952.

Comparable treatment will be provided for other primary users of refined foreign copper, including copper produced in this country from foreign ores and concentrates. The impact of any changes in the ceiling prices of primary copper products at subsequent levels of production and distribution will be treated in accordance with the existing pricing standards of the Office of Price Stabilization.

2. It is the policy of the United States Government not to make now and to avoid in the future changes in the existing price ceilings on domestically refined copper, brass mill scrap, or copper, or copper alloy scrap.

3. In order to maintain a uniform price policy on brass mill and copper wire mill products, taking into account the changes in the price of foreign copper, the National Production Authority will allocate foreign and domestic supplies as equitably as practicable among United States users. Allocation will be used to equalize the impact of any higher foreign price for copper and to permit in this way the import of more copper for the total use of the United States defense program.

The Acting Director of the Office of Defense Mobilization sent a letter to the Administrator of the Economic Stabilization Agency directing him to act in accordance with this announced policy in so far as the stabilization program is concerned.

The Economic Stabilization Administrator, in turn, instructed the Director of the Office of Price Stabilization to issue whatever regulations might be necessary to adjust the ceiling prices in accordance with the decision of the Acting Director of the Office of Defense Mobilization.

This amendment to GOR 9 is issued in conformance with this directive and carries out the policy set forth by the ODM.

Importers of refined copper and refiners using imported ores, concentrates and scrap to produce refined copper may now purchase such materials at whatever price is necessary to secure the materials. In addition, this amendment removes sales of foreign primary copper from the provisions of the General Ceiling Price Regulation. In the present unstable state of the world market there is no method of determining with any degree of exactitude what this price, or these prices, will be. The price of 27½ cents per pound set forth in SR 46 is no longer applicable. GOR 9 is amended to exempt from price control the sale of imported refined copper and copper made from imported copper-bearing materials and scrap.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 2 (a) of General Overriding Regulation 9 is amended by adding the following subparagraphs:

(26) *Sales of foreign primary copper.* Sales of primary copper metal refined outside of the United States, its territories or posesssions by any process of electrolysis or fire refining to a grade or form suitable for fabrication, provided, that any person selling or purchasing foreign primary copper prepares and keeps for inspection by the Director of Price Stabilization for a period of two years records of each sale showing: The date of the sale; the name and address of the buyer; the name and address of the seller from whom any refined foreign copper is purchased; a statement that the commodity sold or purchased is foreign primary copper and the grade of the commodity sold or purchased; the price charged or paid; the point or points of shipment; and the amount of the transportation charges, if any, and by whom they were paid.

(27) *Certain sales of copper by refiners using imported raw materials.* (i) Sales by a copper refiner who purchases and uses imported raw materials of a quantity of refined copper equivalent to the recoverable copper content of the imported raw materials purchased by such refiner since June 16, 1952, and for which such refiner made payment to the seller on the basis of a price for copper in excess of 24½ cents per pound provided that the records specified in subdivision (ii) of this subparagraph are kept. "Imported raw materials" means ore, concentrates and other copper bearing materials (including scrap) produced outside the United States, its territories and possessions.

(ii) Any person selling refined copper produced from imported raw materials must prepare and keep for inspection by the Director of Price Stabilization for a period of two years records showing his name and address, the recoverable copper content of each kind of imported raw material purchased by him subsequent to June 16, 1952, the location of the refinery at which such material was received and the quantity of each shipment of refined copper shipped by him from each of his refineries pursuant to the exemption granted herein.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective June 25, 1952.

NOTE: The record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-90, as Amended June 24, 1952]

M-90—COLOR TELEVISION

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amended order lifts all the prohibitions previously in effect as to the manufacture of color television equipment except those relating to home-type color television. It provides that persons desiring to manufacture this type of equipment, may, under certain conditions, apply for permission to do so. The usual provision as to records and reports is added as section 6, and the two subsequent sections are renumbered accordingly.

REGULATORY PROVISIONS

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR 1951 Supp.

SECTION 1. *What this order does.* This order regulates the manufacture of equipment designed to receive color television of the type used in home reception, and items solely designed to permit or facilitate the reception of color television in such equipment. The manufacture of color television equipment for experimental, defense, industrial, and certain hospital and educational uses, and of other color television equipment not of a type used in home reception, is permitted.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(b) "Controlled material" means steel, copper, and aluminum in the forms and shapes indicated in Schedule I of CMP Regulation No. 1, as from time to time amended.

(c) "NPA" means the National Production Authority.

SEC. 3. *Permission to manufacture.* (a) The activities to which this section applies are the production and the assembly of home-type television sets designed to receive or capable of receiving color television, and of products, attachments, and parts for home-type television sets if such products, attachments, and parts are designed solely to permit or facilitate, or are capable only of permitting or facilitating, the reception of color television.

(b) Each person desiring to undertake any of these activities shall apply to NPA on Form NPAF-207 for permission to do so, and shall not commence any such activities without such permission. Such applications will be considered in the light of the following criteria as to each applicant:

(1) That he has, prior to the effective date of this order as amended, made a substantial expenditure of funds in research and development regarding home color television products, or in the production of such products, or in preparation therefor;

(2) That the number of persons he will employ in the activities mentioned in paragraph (a) of this section does not exceed, in any of the occupations mentioned in List A of this order, the number employed as of the effective date of this order as amended;

(3) That his Government contracts and subcontracts for the production or development of electronics products are on schedule or, if they are behind schedule, that the delay is not related to his employment of persons described in List A of this order;

(4) That he will refuse no Government contract or subcontract because of the activities proposed in his application; and

(5) That he will be able to produce, without any supplemental allotment of controlled materials (except as may be required to correct imbalances), the products as to which he is making application.

(c) Such application shall be deemed a representation to NPA that the applicant's employment of each type of personnel described in his application who are engaged in and will be engaged in these activities will not exceed the numbers stated in the application during the time for which permission is granted.

(d) Permission, if granted, will apply only to those periods which may be specified by NPA. The applicant may make renewed application to cover later periods, furnishing the information specified in Form NPAF-207, excluding data already furnished in previous applications.

(e) Permission shall be deemed to be revoked, as to any applicant who has obtained permission, if and when he (1) refuses, because of the permitted activities, to accept any Government contract or subcontract offered to him, or (2) employs, in the activities to which this section applies, a greater number of any of the types of personnel listed in List A of this order than the number of that type stated in his application.

SEC. 4. *Equipment and items exempted.* (a) Nothing in this order shall be deemed to prohibit the production, assembly, or use of any commodity, equipment, accessory, part, assembly, product, or material, of any kind, in accordance with the provisions of NPA Order M-71 (Priorities Assistance to Technical and Scientific Laboratories), or in accordance with the requirements or specifications of the Department of Defense or the Atomic Energy Commission, as set forth in any contract calling for the delivery of any product for the manufacture of which the Department of Defense or the Atomic Energy Commission shall have allotted controlled material.

(b) Nothing in this order shall be deemed to prohibit the manufacture of color television equipment for use on a closed circuit, or color television equipment of a type not used in or designed for use in home-type receivers.

SEC. 5. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 6. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 7. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-90.

SEC. 8. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect June 24, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

LIST A OF NPA ORDER M-90

Occupation	*Definition*
Electronic technician	Fabricates, installs, maintains, and repairs electronic apparatus. Constructs and modifies electronic assemblies and components, following engineering drawings, sketches, or verbal instructions and using a comprehensive knowledge of complex and varied test, assembly, and repair procedures to insure proper diagnosis, adjustment, and operation of such equipment. Tests, calibrates, adjusts, and repairs electronic equipment, replacing and interchanging component parts with precision machinists' and electricians' tools and electronic testing and auxiliary equipment. This excludes those concerned with service and repair of radio and television broadcasting equipment and receivers.

LIST A OF NPA ORDER M-90—Continued

Occupation	Definition
Engineer draftsman, design	Makes design drawings of machines, products, processes, instruments, or structures, to assist in developing experimental ideas evolved by design engineers. Prepares working plans and detail drawings, working from rough or detail sketches and specifications and employing his knowledge of engineering methods and practices to solve fabrication or construction problems. Designs lesser parts and assemblies or limited structures in harmony with overall engineering plans and designs. Verifies dimensions of parts and materials, and relationship of one part to another as well as the various parts to the whole structure, using an extensive knowledge of the various machines, products, or processes peculiar to the specialized activity in which the work occurs.
Engineer, professional	Performs functions requiring the application of engineering principles and other scientific knowledge when those functions are of such a level of difficulty as to require the application of a knowledge of the engineering, physical, and mathematical sciences equivalent to that acquired through the completion of at least a 4-year professional engineering curriculum leading to a bachelor's degree in an accredited college or university.
Physicist	Conducts research and applies fundamental principles of the science to industrial problems.
Tool and die maker	Constructs, repairs, maintains, and calibrates machine shop tools, jigs, fixtures, and instruments, and also dies used for metal-forming work.

[CMP Regulation No. 5 as amended June 25, 1952]

CMP REG. 5—MAINTENANCE, REPAIR, AND OPERATING SUPPLIES, INSTALLATION, AND MINOR CAPITAL ADDITIONS UNDER THE CONTROLLED MATERIALS PLAN.

This regulation, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this regulation prior to its amendment, there was consultation with industry representatives, including trade association representatives, and consideration was given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this regulation was rendered impracticable because the regulation affects almost all industries. In the formulation of this regulation as amended, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the amendment affects almost all industries.

This amendment affects CMP Regulation No. 5 by amending paragraphs (h), (j), and (l) of section 2; paragraph (c) of section 6; paragraph (a) of section 7; section 11; item 2 of Schedule I; and footnote 1 to item 4 of Schedule I.

O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this regulation does.* The purpose of this regulation is to provide a uniform procedure by which any business enterprise, Government agency, or public or private institution may obtain limited quantities of controlled materials and products and materials other than controlled materials for maintenance, repair, and operating supplies (hereinafter collectively referred to as "MRO"), as well as for minor capital additions and installations. It provides for the establishment of separate quarterly quotas for MRO, for minor capital additions, and for installation. The regulation does not limit the quantity of materials and products which a person may obtain without using the procedure provided in this regulation. However, a person who makes use of the procedure provided in this regulation to obtain, in any quarter, materials or products for MRO in excess of 20 percent of his MRO quota shall comply with the MRO quota limitations whether or not he is able to obtain additional MRO materials and products without using the procedure provided in this regulation. This regulation establishes separate minimum quotas for MRO, minor capital additions, and installation in the amount of $1,000 for each in any one quarter. The procedure provided in this regulation may not be used to secure materials for personal or household use.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Person" means any individual, partnership, corporation, association, or other organized group, and includes any business enterprise, Government agency, or institution. If, in the calendar year 1950, or in his last fiscal year ending prior to March 1, 1951, a person operated more than one plant, division, department, branch, or other unit, and maintained for any such unit separate records showing expenditures therefor for MRO, he may elect to treat any one or more of such units as a separate person for the purposes of this regulation, or to treat his entire operation within the United States, its territories and possessions, as a single person. An election so made may not thereafter be changed without prior written approval of NPA.

(b) "NPA" means the National Production Authority.

(c) "Business enterprise" means a lawful activity conducted for profit in the United States, its territories or possessions.

(d) "Government agency" means the United States, its territories and possessions, any of the 48 States, or the District of Columbia, any political subdivision of any of the foregoing, and any agency of any of the foregoing which is not a business enterprise.

(e) "Institution" means any lawful organization, public or private, within the United States, its territories and possessions, which is neither a business enterprise nor a Government agency. It includes, but is not limited to schools, libraries, hospitals, churches, clubs, and welfare establishments.

(f) "Maintenance" means the minimum upkeep necessary to continue any plant, facility, or equipment in sound working condition. "Repair" means, with respect to any person, the restoration of any plant, facility, or equipment to sound working condition when it has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like, where such repair is not capitalized according to his established accounting practice. Neither "maintenance" nor "repair" includes the replacement of any plant, facility, or equipment; nor does it include the improvement of any plant, facility, or equipment by replacing material which is still in sound working condition with material of a new or different kind, quality, or design.

(g) "Operating supplies" means, in the case of a business enterprise, any kind of material carried by such business enterprise as operating supplies according to its established accounting practice. It includes items, such as hand tools, purchased by an employer for sale to his employees solely for use in his business if such items would have constituted operating supplies had they been issued to employees without charge. It also includes expendable tools, jigs, dies, and fixtures, used on production equipment, regardless of the accounting practice of the business enterprise. "Operating supplies" means, in the case of a Government agency or an institution, any item used by the agency or institution in conducting any activity or rendering any service, provided the total cost of such item (excluding the purchaser's cost of labor) does not exceed $50 or the item is normally consumed in the course of operation within 1 year from the date of acquisition and was not carried as capital equipment by the agency or institution according to its established accounting practice. Materials incorporated in a product are operating supplies if, but only if, they were carried as operating supplies according to the established accounting practice of the business enterprise, Government agency, or institution.

(h) "Minor capital addition" means any replacement, improvement, or addition of a kind carried by a person as capital according to his established accounting practice, the total cost of which (excluding the purchaser's cost of labor) does not exceed $1,000 for any one complete capital addition. The term "one complete capital addition" includes a group of items which are purchased together or as part of a single project or plan. No capital addition may be subdivided for the purpose of bringing it or any part of it within this definition. In computing the cost of such replacement, improvement, or addition, for the purpose of this regulation, the cost of all materials obtained for such replacement, improvement, or addition shall be included whether or not acquired by use of an allotment symbol or rating, and whether or not ordered or delivered at different times and obtained from different suppliers. Where the capital addition, replacement, or improvement involves construction, as defined in Revised CMP Regulation No. 6, the procedure provided for herein may not be used to obtain materials therefor.

(i) "MRO" means materials for maintenance, repair, and operating supplies. It does not include capital additions or installation. The terms "minor capital addition" and "installation" are specifically used whenever they are intended to be included within the provisions of this regulation. Materials produced or obtained for sale to other persons or for installation upon or attachment to the property of another person, and materials required for the production of such materials are not "MRO" as to the producer or supplier.

(j) "Installation" means the setting up or relocation of machinery, fixtures, or equipment in position for service and connection thereof to existing service facilities, where such setting up or relocation is not and does not occur in conjunction with construction, as defined in Revised CMP Regulation No. 6, and is carried by a person as capital according to his established accounting practice. Where such installation occurs in a building, structure, or project which has been completed for less than 1 year and is part of the construction "project," as defined in Revised CMP Regulation No. 6, it shall not be considered installation for the purposes of this regulation.

(k) "Material" means any raw, in-process, or manufactured commodity, equipment, component, accessory, part, or product of any kind.

(l) "Controlled material" means steel, copper, and aluminum in the forms and shapes indicated in CMP Regulation No. 1.

(m) "Established accounting practice" means, in the case of a person in operation on or before December 31, 1950, the accounting practice in use by such person on that date or on the last day of his operation prior thereto. In the case of a person whose operation begins after December 31, 1950, the term means the accounting practice established by him in such operation.

SEC. 3. *How a person obtains controlled materials.* (a) Subject to the quantity restrictions contained in section 7 of this regulation, every business enterprise, Government agency, and institution shall have the right to use the allotment symbol MRO on delivery orders for controlled materials for maintenance, repair, and operating supplies, installation, and minor capital additions. The assignment of the right to use the allotment symbol MRO does not constitute the making of an allotment of the amount of controlled materials for MRO, installation, and minor capital additions specified in section 7 of this regulation. The allotment symbol MRO may be used to acquire only that amount of controlled material acutally needed for MRO, installation, and minor capital additions.

(b) A delivery order bearing the symbol MRO, together with the certification provided for in section 11 of this regulation, shall constitute an authorized controlled material order for the purposes of all CMP regulations. A person who manufactures a Class A or Class B product, not for sale but solely for his own use as MRO, material for installation, or as a minor capital addition, may obtain the controlled material required for such production by using the allotment symbol MRO. A person who produces such a Class A or Class B product may not apply to an industry division or claimant agency on Form CMP-4A or on Form CMP-4B for an allotment of controlled material or for a DO rating for such production, nor may he use the self-authorization procedure provided for in Direction 1 to CMP Regulation No. 1.

SEC. 4. *How a person obtains products and materials other than controlled materials.* (a) Subject to the quantity restrictions contained in section 7 of this regulation, every business enterprise, Government agency, and institution shall have the right to use the rating DO-MRO on delivery orders for products and materials other than controlled materials for maintenance, repair, and operating supplies, installation, and minor capital additions. The rating DO-MRO may be used to acquire such products and materials only up to that portion of the amount specified in section 7 of this regulation which is actually needed for the purposes of MRO, installation, and minor capital additions.

(b) A delivery order bearing the rating DO-MRO, together with the certification provided for in section 11 of this regulation, shall constitute a rated order with an allotment symbol for the purpose of all NPA regulations and orders. A person who manufactures a Class A, Class B, or any other product, not for sale but for his own use as MRO, material for installation, or as a minor capital addition, may obtain the products and materials other than controlled material required for such production by using the rating DO-MRO.

SEC. 5. *Status of orders rated DO-97.* (a) A producer of a Class A or of a Class B product who has, prior to July 6, 1951, the original effective date of this regulation, extended an order bearing the rating DO-97 to a supplier of a controlled material, and who has received an authorized production schedule with a related allotment, shall charge against such allotment the amount of any controlled material which he receives pursuant to such order.

(b) A delivery order calling for delivery after the third quarter, 1951, placed prior to July 6, 1951, the original effective date of this regulation, in accordance with the provisions of NPA Reg. 4 and bearing the rating DO-97, must be converted into an authorized controlled material order or into a rated order with the allotment symbol MRO, as the case may be, in accordance with the provisions of CMP Regulation No. 3. In the absence of such conversion on or before August 15, 1951, the order shall constitute an unrated order.

(c) A delivery order for MRO, installation materials, or minor capital additions placed after the effective date of this regulation and in accordance with its provisions must bear the allotment symbol MRO or the rating DO-MRO, as the case may be.

SEC. 6. *Limitations on the use of the allotment symbol MRO and the rating DO-MRO.*—(a) *Prohibited list.* The allotment symbol MRO and the rating DO-MRO shall not be applied or extended by a person to obtain any of the materials or articles listed in Schedules I and II of this regulation, or to obtain any equipment pursuant to any lease.

(b) *Limitation for minor capital additions.* The allotment symbol MRO and the rating DO-MRO may not be applied by a person to obtain in any quarter (calendar or fiscal) materials for a total of minor capital additions exceeding in the aggregate 10 percent of the quarterly MRO quota established as provided in section 7 of this regulation, or $1,000, whichever is greater. This paragraph shall be construed to place no limitation on the acquisition of additional products or materials other than controlled materials for minor capital additions without the use of the allotment symbol MRO or of the rating DO-MRO.

(c) *Limitation for installation.* The allotment symbol MRO and the rating DO-MRO may not be applied by a person to obtain in any quarter (calendar or fiscal) installation materials for a total of installations exceeding in the aggregate 10 percent of the quarterly

MRO quota established as provided in section 7 of this regulation, or $1,000, whichever is greater.

(d) *Limitation on extension of the rating DO–MRO and of the allotment symbol MRO.* A producer of Class A products who receives a delivery order with the rating DO–MRO shall not extend such rating, but shall obtain his production materials in accordance with the provisions of section 15 of CMP Regulation No. 1. A producer of Class B products who receives a delivery order with the rating DO–MRO shall not extend such rating, but shall obtain his production materials from an industry division or claimant agency, as provided in CMP Regulations No. 1 and No. 3. All other suppliers may extend a DO–MRO rating to obtain materials to the extent permitted by and in accordance with the provisions of NPA Reg. 2. A supplier of controlled material who receives a delivery order bearing the allotment symbol MRO shall not extend such symbol.

SEC. 7. *Quarterly MRO quotas*—(a)—*The quota base.* A person who applies the allotment symbol MRO to buy controlled materials or the rating DO–MRO to buy products and materials other than controlled materials must establish his quarterly MRO quota. The MRO quota base to be used in establishing the MRO quota shall include all expenditures made by a person in the base period for MRO (except for materials referred to in Schedule II of this regulation), even though such MRO consists of materials listed in Schedule I of this regulation. Capital expenditures during the base period shall not be included in the quota base.

(b) *Standard base period.* The standard base period is the calendar year 1950.

(c) *Fiscal year base period.* If a person operated on the basis of a fiscal year prior to March 1, 1951, he may elect to take as his base period his last fiscal year ending prior to that date. After such an election has been made, it may not thereafter be changed without the prior written approval of NPA.

(d) *Standard quota.* The standard quarterly quota is 30 percent of the quota base.

(e) *Seasonal quota.* A person may elect to establish seasonal quarterly quotas. An election so made may not be changed thereafter without the prior written approval of NPA. Such seasonal quota for any quarter shall be 120 percent of the expenditures by the person for MRO during the corresponding quarter in 1950, or during the corresponding quarter in the last fiscal year ending prior to March 1, 1951.

(f) *Persons not in operation throughout the base period.* A person not in operation throughout the entire base period shall establish and report his quarterly MRO quota as follows:

(1) *Person operating during part of the base period.* A person who was in operation during a part but not all of the calendar year 1950 (or of his last fiscal year ending prior to March 1, 1951) shall determine his quota base by computing the amount he would have spent for MRO (except for materials referred to in Schedule II of this regulation) had he continued the same rate of expenditure throughout the year as during that part of the year in which he was in operation, making necessary corrections to compensate for seasonal or other exceptional characteristics of the period in which he was in operation. His standard quarterly MRO quota shall be 30 percent of his quota base. If he elects to establish seasonal quarterly quotas, as above provided, he may divide 120 percent of his quota base into four quarterly MRO quotas in accordance with the seasonal demands of the activity in which he is engaged.

(2) *Persons not in operation during the base period.* If a person was not in operation in any part of the calendar year 1950 (or of his last fiscal year ending prior to March 1, 1951), his quarterly MRO quota (standard or seasonal) shall be the amount which he determines to be necessary for his operation. The quota of such person may not, however, exceed $5,000 for any quarter without the prior written approval of NPA. Request for authority to establish a quota in excess of $5,000 in any quarter shall be submitted on Form NPAF–78 in accordance with the provisions of section 15 of this regulation.

(3) *Notice to NPA.* A person who establishes a quarterly MRO quota in excess of $1,000 pursuant to subparagraphs (1) or (2) of this paragraph (f) shall, within 30 days after he first applies either the allotment symbol MRO or the rating DO–MRO, notify NPA in writing of the quota he has established, the base period he has used, the method he used in computing his quota, and the corrections he made for seasonal or other factors.

(g) Any person whose quarterly MRO quota, as calculated pursuant to the provisions of this section, is less than $1,000, may, nevertheless, order (or receive) in any quarter MRO aggregating not more than $1,000.

(h) *Future use of increased quotas.* If the quarterly MRO quota of a person is increased by specific authorization of NPA pursuant to section 15 of this regulation, the increased quota becomes his standard quota unless the increase is granted on a temporary or seasonal basis or is otherwise restricted by the terms of the authorization. An increased quarterly MRO quota granted as a seasonal quota may be used only in the corresponding quarter of subsequent years.

(i) *Increase not retroactive.* An increase in quota granted pursuant to section 15 of this regulation is not retroactive.

SEC. 8. *Charges against MRO quota*—(a) *When to charge against quota.* A person may elect to charge expenditures against his MRO quota for the quarter (calendar or fiscal) in which his purchase order specifies delivery is to be made (the delivery basis), or against his MRO quota for the quarter in which the materials are actually received (the receipts basis). Having elected to use one method, he may not thereafter change to the other without the prior written approval of NPA.

(b) *What to charge against quota.* A person shall charge against his MRO quota in each quarter all expenditures for materials for MRO (except materials referred to in Schedule II of this regulation) ordered for delivery (or, if on the receipts basis, received) during the quarter, whether or not obtained by use of the allotment symbol MRO or the rating DO–MRO.

(c) *Exception.* Any person who uses the allotment symbol MRO or the rating DO–MRO to order for delivery (or, if on the receipts basis, to receive) during any quarter materials for MRO which aggregate not more than 20 percent of his MRO quota for such quarter, may, in addition, order for delivery (or receive) in such quarter other material for MRO without use of the allotment symbol MRO or the rating DO–MRO and without regard to quota limitations.

SEC. 9. *Materials obtained for the benefit of another*—(a) *Materials supplied by a repairman.* Any business enterprise (such as a repair shop) engaged in doing maintenance, repair, or installation work for any other person may apply the allotment symbol MRO to obtain controlled materials and the rating DO–MRO to obtain products and materials other than controlled materials to the same extent that such other person would be entitled to apply the allotment symbol or rating if he were doing the work himself. The cost of materials so obtained shall be charged to the MRO quota of the person for whom the work is done.

(b) *Obligation to supply MRO under lease or other agreement.* A person who is obligated to maintain, repair, or operate any plant, facility, or equipment, under the terms of any lease or other agreement for the use of such property by another person, may apply the allotment symbol MRO or the rating DO–MRO to obtain materials needed for such purposes. Expenditures for such materials shall be charged to the MRO quota of the person thus applying the allotment symbol MRO or the rating DO–MRO except that, if his purchase is made on a reimbursable basis for the account of the person using the property, the MRO quota of the latter shall be charged.

SEC. 10. *Use of materials for another purpose.* If a person has obtained materials for MRO, installation, or minor capital additions by applying the allotment symbol MRO on the rating DO–MRO, as the case may be, he may use them for a different purpose if under an authorized production schedule or authorized construction schedule he could have applied any other allotment number or symbol or rating to acquire them for such purpose. However, if he does use them for such other purpose, he may not use the allotment symbol MRO or the rating DO–MRO to replace them in inventory. To replace such materials in inventory he may use only the allotment number or symbol, or DO rating under such authorized production or construction schedule which he might have applied to obtain them for the purpose for which he used them. If he uses such materials obtained by applying the allotment symbol MRO or rating DO–MRO for such other purpose, his records must be adequate to show that his purchases of material are substantially proportionate to his authorized uses.

SEC. 11. *Certification.* A delivery order for MRO or materials for installation or minor capital additions bearing the allotment symbol MRO or the rating DO–MRO must contain a certification in addition to such allotment symbol or rating. Unless another form of certification is specifically prescribed by an applicable order or regulation of NPA, such certification shall be in the following words:

Certified under CMP Regulation No. 5

and shall be signed as provided in NPA Reg. 2. This certification shall constitute a representation to the supplier and to NPA that the purchaser is authorized to use the allotment symbol or the rating under the provisions of this regulation to obtain the materials covered by the delivery order.

SEC. 12. *Supplier receiving orders improperly bearing the allotment symbol MRO or the rating DO–MRO.* When a supplier has received a purchase order bearing the allotment symbol MRO or the rating DO–MRO, which symbol or rating he knows, or has reason to believe, has been used in violation of any NPA regulation or order, the supplier shall refuse to accept it as an authorized controlled material order or rated order, as the case may be. In such event, the supplier shall advise the buyer of his reason for such refusal, and shall also advise NPA of his receipt of the order, his refusal to accept it, and his reason for such refusal.

SEC. 13. *Relation to other regulations and orders*—(a) *Rules governing use of the allotment symbol MRO or the rating DO–MRO.* Any person who is entitled to obtain materials for his MRO, installation, or minor capital additions under any other NPA regulation or order, shall be governed by the provisions of such other order or regulation and shall not use the allotment symbol MRO or the rating DO–MRO as provided in this regulation.

(b) *Inventory limitations.* Nothing in this regulation shall be deemed to authorize any person to order or receive any controlled materials if acceptance thereof would increase his inventory beyond the limitations permitted by CMP Regulation No. 2, or the limit fixed in any other applicable NPA regulation or order. Nothing in this regulation shall be deemed to authorize any person to order or receive products or materials other than controlled materials if acceptance thereof would increase his inventory beyond a practicable minimum working inventory as defined in NPA Reg. 1 or beyond the limit fixed in any other applicable NPA order or regulation.

(c) *Delegations to Government agencies.* This regulation does not revoke or prevent the use of any authority delegated by NPA to any other Government agency whereby such agency may use allotment symbols other than MRO or ratings other than DO–MRO, as the case may be, for direct procurement of its own requirements of MRO, installation material, or minor capital additions.

(d) *Other regulations and orders.* Nothing in this regulation shall be construed to relieve any person from the obligation of complying with such limitations on acquisition or use of materials or such other provisions as may be contained in any applicable regulation or order of NPA or with any order of any other competent authority.

SEC. 14. *Records and reports*—(a) *Records to be kept.* Each person who makes any use of the allotment symbol MRO or the rating DO–MRO pursuant to this regulation shall make and preserve at his regular place of business for at least 3 years accurate and complete records showing what his quarterly MRO quotas are, how he computed them, the factual justification for them and for corrections or revisions thereof, any elections made as to the use of seasonal quotas, methods of figuring quotas and charges against them, or other options exercised, and records of receipts, deliveries, inventories, production, and use of all materials for MRO, installation, or minor capital additions, whether or not by use of the allotment symbol or rating, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This requirement does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) *Inspection and audit.* All records required by this regulation shall be made available for inspection and audit by duly authorized representatives of NPA, at the usual place of business where maintained.

(c) *Other records and reports.* Persons subject to this regulation shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 15. *Request for adjustment or exception.* (a) Any person affected by any provision of this regulation may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this regulation, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. A request for an adjustment of the MRO quota shall be submitted in writing in triplicate on Form NPAF–78; a request for an adjustment of the installation or minor capital addition quotas and a request for an exception to any other provision of this regulation shall be submitted by letter in triplicate and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

(b) Subject to the provisions of paragraphs (g) and (h) of section 7 of this regulation, any adjustments or exceptions granted under the provisions of NPA Reg. 4 shall continue to apply under this regulation.

SEC. 16. *Communications.* All communications concerning this regulation shall be addressed to the National Production Authority, Washington 25, D. C., Ref: CMP Regulation No. 5.

SEC. 17. *Violations.* Any person who wilfully violates any provision of this regulation or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this regulation, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation, as amended, shall take effect June 25, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

SCHEDULE I TO CMP REGULATION NO. 5

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1824]

PART 259—DISPOSAL OF MATERIALS

DISPOSALS AND RIGHTS UNDER OTHER STATUTES; FREE-USE PRIVILEGE

In order to clarify the rights obtained under free use permits by political entities or agencies and individuals, associations or non-profit corporations as well as to provide for the disposition of proceeds received from sale of materials from school section lands in Alaska, the following amendments are made in Part 259.

1. Paragraphs (f) and (g) of § 259.3 are amended to read:

§ 259.3 *Disposals which must be made under other statutes; rights under other statutes.* • • •

(f) The purchaser of materials shall have a prior right to the materials in accordance with the terms and provisions of the contract of purchase as against any subsequent claimant or entryman of the land affected.

(g) The proceeds derived from such sales shall be deposited in the Treasury of the United States and shall be disposed of in the same manner as moneys received from the sale of public lands, except that moneys received from the disposal of materials from school section lands in Alaska, reserved under the act of March 4, 1915 (38 Stat. 1214; 48 U. S. C. 353), as amended, shall be deposited in the United States Treasury for payment annually to the Territory of Alaska, pursuant to the act of August 31, 1950 (64 Stat. 571; 43 U. S. C. 1187).

2. Paragraphs (a) and (d) of § 259.21 are amended to read:

§ 259.21 *Free-use privilege; limitations.* (a) Any person, or any association or corporation not organized for profit, may be permitted to take and remove, without charge, materials subject to the act, for use other than for commercial or industrial purposes or resale. Such permittee is granted a right to remove materials while the permit remains in force and, in accordance with the provisions of the permit, as against a subsequent applicant who may wish to obtain the same material by purchase. However, the materials may not be removed by the permittee after the land has been included in a valid claim by reason of settlement, entry, or similar rights obtained under the public land laws.

• • • • •

(d) A free-use permit may be issued to any Federal, State, or Territorial agency, unit, or subdivision, including municipalities, without limitation as to the number of permits or as to the value of the materials to be severed, extracted, or removed, provided that the applicant makes a satisfactory showing to the regional administrator that such materials will be used for a public project. Such permits shall constitute a superior right to remove the materials and will continue in full force and effect, in accordance with its terms and provisions, as against any subsequent claim to or entry of the lands.

• • • • •

Appendix—Public Land Orders

[Public Land Order 837]

ALASKA

WITHDRAWING PUBLIC LAND FOR USE OF DEPARTMENT OF THE ARMY IN CONNECTION WITH LUTAK INLET DRY CARGO DOCK

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Army in connection with the Lutak Inlet Dry Cargo Dock:

COPPER RIVER MERIDIAN

T. 30 S., R. 59 E.,
Sec. 10, lots 4, 5, 6, 7, 8, 11, $S\frac{1}{2}SW\frac{1}{4}SE\frac{1}{4}SW\frac{1}{4}$, $NW\frac{1}{4}SW\frac{1}{4}SE\frac{1}{4}SW\frac{1}{4}$, $S\frac{1}{2}NW\frac{1}{4}SW\frac{1}{4}SW\frac{1}{4}$, $SW\frac{1}{4}NE\frac{1}{4}SW\frac{1}{4}SW\frac{1}{4}$, and $S\frac{1}{2}SW\frac{1}{4}SW\frac{1}{4}$;
Sec. 15, $N\frac{1}{2}NE\frac{1}{4}NW\frac{1}{4}$.

The areas described aggregate 63.98 acres.

It is intended that the lands described shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which reserved.

R. D. SEARLES,
Acting Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[27 CFR Part 1]

BASIC PERMIT PROCEDURE

NOTICE OF PROPOSED RULE-MAKING

A notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Deputy Commissioner in Charge of the Alcohol and Tobacco Tax Division, Bureau of Internal Revenue, with the approval of the Commissioner of Internal Revenue. Prior to the final adoption of such regulations, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing, in duplicate, to the Deputy Commissioner in Charge of the Alcohol and Tobacco Tax Division, Bureau of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of this notice in the FEDERAL REGISTER. The proposed regulations are issued under the authority of 49 Stat. 977; 54 Stat. 1232; 53 Stat. 373 and sec. 161 R. S.; 27 U. S. C. 202; 26 U. S. C. 3170; 5 U. S. C. 22.

[SEAL] DWIGHT E. AVIS,
Deputy Commissioner in Charge of the Alcohol and Tobacco Tax Division, Bureau of Internal Revenue.

1. Section 1.21 of the Federal Alcohol Administration Act Regulations No. 1 "Relating to the Issuance, Revocation, Suspension and Annulment of Basic Permits" (27 CFR Part 1), is amended by adding at the end thereof a new paragraph (c) to read as follows:

(c) The district supervisor shall cause to be maintained currently in his office for public inspection, until the expiration of one year following final action on the application, the following information with respect to each application for basic permit filed:

(1) The name, including trade name or names, if any, and the address of the applicant; the kind of permit applied for and the location of the business; whether the applicant is an individual, a partnership or a corporation; if a partnership, the name and address of each partner; if a corporation, the name and address of each of the principal officers and of each stockholder owning 10 percent or more of the corporate stock;

(2) The time and place set for any hearing on the application;

(3) The final action taken upon the application. In the event a hearing is held upon an application for a basic

permit, the district supervisor shall make available for inspection at his office upon request therefor: The transcript of the hearing, a copy of the hearing examiner's recommended decision, a copy of the district supervisor's decision and of his decision upon reconsideration, if any, and, in the event of an appeal to the Commissioner, the decision on appeal with the reasons given in support thereof

2. Section 1.33 of the said regulations (27 CFR 1.33) is amended by adding at the end thereof the following new sentence: "Hearings upon applications for basic permits shall be open to the public."

3. The purpose of these amendments is to revise, to the extent indicated, the Bureau's policy with respect to the confidential nature of applications for basic permits under the Federal Alcohol Administration Act (49 Stat. 977 et seq. as amended 27 U. S. C. 201 et seq.) and administrative proceedings upon such applications and to make certain information, heretofore treated as confidential, available for public inspection subject to the limitations and in accordance with the procedures set forth above. The provisions of 26 CFR, Subchapter F—Records and Procedure, Part 600—Records, shall not be construed so as to conflict with the authorization and direction conveyed in paragraphs 1 and 2 above.

4. This Treasury decision shall become effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

(49 Stat. 977, 54 Stat. 1232, 53 Stat. 373 and sec. 161 R. S.; 27 U. S. C. 202, 26 U. S. C. 3170, 5 U. S. C. 22)

PETROLEUM OIL FOOTS

TARIFF CLASSIFICATION

JUNE 19, 1952.

In the FEDERAL REGISTER of March 26, 1952 (17 F. R. 2630), notice was given of prospective classification of certain petroleum oil foots as nonenumerated manufactured articles. The Bureau, by letter to the collector of customs, New York, New York, dated June 19, 1952, ruled that petroleum oil foots obtained in a petroleum oil refining process by treating the lubricating oil fraction with sulphuric acid and the resultant acid sludge with sodium hydroxide are classifiable as nonenumerated manufactures under paragraph 1558, Tariff Act of 1930, as modified, and dutiable at the rate of 10 percent ad valorem.

This ruling will be effective as to such or similar merchandise entered for consumption or withdrawn from warehouse for consumption after 30 days after the date of publication of the abstract of this decision in a forthcoming issue of the weekly Treasury Decision (19 CFR 16.10 (a)).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF FILING OF PLAT OF SURVEY

JUNE 18, 1952.

Notice is given that the plat of original survey of the following described lands, accepted December 4, 1951 will be officially filed in the Land Office, Anchorage, Alaska, effective at 10:00 a. m. on the 35th day after the date of this notice:

SEWARD MERIDIAN

T. 20 N., R. 8 E., section 28.

The area described contains 602.85 acres

The land is located approximately 90 miles northeast of Anchorage on the Glen Highway. Index Lake, which lies within the area, is about 1½ miles north of the highway and may be reached by a secondary road of accessive grade. The land surrounding the lake has small rolling areas adjacent to steep cliffs, escarpments and mountain ridges. The timber cover is non-commercial, the greater part being brush covered. Small portions of the land could be farmed, but the soil appears very shallow in all places.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, home or headquarter site under the act of May 26, 1934 (48 Stat. 809, 48 U. S. C. 461), by qualified veterans of World War II and other qualified persons entitled to preference under the act of Sept. 27, 1944 (58 Stat. 747, 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under the paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statement in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent such regulations are applicable. Applications under the homestead and homesite laws shall be governed by the regulations contained in Parts 64, 65 and 166 of Title 43 of the Code of Federal Regulations and applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquires concerning these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

CHESTER W. MCNALLY,
Acting Manager.

[Case No. 114]

RATNER CHEMICAL CO. ET AL.

ORDER OF APPEALS BOARD

In the matter of: A. E. Ratner, trading as A. E. Ratner Chemical Company, 135 Front Street, New York 5, New York, Continental Pharma, S. A., Boris Schorine, Thirty-five, Avenue Rogier, Brussels 3, Belgium, Continental Pharma, Eugene Hecht, 1477 Sherbrooke Street, West, Montreal 25, Canada, respondents; O. I. T. Case No. 114, Appeals Board Docket No. FC-14.

This matter having been submitted to the Appeals Board, oral argument was presented at an Appeals Hearing on February 7, 1952, by counsel for appellants Continental Pharma, S. A., Brussels, Belgium, Continental Pharma, Montreal, and Eugene Hecht, Montreal, all hereinafter referred to as Pharma, and counsel for appellant A. E. Ratner, trading as A. E. Ratner Chemical Company, New York, New York, and by counsel for the Office of International Trade. Subsequent thereto the Appeals Board gave full and careful consideration to the various hearing transcripts, documentary evidence, and the briefs submitted by the appellants and the Office of International Trade before and after said hearing. Following this careful consideration the Board arrived at certain opinions, findings, and conclusions, and was prepared to issue an order thereon.

At this point the Board was advised by the Deputy Assistant Solicitor for International Affairs, Department of Commerce, that appellants desired to submit Consent proposals. Final action by the Board was therefore held in abeyance pending the negotiation of Consent proposals between the appellants and the Office of International Trade.

On June 9, 1952, the Deputy Assistant Solicitor and Counsel for Pharma appeared before the Board in behalf of the Pharma appellants and the Office of International Trade and presented a Motion for Final Order, dated June 9, 1952, to which was attached as an exhibit a letter addressed to the Assistant Director for Export Supply, Office of International Trade, dated June 4, 1952, from counsel for Pharma, proposing that a Final Order be issued by the Appeals Board as set forth in said Motion.

On June 12, 1952 the Deputy Assistant Solicitor for International Affairs presented to the Board on behalf of counsel for A. E. Ratner, trading as A. E. Ratner Chemical Company, New York, New York, and for the Office of International Trade, a Motion for Final Order dated June 11, 1952, to which was attached as an exhibit a letter addressed to the Assistant Director for Export Supply, Office of International Trade, dated June 11, 1952, from counsel for Ratner, proposing that a Final Order be issued by the Appeals Board as set forth in said Motion.

The Appeals Board, after consideration of both Motions for Final Order and the various stipulations embodied in Pharma's letter of June 4, 1952, and the Ratner letter of June 11, 1952, finds that both Motions for Final Order are reconcilable with the opinions, findings, and conclusions of the Appeals Board arrived at prior to the submission to the Board of the proposals and motions for Consent decision, and said motions are therefore granted.

Now, therefore, it is ordered, That:

1. As to Pharma, the order of the Office of International Trade, issued December 18, 1951, be and the same hereby is modified, as to Paragraph No. 3 thereof, to reduce the term of suspension of said appellants from the period prescribed in said order of December 18, 1951, to a period of 2 years from the date of this Consent Order, plus an additional period of 3 years which shall be held in abeyance for 3 years commencing immediately upon the expiration of said 2-year suspension period, subject to the following condition: If said appellants or any of them shall at any time within the said 2-year suspension period or within the 3 years ensuing immediately thereafter, knowingly violate any of the provisions of said order of December 18, 1951 (as hereby modified), or any of the provisions of the United States export control law or regulations issued thereunder, the Office of International Trade may summarily, at such time as it determines such violation has occurred, issue a supplementary order denying to each and all of said appellants all export privileges as provided in said order of December 18, 1951 (as hereby modified) for an additional term of 3 years from the date of such supplemental order. In that event, said term of 3 years shall be in addition to the aforesaid 2-year suspension period. It is further ordered that the Office of International Trade shall not, by the issuance of such supplemental order, be precluded from instituting any other and further action it may deem appropriate on account of the violation giving rise thereto; that said order of December 18, 1951 (as hereby modified) shall in any event expire upon the termination of United States export controls; and that the present stay of said order of December 18, 1951 shall be and hereby is terminated.

2. As to Ratner, the order of the Office of International Trade, issued December 18, 1951, be and the same hereby is modified, as to Paragraph No. 3 thereof, to reduce the term of suspension of the aforesaid appellant from the period prescribed in said order to a period of 5 months from the date of this Consent Order, plus an additional period of 4 months which shall be held in abeyance for 4 months commencing immediately upon the expiration of said 5-month suspension period, subject to the following condition: If said appellant shall at any time within the said 5-month suspension period or within the 4 months ensuing immediately thereafter, knowingly violate any of the provisions of said order of December 18, 1951 (as hereby modified), or any of the provisions of the United States export control law or regulations issued thereunder, the Office of International Trade may summarily, at such time as it determines such violation has occurred, issue a supplementary order denying to said appellant all export privileges as provided in said Order of December 18, 1951 (as hereby modified) for an additional term of 4 months from the date of such supplemental order. In that event, said term of 4 months shall be in addition to the aforesaid 5-month suspension period. It is further ordered that the Office of International Trade shall not, by the issuance of such supplemental order, be precluded from instituting any other and further action it may deem appropriate on account of the violation giving rise thereto; that said order of December 18, 1951 (as hereby modified) shall in any event expire upon the termination of United States export controls; and that the present stay of said order of December 18, 1951 shall be and hereby is terminated.

Chairman, Appeals Board.

Office of Price Stabilization

[Ceiling Price Regulation 83, Section 2, Special Order 1, Amdt. 1]

PACKARD MOTOR CAR CO.

BASIC PRICES AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 1 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the Packard Motor Car Company. Subsequent to the issuance of Special Order 1 the Packard Motor Car Company has introduced a new item of factory installed extra, special or optional equipment on its Packard new passenger automobiles and a wholesale ceiling has been approved for this new item. Special Order 1 is, therefore, amended to include the charge for the new item of factory installed extra, special or optional equipment.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 1 is hereby issued.

1. The following charge for factory installed extra, special or optional equipment is added to the list of extra, special or optional equipment contained in paragraph 2 of Special Order 1:

PACKARD PASSENGER AUTOMOBILES	
Power steering (all lines and series)	$185.93

Effective date. This Amendment 1 to Special Order 1 shall become effective June 24, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER SECTIONS 6, 7, AND 8 OF CPR 23

By virtue of the authority vested in me as Director of the Office of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131), Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Orders No. 2, as amended (16 F. R. 738, 11626), and No. 5, Revised (16 F. R. 11875), this Revision 1 to Delegation of Authority 63 is hereby issued.

Delegation of Authority 63 is revised to read as follows:

1. *Authority to act under sections 6, 7, and 8 of CPR 23.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization to take appropriate action under sections 6, 7, and 8 of CPR 23. All actions taken by field offices under sections 6, 7, and 8 of CPR 23, previous to this authority, are hereby confirmed and validated.

2. *Redelegation of Authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of the Office of Price Stabilization.

This Delegation of Authority shall take effect on June 26, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

FEDERAL POWER COMMISSION

[Docket No. G-1973]

TENNESSEE GAS CO.

NOTICE OF APPLICATION

JUNE 20, 1952.

Take notice that Tennessee Gas Company (Applicant), a Tennessee corporation having its principal place of business at Murfreesboro, Tennessee, filed on June 10, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of a natural-gas transmission pipeline approximately 12 miles in length extending from the City of Murfreesboro, Tennessee, to the nearest point of connection on the pipeline of Texas Eastern Transmission Corporation (Texas Eastern) in Tennessee.

The application recites that by means of the proposed facilities Applicant proposes to transport natural gas to the City of Murfreesboro where it will be distributed by Applicant to ultimate consumers through its existing distribution system.

The application further recites that Applicant has entered into a service agreement with Texas Eastern for the daily delivery of 2,141 Mcf of natural gas, and that this sale has been approved by the Presiding Examiner in the proceeding in Docket No. G-1693 (Texas Eastern) subject to the condition that an appropriate application for a certificate of public convenience and necessity to construct and operate the necessary lateral line be filed with the Commission on or before July 1, 1952.

The application directs the Commission's attention to the application filed by Tennessee Gas Company on May 1, 1952, pursuant to section 7 (a) of the Natural Gas Act, in Docket No. G-1950, requesting an order of the Commission directing East Tennessee Natural Gas Company to render the natural gas service to Murfreesboro which was proposed in Docket No. G-889 by East Tennessee.

Applicant requests that the instant application in Docket No. G–1973 and the application in Docket No. G–1950 be consolidated for the purpose of hearing, since the two proposals are stated to be mutually exclusive.

The total over-all estimated cost of construction of the facilities in Docket No. G–1973 is $238,000.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 9th day of July 1952. The application is on file with the Commission for public inspection.

[Docket No. G–1975]

MISSISSIPPI RIVER FUEL CORP.

NOTICE OF APPLICATION

JUNE 19, 1952.

Take notice that Mississippi River Fuel Corporation (Applicant), a Delaware corporation, having its principal place of business at 407 North 8th Street, St. Louis, Missouri, filed on June 12, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of a 2-inch diameter tap and a metering and regulating station connecting with Applicant's Line No. 1 in Morehouse Parish, Louisiana, for the delivery and sale of natural gas, upon an interruptible basis, to Mid-Valley Pipe Line Company (Mid-Valley) for use as fuel for pumping crude oil in Mid-Valley's pipe line system, which extends from Longview, Texas, to Lima, Ohio, or an order by this Commission disclaiming jurisdiction over the construction and operation of said facilities.

Applicant estimates that its sales to Mid-Valley will approximate 100,000 Mcf per year, and estimates that its annual gross revenues therefrom will approximate $20,000, based upon sales price of 20 cents per Mcf (at 14.73 psia). The cost of the facilities is estimated at $3,390, which is proposed to be financed by Applicant from cash on hand.

Applicant states that the gas to be delivered and sold to Mid-Valley will be used for fuel in its Stevenson station for pumping crude oil through its Texas-to-Ohio pipeline system; that the crude oil transported through Mid-Valley's line will be sold to three refineries; and that, with gas provided for operating its Stevenson station, 40,000 barrels of crude oil per day will be added to Mid-Valley's capacity.

Take notice that Applicant also filed on June 12, 1952, an application requesting a temporary certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, pending determination of its application as hereinbefore referred to and described, upon the grounds that an emergency need exists for Applicant's proposed service to Mid-Valley.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with its rules of practice and procedure (18 CFR 1.8 or 1.10), on or before the 9th day of July 1952. The applications are on file with the Commission for public inspection.

BONNEVILLE POWER ADMINISTRATION

NOTICE OF REQUEST FOR APPROVAL OF RATE FOR EXPERIMENTAL ENERGY FROM BONNEVILLE PROJECT

JUNE 19, 1952.

Notice is hereby given that the Secretary of the Interior has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, rates and charges contained in a supplemental agreement dated January 14, 1952, to a contract dated August 12, 1944, between Bonneville Power Administration and the Bureau of Mines, for the supply of energy for experimental use in the Bureau's Northwest Electrodevelopment Laboratory at Albany, Oregon.

The proposed supplement provides for an increase in the supply of power from 2,000 kw to 5,000 kw under the existing special rate for experimental energy of 2.5 mills per kwh.

Any person desiring to make representation with respect to the foregoing should, on or before July 9, 1952, file with the Federal Power Commission, Washington, 25, D. C., a petition or protest in accordance with the Commission's general rules and regulations.

[Project No. 233]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

JUNE 20, 1952.

Public notice is hereby given, pursuant to the provisions of the Federal Power Act (16 U. S. C. 791–825r), that Pacific Gas and Electric Company, of San Francisco, California, has made application for amendment of license for major Project No. 233 to authorize the company to proceed with the construction, operation and maintenance of the Pit 4 unit as contemplated in the license but with certain revisions in approved plans to provide for relocation of the powerhouse and related facilities; a reduction from three to two in the number of generating units but with a combined capacity of 100,000 kva as originally planned; and a change in the type of surge chamber to be constructed. In addition the application requests that certain exhibits showing minor changes which have been made in the Pit 3 unit of the project facilities be included in the license.

The diversion dam and reservoir for the Pit 4 unit were completed before December 31, 1927. The Pit 4 unit will be located on Pit River in the vicinity of Big Bend in Shasta County, California, affecting lands in sections 4, 7, 8, 9, and 10, T. 36 N., R. 2 E., and sections 9, 10, 11 and 12, T. 36 N., R. 1 E., MDB & M, some of which are lands of the United States within Shasta National Forest.

Any protest against the approval of this application or request for action thereon, with the reasons for such protest or request, and the name and address of the party or parties so protesting or requesting should be submitted on or before August 11, 1952, to the Federal Power Commission at Washington 25, D. C.

CENTRAL PUBLIC UTILITY CORP. ET AL.

ORDER APPROVING APPLICATIONS AND TERMINATING TRUST

JUNE 13, 1952.

In the matter of Central Public Utility Corporation, et al., applicants, File No. 54-182; Central Public Utility Corporation, et al., respondents, File No. 59-40; Christopher H. Coughlin, W. T. Crawford, and Rawleigh Warner, voting trustees under voting trust agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, applicant, File No. 54-53; Christopher H. Coughlin, W. T. Crawford, and Rawleigh Warner, voting trustees under voting trust agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, respondent, File No. 59-49.

Central Public Utility Corporation ("Central Public"), a registered holding company, having filed a plan under section 11 (e) of the act, for the purpose of partial compliance with the provisions of section 11 (b) of the act, which plan proposes:

(a) The termination of the voting trust, "Christopher H. Coughlin, W. T. Crawford and Rawleigh Warner, Voting Trustees under Voting Trust Agreement dated August 1, 1932, relating to Common Stock of Central Public Utility Corporation" ("Voting Trustees"), and the elimination, without participation in the reorganization, of the Voting Trust Certificates issued in connection therewith;

(b) The recapitalization of Central Public by canceling all its outstanding securities and issuing approximately 1,000,000 shares of new common stock, par value $6.00 a share, to the holders of the 5½ Percent Income Bonds, due August 1, 1952, of Central Public, presently outstanding in the aggregate principal amount of $42,101,202 ("Income Bonds"); and

(c) The merger of Consolidated Electric and Gas Company ("Consolidated"), a registered holding company and a direct and wholly owned subsidiary of Central Public, into Central Public;

Voting Trustees having joined in the plan to the extent the transactions proposed therein are applicable to them;

Central Public having requested that the order of the Commission conform to the requirements of and contain the recitals, specifications, and itemizations required by Supplement R and section 1808 (f) of the Federal Internal Revenue Code, as amended, and section 270-c (10) of the Tax Law of the State of New York;

Central Public having further requested that the Commission, pursuant to section 11 (e) of the act, apply to an appropriate court, in accordance with the provisions of section 18 (f) of the act, to enforce and carry out the terms and provisions of the plan;

The Commission having theretofore instituted proceedings under sections 11 (b) (1) and 11 (b) (2) of the act directed to Voting Trustees, Central Public, Consolidated, and their subsidiary companies, and such proceedings having been consolidated with the plan proceeding under section 11 (e);

Public hearings having been held with respect to these consolidated proceedings and the Commission having this day issued its findings and opinion with respect thereto:

It is ordered, Pursuant to section 11 (e) and the other applicable sections of the act, that the plan be, and the same hereby is, approved and the applications and declarations concerned with the transactions incident to consummating the plan, be, and the same hereby are, granted and permitted to become effective.

It is further ordered and recited, Pursuant to section 11 (e) and other applicable sections of the act and rules and regulations promulgated thereunder, that the transactions proposed in the plan, including but without being limited to those transactions described hereinafter, are approved and found to be necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and necessary or appropriate to the integration or simplification of the holding company system of which Central Public and Consolidated are members and the simplification of Central Public's corporate structure, and that the transactions incident to the plan meet all of the applicable standards of the act and rules and regulations promulgated thereunder. The transactions proposed in the plan have been described in five steps, designated therein as Step I through Step V inclusive, and include, among others, the following:

(I) The merger of Consolidated with and into Central Public, as provided in Step I of the plan, and, as a result thereof, the transfer to and the vesting in Central Public at the time of such merger of all the estate, property, rights, privileges, and franchises of Consolidated, including, without being limited to, the following stocks, bonds, notes, securities, or other evidences of indebtedness:

Carolina Coach Co. ("Carolina"): Common stock, 15,800 shares ($50 per share, par value).

Central Indiana Gas Co. ("Central Indiana"): Common stock, 400,000 shares ($10 per share, par value);

Central Natural Gas Corp. ("Central Natural"): Common stock, 10 shares (no par value), 6 percent demand note dated September 1, 1934, $212,890.33 face amount;

Central Public: $6 non-cumulative preferred stock, 35,000 shares (no par value);

Central Securities Transfer Co. ("Securities"): 6 percent demand note dated March 15, 1934, $38,672.11 face amount.

Porto Rico Gas & Coke Co. ("Porto Rico"): Common stock, 10,000 shares ($25 per share, par value), 6 percent cumulative preferred stock, 2,445 shares ($100 per share, par value);

Southern Cities Ice Co. ("Southern Cities"): Common stock, 1,000 shares (no par value);

The Islands Gas & Electric Co. ("Islands"): Common stock, 100,000 shares ($1.00 per share, par value), $7 cumulative preferred stock, 50,000 shares ($1.00 per share, par value.) Notes payable: 6 percent demand, dated August 1, 1935, formerly payable to International General Electric Co., Inc., $2,500,000 face amount; 6 percent, dated May 1, 1928, due May 1, 1938, $1,150,000 face amount; 6 percent, dated September 1, 1937, due September 1, 1940, $500,000 face amount; 6 percent income, dated August 1, 1932, due July 1, 1942, $4,862,604.33 face amount. Secured bonds, 10-year, 4 percent, series B, due March 1, 1953, $1,193,500 principal amount.

Union Electrica De Canarias, S. A. ("Union"): Common stock, 11,255 shares (1,000 pesetas per share, par value).

(2) The amendment of Central Public's Certificate of Incorporation, as proposed in Step II of the plan, and the effectuation thereby and in connection therewith of the following:

(a) The creation of a single new class of authorized capital stock ("new stock"), consisting of 1,100,000 shares, par value $6.00 a share, which will confer upon the holders of the new stock (other than Baltimore National Bank, Baltimore, Maryland ("Baltimore National"), as holder of the shares of the new stock that are distributable by it to the owners of Central Public's 20-year, 5½ Percent Income Bonds, as provided in Step IV of the plan), (i) cumulative voting rights and (ii) preemptive rights, both as described in (1) of section (A) of Step II of the plan;

(b) The extinguishment and cancellation of the entire amount of Central Public's presently authorized capital stock and of all the shares of such stock theretofore issued and then outstanding, and also of all the then rights of owners or holders of Voting Trust Certificates, bearers of scrip certificates, and others, in and to or to have issued any shares of such stock, without any owner or holder of such share or of Voting Trust Certificates or any such bearer or other having any right of participation to any extent whatsoever in the new capital or the new stock;

(c) The issuance of the number of shares of new common stock as described in section (B) of Step IV of the plan to Baltimore National for distribution by it to all the owners of the outstanding Income Bonds in exchange for the surrender thereof, subject to the condition that Baltimore National, as the holder of the shares so issued to it ("distributable shares"), shall not have the right at any time to exercise any of the voting rights appertaining thereto;

(d) The reduction of the capital of Central Public to the extent of the difference between $6,229,211.62 and the aggregate par value of the distributable shares issued to Baltimore National;

(3) The acceptance by Baltimore National of the distributable shares issued to it for the account of the owners of Income Bonds and bearers of scrip certificates issued by Baltimore National, the recordation by Central Public of such shares in the name of Baltimore National as the holder of record thereof, and the delivery by Central Public to and the acceptance by Baltimore National, as the Trustee under Central Public's Trust Indenture dated August 1, 1932, as amended ("Indenture"), of a stock certificate or certificates representing all of the distributable shares, in full satisfaction and discharge of the principal of, and all interest accrued or accumulated on the Income Bonds, and of all Central Public's obligations under the indenture;

(4) The satisfaction and discharge, for all purposes, simultaneously with the delivery by Central Public to Baltimore National of the stock certificate or certificates described above, of all obligations and duties of Central Public under and as party to the Indenture, including, without limitation, Central Public's obligation to pay principal and interest, including accrued or accumulated interest on the Income Bonds, and the termination concurrently therewith of all rights of whomsoever against Central Public arising under the indenture, including all the rights of the owners of Income Bonds as creditors of Central Public and as owners or holders of such bonds; provided, however, that the owners of Income Bonds then will have the rights specified in the plan;

(5) The distribution, as provided in Step IV of the plan, by Baltimore National and by Central Public through Baltimore National, as its agent for distribution, in the manner, to the extent, and subject to the conditions specified in said Step IV, of all or any part of the distributable shares, including the issuance by Baltimore National of scrip certificates in lieu of fractional shares, to the owners of Income Bonds in exchange for the surrender to Baltimore National of such bonds;

(6) The issuance by Baltimore National of scrip certificates for fractional shares to the persons entitled thereto and the transfer by Baltimore National of distributable shares upon the surrender to Baltimore National of scrip certificates within the eight-year period of distribution, as defined in Step IV of the plan, and the termination concurrently with the expiration of said period of all scrip certificates not theretofore surrendered and not then in the possession of Baltimore National and of all rights of whomsoever thereunder;

(7) The payment to and the receipt by Baltimore National for the account of the owners of unsurrendered Income Bonds and bearers of scrip certificates of any and all dividends paid by Central Public on distributable shares held of record by Baltimore National, and the payment, by Baltimore National of such dividends to the persons entitled thereto at the times, to the extent, and subject to the conditions specified in Step IV of the plan;

(8) The surrender by Baltimore National to Central Public for extinguishment at the time specified and otherwise, as provided in section (J) of Step IV of the plan, and the acceptance by Central Public of the surrender for the aforesaid purpose of all the distributable shares not theretofore distributed or then distributable, and, concurrently therewith, the payment by Baltimore National to and the acceptance by Central Public, free and clear for its own use, of all moneys representing dividends theretofore paid by Central Public to Baltimore National on the surrendered shares.

It is further ordered, That the foregoing provisions of this order shall not be operative to authorize or require the carrying out of the proposals of the plan until an appropriate United States District Court shall have entered an order approving and enforcing said plan.

It is further ordered, That the foregoing approvals and authorizations are subject to the following terms and conditions:

(1) That the authority hereby conferred shall be subject to the terms and conditions prescribed in Rule U-24;

(2) That jurisdiction is generally reserved to the Commission to entertain such further proceedings, to make such supplemental findings, and to take such further action as it may deem appropriate in connection with the plan, the transactions incident thereto, and the consummation thereof; and that jurisdiction is specifically reserved to consider and determine the following matters:

(a) The reasonableness and appropriate allocation of all fees, expenses, and other remunerations incurred or to be incurred in connection with the plan and the transactions incident thereto; and

(b) The nature of all notices to security holders of Central Public issued in connection with carrying out the provisions of the plan and the methods to be employed by Central Public in effecting the exchanges of securities and appearing in the plan and specifically whether and under what circumstances the employment of agents is required to assist in effecting consummation of the plan.

It is further ordered, Pursuant to section 11 (b) (2) of the act, that the Voting Trustees for the common stock of Central Public take appropriate steps to terminate the trust and to return the common stock of Central Public now held by such Voting Trustees to that company for cancellation; that Central Public take appropriate steps to recapitalize on a basis whereby it will have outstanding only a single class of capital stock; and that Central Public take appropriate steps to terminate the existence of Consolidated, Islands and Securities; all of the foregoing to be carried out in an appropriate manner, not in contravention of the act or the rules, regulations, and orders of the Commission thereunder: *Provided, however*, That if the above described plan is duly consummated, such action to the extent that it effectuates any of the foregoing, will be deemed compliance with those requirements of this order;

It is further ordered, Pursuant to sections 11 (b) (1) and 11 (b) (2) of the act, that jurisdiction is hereby expressly reserved to make such additional findings as the Commission may determine to be appropriate in the premises and, on the basis thereof, to direct such action by Central Public and the companies in its holding company system as may be deemed necessary to effectuate compliance by the holding company system with the standards of those sections of the act.

By the Commission.

OHIO POWER CO. AND AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING CONCERNING ISSUANCE OF NOTES TO BANKS AND SALE OF COMMON STOCK BY SUBSIDIARY TO PARENT

JUNE 20, 1952.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, and its electric utility subsidiary, The Ohio Power Company ("Ohio"), have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935, and have designated sections 6, 7, and 10 thereof as applicable to the proposed transactions which are summarized as follows:

Ohio proposes to issue and sell, and American Gas proposes to purchase, 300,000, shares of Ohio's no par value common stock for a cash consideration of $14,500,000. The funds proposed to be used by American Gas for this purpose will be derived from the proceeds of its sale of common stock and debentures (File No. 70-2878).

Ohio has established a line of credit with six banking institutions pursuant to which Ohio proposes to borrow not to exceed $18,000,000 from time to time prior to March 31, 1953. Such borrowings will be evidenced by the issuance and sale of promissory notes by Ohio bearing interest from the date thereof at the then current prime credit rate and maturing 270 days after the date of such issuance.

Of the $18,000,000 proposed to be borrowed, Ohio had, as of March 31, 1952, borrowed $5,000,000 from such banks and had issued its notes in evidence thereof. It is further stated that additional borrowings of not to exceed $6,000,000 may be made prior to the effective date of the declaration. These borrowings are stated to be exempt from the provisions of section 6 (a) by reason of the provisions of section 6 (b).

The application-declaration states that at least five days prior to each borrowing or renewal made subsequent to the effective date of the joint application-declaration, an amendment will be filed setting forth the amount of said proposed borrowing and the annual rate of interest thereon. Ohio requests that such amendment or amendments become effective five days after the filing thereof provided no action is taken with respect thereto within such five-day period by the Commission.

The application-declaration further states that the notes may be repaid from time to time in whole or in part without premium.

Proceeds from the proposed sale of securities will be used by Ohio in connection with its construction program which, it is presently estimated, will require the expenditure of approximately $47,500,000 in 1952 and $51,000,000 in 1953.

Notice is further given that any interested person may, not later than July 2, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 2, 1952, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said joint application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

APPALACHIAN ELECTRIC POWER CO. AND AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING CONCERNING ISSUANCE OF NOTES TO BANKS AND SALE OF COMMON STOCK BY SUBSIDIARY TO PARENT

JUNE 20, 1952.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, and its electric utility subsidiary Appalachian Electric Power Company ("Appalachian"), have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935, and have designated sections 6, 7, and 10 thereof as applicable to the proposed transactions which are summarized as follows:

Appalachian proposes to issue and sell, and American Gas proposes to purchase, 300,000 shares of Appalachian's no par value common stock for a cash consideration of $9,000,000. The funds proposed to be used by American Gas for this purpose will be derived from the proceeds of its sale of common stock and debentures (File No. 70-2878).

Appalachian has established a line of credit with four banking institutions pursuant to which Appalachian proposes to borrow not to exceed $25,000,000 from time to time prior to May 31, 1953. Such borrowings will be evidenced by the issuance and sale of promissory notes by Appalachian bearing interest from the date thereof at the then current prime credit rate and maturing 270 days after the date of such issuance.

Of the $25,000,000 proposed to be borrowed, Appalachian had, as of May 31, 1952, borrowed $8,000,000 from such banks and had issued its notes in evidence thereof. It is further stated that additional borrowings of not to exceed $4,500,000 may be made prior to the effective date of the declaration. These borrowings are stated to be exempt from the provisions of section 6 (a) by reason of the provisions of section 6 (b).

The application-declaration states that at least five days prior to each borrowing or renewal made subsequent to the effective date of the joint application-declaration, an amendment will be filed setting forth the amount of said proposed borrowing and the annual rate of interest thereon. Appalachian requests that such amendment or amendments become effective five days after the filing thereof provided no action is taken with respect thereto within such five-day period by the Commission.

The application-declaration further states that the notes may be repaid from time to time in whole or in part without premium.

Proceeds from the proposed sale of securities will be used by Appalachian in connection with its construction program which, it is presently estimated, will require the expenditure of approximately $42,000,000 in 1952 and $37,000,000 in 1953.

Notice is further given that any interested person may, not later than July 2, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 2, 1952, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said joint application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed.

FEDERAL REGISTER

VOLUME 17 NUMBER 126

Washington, Friday, June 27, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10366

AMENDING THE SELECTIVE SERVICE REGULATIONS

By virtue of the authority vested in me by title I of the Universal Military Training and Service Act (62 Stat. 604), as amended, I hereby prescribe the following amendment of the Selective Service Regulations prescribed by Executive Order No. 10292 [1] of September 25, 1951, and constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations:

Section 1622.23 of Part 1622, *Classification Rules and Principles*, is amended to read as follows:

§ 1622.23 *Necessary employment defined.* (a) Except as otherwise provided in paragraph (b) of this section, a registrant's employment in industry or other occupation, service in office, or activity in research, or medical, scientific, or other endeavors, shall be considered to be necessary to the maintenance of the national health, safety, or interest only when all of the following conditions exist:

(1) The registrant is, or but for a seasonal or temporary interruption would be, engaged in such activity.

(2) The registrant cannot be replaced because of a shortage of persons with his qualifications or skill in such activity.

(3) The removal of the registrant would cause a material loss of effectiveness in such activity.

(b) A registrant's activity as an apprentice in an apprentice training program may be considered to be necessary to the maintenance of the national health, safety, or interest when all of the following conditions exist:

(1) The apprentice training program meets the standards and requirements prescribed by the Director of Selective Service based upon the recommendations of the Secretary of Labor.

(2) The program has been accepted by the Director of Selective Service for deferment purposes.

(3) The registrant has satisfactorily completed in the program a minimum amount of training prescribed by the Director of Selective Service.

(4) The registrant is satisfactorily pursuing his training in the program and meeting the requirements, and standards of performance prescribed by the Director of Selective Service.

(c) The President may, from time to time (1) designate special categories of occupation, employment, or activity essential to the national health, safety, or interest; and (2) prescribe regulations governing the deferment of individual registrants engaged in such occupations, employments, or activities.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter I—Determination of Prices

[Sugar Determination 871.5]

PART 871—SUGAR BEETS

FAIR AND REASONABLE PRICES FOR 1952 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948 (herein referred to as "act"), after investigation, and due consideration of evidence presented at the several public hearings held in October 1951 (for southern Oregon, California and southwestern Arizona), and during December 1951 (for States other than those regions), the following determination is hereby issued:

§ 871.5 *Fair and reasonable prices for the 1952 crop of sugar beets.* A processor-producer of sugar beets who applies for a payment under the act shall be deemed to have complied with the provisions of section 301 (c) (2) of said act with respect to the 1952 crop of sugar beets, if such processor-producer shall have paid (or contracted to pay) for sugar beets purchased from other producers and processed by said processor-producer prices not less than those provided for in the 1952 crop purchase contract between said parties: *Provided*, That the processor-producer shall not reduce returns to producers below those determined in this section through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination establishes fair and reasonable prices which a processor-producer (i. e., a producer who is also, directly or indirectly, a processor of sugar beets—hereinafter referred to as "processor") must pay, as a minimum, for 1952 crop sugar beets purchased from other producers as one of the conditions for payment under the act.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable prices, the act requires that public hearings be held and investigations made. Accordingly, public hearings were held at Berkeley, California, on October 25, 1951, and at Detroit, Michigan; St. Paul, Minnesota; Billings, Montana; Salt Lake City, Utah; and Greeley, Colorado, during the period January 3 through January 12, 1952.

In the 1952 crop price determination, consideration has been given to testimony presented at the public hearings, comparative returns, costs and profits of processors and producers, relative investments, contracts negotiated between the parties, and to other pertinent economic factors.

(c) *1952 fair price determination.* The 1952 price determination provides that a processor shall be deemed to have complied with the fair price provisions of the act if he pays, or contracts to pay, for sugar beets prices not less than those provided for in his 1952 crop purchase contracts with producers.

Most of the 1952 crop purchase contracts are identical to those used for the

1951 crop. Payment scales were revised in contracts used by several processors. In one, prices payable per ton of sugar beets were increased a few cents at and above net return levels of $7.25 per hundred pounds of refined beet sugar; in two other contracts, payments were increased at net return levels above $8.00 per hundred pounds; in another contract, the producers' share of sugar proceeds was increased one-half of one percent at net return levels of $7.00 to $7.49 and an additional one-half of one percent at net returns of $7.50 and above; and in another contract, the producers' share of proceeds from sugar and by-products was changed from a sliding scale ranging from 50 to 58 percent, based on volume of sugar beets ground by the factory, to a flat 52½ percent of such proceeds without regard to volume. In several contracts, one of the factors on which payments to producers is based, the average sucrose content of beets sliced, was changed from a multiple factory average to an individual factory average basis. The separate settlement areas used to determine net returns from sugar were combined into a single settlement area in two contracts used by one processor. Other changes in various contracts included redefinition of "average net return", "average sucrose content", new methods of determining "top tare", prices for or availability of certain types of sugar beet seed, and a modification of the minimum requirements for acceptable beets. The effect of the above changes on the average returns to producers for the 1952 crop is considered to be nominal.

At the public hearing, producer representatives in four regions testified that prices for sugar beets did not compare favorably with returns from competing crops. Three of the four witnesses indicated general approval of existing contracts with processors, while the fourth raised a question with respect to one feature of his 1951 contract. This feature has been modified in the contract negotiated for 1952. One witness also called attention to the marketing practice of selling sugar for future delivery at the contractual or market price, whichever is lower, at time of delivery. The witness recommended that such practice be prohibited. No action is taken in this determination with regard to this recommendation because the authority under section 301 (c) (2) of the act does not extend to regulation of competitive trade practices with respect to the sale of sugar.

In analyzing the 1952 crop purchase contracts, consideration has been given to comparative operating results of processors and producers which, for this purpose, have been estimated by restating data obtained in a study for a previous crop to reflect probable results under 1952 crop, price, and volume conditions. The analysis indicates that prices payable for sugar beets in 1952 crop purchase contracts are fair and reasonable at the present level of sugar prices (8.65 cents per pound, seaboard basis, refined cane sugar) and at sugar prices within the expected range above and below the present level.

Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948.

Issued this 24th day of June 1952.

AUTHORITY: §§ 942.1 to 942.112 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 942.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, as amended, effective not later than July 1, 1952. Such action is necessary in the public interest in order to reflect current marketing conditions and promote the orderly marketing of milk in the New Orleans marketing area. The provisions of the said order are well known to handlers, having been published in a recommended decision which appeared in the FEDERAL REGISTER May 6, 1952 (17 F. R. 4171) and in a final decision which appeared in the FEDERAL REGISTER June 10, 1952 (17 F. R. 5243).

The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers or producers. It is hereby found therefore that good cause exists for making this order effective July 1, 1952 (sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period (April 1952), were engaged in the production of milk for sale in the said marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the New Orleans, Louisiana, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

DEFINITIONS

§ 942.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended, by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 942.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 942.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

§ 942.4 *New Orleans, Louisiana, marketing area.* "New Orleans, Louisiana, marketing area," hereinafter called the "marketing area" means the cities, towns, and villages of New Orleans in Orleans Parish: Gretna, Westwego, Marrero, Harvey, Metairie, and Belle Chasse in Jefferson Parish; Poydras, St. Bernard, Violet, Meraux, Chalmette, and Arabi in St. Bernard Parish; all in the State of Louisiana.

§ 942.5 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 942.6 *Producer.* "Producer" means a person other than a producer-handler, who produces milk for consumption as milk in the marketing area and which is received at a fluid milk plant.

§ 942.7 *Handler.* "Handler" means a person who operates a fluid milk plant.

§ 942.8 *Producer-handler.* "Producer-handler" means a person who produces milk and who processes milk from his own production and distributes all or a portion of such milk in the marketing area as Class I milk but who receives no milk from dairy farmers or other producer-handlers in bulk.

§ 942.9 *Fluid milk plant.* "Fluid milk plant" means a milk plant (a) where milk is processed and packaged and from which Class I milk as defined in § 942.41 (a) is disposed of to retail or wholesale outlets (including plant stores) in the marketing area or (b) from which milk or cream is transferred to a plant described in paragraph (a) of this section: *Provided,* That any such transferring plant shall not be included in this definition during any month in which there is shipped from such plant only Class I–A, Class II or Class III milk as defined in § 942.41 (b), (c) and (d) respectively, or during any of the months of September, October, November, and December in which shipments of fluid whole milk or fluid skim milk from such plant are made to a plant described in paragraph (a) of this section on less than 20 days or during any other month in which such shipments are made on less than 5 days.

§ 942.10 *Producer milk.* "Producer milk" means any skim milk or butterfat contained in milk received by a handler either directly from producers or from other handlers.

§ 942.11 *Other source milk.* "Other source milk" means all skim milk and butterfat received in any form from a source other than producers or other handlers, except any non-fluid product received and disposed of in the same form.

§ 942.12 *Delivery period.* "Delivery period" means a calendar month, or the portion thereof during which this order is in effect.

§ 942.13 *Market administrator.* "Market administrator" means the agency which is described in § 942.20 for the administration of this part.

§ 942.14 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines (a) to have its entire activities under the control of its members, and (b) to have and to be exercising full authority in sale of milk of its members.

MARKET ADMINISTRATOR

§ 942.20 *Designation.* The agency for the administration of this part shall be a market administrator selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 942.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 942.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 942.84, (1) the cost of his bond and of the bonds of his employees; (2) his own compensation; and (3) all other expenses, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary, surrender the same to such

other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 5 days after the day upon which he is required to perform such acts has not made (1) reports pursuant to § 942.30 or (2) payments pursuant to §§ 942.80 and 942.84.

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) Weigh, sample and test for butterfat content milk and milk products;

(k) From time to time, as conditions in the market warrant, publicly announce the name of each handler whose receipts of skim milk and/or butterfat in milk received from producers are more than 105 percent and less than 95 percent, respectively, of his total utilization of skim milk and butterfat, respectively, in Class I milk.

(l) Publicly announce and notify each handler in writing the prices and butterfat differentials for each delivery period as follows:

(1) On or before the 6th day after the end of each delivery period, the Class II and Class III prices of skim milk and butterfat for such delivery period;

(2) On or before the 1st day of each delivery period the Class I price of skim milk and butterfat for such delivery period.

(3) On or before the 10th day after the end of each of the delivery periods of September through February such handler's uniform price per hundredweight of skim milk, butterfat, and milk containing 4.0 percent butterfat for such delivery period, and the butterfat differential applicable to such milk; and

(4) On or before the 10th day after the end of each of the delivery periods of March through August and September, 1952, such handler's uniform price per hundredweight for base milk and excess milk for such delivery period, and the butterfat differentials applicable to such base and excess milk.

REPORTS, RECORDS, AND FACILITIES

§ 942.30 *Reports of receipts and utilization.* On or before the 5th day after the end of each delivery period each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in all receipts at his fluid milk plant(s) within such delivery period of (1) producer milk and for the months of March through August and September, 1952, the aggregate quantities of base and excess milk, (2) skim milk and butterfat in any form from other handlers, and (3) other source milk; and

(b) The utilization of all skim milk and butterfat required to be reported under paragraph (a) of this section.

§ 942.31 *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows, except that each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request:

(a) On or before the 20th day after the end of the delivery period, his producer payroll for such delivery period which shall show: (1) The total pounds of milk received from each producer or cooperative association, including for the delivery periods of March through August and September 1952, the total deliveries of base milk and excess milk by each producer, (2) the number of days deliveries are made and if less than a full calendar month, the date of first and last delivery, (3) the average butterfat content of such milk, and (4) the net amount of such handler's payment to each producer or a cooperative association together with the prices paid, deductions and charges involved.

§ 942.32 *Records and facilities.* Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weigh, sample, and test for butterfat content all milk and milk products handled; (c) verify payments to producers; and (d) make such examinations of operations, equipment, and facilities, as are necessary and essential to the proper administration of this part or any amendments thereto.

§ 942.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 942.40 *Basis of classification.* All skim milk and butterfat contained in milk and butterfat used to produce receipts at a fluid milk plant(s), within the delivery period, of (a) producer milk, (b) skim milk and butterfat in any form from other handlers, and (c) other source milk, shall be classified by the market administrator in the classes set forth in § 942.41.

§ 942.41 *Classes of utilization.* Subject to the conditions set forth in § 942.42 through § 942.45, the classes of utilization shall be as set forth in this section: *Provided*, That no skim milk or butterfat, as the case may be, contained in producer milk shall be classified as Class II milk or Class III milk, during any of the delivery periods of October through February if the total receipts of skim milk and butterfat in milk received from producers during the preceding delivery period is less than 90 percent of the utilization of skim milk or butterfat, respectively, by all handlers, in Class I milk.

(a) Class I milk shall be all skim milk and butterfat (1) disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks (including eggnog), yogurt, cream (for consumption as cream including any mixture of cream and milk or skim milk other than ice cream and ice cream mix), (2) used to produce concentrated (including frozen) milk, and (3) not specifically accounted for as Class I–A milk, Class II milk, or Class III milk.

(b) Class I–A milk shall be all skim milk and butterfat disposed of as sterilized milk.

(c) Class II milk shall be all skim milk and butterfat used to produce cheese other than cheddar, ice cream and ice cream mix; and

(d) Class III milk shall be (1) all skim milk and butterfat disposed of as any item other than those classified in paragraphs (a), (b), and (c) of this section; (2) skim milk and butterfat disposed of for livestock feed; (3) skim milk dumped, and (4) skim milk and butterfat accounted for as actual plant shrinkage but not in excess of 2 percent of receipts of skim milk and butterfat, respectively, from producers.

§ 942.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified as Class II or Class III milk.

(b) Any skim milk or butterfat classified (except that transferred to a producer-handler) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 942.43 *Transfers.* Skim milk or butterfat disposed of by a handler during any delivery period in fluid form as milk, skim milk, or cream, either by transfer or diversion shall be classified:

(a) As Class I milk if moved to a fluid milk plant of another handler (except a producer-handler), unless (1) utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 5th day after the end of the delivery period, in which such transaction occurred, but in no event shall the amount classified in any class exceed the total use in such class by the transferee-handler: *Provided*, That if either or both handlers have received other source milk, such milk so disposed of shall be classified at both plants so as to return the highest available class utilization to producer milk.

(b) As Class I milk if moved in the form of any items specified in § 942.41 (a) to a producer-handler.

(c) As Class I milk if moved to any plant other than a fluid milk plant, unless:

(1) The handler claims utilization in another class;

(2) The operator of such non-fluid milk plant maintains books and records, showing the receipts and utilization of all skim milk and butterfat at such plant, which are made available if requested by the market administrator for the purpose of verification; and

(3) The utilization of skim milk and butterfat, at such plant, in Class I milk, as defined in § 942.41 is less than the total pounds of skim milk and butterfat, respectively, received from the transferor handler(s) and from dairy farmers whom the market administrator determines constitute the regular source of supply for fluid usage in such plant, in which case the skim milk and butterfat transferred shall be assigned to the remaining uses of skim milk and butterfat, respectively, during such delivery period in series starting with Class I milk after the similar assignment of the receipts of skim milk and butterfat from such dairy farmers.

§ 942.44 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk, and Class III milk for such handler.

§ 942.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for each handler for each delivery period shall be the pounds in such class allocated to producer milk:

(1) Subtract the shrinkage of skim milk, computed pursuant to § 942.41 (d) (4) from the total pounds of skim milk in Class III milk;

(2) Subtract from the pounds of skim milk remaining in each class, in series beginning with the lowest available price class, the pounds of skim milk in other source milk;

(3) Subtract from the pounds of skim milk remaining in each class, the pounds of skim milk received from other handlers and assigned to such class pursuant to § 942.43 (a);

(4) Add to the pounds of skim milk remaining in Class III milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; or if the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class, in series beginning with Class III.

(b) Allocate the pounds of butterfat in each class to producer milk in the same manner prescribed for skim milk in paragraph (a) of this section.

MINIMUM PRICES

§ 942.50 *Class I prices.* Each handler shall pay producers, in the manner set forth in § 942.80, for skim milk and butterfat in milk received at his fluid milk plant from such producers during each delivery period and classified as Class I skim milk and Class I butterfat, not less than the prices per hundredweight computed pursuant to this section. In determining the Class I price for skim milk and butterfat for each delivery period the latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used:

(a) The monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(b) Divide by 3 the sum of the 3 latest monthly indexes of department store sales in New Orleans adjusted for seasonal variations, as reported by the Federal Reserve Bank of Atlanta, with the years 1947–49 as the base period.

(c) Compute an index of grain-labor prices in the New Orleans milkshed in the following manner:

(1) Divide by 0.0434 the average price paid per hundredweight by Louisiana farmers for all mixed dairy feed, as reported by the United States Department of Agriculture, and multiply by 0.6;

(2) Divide by 0.0321 and 0.0318, respectively, the daily farm wage rates without board or room for the latest available month for Mississippi and Louisiana, as reported by the United States Department of Agriculture. Multiply by 0.4 the weighted average of the resulting totals. In computing the weighted average, weight Mississippi 0.25 and Louisiana 0.75;

(3) Add the results determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Divide by 3 the sum of the final results computed pursuant to paragraphs (a), (b) and (c) of this section. The result rounded to the nearest whole number shall be known as the formula index.

(e) Subject to the conditions set forth in paragraphs (f) and (i) of this section, the minimum price for skim milk and butterfat received at a handler's plant located in the 61–70 mile zone shall be as follows:

(1) Multiply $5.70 by the formula index computed pursuant to paragraph (d) of this section and add to or subtract from such result a supply-demand adjustment computed as follows:

(i) Divide the total receipts of producer milk in the two immediately preceding delivery periods by the total gross volume of Class I milk (less interhandler transfers) for such period, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current supply-demand relationship."

(ii) Compute a net deviation percentage by subtracting from the "current supply-demand relationship" computed pursuant to subdivision (i) of this subparagraph, the "representative supply-demand index" shown below:

Delivery period for which the Class I price is computed	Delivery periods used to compute relationship	Representative supply-demand index
		Percent
January	October-November	111
February	November-December	114
March	December-January	119
April	January-February	126
May	February-March	132
June	March-April	142
July	April-May	147
August	May-June	141
September	June-July	140
October	July-August	132
November	August-September	118
December	September-October	114

(iii) Determine the amount of the supply-demand adjustment from the following schedule:

Net deviation (percentage points):	*Adjustment amount (cents)*
−24 or more	+49
−21 or −22	+43
−18 or −19	+37
−15 or −16	+31
−12 or −13	+25
−9 or −10	+19
−6 or −7	+13
−3 or −4	+7
−1, 0, or +1	0
+3 or +4	−7
+6 or +7	−13
+9 or +10	−19
+12 or +13	−25
+15 or +16	−31
+18 or +19	−37
+21 or +22	−43
+24 or more	−49

In case the net deviation percentage does not fall within the tabulated brackets, the adjustment amount shall be determined by the adjacent net deviation bracket which is the same as or nearest to the bracket used in the previous month.

(2) The price of butterfat shall be the sum obtained in subparagraph (1) of this paragraph multiplied by 17.5.

(3) The price of skim milk shall be computed by (i) multiplying the price of butterfat pursuant to subparagraph (2) of this paragraph by 0.04; (ii) subtracting such amount from the sum obtained in subparagraph (1) of this paragraph; (iii) dividing such net amount by 0.96; and (iv) rounding off to the nearest full cent.

(f) For skim milk and butterfat received at such handler's plant located in a freight zone other than the 61–70 mile zone, the prices shall be those effective pursuant to paragraph (e) of this section adjusted by the respective amount indicated in the following schedule for the freight zone in which such plant is located:

Freight zone (miles):	*Cents per hundredweight*
Not more than 20	+28.0
More than 20 but not more than 30	+8.0
More than 30 but not more than 40	+6.0
More than 40 but not more than 50	+4.0

Freight zone (miles):	Cents per hundredweight
More than 50 but not more than 60	+2.0
More than 60 but not more than 70	0.0
More than 70 but not more than 80	−2.0
More than 80 but not more than 90	−4.0
More than 90 but not more than 100	−6.0
More than 100 but not more than 110	−7.0
More than 110	−8.0

(g) The market administrator shall from time to time determine and publicly announce the freight zone location of each plant of each handler, according to the railroad mileage distance between such country plant and the railroad terminal in New Orleans, or according to the highway mileage distance between such plant and the City Hall in New Orleans, whichever is shorter.

(h) For the purpose of this section, the skim milk and butterfat which was classified as Class I skim milk and Class I butterfat during each delivery period shall be considered to have been first that skim milk and butterfat which was received from producers at such handler's plant located in the 0–20 mile zone, then that skim milk and butterfat which was received from producers at such handler's plant in series beginning with plants located in the freight zone nearest to New Orleans.

(i) Notwithstanding the provisions of the preceding paragraphs of this section, the Class I prices for any of the delivery periods of April through June shall not be higher than the Class I prices for the immediately preceding delivery period, and the Class I prices for any of the delivery periods of October through December shall not be lower than the Class I prices for the immediately preceding delivery period.

§ 942.51 *Class I–A prices.* Each handler shall pay producers, in the manner set forth in § 942.80 for skim milk and butterfat received at his fluid milk plant from such producers during each delivery period and classified as Class I–A skim milk and Class I–A butterfat not less than the Class I prices for skim milk and butterfat, respectively, pursuant to § 942.50, except during the months of March through August when the price shall be 80 percent of such Class I prices pursuant to § 942.50 for the 60–71 mile zone.

§ 942.52 *Class II prices.* Each handler shall pay producers, in the manner set forth in § 942.80, for skim milk and butterfat in milk received from them during each delivery period and classified as Class II skim milk and Class II butterfat, not less than the following prices per hundredweight:

(a) The prices per hundredweight of skim milk shall be computed as follows: Deduct 4 cents from the average of the carlot prices per pound of nonfat dry milk solids (not including that specifically designated animal feed), spray and roller process, f. o. b. manufacturing plants in the Chicago area, as reported by the United States Department of Agriculture during the delivery period, and multiply the result by 8.5.

(b) The price per hundredweight of butterfat shall be computed as follows: From the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture during the delivery period, subtract 3 cents, add 20 percent thereof and multiply by 100.

§ 942.53 *Class III prices.* Each handler shall pay producers, in the manner set forth in § 942.80, for skim milk and butterfat in milk received from them during each delivery period and classified as Class III skim milk and Class III butterfat, not less than the following prices per hundredweight:

(a) The price per hundredweight of skim milk shall be any plus amount resulting from the following computation: From the average of the carlot prices per pound for nonfat dry milk solids (not including that specifically designated animal feed), roller process, delivered at Chicago, as reported by the United States Department of Agriculture during the delivery period, deduct 7 cents, and then multiply by 7.5.

(b) The price per hundredweight of butterfat shall be computed as follows: Multiply by 100 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture during the delivery period.

§ 942.54 *Use of equivalent factors.* If for any reason a price, index, or wage rate specified by this order, for use in computing class prices and for other purposes is not reported or published in the manner described in this part, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

BASE RATING

§ 942.60 *Base operating period.* The base operating period shall be the months of March through August; except for the year 1952, September shall be included.

§ 942.61 *Base forming period.* The base forming period for each year shall be the months of October through February, immediately preceding the base operating period; except for the year 1952, March shall be included in the base forming period.

§ 942.62 *Determination of daily base.* The daily base of each producer shall be an amount calculated by the handler(s) to whom such producer delivered milk during the base forming period, subject to verification by the market administrator, as follows: Divide the total pounds of milk received from such producer during the base forming period by the number of days in such period.

§ 942.63 *Computation of base.* The base of each producer to be applied during the base operating period shall be a quantity of milk calculated, by the handler who receives milk from such producer, in the following manner, subject to verification by the market administrator: Multiply the daily base of such producer with such handler by the number of days for which such producer's milk was delivered to such handler during the delivery period.

§ 942.64 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle when such share basis is terminated.

(b) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of each landlord and tenant may be combined and may be divided when such relationship is terminated.

(c) Base may be transferred only under the following conditions:

(1) In case of the death of a producer, his base may be transferred to a surviving member or members of his immediate family who carry on the dairy operations; and

(2) In the case of retirement of a producer, his base may be transferred to a member or members of his immediate family who carry on the dairy operation.

(d) The entire daily base of a producer with a handler may be moved from such handler to another handler.

§ 942.65 *Announcement of established bases.* On or before the 25th day after the end of the base forming period, each handler shall notify each producer from whom he received milk during the base forming period of his established base and post publicly the base of such producers.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 942.70 *Computation of the value of skim milk and butterfat for each handler.* (a) For each delivery period the market administrator shall compute for each handler the value of skim milk received by such handler from producers during such delivery period as follows:

(1) Multiply the pounds of skim milk in each class by the price of skim milk for such class and combine the resulting sums into one total;

(2) Add to the value obtained in subparagraph (1) of this paragraph an amount determined by multiplying the pounds of skim milk subtracted pursuant to § 942.45 (a) (4) by the appropriate class price; and

(3) Add to or subtract from, as the case may be, the value obtained in subparagraph (2) of this paragraph an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk for previous delivery periods, including in such amount the value of any skim milk reclassified pursuant to § 942.42 (b).

(b) For each delivery period the market administrator shall compute for each handler the value of butterfat received by such handler from producers during such delivery period by making the same computations for butterfat as prescribed for skim milk in paragraph (a) of this section.

§ 942.71 *Computation of uniform price for each handler.* (a) For each of the delivery periods of September (except September 1952) through February the market administrator shall compute, to the nearest one-tenth cent, for each handler the uniform price per hundredweight of skim milk received by such handler from producers as follows:

(1) Add to the value of skim milk computed pursuant to § 942.70 (a) an amount computed by multiplying the total hundredweight of skim milk received by such handler from producers at plants located in each freight zone farther from New Orleans than the 61–70 mile zone by the appropriate zone differential set forth in the schedule pursuant to § 942.50 (f).

(2) Subtract from the value of skim milk computed pursuant to subparagraph (1) of this paragraph an amount computed by multiplying the total hundredweight of skim milk received by such handler from producers at plants located in each freight zone nearer New Orleans than the 61–70 mile zone by the appropriate zone differential set forth in the schedule pursuant to § 942.50 (f); and

(3) Divide the value obtained pursuant to subparagraph (2) of this paragraph by the hundredweight of skim milk. This result shall be known as the uniform price per hundredweight for such handler of skim milk received from producers at plants located in the 61–70 mile zone.

(b) For each of the delivery periods of September (except September 1952) through February the market administrator shall compute, to the nearest one-tenth cent, for each handler the uniform price per hundredweight of butterfat received by such handler from producers at plants located in the 61–70 mile zone by making the same computations for butterfat as prescribed for skim milk in paragraph (a) of this section.

(c) For each of the delivery periods of September (except September 1952) through February the market administrator shall compute, to the nearest one-tenth cent, for each handler the uniform price per hundredweight of milk containing 4.0 percent butterfat received from producers at plants located in the 61–70 mile zone by combining the values of 96 pounds of skim milk and 4 pounds of butterfat at the respective uniform prices.

§ 942.72 *Computation of the uniform price for base milk and excess milk for each handler.* For each of the delivery periods of March through August and September 1952, the market administrator shall compute, to the nearest one-tenth cent, for each handler the uniform price per hundredweight of "base milk" and "excess milk" as follows:

(a) Combine into one total the values of skim milk and butterfat computed pursuant to § 942.70.

(b) Subtract from the value obtained pursuant to paragraph (a) of this section, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add to such value, if such average butterfat content is less than 4.0 percent, an amount computed as follows:

(1) Multiply the amount by which the average butterfat content of base milk received from producers varies from 4.0 percent by the butterfat differential to producers for base milk, and multiply the result by the total hundredweight of base milk delivered by producers;

(2) Multiply the amount by which the average butterfat content of excess milk received from producers varies from 4.0 percent by the butterfat differential to producers for excess milk, and multiply the result by the total hundredweight of excess milk delivered by producers; and

(3) Add the results obtained in subparagraphs (1) and (2) of this paragraph;

(c) Add to the value obtained pursuant to paragraph (b) of this section an amount computed by multiplying the total hundredweight of base milk received by such handler from producers at plants located in each freight zone farther from New Orleans than the 61–70 mile zone by the appropriate zone differential set forth in the schedule pursuant to § 942.50 (f).

(d) Subtract from the value obtained pursuant to paragraph (c) of this section an amount computed by multiplying the total hundredweight of base milk received by such handler from producers at plants located in each freight zone nearer New Orleans than the 61–70 mile zone by the appropriate zone differential set forth in the schedule pursuant to § 942.50 (f).

(e) Subject to the conditions set forth in paragraph (f) of this section, compute the total value of excess milk delivered by producers for such handler by multiplying the quantity of such milk by the Class III price for 4.0 percent milk;

(f) Compute the total value of base milk delivered by producers for such handler by subtracting the value computed pursuant to paragraph (e) of this section from the value computed pursuant to paragraph (d) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of base milk delivered by producers by the Class I price computed pursuant to § 942.50 (e) (1) such value in excess thereof shall be added to the value computed pursuant to paragraph (e) of this section to the extent that the excess price shall not exceed the base price as calculated herein. Any additional value remaining shall be prorated on a volume basis between excess and base milk.

(g) Divide the result obtained in paragraph (f) of this section by the quantity of base milk received by such handler from producers. This result shall be known as the uniform price per hundredweight for such handler for "base milk" received from producers at plants located in the 61–70 mile zone; and

(h) Divide the result obtained in paragraph (e) of this section by the quantity of excess milk received by such handler from producers. This result shall be known as the uniform price per hundredweight for such handler for "excess milk" received from producers.

PAYMENTS

§ 942.80 *Payments to producers.* (a) On or before the last day of each delivery period, each handler shall make payment to each producer for milk received from such producer by such handler during the first 15 days of the delivery period at not less than the price per hundredweight for Class III milk for the preceding delivery period.

(b) On or before the 15th day after the end of each of the delivery periods of September (except September 1952) through February, each handler shall make payment to each producer for milk received from such producer by such handler during the delivery period at not less than the uniform price per hundredweight computed for such handler pursuant to § 942.71, subject to the location and butterfat differentials computed pursuant to §§ 942.81 and 942.82, less payment made pursuant to paragraph (a) of this section.

(c) On or before the 15th day after the end of each of the delivery periods of March through August and September 1952, each handler shall make payment, after deducting the amount of payment made pursuant to paragraph (a) of this section, to each producer for milk received from such producer by such handler during the delivery period as follows: (1) At not less than the uniform price per hundredweight for base milk computed pursuant to § 942.72 for the quantity of base milk received from such producer, subject to the butterfat differential computed pursuant to § 942.81 (c) and the location differential set forth in § 942.82; and (2) at not less than the uniform price per hundredweight for excess milk computed pursuant to § 942.72 for the quantity of excess milk received from such producer, subject to the butterfat differential computed pursuant to § 942.81 (b)

§ 942.81 *Butterfat differentials.* If any handler has received from any producer milk having an average butterfat content other than 4.0 percent, such handler, in making payments pursuant to § 942.80 shall add to the uniform price of milk, base milk, or excess milk, as the case may be, for each $\frac{1}{10}$ of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or shall deduct from the uniform price of milk, base milk, or excess milk, as the case may be, for each $\frac{1}{10}$ of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, the following amount computed to the nearest $\frac{1}{10}$ cent:

(a) For each of the delivery periods of September (except September 1952) through February, the butterfat differentials applicable with respect to such handler's payments for milk shall be computed by subtracting his uniform price per hundredweight of skim milk from his uniform price per hundredweight of butterfat and dividing the result by 1,000.

(b) For each of the delivery periods of March through August and September 1952, the butterfat differential applicable with respect to such handler's payments for excess milk shall be computed by subtracting the price per hundredweight of Class III skim milk from the price per hundredweight of Class III butterfat and dividing the result by 1.000.

(c) For each of the delivery periods of March through August and September 1952, the butterfat differential applicable with respect to such handler's payments for base milk shall be computed in a manner similar to paragraph (a) of this section.

§ 942.82 *Location differentials.* Each handler, in making payments prescribed in § 942.80, shall adjust the uniform price of base milk during the delivery periods of March through August and September 1952 and of all milk during the delivery periods of September (except September 1952) through February for each producer with respect to all such milk received from such producer at a plant of the handler not located in the 61–70 mile zone by the amount per hundredweight specified in the table pursuant to § 942.50 (f).

§ 942.83 *Adjustment of accounts.* Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of an amount which is less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

§ 942.84 *Expense of administration.* As his prorata share of the expense of administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each delivery period, 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 10th day after the end of such delivery period, with respect to all skim milk and butterfat received by such handler, during such delivery period, from producers, including that received from such handler's own farm production.

§ 942.85 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part, shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligations, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said 2-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to Section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 942.90 *Producer-handlers.* Sections 942.40 through 942.45, 942.50 through 942.53, 942.60 through 942.65, 942.70 through 942.72, and 942.80 through 942.85 shall not apply to a producer-handler.

§ 942.91 *Milk subject to another Federal order.* Milk received at the plant of a handler, the handling of which the Secretary determines to be subject to the pricing and payment provisions of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area shall not be subject to the pricing and payment provisions of this part.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 942.100 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to § 942.101.

§ 942.101 *Suspension or termination.* Any or all of the provisions of this part, or any amendment to this part, may be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary shall give and shall, in any event, terminate whenever the provisions of the act cease to be in effect.

§ 942.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided:* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until removed, (2) from time to time account for all receipts and disbursements and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (3) if so directed by the Secretary execute assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 942.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 942.110 *Liability of handlers.* The liability of the handlers under this part is several and not joint, and no handler shall be liable for the default of any other handler.

§ 942.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 942.112 *Separability of provisions.* If any provision of this part, or its application to any person or circumstance, is held invalid, the application of such provision and of the remaining provisions of this part to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 24th day of June 1952, to be effective on and after July 1, 1952.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B—Economic Regulations

[Regs., Serial No. ER-171]

PART 292—CLASSIFICATION AND EXEMPTION OF ALASKAN AIR CARRIERS

CANCELLATION OF INACTIVE LETTERS OF REGISTRATION OF ALASKAN PILOT-OWNERS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 20th day of June 1952.

At the present time there is no provision in § 292.8 which makes it possible for the Board to determine which letters of registration issued to Alaskan Pilot-Owners are inactive and to cancel them. Accordingly, the Board's records on Alaskan Pilot-Owners cannot now be kept on a basis which furnishes an accurate picture of the over-all extent of activity in this field or the identity of those actively engaged therein. The rule hereby promulgated will establish a procedure which, without prejudicing the basic rights of Alaskan Pilot-Owners in any way, will greatly assist the Board in its record-keeping and administrative activities for this class of air carriers.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and no comment has been received.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 292 of the Economic Regulations (14 CFR 292) effective July 25, 1952.

1. By relettering § 292.8 (b) and (c) to be (c) and (d), respectively.

2. By adding a new paragraph (b) reading as follows:

(b) In any case in which the Board has reason to believe that a person holding a letter of registration (Alaska) issued under this part has ceased-to-operate pursuant to the temporary exemption conferred by § 292.3 (d), the Board may, by registered letters mailed to the carrier at its last known address and to the designated agent of such carrier, if any, request such carrier to advise the Board, within 60 days after receipt thereof, whether such carrier wishes to continue such operations or to have its letter of registration canceled. Failure to reply within a period of 60 days after receipt thereof, or return of such letters unclaimed, shall automatically terminate all rights under such letter of registration.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53023]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

LIQUIDATION OF IMPORT ENTRIES ON THE BASIS OF CUSTOMS ASSAY

For the purposes of facilitating the customs assay of ores and crude metals, § 8.48 (f), Customs Regulations of 1943, provides that customs officers may secure a certified copy of the commercial settlement test for comparison with the customs assay. That regulation requires, however, that the entry shall be liquidated on the basis of the customs assay. In the case of ores and ferro-alloys enumerated in paragraph 302, Tariff Act of 1930, it is believed that wider use can be made of commercial assays to minimize the necessity for making minor adjustments in the liquidation of entries covering such ores and ferro-alloys, especially where the settlement and customs assays differ with respect to the metallic content by no more than is to be expected between two qualified laboratories, and where the use of such results would not require a different tariff classification or rate of duty than is indicated by the customs assay. Accordingly, § 8.48 (f), Customs Regulations of 1943 (19 CFR 8.48 (f)), is hereby amended to read as follows:

(f) Customs officers may secure from the importer a certified copy of the commercial settlement assay results which shall be transmitted with the commercial sample to the customs laboratory, where it shall be compared with the results shown by the customs assay. If the two results are not in substantial agreement, the chief chemist of the customs laboratory shall review his assay. The import entries shall be liquidated on the basis of the results shown by the customs assay, except that, in the case of ores and ferro-alloys enumerated in paragraph 302, Tariff Act of 1930, the settlement assay shall be the basis of duty assessment if, in the opinion of the chief chemist, the settlement and customs assays differ with respect to the percentage of dutiable metal content by no more than is to be expected between qualified laboratories and provided further that the use of such commercial assay will not require a different tariff classification or rate of duty than is indicated by the customs assay.

The citation of authority for § 8.48 is amended to read as follows:

PART 22—DRAWBACK

TIME ALLOWED FOR FILING AND COMPLETION OF CLAIMS

Existing regulations require that a drawback entry and certificate of manufacture be filed within 2 years after exportation of the merchandise concerned, and that all documents necessary to the liquidation of the entry, including those issued by one customs officer to another, shall be filed or applied for, as the case may require, within such 2-year period, but that the Bureau may authorize an extension of the 2-year period for compliance with any of such requirements. Some difficulty has been experienced in attempting to fix a uniform standard as a basis for granting extensions, and it has been concluded that extensions should not be permitted but that a longer period of time (3 years) should be allowed for the filing and completion of claims. Sections 22.7 (b), 22.11, 22.13 (a), and 22.23 (a), Customs Regulations of 1943 (19 CFR 22.7 (b), 22.11, 22.13 (a), 22.23 (a)), as amended, are, therefore, hereby further amended as follows:

1. Section 22.7 (b) is amended by deleting "2 years" from the first sentence and substituting therefor "3 years".

2. Section 22.11 is amended by deleting "2-year" from the first sentence and substituting therefor "3-year."

3. Section 22.13 (a) is amended by deleting "2 years" from the first sentence and substituting therefor "3 years"; by deleting "2-year" from the sixth sentence and substituting therefor "3-year"; and by deleting the last sentence and substituting therefor "Claims not completed within the 3-year period prescribed above shall be treated as abandoned and no extension will be granted for any cause."

4. Section 22.23 (a) is amended by deleting "2-year" from the second sentence and substituting therefor "3-year."

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interpret or apply sec. 312, 46 Stat. 693, secs. 402, 403, 49 Stat. 1960; 19 U. S. C. 1313)

These amendments shall apply with respect to entries filed on or after the date on which this decision is published in the weekly Treasury decisions.

Commissioner of Customs.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5914; Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

REQUIREMENT THAT INFORMATION RETURNS BE FURNISHED BY CORPORATIONS PAYING DIVIDENDS

Section 29.148-1 *Return of information as to payments of dividends* of Regulations 111, as amended by Treasury Decision 5859, approved September 20, 1951, is further amended by striking "shall render an information return on Forms 1096 and 1099, except that" from the first sentence of paragraph (a) and inserting in lieu thereof the following: "amounting to $10 or more during the calendar year, shall render an information return on Forms 1096 and 1099, except that such $10 minimum limitation shall not apply for the calendar year 1951, and except that".

(53 Stat. 32, 65, 467; 26 U. S. C. 62, 148, 3791)

Because this Treasury decision relieves taxpayers of a requirement imposed by existing regulations it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5913, Regs. 8]

PART 140—TAXES ON TOBACCO, SNUFF, CIGARS, CIGARETTES, CIGARETTE PAPERS AND TUBES, AND PURCHASE AND SALE OF LEAF TOBACCO

ANNUAL REGISTRATION BY DEALERS IN LEAF TOBACCO, MANUFACTURERS OF TOBACCO, SNUFF, CIGARS, AND CIGARETTES, AND PEDDLERS OF TOBACCO, ELIMINATED

In order to eliminate requirements in Regulations 8 (26 CFR Part 140), pertaining to annual registration by dealers in leaf tobacco, manufacturers of tobacco, snuff, cigars, and cigarettes, and peddlers of tobacco, such regulations, but only as prescribed and made applicable to the Internal Revenue Code by Treasury Decision 4885, approved February 11, 1939 (26 CFR, Cum. Supp., page 5876), are amended as follows:

PARAGRAPH 1. Section 26, act of October 1, 1899, set forth immediately preceding article 12 (26 CFR 140.12), and articles 12 and 13 (26 CFR 140.12, 140.13) are stricken out.

PAR. 2. There is inserted immediately preceding § 140.20 (article 20) the following:

SEC. 2051. REGISTRATION (INTERNAL REVENUE CODE).

Every dealer in leaf tobacco shall register with the collector of the district his name, or style, place of residence, trade, or business, and the place where such trade or business is to be carried on.

SEC. 2150. FAILURE TO REGISTER, PENALTY (INTERNAL REVENUE CODE).

Every dealer in leaf tobacco • • • who fails to register with the collector as required under sections 2051, • • • shall be subject to a penalty of $50.

PAR. 3. Section 140.20 (article 20) is amended to read as follows:

§ 140.20 *Registry.* (a) Every person, before commencing business as a dealer in leaf tobacco, shall register with the district supervisor his name or style, place of residence, and place where the business is to be carried on. Such registration will be required with respect to each establishment or warehouse where leaf tobacco is received:

(1) For sale or shipment,

(2) For packing, rehandling, redrying, or stemming, or

(3) Solely for storage, if such warehouse constitutes the dealer's only place of business.

Where a person operates or controls a group of warehouses solely for the storage of leaf tobacco, registration of each warehouse will not be required, provided a consolidated record covering all leaf tobacco received into and shipped from all such places is maintained at the warehouse or establishment having direction and control of such places. However, the warehouse or establishment having direction and control of a group of storage warehouses must be registered.

(b) In order to register, the dealer in leaf tobacco shall file with the district supervisor a properly completed return for registry, Form 277, showing all the information called for on the form and the instructions printed thereon.

(c) Every dealer in leaf tobacco shall also file a return for registry, Form 277, whenever he furnishes a new bond.

(d) When a properly completed return for registry, Form 277, supported by satisfactory bond and statement, is received by the district supervisor from a dealer in leaf tobacco, he will issue to the dealer a certificate of registry, Form 282, which certificate shall be conspicuously posted by the dealer in his place of business.

(e) The loss or destruction of a certificate should be reported to the district supervisor at once for the purpose of obtaining from him a duplicate certificate to be posted as required.

PAR. 4. There is inserted immediately preceding § 140.34 (article 34), the following:

SEC. 2011. REGISTRATION (INTERNAL REVENUE CODE).

Every manufacturer of tobacco shall register with the collector of the district his name, or style, place of residence, trade, or business, and the place where such trade or business is to be carried on.

SEC. 2150. FAILURE TO REGISTER, PENALTY (INTERNAL REVENUE CODE).

Every • • • manufacturer of tobacco • • • who fails to register with the collector as required under sections • • • 2011, • • • shall be subject to a penalty of $50.

PAR. 5. Section 140.34 (article 34) is amended to read as follows:

§ 140.34 *Registry.* (a) Every person, before commencing business as a manufacturer of tobacco or snuff, shall register with the district supervisor his name or style, place of residence, and place where the business is to be carried on. Separate registration shall be required in respect to each place where such a business is to be carried on.

(b) In order to register, the manufacturer of tobacco or snuff shall file with the district supervisor a properly completed return for registry, Form 277, showing all the information called for on the form and the instructions printed thereon.

(c) Every manufacturer of tobacco or snuff shall also file a return for registry, Form 277, whenever he furnishes a new bond.

(d) When a properly completed return for registry, Form 277, supported by satisfactory bond and statement, is received by the district supervisor from a manufacturer of tobacco or snuff, he will issue to the manufacturer a certificate of registry, Form 284, which certificate shall be conspicuously posted by the manufacturer in his factory.

(e) The loss or destruction of a certificate should be reported to the district supervisor at once for the purpose of obtaining from him a duplicate certificate to be posted as required.

PAR. 6. There is inserted immediately preceding § 140.63 (article 63), the following:

SEC. 2031. REGISTRATION (INTERNAL REVENUE CODE).

Every manufacturer of cigars or cigarettes shall register with the collector of the district his name, or style, place of residence, trade, or business, and the place where such trade or business is to be carried on.

SEC. 2150. FAILURE TO REGISTER, PENALTY (INTERNAL REVENUE CODE).

Every • • • manufacturer of cigars or cigarettes • • • who fails to register with the collector as required under sections • • • 2031, • • • shall be subject to a penalty of $50.

PAR. 7. Section 140.63 (article 63) is amended to read as follows:

§ 140.63 *Registry.* (a) Every person, before commencing business as a manufacturer of cigars or cigarettes, shall register with the district supervisor his name or style, place of residence, and place where the business is to be carried on. Separate registration shall be required in respect to each place where such a business is to be carried on.

(b) In order to register, the manufacturer of cigars or cigarettes shall file with the district supervisor a properly completed return for registry, Form 277, showing all the information called for on the form and the instructions printed thereon.

(c) Every manufacturer of cigars or cigarettes shall also file a return for registry, Form 277, whenever he furnishes a new bond.

(d) When a properly completed return for registry, Form 277, supported by satisfactory bond and statement, is received by the district supervisor from a manufacturer of cigars or cigarettes, he will issue to the manufacturer a certificate of registry, Form 283, which certificate shall be conspicuously posted by the manufacturer in his factory.

(e) The loss or destruction of a certificate should be reported to the district supervisor at once for the purpose of obtaining from him a duplicate certificate to be posted as required.

PAR. 8. There is inserted immediately preceding § 140.178 (article 178), the following:

SEC. 2071. REGISTRATION (INTERNAL REVENUE CODE).

Every peddler of tobacco shall register with the collector of the district his name, or style, place of residence, trade, or business, and the place where such trade or business is to be carried on.

SEC. 2150. FAILURE TO REGISTER, PENALTY (INTERNAL REVENUE CODE).

Every • • • peddler of tobacco who fails to register with the collector as required under sections • • • 2071, • • • shall be subject to a penalty of $50.

SEC. 2074. CERTIFICATE (INTERNAL REVENUE CODE).

Every peddler of tobacco shall obtain a certificate from the collector of his collection district, who is authorized and directed to issue the same, giving the name of the peddler, his residence, and the fact of his having filed the required bond; and shall on demand of any officer of internal revenue produce and exhibit his certificate.

SEC. 2192. INSPECTION OF PEDDLER'S CERTIFICATE (INTERNAL REVENUE CODE).

Any internal revenue agent may demand production of and inspect the collector's certificate for peddlers.

SEC. 2153. PEDDLER'S CERTIFICATE, REFUSAL TO PERMIT INSPECTION, PENALTY (INTERNAL REVENUE CODE).

Refusal or failure to produce for inspection the collector's certificate for peddlers, when demanded by any internal revenue agent, shall subject the party guilty thereof to a fine of not more than $500 and to imprisonment not more than twelve months

SEC 2154. PEDDLERS, FORFEITURES RELATING TO (INTERNAL REVENUE CODE).

• • • • • •

(b) *Refusal to permit inspection of certificate.* Whenever any peddler refuses to exhibit the collector's certificate for peddlers on demand of any officer of internal revenue, said officer may seize the horse or mule, wagon, and contents, or pack, bundle, or basket, of any person so refusing; and the collector of the district in which the seizure occurs may, on ten days' notice, published in any newspaper in the district, or served personally on the peddler, or at his dwelling house, require such peddler to show cause, if any he has, why the horses or mules, wagons, and contents, pack, bundle, or basket so seized shall not be forfeited. In case no sufficient cause is shown, proceedings for the forfeiture of the property seized shall be taken under the general provisions of the internal revenue laws relating to forfeitures.

PAR. 9. Section 140.178 (article 178) is amended to read as follows:

§ 140.178 *Registry.* (a) Every person, before commencing business as a peddler of tobacco, shall register with the district supervisor his name or style, place of residence, and the area in which he will operate as indicated in the statement required by article 179.

(b) In order to register, the peddler of tobacco shall file with the district supervisor a properly completed return for registry, Form 277, showing all the information called for on the form and the instructions printed thereon.

(c) Every peddler of tobacco shall also file a return for registry, Form 277, whenever he furnishes a new bond.

(d) When a properly completed return for registry, Form 277, supported by satisfactory bond and statement, is received by the district supervisor from a peddler of tobacco, he will issue to the peddler a certificate of registry, Form 285, which certificate shall be carried by the peddler and produced and exhibited upon demand of any internal revenue officer. If the peddler operates a number of trucks or other vehicles in his business, the supervisor shall issue a certificate to be carried in connection with each such vehicle.

(e) New certificates shall be issued by the district supervisor whenever a peddler of tobacco files an amended statement covering any change in his residence address within the same collection district.

(f) The loss or destruction of a certificate should be reported to the district supervisor at once for the purpose of obtaining from him a duplicate certificate.

PAR. 10. Section 3383, Revised Statutes, set forth immediately preceding § 140.181 (article 181) and such § 140.181 are stricken out.

Because the sole purpose of this Treasury decision is to relieve dealers in leaf tobacco, manufacturers of tobacco, snuff, cigars, and cigarettes, and peddlers of tobacco, from requirements pertaining to annual registration, it is hereby found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation under section 4 (c) of said act.

This Treasury decision shall be effective upon its publication in the FEDERAL REGISTER.

Chapter XIV—The Renegotiation Board

Subchapter A—Military Renegotiation Regulations Under the 1948 Act

PART 1422—PROCEDURE FOR RENEGOTIATION

MISCELLANEOUS AMENDMENTS

This part is amended in the following respects:

1. Subpart D—Conduct of Renegotiation, is amended by adding a new § 1422.245 as follows:

§ 1422.245 *Filing of information and requests by contractor.*

§ 1422.245-1 *Scope.* Sections 1422.245-1 to 1422.245-4 prescribe general rules applicable to the time, place and manner of filing information and requests in connection with renegotiation proceedings. As used in §§ 1422.245-1 to 1422.245-4 the term "filing" means the submission by the contractor of any such information or requests.

§ 1422.245-2 *Form and contents for filings*—(a) *General.* When no particular form for filing is requested by the Board or a Regional Board or is prescribed in this subchapter, information or requests shall be filed in the form of a letter, telegram or other writing. Every filing shall contain the name and address of the contractor and a reference to the fiscal year or period to which the filing relates.

(b) *Amended filings.* If the contractor discovers an error or omission in information already filed pursuant to the 1948 act, or if the contractor obtains new information materially affecting information which was filed pursuant to the 1948 act, the contractor shall file full and correct information forthwith. In the event that the contractor discovers a material error in the Standard Form of Contractor's Report (see § 1422.222) after filing but before receiving notice of assignment (see § 1422.232-3) for the fiscal year to which such filing relates, the contractor shall file an amended Standard Form of Contractor's Report, or portion thereof, indicating the changes contained therein. The Board or a Regional Board may accept or reject, at its discretion, any amended filing received after the period of time for filing (see § 1422.245-4), but such amended filing will normally be accepted if the Board or Regional Board considers that the proper conduct of a renegotiation proceeding is facilitated thereby.

§ 1422.245-3 *Place for filing*—(a) *Principal offices.* The principal office of the Board is located at 333 Third Street, NW., Washington, D. C., and the mailing address of the Board is the Renegotiation Board, Washington 25, D. C. The following are the addresses of the principal offices of the Regional Boards:

Washington Regional Renegotiation Board,

Los Angeles Regional Renegotiation Board,
5504 Hollywood Boulevard, Los Angeles 28,
Calif.

(b) *Filing of information.* The Standard Form of Contractor's Report shall be filed with the Director, Office of Assignment and Statistics, of the Board at the principal office of the Board. Such other information, records, or data which are determined to be necessary in renegotiation proceedings shall be filed at the place designated by the Board or Regional Board, as the case may be.

(c) *Filing of certain requests with Board.* The request for review of determination in a Class B case, as provided in § 1422.272-2, and requests for statements of determination, facts and reasons, when directed to the Board pursuant to § 1422.291 or § 1422.292, shall be filed with the Secretary to the Board at the principal office of the Board.

(d) *Filing of certain requests with Regional Boards.* Requests for statements of determination, facts and reasons, when directed to a Regional Board pursuant to § 1422.291 or § 1422.292, shall be filed with the Director, Division of Administration, of such Regional Board at the office of such Regional Board.

§ 1422.245-4 *Time for filing*—(a) *General.* Time limitations are prescribed in this subchapter for the filing of certain information and requests by the contractor, subject to the provisions of paragraph (d) of this section relating to extensions of time. Where no such time limitation is prescribed, the information or request shall be filed within a reasonable time. Filings will be considered made when received at the place prescribed in this subchapter. Filings shall be made during hours of business, as set forth in paragraph (b) of this section, and within the appropriate period of time computed according to the provisions of paragraph (c) of this section.

(b) *Hours of business.* The offices of the Board and of Regional Boards are open every day except Saturdays, Sundays, and holidays. The hours of business of such offices are from 8:30 a. m. to 5 p. m., standard time or daylight saving time, as applicable in the time zone and city in which each such office is located.

(c) *Computation of time.* In computing periods of time prescribed for filing of information or requests by the contractor, the day of the act, event or default after which such period begins to run is not included. The last day of the period so computed is included, unless it is a Saturday, Sunday, or legal holiday in the District of Columbia, in which case the period runs until the close of business of the next day which is not a Saturday, Sunday, or holiday.

(d) *Extensions of time.* Extensions of time for filing will be granted by the Board, if the filing is to be made with the Board, or by the appropriate Regional Board, if the filing is to be made with such Regional Board, upon request of the contractor for good cause: *Provided, however,* That the time for filing a request for review of a determination in a Class B case, as provided in § 1422.272-2, is not subject to extension.

(Sec. 109, Pub. Law 9, 82d Cong.)

2. Subpart G—Unilateral Order Procedure, is amended by deleting § 1422.272-2 thereof in its entirety and inserting in lieu thereof a new § 1422.272-2 to read as follows:

§ 1422.272-2 *Class B cases.* (a) When a Regional Board determines in a Class B case that the contractor has realized excessive profits and the contractor is unwilling to enter into an agreement for the refund of the amount determined to be excessive profits, the Regional Board will issue and enter a unilateral order determining the amount of such excessive profits and give notice thereof by registered mail to the contractor. The Board may review such determination upon its own motion, or, in its discretion, at the request of the contractor.

(b) General rules applicable to filing by the contractor of a request for review of such determination are set forth in § 1422.245.

(c) If, within 90 days after the date the notice of the order is mailed to the contractor, the Board does not upon its own motion initiate a review of such determination and the Board does not receive from the contractor a request for a review, such determination and order will be deemed to be the determination and order of the Board on the ninetieth day after notice of the order was mailed by the Regional Board.

(d) If the Board does not initiate a review of a determination of a Regional Board within 90 days after the date of receipt of a timely request from the contractor for a review, such determination and order will be deemed to be the determination and order of the Board on the ninetieth day after the Board received the request from the contractor: *Provided,* That, if notice of the decision of the Board not to review such determination is mailed by registered mail to the contractor before such ninetieth day, such determination and order will be deemed to be the determination and order of the Board on the day of mailing of such notice.

(e) In every case that the determination of a Regional Board is deemed to be the determination of the Board pursuant to the provisions of paragraph (c) or (d) of this section, as the case may be, the Board will give notice by registered mail to the contractor that the Board has decided not to review the case.

(f) If the Board decides to review the determination, the Board will so advise the contractor and the applicable procedure will be that set forth in § 1422.244.

(Sec. 109, Pub. Law, 9, 82d Cong.)

3. Subpart I—Statement to Contractors, is amended by adding a new § 1422.293 to read as follows:

§ 1422.293 *Requests for statements.* General rules applicable to the filing of requests pursuant to this subpart are set forth in § 1422.245.

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1461—RECOVERY OF EXCESSIVE PROFITS AFTER DETERMINATION

This part is amended by deleting § 1461.3 in its entirety, "§ 1461.3 [Reserved]," and inserting in lieu thereof the following:

§ 1461.3 *Recovery of refund pursuant to unilateral order.* Pursuant to section 105 (b) (2) of the act, interest at the rate of 4 per centum per annum shall accrue and be payable on the amount of excessive profits determined from the thirtieth calendar day after the date of the order of the Board or, in Class B cases (see § 1471.2 (b) of this subchapter), if the Board does not initiate a review of a determination made by a Regional Board, from the thirtieth calendar day after the date that the order embodying such determination is deemed to be the order of the Board pursuant to the provisions of § 1475.3 (b) (3) or (4) of this subchapter, respectively.

(Sec. 109, Pub. Law 9, 82d Cong. Interprets or applies sec. 105, Pub. Law 9, 82d Cong.)

PART 1470—PRELIMINARY INFORMATION REQUIRED OF CONTRACTORS

Section 1470.3 *Filing of financial statement* is amended by deleting subparagraph (4) of paragraph (d), by deleting paragraph (e), and by inserting in lieu thereof a new paragraph (e) to read as follows:

(e) *Filing rules.* General rules applicable to the time, place and manner of filing the Standard Form of Contractor's Report are set forth in § 1472.5 of this subchapter.

(Sec. 109, Pub. Law 9, 82d Cong.)

PART 1472—CONDUCT OF RENEGOTIATION

This part is amended by adding a new § 1472.5 to read as follows:

§ 1472.5 *Filing of information and requests by contractor*—(a) *Scope of section.* This section prescribes general rules applicable to the time, place and manner of filing information and requests in connection with renegotiation proceedings. As used in this section, the term "filing" means the submission by the contractor of any such information or requests.

(b) *General*—(1) *Information.* The contractor is required, pursuant to section 105 (e) of the act, to file the information prescribed by Part 1470 of this subchapter to be contained in the Standard Form of Contractor's Report, and such other information, records or data, if any, which are determined by the Board or a Regional Board to be necessary in the course of renegotiation proceedings.

(2) *Requests.* Requests which may be filed by the contractor include the following: Request for combined renegotiation, as provided in § 1457.2 of this subchapter; request for renegotiation on a consolidated basis, as provided in Part 1464 and § 1470.3 (h) of this subchapter; request for review of determination in a Class B case, as provided in § 1475.3 (b) of this subchapter; and requests for statements of determination, facts and reasons, as provided in §§ 1477.2 and 1477.3 of this subchapter, respectively.

(c) *Form and contents for filings.*—(1) *General.* When no particular form for a filing is requested by the Board or a Regional Board or is prescribed in this subchapter, information or requests shall be filed in the form of a letter, telegram or other writing. Every filing shall contain the name and address of the contractor and a reference to the fiscal year or period to which the filing relates.

(2) *Amended filings.* If the contractor discovers an error or omission in information already filed pursuant to section 105 (e) of the act, or if the contractor obtains new information materially affecting information which was filed pursuant to section 105 (e) of the act, the contractor shall file full and correct information forthwith. In the event that the contractor discovers a material error in the Standard Form of Contractor's Report after filing but before receiving notice of assignment (see § 1471.2 (c) of this subchapter) for the fiscal year to which such filing relates, the contractor shall file an amended Standard Form of Contractor's Report, or portion thereof, indicating the changes contained therein. The Board or a Regional Board may accept or reject, at its discretion, any amended filing received after the period of time for filing (see paragraph (e) of this section), but such amended filing will normally be accepted if the Board or Regional Board considers that the proper conduct of a renegotiation proceeding is facilitated thereby.

(d) *Place for filing*—(1) *Principal offices.* The principal office of the Board is located at 333 Third Street NW., Washington, D. C., and the mailing address of the Board is the Renegotiation Board, Washington 25, D. C. The following are the addresses of the principal offices of the Regional Boards:

Washington Regional Renegotiation Board
3d Floor, Wanamaker Building
10th & Broadway
New York 3, N. Y.

Chicago Regional Renegotiation Board
U. S. Courthouse
219 South Clark Street
Chicago 4, Ill.

Los Angeles Regional Renegotiation Board
5504 Hollywood Boulevard
Los Angeles 28, Calif.

(2) *Filing of information.* The Standard Form of Contractor's Report shall be filed with the Director, Office of Assignment and Statistics, of the Board at the principal office of the Board. Such other information, records, or data which are determined to be necessary in renegotiation proceedings shall be filed at the place designated by the Board or Regional Board, as the case may be.

(3) *Filing of certain requests with Board.* The request for review of determination in a Class B case, as provided in § 1475.3 (b) of this subchapter, and requests for statements of determination, facts and reasons, when directed to the Board pursuant to § 1477.2 or § 1477.3 of this subchapter, shall be filed with the Secretary to the Board at the principal office of the Board.

(4) *Filing of certain requests with Regional Boards.* Requests for statements of determination, facts and reasons, when directed to a Regional Board pursuant to § 1477.2 or §1477.3 of this subchapter, shall be filed with the Director, Division of Administration, of such Regional Board at the office of such Regional Board.

(e) *Time for filing*—(1) *General.* Time limitations are prescribed in this subchapter for the filing of certain information and requests by the contractor, subject to the provisions of subparagraph (4) of this paragraph relating to extensions of time. Where no such time limitation is prescribed, the information or request shall be filed within a reasonable time. Filings will be considered made when received at the place prescribed in this subchapter. Filings shall be made during hours of business, as set forth in subparagraph (2) of this paragraph, and within the appropriate period of time computed according to the provisions of subparagraph (3) of this paragraph.

(2) *Hours of business.* The offices of the Board and of Regional Boards are open every day except Saturdays, Sundays and holidays. The hours of business of such offices are from 8:30 a. m. to 5 p. m., standard time or daylight saving time, as applicable in the time zone and city in which each such office is located.

(3) *Computation of time.* In computing periods of time prescribed for filing of information or requests by the contractor, the day of the act, event or default after which such period begins to run is not included. If such period is described in calendar months (see § 1470.3 (d) of this subchapter), the month in which such day occurs is not included. The last day of the period so computed is included, unless it is a Saturday, Sunday or legal holiday in the District of Columbia, in which case the period runs until the close of business of the next day which is not a Saturday, Sunday or holiday.

(4) *Extensions of time.* Extensions of time for filing will be granted by the Board, if the filing is to be made with the Board, or by the appropriate Regional Board, if the filing is to be made with such Regional Board, upon request of the contractor for good cause: *Provided, however,* That the time for filing a request for review of a determination in a Class B case, as provided in § 1475.3 (b) of this subchapter, is not subject to extension.

(Sec. 109, Pub. Law 9, 82d Cong. Interprets or applies secs. 105 and 107, Pub. Law 9, 82d Cong.)

PART 1475—UNILATERAL ORDER PROCEDURE

Section 1475.3 *Determination by Regional Board* is amended by deleting paragraph (b) thereof in its entirety and inserting in lieu thereof a new paragraph (b) to read as follows:

(b) *Class B cases.* (1) When a Regional Board determines in a Class B case that the contractor has realized excessive profits and the contractor is unwilling to enter into an agreement for the refund of the amount determined to be excessive profits, the Regional Board will issue and enter a unilateral order determining the amount of such excessive profits and give notice thereof by registered mail to the contractor. The Board may review such determination upon its own motion, or, in its discretion, at the request of the contractor.

(2) General rules applicable to filing by the contractor of a request for review of such determination are set forth in § 1472.5 of this subchapter.

(3) If, within 90 days after the date the notice of the order is mailed to the contractor, the Board does not upon its own motion initiate a review of such determination and the Board does not receive from the contractor a request for a review, such determination and order will be deemed to be the determination and order of the Board on the ninetieth day after notice of the order was mailed by the Regional Board.

(4) If the Board does not initiate a review of a determination of a Regional Board within 90 days after the date of receipt of a timely request from the contractor for a review, such determination and order will be deemed to be the determination and order of the Board on the ninetieth day after the Board received the request from the contractor: *Provided,* That, if notice of the decision of the Board not to review such determination is mailed by registered mail to the contractor before such ninetieth day, such determination and order will be deemed to be the determination and order of the Board on the day of mailing of such notice.

(5) In every case that the determination of a Regional Board is deemed to be the determination of the Board pursuant to the provisions of subparagraph (3) or (4) of this paragraph, as the case may be, the Board will give notice by registered mail to the contractor that the Board has decided not to review the case.

(6) If the Board decides to review the determination, the Board will so advise the contractor and the applicable procedure will be that set forth in § 1472.4 of this subchapter.

(Sec. 109, Pub. Law 9, 82d Cong. Interprets or applies secs. 105 and 107, Pub. Law 9, 82d Cong.)

PART 1477—STATEMENTS TO CONTRACTORS

This part is amended by adding a new § 1477.4 to read as follows:

§1477.4 *Requests for statements.* General rules applicable to the filing of requests pursuant to this part are set forth in § 1472.5 of this subchapter.

(Sec. 109, Pub. Law 9, 82d Cong.)

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Manpower Policy No. 6]

POLICY ON AGRICULTURAL MANPOWER

I. *Introduction.* Food and fiber production is a basic part of the defense production program. Increasing quantities are needed for continued maintenance of a strong domestic economy, a constantly increasing population, the armed forces and for export to countries of the free world. Production at levels adequate to meet these requirements is essential to the national health, safety and interest. Production goals for 1952 are 6 percent above 1951 production.

There has long been a population trend away from agriculture due chiefly to opportunities in non-farm employment and to improvements in farming methods which have made it possible over the years to increase production per worker employed. This trend has been accentuated by the increased non-farm employment opportunities in the present defense economy and by the obtaining of men by the armed forces within specified age brackets from all segments of the economy. The loss in manpower from agriculture has reached a point where shortages are one of the principal factors affecting production.

An adequate work force consistent with the stage of development in farm technology must be maintained to assure the higher production levels required of agriculture in 1952 and succeeding years. In efforts to accomplish this a number of points must be recognized, among which two or three warrant specific mention. The highly seasonal nature of farm production divides the farm work force into two parts, the basic force of experienced year-round managerial and operating type of personnel and the short-term seasonal help. Considerable difficulty arises from the greater apparent attractiveness to many farmers and farm workers of numerous types of industrial employment. Farming is characterized by many uncertainties because of the effects of weather, insects, market fluctuations, etc. Modern farm technology requires considerable amounts of capital, management ability and year-round operating skill for efficient operations. Most of agriculture is made up of relatively small independent units but as compared with industry a small ratio of labor to management personnel. The management personnel on a majority of farms perform much of the labor at the same time that they carry the risks of ownership and management. For the seasonal worker, agriculture offers only intermittent employment on any one farm. Modern agriculture has much on the plus side in terms of improvements in farm technology and the farm home in addition to the traditional advantages of independent country living. On the other hand, industrial employment offers steady employment and income, shorter hours, higher wages, and in many instances, more desirable working conditions.

Further it must be recognized that the armed forces must be maintained at authorized strength in compliance with the national policy stated by the Congress, that in a free society the obligations and privileges of serving in the armed forces and the reserve components thereof should be shared generally, in accordance with a system of selection which is fair and just, and which is consistent with the maintenance of an effective national economy. The withdrawal of skilled and experienced manpower must be planned with due consideration to where the individual can best serve the nation's interest. All young men within designated age limitations are liable to the nation's call to service with deferments made only when found to be necessary in the national health, safety or interest and even then only until adequate and competent replacements are available. This imposes a responsibility for taking effective action to seek and train replacements so that length of deferment can be kept as short as possible for all young men deferred because of the importance of their civilian occupation to the national health, safety or interest.

The U. S. Department of Labor and the Federal-State system of Employment Services, the Selective Service System, particularly local boards, the U. S. Department of Agriculture and associated State Agricultural agencies, the Federal Security Agency and associated educational agencies and institutions and the U. S. Department of Defense have developed close working relationships in a constructive effort to provide the fullest possible consideration and assistance to American agriculture in the retention, recruitment and efficient utilization of agricultural manpower.

These efforts can, however, be improved in many local areas with fuller understanding by the personnel of the respective agencies and by the general public of: (1) The basic importance of agricultural production in the defense program and (2) the policies and procedures governing the programs for manpower procurement for agriculture, industry and the armed forces. The full cooperation of Government, industry, labor, farmers, local communities and the general public is necessary to assure that the effect of manpower as one of the factors limiting farm production can be kept to a minimum.

II. *Purpose.* The purpose of this statement is (1) to focus attention on certain manpower problems in agriculture affecting production, exclusive of foreign workers and many of the problems arising out of the employment of workers who move from one farm to another, but with special attention to year-round and key workers in skilled categories where shortages are becoming progressively more acute; (2) to enlist the support and assistance of the public, industry, farmers, farm workers, and Government agencies in the solution of these problems; (3) to direct immediate attention to those problems which are the most pressing, in order to attain necessary production goals, and to provide a base for a long range program to meet agricultural manpower requirements; and (4) to set forth the policy of the Federal Government and the responsibilities of the Government agencies concerned with agricultural manpower problems.

III. *Policy.* It is the policy of the Federal Government to minimize the effect of reductions in that portion of the farm work force described in the section above by taking and by encouraging the taking of action which will aid in achieving the following objectives:

1. Maintenance of an adequate farm work force of skilled and experienced workers.

2. Recruitment of sufficient labor to meet year round and seasonal farm needs.

3. Training and efficient utilization of the agricultural work force.

Employers, workers and community groups and agencies have an important responsibility to assist in achieving these objectives. In order that they may do their full part it is recommended:

1. That workers and employers use the public employment offices to the maximum extent as a source of reliable employment and labor supply information and as the central clearing house for farm jobs and farm workers.

2. That industrial employers obtain and use information from local employment offices in order to avoid recruitment in agricultural areas where such recruitment would handicap agricultural production.

3. That farmers continue to take action to improve employment conditions, wages, and housing and to provide more continuity of employment; and that farmers and communities continue to take action to improve educational and recreational facilities for farm workers.

4. That employers and Selective Service registrants submit complete and timely employment information to local Selective Service Boards for their use in classification of registrants engaged in agricultural activities.

5. That employers of registrants with liability for military service engaged in agricultural activities take vigorous and continuing action to recruit and train replacements for such registrants.

6. That employers continue to take action to promote fuller and more efficient use of the farm work force through the pooling and exchange of labor and through improved farm practices such as improved seed, machinery, chemicals, management and land use.

7. That employers, workers and the public recognize that training aids in raising the levels of skills and productivity, in better utilization of the work force and in keeping labor needs to a minimum, and that the present rate of turnover in the farm work force necessitates increased emphasis upon the appropriate use of schools, colleges and on-the-job training.

8. That employers and the public cooperate with educational institutions and other appropriate public and private agencies in the conduct of studies of the basic economic and social factors underlying the shift of population from rural to urban areas.

IV. *Implementation.* In order that the desired objective can be achieved in accordance with the above-stated policy the following assignments are made to the specified departments and agencies of Government:

A. The Department of Labor shall:

1. Intensify recruitment efforts to meet farm manpower needs, emphasizing domestic workers as contrasted with foreign workers as a source of supply.

2. Encourage and assist agricultural employers in maintaining realistic hiring specifications and in improving working conditions, housing and continuity of employment.

3. Conduct recruitment for industry in areas of substantial agricultural production only on a selective basis giving due regard to manpower requirements in essential agricultural activities. Mass recruitment of workers for industry will not be conducted in such areas.

4. Obtain labor supply information and provide such information to both industrial and agricultural employers as a guide to the planning of their recruitment activities on a selective basis giving due regard to manpower requirements in essential agricultural activities.

5. Provide readily available recruitment and placement facilities in areas of agricultural underemployment (continental and territorial possessions) on a continuing basis to aid in obtaining the fullest possible utilization of such agricultural labor.

6. Provide information to Selective Service Boards with respect to the supply of persons who have the skill and experience necessary to replace registrants engaged in agricultural activities, and who are available for such work.

7. Cooperate with the Department of Defense in the development of counseling programs to advise veterans being discharged from the armed forces of employment opportunities, emphasizing, especially to those with farming experience, the opportunities for and advantages of employment in agriculture.

B. The Selective Service System shall:

1. Give continued emphasis to applying the policy formulated by the Congress and the President providing for classifying in a deferred class registrants whose activities are necessary to the maintenance of the production of substantial quantities of agricultural commodities for market and who meet the other criteria of Selective Service regulations for deferment. If at the expiration of a period of deferment in Class II–C an additional deferment is requested, the local board shall again classify the registrant in Class II–C if the board determines from the current evidence submitted that the registrant meets the criteria for such deferment.

2. Work with the State Agricultural Mobilization Committees in the development on a State basis and application on both a State and county basis of methods for measuring the quantities of agricultural commodities being produced for market by registrants as compared with the average annual production per farm worker from local average farms.

3. Cooperate with the Departments of Agriculture and Labor to obtain information and data on farm production and the availability of replacements for use in classification of registrants and for development of programs to fully acquaint employers and registrants of policies and procedures governing classification.

4. Consider as a replacement for a farm registrant only persons who are sufficiently skilled and experienced to competently carry out the registrant's activities and available for such employment.

C. The Department of Defense shall:

1. Direct its recruiters to refrain from actively soliciting enlistments of registrants whom recruiters know have been placed in deferred categories in the national health, safety or interest, recognizing however, that Selective Service registrants in deferred categories cannot

today be denied the right to enlist in the armed forces.

2. Cooperate with the Department of Labor in the development by that agency of a counseling program to advise veterans being separated from the armed forces of the opportunities for and the advantages of employment in agriculture and in other essential activities.

D. The U. S. Department of Agriculture shall:

1. Provide information on production plans and programs, man-hour requirement estimates and production progress to man-power agencies for use in program planning and recruitment campaigns.

2. Provide production information to Selective Service, employers and registrants for use in Selective Service Classification.

3. Work with State Directors of Selective Service in the development and application of methods for measuring the quantities of agricultural commodities being produced for market by registrants as compared with the average annual production per farm worker from local average farms.

4. Promote fuller and more efficient use of the farm work force through better use of the land, improved farm technology, such as improved seed, machinery and chemicals and improved management practices and financing.

5. Encourage and render technical assistance to employers to improve working and living conditions, including better work methods and better housing, and to provide more continuity of employment.

6. Render leadership and technical assistance to employers, employer groups and agencies in the preparation of training materials, development of training techniques and in the planning and conduct of on-the-job training programs.

E. The Federal Security Agency shall:

1. Provide State Boards for Vocational Education with information concerning the need for increased emphasis on training as an aid to the maintenance of an adequate and trained farm work force in order that the steadily increasing farm production goals can be met.

2. Encourage school authorities to extend counseling and instruction in agriculture, both vocational and general, to the extent made appropriate by the agricultural manpower problem.

3. Provide, upon request, to State Boards for Vocational Education assistance in planning and operating agricultural training and counseling programs.

V. This order shall take effect on June 27, 1952.

JOHN R. STEELMAN,
Acting Director.

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 45, Amdt. 4 to Revision 1]

CPR 45—APPAREL MANUFACTURERS' GENERAL CEILING PRICE REGULATION

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this Amendment 4 to Ceiling Price Regulation 45, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 30 of CPR 45, Revision 1, which provided the method of determining ceiling prices for new sellers and for old sellers making new categories, has proved difficult for sellers to use and for this Agency to administer. It required that such sellers find for each article for which they proposed to establish a price, a competitor making an article substantially the same as theirs. This was a burdensome requirement in the apparel industries where there are so many varied styles and fabrics and where there is little standardization of product. Furthermore, section 30 required new sellers, and old sellers with new categories, who had already had their ceiling prices approved for some articles, to go through the same pricing process for each additional article which they made thereafter in the same category. This was found to be quite onerous in many of these industries, where new styles are the rule rather than the exception. Moreover, while section 32 did not require the new seller, or the old seller with a new category, to determine his ceiling price by reference to that of a competitive seller, it did require him to file a new application whenever he produced additional new articles in the same category.

This amendment deletes section 30, and replaces sections 30 and 32 with a single section, designated as section 32, under which new sellers, and old sellers with new categories, are permitted either to propose ceiling prices for individual articles or to propose percentage markups for use in determining ceiling prices of articles in their various categories. In neither case is the concept of the competitive seller used.

Those proposing percentage markups for categories will state the categories they intend to manufacture and the general range of the unit direct costs for the articles they expect to sell in each category. They will also propose a percentage margin over direct costs for each category (they may propose different markups for different cost brackets in a category if they desire). If the Agency considers the proposed margins excessive, it will revise them to reflect the level of ceiling prices otherwise established under the regulation. This will be done on the basis of information supplied by the applicant and on the basis of other margin data available.

The regulation prescribes the date of June 4, 1951 as the terminal date for computing material costs. Since it is sometimes difficult to determine such costs as of June 4, 1951, particularly for sellers who were not in business on that date, and since the present level of materials costs is below the level of costs on that date, this amendment permits those who are given percentage markups under section 32 to apply them to unit direct costs which are computed either on the basis of their actual materials costs or on the basis of materials costs calculated as of that cut-off date. Thus, those who are willing to forego the benefit of the June 4, 1951 cost level may, by using their actual materials costs, simplify their ceiling price computations. However, this option will remain available only so long as the level of materials costs remains below that of the cut-off date level. If materials costs should begin to rise appreciably, this section will be amended to require calculation of materials costs as of a cut-off date.

Section 31 has been amended to require the filing of an application for establishment of a price differential to a new class of purchaser for a category in which the manufacturer can determine his ceiling prices to his largest buying class of purchaser under sections 4 through 29. Previously this section required the use of a competitor's differential, and the filing of a report containing information as to competitive sellers; however, experience has shown that this information is difficult to obtain, and that most manufacturers, after attempting to file the required report, found they could not furnish all necessary information and ultimately had to apply for establishment of a differential under section 32. The amended section provides for an application in the first instance.

Paragraph (2) of the definition of "Manufacturer" in section 53 previously provided that "any person who sells to a fabricator any of the principal materials from which an article is fabricated for his own account, and who sells that article other than at retail" is a manufacturer. Paragraph (3) provided more generally that "any person who furnishes or consigns to a fabricator any of the principal materials he owns from which an article is fabricated for his own account" is a manufacturer. Some manufacturing-retailers have sought to avoid being "manufacturers" by resorting to the device of billing materials to fabricators instead of consigning them as they had customarily done. The Agency has ruled that in spite of this device the articles continued to be fabricated for the account of the manufacturing-retailers and that it would be a distortion of the formality of a bill of sale in those circumstances to change their status, since the essential relationship of the parties remained the same. In order to avoid any further claims of this nature, paragraph (2) has been reworded to make crystal-clear the type of contract under which one who sells materials to a fabricator will nevertheless be considered a manufacturer of the articles made from those materials. As amended, this paragraph provides that anyone, whether a retailer or other type of seller, is considered a manufacturer if he sells to a fabricator any principal material from which an article is fabricated, under an agreement providing that the article shall be made to his specifications from that material and then be sold back to him at a price based on the cost of that material to the fabricator plus a charge for the latter's services and for any other materials supplied by the latter.

In the judgment of the Director of Price Stabilization this amendment is generally fair and equitable and will effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

In formulating this amendment the Director has consulted with representatives of industry, including trade association representatives, to the extent practicable under the circumstances and has given consideration to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 45, Revision 1, as amended, is hereby further amended in the following respects:

1. Section 30 is deleted.

2. Section 31 is amended to read as follows:

SEC. 31. *New classes of purchasers.* (a) If you have determined your ceiling price of an article for your largest buying class of purchaser under sections 4 through 29 and you now wish to sell it to an entirely new class of purchaser (a class of purchaser to which you did not sell between July 1, 1949 and June 24, 1950), you must apply in writing for a price differential for that class to be applied to your ceiling price for your largest buying class of purchaser.

If you did not make sales at retail between July 1, 1949 and June 24, 1950 and you now wish to make sales at retail, you may not establish your ceiling prices for such retail sales under this section; you must establish them under section 32.

(b) Your application must be made in writing by registered mail, return receipt requested, to the Director of Price Stabilization, Apparel Branch, Washington 25, D. C., and shall contain the following:

(1) The name and address of your company.

(2) An identification of the new class of purchaser to which you wish to sell.

(3) An identification of the categories of articles you propose to sell to such new class of purchaser.

(4) An identification of your largest buying class of purchaser in each of those categories, and your customary price differentials for any other classes of purchasers to which you sold during the period July 1, 1949 to June 24, 1950.

(5) The price differential you propose for your new class of purchaser.

(6) The reasons why you consider your proposed differential to be appropriate.

(c) You may not sell to your new class of purchaser until twenty days after mailing your application; thereafter you may sell to that class of purchaser at ceiling prices computed by the application of your proposed differential unless and until notified by the Director of Price Stabilization that your proposed differential has been disapproved or revised, or that more information is required. If more information is required you may not sell until twenty days after such information has been mailed to the Director by registered mail, return receipt requested. If upon the expiration of the twenty day waiting period you proceed to sell at your proposed differential and you thereafter receive an order revising your differential, you must use the revised differential for all deliveries made after receipt of that order.

3. Section 32 is amended to read as follows:

SEC. 32. *Sellers who cannot determine their ceiling prices under other sections.* If you are unable to determine your ceiling prices under any of the foregoing provisions of this regulation, you must apply in writing to the Director of Price Stabilization, Apparel Branch, Washington 25, D. C., by registered mail, return receipt requested, for either of the following: (1) Establishment of percentage markups which you may use in computing your ceiling prices; or (2) establishment of ceiling prices for specific articles. Paragraph (c) of this section gives examples of situations in which you will be unable to determine your ceiling prices under any of the foregoing provisions, and will therefore have to file an application under this section.

(a) *Application for percentage markups.* (1) If you wish to apply for percentage markups, your application shall contain the following:

(i) The name and address of your company.

(ii) An explanation of why you are unable to determine your ceiling prices under any other provisions of this regulation.

(iii) An identification of each category for which you are requesting establishment of percentage markups, including a description of the basic material in each category.

(iv) The size ranges in which you expect to produce articles in each category.

(v) As to each category, the general range of unit direct costs of the articles which you expect to sell. You need not state the unit direct cost of any particular article; instead you may state generally the approximate highest and lowest unit direct costs of the articles you expect to sell in each category. For example, in your new category of women's rayon dresses, you may state that the unit direct costs of the different dresses you expect to sell will range from $4.00 to $16.00. (Direct costs consist only of the cost of direct labor, as defined in section 8, and the cost of manufacturing materials, as defined in section 11.)

(vi) As to each category, the markup, expressed as a percentage of direct cost, which you propose to apply to your unit direct costs in determining your ceiling prices for articles in that category to your principal class of purchaser designated in (vii) below. The ceiling prices so determined will be subject to the discounts which you propose in (ix) below. If you believe that you should have different markups for different cost groups within the category, state your proposed markup for each cost group. For example, you may propose to use, in your new category of women's rayon dresses, one markup for dresses in which your unit direct costs range from $4.00 to $7.00, and a different markup for dresses in which your unit direct costs range from $7.01 to $12.00, etc.

(vii) State the principal class of purchaser to which you expect to sell.

(viii) List the other classes of purchasers to which you expect to sell, and your proposed price differentials to each of those classes from the ceiling price to your principal class.

(ix) State your proposed terms and conditions of sale (e. g., cash, trade, and volume discounts, etc.).

(x) If you wish to round your ceiling prices under either section 35 or 36, indicate for each category the section which you elect to use.

(xi) If you dealt in other categories during the base period, and you either have elected to determine your ceiling prices in those categories under this regulation prior to its mandatory effective date or have filed your application after that date, you must also supply the following information:

(*a*) Identify the base period category you consider most comparable to each of the new categories listed in your application.

(*b*) If you have determined ceiling prices for new articles in that category under sections 22 through 28, state the average percentage markup computed for each comparison group of articles in that category under section 26.

(*c*) If you have not used sections 22 through 28, then state the highest and lowest ceiling prices you have computed for articles in that category under section 4, and state the percentage markups, computed on their terminal direct cost, which those ceiling prices reflect.

(2) You may not sell any article in a category covered by your application until 20 days after mailing it, except articles for which you established ceiling prices under section 30 or 32 prior to July 1, 1952. After the expiration of 20 days you may sell an article in that category at a price not in excess of that computed by the use of your proposed markup under subparagraph (3) below unless and until notified by the Director that your proposed markups have been disapproved or reduced or that more information is required. If more information is required you may not sell until 20 days after such information has been mailed to the Director by registered mail, return receipt requested. If upon the expiration of the 20-day waiting period you proceed to sell at your proposed markups and you thereafter receive an order reducing your markups, you must use the reduced markups for all applicable articles which you deliver after receipt of that order.

(3) You must determine your ceiling prices as follows: (i) Find your unit direct cost of the article. Direct cost consists only of the cost of direct labor, as defined in section 8, and the cost of manufacturing materials, as defined in section 11. In computing your direct labor cost you may not use labor rates higher than those in effect for each operation on March 15, 1951. In computing your manufacturing materials cost you may elect to use either the actual net cost to you of the materials used in the units for which you are determining a ceiling price, or their net cost as of the terminal prescribed date which you have calculated in accordance with the provisions of section 15. Before selling the article you must indicate on your records which basis of computing net cost you used in determining its ceiling price.

(ii) Multiply the unit direct cost of the article by the applicable percentage markup; this gives you your dollars and cents markup.

(iii) Add the dollars and cents markup to the unit direct cost; this gives you your ceiling price to your principal class of purchaser, which is subject to the discounts you have proposed, if any. Your ceiling price to any other class of purchaser is determined by applying the proposed price differential for that class to the ceiling price for your principal class of purchaser.

(4) You may round your ceiling price for an article under the provisions of section 35 or 36 if in your application you have elected to round your ceiling prices for the category including that article under one of these sections.

(5) If you subsequently wish to sell articles in the categories covered by your application to a class of purchaser not covered by it, you must file a supplemental application for a price differential to that class. Your supplemental application must be filed by registered mail, return receipt requested. It must state the date of your original application; it must identify the additional class of purchaser to which you wish to sell; and it must state the price differential you propose for that class of purchaser.

You may not sell to your new class of purchaser until 20 days after you have mailed your supplemental application. Thereafter you may sell to that class of purchaser at ceiling prices computed by application of your proposed differential unless and until notified by the Director that your proposed differential has been disapproved or revised, or that more information is required. If more information is required you may not sell to the new class of purchaser until 20 days after the information has been mailed to the Director by registered mail, return receipt requested. If upon the expiration of the 20 day waiting period you proceed to sell at your proposed differential and you thereafter receive an order revising your differential, you must use the revised differential for all articles which you deliver to the new class of purchaser after receipt of that order.

(b) *Application for a ceiling price on a specific article.* (1) If you are applying for establishment of a ceiling price on a specific article, your application shall contain the following:

(i) The name and address of your company.

(ii) A description of the article, including a detailed breakdown of your unit direct costs. (Direct cost consists only of the cost of direct labor, as defined in section 8, and the cost of manufacturing materials, as defined in section 11. In computing your direct labor cost you may not use labor rates higher than those in effect for each operation on March 15, 1951. In computing your manufacturing materials cost you may use either the current net cost of the materials used in the units for which you are determining a ceiling price, or their net cost as of the terminal prescribed date which you have calculated in accordance with the provisions of section 15.) Your application must state whether the material costs given in your breakdown are current costs or terminal costs.

(iii) An explanation of why you are unable to determine your ceiling price under any other provision of this regulation.

(iv) The classes of purchasers to whom you expect to sell.

(v) Your proposed ceiling price to each of those classes of purchasers.

(vi) Your proposed discounts and other terms and conditions of sale.

(vii) Supply the information requested in (a) (1) (xi) above, if applicable to you.

(2) You may not sell the article until 20 days after mailing your application. Thereafter you may sell the article at your proposed ceiling price unless and until notified by the Director that your proposed ceiling price has been disapproved or reduced or that more information is required. If more information is required, you may not sell the article until 20 days after such information has been mailed to the Director by registered mail, return receipt requested. If upon the expiration of the 20 days waiting period you proceed to sell at your proposed ceiling price and you thereafter receive an order reducing your proposed price, you must use the reduced price for all deliveries after receipt of that order.

(3) If you subsequently wish to sell the article to a class of purchaser not covered by your application, you must file a supplemental application for a ceiling price to that class. Your supplemental application must be filed by registered mail, return receipt requested. It must state the date of your original application; it must identify the additional class of purchaser to which you wish to sell; it must state the price differential you propose for that class of purchaser; and it must identify the class of purchaser to whose ceiling price you wish to apply that differential in determining your ceiling price to the additional class of purchaser.

You may not sell to your new class of purchaser until 20 days after you have mailed your supplemental application. Thereafter you may sell to that class of purchaser at ceiling prices computed by application of your proposed differential unless and until notified by the Director that your proposed differential has been disapproved or revised, or that more information is required. If more information is required you may not sell to the new class of purchaser until 20 days after that information has been mailed to the Director by registered mail, return receipt requested. If upon the expiration of the 20-day waiting period you proceed to sell at your proposed differential and you thereafter receive an order revising your differential, you must use the revised differential for all articles which you deliver to the new class of purchaser after receipt of that order.

(c) *Examples of situations requiring an application under this section.* The following are some of the situations in which you will be unable to determine your ceiling prices under any other section of this regulation, and therefore must file an application under this section:

(1) Except as provided in section 29, you are determining your ceiling price for an article which is in a different category from any dealt in by you between July 1, 1949 and June 24, 1950. An article otherwise in the same category as one dealt in by you between those dates shall nevertheless be considered to be in a different category if

(i) You wish to sell it at retail, and no articles in the same category were dealt in at retail by you between those dates.

(ii) You wish to sell it at non-retail, and no articles in the same category were dealt in at non-retail by you between those dates.

(2) You are a new seller, i. e., you made no sales of any articles covered by this regulation prior to April 2, 1950. You shall also consider yourself a new seller of an article if

(i) You wish to sell it at retail, and no articles covered by this regulation were dealt in by you at retail prior to April 2, 1950.

(ii) You wish to sell it at non-retail, and no articles covered by this regulation were dealt in by you at non-retail prior to April 2, 1950.

4. Section 53 is amended as follows:

Paragraph (2) of the definition of "Manufacturer" is deleted, and the following paragraph (2) substituted therefor:

(2) Any person who sells to a fabricator any principal material from which an article is fabricated, under an agreement providing that the article shall be made to his specifications from that material and then be sold back to him at a price based on the cost of that material to the fabricator plus a charge for the latter's services and for any other materials supplied by the latter; so that the definition of "Manufacturer" in section 53 will now read as follows:

Manufacturer. This term means any one of the following:

(1) Any person who fabricates an article for his own account from materials owned by him;

(2) Any person who sells to a fabricator any principal material from which an article is fabricated, under an agreement providing that the article shall be made to his specifications from that material and then be sold back to him at a price based on the cost of that material to the fabricator plus a charge for the latter's services and for any other materials supplied by the latter;

(3) Any person who furnishes or consigns to a fabricator any of the principal materials he owns from which an article is fabricated for his own account;

(4) Any person, (i) whose business is directly or indirectly under the same ownership and control as the person who fabricates an article, and (ii) who deals in that article other than at retail or further processes or fabricates it.

Fabricating means substantially changing the form of some commodity or commodities, combining of two or more commodities into a different one, or the creating of a new commodity from existing ones. Mere packaging, labeling, marketing, promoting, selling or combining articles without substantially changing their form does not constitute fabrication. If you merely perform an industrial service (e. g., contract sewing) for the account of others, on a commodity, you are not a manufacturer with respect to the resulting article.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. App. Sup. 2154)

Effective date. This amendment is effective July 1, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[General Ceiling Price Regulation, Supplementary Regulation 108]

GCPR, SR 108, ADJUSTED CEILING PRICES FOR MANUFACTURERS OF READY-MIXED CONCRETE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 108 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation provides a uniform adjustment factor of 104 percent which all manufacturers of ready-mixed concrete may apply to ceiling prices established under the General Ceiling Price Regulation (GCPR) before any adjustments which have been or may be established, granted, or computed under an adjustment provision of any OPS regulation. However, any manufacturer of ready-mixed concrete may elect to adjust ceiling prices under GOR 20, GOR 21, or SR 106 to the GCPR in lieu of adjustments permitted by this supplementary regulation.

Because of its perishability and weight, and the competition between ready-mixed concrete and job-mixed concrete, ready-mixed concrete is a product which is manufactured and sold within very narrow marketing areas. Normally ready-mixed concrete is not sold beyond twenty miles of the mixing or batching plant. The limitation in market area has given rise to an industry composed of small plants and many individual firms. In 1951 the ready-mixed concrete industry numbered, according to conservative estimates, about 2,000 individual firms, widely scattered over the entire country. During the same year, this industry delivered approximately 45,000,000 cubic yards of concrete with an estimated value of $470,000,000.

Since the GCPR freeze date, labor costs, freight costs, and material costs, despite increased volume, more efficient plant equipment and other savings, have risen disproportionately in relation to cost increases experienced by many other industries. The significance of the freight cost increase alone is clearly shown by the fact that transportation costs of sand and gravel, two important elements of ready-mixed concrete, account for better than 50 percent of the sales value of these materials at destination. The net effect has been serious impairment of earnings.

The industry earnings standard is a yardstick used to determine the need of an industry, if any, for a price increase. It provides for adjusting ceiling prices where the industry's current ratio of earnings to net worth is less than 85 percent of the average ratio of earnings to net worth during the best three years during the period 1946–49, inclusive. The earnings used in the calculation are profits computed before the federal income and excess profits taxes and after normal depreciation only, with adjustments made for any change in net worth. Thus this standard could not be applied until the industry submitted earnings reports and balance sheet data.

Such financial information has recently been supplied by a sample of firms of the ready-mixed concrete industry. These data indicated that this industry's best three of the four years 1946–49, were 1946, 1947 and 1948. The data showed that in order to restore present earnings to a level where the industry's current dollar profits will equal 85 percent of the industry's 1946–48 ratio of earnings to net worth, it is necessary to increase ceiling prices by at least four percent. Therefore, this order permits manufacturers of ready-mixed concrete to increase their GCPR ceilings by this percentage.

A tailored regulation which will provide adjustments for the ready-mixed concrete industry is now under consideration by the Office of Price Stabilization. Pending such action, this supplementary regulation is being issued as an interim measure.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Persons covered by this supplementary regulation.
3. Ceiling prices.
4. Relation to other regulations.
5. Definitions.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 C. F. R. 1950 Sup.

SECTION. 1. *What this supplementary regulation does.* This supplementary regulation establishes ceiling prices for sales of ready-mixed concrete by manufacturers. These manufacturers are now subject to the provisions of the General Ceiling Price Regulation (GCPR). The method employed by this supplementary regulation is to apply a uniform percentage adjustment to GCPR ceiling prices.

SEC. 2. *Persons covered by this supplementary regulation.* This supplementary regulation applies to you if you are a manufacturer of ready-mixed concrete and establishes your ceiling prices for your sales of that commodity. Except to the extent that they are modified by or are inconsistent with the provisions of this supplementary regulation, all provisions of the GCPR shall continue to be applicable to you.

Sec. 3. *Ceiling prices.* (a) If you are a manufacturer of ready-mixed concrete, your ceiling price for each specification or mix to your largest buying class of purchaser is your GCPR ceiling price for that specification or mix to that class of purchaser increased by 4 percent (i. e., 104 percent of your GCPR ceiling price). As used in this supplementary regulation, the term "your GCPR ceiling price" means your ceiling price as established under sections 3, 4, 6 or 7 of the GCPR before any adjustments which have been or may be established, granted or computed under an adjustment provision of any OPS regulation.

(b) Your ceiling price for sale of each specification or mix to your largest buying class of purchaser must be consistent in every respect with your GCPR ceiling price; that is, it must carry all customary delivery terms, cash and volume discounts, allowances, premiums and extras, deductions, guarantees, and other terms and conditions of sale.

(c) Your ceiling price for sale of each specification or mix to each of your other classes of purchasers is determined by applying your price differentials established under the GCPR. For each class of purchasers you must maintain all customary delivery terms, cash and volume discounts, allowances, premiums and extras, deductions, guarantees, and other terms and conditions of sale. An explanation of what is meant by "class of purchaser" is found in section 5 (Definitions).

(d) You may round your ceiling prices determined under this supplementary regulation so that they will be expressed to the nearest five (5) cents if this has been your normal practice. If you elect to do so you must similarly round the ceiling prices for all specifications or mixes covered by this supplementary regulation, to reflect decreases as well as increases. For example, if your ceiling price for specification X is $11.44 per cu. yd., you may round that ceiling price to $11.45. However, if your ceiling price for specification Z is $11.96 you must round its ceiling price to $11.95.

SEC. 4. *Relation to other regulations.*—(a) *Relation to SR 66.* You may add to your ceiling prices established under this supplementary regulation any ceiling price adjustment calculated in accordance with the provisions of Supplementary Regulation 66 to the GCPR.

(b) *Relation to GOR 20, GOR 21, GOR 10, and SR 106 to the GCPR.* (1) Notwithstanding any provision of this supplementary regulation you may elect to use General Overriding Regulation 20 (GOR 20), General Overriding Regulation 21 (GOR 21) or Supplementary Regulation 106 (SR 106) to the GCPR to establish your ceiling prices for ready-mixed concrete. If you so elect, you may not use this supplementary regulation.

(2) If prior to the effective date of this supplementary regulation you established ceiling prices for ready-mixed concrete under GOR 20, GOR 21, General Overriding Regulation 10 (GOR 10) or SR 106 to the GCPR, you may elect to use ceiling prices so established or ceiling prices established under this supplementary regulation, but you may not use both.

(3) You may, although you use this supplementary regulation, use GOR 20, GOR 21, or SR 106 to the GCPR to establish your ceiling prices for commodities not covered by this supplementary regulation.

SEC. 5. *Definitions.* The following definitions shall be controlling in the application of this supplementary regulation:

(a) *"Class of purchaser or purchaser of the same class".* This term refers to the practice adopted by a seller in setting different prices for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, shopper, retailer, Government agency, public institutions or individual consumer) or for purchasers located in different areas or for purchasers of different quantities or grades or under different terms or conditions of sale or delivery. (This definition is the same as that found in the GCPR.)

(b) *"Manufacturer of ready-mixed concrete."* This term means one who manufactures ready-mixed Portland cement concrete and sells the ready-mixed concrete so manufactured to any class of purchaser.

Effective date. This supplementary regulation shall become effective June 26, 1952.

Director of Price Stabilization.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. Section 4.20 is revised to read as follows:

§ 4.20 *Death of veteran due to service; general law.* For the purposes of sections 4702 and 4707 Revised Statutes, as amended, the widow, child, or children, or dependent mother or dependent father of any person embraced within sections 4692 and 4693, Revised Statutes, or the remarried widow of any such person who served in the Civil War, an Indian war, Spanish-American War, Boxer Rebillion, or Philippine Insurrection, who died of a disability contracted in the service in line of duty, shall be entitled to receive compensation at the monthly rates specified in § 4.122 (a) or (b), or § 4.124: *Provided*, That the character of discharge meets the requirements of § 3.1040 (c) of this chapter.

(Secs. 1-3, 56 Stat. 731; 38 U. S. C. ch. 12 note)

2. In § 4.56, the headnote is amended to read as follows:

§ 4.56 *Foreign residence; March 20, 1933 to February 4, 1935.* • • •

3. A new § 4.57 is added as follows:

§ 4.57 *Foreign residence; World War II*—(a) *General.* Claims of persons, whether citizens or noncitizens of the United States, who resided in territory of or under the control of an enemy of the United States or any of its allies, are subject to the provisions of section 4, Public Law 144, 78th Congress (see § 4.108).

(b) *Citizens or subjects of Germany or Japan.* No payments shall be made to a citizen or subject of Germany or Japan while residing in Germany or Japan (Public Law 622, 79th Congress).

(c) *Readjustment of awards.* (1) The recommencement of payments on awards to noncitizens which were discontinued in accordance with the provisions of section 5, Public Law 144, 78th Congress, and on awards to any persons where checks to which a beneficiary was entitled were placed in the special deposit account entitled "Secretary of the Treasury, Proceeds of Withheld Foreign Funds," or covered into miscellaneous receipts pursuant to the provisions of Public No. 828, 76th Congress, shall be subject to the provisions of § 4.88 (e).

(2) Awards of accrued benefits representing checks which were withheld pursuant to Public Law 828, 76th Congress, shall be subject to the provisions of § 4.165. Awards of accrued benefits to noncitizens, where a claim and evidence of nonforfeiture were not filed prior to August 8, 1947, shall in addition be subject to the provisions of § 4.86 (l).

(3) Awards to persons who were "receiving a current pension or compensation" on August 1, 1949, and who had been prevented from filing an earlier claim for death pension or compensation by reason of having been interned by a country with which the United States was at war, or was otherwise prevented from filing such claim by action of such country, shall be subject to the provisions of § 4.77 (c).

(Secs. 1, 2, 54 Stat. 1086, 1087, secs. 4, 5, 57 Stat. 555, 60 Stat. 874; 31 U. S. C. 123, 124, 38 U. S. C. 728, 729, 729a)

4. Section 4.108 is revised to read as follows:

§ 4.108 *Forfeiture for treasonable acts.* Any person shown by evidence satisfactory to the Administrator of Veterans Affairs to be guilty of mutiny, treason, sabotage, or rendering assistance to an enemy of the United States or of its allies, shall forfeit all accrued or future benefits under laws administered by the Veterans' Administration pertaining to gratuities for veterans and their dependents: *Provided*, That any part of such benefits may be apportioned and paid to the dependents of such person, not exceeding the amount to which each dependent would be entitled if such person were dead. (Section 4, Public No. 144, 78th Congress, act of July 13, 1943.) The foregoing is not applicable as to a child or children, regardless of age, who are in the widow's custody and included in an award to her. Forfeiture by a veteran does not preclude payment of death compensation or pension which may otherwise be payable to or for a surviving dependent.

(Sec. 4, 57 Stat. 555; 38 U. S. C. 728)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective June 27, 1952.

[SEAL] O. W. CLARK,
Deputy Administrator.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 8 of the Commission's rules relative to the provision of 375 kc or 410 kc as the direction finding frequency in main and emergency transmitters aboard compulsorily equipped ships.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 18th day of June 1952;

The Commission, having under consideration the matter of implementation of the agreement concluded at the Extraordinary Administrative Radio Conference (Geneva 1951) relative to the use by ship stations of the frequency 410 kc as the direction finding frequency in lieu of the frequency 375 kc which is currently required to be provided in main and emergency transmitters compulsorily installed under the provisions of Title III, Part II of the Communications Act of 1934, as amended;

It appearing, that under the agreement referred to above, the frequency 410 kc will be the assigned frequency for direction finding effective November 1, 1952, and

It further appearing, that it is necessary to amend the requirements governing compulsorily installed main and emergency transmitters so as to permit such transmitters to be equipped for use of either 375 kc or 410 kc during a transition period in advance of November 1, 1952; and

It further appearing, that it is necessary to initiate this transition period as early as possible and, therefore, compliance with the rule making procedures set forth in sections 4 (a) and (c) of the Administrative Procedure Act would be impracticable and contrary to the public interest; and

It further appearing, that authority for the amendments herein ordered is contained in sections 354 (c), and 303 (c), (f) and (r) of the Communications Act of 1934, as amended;

It is ordered, That effective immediately Part 8 of the Commission's rules is amended as set forth below.

(Sec. 303, 47 Stat. 1082; 50 Stat. 191; 47 U. S. C. 303)

Released: June 19, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 8.330 (e) is amended to read as follows:

(e) In all ship stations authorized to transmit on frequencies within the band 365 to 515 kilocycles, a written record shall be maintained of the adjustments of the transmitting and receiving equipment for operation on the assigned frequencies 375 or 410 kc, 500 kc and at least one authorized working frequency within this band. This record shall be posted at all times in a conspicuous place on or near the particular equipment involved.

2. Section 8.401 (a) is amended to read as follows:

(a) The frequency 410 kc is the assigned frequency for direction finding. However, the frequency 375 kc may be used for this purpose in lieu of 410 kc until not later than 3 a. m., e. s. t., November 1, 1952.

3. Section 8.401 (c) is amended by adding the following parenthetical phrase after the frequency 375 kc:

(The frequency 410 kc is the assigned frequency for direction finding. However, the frequency 375 kc may be used for this purpose in lieu of 410 kc until not later than 3 a. m., e. s. t., November 1, 1952.)

4. Section 8.552 (b) is amended by changing column 1 of the table by substituting "410 kc" for "375 kc" and revising the footnote thereto to read as follows:

[1] See § 8.401 (a) relative to interim use of 375 kc. During the interim period, basic technical requirements set forth for 410 kc shall be applicable to 375 kc.

5. Section 8.553 (b) is amended by changing column 1 of the table by substituting "410 kc" for "375 kc" and revising the footnote thereto to read as follows:

[1] See § 8.401 (a) relative to interim use of 375 kc. During the interim period, basic technical requirements set forth for 410 kc shall be applicable to 375 kc.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 40]

EXCESS PROFITS TAXES; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

EXCESS PROFITS CREDIT OF REGULATED PUBLIC UTILITIES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62).

[SEAL] JOHN B. DUNLAP, *Commissioner of Internal Revenue.*

In order to conform Regulations 130 [26 CFR Part 40] to sections 513 and 514 of the Revenue Act of 1951 (82d Cong., 1st Sess.), approved October 20, 1951, and in order to express in greater detail the regulations under section 448 of the Internal Revenue Code relating to the excess profits credit of regulated public utilities, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 40.448-1 the following:

SEC. 513. EXCESS PROFITS CREDIT—REGULATED PUBLIC UTILITIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 448 (c) (3) (relating to regulated public utilities) is hereby amended to read as follows:

(3) 6 per centum in the case of a corporation engaged as a common carrier (A) in the furnishing or sale of transportation by railroad, if subject to the jurisdiction of the Interstate Commerce Commission, or (B) in the furnishing or sale of transportation of oil or other petroleum products (including shale oil) by pipe line, if subject to the jurisdiction of the Interstate Commerce Commission or if the rates for such furnishing or sale are subject to the jurisdiction of a public service or public utility commission or other similar body of the District of Columbia or of any State.

SEC. 514. CONSOLIDATED RETURNS OF REGULATED PUBLIC UTILITIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 48 (e) (relating to consolidated returns of regulated public utilities) is hereby amended by adding at the end thereof the following new sentence: "For purposes of filing a consolidated return with its railroad lessee corporation, a railroad lessor corporation described in section 434 (d) (without regard to the requirement of payment of the lessor's taxes by the lessee) shall be considered a corporation described in subsection (c) (3)."

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

• • • the amendments made by this title (including sections 513 and 514) shall be applicable only with respect to taxable years ending after June 30, 1950.

PAR. 2. Section 40.448-1 is amended by adding at the end thereof the following: "For rules applicable to consolidated returns of affiliated corporations which include regulated public utilities, see § 29.141-1 of Regulations 111 and see Regulations 129."

PAR. 3. Section 40.448-2 is amended as follows:

(A) By striking paragraph (a) (3) and inserting in lieu thereof the following:

(3) A corporation engaged as a common carrier (i) in the furnishing or sale of transportation by railroad, if subject to the jurisdiction of the Interstate Commerce Commission, or (ii) in the furnishing or sale of transportation of oil or other petroleum products (including shale oil) by pipe line, if subject to the jurisdiction of the Interstate Commerce Commission or if the rates for such furnishing or sale are subject to the jurisdiction of a public service or public utility commission or other similar body of the District of Columbia or of any State.

(B) By redesignating paragraphs (b), (c), and (d) thereof as paragraphs (d), (e), and (f), respectively.

(C) By striking the last sentence of paragraph (a) and inserting in lieu thereof the following new paragraphs:

(b) *Rates.* (1) If a schedule of rates has been filed with any regulatory body described in paragraph (a) of this section having the power to disapprove such rates, then such rates shall be considered as established or approved rates for the purpose of paragraph (a) of this section even though such body has taken no action on the filed schedule.

(2) Rates fixed by contract between the public utility and the purchaser, except where the purchaser is the United States, a State, the District of Columbia, or an agency or political subdivision of the United States, a State, or the District of Columbia, shall not be considered as established or approved rates for the purpose of paragraph (a) of this section in those cases where they are not subject to direct control, or where no maximum rate for such contract rates has been established, by the

United States, a State, the District of Columbia, or by any agency or political division thereof. But see subparagraph (3) of this paragraph.

(3) If the taxpayer establishes to the satisfaction of the Commissioner that its revenue from regulated rates described in paragraph (a) (1) or (4) of this section and from unregulated rates are derived from its operation of a single interconnected and coordinated system or from its operation of more than one such system, and that an unregulated rate applicable in the operation of a single interconnected and coordinated system has been and is substantially as favorable to users and consumers as a comparable regulated rate applicable in the operation of such system, the income from such unregulated rate shall be considered, for the purpose of paragraph (a) of this section, as income derived from sources described in paragraph (a) (1) or (4) of this section. For the purpose of determining whether or not an unregulated rate in a single system has been and is substantially as favorable to users and consumers as the comparable regulated rate in such system, due consideration shall be given to the factors recognized by the regulatory body described in paragraph (a) of this section under whose jurisdiction the comparable regulated rate is established or approved.

(c) *By-products and residual products.* The gross income from by-products or residual products shall not be applied in reduction of the cost of furnishing the products or services described in section 448 (c) for the purpose of determining the gross income from the furnishing of such products or services.

(D) By striking subparagraph (2) of paragraph (e) thereof (as redesignated by item (B) above), and by substituting therefor the following:

(2) In the case of a corporation described in paragraph (a) (1) (i) or (ii), (2) or (4) of this section, if the corporate books of account are maintained in accordance with systems of accounts prescribed by an appropriate regulatory body (or, if not so prescribed, are maintained in accordance with the uniform systems of accounts prescribed by the Federal Power Commission or the National Association of Railway and Utility Commissioners), the adjusted invested capital for such taxable year shall be the sum of the average outstanding common and preferred capital stock, accounts for the taxable year and the average capital and earned surplus accounts for the taxable year, as properly recorded on the corporate books of account. The following rules shall apply for the purpose of this paragraph:

(i) The determination of the adjusted invested capital for any taxable year shall be made without regard to the profits or loss for such taxable year computed in accordance with such system of accounts and without regard to distributions out of the profits for such taxable year so computed. In determining whether a distribution is out of the profits for the taxable year, such profits shall be computed as of the close of such taxable year without diminution by reason of any distribution made during such taxable year or by reason of the income and excess profits tax for such taxable year and the determination shall be made without regard to the amount of the profits at the time the distribution was made.

(ii) The term "an appropriate regulatory body" as used in this section means a regulatory body described in section 448 (c) (1) and in paragraph (a) (1) of this section, under whose jurisdiction the corporation operates.

(iii) The average of any account (such as the common stock account or the capital surplus account) shall be the sum, divided by the number of days in the taxable year, of the amount of such account as of the beginning of each day of the taxable year.

(iv) If the adjusted invested capital for any taxable year is computed by the method prescribed by this paragraph, the taxpayer must attach a statement to its return for such taxable year setting forth all the facts which require the use of such method.

PAR. 4. Section 40.448-3 is amended as follows:

(A) By changing the cross reference in paragraph (a) thereof from "§ 40.448-2 (c)" to "§ 40.448-2 (e)", by changing the cross reference in paragraph (c) thereof from "§ 40.448-2 (d)" to "§ 40.448-2 (f)", and by changing the cross reference in paragraph (d) thereof from "§ 40.448-2 (b)" to "§ 40.448-2 (d)".

(B) By adding at the end of paragraph (a) thereof the following:

• • • In case the corporation is described in § 40.448-2 (a) (1), (2), (3), or (6), and is also described in § 40.448-2 (a) (4) or (5), the computation under the preceding sentence shall be as follows:

(1) A first amount shall be computed by applying a 6 percent rate to the sum of the items specified in the preceding sentence;

(2) A second amount shall be computed by applying a one percent rate to the sum of the items specified in the preceding sentence;

(3) There shall be added to the first amount so much of the second amount as the ratio of the gross income from the operations described in § 40.448-2 (a) (4) and (5) bears to the total gross income from the operations described in § 40.448-2 (a).

For the purpose of this paragraph gross income shall be computed without regard to dividends and capital gains and losses.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10221]

RADIO BROADCAST SERVICES

STANDARD BROADCAST STATIONS

In the matter of amendment of Subpart A, Part 3 of the Commission's rules, sections 1 and 9 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, and of title of said Standards, to provide for the incorporation of the frequency 540 kilocycles in the Standard Broadcast Band.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. a. It is proposed to amend the following sections of Subpart A, Part 3, of the Commission's rules, to read as follows:

§ 3.1 *Standard broadcast station.* The term "standard broadcast station" means a broadcasting station licensed for the transmission of radiotelephone emissions primarily intended to be received by the general public and operated on a channel in the band 535-1605 kilocycles.

§ 3.2 *Standard broadcast band.* The term "standard broadcast band" means the band of frequencies extending from 535 to 1605 kilocycles.

§ 3.3 *Standard broadcast channel.* The term "standard broadcast channel" means the band of frequencies occupied by the carrier and two side bands of a broadcast signal with the carrier frequency at the center. Channels shall be designated by their assigned carrier frequencies. The 107 carrier frequencies assigned to standard broadcast stations shall begin at 540 kilocycles and be in successive steps of 10 kilocycles.

§ 3.25 *Clear channels: Class I and II stations.* • • •

(c) For Class II stations which will not deliver over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point on said border and provided that such stations operating nighttime (i. e., sunset to sunrise at the location of the Class II station) are located not less than 650 miles from the nearest Canadian border, 540, 690, 740, 860, 990, 1010,[*] and 1580 kilocycles.

b. Footnote 5, referring to § 3.25 (c), is retained unchanged.

3. It is proposed to amend the Standards of Good Engineering Practice Concerning Standard Broadcast Stations (550-1600 kc) in the following respects:

a. The heading of the Appendix to Subpart A is amended to read: "Standards of Good Engineering Practice Concerning Standard Broadcast Stations (535-1605 kc)".

b. Section 1. Engineering Standards of Allocation: The first sentence of the second paragraph to read as follows: "Sections 3.21 to 3.34, inclusive, govern allocation of facilities in the standard broadcast band of 535 to 1605 kc."

c. Section 9. Requirements for Approval of Power Rating of Vacuum Tubes: Subparagraph (2) of the fourth undesignated paragraph to read as follows: "On the frequencies 535 to 1605 kc in the standard broadcast band."

4. The purpose of this amendment is to provide for domestic use of the frequency 540 kilocycles by the broadcast service in accordance with Article 22 of the Agreement signed at the Extraordinary Administrative Radio Conference,

Geneva, 1951, which sets the date December 1, 1952, for the bringing into force in Region 2 of the band 535–1605 kilocycles as established by the International Telecommunications Convention, Atlantic City, 1947.

5. Authority for the adoption of the proposed amendments is contained in sections 303 a, b, c, f, and r, and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before July 28, 1952, a written statement or brief setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments or briefs in reply to the original comments or briefs may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or argument will be given.

7. In accordance with the provisions of § 1.784 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: June 18, 1952.

Released: June 18, 1952.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[Commissioner's Reorganization Order No. NYC-1]

DISTRICT COMMISSIONER AND DIRECTORS, NEW YORK CITY DISTRICT

DELEGATION OF FUNCTIONS

Pursuant to the authority vested in me as Commissioner of Internal Revenue:

1. *Delegation to District Commissioner.* There is hereby delegated to the District Commissioner of Internal Revenue for the New York City District the authority to perform, manage, administer, and provide technical direction of all functions which by this order and subsequent orders are vested in field offices of the Bureau of Internal Revenue within such district. In such capacity, such District Commissioner is vested with the responsibility for district policies, programs and procedures and for directing and coordinating the work of the Directors of Internal Revenue within such district. There shall be in the office of the District Commissioner the following positions: Assistant District Commissioner (Administrative); Assistant District Commissioner (Collections); Assistant District Commissioner (Audit); Assistant District Commissioner (Intelligence); Assistant District Commissioner (Alcohol and Tobacco Tax); Assistant District Commissioner (Appellate). Without limiting the generality of the delegations made hereinabove to the District Commissioner, there are delegated to the District Commissioner and the Assistant District Commissioners the functions more particularly described in Exhibit A set forth below.

2. *Limitations on authority.* The authority delegated in paragraph 1 shall not include the authority which, by T. S. No. 57, approved September 14, 1939, as amended, by Comissioner's Reorganization Order No. 2, or by other orders relating to the same authority, is vested in officers of the Appellate Staff, any Assistant District Commissioner, Appellate, or reserved to the Commissioner. Likewise, the authority delegated in paragraph 1 does not include the functions, relating to the assessment and collection of taxes and the accountability therefor, delegated to the Directors of Internal Revenue in paragraph 3 of this order.

3. *Delegation to Directors*—(a) (i) *Director of Internal Revenue, Brooklyn.* There are hereby delegated to the Director of Internal Revenue, Brooklyn, all functions relating to the assessment and collection of taxes and the accountability therefor of the office of Collector of Internal Revenue for the First Collection District of New York immediately prior to the effective date of Treasury Department Order No. 150–4 (which provides for the abolition of such office).

(ii) *Director of Internal Revenue, Lower Manhattan.* There are hereby delegated to the Director of Internal Revenue, Lower Manhattan, all functions relating to the assessment and collection of taxes and the accountability therefor of the office of Collector of Internal Revenue for the Second Collection district of New York immediately prior to the effective date of Treasury Department Order No. 150–4 (which provides for the abolition of such office).

(iii) *Director of Internal Revenue, Upper Manhattan.* There are hereby delegated to the Director of Internal Revenue, Upper Manhattan, all functions relating to the assessment and collection of taxes and the accountability therefor of the office of Collector of Internal Revenue for the Third Collection district of New York immediately prior to the effective date of Treasury Department Order No. 150–4 (which provides for the abolition of such office).

(iv) It is the specific purpose and intent of the foregoing delegations to insure the preservation of the right to maintain suit for refund of taxes against such Directors of Internal Revenue in the same manner as suits were maintained against the Collectors of Internal Revenue of the First, Second, and Third Collection districts of New York prior to the abolition of such offices by Treasury Department Order No. 150–4.

(b) *Subject to the exercise of appropriate authority by the District Commissioner.* (i) In addition to the functions described in subparagraph (a) (i) of this section, there are delegated to the Director of Internal Revenue, Brooklyn, the following:

(A) All of the functions of the Collector of Internal Revenue for the First Collection district of New York immediately prior to the effective date of Treasury Department Order No. 150–4, not specifically delegated to such Director in subparagraph (a) (i).

(B) The functions heretofore performed by the Internal Revenue Agent in Charge, Brooklyn Revenue Agents District.

(ii) In addition to the functions described in subparagraph (a) (ii) of this section, there are delegated to the Director of Internal Revenue, Lower Manhattan, the following:

(A) All of the functions of the Collector of Internal Revenue for the Second Collection district of New York immediately prior to the effective date of Treasury Department Order No. 150–4, not specifically delegated to such Director in subparagraph (a) (ii).

(B) The functions heretofore performed by the Internal Revenue Agent in Charge, Second New York Revenue Agents District.

(iii) In addition to the functions described in subparagraph (a) (iii) of this section, there are delegated to the Director of Internal Revenue, Upper Manhattan, the following:

(A) All of the functions of the Collector of Internal Revenue for the Third Collection district of New York immediately prior to the effective date of Treasury Department Order No. 150–4, not specifically delegated to such Director in subparagraph (a) (iii).

(B) The functions heretofore performed by the Internal Revenue Agent in Charge, Upper New York Revenue Agents District, which relate to activities within the area constituting the Third Collection district of New York.

Without limiting the delegations hereinabove made, the functions hereby delegated to each of such Directors include those more particularly described in the Exhibit B set forth below.

4. *Assistant Director of Internal Revenue.* There shall be in the office of each Director of Internal Revenue the position of Assistant Director of Internal Revenue. Such Assistant Director of Internal Revenue shall, in case of the sickness or absence of the Director, or in case of the temporary disability of the Director to discharge his duties, perform the functions of the Director; in case of a vacancy occurring in the office of the Director, the Assistant Director shall perform the functions of the Director until another Director is appointed, unless the Secretary of the Treasury shall direct such functions to be performed by such other employee as he may designate.

5. *Authority to redelegate.* The functions herein transferred to the District Commissioner and the Directors of Internal Revenue may, within the framework of the organization described in attached Exhibits A and B, be delegated by each to subordinates within his district in such manner as he shall from time to time direct.

6. *Continuing duties.* Notwithstanding Treasury Department Order No. 150–4 (which abolished the offices of Deputy Collector for the First, Second and Third Collection Districts of New York), the individuals occupying the positions of Deputy Collectors within such collection districts immediately prior to the effective date of such order shall, until changed by appropriate authority, continue to perform the functions they were authorized to perform at such time and to perform such functions in accordance with authorized regulations and procedures in effect at such time. Such individuals shall have the operating title of "Internal Revenue Agent".

7. *Continuation of functions.* Pending the issuance of further instructions, all officers and employees within the New York District (including all officers and employees within the jurisdiction of the Directors of Internal Revenue) shall continue to perform the functions they were authorized to perform immediately prior to the effective date of this order, and to comply with procedures in effect at such time.

8. *Effective date.* This order shall be effective as of 12:01 a. m., July 1, 1952.

Dated: June 23, 1952.

[SEAL] JOHN B. DUNLAP,
Commissioner.

EXHIBIT A

FUNCTIONS OF OFFICE OF DISTRICT COMMISSIONER

1. *District Commissioner.* Responsible within established policies and procedures for the administration of all Internal Revenue laws and related statutes, including those more particularly described hereinafter, within the district; supervises and coordinates the work of the several Directors of Internal Revenue within the district; responsible for the activities relating to personnel, training, information and office services, prepares budget estimates, allots and controls funds for the district.

2. *Assistant District Commissioner, Administrative.* Under the District Commissioner plans and directs the activities of the headquarters office and field administrative divisions. Responsible for budgetary functions, personnel matters, space allocations and purchasing of supplies and equipment, training programs and preparation of necessary statistics.

3. *Assistant District Commissioner, Collection.* Under the District Commissioner plans and directs the activities of the headquarters office of the Collection Division and assists in planning and coordination of collection activities in the district's field offices; maintains technical and advisory contact with the field offices.

4. *Assistant District Commissioner, Audit.* Under the District Commissioner plans and directs the activities of the headquarters office of the Audit Division and assists in planning and coordination of the field activities relating to investigation of all tax returns, collection of delinquent accounts and canvassing for delinquent returns; maintains technical and advisory contact with the field offices.

5. *Assistant District Commissioner, Intelligence.* Under the District Commissioner plans and directs the activities of the headquarters office and plans, coordinates and executes field activities of the Intelligence Division; responsible for the planning and execution of programs and policies relating to the wagering tax law, tax fraud investigations (other than alcohol and tobacco tax cases), special racketeer drives, investigations of charges against persons enrolled to practice before the Treasury Department and of applicants for enrollment, and of such other special investigations as the Commissioner may direct, for the review of reports submitted by special agents in his district. Makes appropriate recommendations covering prosecution, fraud penalty and civil liability features of cases and assists U. S. attorneys in court trial of cases.

6. *Assistant District Commissioner, Alcohol and Tobacco Tax.* Under the District Commissioner is responsible, within the District, for the administration and enforcement of the internal revenue laws relating to alcohol, alcoholic beverages and tobacco, the Federal Alcohol Administration Act, the National and Federal Firearms Acts, the Liquor Enforcement Act of 1936, the act of August 9, 1939, as it relates to firearms, the shipment of liquor in interstate commerce, and for the investigation of Bureau of Internal Revenue cases involving claims against the Government under the Federal Tort Claims Act. More specifically, is charged with the supervision and regulation of the liquor and tobacco industries; approval and denial of bonds, permits, plats and plans; the determination of liquor and tobacco taxes and penalties; the investigation, detection, and prevention of violations of laws relating to alcoholic liquors, tobacco and firearms, the seizure, custody, forfeiture and disposition of contraband or other property seized under such laws, and the supervision over the activities of all agents and employees engaged in the enforcement of such laws.

7. *Assistant District Commissioner, Appellate.* Under direct delegation from the Commissioner: (1) Exercises exclusive authority to determine the tax liability in Federal income, profits, estate, gift, excise (other than alcohol, tobacco, narcotics, and firearms), and employment tax cases originating in the office of a Director of Internal Revenue situated within the District and not docketed in The Tax Court of the United States, in which the taxpayer has protested the determination of tax liability made by the Director and has requested consideration by the Appellate Division; and (2) exercises exclusive authority to settle, with the concurrence of Appellate Counsel, any case docketed in the Tax Court and calendared for hearing within the District. Provided: That he will not eliminate the ad valorem fraud or negligence penalty except with the concurrence of Appellate Counsel; act in any case in which criminal prosecution is under consideration; or modify any determination of an issue under section 722 except with concurrence of the Excess Profits Tax Council.

With respect to such taxes, exercises exclusive authority with respect to Closing Agreements for past years considered under section 3760 and rejections of Offers in Compromise involving tax liability in excess of $5,000 considered under section 3761. Insofar as the District is concerned, exercises final approval authority on acceptance of Offers in Compromise involving tax liability in excess of $5,000.

Signs on behalf of the Commissioner all statutory notices issued by the Appellate Division.

Exercises general supervision over all the appellate work of the District and is responsible for the coordination of all its appellate activities.

Furnishes the District Commissioner with information as to workload, case dispositions, personnel and space, equipment and supply needs. Furnishes the headquarters office at Washington with prescribed statistical data and any other information called for by the Assistant Commissioner, Operations, for use in supervising and coordinating the appellate activities of all the Districts.

EXHIBIT B

FUNCTIONS OF OFFICE OF DIRECTOR OF INTERNAL REVENUE

1. *Director of Internal Revenue.* Responsible for the execution of established policies and procedures covering the assessment and collection of all Internal Revenue taxes, sale of revenue stamps, and the enforcement of all Internal Revenue laws and related statutes within the district, supervises and coordinates the work of the several field divisions and branch offices; responsible for the activities relating to personnel, training programs, information and office services, the preparation of budget estimates and control of funds for the district, and for the receipt of all types of tax returns and adequate service to the public: *Provided, however,* That in no instance shall such functions include any function delegated to the Assistant District Commissioner, Intelligence, the Assistant District Commissioner, Appellate, or to the Assistant District Commissioner, Alcohol and Tobacco Tax. Such functions are hereinafter more particularly described and shall be performed through the heads of the following divisions to be established in his office.

2. *Administrative Division.* Responsible for supervision and coordination of all activities relating to personnel, training, information, office services, communications (including teletype), requests for space and operating reports, the preparation of budget estimates and the control of funds within the district.

3. *Collection Division.* Responsible for the receipt of all tax returns and funds tendered in payment of all taxes; the administration of all taxpayers' accounts, general account and the processing of returns; the preparation of the accounting documents required to effect the transfer of funds erroneously received and deposited; the direction, supervision and coordination of the activities of the divisions and field offices.

4. *Audit Division.* Responsible for the examination of all classes of tax returns (except alcohol and tobacco tax), the collection of delinquent accounts with all related duties and canvassing for delinquent returns.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

NEVADA

CLASSIFICATION ORDER

JUNE 13, 1952.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427 dated August 16, 1950, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described land in the Nevada land district, embracing approximately 200 acres.

NEVADA SMALL TRACT CLASSIFICATION NO. 88

For lease and sale for homesites only:

T. 17 N., R. 20 E., M. D. M.
Sec. 18, W½SE¼, NE¼SW¼, SE¼SW¼ and N½ of Lot 2 of the SW¼ (or NW¼ SW¼).

Leases for tracts in the NW¼SW¼ will not be issued until a supplemental plat has been prepared, dividing the irregular acreage and assigning tract numbers.

The land is situated in Washoe County, Nevada, about 15 miles south of Reno, Nevada. It can be reached over Highway 395. All community services are available in Reno, Nevada, and also at Carson City, Nevada, which is 15 miles south of the land. The area is one that is used extensively for recreational purposes during the summer seasons.

2. As to applications regularly filed prior to 9:00 a. m., June 9, 1952, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to application under the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II, subject to the requirements of applicable law. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All of the lands will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

6. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 5.

7. Where only one 5-acre tract in a 10-acre subdivision is embraced in a preference right application, an application for the remaining 5-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 5.

8. Leases will be issued for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $100.00 per tract, application for which may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease issuance.

9. Highway 395, with a right-of-way 400 feet in width, passes through portions of the E½SW¼ and W½SE¼ of Section 18. All tracts affected by this right-of-way will be leased, subject to the highway right-of-way.

10. Tracts will be subject to all existing rights-of-way and to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Nevada Land and Survey Office, Reno, Nevada.

J. H. FAVORITE,
Acting Regional Administrator.

FARMERS BROADCASTING SERVICE, INC. (WELS)

ORDER SCHEDULING HEARING AND SUBSTITUTING ISSUES

In re application of Farmers Broadcasting Service, Inc. (WEIS), Kinston, North Carolina, for transfer of control, Docket No. 9996, File No. BTC–1111; Farmers Broadcasting Service, Inc. (WELS), Kinston, North Carolina, for renewal of license, Docket No. 10202, File No. BR–2524.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of June 1952;

The Commission having under consideration the above-entitled applications of Farmers Broadcasting Service, Inc. (hereinafter referred to as Farmers), licensee of Station WELS, Kinston, North Carolina, for renewal of license and for consent to transfer of control;

It appearing, that the Commission, on June 27, 1951, designated the above-entitled application of Farmers for consent to transfer of control for hearing on issues looking toward obtaining information with respect to, among other things, a possible unauthorized transfer of control of Farmers; that, subsequently, the Commission, by order dated November 7, 1951, denied Farmers' Petition for modification and clarification of the Commission's order of June 27, 1951, except insofar as it requested amendment of Issue No. 6, which Issue was amended as requested; that more recently the Commission, on May 21, 1952, designated the above-entitled renewal application for hearing in a consolidated proceeding with the above-entitled application of Farmers for consent to transfer of control, and amended its order of June 27, 1951, by the deletion of Issues Nos. 3 and 6, and the substitution therefor of new Issues Nos. 3 and 6, and the addition of Issues Nos. 7 and 8; and

It further appearing, that, an Issue relating to the legal, technical, financial and other qualifications of Farmers, its present officers, directors and stockholders, to operate Station WELS is essential to a proper decision in this matter; and

It further appearing, that, due to the number of orders issued herein, resulting in the deletion, correction, substitution, addition and the amendment of issues in said orders, it would be more conducive to the orderly progress of the hearing and would facilitate an Initial Decision in the above-entitled matter to consolidate in one order all of the issues to be developed at the hearing;

It is ordered, That all of the issues heretofore set forth in the above-mentioned orders of June 27, 1951, November 7, 1951, and May 21, 1952, are deleted and that the following issues superseding all previous issues in this hearing are:

1. To obtain full information as to all contracts, agreements, or understandings, past or present, between Robert E. Wasdon, E. L. Scott and Jack Siegel, on the one hand, collectively or individually, and Leroy Arnold, Irwin Berger, Forest H. Smith, G. W. Carter, A. D. Harris, P. T. Meyers, Clifton Rice and Edwin J. Schuffman, on the other hand, collectively or individually, relating to the sale, assignment or transfer of any of the stock of Farmers Broadcasting Service, Inc.

2. To determine whether the execution of any of the contracts, agreements or understandings, if any, referred to in Issue No. 1, the terms thereof, or any act performed pursuant thereto, were in violation of section 310 (b) of the Communications Act of 1934, as amended, or in violation of the rules and regulations of the Commission, with particular reference to §§ 1.321, 1.342 and 1.343 of said rules and regulations.

3. To obtain full information as to the method or methods of financing the construction and operation of Station WELS from August 12, 1950, to date, and the sources of such financing, and more particularly, to determine the disposition of such funds by Farmers, its officers, directors, stockholders and agents, and whether the aforesaid method or methods so employed deviated from representations made with respect thereto in the application for construction permit.

4. To determine the authority and control exercised by E. L. Scott, Jack Siegel, and Robert E. Wasdon from September 21, 1950, to date.

5. To determine the disposition, since September 21, 1950, of income received from the operation of Station WELS, and the manner and authority for such disposition.

6. To obtain full information as to the extent and method of participation, if any, by the proposed transferees in the financing, construction and operation of Station WELS from August 12, 1950, to date, and to determine whether Farmers has, at any time since August 12, 1950, been controlled or operated by a stockholder group which has not been authorized to operate or control the licensee corporation, in violation of sections 301, 310 (b), and 319 (b) of the Communications Act of 1934, as amended.

7. To determine whether Farmers, its officers, directors, stockholders or agents, have concealed information from the Commission regarding the ownership, operation, construction and control of Farmers, or have misrepresented the facts concerning such operation, ownership, construction and control in applications, reports and letters which they have, from time to time, filed with the Commission, with particular reference to the following:

(a) Whether Farmers, its officers, directors, stockholders and agents concealed or misrepresented facts as to who were the officers and directors of Farmers in the Annual Ownership Report (FCC Form 323), sworn to September 29, 1950.

(b) Whether, although the aforementioned Annual Ownership Report (FCC Form 323) was sworn to by Jack Siegel, as Secretary-Treasurer of Farmers, Leroy Arnold, in fact, held this office at that time.

(c) Whether Farmers, its officers, directors, stockholders and agents concealed or misrepresented, in the aforementioned Annual Ownership Report, facts regarding the stock subscriptions by newcomers.

(d) Whether Farmers, its officers, directors, stockholders and agents, concealed or misrepresented facts in its application for license (BL-4213).

8. To determine the legal, technical, financial and other qualifications of Farmers, its present officers, directors and stockholders, to operate Station WELS.

9. To determine whether, in light of evidence adduced under the foregoing issues, the public interest, convenience and necessity would be served by a grant of the above-entitled applications for renewal of license and transfer of control.

It is further ordered, That the hearing in the above-entitled proceeding, which hearing has been continued indefinitely and is presently scheduled to be held at Washington, D. C., is hereby scheduled to be held at Kinston, North Carolina, on July 8, 1952.

Released: June 13, 1952.

[Docket No. 10026]

FRED BIRCH AND FAIRMONT CORP.

ORDER AMENDING ISSUES

In re application of Fred Birch, transferor, the Fairmont Corporation, transferee, for transfer of control of Buttrey Broadcast, Inc., licensee of Station KFBB, Great Falls, Montana, File No. BTC-1068, Docket No. 10026.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of May 1952;

The Commission having under consideration the petitions of Fred Birch and Buttrey Broadcast, Inc., and the Fairmont Corporation for reconsideration of the Commission's action in designating for hearing the above application for consent to the transfer of control of Buttrey Broadcast, Inc., licensee of Station KFBB, Great Falls, Montana, from Fred Birch to the Fairmont Corporation, and for a grant of that application without hearing; and

It appearing, that the Commission on August 1, 1951, designated the above application for hearing because of the question of character qualifications of Anaconda Copper Mining Company and, therefore, its wholly owned subsidiary, the Fairmont Corporation, arising from a certain conviction and fine, and consent decree, entered against Anaconda for a violation of section 1 of Sherman Act (26 Stat. 209) and the further fact that, coupled with the above question of character qualification, Fairmont's acquisition of control of Station KFBB would add measurably to Anaconda's and Fairmont's already substantial influence in the State of Montana stemming from their extensive newspaper, business, mining, timber, and industrial holdings in the state; and

It further appearing, that, although the information supplied in the instant petitions is of assistance in enabling the Commission to determine more precisely the actual economic and business interests of Anaconda in the State of Montana, that such information does not fully answer the question raised by the Commission in designating the above entitled application for hearing; and

It further appearing, that, on the basis of information obtained by the Commission subsequent to its order designating the above application for hearing, certain subsidiaries of Anaconda Copper Mining Company and certain employees thereof have been convicted of conspiring to defraud the Government in violation of 18 U. S. C. 83, 88 and that, additionally, Anaconda Copper Mining Company paid to the United States $1,626,000 for irregular and fraudulent practices under the Federal False Claims Statute (31 U. S. C. 231-233) and that, further certain other subsidiaries have been convicted of violations of the Federal Anti-Trust laws; and

It further appearing, that, on the basis of the facts presented in the aforesaid petitions and on the basis of information set forth in the above paragraph, the Commission is unable to determine, at this time, that a grant of the above application would be in the public interest, convenience, and necessity;

It is ordered, That the petitions of the Fairmont Corporation and Fred Birch and Buttrey Broadcast, Inc., be denied; and

It is further ordered, That the Commission's order of August 1, 1951, is hereby amended to include the following additional issues:

1 (d) The conviction and fine of American Brass Company, a wholly owned subsidiary of Anaconda Copper Mining Company for violation of the Sherman Act (26 Stat. 209) in the United States District Court for the Southern District of New York on May 20, 1946. U. S. v. American Brass Company, et al., Cr. No. 112-154, Cr. No. 112-115.

1 (e) The civil suit and the consent decrees entered with respect to Greene Cananea Copper Company and Anaconda Sales Company, both subsidiaries of Anaconda Copper Mining Company, entered August 21, 1942, relating to violation of the Federal Antitrust laws. (U. S. v. Cleman Molybdenum Co. et al., Civil Action No. 19-112, United States District Court of Southern District of New York.)

1 (f) The civil suit and consent decree entered with respect to Butte, Anaconda, and Pacific Railway Company, a subsidiary of Anaconda Copper Mining Company, on August 18, 1941, with respect to a combination conspiracy and restraint of trade in violation of the Federal Anti-trust laws (U. S. v. Association of American Railroads, Civil Action No. 4551, District Court of the United States for the District of Columbia).

[Docket No. G–1900]

ARKANSAS-MISSOURI POWER CO.

ORDER FIXING DATE OF HEARING

JUNE 23, 1952.

On February 29, 1952, Arkansas-Missouri Power Company (Applicant), an Arkansas corporation having its principal place of business at Blytheville, Arkansas, filed an application, which was supplemented on June 2, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission facilities, subject to the jurisdiction of the Commission, all as more fully described in the application, as supplemented on file with the Commission and open to public inspection.

Applicant has represented to the Commission that it is in receipt of notice that at least one-half of the 10¾ inch pipe required for building the proposed facilities between its Jim Hill Plant near Campbell, Missouri and Blytheville, Arkansas is now en route by river barge, and that due to favorable weather conditions construction should be commenced at the earliest date possible. Applicant states that in the event that construction is delayed until the rainy season begins, costs will be considerably increased and the project may not be completed in time to commence service in the fall of 1952, as presently planned.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure for noncontested proceedings, and this proceeding is a proper one for disposition under the aforementioned rule, no request to be heard, protest or petition raising an issue of substance having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on March 18, 1952 (17 F. R. 2342).

The Commission finds: It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held on July 2, 1952, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application, as supplemented: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: June 24, 1952.

[Docket No. G–1976]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

JUNE 23, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on June 13, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to construct and operate 7.7 miles of 10-inch pipeline paralleling a portion of its existing pipeline extending from its main line to Fort Wayne, Indiana; 7.15 miles of 6-inch pipeline paralleling a portion of Applicant's existing pipeline extending from its main line to Tipton, Indiana, and thence to Kokomo, Indiana; and 7.23 miles of 6-inch pipeline paralleling a portion of Applicant's existing pipeline extending from its main line to Columbia, Missouri.

According to the application, "The proposed new facilities to be constructed near Fort Wayne, Indiana, will, in conjunction with existing facilities, be used to serve the requirements of Northern Indiana Public Service Company at Fort Wayne, Indiana; the facilities to be constructed near Tipton, Indiana, will, in conjunction with existing facilities, be used to serve the requirements of Kokomo Gas & Fuel Company at Kokomo, Indiana, and Indiana Gas & Water Company, Inc.,[1] at Tipton, Indiana; the facilities to be constructed near Columbia, Missouri, will, in conjunction with existing facilities, be used to serve the requirements of Missouri Utilities Company at Columbia, Missouri; all such requirements being set forth in the Service Agreements between Panhandle and such companies."

Applicant further states, "Pursuant to the provisions of the Commission's Opinion No. 214 and the accompanying order of the Commission issued June 13, 1951, Panhandle has entered into Service Agreements for the purchase and sale of gas with forty-five of its utility resale customers. Included among such Service Agreements[2] are the following:

(a) Service Agreement between Panhandle and Northern Indiana Public Service Company, dated July 3, 1951, providing for a contract demand of 45,000 MCF (per day) during the five winter months, January, February, March, November and December.

(b) Service Agreement between Panhandle and Kokomo Gas & Fuel Company, dated July 11, 1951, providing for a contract demand of 17,000 MCF (per day) during such five winter months.

(c) Service Agreement between Panhandle and Missouri Utilities Company, dated July 11, 1951, providing for a contract demand of 15,000 MCF (per day) during such five winter months.

[1] It is to be noted that with respect to the facilities to be built near Tipton, Indiana, such facilities will of necessity be used, in conjunction with existing facilities, to serve a portion of Indiana Gas & Water Company's requirements at Tipton, Indiana. Such facilities are necessary to permit increased deliveries to Kokomo Gas & Fuel Company at Kokomo, Indiana, approximately seven miles north of Tipton.

[2] All of such Service Agreements are on file with the Commission. Under an order of the Commission issued March 5, 1952, such Service Agreements were permitted to become effective Service Agreements under the Commission's Rules and Regulations as of February 20, 1952.

Panhandle is unable to deliver the aforesaid winter contract demand volumes to the above named three customers because the lateral pipeline facilities extending from Panhandle's main pipelines to the point of delivery at which such customers receive deliveries of gas from Panhandle, are inadequate to transport the volumes of gas set forth as the contract demand for such five winter months. Panhandle, therefore, proposes to construct additional pipeline facilities to enable it to deliver such contract demand volumes.

Estimated cost of the proposed facilities is $421,000 and financing is proposed to be out of current funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 11th day of July 1952. The application is on file with the Commission for public inspection.

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951 (P. L. 139, 82d CONG.)

JUNE 25, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations, and the availability of housing and community facilities and services for such defense workers and military personnel in each of the areas set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that each of said areas is a critical defense housing area.

Butte, Montana, Area. (The area consists of Silver Bow County, Montana.)

Roseburg, Oregon, Area. (The area consists of precincts Brown, Edenbower East 1 and 2, Edenbower West 1 and 2, Garden Valley, Green, Mill, Parrott and Wilbur, including the City of Roseburg, all in Douglas County, Oregon.)

[Defense Manpower Policy No. 4, Notification 52]

PLACEMENT OF PROCUREMENT IN THE SUNBURY-SHAMOKIN-MOUNT CARMEL, PA., AREA

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its findings and recommendation in the matter of placement of procurement in the Sunbury-Shamokin-Mount Carmel area. The recommendation has been reviewed within the Office of Defense Mobilization to determine its relationship to other policies affecting procurement for which this Office has responsibility and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to give preference to the Sunbury-Shamokin-Mount Carmel area, with the exception of the textile and apparel industries located in that area, in the placement of Government contracts, in accordance with the attached findings of the Committee and the provisions of Defense Manpower Policy No. 4. The Department of Defense and the General Services Administration are hereby requested to take the actions specified in paragraph 6 of section III of Defense Manpower Policy No. 4.

The textile industry has been excluded from the provisions of this notification pursuant to Notification 38 dated June 4, 1952. Public hearings have been held on the apparel industry. Following the report of the Hearing Panel, consideration will be given to certifying this industry under the provisions of the policy.

The Department of Defense and the General Services Administration are requested to submit the first written report of the actions taken under this notification on August 15, 1952, and thereafter each 30 days until further notice.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

FINDINGS AND RECOMMENDATION OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE SUNBURY-SHAMOKIN-MOUNT CARMEL, PENNSYLVANIA, AREA UNDER DEFENSE MANPOWER POLICY NO. 4

Under date of June 18, 1952 the Defense Manpower Administration of the Department of Labor certified to this Committee, under Defense Manpower Policy No. 4, the existence of the Sunbury-Shamokin-Mount Carmel area as a surplus labor area under standards established by the Secretary of Labor. The Sunbury-Shamokin-Mount Carmel area is composed of all of Montour, Northumberland, Snyder, and Union Counties and Centralia borough and Conyngham township in Columbia County.

On the basis of information contained in the files of the Committee and furnished by the Department of Labor relative to the manpower situation in the Sunbury-Shamokin-Mount Carmel area, and by the Department of Defense, the National Production Authority, and the Department of Labor relative to facilities in the Sunbury-Shamokin-Mount Carmel area, the Committee makes the following findings and recommendation:

FINDINGS

The Committee finds:

1. That the Sunbury-Shamokin-Mount Carmel area as defined by the Defense Manpower Administration, is an area of current labor surplus, including a surplus manpower possessing skills necessary to the fulfillment of Government contracts;

2. That there exist in the Sunbury-Shamokin-Mount Carmel area a comparatively small number of suitable facilities for the performance of additional Government contracts;

3. That in order to accomplish the objectives of Defense Manpower Policy No. 4, the public interest dictates the need for the negotiation of available Government contracts at reasonable prices in the Sunbury-Shamokin-Mount Carmel area provided that a substantial portion of the work involved in the execution of the contracts will be performed in the Sunbury-Shamokin-Mount Carmel area and provided further that contractors in the said area will be afforded the opportunity to meet prices obtainable in any labor market area classified by the Department of Labor as Group I, II, or III.

4. That no price differential for the Sunbury-Shamokin-Mount Carmel area is considered necessary in order to effectuate the objectives of Defense Manpower Policy No. 4, provided that the operations under the notification recommended herein will be reviewed within a reasonable period of time to determine whether the establishment of an appropriate maximum price differential is required in order to effectuate Defense Manpower Policy No. 4 for the Sunbury-Shamokin-Mount Carmel area;

5. That the apparel industry, to the extent that it exists in the Sunbury-Shamokin-Mount Carmel area should not be included in the application of Defense Manpower Policy No. 4 in the Sunbury-Shamokin-Mount Carmel area; consideration will be given to separate recommendations applying to the entire apparel industry.

RECOMMENDATION

The Committee recommends that the Director of Defense Mobilization conclude that it is in the public interest to give preference to the Sunbury-Shamokin-Mount Carmel area in the placement of contracts in accordance with the Committee's findings, and that the Director so notify the Secretary of Defense and the Administrator of the General Services Administration.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S FLEMMING,
Chairman,
Surplus Manpower Committee.

Approved:

JOHN R. STEELMAN,
Acting Director,
Office of Defense Mobilization.

VOLUME 17 NUMBER 127

Washington, Saturday, June 28, 1952

TITLE 3—THE PRESIDENT

PROCLAMATION 2979

REVOCATION OF THE DUTY SUSPENSION ON LEAD

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the import duties imposed under paragraphs 391 and 392 of the Tariff Act of 1930, as amended, on lead-bearing ores, flue dust, and mattes of all kinds, lead bullion or base bullion, lead in pigs and bars, lead dross, reclaimed lead, scrap lead, antimonial lead, and antimonial scrap lead have been suspended by Public Law 257, 82d Congress, approved February 11, 1952, with respect to imports entered, or withdrawn from warehouse, for consumption during the period beginning February 12, 1952, and ending with the close of March 31, 1953, or the termination of the national emergency proclaimed by me on December 16, 1950, whichever is earlier;

WHEREAS the said Public Law 257 contains the following proviso:

Provided, That when, for any one calendar month during such period [of suspended duties], the average market price of common lead for that month, in standard shapes and sizes, delivered at New York, has been below 18 cents per pound, the Tariff Commission, within fifteen days after the conclusion of such calendar month, shall so advise the President, and the President shall, by proclamation not later than twenty days after he has been so advised by the Tariff Commission, revoke such suspension of the duties imposed under paragraphs 391 and 392 of the Tariff Act of 1930, such revocation to be effective with respect to articles entered for consumption or withdrawn from warehouse for consumption after the date of such proclamation;

WHEREAS, on the fifth day of June, 1952, the Tariff Commission reported to me that it has found that the average market price of common lead for the month of May 1952, in standard shapes and sizes, delivered at New York, has been below 18 cents per pound;

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, pursuant to the said provisions of Public Law 257, 82d Congress, do hereby proclaim the revocation of the suspension of duties provided for in the said Public Law 257, such revocation to be effective with respect to articles entered for consumption or withdrawn from warehouse for consumption after the date of this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of June in the year of our Lord nineteen hundred and fifty-two, and of the Independence of the United States of America the one hundred and seventy-sixth.

[SEAL]

HARRY S. TRUMAN

§ 601.1708 *Determination of support rates.* • • •

(2) In the States of Delaware, Kentucky, Maryland, New Jersey, North Carolina, Tennessee, Virginia, West Virginia, and the following counties in Indiana: Clark, Crawford, Daviess, Dearborn, Dubois, Floyd, Gibson, Harrison, Jackson, Jefferson, Jennings, Knox, Lawrence, Martin, Ohio, Orange, Perry, Pike, Posey, Ripley, Scott, Spencer, Switzerland, Vanderburgh, Warrick and Washington, the PMA commodity office shall, upon request of the county committee, determine the support rate for wheat stored in approved warehouses (except those situated at designated terminal markets) which was shipped by rail in the movement of natural market direction as approved by CCC, by adding to the county rate for the county from which the wheat was shipped an amount per bushel equal to the receiving and loading-out charges computed in accordance with the applicable rates of the Uniform Grain Storage Agreement for the 1952 crop and an amount equal to the transit value of the freight paid (plus tax) from points of origin to markets designated by CCC. The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 601.1704 (f). If the wheat is stored in approved warehouses located at transit points, taking a penalty by reason of backhaul, or out-of-line of natural market movements, such penalty or other costs by reason of such movement, as determined by CCC, shall be deducted from the support rates as determined in this paragraph.

AUTHORITY: §§ 646.401 to 646.428 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C., Sup. 714b. Interpret or apply secs. 4, 5, 62 Stat. 1070, as amended, 1072, secs., 101, 401, 63 Stat. 1051, 1054; 15 U. S. C., Sup. 714b, 714c, 7 U. S. C. Sup. 1441, 1421.

§ 646.401 *Administration.* (a) The program will be administered by PMA, under the general direction and supervision of the President, CCC, and in the field, will be carried out by PMA State and PMA county committees (hereinafter called State and county committees), PMA commodity offices, and the cooperatives designated in § 646.402 and any other cooperatives approved by CCC.

(b) It will be the responsibility of the State PMA committee in each State to carry out the provisions of the 1952 peanut program in such a manner that price support will be available to all eligible producers of merchantable farmers stock peanuts. Insofar as practicable, warehouse storage and price support to the producers will be made available through the cooperatives, which will establish, throughout the State, warehouses to which the farmers may deliver their peanuts for market. Warehouse storage facilities will be made available for individual producer loans in those locations where the State committee determines that the cooperative warehouse facilities are inadequate, or for some other reason, are not properly serving the needs of producers.

(c) Producers interested in participating in the program should communicate with their county committee or the peanut cooperative association serving their area.

(d) All documents in connection with farm or warehouse storage loans and purchase agreements will be completed and approved by the county committee which will retain copies of all such documents. The State committee may authorize the county committee to designate certain employees of the county committee to approve documents on behalf of the county committee. The names of the employees delegated to approve documents in behalf of the county committee shall be submitted to the State committee for approval.

(e) Authorized representatives of the peanut cooperative will issue drafts to producers for peanuts marketed through the cooperative.

(f) State and county committees, PMA commodity offices and cooperatives do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements hereto.

§ 646.402 *Areas and offices.* The areas in which the program will be available and the cooperatives and PMA commodity offices serving such areas are as follows:

(a) The Virginia-Carolina area consisting of the States of Virginia, North Carolina, Tennessee, Missouri, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

Cooperative: Growers Peanut Cooperative, Inc., Franklin, Va.

PMA Commodity Office: PMA Commodity Office, U. S. Department of Agriculture, Wirth Building, 120 Marais Street, New Orleans 16, La.

(b) The Southeastern area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

Cooperative: GFA Peanut Association, Camilla, Ga.

PMA Commodity Office: PMA Commodity Office, U. S. Department of Agriculture, Wirth Building, 120 Marais Street, New Orleans 16, La.

(c) The Southwestern area consisting of the States of Texas, Oklahoma, New Mexico, Arkansas, Louisiana, Arizona, and California.

Cooperative: Southwestern Peanut Growers' Association, Gorman, Tex.

PMA Commodity Offices

For Texas, Oklahoma, and New Mexico: PMA Commodity Office, U. S. Department of Agriculture, Room 218, Santa Fe Building, 1114 Commerce Street, Dallas 2, Tex.

For Arkansas and Louisiana: PMA Commodity Office, U. S. Department of Agriculture, Wirth Building, 120 Marais Street, New Orleans 16, La.

For Arizona and California: PMA Commodity Office, U. S. Department of Agriculture, P. O. Box 3638, Rincon Annex, San Francisco 19, Calif.

§ 646.403 *Availability*—(a) *Methods of support.* (1) CCC will support the price to eligible producers of eligible 1952 crop quota peanuts through (i) nonrecourse farm storage loans to producers, (ii) purchase agreements with producers, (iii) non-recourse loans to the cooperatives under contract with CCC, and (iv) non-recourse warehouse storage loans to producers storing peanuts in warehouses.

(2) Loans on peanuts stored on farms or in warehouses under contract with CCC must be approved by the county PMA committee which keeps the farm program records for the farm. After the loan documents are approved, the producer may obtain his loan from any local bank or other lending agency which has entered into a lending agency agreement with CCC, or he may obtain the loan through the county PMA committee.

(3) Purchase agreements are also available to producers through the county committee which keeps the farm program records for the farm.

(4) Producers who market their peanuts through the cooperative will deliver them to the cooperative warehouse and receive payment from the cooperative. Producers marketing their peanuts through a cooperative are not required to be members of the cooperative.

(b) *Time.* (1) Producer farm and warehouse storage loans will be available through January 31, 1953, and mature May 31, 1953, or earlier upon demand.

(2) Purchase agreements will be available through January 31, 1953. Producers who elect to deliver peaunts under a purchase agreement must notify the county committee within a 30-day period ending on May 31, 1953, or any earlier date approved by the President of CCC.

(3) Cooperatives will receive peanuts from producers through January 31, 1953. CCC's loan to the cooperative will mature on May 31, 1953, or earlier upon demand by the President of CCC.

§ 646.404 *Definitions.* As used in this subpart and in instructions, forms and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) The generally known types of peanuts (i. e., Runner, Spanish, Valencia, and Virginia) shall be as defined in Marketing Quota Regulations for Peanuts of the 1952 Crop, 1023 (Peanuts-52)-1, Amendment 1 (17 F. R. 907) (7 CFR Part 729).

(b) Farmers stock peanuts means picked and threshed peanuts produced in the continental United States during the calendar year 1952 and which have not been shelled, crushed, cleaned (except for removal of foreign material), or otherwise changed from the State in which picked or threshed peanuts are customarily marketed by producers.

(c) Quota peanuts means farmers stock peanuts which are within the amount of the farm marketing quota determined pursuant to § 729.346 of Marketing Quota Regulations for 1952 Crop of Peanuts.

(d) Merchantable farmers stock peanuts means farmers stock quota peanuts containing 15 percent or less foreign material, 3 percent or less damaged peanuts, and 9 percent or less moisture in the Southeastern and Southwestern areas and 10 percent or less moisture in the Virginia-Carolina area.

(e) High damage peanuts means peanuts meeting all requirements with respect to merchantable farmers stock peanuts except that they contain 4 percent or more damaged kernels.

(f) Within quota card means Form MQ-76-Peanuts (1952), Peanut Within Quota Marketing Card, issued for farms for which it is determined that the farm peanut acreage is not in excess of the larger of the farm allotment or one acre. This card authorizes the marketing of all peanuts produced on the farm without payment of a marketing penalty.

(g) Grade means the percentage of sound mature kernels, damaged kernels, other kernels, foreign material, moisture, and extra large kernels in the case of Virginia type peanuts.

(h) Farm peanut acreage means 1952 farm peanut acreage determined in accordance with the marketing quota regulations, and generally, refers to the total acreage of peanuts on the farm which is picked or threshed.

(i) Excess moisture for the purpose of determining net weight, means the percentage of moisture in excess of 7 percent in the Southeastern and Southwestern areas and in excess of 8 percent in the Virginia-Carolina area.

(j) Lot means that quantity of farmers stock peanuts for which one Federal-State inspection certificate is issued.

(k) Pound net weight means that quantity of farmers stock peanuts, excluding foreign material and excess moisture, equal to one pound standard weight. The net weight of any quantity of farmers stock peanuts shall be determined as follows: (1) Deduct from the gross weight the pounds of foreign material determined by multiplying the gross weight by the percentage of foreign material; (2) multiply the result obtained in (1) by the percentage excess moisture; (3) subtract the result obtained in (2) from that obtained in (1).

(l) Market means to dispose of peanuts, including farmers stock peanuts, shelled peanuts, or peanuts in processed form, by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. The terms "marketed," "marketing," and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used.

(m) Warehouse means a warehouse for which a Peanut Storage Contract, CCC Peanut Form 29, is in effect.

(n) Producer means a person who, as owner, landlord, tenant, or sharecropper, is entitled to share in the peanuts produced on the farm or in the proceeds thereof.

(o) Operator means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(p) Marketing quota regulations means the Marketing Quota Regulations for 1952 Crop of Peanuts issued by the Secretary of Agriculture, including any amendments or supplements thereto (16 F. R. 11946, 17 F. R. 907, and 17 F. R. 4217).

(q) Farm allotment means the farm peanut acreage allotment for the 1952 crop of peanuts established pursuant to the marketing quota regulations. In any case where a farm allotment is not established or is established at less than one acre the farm peanut acreage shall be deemed to be in excess of the farm allotment only if it exceeds one acre.

§ 646.405 *Support prices.* The support prices and producer loan rates for merchantable farmers stock peanuts are contained in § 646.423. The weighted average support price and producer loan rate for all merchantable farmers stock peanuts will be not less than $239.40 per ton. Such prices and rates will be increased if the supply percentage and parity price level as of August 1, 1952, require an increase.

§ 646.406 *Operations of cooperatives.* (a) Each peanut cooperative which enters into a 1952 Crop Peanut Cooperative Loan Agreement, CCC Peanut Form 27 (hereinafter referred to as "agreement"), with CCC will (1) receive, at support prices less fees and charges specified in the agreement, merchantable and high damage farmers stock peanuts delivered by eligible producers to cooperative warehouses, (2) store, handle, and market such peanuts on behalf of the producers, (3) distribute among the producers from whom it receives such peanuts all profits made from the sales of such peanuts, unless other disposition is approved by the President of CCC, and (4) handle peanuts acquired by CCC under the price support program.

(b) The cooperative will enter into a Peanut Receiving and Warehouse Contract, CCC Peanut Form 28, with each approved warehouseman who agrees to make his storage facilities available to, and to receive eligible peanuts for, the cooperative.

(c) CCC, pursuant to the terms of its agreement with the cooperative, will make a loan to the cooperative to enable it to pay producers for peanuts marketed through the cooperative, and all peanuts received by the cooperative shall be used as collateral for the loan by CCC. The cooperative will be permitted to redeem the peanuts and sell them, in accordance with sales policies, methods, and prices approved by CCC. CCC shall have the right at any time to call the loans or to direct the cooperative to sell peanuts handled by it.

(d) Peanuts acquired by CCC under the price support program will be handled by the cooperative on a fee basis, as specified in the agreement.

§ 646.407 *Peanut eligible for price support.* (a) Farmers stock peanuts, to be eligible for price support, must be:

(1) 1952 crop quota peanuts produced by an eligible producer;

(2) Merchantable farmers stock peanuts as defined in § 646.404, except that high damage peanuts may be delivered to the cooperative at prices specified in § 646.428, less fees and deductions specified in § 646.416.

(3) Identified by a within quota marketing card in accordance with the Marketing Quota Regulations for 1952 Crop of Peanuts.

(4) Free and clear of all liens and encumbrances, including landlord's liens, or if liens or encumbrances exist on the peanuts, proper waivers must be obtained; and

(5) The beneficial interest in the peanuts must be in the person tendering them for a loan or for delivery under a purchase agreement, or offering them to a cooperative, and must always have been in him or must have been in him and a former producer whom he succeeded before the peanuts were harvested.

§ 646.408 *Eligible producer.* (a) A producer will be considered a "cooperator" and eligible for price support through any method with respect to all merchantable farmers stock peanuts, and will be eligible to market through the cooperative high damage peanuts, provided such merchantable and high damage peanuts are produced by him on a farm (1) on which the 1952 picked and threshed acreage of peanuts does not exceed the 1952 allotment for such farm, or (2) for which a within quota card is issued to the operator upon the execution of MQ-92, "Agreement by Operator of Overplanted Farm", in which he agrees (i) that the farm peanut acreage will not be in excess of the larger of the farm allotment or one acre, and (ii) if such undertaking is breached to pay liquidated damages to CCC, determined in accordance with the terms of such agreement, and to pay any marketing penalties determined to be due the Secretary of Agriculture.

(b) The liquidated damages payable to CCC under such agreement may be waived to such extent as the President of CCC or his designated representative may determine appropriate in any case where he determines (1) that the breach of such agreement was unintentional and occurred despite a bona fide effort by the operator and other producers on the farm to comply with the agreement and (2) that the amount by which the farm peanut acreage exceeded the acreage specified in the agreement was so small, in relation to the acreage so specified, that it did not materially impair CCC's price support operations. Copies of Form MQ-92 may be obtained from the county committee. The county committee may decline to execute Form MQ-92 in any case where it finds reasonable grounds to believe that such agreement will be used as a device to evade the requirements of this program or the collection of marketing penalty.

§ 646.409 *Determination of type and grade.* The Federal-State Inspection Service shall determine the type and grade of all peanuts which are to be:

(a) Mortgaged as security for a farm storage loan, such type and grade to be determined on the basis of a sample taken by the county committee before the loan is made; but the settlement value of the mortgaged peanuts delivered in satisfaction of the loan will be determined on the basis of the grade determined at the time such peanuts are delivered;

(b) Stored in a warehouse and for which a warehouse receipt is issued in the form approved by CCC, such type and grade to be determined at the time the peanuts are delivered to the warehouse;

(c) Delivered to CCC under a purchase agreement, such type and grade to be determined either (1) at the time the peanuts are delivered to CCC by the producer or (2) at the time the peanuts are

delivered for storage to a warehouse if a warehouse receipt is issued in the form approved by CCC;

(d) Marketed through peanut cooperatives, such type and grade to be determined at the time the peanuts are delivered to the cooperative warehouse;

(e) Delivered to CCC by cooperatives, such type and grade to be determined at the time the peanuts are loaded out of the warehouse, unless another time is agreed to by CCC and the cooperative; and

(f) Delivered to CCC from a warehouse, such type and grade to be determined at the time the peanuts are loaded out of the warehouse.

§ 646.410 *Disbursement of loans.* Disbursement of farm and warehouse storage loans will be made to producers by approved lending agencies under agreement with CCC, or by PMA county offices who will issue sight drafts on CCC. Disbursement, regardless of where made, shall not be made after February 15, 1953, unless approved by the President, CCC. The producer shall not present the loan documents for disbursement unless peanuts are in existence and in good condition. If the peanuts are not in existence and in good condition at the time of disbursement, the proceeds shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized, the producer shall be personally liable for repayment of the amount of such excess.

§ 646.411 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity, with which CCC has entered into a Lending Agency Agreement on CCC Form 232.

§ 646.412 *Approved storage.* Farm or warehouse storage loans will be made only on peanuts in approved storage. Purchase agreements will be accepted without any requirements for approved storage; however, warehouse receipts tendered on peanuts under purchase agreements will be purchased only on peanuts in approved warehouse storage and provided such peanuts are in existence and in good condition at the time the warehouse receipt is tendered for purchase.

(a) *Farm storage.* Approved farm storage shall consist of storage structures located on or off the farm (excluding public warehouses), which are determined by the county committee to be so located and of such substantial and permanent construction as to afford safe storage of peanuts. Such structure shall be dry and well-ventilated.

(b) *Warehouse storage.* (1) Approved warehouse storage for peanuts under a warehouse storage loan or delivered under a purchase agreement shall consist of warehouses for which a Peanut Storage Contract, CCC Peanut Form 29, is in effect. The names and locations of such approved warehouses may be obtained from the county or State committee, or from PMA commodity offices.

(2) Approved warehouses and delivery points for peanuts marketed through the cooperatives shall consist of warehouses for which a Peanut Receiving and Warehouse Contract, CCC Peanut Form 28, is in effect. The names and locations of such approved warehouses may be obtained from the cooperative for the area or from the State PMA committee.

§ 646.413 *Method of determining quantity.* (a) The gross weight of bulk peanuts placed under a farm storage loan may be determined either by weight or by measurement. When the quantity of bulk peanuts is determined by measurement, the gross weight will be determined on the basis of the number of cubic feet shown below for the type of peanuts indicated:

Type:	*Weight per cubic foot (pounds)*
Spanish	22.9
Runner	21.4
Valencia	21.4
Virginia	16.8

(b) If the peanuts are stored on the farm in bags, the county committee shall weight a sufficient number of bags to determine the approximate gross weight of all the peanuts to be placed under loan and for the purposes of the loan, shall deduct 5 percent from such approximate weight to cover any discrepancy between such weight and the actual weight of all such peanuts.

(c) The gross weight of peanuts placed under a warehouse storage loan or delivered under a farm storage loan or purchase agreement shall be determined by actual weight at the time of delivery.

(d) The gross weight of all peanuts marketed through the cooperative shall be determined by actual weight at the time of delivery.

§ 646.414 *Applicable forms.* The approved forms consist of the loan and purchase agreement forms and such other forms and documents as may be required, which, together with these provisions, govern the rights and responsibilities of the producer. Notes and chattel mortgages, note and loan agreements, and purchase agreements must be dated and delivered to the county committee on or before January 31, 1953. Notes and chattel mortgages and note and loan agreements must have State and documentary revenue stamps affixed thereto where required by law. Loan and purchase agreement documents executed by an administrator, executor, or trustee, will be acceptable only where legally valid.

(a) *Farm storage loans.* Approved forms shall consist of producer's notes on Commodity Loan Form A, secured by a chattel mortgage on Commodity Loan Form AA, and such other forms and documents as may be required by CCC.

(b) *Warehouse storage loans.* Approved forms shall consist of the note and loan agreement on Commodity Loan Form B, secured by warehouse receipts and such other forms and documents as may be required by CCC. Any peanuts pledged as security for a loan on a single note and loan agreement must be stored in the same warehouse.

(1) *Warehouse receipts.* Warehouse receipts, representing peanuts in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must:

(i) Be issued in the name of the producer, must be properly endorsed so as to vest title in the holder, must be issued by a warehouse under contract with CCC pursuant to § 646.412, and must indicate that peanuts stored commingled are insured. The receipts must be negotiable and must cover eligible peanuts actually in store in the warehouses described in the receipts.

(ii) Show the type and grade of the peanuts at the time of receipt into the warehouse, as determined by the Federal-State Inspection Service, and the dollar value of such peanuts determined on the basis of § 646.428. A warehouse receipt for commingled peanuts must also contain the warehouseman's guarantee to deliver a quantity of the same type of peanuts equal in dollar value to not less than the applicable percentage of the dollar value of the peanuts received and represented by the warehouse receipt. If the peanuts are stored identity preserved, the warehouse receipt shall sufficiently describe the peanuts so that they may be readily identified at all times, and the producer must execute the supplemental certificate prescribed in paragraph (e) of this section.

(iii) State such other terms and conditions as are required under CCC Peanut Form 29, Peanut Storage Contract for warehouses, and may be subject to liens for warehouse charges approved in such contract and indicated on the warehouse receipt.

(c) *Warehouse receipts; cooperative warehouses.* Warehouse receipts, representing peanuts marketed through the cooperative and stored in approved warehouse storage, must:

(1) Be issued by a warehouse under contract with the cooperative pursuant to § 646.412, and must be non-negotiable. The receipts must cover eligible peanuts or high damage peanuts actually in store for the account of CCC in the warehouses described on the receipts.

(2) Show the type and grade of the peanuts at the time of receipt into the warehouse, as determined by the Federal-State Inspection Service, and the dollar value of such peanuts determined on the basis of the price support schedule.

(3) Contain the warehouseman's agreement to deliver peanuts pursuant to the terms of the contract and in accordance with instructions by CCC or its agent.

(4) State such other terms and conditions as are required under CCC Peanut Form 28, and may be subject to liens for warehouse charges approved in such contract.

(d) *Purchase agreements.* The purchase agreement forms shall consist of the Purchase Agreement, Commodity Purchase Form 1, and Purchase Agreement Settlement, Commodity Purchase Form 4, signed by the producer and approved by the county committee, the delivery instructions, Commodity Purchase Form 3, issued by the county committee, negotiable warehouse receipts from warehouses, and such other forms and documents as may be required by CCC.

(e) *Producer's supplemental certificate.* Each warehouse receipt representing peanuts under loan stored in an approved warehouse on an identity-preserved basis, must be accompanied by a supplemental certificate, executed by the producer, and properly identified with the warehouse receipt. Such certificate shall contain the producer's responsibility with respect to the peanuts in accordance with § 646.421.

§ 646.415 *Liens.* If there are any liens or encumbrances on the peanuts, acceptable waivers must be obtained.

§ 646.416 *Fees and warehouse shrinkage deduction.* (a) Producers shall pay the following initial service charges on the quantity placed under a farm storage or warehouse storage loan or the maximum quantity specified in the purchase agreement. An additional service charge shall be paid on any additional quantity delivered to and accepted by CCC under a farm or identity preserved warehouse storage loan to a producer. No refund of service charges will be made. State committees may, at their option, require a deposit on farm storage loans, such deposit to be applied against the service fee when loan is granted. The service charge on a purchase agreement shall be paid at the time the producer signs the agreement.

Farm storage loans: 30 cents per ton—minimum charge of $3.

Warehouse storage loans: 15 cents per ton—minimum charge of $1.50.

Purchase agreements: 15 cents per ton—minimum charge of $1.50.

(b) The producer will pay the Federal State Inspection fee applicable to the quantity of peanuts:

(1) Placed under a farm storage or warehouse storage loan.

(2) Delivered to CCC under a purchase agreement.

(3) Marketed through the cooperative.

(c) Warehouse charges through May 31, 1953 for peanuts marketed through the cooperative or peanuts stored in a warehouse and placed under a loan or delivered under a purchase agreement will be deducted from the proceeds of the loan or from the payment made by the cooperative or CCC. CCC will pay receiving and handling charges due on peanuts delivered to it after May 31, 1953, and on peanuts delivered prior to May 31, 1953, with the approval of CCC.

(d) For peanuts marketed through the cooperative the producer will pay a handling fee in the amount of 15 cents per ton.

(e) The charges of this section will be computed on gross weights.

(f) Pursuant to § 646.421 the producer is responsible for loss in weight and grade of the peanuts while in storage. For peanuts stored on the farm, such loss will be reflected in the value of the peanuts at the time of settlement if the peanuts are delivered to CCC. If the peanuts are marketed through the cooperative or stored in a warehouse, a deduction in the amount of the tolerance allowed the warehouseman for loss in weight and grade, including a deduction for shrinkage in extra large kernels in Virginia type peanuts, will be made from the support price to the producer at the time the peanuts are marketed or at the time the loan is made.

§ 646.417 *Set-offs.* If a producer who obtains a farm or warehouse storage loan or delivers peanuts under a purchase agreement is indebted to CCC on any accrued obligation, or if any installments past due or maturing within 12 months are unpaid on any loan made available by CCC on farm storage facilities, whether held by CCC or a lending agency, he must designate CCC or such lending agency as the payee of the proceeds of the loan or purchase to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lienholders. However, prepayment of only one principal installment on a farm storage facility loan shall be deducted from the price support proceeds of any one crop year. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided above shall be given first consideration after claims of prior lienholders. Cooperatives shall deduct from their drafts to producers and remit to the proper agency of the United States the amount of indebtedness as shown on the marketing cards on which such peanuts are marketed through the cooperatives. Compliance with the provisions of this section shall not constitute a waiver of any right of the debtor to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 646.418 *Interest rate.* Farm and warehouse storage loans to producers shall bear interest at the rate of 3½ percent per annum and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note. CCC loans to cooperatives will bear interest at the rate of 3½ percent per annum.

§ 646.419 *Insurance.* (a) CCC will not require the producer to insure the peanuts placed under a farm storage or an identity-preserved warehouse storage loan. However, if the producer insures peanuts stored on a farm and an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the peanuts involved in the loss. If insurance is obtained by the producer on peanuts stored in a warehouse on an identity-preserved basis, it must be assigned to the warehouseman with the consent of the insurance company, and the warehouseman must also certify that the insurance has been assigned to him.

(b) CCC will not require peanuts stored in a cooperative warehouse to be insured against risks of fire and extended coverage except that insurance may be required if peanuts other than those delivered to the cooperative are stored in the same building. However, if the warehouseman insures such peanuts and an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest. Peanuts stored commingled in a warehouse must be insured against risks of fire and extended coverage.

§ 646.420 *Transfer of producer's interest.*—(a) *Loans.* The right of the producer to transfer either his right to redeem the peanuts under loan or his remaining interest may be restricted by CCC.

(b) *Purchase agreements.* The producer may not assign his interest in the purchase agreement.

(c) *Peanuts marketed through the cooperative.* Upon delivery of the peanuts to the cooperative, the producer authorizes the cooperative as his agent to pledge his peanuts to CCC as security for loans to the cooperative and to market his peanuts on his behalf. The producer shall be entitled to his pro rata share in any profits made by the cooperative from the sale of all peanuts of like quality; i. e., either peanuts containing 3 percent or less damaged kernels, or high damaged peanuts.

§ 646.421 *Loss or damage to the peanuts under farm storage loan or identity preserved warehouse storage loans.* (a) The producer is responsible for any loss in grade and for any loss in weight except that, subject to the provisions of § 646.419 physical loss or damage occurring after disbursement of the loan funds without fault, negligence or conversion on the part of the producer or any other person having control of the storage structure, resulting solely from an external cause, will be assumed by CCC provided the producer or warehouseman has given the county committee immediate notice of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan. CCC shall assume losses for insect damage occurring after the producer has given the county committee notice in writing of the presence of worms or weevils and the county committee has by inspection verified the presence of worms or weevils.

(b) No physical loss or damage occurring prior to disbursement of the loan funds to the producer will be assumed by CCC. Where disbursement of funds is made by sight draft or check, the date of the draft or check shall constitute the date of disbursement of the funds.

§ 646.422 *Personal liability of the producer for the peanuts.* The making of any fraudulent representation by the producer in obtaining price support or the conversion or unlawful disposition of any portion of the peanuts by him may render the producer subject to criminal prosecution under the Federal Law and personally liable for the amount received by him (plus interest) and for any resulting expense incurred by any holder of the note.

§ 646.423 *Safeguarding the peanuts.* The producer obtaining a farm storage loan is obligated to maintain the storage structure in good repair and to keep the peanuts in good condition.

§ 646.424 *Release of the peanuts under loan.* A producer may at any time, obtain release of peanuts remaining

under loan by paying to the holder of the note or the note and loan agreement, the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Upon presentation of the paid note, the county committee shall arrange for the release of the chattel mortgage. Partial release of the peanuts prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of peanuts to be released. In the case of warehouse storage loans, such partial release must cover all of the peanuts under one warehouse receipt.

§ 646.425 *Liquidation of loans and delivery under purchase agreements*—(a) *Farm storage loans.* (1) The producer is required to pay off his loan on or before maturity or to deliver the peanuts in accordance with instructions issued by the county committee. If the producer fails to deliver mortgaged peanuts in accordance with instructions of the county committee, he will be responsible for all costs of removal by the holder of the note. The producer may, however, pay off his loan and redeem his peanuts at any time prior to delivery of the peanuts to CCC or removal by CCC. If the peanuts are or are in danger of going out of condition, the producer shall notify the county committee which shall determine whether the peanuts must be delivered before the maturity date of the loan. In the event the farm is sold or there is a change of tenancy, the peanuts may be delivered before the maturity date of the loan, upon prior approval by the county committee, or may be delivered before the maturity date of the loan for other reasons upon prior approval of the President, CCC. Settlement will be made, subject to the provisions of the mortgage supplement, at the applicable support price based on the type, weight, grade and quality of the peanuts delivered. Delivery of peanuts in bulk will be accepted only from the structure(s) in which the peanuts under loan are stored. In the case of peanuts stored in bags, only the identical bags under loan may be delivered. Settlement will be made on the quantity and quality delivered by the producer and accepted by the county committee.

(2) If the settlement value of the peanuts delivered exceeds the amount due on the loan (excluding interest), such amount will be paid to the producer on the basis of the settlement documents. Deliveries of peanuts to CCC under farm storage loans will be handled by the PMA county committee which initially approved the loan. Any payment due the producer will be made by sight draft drawn on CCC by the PMA county office.

(3) If the settlement value of the peanuts is less than the amount due on the loan (excluding interest), the amount of the deficiency plus interest thereon, shall be paid to CCC or may be set off against any payment which would otherwise be due to the producer under any agricultural programs administered by the Secretary of Agriculture or any other payments which are due or may become due to producer from CCC or any other agency of the United States.

(b) *Warehouse storage loans.* (1) In the case of all warehouse storage loans with respect to commingled peanuts, if the producer does not repay his loan by maturity, CCC shall have the right to sell or pool the peanuts in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 646.426. Any payment due a producer at the time of settlement on a warehouse storage loan will be made by the appropriate PMA commodity office.

(2) In the case of loans on peanuts stored in a warehouse on an identity-preserved basis, if the producer does not repay his loan by maturity, the county committee shall specify a period within which the producer shall redeem his peanuts. If the producer does not redeem his peanuts during such specified period, the quantity, type, and grade shall be determined by actual weight and by Federal-State inspection, and settlement with the producer for the quantity, type, and grade of peanuts delivered to CCC will be made on the basis of the note and loan agreement and the price support schedule; and any payment due the producer will be made by sight draft drawn on CCC by the PMA county office. Any payment due the producer because of an overplus realized from the sale or pooling of the peanuts will be made by the appropriate PMA commodity office. If the peanuts are purchased by CCC, the purchase price shall be the market value as of the day following maturity, as determined by CCC.

(c) *Payments and collections; amounts not exceeding $3.00.* To avoid administrative costs of making small payments and handling small accounts, amounts due the producer of $3.00 or less will be paid only upon his request and a deficiency of $3.00 or less, including interest, may be disregarded by a producer unless demand for payment is made by CCC.

(d) *Purchase agreements.* (1) The producer who signs a purchase agreement, Commodity Purchase Form 1, will not be obligated to sell any quantity of peanuts to CCC. However, the quantity stated in the purchase agreement will be the maximum quantity he may sell to CCC. If the producer who signs a purchase agreement wishes to sell the peanuts to CCC, he will have a 30-day period ending on May 31, 1953 during which he must notify the county committee of his intention to sell.

(2) In the case of eligible peanuts stored commingled in an approved warehouse, the producer must, not later than the day following the final date of such 30-day period, or during such period of time thereafter as may be specified by the county committee, submit to the county committee, properly executed warehouse receipts for the quantity of peanuts he elects to sell to CCC. CCC will purchase only that quantity which the warehouseman guarantees to deliver on such warehouse receipts. In the case of eligible peanuts stored in other than approved warehouse storage, or stored identity preserved in approved warehouse storage the county committee will, on or after the final date of such 30-day period, issue delivery instructions to the producer. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions unless the county committee determines that more time is needed for delivery.

(3) The producer may be required to retain peanuts in other than approved warehouse storage for a period of 60-days, such period beginning on the first day of the delivery period, without any cost to CCC.

(4) The peanuts delivered under a purchase agreement must meet the eligibility requirements in § 646.407 when delivered and will be purchased at the applicable support rate. When delivery is completed, payment will be made by sight draft drawn on CCC by the county office. The producer shall direct on Commodity Purchase Form 4 to whom payment of the proceeds shall be made. Peanuts stored commingled in approved warehouses will be purchased, on the basis of the amount guaranteed on the warehouse receipts and/or accompanying documents. Peanuts stored identity-preserved in approved warehouse and peanuts delivered from other than approved warehouse storage will be purchased on the basis of the weight, grade, and other quality factors, determined by the county committee at the time of delivery and agreed to by the producer on Commodity Purchase Form 4.

§ 646.426 *Removal of peanuts under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the peanuts and sell them either by separate contract or after pooling them with other lots of peanuts similarly held. If the peanuts are pooled, the producer has no right of redemption after the date the pool is established, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled peanuts as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of peanuts, even though part or all of such pooled peanuts are disposed of under such policies at prices less than the current domestic price. Any sum due the producer as a result of the sale of the peanuts or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 646.427 *Purchase of notes.* The county committee will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or acceptable negotiable warehouse receipts. The purchase price to be paid by CCC will be the principal sum remaining due on such notes, plus an amount computed according to the lending agency agreement to cover interest. Lending agencies are required to submit Commodity Credit Corporation Form 500 or such other form as CCC may prescribe for all payments received on producers' notes held by them, and are required to remit to CCC a part of the interest collected, computed according to the lending agency agreement. Lending agencies shall submit notes and report to the PMA county office serving the area.

§ 646.428 *Price support schedule.* The following support prices apply to net weight farmers stock peanuts eligible for price support. The prices are for peanuts in bulk in the Southeastern Area and in bags in the Southwestern and Virginia-Carolina areas.

(a) *Base grade prices.* The base grade support prices for the various types and grades of peanuts shall be as follows:

	Per ton
Virginia type, 65 percent sound mature kernels	$231
Runner type, 65 percent sound mature kernels	215
Southeastern Spanish, 70 percent sound mature kernels	236
Southwestern Spanish, 70 percent sound mature kernels	232

(b) *Premiums and discounts*—(1) *Sound mature kernels.* For each 1 percent sound mature kernel content above or below the base grade, the premium or discount, whichever is applicable, shall be as follows:

	Per ton
Virginia type	$3.60
Runner type	3.50
Spanish type (Southeastern)	3.40
Spanish type (Southwestern)	3.30

The term "sound mature kernels" means kernels which are free from damage as defined in the U. S. Standards for farmers stock (i) white Spanish peanuts in the case of Spanish and Valencia peanuts and (ii) Runner and Virginia peanuts, respectively, in the case of Runner and Virginia peanuts; and which will not pass through a screen having:

(*a*) $^{13}/_{64}$ x $^{3}/_{4}$ inch perforations in the case of Spanish peanuts,

(*b*) $^{15}/_{64}$ x 1 inch perforations in the case of Virginia peanuts, and

(*c*) $^{15}/_{64}$ x $^{3}/_{4}$ inch perforations in the case of Runner and Valencia peanuts.

(2) *Damaged kernels.* The discount for damage in excess of 1 percent shall be as follows per ton by types:

Peanuts containing damaged kernels (f—	Virginia	Runners	Spanish	
			Southeast	Southwest
2 percent	$3.60	$3.30	$3.40	$3.30
3 percent	7.20	6.60	6.80	6.60
4 percent	14.40	17.20	13.60	13.20
5 percent	21.60	19.80	20.40	19.80
6 percent	35.00	35.00	35.00	35.00
7 percent	55.00	55.00	55.00	55.00
8 percent and over	120.00	120.00	120.00	120.00

(3) *Foreign material.* The discount for each full 1 percent foreign material in excess of 4 percent and not over 10 percent shall be $1.00 per ton and in excess of 10 percent and not over 15 percent shall be $2.00 per ton.

(4) *Extra large kernels.* For Virginia type peanuts the premium for each full 1 percent extra large kernels in excess of 15 percent shall be $1.25 per ton. "Extra Large Kernels" means any shelled Virginia peanuts which are whole and which are free from noticeably discolored or damaged peanuts as defined in the U. S. Standards for Shelled Virginia peanuts (effective November 1, 1939) and which will not pass through a screen having 21.5/64 x 1 inch perforations.

(5) Any lot or load of peanuts which would otherwise be considered Virginia type but which contains less than 20 percent "Fancy" size (peanuts riding a 34/64 x 3 inch slotted screen) will be considered Runner type peanuts.

(6) The term "Southeastern Spanish" refers to Spanish type peanuts produced east of the Mississippi River and the term "Southwestern Spanish" refers to Spanish type peanuts produced west of the Mississippi River.

(c) *Valencia type peanuts.* For Valencia type peanuts containing less than 25 percent discoloration and damage caused by cracked or broken shells, the support price shall be the same as the support price for Virginia type peanuts of the same grade, except that no premium is applicable for extra large Valencia kernels. For other Valencia type peanuts the support price will be the same as the support price for Spanish peanuts of the same grade and in the same area.

PART 51—FRESH FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

TABLE GRAPES (EUROPEAN OR VINIFERA TYPE)

On April 3, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 2888) regarding proposed United States Standards for Table Grapes (European or Vinifera type). A period of thirty days was allowed for submitting written data, views and arguments for consideration in connection with the proposed standards. During this time representatives of groups within the California table grape industry requested an extension of time for consideration of the proposed standards. This request was granted and the time was extended until June 2, 1952, for submitting written data, views and arguments regarding the proposed standards (17 F. R. 4352). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice of rule making, the following United States Standards for Table Grapes (European or Vinifera type) are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1952 (Pub. Law 135, 82d Cong., approved August 31, 1951).

§ 51.232 *Standards for table grapes (European or Vinifera type)*—(a) *Grades*—(1) *U. S. Fancy Table Grapes.* U. S. Fancy Table Grapes consists of bunches of well developed grapes of one variety (except when designated as assorted varieties) which are well matured, fairly uniform in appearance and well colored. The berries shall be firm, firmly attached to capstems and shall not be weak, shriveled at capstems, shattered, split, crushed or wet, and shall be free from decay, waterberry, sunburn and Almeria Spot, and shall be free from damage caused by scarring, discoloration, heat, mildew, other diseases, freezing, insects, or mechanical or other means.

(i) *Bunches.* The bunches shall be fairly well filled but not excessively tight. They shall also be free from injury caused by shot berries, dried berries or other defective berries or by the trimming away of defective berries and they shall weigh not less than one-half pound.

(ii) *Stems.* The stems shall be well developed and strong, shall not be dry and brittle and shall be free from mold and free from damage caused by mildew or freezing. The Almeria variety shall have stems which are mature. The Emperor variety shall have stems which are mature and distinctly yellowish-green or yellow at time of packing.

(iii) *Size of berries.* Not less than 90 percent, by count, of the berries, exclusive of shot berries and dried berries, on each bunch shall have a minimum diameter as indicated for varieties as follows:

Ribier and Cardinal, $^{12}/_{16}$ of an inch.
Tokay, $^{11}/_{16}$ of an inch.
Almeria, $^{9}/_{16}$ of an inch.
Thompson Seedless and Black Monukka, $^{8}/_{16}$ of an inch.
Other varieties, $^{10}/_{16}$ of an inch.

(iv) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) 5 percent for bunches which fail to meet the requirements for minimum diameter of berries;

(*b*) 5 percent for bunches which weigh less than one-half pound;

(*c*) 10 percent for bunches which fail to meet the color requirements;

(*d*) 5 percent for bunches of the Almeria and Emperor varieties which fail to meet the requirements for maturity of stems and color of stems;

(*e*) 5 percent for bunches and berries which fail to meet the remaining requirements of this grade, other than for maturity and uniformity of appearance, including not more than 3 percent for shattered berries and including not more

under loan by paying to the holder of the note or the note and loan agreement, the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Upon presentation of the paid note, the county committee shall arrange for the release of the chattel mortgage. Partial release of the peanuts prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of peanuts to be released. In the case of warehouse storage loans, such partial release must cover all of the peanuts under one warehouse receipt.

§ 646.425 *Liquidation of loans and delivery under purchase agreements*—(a) *Farm storage loans.* (1) The producer is required to pay off his loan on or before maturity or to deliver the peanuts in accordance with instructions issued by the county committee. If the producer fails to deliver mortgaged peanuts in accordance with instructions of the county committee, he will be responsible for all costs of removal by the holder of the note. The producer may, however, pay off his loan and redeem his peanuts at any time prior to delivery of the peanuts to CCC or removal by CCC. If the peanuts are or are in danger of going out of condition, the producer shall notify the county committee which shall determine whether the peanuts must be delivered before the maturity date of the loan. In the event the farm is sold or there is a change of tenancy, the peanuts may be delivered before the maturity date of the loan, upon prior approval by the county committee, or may be delivered before the maturity date of the loan for other reasons upon prior approval of the President, CCC. Settlement will be made, subject to the provisions of the mortgage supplement, at the applicable support price based on the type, weight, grade and quality of the peanuts delivered. Delivery of peanuts in bulk will be accepted only from the structure(s) in which the peanuts under loan are stored. In the case of peanuts stored in bags, only the identical bags under loan may be delivered. Settlement will be made on the quantity and quality delivered by the producer and accepted by the county committee.

(2) If the settlement value of the peanuts delivered exceeds the amount due on the loan (excluding interest), such amount will be paid to the producer on the basis of the settlement documents. Deliveries of peanuts to CCC under farm storage loans will be handled by the PMA county committee which initially approved the loan. Any payment due the producer will be made by sight draft drawn on CCC by the PMA county office.

(3) If the settlement value of the peanuts is less than the amount due on the loan (excluding interest), the amount of the deficiency plus interest thereon, shall be paid to CCC or may be set off against any payment which would otherwise be due to the producer under any agricultural programs administered by the Secretary of Agriculture or any other payments which are due or may become due to producer from CCC or any other agency of the United States.

(b) *Warehouse storage loans.* (1) In the case of all warehouse storage loans with respect to commingled peanuts, if the producer does not repay his loan by maturity, CCC shall have the right to sell or pool the peanuts in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 646.426. Any payment due a producer at the time of settlement on a warehouse storage loan will be made by the appropriate PMA commodity office.

(2) In the case of loans on peanuts stored in a warehouse on an identity-preserved basis, if the producer does not repay his loan by maturity, the county committee shall specify a period within which the producer shall redeem his peanuts. If the producer does not redeem his peanuts during such specified period, the quantity, type, and grade shall be determined by actual weight and by Federal-State inspection, and settlement with the producer for the quantity, type, and grade of peanuts delivered to CCC will be made on the basis of the note and loan agreement and the price support schedule; and any payment due the producer will be made by sight draft drawn on CCC by the PMA county office. Any payment due the producer because of an overplus realized from the sale or pooling of the peanuts will be made by the appropriate PMA commodity office. If the peanuts are purchased by CCC, the purchase price shall be the market value as of the day following maturity, as determined by CCC.

(c) *Payments and collections; amounts not exceeding $3.00.* To avoid administrative costs of making small payments and handling small accounts, amounts due the producer of $3.00 or less will be paid only upon his request and a deficiency of $3.00 or less, including interest, may be disregarded by a producer unless demand for payment is made by CCC.

(d) *Purchase agreements.* (1) The producer who signs a purchase agreement, Commodity Purchase Form 1, will not be obligated to sell any quantity of peanuts to CCC. However, the quantity stated in the purchase agreement will be the maximum quantity he may sell to CCC. If the producer who signs a purchase agreement wishes to sell the peanuts to CCC, he will have a 30-day period ending on May 31, 1953 during which he must notify the county committee of his intention to sell.

(2) In the case of eligible peanuts stored commingled in an approved warehouse, the producer must, not later than the day following the final date of such 30-day period, or during such period of time thereafter as may be specified by the county committee, submit to the county committee, properly executed warehouse receipts for the quantity of peanuts he elects to sell to CCC. CCC will purchase only that quantity which the warehouseman guarantees to deliver on such warehouse receipts. In the case of eligible peanuts stored in other than approved warehouse storage, or stored identity preserved in approved warehouse storage the county committee will, on or after the final date of such 30-day period, issue delivery instructions to the producer. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions unless the county committee determines that more time is needed for delivery.

(3) The producer may be required to retain peanuts in other than approved warehouse storage for a period of 60 days, such period beginning on the first day of the delivery period, without any cost to CCC.

(4) The peanuts delivered under a purchase agreement must meet the eligibility requirements in § 646.407 when delivered and will be purchased at the applicable support rate. When delivery is completed, payment will be made by sight draft drawn on CCC by the county office. The producer shall direct on Commodity Purchase Form 4 to whom payment of the proceeds shall be made. Peanuts stored commingled in approved warehouses will be purchased, on the basis of the amount guaranteed on the warehouse receipts and/or accompanying documents. Peanuts stored identity-preserved in approved warehouse and peanuts delivered from other than approved warehouse storage will be purchased on the basis of the weight, grade, and other quality factors, determined by the county committee at the time of delivery and agreed to by the producer on Commodity Purchase Form 4.

§ 646.426 *Removal of peanuts under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the peanuts and sell them either by separate contract or after pooling them with other lots of peanuts similarly held. If the peanuts are pooled, the producer has no right of redemption after the date the pool is established, but shall share ratably in any overplus remaining upon liquidation of the pool. § 51.232 *Standards for table grapes (European or Vinifera type)*—(a) *Grades*—(1) *U. S. Fancy Table Grapes.* U. S. Fancy Table Grapes consists of bunches of well developed grapes of one variety (except when designated as assorted varieties) which are well matured, fairly uniform in appearance and well colored. The berries shall be firm, firmly attached to capstems and shall not be weak, shriveled at capstems, shattered, split, crushed or wet, and shall be free from decay, waterberry, sunburn and Almeria Spot, and shall be free from damage caused by scarring, discoloration, heat, mildew, other diseases, freezing, insects, or mechanical or other means.

(i) *Bunches.* The bunches shall be fairly well filled but not excessively tight. They shall also be free from injury caused by shot berries, dried berries or other defective berries or by the trimming away of defective berries and they shall weigh not less than one-half pound.

(ii) *Stems.* The stems shall be well developed and strong, shall not be dry and brittle and shall be free from mold and free from damage caused by mildew or freezing. The Almeria variety shall have stems which are mature. The Emperor variety shall have stems which are mature and distinctly yellowish-green or yellow at time of packing.

(iii) *Size of berries.* Not less than 90 percent, by count, of the berries, exclusive of shot berries and dried berries, on each bunch shall have a minimum diameter as indicated for varieties as follows:

Ribier and Cardinal, $12/16$ of an inch.
Tokay, $11/16$ of an inch.
Almeria, $9/16$ of an inch.
Thompson Seedless and Black Monukka, $7/16$ of an inch.
Other varieties, $10/16$ of an inch

(iv) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) 5 percent for bunches which fail to meet the requirements for minimum diameter of berries;

(*b*) 5 percent for bunches which weigh less than one-half pound;

(*c*) 10 percent for bunches which fail to meet the color requirements;

(*d*) 5 percent for bunches of the Almeria and Emperor varieties which fail to meet the requirements for maturity of stems and color of stems;

(*e*) 5 percent for bunches and berries which fail to meet the remaining requirements of this grade, other than for maturity and uniformity of appearance, including not more than 3 percent for shattered berries and including not more

than 2 percent for berries which are seriously damaged: *Provided*, That not more than one-fourth of the latter amount, or one-half of 1 percent, may be permitted for berries affected by decay.

(*f*) There is no tolerance specified in this grade for grapes which fail to meet the maturity requirements. However, no lot shall be considered as failing to meet these requirements because the sample of grapes from one container tests below the required percentage of soluble solids.

(2) *U. S. Extra No. 1 Table Grapes.* U. S. Extra No. 1 Table Grapes consists of bunches of well developed grapes of one variety (except when designated as assorted varieties) which are mature, fairly uniform in appearance and fairly well colored, except that grapes of the red varieties shall be reasonably well colored. The berries shall be firm, firmly attached to capstems and shall not be weak, shriveled at capstems, shattered, split, crushed or wet, and shall be free from decay, waterberry, sunburn and Almeria Spot, and free from damage caused by scarring, discoloration, heat, mildew, other diseases, freezing, insects or mechanical or other means.

(i) *Bunches.* The bunches shall be fairly well filled but not excessively tight. They shall also be free from damage caused by shot berries, dried berries or other defective berries or by the trimming away of defective berries and they shall weigh not less than one-fourth pound.

(ii) *Stems.* The stems shall be well developed and strong, shall not be dry and brittle and shall be free from mold and free from damage caused by mildew or freezing. The Almeria variety shall have not less than 50 percent of the bunches with stems which are mature. The Emperor variety shall have not less than 50 percent of the bunches with stems which are mature and distinctly yellowish-green or yellow at time of packing.

(iii) *Size of berries.* Not less than 90 percent, by count, of the berries, exclusive of shot berries and dried berries, on each bunch shall have a minimum diameter as indicated for varieties as follows:

Ribier and Cardinal, $^{12}/_{16}$ of an inch.
Tokay, $^{11}/_{16}$ of an inch.
Almeria, $^{9}/_{16}$ of an inch.
Thompson Seedless and Black Monukka, $^{8}/_{16}$ of an inch.
Other varieties, $^{10}/_{16}$ of an inch.

(iv) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) 5 percent for bunches which fail to meet the requirements for minimum diameter of berries;

(*b*) 10 percent for bunches which fail to meet the color requirements;

(*c*) For the Almeria and Emperor varieties, individual containers may have not more than a total of 10 percent less than the required percentage of bunches which meet the requirements for maturity of stems and color of stems: *Provided*, That the entire lot averages within the required percentage;

(*d*) 8 percent for bunches which weigh less than one-fourth pound and bunches and berries which fail to meet the remaining requirements of this grade, other than for maturity and uniformity of appearance, including not more than 5 percent for shattered berries and including not more than 2 percent for berries which are seriously damaged: *Provided*, That not more than one-fourth of the latter amount, or one-half of 1 percent, may be permitted for berries affected by decay.

(*e*) There is no tolerance specified in this grade for grapes which fail to meet the maturity requirements. However, no lot shall be considered as failing to meet these requirements because the sample of grapes from one container tests below the required percentage of soluble solids.

(3) *U. S. No. 1 Table Grapes.* U. S. No. 1 Table Grapes consists of bunches of well developed grapes of one variety (except when designated as assorted varieties) which are mature and fairly well colored. The berries shall be firm, firmly attached to capstems and shall not be weak, more than slightly shriveled at capstems, shattered, split, crushed or wet, and shall be free from decay, waterberry, and sunburn, and free from damage caused by scarring, discoloration, heat, Almeria Spot, mildew, other diseases, freezing, insects or mechanical or other means.

(i) *Bunches.* The bunches shall not be straggly. They shall be free from damage caused by shot berries, dried berries or other defective berries or by the trimming away of defective berries and they shall weigh not less than one-fourth pound.

(ii) *Stems.* The stems shall not be weak or dry and brittle and shall be free from mold and free from damage caused by mildew or freezing.

(iii) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) 10 percent for bunches which fail to meet the color requirements;

(*b*) 10 percent for bunches which weigh less than one-fourth pound and bunches and berries which fail to meet the remaining requirements of this grade, other than for maturity, including not more than 5 percent for shattered berries and including not more than 2 percent for berries which are seriously damaged: *Provided*, That not more than one-fourth of the latter amount, or one-half of 1 percent, may be permitted for berries affected by decay.

(*c*) There is no tolerance specified in this grade for grapes which fail to meet the maturity requirements. However, no lot shall be considered as failing to meet these requirements because the sample of grapes from one container tests below the required percentage of soluble solids.

(b) *Unclassified.* Unclassified consists of grapes which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Application of tolerances to individual packages.* (1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified for the grade.

(2) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified.

(3) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that for shattered berries and wet berries not more than one-tenth of the packages may contain more than double the tolerance specified.

(d) *Definitions.* (1) "Well developed grapes" means grapes which are not abnormally small for the variety.

(2) "One variety" means that the grapes show similar varietal characteristics. However, grapes in special packs of two or more varieties, when designated as "assorted varieties," need not meet this requirement.

(3) "Well matured" means that the juice from 10 percent, by weight, of whole bunches of grapes in the container, which appear to be least mature, shall test not less than 17 percent soluble solids, as determined by the Balling or Brix scale hydrometer, except that the Tokay variety shall test not less than 18 percent, the Thompson Seedless variety shall test not less than 19 percent, the Malaga and Muscat varieties shall test not less than 20 percent.

(4) "Fairly uniform in appearance" means that not more than one-tenth of the containers in any lot may show sufficient variation in color or size of berries to materially detract from the appearance of the contents of the individual container.

(5) "Well colored" means in the case of:

(i) Black varieties that each bunch shall have not less than 95 percent, by count, of berries showing characteristic color. Purple to black shall be considered characteristic color for the varieties Malvoise, Rose of Peru, Black Prince and Black Hamburg; reddish-purple to black shall be considered characteristic color for Cornichon and Black Monukka. Ribier grape berries shall be considered as showing characteristic color when at least 60 percent of the surface is purple to black color, not reddish-purple.

(ii) Red varieties that each bunch of the Tokay variety shall have not less than 60 percent, by count, and other red varieties shall have not less than 75 percent, by count, of berries which show at least 60 percent of the surface with good characteristic color: *Provided*, That the appearance of the bunch shall not be appreciably injured by very dark berries. Light or cherry red and dark red, but not light pink or very dark or purplish-red, are considered good characteristic color for the red varieties, excepting that any color ranging from light red through purple shall be considered good characteristic color for the Cardinal variety.

(iii) White varieties. There are no color requirements for the white varieties.

(6) "Firm" means that the berry is reasonably turgid and does not yield more than slightly to moderate pressure.

(7) "Weak" means that the berry is relatively low in sugar content, has inferior flavor and usually is watery, translucent and somewhat soft to the touch.

(8) "Shriveled at capstems" means that the berry shows more than slight wrinkling of the skin surrounding the capstem.

(9) "Shattered" means that the berry is separated from the bunch, and may or may not have the capstem attached.

(10) "Wet" means that the grapes are wet from moisture from crushed, leaking or decayed berries or from rain. Grapes which are moist from dew or other moisture condensation such as that resulting from removing grapes from a refrigerator car or cold storage to a warmer location shall not be considered as wet.

(11) "Decay" means any soft breakdown of the flesh or skin of the berry resulting from bacterial or fungus infection. Slight surface development of green mold (Cladosporium) shall not be considered decay.

(12) "Waterberry" means a watery, soft or flabby condition of the berries. Affected berries are low in sugar content, have tender skins and are easily crushed. This is an advanced or more pronounced stage of the condition referred to as "weak."

(13) "Sunburn" means injury to the berry caused by direct exposure to the sun, including "sulphur burn," occurring as a sunken, and usually discolored and dried area on the exposed surface.

(14) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the individual berry, the appearance of the bunch as a whole, or the shipping quality of the stems.

(i) Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage to the individual berry:

(*a*) Scarring such as that caused by thrip, mildew, rubs and similar injuries when materially affecting the appearance of the berry.

(*b*) Discoloration, when any light brown, tan or darker discoloration of the skin materially affects the appearance of the berry: *Provided*, That "sunkissed" berries of the white Malaga variety which show discoloration of amber or light brown color shall not be considered as damaged. "Buckskin" berries of the Tokay variety, and similar injury to other varieties, shall be considered as damaged by discoloration.

(*c*) Heat, when the flesh of the berry is affected.

(*d*) Almeria Spot, when any spot is distinctly sunken or dark in color.

(*e*) Mildew, when active powdery mildew is present.

(*f*) Freezing, when the berry is frozen or when the flesh of the berry is affected by freezing.

(*g*) Insects, when any insect is present or there is visible evidence of insect injury; when mealybug residue or aphis honeydew are present; or when the appearance is materially affected by the presence of leafhopper residue.

(ii) The following shall be considered as damage to stems:

(*a*) Mildew, when active powdery mildew is present on the stems, or when scars caused by this disease constrict or weaken any part of the main or lateral stems.

(*b*) Freezing, when the stems are frozen or the capstems are swollen or dried, or when the main or lateral stems are watersoaked and limp, or dried, as a result of freezing.

(15) "Fairly well filled" means that the berries are reasonably closely spaced on main and lateral stems and that the bunch is not very loose or stringy.

(16) "Excessively tight" means that the berries are so closely wedged together that, when the stem is fresh, the bunch is solid and the appearance is materially affected by berries on the lower portions being distinctly distorted from normal shape.

(17) "Injury to the bunch" means any defect which more than slightly affects the appearance of the bunch.

(18) "Shot berries" means very small berries resulting from insufficient pollination, usually seedless in those varieties which normally develop seeds. These berries may be entirely green and hard and are designated as "immature shot berries." They may mature and color uniformly with the normal berries on the bunch and are then designated as "mature shot berries."

(19) "Dried berries" means berries which are dry and shriveled to the extent that practically no moisture is present.

(20) "Well developed and strong" means that the main and lateral stems are firm, fibrous and pliable; not distinctly immature or spindly or thread-like at time of packing.

(21) "Diameter" means the greatest dimension of the berry taken at right angles to a line running from the stem to the blossom end.

(22) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the grapes and includes berries which are split, crushed, wet, affected by decay or waterberry, or damaged by heat or freezing, except that raisining grapes that are cracked or split, and grapes which show healed cracks at the blossom end, shall not be considered as seriously damaged.

(23) "Mature" means that the juice from 10 percent, by weight, of whole bunches of grapes in the container, which appear to be least mature, shall test not less than 17 percent soluble solids, as determined by the Balling or Brix scale hydrometer, except that the varieties Emperor, Gros Colman, Pierce Isabella, Olivette Blanche, Rish Baba, Red Malaga, Cardinal, Ribier, Khalili, Dizmar and varieties similar to or synonymous with the above, shall test not less than 16 percent, and except that Muscat varieties shall test not less than 18 percent.

(24) "Fairly well colored" means in the case of:

(i) Black varieties that each bunch shall have not less than 85 percent, by count, of berries showing characteristic color, except that in the varieties Ribier, Rose of Peru, Black Prince, Black Hamburg and Black Monukka each bunch shall have not less than 75 percent, by count, of berries showing characteristic color. Purple to black shall be considered characteristic color for the varieties Malvoise, Rose of Peru, Black Prince and Black Hamburg; reddish-purple to black shall be considered characteristic color for Cornichon and Black Monukka. Ribier grape berries shall be considered as showing characteristic color when at least 60 percent of the surface is purple to black color, not reddish-purple.

(ii) Red varieties that each bunch of the Tokay variety shall have not less than 45 percent, by count, and other red varieties shall have not less than 60 percent, by count, of berries which show at least 60 percent of the surface with characteristic color. Light pink, red, dark red or purple are considered characteristic color for the red varieties. (There are no color requirements for the Pink Thompson Seedless variety, Sultanina Rose).

(iii) White varieties. There are no color requirements for the white varieties.

(25) "Reasonably well colored" applies to the red varieties and means that each bunch of the Tokay variety shall have not less than 55 percent, by count, and other varieties shall have not less than 60 percent, by count, of berries which show at least 60 percent of the surface light pink, red or dark red, but not very dark or purplish-red: *Provided*, That the appearance of the bunch shall not be appreciably injured by very dark berries, except that any color ranging from light pink through purple shall be permitted for the Cardinal variety.

(26) "Slightly shriveled at capstems" means that the skin of the berry is definitely wrinkled adjacent to the capstem and the surface is materially sunken.

(27) "Straggly" means that the berries are so widely spaced on main and lateral stems that the bunch is distinctly open or very stemmy or stringy in structure.

(e) *Effective time.* The United States Standards for Table Grapes (European or Vinifera type) contained in this section and which supersede the United States Standards for Table Grapes (11 F. R. 13568) effective July 20, 1939, shall become effective ten (10) days after the date of publication in the FEDERAL REGISTER.

It is hereby found that it is impractical, unnecessary, and contrary to the public interest to postpone the effective date of these standards until 30 days after publication hereof in the FEDERAL REGISTER because the packing season for table grapes has already commenced and it is in the public interest that the standards be in effect as soon as possible; and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 905—MILK IN OKLAHOMA CITY, OKLAHOMA, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 905.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Oklahoma City, Oklahoma, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective not later than July 1, 1952. This action is necessary in the public interest in order to reflect current marketing conditions and to insure the production of an adequate supply of milk. Accordingly, any further delay in the effective date of this order amending the order, as amended, will seriously impair orderly marketing of milk in the Oklahoma City, Oklahoma, marketing area. The provisions of the said amendatory order are well known to handlers—the public hearing having been held March 3–4, 1952, and the decision having been executed by the Secretary on June 17, 1952. Reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecesary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (See section 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237; 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Oklahoma City, Oklahoma, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who, during the determined representative period (April 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Oklahoma City, Oklahoma, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 905.51 (a) and substitute therefor the following:

(a) *Class I milk.* The basic formula price plus $1.70 during the months of April, May, and June and plus $1.90 during all other months: *Provided*, That for each of the months of September, October, November, and December, such price shall not be less than that for the preceding month, and that for each of the months of April, May, and June such price shall be not more than that for the preceding month. To this price add or subtract a "supply-demand adjustment" computed as follows:

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers and sales by producer-handlers and handlers partially exempt from this subpart pursuant to § 905.61) for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the Class I utilization percentage;

(2) Compute a "net utilization percentage" by algebraically subtracting from the Class I utilization percentage computed pursuant to subparagraph (1) of this paragraph, the standard utilization percentage shown below:

Month for which price applies	Months used in computation	Standard utilization percentage
January	November–December	110
February	December–January	114
March	January–February	118
April	February–March	120
May	March–April	124
June	April–May	127
July	May–June	132
August	June–July	130
September	July–August	125
October	August–September	116
November	September–October	108
December	October–November	106

(3) For each minus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be increased 3 cents in January, February, March, July, and August; 2 cents in April, May, and June; 4 cents in September, October, November, and December; and for each plus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be decreased 3 cents in January, February, March, July, and August; 4 cents in April, May, and June; and 2 cents in September, October, November, and December: *Provided*, That in no event shall an adjustment made pursuant to this subparagraph exceed 50 cents per hundredweight.

2. Amend § 905.22 (j) (1) to read as follows:

(1) On or before the 10th day of each month the minimum price for Class I milk computed pursuant to § 905.51 (a) and the Class I butterfat differential computed pursuant to § 905.52 (a) both for the current month; and on or before the 5th day of each month the minimum price for Class II milk pursuant to § 905.51 (b) and the Class II butterfat differential computed pursuant to § 905.52 (b), both for the previous month; and

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of June 1952 to be effective on and after the 1st day of July 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[Docket No. AO 212–A4]

PART 907—MILK IN MILWAUKEE, WIS., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and certain proposed amendments to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective on July 1, 1952. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the production of an adequate supply of milk. Any further delay in the effective date of this order amending the order, as amended, will seriously impair the orderly marketing of milk in the Milwaukee marketing area. The provisions of the said amendatory order are well known to handlers and producers, the public hearing having been on May 19–20, 1952, and a decision containing such provisions having been issued June 13, 1952. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be contrary to the public interest to delay the effective date of this amendatory order for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations or producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the volume of the milk covered by this order amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who, during the determined representative period, (March 1952) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 907.14 and substitute therefor the following:

§ 907.14 *Other source milk.* "Other source milk" means all milk and milk products, except packaged butter, packaged cottage cheese, and other products already packaged or processed when received by the handler, other than producer milk or receipts from other handlers.

2. Delete § 907.41 (d) (3) and substitute therefor the following:

(3) Actual shrinkage but not to exceed 2½ percent of the total pounds of butterfat in producer milk and actual shrinkage of butterfat in other source milk (including in each instance that computed pursuant to § 907.42 (b)).

3. Delete § 907.42 (b) and substitute therefor the following:

(b) Prorate the resulting amount among the receipts of butterfat in producer milk, other source milk, and receipts (excluding milk or milk products in packaged form and not reprocessed by the receiving handler) from other handlers in accordance with the total volumes of butterfat received from each such source.

4. Delete § 907.46 (c) (1) and substitute therefor the following:

(1) Convert to pounds on the basis of 2.15 pounds per quart (in the case of non-concentrated flavored milk and flavored milk drinks 2.0 pounds per quart) the volume disposed of as each of the several items of Class I milk, except in the case of converting milk, flavored milk or flavored milk drinks in concentrated form such conversion shall apply to the volume of milk used in the production of the concentrated product rather than to the volume of finished product: *Provided*, That if a satisfactory record of the volume of milk used in the production of the concentrated product is not available, the 3.5 percent milk equivalent of the volume of butterfat in the finished product shall be used for the purposes of this paragraph;

5. Delete § 907.51 (a) and (b) and substitute therefor the following:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus the following amounts as indicated: May and June, $0.56; July through November, inclusive, $1.06; all other months, $0.76: *Provided*, That such class I price differential shall be increased or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio computed pursuant to paragraph (e) of this section is greater or less than 72 percent.

(b) *Class II milk.* The price for Class II milk shall be the basic formula price plus the following amounts as indicated: May and June, $0.40; July through November, inclusive, $0.70; all other months, $0.50: *Provided*, That such Class II price differential shall be adjusted by the amount of any adjustment made in the Class I price differential for the same month pursuant to the proviso of paragraph (a) of this section.

6. Delete § 907.51 (e) and substitute therefor the following:

(e) *Automatic price adjustment.* On or before the last day of each month the market administrator shall make the following computations based upon the reported receipts and utilization of handlers as defined in the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, as computed by the market administrator under the latter order:

(1) Determine the total receipts of Grade A milk from all producers (including receipts from own farm production) for the most recent 12-month period.

(2) Determine the total pounds of Grade A milk actually utilized in Class I milk and Class II milk products during the most recent 12-month period and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period.

(3) Divide the amount obtained in subparagraph (2) of this paragraph by the amount obtained in subparagraph (1) of this paragraph and round to the nearest full percent, which resulting percentage shall be known as the "current supply-demand ratio".

(4) In making the computations specified in subparagraphs (1) and (2) of this paragraph, the market administrator shall use the reported receipts and

utilization of handlers of Grade A milk under both Order 41 and former Order 69 (Suburban Chicago, Illinois, marketing area) when it is necessary to use data for months prior to July 1, 1952.

7. Delete § 907.60 (b) and substitute therefor the following:

(b) Any producer entering the market following twelve or more consecutive months without producer status, shall have his milk deliveries considered as non-base milk for the first April–June period (or any part thereof) following his qualification as a producer; or upon notifying the market administrator prior to April 1 next following such qualification as a producer, he may elect to have a base computed in the manner provided in paragraph (a) of this section with respect to his deliveries of milk to any fluid milk plant, receiving station, or non-fluid plant, such deliveries to be subject to verification by the market administrator: *Provided*, That this paragraph shall not be construed to conflict with § 907.61 (a) or (b).

8. Delete § 907.61 (e) and substitute therefor the following:

(e) The market administrator on or before March 1 shall notify each handler of the base (computed pursuant to § 907.60) of each of the producers delivering to his plant(s): *Provided*, That this shall not preclude the market administrator from notifying any producer (or a cooperative association if such producer is a member) of the producer's base.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 26th day of June 1952, to be effective on and after the 1st day of July 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-7154; Filed, June 27, 1952; 9:01 a. m.]

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

SUBPART—RULES AND REGULATIONS

Pursuant to provisions of § 927.36 of Order No. 27, as amended (7 CFR Part 927), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (5 U. S. C., 1001 et seq.), a public meeting was held at New York, New York, on April 30, 1952 to consider proposals for the amendment of the rules and regulations heretofore issued (7 CFR 927.101 et seq.) pursuant to said order. Notice of said public meeting was issued on April 4, 1952, and published in the FEDERAL REGISTER on April 19, 1952 (17 F. R. 3499).

After due consideration of the data, views, and arguments presented by interested parties at such public meeting, the rules and regulations as heretofore amended are hereby further amended, subject to the approval of the Secretary of Agriculture to read as follows:

AUTHORITY: §§ 927.100 to 927.275 issued under sec. 5, 49 Stat. 753, as amended; 7 U S C and Sup. 608c.

DEFINITIONS

§ 927.100 *Definitions.* The terms used in this subpart shall have the same definitions as are set forth in the orders. In addition, for the purpose only of classifying and accounting for milk under the terms of the Orders, other terms shall have the meanings set forth in §§ 927.101 through 927.128.

§ 927.101 *Orders.* "The orders" means Order No. 27 as amended, issued by the Secretary, and revised official Order No. 126 as amended, issued by the Commissioner.

§ 927.102 *Pooled.* The term "pooled," when used in conjunction with milk, butterfat, skim milk, or other dairy product, means that the butterfat in such product or the skim milk in such product was at some time received from producers in the form of milk at a pool plant.

§ 927.103 *Exempt.* The term "exempt," when used in conjunction with milk, butterfat, skim milk, or other dairy product, means that the milk equivalent of the butterfat in such product or the skim milk in such product is exempt from the computation of the uniform price, pursuant to § 927.60.

§ 927.104 *Non-pooled.* The term "non-pooled," when used in conjunction with milk, butterfat, skim milk, or other dairy product, means that the butterfat in such product or the skim milk in such product was at no time received from producers in the form of milk at a pool plant.

§ 927.105 *Milk.* "Milk" means (a) the product delivered to a plant by dairy farmers as cow's milk, or (b) the product composed of skim milk and of not less than 3.0 percent nor more than 15 percent butterfat. This definition shall not be deemed to include products that are included in other definitions.

§ 927.106 *Skim milk.* "Skim milk" means all parts of milk as defined in § 927.105 (a) except butterfat.

§ 927.107 *Fluid skim milk.* "Fluid skim milk" means the product consisting principally of uncondensed skim milk, including buttermilk obtained from churning, and containing less than 3.0 percent butterfat.

§ 927.108 *Cultured or flavored milk drink.* "Cultured or flavored milk drink" means a flavored or cultured beverage containing milk or skim milk but not more than 15 percent butterfat, or the mixture from which such product is made.

§ 927.109 *Cream.* "Cream" means the combination of butterfat and skim milk which contains more than 15 percent butterfat, and which may or may not have been fermented by the addition of a lactic acid or other harmless milk culture. This definition shall not be deemed to include products that are included in other definitions. In §§ 927.140 through 927.220, when the fermented cream is referred to, the term "sour cream" will be used.

§ 927.110 *Frozen cream.* "Frozen cream" (sometimes referred to as storage cream), means pooled cream which has met the requirements necessary for the classification of the milk equivalent of such cream as Class III frozen cream pursuant to § 927.37 (e) (2) of the Orders: *Provided*, That, for the purposes only of accounting for the butterfat in these rules and regulations such terms shall also mean non-pooled cream assigned to cream reported pursuant to § 927.52, and which meets the requirements of § 927.37 (e) (2) as a basis of classification for pooled milk.

§ 927.111 *Concentrated fluid milk; plain condensed milk.* "Concentrated fluid milk" and "plain condensed milk" mean the unsterilized product resulting from the evaporation of water from milk which products contain not less than 5.0 percent butterfat, not less than 20 percent total milk solids, and not less than 5.0 percent moisture. They may or may not contain sugar or other sweetening agents, but such sugar or other sweetening agents shall be equivalent to less than 38 percent sugar or equivalent sweetening agents. Other milk products may be added during the process of manufacture.

§ 927.112 *Evaporated milk.* "Evaporated milk" means the product resulting from the evaporation of water from milk which product contains not less than 7.9 percent butterfat and not less than 25.9 percent total milk solids, and which product is packed in hermetically-sealed cans. Other milk products, stabilizer, or vitamin D may be added during the process of manufacture. Failure to meet the minimum percentages set forth herein by an amount not to exceed 2.0 percent of the percentages set forth herein shall not disqualify a product from meeting this definition.

§ 927.113 *Sweetened condensed milk.* "Sweetened condensed milk" means the product resulting from the evaporation of water from milk or plain condensed milk and the addition of sugar or other sweetening agent. It shall contain not less than 8.0 percent butterfat, 28 percent total milk solids, and 38 percent sugar or equivalent sweetening agent. Other milk products may be added during the process of manufacture.

§ 927.114 *Condensed by-product.* "Condensed by-product" means the product resulting from the evaporation of at least 50 percent of the water from fluid skim milk, with or without the addition of other products. This definition includes but is not limited to the products known as condensed skim milk, sweetened condensed skim milk, and condensed buttermilk.

§ 927.115 *Milk powder.* "Milk powder" means the product which results from the removal of water from milk, cream, plain condensed milk, or fluid skim milk, with or without the addition of other products, and which contains not less than 10 percent butterfat, not more than 5.0 percent moisture, and not more than 5.0 percent solids not milk solids.

§ 927.116 *Other concentrated milk products.* "Other concentrated milk products" means the products named and described as follows:

(a) Malted milk products, products which are made by combining milk of other products containing butterfat with liquids separated from mash or ground barley malt and wheat flour, with or without the addition of other products, and by removing water. They shall contain not more than 40 percent moisture and not more than 15 percent butterfat.

(b) Ice cream powder, the product containing milk solids, sugar (or other sweetening agent), and other ingredients, prepared for use in making frozen desserts. It shall contain not less than 26 percent butterfat and not more than 5.0 percent moisture.

(c) Sweetened, part skim, condensed milk, the product resulting from the evaporation of water from milk or plain condensed milk and the addition of sugar or other sweetening agent. It shall contain not less than 5.0 percent but less than 8.0 percent butterfat, not less than 28 percent total milk solids and not less than 38 percent sugar or equivalent sweetening agent. Other milk products may be added during the process of manufacture.

(d) The product which meets all the requirements of evaporated milk as set forth in § 927.112 with the exception that other vitamins and minerals not to exceed 0.5 percent of the total weight of the product may be added during the process of manufacture.

§ 927.117 *Powdered by-product.* "Powdered by-product" means a product which results from the removal of water from fluid skim milk or a condensed by-product and which contains less than 10 percent butterfat and not more than 5.0 percent moisture. This definition includes but is not limited to products known as non-fat dry milk solids and dried buttermilk.

§ 927.118 *Cheese.* "Cheese" means the product made from the separated curd obtained by coagulating the casein of milk, fluid skim milk, or cream.

§ 927.119 *Cheddar cheese; American Cheddar cheese; Colby cheese; washed curd cheese; part skim Cheddar cheese.* "Cheddar cheese," "American Cheddar cheese," "Colby cheese," "washed curd cheese," and "part skim Cheddar cheese," means those cheeses manufactured for sale under one of these names and made from milk or fluid skim milk by the Cheddar, Colby, or washed curd process.

§ 927.120 *Cream cheese.* "Cream cheese" means cheese manufactured for sale under the name of "cream cheese," "neufchatel cheese," "cream cheese curd," or as a cheese with a cream cheese or neufchatel cheese base and made by the cream cheese or neufchatel process. The curd shall contain not less than 20 percent butterfat and the cheese may have non-milk products added but may not have other cheeses added. Failure to meet the minimum percentage set forth in this subpart by an amount not to exceed 2.0 percent of the percentage set forth herein shall not disqualify a product from meeting this definition.

§ 927.121 *Frozen desserts.* "Frozen desserts" means those products commonly known as ice cream, frozen custard, sherbet, and frozen confections such as, but not restricted to, Bisque Tortoni, Spumoni, creamsicles, fudgicles, popsicles, mousses, parfaits, puddings (such as Nesselrode puddings), and decorations for the frozen desserts, but not including products properly known as candy.

§ 927.122 *Homogenized mixture.* "Homogenized mixture" means the product which results from homogenizing a mixture containing milk solids, moisture, and sugar (or other sweetening agent) or other ingredients, and which is prepared for use in the manufacture of frozen desserts. It shall contain not less than 5.0 percent sugar (or other sweetening agent) or other ingredients, and not less than 5.0 percent moisture.

§ 927.123 *Butter.* "Butter" means the product containing not less than 80 percent butterfat resulting from churning cream. Failure to meet this minimum percentage by an amount not to exceed 1.0 percent of such percentage shall not disqualify the product from meeting this definition.

§ 927.124 *Packaged; packaged in consumer packages.* The term "packaged" or "packaged in consumer packages" when used in conjunction with milk,

concentrated fluid milk, plain condensed milk, cultured or flavored milk drinks, cream or sour cream, means that such product is in a container of two quarts or less. These products in any other container will be referred to as bulk.

§ 927.125 *Fluid milk products.* "Fluid milk products" means products which meet the definition of milk as set forth in § 927.105, but to which are added ingredients other than those derived from milk, such ingredients not to exceed 4.0 percent. This definition shall not be deemed to include products that are included in other definitions.

§ 927.126 *Fluid cream products.* "Fluid cream products" means products containing less than 60 percent butterfat which meet the definition of cream as set forth in § 927.109, but to which are added ingredients other than those derived from milk, such ingredients not to exceed 4.0 percent, which products are not subsequently utilized in frozen desserts. This definition shall not be deemed to include products that are included in other definitions.

§ 927.127 *Reconstituted cream shipped to, or received in, or distributed in the marketing area.* "Reconstituted cream shipped to, received in, or distributed in the marketing area" means cream classified as Class II to which frozen cream has been assigned pursuant to §§ 927.165 and 927.166.

§ 927.128 *Whipped topping mixture.* "Whipped topping mixture" means a product which results from the mixture of milk solids, moisture, sugar or other sweetening agents, flavor and stabilizer, and which is used for distribution packaged with harmless gas causing it to fluff upon ejection from the package or container. The ingredients contained therein other than those derived from milk must exceed 4.0 percent.

PROCEDURE FOR ACCOUNTING FOR THE RECEIPT AND DISPOSITION OF BUTTERFAT, AND PLANT LOSS

§ 927.140 *Method.* Milk shall be classified and accounted for on a monthly basis in accordance with the form in which the butterfat from such milk is held at or moved from the plant at which classification is to be determined pursuant to § 927.33. Before classifying milk the butterfat in milk shall be accounted for in accordance with provisions of §§ 927.141 through 927.182 and shall be classified in the same classes as the milk equivalent of such butterfat is required, pursuant to §§ 927.30 through 927.37, to be classified. Any deductions or additions required in any section shall be made to the result obtained after all additions or deductions required in the preceding sections have been made.

§ 927.141 *Butterfat to be accounted for.* Tabulate the total pounds of butterfat in the opening inventories in each product and received at the plant in each product. Butterfat should be shown separately in packaged and bulk forms. The total of all butterfat so tabulated shall be known as the total butterfat to be accounted for.

§ 927.142 *Butterfat accounted for.* Tabulate and classify the butterfat in each product on hand at or leaving the plant. Such tabulation should show separately the butterfat in each product leaving the plant and in the closing inventories at the plant. In the event that the butterfat in the product might be classified in more than one class, the tabulation should be further subdivided to show the quantity of butterfat in each class. The tabulation should be further subdivided to show the quantity of butterfat in the packaged product and in the bulk product. The total of the butterfat tabulated in this subpart shall be known as the butterfat accounted for at the plant.

§ 927.143 *Butterfat loss and excess.* Subtract the total butterfat accounted for from the total butterfat to be accounted for at the plant. The remainder shall be known as the plant loss. In the event that the total butterfat accounted for at the plant is greater than the total butterfat to be accounted for the excess butterfat shall be accounted for as follows:

(a) If the plant is in the marketing area, the excess shall be considered to have been received in the form of cream from an undisclosed source: *Provided*, That, if such excess is an excess of milk it shall be considered to have been received in the form of milk from an undisclosed source. Such excess, other than an excess of milk, shall be assigned as far as possible to butterfat leaving the plant in the form of frozen desserts, homogenized mixtures or cream cheese. Any excesses not so assigned shall be subject to the payments required in § 927.78 (b) (3).

(b) If the plant is a pool plant outside the marketing area, the excess shall be considered to have been received in the form of milk from products and such excess shall be classified and paid for without equalization from the pool.

(c) If the plant is a non-pool plant outside the marketing area, the excess shall be considered to have been received in the form of the product or products leaving or on hand at the plant which yield the lowest net return to producers, after deduction of butterfat in the opening inventories or received at the plant in like form.

§ 927.144 *Miscellaneous products: Step One.* Deduct butterfat in opening inventories or received in forms other than milk, cultured or flavored milk drinks, cream, sour cream, concentrated fluid milk, plain condensed milk from butterfat leaving the plant or in the closing inventories at the plant in like forms to the extent possible. If such butterfat is pooled butterfat and is received in the form of fluid milk products or fluid cream products, it should be deducted, as far as possible, from Class I–A or Class II, as the case may be. If such butterfat is non-pooled butterfat and is received in the form of fluid milk products or fluid cream products, it should be deducted pro rata, as far as possible, from Class I–B, Class I–C, or from Class III.

§ 927.145 *Cheese; opening inventory and receipts.* Deduct remaining butterfat in the opening inventories or received in the form of cheese from butterfat leaving the plant or in the closing inventories at the plant in the form of other cheese, to the extent that such opening inventories or receipts of cheese are used in the manufacture of such other cheese.

§ 927.146 *Miscellaneous products: Step Two.* Deduct remaining butterfat in the opening inventories or received in forms other than milk, cultured or flavored milk drinks, cream, sour cream, frozen cream, concentrated fluid milk, plain condensed milk, sweetened condensed milk, milk powder, other concentrated milk products, and butter from butterfat in products leaving the plant or in the closing inventories at the plant in which the handler claims to have used such butterfat. Deduct any remaining butterfat in the opening inventories or received in such forms from plant loss.

§ 927.147 *Cream: Step One.* Deduct butterfat in the opening inventories of packaged cream or sour cream from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.148 *Cream: Step Two.* Deduct butterfat received in the form of packaged cream pro rata from butterfat leaving the plant or in the closing inventories at the plant in the form of packaged cream.

§ 927.149 *Cream: Step Three.* Deduct butterfat received in the form of packaged sour cream from butterfat leaving the plant or in the closing inventories at the plant in the form of packaged sour cream. If such butterfat is pooled butterfat, it should be deducted, as far as possible, from Class II packaged sour cream and then pro rata from other classes of packaged sour cream. If such butterfat is nonpooled butterfat, it should be deducted pro rata, as far as possible, from packaged sour cream other than Class II packaged sour cream.

927.150 *Milk drinks: Step One.* Deduct butterfat in the opening inventories in the form of cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat from butterfat in cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.151 *Milk drinks: Step Two.* Deduct butterfat received in the form of cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat from butterfat in cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat leaving the plant or in closing inventories at the plant. If such butterfat is pooled butterfat, it should be deducted, as far as possible, from butterfat in cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat classified as Class II. If such butterfat is non-pooled butterfat, it should be deducted, as far as possible, from butterfat in cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat classified as Class III. Deduct remaining butterfat in the opening inventories or received in the form of cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat from butterfat in products in which the handler claims to have used such butterfat. Deduct any remaining butterfat in opening inventories or received in the form of cultured or flavored milk drinks of less than 3.0 percent or more than 5.0 percent butterfat from plant loss and classify it as Class II.

§ 927.152 *Concentrated fluid milk: Step One.* Deduct butterfat in the opening inventories of packaged concentrated fluid milk or packaged plain condensed milk from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.153 *Concentrated fluid milk: Step Two.* Deduct butterfat received in the form of packaged concentrated fluid milk or packaged plain condensed milk pro rata from butterfat leaving the plant or in the closing inventories at the plant in the form of packaged concentrated fluid milk or packaged plain condensed milk.

§ 927.154 *Plant loss allowance; second process.* Add to the remaining butterfat in each class leaving the plant or in the closing inventories at the plant in the form of:

(a) Packaged cream, 2.5 percent;
(b) Packaged sour cream, 2.5 percent;
(c) Frozen desserts or homogenized mixtures, 3.0 percent;
(d) Cream cheese, 5.0 percent;
(e) Butter, 3.0 percent;
(f) Whipped topping mixture packed under pressure, 2.5 percent;
(g) Packaged concentrated fluid milk or packaged plain condensed milk, 1.5 percent:

Provided, That, if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the remaining plant loss. Such additions shall be deducted from the remaining plant loss.

§ 927.155 *Miscellaneous products: Step Three.* Deduct remaining butterfat in the opening inventories or received in the form of butter, sweetened condensed milk, milk powder, or other concentrated milk products, pro rata from the remaining butterfat leaving the plant or in the closing inventories at the plant in the forms of frozen desserts, homogenized mixtures, ice cream powder or candy products. Deduct any remaining butterfat in the opening inventories or received in such forms from butterfat in products in which the handler claims to have used such butterfat. Deduct any remaining butterfat in the opening inventories in such forms from plant loss.

§ 927.156 *Concentrated fluid milk: Step Three.* Deduct butterfat in the opening inventories of concentrated fluid milk or plain condensed milk from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.157 *Concentrated fluid milk: Step Four.* Deduct butterfat received in the form of concentrated fluid milk or plain condensed milk pro rata from butterfat leaving the plant or in closing inventories at the plant in the form of concentrated fluid milk or plain condensed milk. Deduct any remaining butterfat received in the form of concentrated fluid milk or plain condensed milk pro rata from butterfat on hand at or leaving the plant in the form of frozen desserts, homogenized mixtures, evaporated milk, sweetened condensed milk, milk powder, other concentrated milk products or candy products. Deduct remaining butterfat received in the form of concentrated fluid milk or plain condensed milk from butterfat in products in which the handler claims to have used such butterfat. If any butterfat received in the form of concentrated fluid milk or plain condensed milk remains, it shall be deducted from plant loss.

§ 927.158 *Cream: Step Four.* Deduct butterfat in opening inventories of sour cream from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.159 *Cream: Step Five.* Deduct butterfat received in the form of sour cream from butterfat leaving the plant or in the closing inventories at the plant in the form of sour cream. If such butterfat is pooled butterfat, it should be deducted, as far as possible, from Class II butterfat in sour cream and then pro rata from other classes of butterfat in sour cream. If such butterfat is nonpooled butterfat, it should be deducted pro rata, as far as possible, from butterfat in sour cream other than Class II sour cream.

§ 927.160 *Cream: Step Six.* Deduct remaining butterfat in the opening inventories or received in the form of sour cream from butterfat leaving the plant or in the closing inventories at the plant in cheese or butter, to the extent that the handler claims utilization of sour cream in the manufacture of such cheese or butter.

§ 927.161 *Cream: Step Seven.* Deduct any remaining butterfat in the opening inventories or received in the form of sour cream from plant loss and classify it as class II.

§ 927.162 *Plant loss allowance; frozen cream.* Deduct 3.0 percent of the remaining butterfat in the opening inventories or received in the form of frozen cream from plant loss: *Provided*, That, the amount so deducted shall not exceed the remaining plant loss.

§ 927.163 *Frozen cream: Step One.* Deduct remaining butterfat in the opening inventories or received in the form of frozen cream from butterfat leaving the plant or in the closing inventories at the plant in the form of sour cream classified as Class II to the extent possible.

§ 927.164 *Frozen cream: Step Two.* Deduct remaining butterfat in the opening inventories or received in the form of frozen cream pro rata from the remaining butterfat leaving the plant or in the closing inventories at the plant in the form of sour cream other than Class II, frozen desserts, homogenized mixtures, cream cheese, and to the extent that cream or frozen cream is used in the manufacture of such products, from butterfat leaving the plant or in the closing inventories at the plant in the form of concentrated fluid milk, plain condensed milk, evaporated milk, sweetened condensed milk, milk powder, other concentrated milk products, candy products, or other cheese, except those to which the butter-cheese adjustment is applicable.

§ 927.165 *Frozen cream: Step Three.* Deduct remaining butterfat in the opening inventories or received in the form of frozen cream pro rata from classes of butterfat leaving the plant or in closing inventories at the plant in cream, except Class II, and in Class III cultured or flavored milk drinks.

§ 927.166 *Frozen cream: Step Four.* Deduct any remaining butterfat in the opening inventories or received in the form of frozen cream pro rata from butterfat leaving the plant or in the closing inventories at the plant in Class II cream and Class II cultured or flavored milk drinks distributed in the marketing area.

§ 927.167 *Frozen cream: Step Five.* Deduct remaining butterfat in the opening inventories or received in the form of frozen cream from butterfat in products in which the handler claims to have used such butterfat. Deduct remaining butterfat in the opening inventories or received in the form of frozen cream from plant loss.

§ 927.168 *Plant loss allowance; sour cream.* Add to the remaining butterfat in each class leaving the plant or in the closing inventories at the plant in the form of sour cream, 2.0 percent: *Provided*, That, if such additions are greater than remaining plant loss, they shall be reduced pro rata to the point where they are equal to the remaining plant loss. Such additions shall be deducted from plant loss.

§ 927.169 *Cream: Step Eight.* Deduct the opening inventories of butterfat in cream from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.170 *Cream: Step Nine.* Deduct butterfat received in the form of cream pro rata from remaining butterfat leaving the plant or in the closing inventories at the plant in the form of cream, sour cream, frozen cream, fluid cream products, Class II and Class III cultured or flavored milk drinks, frozen desserts, homogenized mixtures, cream cheese, butter, and, to the extent that cream or frozen cream is used in the manufacture of such products, from butterfat leaving the plant or in the closing inventories at the plant in the form of milk, concentrated fluid milk, plain condensed milk, evaporated milk, sweetened condensed milk, milk powder, other concentrated milk products, candy products, or other

cheese, except those to which the butter-cheese adjustment is applicable.

§ 927.171 *Cream: Step Ten.* Deduct remaining butterfat received in the form of cream from butterfat in products in which the handler claims to have used such butterfat. If any butterfat received in the form of cream remains, it shall be deducted from plant loss and classified as Class II.

§ 927.172 *Milk drinks: Step Three.* Deduct butterfat in opening inventories of packaged cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.173 *Milk drinks: Step Four.* Deduct butterfat received in the form of packaged cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat from butterfat leaving the plant or in the closing inventories at the plant in the form of packaged cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat. If such butterfat is pooled butterfat, it should be deducted, as far as possible, from Class I–A butterfat. If such butterfat is non-pooled butterfat, it should be deducted, as far as possible, pro rata from Class I–B and Class I–C butterfat. Deduct remaining butterfat in the opening inventories or received in the form of cultured or flavored milk drinks containing 3.0 percent butterfat or more but not more than 5.0 percent butterfat from products in which the handler claims to have used such butterfat.

§ 927.174 *Milk: Step One.* Deduct butterfat in the opening inventories in the form of packaged milk from the butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.175 *Milk: Step Two.* Deduct receipts of packaged milk pro rata from butterfat leaving the plant or in the closing inventories at the plant in the form of packaged milk.

§ 927.176 *Plant loss allowance; first process.* Add to the remaining butterfat leaving the plant or in the closing inventories at the plant in the form of:

(a) Packaged milk, 1.5 percent;

(b) Packaged Class I–A, I–B, I–C cultured or flavored milk drinks, 1.5 percent;

(c) Cream, 2.5 percent;

(d) Sour cream, 2.5 percent;

(e) Frozen cream, 2.5 percent;

(f) Concentrated fluid milk or plain condensed milk, 2.5 percent;

(g) Frozen desserts and homogenized mixtures, 2.5 percent;

(h) Evaporated milk, 2.5 percent;

(i) Sweetened condensed milk, 2.5 percent;

(j) Milk powder, 4.0 percent;

(k) Sweetened, part skim, condensed milk, 2.5 percent;

(l) Ice cream powder, 4.0 percent;

(m) Cream cheese, 2.5 percent;

(n) Butter, 2.5 percent;

(o) Fluid cream products, 2.5 percent;

(p) Cottage cheese with cream added, 2.5 percent;

(q) Whipped topping mixture, 2.5 percent;

Provided, That, if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the plant loss. Deduct such additions from the plant loss.

§ 927.177 *Milk drinks: Step Five.* Deduct remaining butterfat in the opening inventories of cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.178 *Milk drinks: Step Six.* Deduct butterfat received in the form of cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat from butterfat leaving the plant or in the closing inventories at the plant in the form of cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat. If such butterfat is pooled butterfat, it should be deducted, as far as possible, from Class I–A butterfat. If such butterfat is non-pooled butterfat, it should be deducted, as far as possible, from Class I–B or Class I–C butterfat. Deduct remaining butterfat in the opening inventories or received in the form of cultured or flavored milk drinks containing 3.0 percent butterfat or more but not more than 5.0 percent butterfat from products in which the handler claims to have used such butterfat. Deduct any remaining butterfat in cultured or flavored milk drinks of 3.0 percent butterfat or more but not more than 5.0 percent butterfat from plant loss and classify it as Class I–A.

§ 927.179 *Milk: Step Three.* Deduct butterfat in the opening inventories in the form of milk from butterfat leaving the plant or in the closing inventories at the plant in accordance with § 927.220.

§ 927.180 *Milk: Step Four.* Deduct a quantiy of butterfat, equal to the butterfat received in the form of milk from other plants and in the form of exempt milk, pro rata from the remaining butterfat leaving the plant or in the closing inventories at the plant: *Provided*, That, such deductions shall not be greater than the remaining butterfat leaving the plant or in the closing inventories at the plant.

§ 927.181 *Plant loss allowance; receiving station.* Add to remaining butterfat in all classes 1.0 percent: *Provided*, That, if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the plant loss. Deduct such additions from the plant loss. Classify any remaining plant loss as Class I–A.

§ 927.182 *Interchange between products.* Non-pooled butterfat in the form of milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream and fluid cream products deducted pursuant to §§ 927.140 through 927.181, and butterfat receipts from dairy farmers may be interchanged with pooled butterfat received in any one of the enumerated forms: *Provided*, That the butterfat to be interchanged has been deducted from the same products: *Provided, further*, That the quantity of butterfat to be interchanged shall not exceed any quantity necessary to avoid payments pursuant to § 927.78. Such interchange shall be between one or more classes on which payments pursuant to § 927.78 might be required and one or more other classes, the specific classes to be at the option of the handler.

ASSIGNMENT OF POOLED, NON-POOLED, AND EXEMPT BUTTERFAT AND SKIM MILK TO BUTTERFAT CLASSES AND SKIM MILK USES

§ 927.200 *Concentrated fluid milk or plain condensed milk assignment.* (a) Tabulate the classes of all butterfat received in the form of concentrated fluid milk or plain condensed milk (total of the butterfat deducted from the several classes pursuant to §§ 927.153 and 927.157, as such deductions are modified by any interchanges made pursuant to § 927.182), separately tabulating that part of Class III subject to the butter-cheese adjustment and that part of Class III not subject to the butter-cheese adjustment.

(b) Butterfat received in the form of non-pooled concentrated fluid milk or plain condensed milk shall be assigned pro rata, as far as possible, to Class I–B, Class I–C, Class III not subject to the butter-cheese adjustment and Class III subject to the butter-cheese adjustment which have been tabulated pursuant to paragraph (a) of this section. Any remaining non-pooled butterfat shall be assigned to Class II, as far as possible, and then to Class I–A.

(c) Classes of butterfat remaining after the assignments pursuant to paragraph (b) of this section may be interchanged with classes of butterfat remaining after the assignments pursuant to § 927.201 (b) and § 927.202 (c) which are based on the products covered by § 927.170.

(d) After the assignments pursuant to paragraphs (b) and (c) of this section at the option of the handler or handlers involved, butterfat in pooled concentrated fluid milk or plain condensed milk from other plants may be assigned to any of the remaining classes of butterfat received in the form of concentrated fluid milk or plain condensed milk.

§ 927.201 *Cream assignment.* (a) Tabulate the classes of all butterfat received in the form of cream (total of the butterfat deducted from the several classes pursuant to § 927.148, § 927.170 and § 927.171, as such deductions are modified by any interchanges made pursuant to § 927.182), separately tabulating that part of Class III subject to the butter-cheese adjustment and that part of Class III not subject to the butter-cheese adjustment.

(b) Butterfat received in the form of non-pooled cream shall be assigned pro rata, as far as possible, to Class I–B, Class I–C, Class III not subject to the butter-cheese adjustment and Class III subject to the butter-cheese adjustment which have been tabulated pursuant to paragraph (a) of this section. Any remaining non-pooled butterfat shall be assigned to Class II, as far as possible, and then to Class I–A.

(c) Classes of butterfat remaining after the assignments pursuant to paragraph (b) of this section may be interchanged with classes of butterfat remaining after the assignments pursuant to § 927.200 (b) and § 927.202 (c) which are based on the products covered by § 927.170.

(d) After the assignments pursuant to paragraphs (b) and (c) of this section, at the option of the handler or handlers involved, butterfat in pooled cream from other plants may be assigned to any of the remaining classes of butterfat received in the form of cream.

§ 927.202 *Milk assignment.* (a) Tabulate the classes of all butterfat received in the form of milk (total of the butterfat deducted from the several classes pursuant to § 927.175 and § 927.180, the butterfat resulting after the additions pursuant to § 927.181, and butterfat classified as Class I–A pursuant to § 927.181, as such deductions or additions are modified by any interchanges made pursuant to § 927.182), separately tabulating that part of Class III subject to the butter-cheese adjustment and that part of Class III not subject to the butter-cheese adjustment.

(b) Butterfat received in the form of non-pooled milk, including non-pooled milk from dairy farmers, shall be assigned pro rata, as far as possible, to Class I–B, Class I–C, Class III not subject to the butter-cheese adjustment and Class III subject to the butter-cheese adjustment, which have been tabulated pursuant to paragraph (a) of this section. Any remaining non-pooled butterfat shall be assigned to Class II, as far as possible, and then to Class I–A.

(c) Butterfat in exempt milk shall be assigned, after the assignment of paragraph (b) of this section, pro rata to the remaining classes of butterfat received in the form of milk.

(d) Classes of butterfat remaining after the assignments pursuant to paragraphs (b) and (c) of this section may be interchanged with classes of butterfat remaining after the assignments pursuant to § 927.200 (b) and § 927.201 (b) which are based on the products covered by § 927.170.

(e) After the assignments pursuant to paragraphs (b), (c), and (d) of this section, at the option of the handler or handlers involved, butterfat in pooled milk, from other plants may be assigned to any of the remaining classes of butterfat received in the form of milk.

(f) Compute the classification of milk received from producers by converting the pounds of butterfat in each class to pounds of milk equivalent of the average test of milk received from producers: *Provided*, That, in the case of plants handling breed milk or other special milk (such as hi-test), the butterfat in such special milk shall be converted to milk equivalent of the average test established for such special milk, and the remaining butterfat shall be converted to milk equivalent of the average test of the remaining milk.

§ 927.203 *Skim milk assignment.* (a) Pooled fluid skim milk (including exempt fluid skim milk) shall be assigned, as far as possible, to skim milk subject to the fluid skim differential.

(1) Exempt fluid skim milk shall be assigned pro rata to skim milk subject to the fluid skim differential and skim milk not subject to the fluid skim differential as tabulated pursuant to paragraph (a) of this section.

(2) Pooled skim milk from separate sources may be assigned at the option of the handler or handlers involved to either the skim milk subject to the fluid skim differential or the skim milk not subject to the fluid skim differential after the assignments pursuant to paragraph (a) and (a) (1) of this section.

(b) After the assignments pursuant to paragraph (a) of this section non-pooled fluid skim milk shall be assigned to any remaining skim milk subject to the fluid skim differential. Any remaining non-pooled fluid skim milk shall be assigned to skim milk not subject to the fluid skim differential.

§ 927.220 *Method of inventory accounting.* Butterfat or skim milk in closing inventories of milk, concentrated fluid milk or plain condensed milk, fluid milk products, fluid skim milk, cultured or flavored milk drinks, cream, sour cream and fluid cream products may be accounted for and classified by the handler at the time of filing reports in accord with § 927.50 in any of the products and classes in which it is intended that butterfat or skim milk in like products be assigned during the next month. Before classifying butterfat or skim milk received during the next month, the opening inventories of butterfat and skim milk shall be deducted from the products and classes, if any, leaving the plant, in which they were accounted for at the end of the preceding month. If there is not sufficient butterfat or skim milk in such products and classes leaving the plant, the remaining butterfat and skim milk in the opening inventories shall be assigned by the market administrator at the time of audit to other products and classes on hand at or leaving the plant, and the audit for the previous month shall be adjusted accordingly. Butterfat in opening inventories of cream which is allocated to butterfat in closing inventories of cream shall be classified as Class II. In the event that the opening inventories of any product were also opening inventories for the previous month, the butterfat in such product shall be deducted pro rata from the butterfat in all products and classes leaving the plant from which butterfat in like form could be deducted. If the butterfat in such products leaving the plant is less than the butterfat in such opening inventories, any remaining butterfat in such opening inventories shall be deducted pro rata from the butterfat in all products and classes in the closing inventories at the plant from which butterfat in like form could be deducted. In the event that an audit has not been necessary for the previous month, opening inventories shall be treated as receipts of non-pooled product.

CONVERSION FACTORS

§ 927.230 *Butterfat tests.* In the absence of specific butterfat tests the following table shall be used:

Product	Test in percent
Butter	80
Cream or fluid cream products (except New Jersey)	13

METHODS OF DETERMINING BUTTERFAT IN SPECIFIC PRODUCTS

§ 927.240 *Butterfat in frozen desserts.* The butterfat in a frozen dessert shall be assumed to be the same as the butterfat in the homogenized mixture or other basic mixture used in making such frozen desserts. In addition, the butterfat in cream used to standardize the homogenized mixture or other basic mixture, not to exceed 4.0 percent of the total butterfat in such mixture, may be included: *Provided*, That in the absence of butterfat tests the butterfat content of mixtures used to make sherbet shall be assumed not to exceed 1.0 percent.

§ 927.241 *Butterfat in homogenized mixtures.* (a) Determine the weight of the homogenized mixture. In the absence of specific weights, convert volume to weight by the use of the conversion factor in § 927.231.

(b) Determine the total amount of fat in the homogenized mixture on the basis of fat tests and the weight of the product.

(c) Determine the total amount of fat other than butterfat in the homogenized mixture on the basis of the fat content of the non-milk products used in the manufacture of the homogenized mixture.

(d) Determine the butterfat content of the homogenized mixture by subtracting from the total fat content of the homogenized mixture, the fat in the non-milk products used.

§ 927.242 *Butterfat in cultured and flavored milk drinks containing less than 3.0 percent or more than 5.0 percent butterfat.* The butterfat content of such products shall be assumed to be the same as the butterfat of the milk, cream, plain condensed milk, or whole milk powder used in making such product if such butterfat content appears reasonable in the light of the butterfat test of the product. In the absence of butterfat tests, the butterfat content of such products shall be assumed not to exceed 2.0 percent.

§ 927.243 *Butterfat in milk chocolate and other candy products.* The butterfat content of milk chocolate and other candy products shall be assumed to be the same as the butterfat in the milk, cream, or other milk product used in the manufacture of such products.

§ 927.244 *Butterfat in cheeses subject to the butter-cheese adjustment.* The butterfat content of cheeses subject to the butter-cheese adjustment (including the whey butterfat) shall be assumed to be the same as the butterfat content of the milk used in the manufacture of such cheeses: *Provided*, That, the yield of such cheese is reasonable in view of the butterfat content of the milk and the moisture content of the cheese.

§ 927.245 *Butterfat in other cheeses.* (a) The butterfat content of cheeses other than cream cheese and cheeses subject to the butter-cheese adjustment shall be assumed to be the same as the butterfat content of the milk, cream, or other cheese used in the manufacture of such cheese if such butterfat content appears reasonable in the light of the butterfat tests and yield of the cheese.

(b) In the absence of butterfat tests of creamed cottage cheese, the butterfat content of such cheese shall be assumed not to exceed 4.5 percent.

§ 927.246 *Butterfat in malted milk products.* The butterfat content of malted milk products shall be assumed to be the same as the butterfat in the products used in making such malted milk products.

§ 927.247 *Butterfat in frozen cream.* Leaving the plant or in the closing inventories at the plant. Butterfat will be considered to have left a plant or be in closing inventories at a plant in the form of frozen cream only if the butterfat is so identified in the handler's records that the place and time of separation can be ascertained. In the event that it is not so identified, it will be considered to have left the plant or be in the closing inventories at the plant in the form of cream rather than frozen cream.

BUTTERFAT IN BY-PRODUCTS

§ 927.260 *Butterfat in whey and whey products.* Butterfat on hand at or leaving the plant in the form of whey, whey cream, or whey butter, obtained from the manufacture of cheeses other than cream cheese, shall be classified the same as the butterfat in the cheese.

§ 927.261 *Butterfat in other products.* Butterfat in by-products of milk or milk product manufacturing or shipping operations except that classified pursuant to § 927.260 shall be considered plant loss. Such by-products shall include but not be limited to fluid skim milk obtained from the separator or churn, condensed by-products, powdered by-products, or rinsings.

ASSIGNMENT OF SPECIFIC BUTTERFAT RECEIVED OR IN THE OPENING INVENTORIES IN THE FORM OF FROZEN CREAM TO THE USES OF BUTTERFAT IN THE FORM OF FROZEN CREAM AT THE PLANT

§ 927.270 *Frozen cream; closing inventories.* Butterfat received or in the opening inventories in the form of frozen cream shall be assigned to butterfat leaving the plant or in the closing inventories at the plant in the form of frozen cream in accordance with its identification pursuant to § 927.247.

§ 927.271 *Frozen cream; April to September.* Remaining butterfat received or in the opening inventories in the form of frozen cream which frozen cream was obtained from milk separated in the months of April through September shall be prorated to uses of butterfat in the form of frozen cream as determined pursuant to §§ 927.162 through 927.167. The total butterfat derived from milk separated in each of the months shall be prorated separately.

§ 927.272 *Frozen cream; handler option.* After the proration pursuant to § 927.271 specific butterfat separated in any month may be assigned at the option of the handler or handlers involved to any of the uses to which the total butterfat separated in that month is assigned.

§ 927.273 *Frozen cream; pooled and non-pooled.* The total butterfat in frozen cream separated at a plant in any one month will be assumed to be pooled and non-pooled butterfat in the same proportion as pooled and non-pooled butterfat assigned pursuant to §§ 927.200 through 927.203 to total Class III at the plant in the month when the cream is separated.

§ 927.274 *Frozen cream to Class II.* Butterfat in frozen cream assigned to cream (either sweet or sour), classified as Class II, will be considered to be pooled butterfat to the extent available.

§ 927.275 *Frozen cream to butter.* Butterfat in frozen cream assigned to butter in any month for which storage cream payments may be applicable pursuant to § 927.77 (b) will be considered to be pooled and non-pooled butterfat in the same proportion as pooled and non-pooled butterfat in frozen cream, for the month in which it was separated, remaining after specific assignments of pooled and non-pooled butterfat to uses in previous months and assignments in the same month pursuant to § 927.274.

Issued this 29th day of May 1952.

C. J. BLANFORD,
Market Administrator.

Approval of Amended Rules and Regulations

Pursuant to the provisions of § 927.36 of Order No. 27, as amended (7 CFR, Part 927), regulating the handling of milk in the New York metropolitan milk marketing area, the tentatively amended rules and regulations issued on May 29, 1952 by the market administrator of said Order No. 27, as amended, to supersede

the rules and regulations heretofore issued (7 CFR, 927.101 et seq.), pursuant to the provisions of said Order No. 27, as amended, are hereby approved and shall be effective on and after the first day of July 1952.

Order No. 27, as amended, requires that such rules and regulations, and amendments thereto, become effective on the first day of the month following their approval by the Secretary of Agriculture. The changes effected by these amended rules and regulations to some extent tend to relieve restriction and otherwise do not require substantial or extensive preparation by handlers prior to their effective date. Furthermore, the said tentatively amended rules and regulations issued by the market administrator on May 29, 1952, were sent, on or about that date, to all handlers operating pool plants. In these circumstances, the time intervening between the date of approval of the tentatively amended rules and regulations and their effective date affords handlers a reasonable time to prepare for their effective date. It is, therefore, found and determined that July 1, 1952, herein fixed as the effective date for the said amended rules and regulations, is reasonable and proper in the circumstances and that to defer the effective date 30 days or more after publication in the FEDERAL REGISTER would be impracticable, unnecessary, and contrary to the public interest.

Done at Washington, D. C., this 24th day of June 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.433 *Plum Order 11*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.), in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 30, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952; after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 30, 1952; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 30, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship any package or container of Becky Smith plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed one hundred (100) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped for such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{15}/_{16}$ inches in diameter; (ii) at least ninety-five (95 percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.434 *Plum Order 12*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 30, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 18, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 18, 1952; after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 5, 1952; and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 30, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Duarte plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed twenty-five (25) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no under-shipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

[Bartlett Pear Order 1]

PART 936—FRESH BARTLETT PEARS, PLUMS AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.435 *Bartlett Pear Order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Bartlett Pear Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Bartlett pears, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 30, 1952. A reasonable determination as to the supply of, and the demand for, Bartlett pears must await the development of the crop and adequate information thereon was not available to the Bartlett Pear Commodity Committee until June 19, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such pears was made at the meeting of said committee on June 19, 1952, after consideration of all available information relative to the supply and demand conditions for such pears, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such pears are expected to begin on or about July 5, 1952; and this section should be applicable to all shipments of such pears in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 30, 1952, and ending at 12:01 a. m., P. s. t., December 1, 1952, no shipper shall ship any box or container of Bartlett pears unless:

(i) Such pears are well matured and grade, except with respect to shape, at least U. S. Combination Grade with not less than seventy-five (75) percent, by count, of the pears contained in such box or container grading at least U. S. No. 1: *Provided*, That pears which are not fairly well formed only because of short shape shall be deemed to be "fairly well formed;" and

(ii) Such pears are of a size not smaller than the size known commercially as size 180.

(2) Each shipper, prior to making each shipment of Bartlett pears, shall, during the period set forth in subparagraph (1) of this paragraph, have the pears included in each such shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Bartlett Pear Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Bartlett Pear Commodity Committee Federal-State shipping point inspection certificates stating the grades and sizes of the Bartlett pears contained in each such shipment: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnished the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Bartlett Pear Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all other provisions of this section applicable to such shipment.

(c) *Definitions.* (1) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(2) "Size known commercially as size 180" means a size Bartlett pear that will pack a standard pear box, packed in accordance with the specifications of a standard pack, with five tiers, each tier having six rows with six pears in each row, and with the twenty smallest pears weighing not less than five pounds.

(3) "Standard pear box" means the container so designated in section 828.3 of the Agricultural Code of California.

(4) "U. S. No. 1," "U. S. Combination "Grade," "fairly well formed," and "standard pack" shall have the same meaning as when used in the United States Standards for pears (summer and fall), 7 CFR 51.331.

(5) "Pears are well matured" means that the pears meet the maturity standards for Bartlett pears prescribed in section 804 of the Agricultural Code of California. *Provided*, That, (i) if the inspection is on the basis of the average pressure test, it does not exceed 21 pounds; (ii) if the inspection is on the basis of the soluble solids, it is not less than 14 percent; and (iii) if the inspection is on the basis of color, the pears show a distinctly yellowish-green color: *Provided further*, That, pears which have equivalent maturity, as determined by the Federal-State Inspection Service, may be passed as well matured.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

ORDER TERMINATING PLUM ORDERS 1 THROUGH 4

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of available information, it is hereby found that the limitation of shipments of early varieties of plums in accordance with the provisions of the plum orders hereinafter specified will, after the effective time hereof, no longer tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that the time intervening between the date when information upon which this order is based became available and the time when this termination order must become effective is insufficient; and this order relieves restrictions on the handling of early varieties of plums grown in the State of California.

(b) *Order.* The provisions of the following plum orders shall be terminated at 12:01 a. m., P. s. t., June 29, 1952.

Plum Order 1 (§ 936.422; 17 F. R. 4372).

Plum Order 2 (§ 936.423; 17 F. R. 4969).

Plum Order 3 (§ 936.424; 17 F. R. 4970).

Plum Order 4 (§ 936.425; 17 F. R. 4971).

Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen, or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of any of the said plum orders hereby terminated; or (2) as releasing or extinguishing any violation of any provision of any of the said plum orders hereby terminated which has occurred, or which, prior to the effective time of the provisions hereof, may occur.

[Docket No. AO 161-A13]

PART 941—MILK IN CHICAGO, ILL. MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 941.0 *Findings and determinations.* The findings and determinations herein-

after set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than July 1, 1952 this order amending the said order, as amended. This action is necessary in the public interest in order to reflect current marketing conditions, and to insure the production of an adequate supply of milk. Any further delay in the effective date of this order, as amended, and as hereby further amended, will seriously impair orderly marketing of milk in the Chicago, Illinois, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held March 11–14, 1952 and the decision having been executed by the Secretary on June 13, 1952. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative association of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended, and as hereby further amended, which is marketed within the Chicago, Illinois marketing area, refuse or failed to sign the marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the said order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who participated in a referendum on the question of approval of its issuance, and who, during the determined representative period (February 1952) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 941.51 and substitute therefor the following:

§ 941.51 *Supply and demand ratio.* On or before the last day of each delivery period the market administrator shall make the following computations based upon information obtained from handlers' reported receipts and utilization:

(a) Determine the total receipts of Grade A milk from all producers (including receipts from own farm production) for the most recent 12-month period.

(b) Determine the total pounds of Grade A milk actually utilized in Class I milk and Class II milk products during the most recent 12-month period and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period.

(c) Divide the amount obtained in paragraph (b) of this section by the amount obtained in paragraph (a) of this section and round to the nearest full percent, which resulting percentage shall be known as the "current supply-demand ratio".

(d) In making the computations specified in paragraphs (a) and (b) of this section, the market administrator shall use the reported receipts and utilization of handlers of Grade A milk under both Order 41 and former Order 69 (Suburban Chicago, Illinois, marketing area) when it is necessary to use data for delivery periods prior to July 1, 1951.

2. Delete § 941.52 (a) (1) and substitute therefor the following:

(a) *Class I milk.* (1) The price for Grade A Class I milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: May and June, $0.60; July, August, September, October, and November, $1.10; all others, $0.80; *Provided*, That such Class I price differential shall be increased or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio is greater or less than 72 percent.

3. Delete § 941.52 (b) (1) and substitute therefor the following:

(b) *Class II milk.* (1) The price for Grade A Class II milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: May and June, $0.40; July, August, September, October, and November, $0.70; all others, $0.50: *Provided*, That such Class II price differential shall be adjusted by the amount of any adjustment made in the Class I price differential for the same delivery period pursuant to the proviso of paragraph (a) (1) of this section.

[Lemon Reg. 440, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.547 (Lemon Regulation 440, 17 F. R. 5608) are hereby amended to read as follows:

(ii) District 2, 800 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 26th day of June 1952.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.548 *Lemon Regulation 441*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 25, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 29, 1952, and ending at 12:01 a. m., P. s. t., July 6, 1952 is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 650 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 26th day of June 1952.

Director, Fruit and Vegetable Branch, Production and Marketing Administration.

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in

certain designated counties in Idaho and in Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and amended order, and upon other available information, it is hereby found that the amended limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Irish potatoes grown in the area regulated by Order No. 57, as amended.

Order as amended. The provisions of subparagraph (3) of § 957.309 (b) (17 F. R. 5639) are hereby amended to read as follows:

(b) *Order.* * * *

(3) During the period beginning 12.01 a. m., m. s. t., June 26 1952, and ending 12:01 a. m., m. s. t., November 1, 1952, no handler shall ship (i) Russet Burbank potatoes which are more than "moderately skinned" as such term is defined in the U. S. Standards for Potatoes, which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, (ii) potatoes of the red skin varieties if more than 20 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, as such terms are used in the U. S. Standards for Potatoes, and (iii) potatoes of the White Rose variety if more than 35 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, as such terms are used in the U. S. Standards for Potatoes: *Provided*, That the grade and size requirements set forth in subparagraph (1) of this paragraph will be equally applicable to potatoes shipped under the maturity requirements set forth in this subparagraph: *Provided further*, That during such period not to exceed 200 hundredweight of each variety of such potatoes may be handled for any producer without regard to the aforesaid skinning requirements if the handler thereof reports, prior to such handling, the name and address of the producer of such potatoes, and each shipment hereunder is handled as an identifiable entity.

PART 974—MILK IN COLUMBUS, OHIO, MARKETING AREA

CORRECTION

In the order amending the order, as amended, regulating the handling of milk in the Columbus, Ohio, marketing area which was issued by the Secretary of Agriculture on March 31, 1952, and was published in the FEDERAL REGISTER on April 5, 1952 (17 F. R. 2968), the following correction should be made:

In § 974.51 (a) (2) the "standard utilization percentages" to be used in computing prices for January and December, which appear therein as "79" and "81," respectively, should be corrected to read "81" and "83," respectively.

Issued at Washington, D. C., this 25th day of June 1952.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Regs., Serial No. SR-382]

PART 40—AIR CARRIER OPERATING CERTIFICATION

PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; LONG DISTANCE DOMESTIC SCHEDULED AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 24th day of June 1952.

Special Civil Air Regulation SR-363 which terminates June 30, 1952, provides special operating rules for scheduled air carrier aircraft operating in long-distance domestic operations at altitudes in excess of 12,500 feet above sea level east of longitude 100° W. and at altitudes in excess of 14,500 feet above sea level west of longitude 100° W. At the time SR-363 was adopted it was anticipated that the revision of Parts 40 and 61, which will incorporate similar provisions, would be completed prior to June 30, 1952. Although the Bureau of Safety Regulation has been actively engaged in such revision, it has not yet been completed. It is therefore deemed desirable to extend the rules provided in SR-363 for long-distance domestic scheduled air carrier operations until June 30, 1953, or until such time as the proposed revision of Parts 40 and 61 may be completed.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter submitted. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board makes and promulgates the following Special Civil Air Regulation effective immediately:

Flights of scheduled air carriers while at altitudes in excess of 12,500 feet above sea level east of longitude 100° W. and 14,500 feet above sea level west of longitude 100° W. shall comply with the applicable provisions of the Civil Air Regulations except as follows:

(a) Such flights need not comply with the requirements of § 60.45, § 61.252, or any sections of Parts 40 and 61 concerning civil airways.

(b) Such flights need not comply with the requirements of §§ 60.21, 60.43, 60.47 and 61.171 (c), except to the extent which the Administrator may prescribe.

(c) Each pilot in command engaged in those operations shall be qualified for the route, if he is qualified for operations over any regular authorized route for the air carrier involved between the regular terminals for such operations.

(d) Each dispatcher who dispatches aircraft on flights authorized by this regulation shall be qualified under § 61.154 of the Civil Air Regulations for operation over an authorized route for the air carrier involved between the regular terminals of such operations: *Provided*, That when he is qualified only on a portion of such route he may dispatch aircraft only after coordinating the dispatch with dispatchers who are qualified for the other portions of the route between the points to be served.

This regulation supersedes Special Civil Air Regulation SR-363 and shall terminate June 30, 1953, unless sooner superseded or rescinded.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[Supp. 12]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

PREFLIGHT RESPONSIBILITIES

This supplement explains regulations of the Civil Aeronautics Board concerning preflight responsibilities of the pilot-in-command.

Sections 42.51-1 through 42.51-4, published on November 22, 1949, in 14 F. R 7040, are renumbered to be §§ 42.51-2 through 42.51-5, and a new § 42.51-1 is adopted to read:

§ 42.51-1 *Preflight responsibilities (CAA interpretations which apply to § 42.51 (a) and (b)).* In complying with § 42.51 (a) and (b)—particularly that portion requiring the pilot-in-command to familiarize himself with "the information necessary for the safe operation of the aircraft en route and on the airports or other landing areas to be used"—the pilot-in-command must, prior to origination of each flight review the en route procedures, radio navigational facilities, holding patterns, approach procedures, and letdown procedures for the airport of destination and the alternate airports, if any, for the proposed flight.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 604, 52 Stat. 1010, as amended; 49 U. S. C. 554)

This supplement shall become effective upon publication in the FEDERAL REGISTER.

Acting Administrator of Civil Aeronautics.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIOBITIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 146; 17 F. R. 3230) are amended as indicated below.

1. Part 141 is amended by adding the following new section:

§ 141.54 *Dibenzylethylenediamine dipenicillin G for aqueous injection*—(a) *Potency.* Proceed as directed in § 141.47 (a). Its potency is satisfactory if it contains not less than 90 percent of the number of units that it is represented to contain.

(b) *Sterility.* Proceed as directed in § 141.2.

(c) *Moisture (dry mixture of the drug).* Proceed as directed in § 141.26 (e).

(d) *Pyrogens.* Proceed as directed in § 141.47 (d).

(e) *Toxicity.* Proceed as directed in § 141.47 (c).

(f) *pH*—(1) *Dry mixture of the drug.* Proceed as directed in § 141.47 (f).

(2) *Aqueous suspension of the drug.* Proceed as directed in § 141.47 (f), using the undiluted aqueous suspension.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

2. In § 146.34 *Tablets aluminum penicillin,* subparagraph (1) (iv) of paragraph (c) *Labeling,* change the figure "12" to read "24".

3. In § 146.47 *Procaine penicillin for aqueous injection,* paragraph (b) *Packaging,* fifth sentence, change the figure "10 milliliters" to read "12 milliliters".

4. In § 146.51 *Buffered penicillin powder* * * *, subparagraph (1) (vi) of paragraph (c) *Labeling,* change the figure "18" to read "24".

5. Part 146 is further amended by adding the following new section:

§ 146.77 *Dibenzylethylenediamine dipenicillin G for aqueous injection*—(a) *Standards of identity, strength, quality, and purity.* Dibenzylethylenediamine dipenicillin G for aqueous injection is a dry mixture of dibenzylethylenediamine dipenicillin G and one or more suitable and harmless suspending or dispersing agents and with or without one or more suitable and harmless preservatives, buffer substances, and local anesthetics; or it is an aqueous suspension of dibenzylethylenediamine dipenicillin G and one or more suitable and harmless suspending or dispersing agents, buffer substances, and preservatives and with or without one or more suitable and harmless local anesthetics. It is so purified that:

(1) If it is an aqueous suspension of the drug, each container or each milliliter shall contain not less than 300,000 units.

(2) It is sterile.

(3) If it is the dry mixture of the drug, its moisture content is not more than 8 percent.

(4) It is nonpyrogenic.

(5) It is nontoxic.

(6) Its pH in saturated solution is not less than 5.0 and not more than 7.5.

The dibenzylethylenediamine dipenicillin G used conforms to the requirements of § 146.68 (a). Each other substance use, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate containers shall be tight containers as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying such seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. In case it is packaged for dispensing, it shall be in immediate containers of colorless, transparent glass, closed by a substance through which a hypodermic needle may be introduced and withdrawn without removing the closure or destroying its effectiveness. If it is the dry mixture of the drug, each such container shall contain 300,000 units, 600,000 units, 900,000 units, 1,200,000 units, 1,500,000 units, 2,400,000 units, or 3,000,000, unless it is intended solely for veterinary use and is conspicuously so labeled. Each such container may be packaged in combination with a container of a suitable aqueous diluent. If it is the aqueous suspension of the drug, each such container shall contain not less than 1 milliliter (unless it is packaged to contain a single dose) and not more than 10 milliliters (unless it is intended solely for veterinary use and is conspicuously so labeled), and each shall be filled with a volume in excess of that designated, which excess shall be sufficient to permit the withdrawal and the administration of the volume indicated, whether administered in either single or multiple doses.

(c) *Labeling.* Each package shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of units in the immediate container.

(iii) The statement "Expiration date ----------," the blank being filled in, if it is a dry mixture of the drug, with the date which is 24 months, or if it is the aqueous suspension of the drug, with the date which is 18 months after the month during which the batch was certified.

(iv) The statement "For intramuscular use only."

(v) If the drug contains preservatives or anesthetics, the name and quantity of each such added ingredient.

(2) On the outside wrapper or container:

(i) If it is the aqueous suspension of the drug, the statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)," unless the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section after having been stored at room temperature.

(ii) The statement "Caution: Federal law prohibits dispensing without prescription."

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing, adequate directions for use and warnings as required by section 502 (f) of the act, including:

(i) Clinical indications.

(ii) Dosage and administration, including method of preparing the drug for injection.

(iii) If it is the dry mixture of the drug, the conditions under which suspensions made from such drug should be stored, and the statement "Sterile suspension may be kept at room temperature for 1 week, or in refrigerator for 3 weeks, without significant loss of potency."

(iv) Contraindications.

(v) Untoward effects that may accompany administration, including sensitization.

If two or more immediate containers are in such package, the number of such circulars or other labeling shall not be less than the number of such containers.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of dibenzylethylenediamine dipenicillin G for aqueous injection shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the dibenzylethylenediamine dipenicillin G used in making such batch was completed, the number of units in each of such packages, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and a statement that each ingredient used in making the batch conforms to the requirements prescribed therefor, if any, by this section. If such batch, or any part thereof, is to be packaged with a solvent, such request shall also be accompanied by a statement that such solvent conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (5) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch: potency, sterility, moisture (unless it is an aqueous suspension of the drug), pyrogens, toxicity, *p*H.

(ii) The dibenzylethylenediamine dipenicillin G used in making the batch: potency, penicillin G content, crystallinity.

(3) Except as otherwise provided by subparagraph (5) of this paragraph, if such batch is packaged for dispensing, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch:

(*a*) For all tests except sterility: one immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 or more than 17 immediate containers.

(*b*) For sterility testing: 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The dibenzylethylenediamine dipenicillin G used in making the batch; three packages containing approximately equal portions of not less than 500 milligrams each, packaged in accordance with the requirements of § 146.68 (b).

(iii) In case of an initial request for certification, each other ingredient used in making the batch; one package of each containing approximately 5 grams.

(iv) In case of an initial request for the certification of a batch of dibenzylethylenediamine dipenicillin G for aqueous injection which is to be packaged in combination with an aqueous diluent which is not recognized by the U. S. P., or when any change is made in the composition of such diluent, five packages of the diluent included in the combination.

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility: 10 packages.

(ii) For sterility testing: 10 packages.

Each such package shall contain not less than approximately 300 milligrams taken from different parts of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

(5) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (*ii*), (*iii*), (iv), and (4) (i) of this section.

(2) If the Commissioner considers that investigations, other than examination of such immediate containers, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

This order, which provides for tests and methods of assay and certification of dibenzylethylenediamine dipenicillin G for aqueous injection; for a change in the expiration date for tablets aluminum penicillin from 12 months to 24 months; for a change in the expiration date for Buffered penicillin powder from 18 months to 24 months; and for a change in the maximum packaging requirement of procaine penicillin for aqueous injection from 10 milliliters to 12 milliliters (unless it is packaged for veterinary use and is conspicuously so labeled), shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with the affected industry and since it would be against public interest to delay providing for the changes set forth above.

Dated: June 24, 1952.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Amdt. 11 to Supplementary Regulation 12]

CPR 22, SR 12—EXTENSION OF EFFECTIVE DATE FOR PARTICULAR COMMODITIES

DELETION OF POWER AND HAND LAWN MOWERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 11 to Supplementary Regulation 12 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment deletes "Lawn Mowers, power and hand" from the list of commodities included in Supplementary Regulation 12, Ceiling Price Regulation 22.

The Office of Price Stabilization has recently completed a financial survey of the lawn mower industry. The survey was instituted as a result of information submitted by industry members at an Industry Advisory Committee meeting, which indicated that increases in labor and material costs incurred after the "cut-off" dates fixed in CPR 22 might bring industry earnings below the minimum prescribed by the "industry earnings standard" of the so-called "Johnston Formula". The industry earning standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the dollar profits of the industry amount to 85 percent of the average for the industry's best three years during the period 1946–1949 inclusive, with adjustments made for any changes in net worth.

Financial data were obtained from a representative group of manufacturers of power and hand lawn mowers. An analysis of these data reveals that the ratio of profit to net worth for this industry is greater than 85 percent of the 1946–1949, inclusive, despite the increases in labor and materials cost.

Pending completion of the survey, power and hand lawn mowers were included in SR 12 to CPR 22. This was an interim measure until it could be determined whether or not a tailored regulation for the industry was necessary to satisfy the earnings standard. The result of the recent survey establishes that such a regulation is not required. Consequently, there is no reason for keeping lawn mowers under SR 12. The level of ceiling prices under CPR 22 appears to be high enough so that no ceiling price increase is required under the industry earnings standard.

After July 31, 1952, Ceiling Price Regulation 22, with its election privileges for small manufacturers, shall apply to the sale by manufacturers of hand and power lawn mowers.

In view of the nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Subparagraph 24 of Section 1 (b) of Supplementary Regulation 12 to Ceiling Price Regulation 22 is deleted.

[Ceiling Price Regulation 22, Supplementary Regulation 29]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 29—CEILING PRICES FOR SEMI-VITREOUS DINNERWARE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 29 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes new ceiling prices for manufacturers of semi-vitreous dinnerware at a higher level than those previously in effect.

The Office of Price Stabilization has recently completed a financial survey of the semi-vitreous dinnerware industry. The survey was undertaken as the result of information submitted by industry members, at an Industry Advisory Committee Meeting, which indicated that the level of ceiling prices hitherto in effect for this industry was below the minimum prescribed by the "industry earnings standard" (the so-called "Johnston Formula"). The industry earnings standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the dollar profits of the industry amount to 85 percent of the average return on net worth for the industry's best three years during the period 1946–1949 inclusive. Financial data was obtained from a representative group of manufacturers in the semi-vitreous dinnerware industry, whose total sales represent over 95 percent of the industry's annual volume. Based upon these computations, the Director of Price Stabilization has determined that in order for the dollar profits of the industry to meet the industry earnings standard, ceiling prices for this industry would have to be established 6.25 percent above the present level of selling prices. Such ceiling prices would be generally fair and equitable. Accordingly, this supplementary regulation establishes ceiling prices for manufacturers of semi-vitreous dinnerware which are 106.25 percent of their highest selling prices since September 1, 1951.

This supplementary regulation applies only to manufacturers who have previously established ceiling prices under CPR 22. However, a supplementary regulation to the General Ceiling Price Regulation is being issued simultaneously herewith, which provides a corresponding adjustment for manufacturers subject to that regulation.

Manufacturers continue to have the election to determine their ceiling prices under the various regulations that were issued pursuant to the so-called "Capehart Amendment". If they do so, however, they may not use this supplementary regulation.

In the formulation of this supplementary regulation the Director has consulted with representatives of the industry, including trade association representatives and the Industry Advisory Committee, and has given consideration to their recommendations. In the judgment of the Director, the provisions of this supplementary regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices for semi-vitreous dinnerware dealt in between September 1, 1951 and June 27, 1952, inclusive.
3. Ceiling prices for semi-vitreous dinnerware which cannot be determined under section 2.
4. Reports.
5. Relationship of this supplementary regulation to other adjustment regulations.

AUTHORITY: Sections 1 through 5 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes ceiling prices for sales by manufacturers of semi-vitreous dinnerware, replacing those previously established under sections 3 and 30 to 34 inclusive, of Ceiling Price Regulation 22, and Supplementary Regulation 2. CPR 22. All provisions of CPR 22 not inconsistent with this supplementary regulation remain in effect.

SEC. 2. *Ceiling prices for semi-vitreous dinnerware dealt in between September 1, 1951 and June 27, 1952, inclusive.* (a) Your ceiling price for sale of a semi-vitreous dinnerware product is 106.25 percent of the highest price at which you delivered it or, if you did not deliver it, at which you offered it for delivery, between September 1, 1951 and June 27, 1952 to a purchaser of the same class. If your highest price during this period exceeded the applicable ceiling price, your ceiling price under this regulation is 106.25 percent of the ceiling price in effect at the time you received your highest price.

(b) A ceiling price established under this section must be consistent in every respect with your CPR 22 ceiling price for the same semi-vitreous dinnerware product. It must carry the same delivery terms, cash, trade and volume discounts, allowances, premiums and extras, deductions, guarantees and other terms and conditions of sale.

SEC. 3. *Ceiling prices for semi-vitreous dinnerware which cannot be determined under section 2.* If you are unable to establish a ceiling price for any sale of semi-vitreous dinnerware under section 2 of this supplementary regulation, you must establish such ceiling price in accordance with section 30, 31, 32, 33 or 34 of CPR 22. Sections 30 and 32 require you to determine a ceiling price by reference to the ceiling price of another commodity, called here for convenience, your "reference commodity". In applying sections 30 or 32, use as the ceiling price of the "reference commodity" a ceiling price determined under this supplementary regulation.

SEC. 4. *Reports.* Prior to using this supplementary regulation you must have complied with the reporting requirements of sections 46 and 48, CPR 22. If you have filed an OPS Public Form No. 8 in compliance with these sections of CPR 22, you need not amend your Form 8 to reflect the adjustment authorized by this supplementary regulation.

SEC. 5. *Relationship of this supplementary regulation to other adjustment regulations.* Notwithstanding any provisions of this supplementary regulation, you may elect to use Supplementary Regulations 17 or 18 to Ceiling Price Regulation 22 or GOR 20 to establish your ceiling prices for semi-vitreous dinnerware. If you so elect, you may not use the provisions of this supplementary regulation.

Effective date. The effective date of this supplementary regulation is June 27, 1952.

NOTE: The record keeping and reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

CPR 25—REVISED CEILING PRICES OF BEEF ITEMS SOLD AT RETAIL

Due to typographical errors, Item 13 of Amendment 4 to this regulation lists Zone 13 instead of Zone 3 under the heading for Section 42 (b) and Item 14 of Amendment 4 to this regulation lists Zone 15 instead of Zone 16 under the heading for Section 42 (c). Accordingly, the heading under Section 42 (b) in Item 13 is corrected by deleting Zone 13 therefrom and substituting therefor Zone 3 and the heading under Section 42 (c) in Item 14 is corrected by deleting Zone 15 therefrom and substituting therefor Zone 16.

CPR 72—MIXED FERTILIZER AND FERTILIZER MATERIALS SOLD IN PUERTO RICO BY MIXERS AND PACKAGERS

EXTENDING GEOGRAPHIC COVERAGE TO THE TERRITORY OF HAWAII

Pursuant to the Defense Production Act of 1950, as amended, (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 2 to Ceiling Price Regulation 72 is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 72, which was issued September 5, 1951, establishes ceiling prices for mixed fertilizer and fertilizer materials sold in Puerto Rico by mixers and packagers. This regulation provides for the quarterly recomputation of ceiling prices to reflect changes in direct and indirect costs.

This amendment to CPR 72 extends the geographical coverage of that regulation to the Territory of Hawaii.

There is in Hawaii one producer of fertilizer. Since the fertilizer is processed in the Territory of Hawaii, the ceiling price for its sale is established by the General Ceiling Price Regulation. The GCPR establishes ceiling prices on the basis of the highest prices in effect during the base period, December 19, 1950 to January 25, 1951. Since that time, however, there have been substantial increases in the cost of fertilizer materials purchased from the mainland. The use of this regulation instead of the GCPR will make it possible for the Hawaii processor to reflect those increases in cost in determining his ceiling price, and will, therefore, ease the squeeze on the margin of the Hawaii processor.

The Office of Price Stabilization has conferred with the Hawaii processor and full consideration has been given to his recommendations. In the opinion of the Director, this regulation is necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 72 is amended in the following respects:

1. The title of CPR 72 is changed to read "Mixed Fertilizer and Fertilizer Materials sold in Puerto Rico and in the Territory of Hawaii by Mixers and Packagers."

2. Section 2 of CPR 72 is amended to read:

SEC. 2. *Geographical applicability.* The provisions of this regulation shall apply in Puerto Rico and in the Territory of Hawaii.

3. Section 3 (a) of CPR 72 is amended to read:

(a) On and after the effective date of this regulation, regardless of any contract, agreement, or other obligation, no manufacturer shall sell or deliver, and no person shall buy or receive from such manufacturer in the course of trade or business, any mixed fertilizer materials in Puerto Rico or in the Territory of Hawaii at a price higher than the ceiling prices established by this regulation, and no person shall offer, solicit or attempt to do any of the foregoing.

4. Section 4 (c) of CPR 72 is amended to read as follows:

(c) *Mixed Fertilizer.*—(1) *Puerto Rico.* The term "mixed fertilizer" as it is used in Puerto Rico, means any mixture of fertilizer materials containing two or more of the essential plant nutrients in the proportion specified by the Department of Agriculture and Commerce of Puerto Rico.

(2) *Hawaii.* The term "mixed fertilizer" as it is used in Hawaii, means any mixture of fertilizer materials containing two or more essential plant nutrients.

5. Section 11 (b) is amended to read as follows:

(b) *Reports.* You must file with the Territorial Office of Price Stabilization for Puerto Rico or for Hawaii, as the

case may be, within the time indicated, the following data:

(1) Base period prices must be filed by September 30, 1951, by mixers and packagers in Puerto Rico, and by June 30, 1952, by mixers and packagers in Hawaii.

(2) Base cost must be filed by September 30, 1951, by mixers and packagers in Puerto Rico, and by June 30, 1952, by mixers and packagers in Hawaii.

(3) Current ceiling prices must be filed within 5 days from each computation date.

(Sec. 704, 64 Stat. 816, as amended: 50 U. S. C. App. Sup., 2154)

Effective date. This Amendment 2 to Ceiling Price Regulation 72 is effective July 2, 1952.

[Ceiling Price Regulation 151]

CPR 151—APPALACHIAN HARDWOOD LUMBER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 151 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes specific dollars-and-cents ceiling prices at the manufacturing level for hardwood lumber produced in the Appalachian Hardwood Region, which consists of the State of West Virginia and parts of the states of Georgia, Kentucky, Maryland, North Carolina, South Carolina, Tennessee, and Virginia. The hardwood lumber covered by this regulation is produced from deciduous trees, the most important of which are tough ash, birch, cherry, and hard and soft maple; and the soft-textured woods, viz. basswood, red and white oaks, and poplar.

The Appalachian hardwood lumber industry consists of some 7,000 mills, most of which are small operations producing less than one million board feet per year. A substantial part of the total production is from a relatively few integrated companies which turn out rough and surfaced lumber, and various lumber products. The total output of the hardwood industry in this area, according to the Census of Manufacturers in 1947, was 1.3 billion board feet, which was over 17 percent of the total hardwood lumber production in the United States. Approximately one-third of the lumber produced in the Appalachian Hardwood Region is consumed by its own woodusing industries and by construction users within the region.

Ceiling prices are set at the mill level on an f. o. b. mill basis. The regulation also provides for sales on a delivered basis, in which case established weights set forth in this regulation must be applied in computing transportation additions. A table of percentages is given for use in computing the weights of kiln-dried, surfaced, and resawn lumber.

Four price zones are established based on freight rates to the Northern markets. Zone 1 is the zone of maximum freight rates. Most of the ceiling prices in each of Zones 2, 3 and 4 increase $2.00 per thousand feet progressively as the freight rates decrease for each zone. These zones are established in recognition of historical differentials in prices at the mill level.

The regulation requires that the lumber covered be graded in accordance with the 1952 "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers and Thin Lumber," published by the National Hardwood Lumber Association.

Pending the issuance of an applicable service regulation, lumber sold surfaced, resawn, and/or kiln-dried may include a charge not to exceed the highest amount added for such services in a sale to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

Lumber sold on specifications for special widths and/or lengths may include a charge not to exceed the highest amount added for such special sizes in a sale to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

The ceiling price of each of several items stated in the regulation for which dollars-and-cents ceiling prices are not shown is the highest price charged for each item to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

The provision in the regulation permitting an addition for commission-type sales is similar to provisions contained in several other lumber regulations already issued by OPS. However, some question has been raised as to the justification for this provision. OPS is giving the matter further study and will consult further with industry representatives regarding it. If any changes are found to be necessary they will be made simultaneously with respect to all lumber regulations.

Provision is made for additions to ceiling prices for retail-type sales, mixed shipments, less than carload lot shipments, bundling, stenciling, and anti-stain treatment. These additions are included in this tailored regulation in order to insure continuation of standard industry practices under price control.

By establishing dollars and cents ceilings for the various species, grades, and sizes of green and air-dried hardwood lumber at the prevailing level of the GCPR ceilings, this regulation eliminates the distorted pattern frozen under the GCPR and establishes ceiling prices at a level which is not inflationary, and yet which should be high enough to insure production adequate for the needs of the defense mobilization program. This level of lumber prices is not below the lower of (a) the level of such prices prevailing just before the issuance of this regulation, or (b) the level of such prices prevailing during the period January 25, 1951, through February 24, 1951.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objective of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24 to June 24, 1950, inclusive; to prices prevailing from January 25 to February 24, 1951, inclusive; and to prices prevailing just before the issuance of this regulation; and to relevant factors of general applicability.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included two meetings with the Appalachian Hardwood Industry Advisory Committee, and two meetings with a subcommittee thereof.

Every effort has been made to conform this regulation to business practices existing in the Appalachian Hardwood Region with respect to the production, sale, and distribution of hardwood lumber produced in that area. Insofar as any provisions of this regulation may operate to compel changes in these business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

ARTICLE I—COVERAGE

SECTION 1.1 *What this regulation does.* This regulation establishes manufacturers' dollars and cents ceiling prices for most standard grades and items of dry and green rough hardwood lumber produced in the Appalachian Hardwood Region (as defined in section 1.3). The regulation also provides ceiling prices for special items.

SEC. 1.2 *Which regulation is superseded.* Except as otherwise provided in section 7.4 (a), the General Ceiling Price Regulation is superseded in respect to all transactions covered by this regulation.

SEC. 1.3 *Items, species, and area of production covered.* (a) This regulation covers all hardwood lumber produced in the Appalachian Hardwood Region. It does not cover items fabricated from lumber such as flooring, hand rails, mouldings, step treads and thresholds, and sawn timbers such as cross ties, mine ties, switch ties, mine material, navy oak ship stock, and small dimension stock.

(b) The term "hardwood lumber" refers to all lumber produced from broad-leaved deciduous trees, and specifically includes the following species: Tough ash (Fraxinus americana), Basswood (Tilia americana), Beech (Fagus grandifolia), Birch (Betula lutea), Buckeye (Aesculus octandra), Butternut (Juglans cinerea), Cherry (Prunus serotina), Chestnut (Castanea dentata), Elm (Ulmus sp.), Black gum (Nyssa sylvatica), Hickory (Carya sp.), Hard maple (Acer saccharum), Soft maple (Acer rubrum), Red oak (Quercus sp.), White oak (Quercus sp.), Poplar (Liriodendron tulipifera), Sycamore (Platanus occidentalis), and Walnut (Juglans nigra).

(c) The term "Appalachian Hardwood Region" refers to an area which includes West Virginia; the following counties in Kentucky: Bell, Boyd, Breathitt, Carter, Clay, Clinton, Cumberland, Elliott, Estill, Floyd, Harlan, Jackson, Johnson, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, McCreary, Magoffin, Martin, Menifee, Monroe, Morgan, Owsley, Perry, Pike, Powell, Pulaski, Rockcastle, Rowan, Russell, Wayne, Whitley, and Wolfe; the following counties in Tennessee: Anderson, Bledsoe, Blount, Bradley, Campbell, Cannon, Carter, Claiborne, Clay, Cocke, Coffee, Cumberland, De Kalb, Fentress, Franklin, Grainger, Green, Grundy, Hamblen, Hamilton, Hancock, Hawkins, Jackson, Jefferson, Johnson, Knox, Loudon, McMinn, Marion, Meigs, Monroe, Morgan, Overton, Pickett, Polk, Putnam, Rhea, Roane, Scott, Sequatchie, Sevier, Smith, Sullivan, Unicoi, Union, Van Buren, Warren, Washington, and White; the following counties in Georgia: Dawson, Fanning, Gilmer, Habersham, Lumpkin, Pickens, Rabun, Stephens, Towns, Union, and White; the following counties in South Carolina: Greenville, Oconee, and Pickens; the following counties in North Carolina: Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Cleveland, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Surry, Swain, Transylvania, Watauga, Wilkes, and Yancey; the following counties in Virginia: Albemarle, Alleghany, Amherst, Augusta, Bath, Bedford, Bland, Botetourt, Buchanan, Carroll, Clarke, Craig, Dickenson, Fauquier, Floyd, Franklin, Frederick, Giles, Grayson, Greene, Highland, Lee, Loudoun, Madison, Montgomery, Nelson, Page, Patrick, Pulaski, Rappahannock, Roanoke, Rockbridge, Rockingham, Russell, Scott, Shenandoah, Smyth, Tazewell, Warren, Washington, Wise, and Wythe; and the following counties in Maryland: Allegany, Frederick, Garrett, and Washington.

SEC. 1.4 *Sellers and transactions covered.* (a) This regulation applies to every sale by manufacturers of the lumber covered by this regulation, whether effected directly, or through lumber commission salesmen, and whether the sale is made to a wholesaler, retailer, industrial user, or to any other consumer or reseller. Section 4.1 of this regulation provides an addition to cover the services of a lumber commission salesman. Supplementary Regulation 87 to the General Ceiling Price Regulation establishes a formula for determining wholesalers' and other resellers' markups which may be added to manufacturers' selling prices. The ceiling prices for export sales are covered by Ceiling Price Regulation 61, except as otherwise set forth in section 5.1 (a) (3) of this regulation.

(b) The term "manufacturer" includes sawmills, planing mills, and concentration yards. Sawmills are establishments producing rough lumber from logs by sawing. Planing mills are establishments surfacing lumber by planing. Concentration yards are establishments which receive rough lumber chiefly in green condition from several manufacturers; prepare it for commercial shipment by grading, resorting, drying, planing, resawing, or other processing; and sell their lumber chiefly to large industrial users, resellers, or building contractors.

The term "lumber commission salesman" is defined in section 4.1.

SEC. 1.5 *Geographical applicability.* Every manufacturer's sale for delivery (f. o. b. mill or on a delivered basis) in the forty-eight states of the United States and the District of Columbia, is subject to this regulation, whether or not the sale of the lumber is made in the United States.

SEC. 1.6 *How to determine your ceiling prices.* (a) This section furnishes a general guide as to how to determine your ceiling prices under this regulation. It also shows how ceiling price provisions of this regulation are related to each other.

(b) The basic ceiling prices established in Article III of this regulation are f. o. b. mill ceiling prices. Additions to these ceiling prices may be made under the circumstances shown in the table below:

Additions	*Where shown in regulation*
Zone differentials based on proximity to key Northern markets	Article II.
Shipments in straight or mixed cars of No. 1 Common or Better grades	Section 3.1
Special widths and lengths	Section 3.2.
Sales through lumber commission salesmen	Section 4.1.
Retail-type sales	Section 4.2.
Special services required	Article V.
Sales on a delivered basis	Section 6.2.
Mixed car shipments	Section 6.3.

(c) The ceiling prices for various standard grades and items of lumber subject to this regulation are shown in section 3.1; for Bending Oak and other listed grades, in section 3.3; for dunnage, in section 3.4; for tie siding, in section 3.5; for construction boards, in section 3.6; for residue lumber, in section 3.7; for ungraded lumber, in section 3.8; and for lumber that is kiln-dried, resawn, and/or surfaced, in section 3.9. Note that under certain circumstances described in section 6.5 your ceiling prices as otherwise determined under this regulation are reduced by a discount for cash.

ARTICLE II—ZONE DIFFERENTIALS

SEC. 2.1 *Freight rate groups.* (a) Mills covered by this regulation are divided into four groups, and different f. o. b. mill ceiling prices are made applicable to each group. These groupings are based on freight rates from the mills to Cleveland, Ohio. The freight rates referred to in this section are those in effect on the effective date of this regulation. Changes in freight rates after the effective date of this regulation will not affect the group classification of a mill.

Group 1 mills—Mills for which the rail freight rate to Cleveland, Ohio, is 60 cents per cwt. or greater.

Group 2 mills—Mills for which the rail freight rate to Cleveland, Ohio, is from 53 cents per cwt. up to but not including 60 cents per cwt.

Group 3 mills—Mills for which the rail freight rate to Cleveland, Ohio, is from 46 cents per cwt. up to but not including 53 cents per cwt.

Group 4 mills—Mills for which the rail freight rate to Cleveland, Ohio, is less than 46 cents per cwt.

(b) For mills located in the groups described in paragraph (a) of this section, the f. o. b. mill ceiling prices established in Sections 3.1, 3.5, 3.6 and 3.7 for lumber of all species, grades, and thicknesses, with the exception of Hard

Maple, Red Oak, and White Oak in No. 2 Common or lower grades, are subject to the following additions per thousand feet:

For Group 1 mills—No addition.
For Group 2 mills—$2.00.
For Group 3 mills—$4.00.
For Group 4 mills—$6.00.

ARTICLE III—CEILING PRICES

SEC. 3.1. *Graded rough hardwood lumber.* The ceiling prices f. o. b. mill and the established air-dried weights for standard grades of rough hardwood lumber in random widths and lengths, produced in the Appalachian Hardwood Lumber Region, are as follows: (All prices shown are per thousand feet.)

(1) FIRM TO TOUGH ASH

SEC. 3.2. *Special widths and lengths.* Your ceiling price f. o. b. mill, when not specifically stated elsewhere in this regulation, for lumber covered by this regulation of special width and/or length, is determined as follows:

(a) Take the f. o. b. mill ceiling price of the standard item of the same species, grade and thickness for which a dollars-and-cents ceiling price is set forth in this regulation, and add thereto the highest amount or amounts which you added for such special width and/or length to the price of the same standard item in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951 through February 24, 1951.

(b) If you did not sell or contract to sell lumber of the same species, grade, and thickness with the special width and/or length during the period January 25, 1951 through February 24, 1951, take the f. o. b. mill ceiling price of the standard item of the same species, grade, and thickness for which a dollars-and-cents ceiling price is set forth in this regulation, and add thereto the highest amount or amounts which you added for such special width and/or length to the price of the most nearly comparable standard item in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951 through February 24, 1951.

SEC. 3.3. *Bending Oak and other listed grades.* Your ceiling price f. o. b. mill for any item of lumber covered by this regulation within any of the grades or combination of grades listed below, when not specifically stated elsewhere in this regulation, is the highest f. o. b. price at which you sold or contracted to sell such item to a purchaser of the same class during the period January 25, 1951, through February 24, 1951:

Bending Oak
Bridge plank and crossing plank
Common dimension
Freight car stock
Milpak
Mine car lumber
Select car stock
Select dimension
Sound square edge
Timbers

NOTE: In determining your ceiling prices under this section, you may not add a zone differential as provided in section 2.1.

SEC. 3.4. *Dunnage.* Dunnage ceiling prices, which include all charges for delivery to ports, are as follows:

Port of delivery	Ceiling delivered prices per thousand feet
Corpus Christi, Tex	$39.00
Houston, Tex	39.00
Galveston, Tex	39.00

No. 3	55	33	60	36	65	39	70	42	75	45

SEC. 3.7 *Residue sales.* The ceiling price for residue ungraded lumber is $30.00 per thousand feet f. o. b. mill. The term "residue ungraded lumber" is the below-grade lumber commonly called "culls" or "scoots."

SEC. 3.8. *Ungraded hardwood lumber.* When lumber covered by this regulation is sold ungraded as log run, mill run, No. 1 Common and Better, or any other combination of grades, the ceiling price for the entire shipment shall be the ceiling price for the lowest priced species and grade included in the shipment. If any of the lumber so sold is shipped green, the ceiling price of all lumber in the shipment shall be the ceiling price for green lumber of the lowest priced species and grade included in the shipment.

SEC. 3.9. *Kiln-dried, resawn, and surfaced lumber.* If you sell lumber subject to this regulation which is kiln-dried, resawn, and/or surfaced in accordance with the purchaser's specification, your ceiling price f. o. b. mill for such lumber is determined by taking the applicable f. o. b. mill ceiling prices for air-dried rough lumber set forth in this regulation, and adding thereto the highest amount or amounts which you added for such kiln-drying, resawing, and/or surfacing in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951. The provisions of this paragraph are to apply until such time as specific additions for kiln-drying, resawing, and/or surfacing are made uniformly applicable to manufacturers covered by this regulation.

SEC. 3.10. *How to calculate weights for shipping kiln-dried, surfaced, and resawn lumber.* This section provides a procedure for determining the weights of kiln-dried, surfaced, and resawn lumber. These weights are authorized for use in determining transportation charges in the calculation of ceiling delivered prices as provided in section 6.2.

(a) *Kiln-dried lumber.* The established shipping weight for kiln-dried lumber is 10 percent less than the applicable air-dried weight shown in the tables of section 3.1, rounded to the nearest 50 pounds. For example, the kiln-dried shipping weight for rough 4/4" plain red oak is 3,800 pounds. (4,200 less 10 percent (420)=3,780, which is rounded to 3,800).

(b) To determine shipping weight for surfaced lumber, consult the table in this paragraph. Find the percentage shown for the nominal thickness under the appropriate heading describing the surfacing done, and apply this percentage to the rough weight of the item as shown in section 3.1, or as determined under this section.

Example 1. To calculate the weight for random width 4/4" plain red oak lumber surfaced two sides to 13/16": In Table (15), the air-dried weight of the rough lumber is shown as 4,200 pounds. In the table given below, Column (1) shows the 4/4" nominal thickness; Column (2), the 13/16" finished thickness; and from Column (3), applicable to surfaced two sides, the percentage figure of 78 is obtained. The surfaced weight is therefore 78 percent of 4,200 or 3,276 pounds, which is then rounded to 3,300 pounds.

Example 2. To calculate the weight of 4/4" plain red oak lumber 8" stock width surfaced four sides to 13/16" x 7½": The procedure is the same as in Example 1, except that instead of using the 78 percent shown in Column (3), you use the 73 percent figure shown in Column (7) for 8" lumber surfaced four sides to 7½" wide. (Columns (4) through (9) are applicable to both finished thicknesses and finished widths). The surfaced weight is 73 percent of 4,200 or 3,066 pounds, which is rounded to 3,050 pounds.

(c) *Resawn lumber.* The weight for rough lumber resawn is the weight of the rough air-dried lumber as shown in the tables of section 3.1 less 5 percent for each saw kerf. The weight for lumber surfaced and then resawn is the weight of the resurfaced lumber (as calculated in accordance with paragraph (b) of this section) less 5 percent of the rough lumber weight for each saw kerf.

SEC. 3.11. *Ceiling prices for special specifications.*—(a) *Application.* If you cannot ascertain your ceiling price for lumber covered by this regulation under any other provision of this regulation, as, for example, should you wish to sell lumber with special workings, grades, sizes, services, or other extras not specifically mentioned in this regulation, you must apply by registered mail, return receipt requested, to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for the establishment of a ceiling price. You may file on OPS Public Form No. 132, which is obtainable from any Regional or District Office of the Office of Price Stabilization. Your application must set forth the following:

(1) As complete a description as possible of the item which is the subject of your application.

(2) A statement explaining why you are unable to determine your ceiling price under other provisions of this regulation.

(3) Your proposed ceiling price, which you must determine upon the first of the following bases that you are able to use:

(i) The ceiling price for the most closely comparable item for which a dollars-and-cents ceiling price is established by this regulation, adjusted by the addition or subtraction of the differential between the highest price at which the item that is the subject of your application was sold to a purchaser of the same class on the date nearest to the effective date of this regulation and the highest price at which the most closely comparable item was sold to a purchaser of the same class on the date nearest thereto.

(ii) The price at which you sold to a purchaser of the same class the item that is the subject of your application in your last sale before the effective date of this regulation.

(iii) The ceiling price of your most closely competitive seller to a purchaser of the same class for the item that is the subject of your application. ("Your most closely competitive seller" is the seller of lumber subject to this regulation, selling the item which is the subject of your application, with whom you are in most direct competition on sales of most items.)

(iv) A price which you believe is in line with the level of ceiling prices established by this regulation. You must state why you believe your proposed ceiling price is in line with the level of ceiling prices established by this regulation.

In determining your proposed ceiling prices, you must first use the basis indicated in subdivision (i); if you cannot use subdivision (i), then use subdivision (ii); if you cannot use subdivision (ii), then use subdivision (iii); or if you cannot use subdivision (iii), then use subdivision (iv).

If you use subdivisions (ii), (iii), or (iv), you must state in your application why you could not use the basis provided in the preceding subdivision or subdivisions. You must also state how your proposed ceiling price conforms to the basis employed and furnish supporting details.

(b) *Quotation of proposed ceiling prices.* You may quote a proposed ceiling price determined under the provisions of paragraph (a), and you may sell at that proposed ceiling price, provided that you file an application for approval of that special ceiling price within five days after receiving an order, and provided further that you agree to refund, and later refund, to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 30 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to non-retroactive disapproval or modification at a later date.

(3) No application will be approved under this section unless it is found that the proposed prices are in line with the level of ceiling prices otherwise established by this regulation.

(d) *Effect on other transactions.* A special ceiling price approved pursuant to application made under this section shall be your ceiling price for all future sales of the same item unless a specific ceiling price for the item shall subsequently be established by changes in this regulation, or unless the approval is subsequently revoked or modified by the Director of Price Stabilization.

ARTICLE IV—COMMISSION-TYPE SALES AND RETAIL-TYPE DIRECT-MILL SALES

SEC. 4.1. *Commission-type sales.*—(a) *Addition allowed.* When a sale of your lumber is brought about by the efforts of a lumber commission salesman, your ceiling price is the otherwise applicable ceiling price on the lumber sold plus 4 percent of the f. o. b. mill ceiling price. However, the amount which you may charge the buyer, pursuant to this section, over and above the otherwise applicable ceiling price, may not exceed the actual commission which you pay to the lumber commission salesman.

(b) *Lumber commission salesman.* The term "lumber commission salesman" means a person who customarily sells lumber in carload quantities for two or more manufacturers, who does not take title to the lumber, assumes no credit risk, receives his compensation from the manufacturer in the form of commissions based on the amount of lumber sold, and operates independently of both buyers and sellers.

SEC. 4.2. *Retail-type sales.*—(a) *Increased f. o. b. mill ceiling prices.* Except as indicated in paragraphs (b) and (c) of this section, your f. o. b. mill ceiling prices in retail-type sales for all lumber covered by this regulation are 15 percent higher than the f. o. b. mill ceiling prices (including any applicable zone differentials) established by this regulation. The increase applies whether the lumber is green, air-dried, or kiln-dried; whether rough or surfaced; and whether or not it is resawn or otherwise worked.

(b) *Exceptions to the application of the increase.* You may not apply the increase authorized by paragraph (a):

(1) To your ceiling prices determined under the provisions of sections 3.3 and 3.11; or

(2) To your ceiling additions for special widths and/or lengths or to your ceiling additions for kiln-drying, surfacing, and/or resawing allowable under the provisions of sections 3.2 and 3.9, respectively, when the additions involved are derived from a retail-type sale.

(c) *Charges which you must exclude.* A ceiling price determined under paragraph (a) may not be increased by any charges for commissions paid to a lumber commission salesman as authorized in section 4.1, or by any charges for special services as authorized in section 5.1.

(d) *Delivery charges.* You may add an appropriate delivery charge, computed in the manner authorized in section 6.2, provided that you deliver the lumber by truck.

(e) *Definition.* As used in this section, a retail-type sale is a direct-mill sale of not more than 10,000 feet to a purchaser who takes delivery at the mill, or who accepts delivery made by truck at a point not more than 50 miles from the mill. It must be a sale of lumber to a contractor or to a consumer for use in construction, remodeling, repair, or maintenance; it is not a sale for use in manufacturing or for resale in substantially the same form.

ARTICLE V—CEILING PRICE ADDITIONS

SEC. 5.1 *Ceiling price additions.* (a) You may add not more than the amounts indicated below to the ceiling prices as set forth in this regulation, for the following special services:

(1) Anti-stain treatment: $1.00 per thousand feet.

(2) Stenciling or grade-marking on the face of each piece in a manner which will permit identification and segregation: $1.00 per thousand feet. (This addition cannot be made for stenciling a trademark.)

(3) Bundling for export: $3.00 per thousand feet.

(4) Packaging in sling loads or otherwise whereby the load is divided into individual parcels to facilitate mechanical unloading and reloading: $3.00 per thousand feet (covering all materials and labor).

NOTE: If lumber is both bundled for export and packaged in sling loads or otherwise, only one charge of $3.00 per thousand feet may be made.

(5) Marking on each piece the surface measure and or the width and length sizes: $1.00 per thousand feet.

(6) Inspection and issuance of an inspection certificate by the National Hardwood Lumber Association: an amount which does not exceed the inspection fees and expenses charged the seller by the Association.

(7) Staking, wiring, and separating lumber in open top cars: $25.00 per car (covering all materials and labor).

(8) Erecting on open top cars bulkheads made in conformity with the specifications of the Mechanical Division of the Association of American Railroads: $10.00 per bulkhead (covering all materials and labor).

(b) Except for anti-stain treatment, the additions provided in paragraph (a) of this section may be made only when the special services are specifically requested by the buyer.

ARTICLE VI—OTHER CEILING PRICE PROVISIONS

SEC. 6.1. *Grade terms and grading.*—(a) *Terms.* All grade terms used in this regulation have the meanings set forth in the "Rules for the Measurement and Inspection of Hardwood, Cypress, Veneers and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

(b) *Grading.* Lumber bought and sold under this regulation must be graded in accordance with the "Rules for the Measurement and Inspection of Hardwood, Cypress, Veneers and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

SEC. 6.2 *Delivered ceiling prices.* You are permitted to sell lumber covered by this regulation on a delivered price basis. The ceiling delivered prices are the ceiling prices f. o. b. mill plus an addition for delivery to the purchaser, computed as follows (the transportation addition must be rounded to the nearest half dollar):

(a) *Common or contract carrier.* When shipment is made by common or contract carrier, the transportation addition is computed by multiplying the appropriate established weight by the applicable freight rate in effect at the time of shipment.

(b) *Private trucking.* When shipment is by truck owned or controlled by the seller: you may add $2.00 per thousand feet; or an addition computed in the manner set forth in paragraph (a) of this section, using applicable carload rates; or an amount equal to the applicable common carrier motor freight charges.

(c) *Trucking to railhead.* You may not charge any additional amount for a truck haul preceding rail shipments.

(d) *Truck delivery after rail haul.* For truck delivery following a rail haul, you may add as much as the actual costs per thousand feet incurred.

SEC. 6.3. Mixed cars. In a sale of a mixed carload shipment to one or more purchasers in which each item is loaded

separately in the quantity specified in the order, or orders, the following additions per thousand feet may be made to the f. o. b. mill prices of each item in the shipment:

Quantity of each item ordered	Additions per M feet
4,000 to 5,000 feet	$2.00
3,000 to 3,999 feet	3.00
2,000 to 2,999 feet	4.00
1,000 to 1,999 feet	5.00
999 and less	6.00

As used in this section the term "mixed carload" refers to a carload containing two or more items of any species and thickness.

SEC. 6.4. *Green lumber.* (a) Ceiling prices for green lumber are established separately in the price tables. In every case in which lumber is shipped weighing more than 15 percent above the applicable air-dried weights shown in this regulation, it must be sold at not more than the ceiling price for green lumber.

(b) (1) You may obtain authorization from the Director of Price Stabilization, at his discretion, to apply not more than the ceiling prices for dry lumber to a particular sale of green lumber when the purchaser certifies to you that the nature of his operations requires the lumber involved in the particular sale to be in green condition. Application for such authorization must be by letter sent to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., and should contain a statement as to the kind of lumber required and the reason for the purchaser's requiring green lumber, and also a copy of his certification to you covering the lumber involved in the sale.

(2) Approval must be obtained from the Director of Price Stabilization before you may sell under the provisions of this paragraph green lumber at prices higher than the ceiling prices otherwise provided in this regulation.

(c) (1) When a buyer requires special items of No. 1 Common or No. 1 Common and Better of a species and thickness not ordinarily cut and stocked by mills, and the buyer is unable to buy dry lumber, he may apply by letter to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for authorization of special ceiling prices for his purchase of such special items of lumber.

An application should be submitted for every order placed under the provisions of this section, and should state the proposed seller's name and address, a description of the item or items required and the reason for the necessity of accepting green lumber. Approval, if granted, will be rendered both to the buyer and the named seller. The approval will allow sales of such special items, cut on special order, and shipped in green or partially dry condition, at not more than 90 percent of the ceiling price for air-dried lumber of the same grade and thickness in the species of basswood and poplar, and at not more than 87½ percent of the ceiling price for air-dried lumber of the same grade and thickness in all other species.

(2) Approval must be obtained from the Director of Price Stabilization before orders are placed or sales are made under this paragraph.

SEC. 6.5. *Discount for cash.* If the buyer pays cash, your ceiling prices determined under other provisions of this regulation are reduced by the amount of the discount which, during the period from January 25, 1951, through February 24, 1951, you allowed a purchaser of the same class for the payment of cash within the same period of time. If you were not in business between January 25, 1951 and February 24, 1951, your ceiling prices determined under other provisions of this regulation are reduced by 2 percent for cash payment within 10 days from date of invoice or date of bill of lading, whichever is later.

ARTICLE VII—MISCELLANEOUS PROVISIONS

SEC. 7.1. *Modification of proposed ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices determined under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 7.2. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 7.3. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling prices in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 7.4. *Records*—(a) *Existing records.* On and after the effective date of this regulation, for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, you shall preserve all your existing records relating to the prices which you received or charged for the items, and for the basic, comparison, or standard items and differentials, referred to in sections 3.2, 3.3, 3.9, and 3.11, which you sold or contracted to sell during the period January 25, 1951 through February 24, 1951; and you shall continue to preserve, for the applicable periods specified in Section 16 of the General Ceiling Price Regulation, all other existing records that you were required to keep under the provisions of Section 16 of the General Ceiling Price Regulations.

(b) *Current records.* Every person who sells and every person who in the regular course of trade or business buys lumber covered by this regulation, totaling $500 or more in any one month, shall make and keep for inspection by the Director of Price Stabilization for a period of two years, accurate records of each sale or purchase made in such month. The records must show the following:

(1) Date of purchase or sale;

(2) Name and address of buyer and seller;

(3) The price or prices of the covered items, including discounts paid or received, and all other direct or indirect considerations given or received, and rebates made or taken;

(4) A description of each item of lumber sold, showing the species, grade, sizes, condition (green, air-dried or kiln-dried), workings, specifications or other extras, which affect the ceiling price, together with the quantity thereof;

(5) Origin of shipment; and when sold on a delivered basis, destination of shipment;

(6) Means of transportation used.

The retention by a purchaser of an invoice furnished by a seller, or the retention by a seller of a settlement sheet furnished by a buyer, which includes the factual information required to be made a matter of record by this section, shall be considered as compliance with the provisions of this section.

(c) *Other records.* If you apply for approval of a proposed ceiling price for special specifications under section 3.11 of this regulation, you shall preserve or make and you shall keep for inspection by the Director of Price Stabilization for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, accurate records from which you obtained the data you submit in connection with your application for such ceiling price.

SEC. 7.5. *Invoices.* (a) On all sales of lumber covered by this regulation, you must submit an invoice to the buyer which includes a description (species, grade and sizes) and the quantity of each item of lumber involved. Any working condition (green, air-dried or kiln-dried), specification, extra, or service for which a charge is made, or which otherwise has a bearing upon the ceiling price, must be separately set forth in the invoice, but the invoice need not show separately the charge for such items.

(b) For sales made on an f. o. b. basis, in addition to the information required by paragraph (a), your invoice must show the f. o. b. price.

(c) For sales made on a delivered basis, in addition to the information required by paragraph (a), your invoice must show:

(1) The delivered price;

(2) The destination of the shipment, and

(3) The applicable rail, truck or water freight rate; or the transportation charged.

SEC. 7.6. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of the proper OPS District Office. Any action taken by you in reliance upon, and in conformity with, a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revision 2.

SEC. 7.7. *Prohibitions and violations.* (a) You shall not do any act prohibited

or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make, and preserve true and accurate records and reports required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement actions, and actions for damages. Prices lower than the ceiling prices may be charged, paid, or offered.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 7.8. *Evasions.* Any means or devices which result in obtaining directly or indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information in records which this regulation requires to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements, and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 7.9. *Definitions.* (a) As used in this regulation, the terms below have the following meanings:

(1) *Appalachian hardwood lumber.* This term is defined in section 1.3 (b).

(2) *Appalachian Hardwood Region.* This term is defined in section 1.3 (c).

(3) *Director of Price Stabilization.* This term extends to any official (including officials of regional or district offices) to whom the Director of Price Stabilization, by order, delegates a function, power, or authority referred to in this regulation.

(4) *Feet.* This term means board feet for all lumber 4 4" and thicker, and means surface feet for all lumber thinner than 4 4".

(5) *F. o. b. mill.* This term means loaded on cars at mill railhead or siding; loaded on scow or barge alongside a mill dock; or, where the only means of conveyance used is a truck, other motor vehicle, or wagon, loaded on such vehicles at the mill site.

(6) *Kiln-dried lumber.* This term refers to green or air-dried lumber that is dried in a kiln to a specified moisture content.

(7) *Lumber commission salesman.* This term is defined in section 4.1.

(8) *Manufacturer, sawmill, planing mill, and concentration yard.* These terms are defined in section 1.4 (b). Note particularly that the term "mill" as used throughout the regulation includes sawmills, planing mills, and concentration yards.

(9) *Most closely competitive seller.* This term is defined in section 3.11 (a) (3) (iii).

(10) *Person.* This term includes any individual, partnership, corporation, association, or any organized group of persons; their legal successors or representatives; and the United States or any other government or their political subdivisions or agencies.

(11) *Purchaser of the same class.* The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not, be based on the characteristics or distributive level of the buyer; for instance, manufacturer, wholesaler, individual retail store, retail chain, mail order house, government agency, or public institution. It may, but need not, be based on the location of the purchaser or the quantity or kinds of lumber purchaser by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

(12) *Records.* This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(13) *Residue ungraded lumber.* This term is defined in section 3.7.

(14) *Retail-type sale.* This term is defined in section 4.2.

(15) *Sell.* This term includes sell, supply, dispose, barter, trade, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

(16) *Special grading terms.* The special grading terms used in this regulation are defined in section 6.1.

(17) *Surfaced lumber.* "Surfaced lumber," also known as "worked" or "dressed" lumber, is lumber planed to a smooth finish, generally surfaced to a specified thickness. The process of producing surfaced lumber is known as "surfacing," "dressing," or "planing."

(18) *You.* The pronoun "you" indicates any manufacturer who sells lumber subject to this regulation. The term "your" shall be construed accordingly.

Effective date. This regulation is effective July 2, 1952.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Ceiling Price Regulation 27, Amdt. 1]

CPR 27—LAKE COAL DOCK OPERATORS

INCREASED TRANSPORTATION COST

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 27 is hereby issued.

STATEMENT OF CONSIDERATIONS

Lake coal dock operators covered by CPR 27 are both wholesalers and retailers of coal. Because of certain unique characteristics, however, they are covered by a different OPS regulation from that applying to other retailers of bituminous coal.

Recently retail coal sellers under Supplementary Regulation 2 to the GCPR were allowed to add to their ceiling prices the increase in their inbound freight costs since January 25, 1951 resulting from freight rate increases authorized by the Interstate Commerce Commission or any other governmental regulatory body. For similar reasons, and to remove any possible discrimination between these two classes of resellers of coal, this amendment provides a similar adjustment for lake coal dock operators.

In order to maintain the relationship between ceiling prices and ceiling weighted average realization lake coal dock operators may also add the same dollar-and-cents amount of transportation cost increases to their ceiling weighted average realization established under CPR 27.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 27 is amended in the following respect:

1. Section 4 (d) is amended by adding subparagraph (4), as follows:

(4) Each lake coal dock operator may increase the ceiling weighted average realization and the ceiling price of each size, grade, grouping or other classifica-

tion of solid fuel which he sells and delivers under this ceiling price regulation by the exact amount of increase in transportation costs that has or may become effective after January 1, 1951: *Provided*, Such increase in transportation costs was authorized by the Director, an order of the Interstate Commerce Commission or any regulatory body of a state, territory or possession of the United States: *And provided further*, That the authority to increase the ceiling weighted average realization and the ceiling prices of each size, grade, grouping or other classification by the exact amount of increase in transportation costs shall be effective only upon receipt by the lake coal dock operator of a carrier's invoice, freight bill or other statement of transportation charges for each such size, grade, grouping or other classification, reflecting the increased freight charges and required to be paid by the lake coal dock operator.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to CPR 27 shall become effective July 2, 1952.

Director of Price Stabilization.

[Ceiling Price Regulation 50, Amdt. 2]

CPR 50—CEILING PRICES FOR PETROLEUM PRODUCTS SOLD IN THE VIRGIN ISLANDS

CORRECTION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Ceiling Price Regulation 50 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 1 to Ceiling Price Regulation 50 was issued for the purpose of increasing the ceiling prices for the sale of kerosene on the island of St. John in the Virgin Islands of the United States. The statement of considerations accompanying Amendment 1 indicated the reasons for these increased ceiling prices.

Because of a typographical error, however, Amendment 1 merely repeated the ceiling prices already established in Ceiling Price Regulation 50. This amendment corrects that error, and accomplishes the result intended in the issuance of Amendment 1.

Because of the nature of this action, it has been impracticable for the Office of Price Stabilization to consult with the industry and trade association representatives.

AMENDATORY PROVISIONS

Section 11 of Ceiling Price Regulation 50 is changed to read as follows:

SEC. 11. *Ceiling prices for kerosene imported in steel drums.* Ceiling prices of kerosene sold at retail in the Virgin Islands of the United States shall be:

Commodity	Quantity	St. Croix	St. Thomas	St. John
Kerosene	Gallon	$0.29	$0.30	$0.34
	Quart	.08	.08	.09
	4/5 quart	.07	.07	.07
	Two 4/5 quarts	.15	.13	.14

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 to Ceiling Price Regulation 50 is effective June 27, 1952.

[Ceiling Price Regulation 134, Amdt. 3]

CPR 134—CEILING PRICES FOR EATING AND DRINKING ESTABLISHMENTS

EXTENSION OF TIME FOR REDETERMINATION UNDER SECTION 10

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended by Public Law 96 (82nd Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 3 to Ceiling Price Regulation 134 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment extends the time for redetermination of ceiling prices under section 10 from June 1, 1952 until August 1, 1952.

The present cut-off date for redetermination of ceiling prices under section 10 is June 1, 1952. It has come to the attention of the Office of Price Stabilization that many operators were unable to determine their eligibility within sufficient time to take advantage of the authorized redetermination permitted by section 10. It has also been found that some applications for base period adjustment, which had been filed under section 13 of Ceiling Price Regulation 11 prior to the effective date of Ceiling Price Regulation 134, were not processed in sufficient time to enable the applicant to qualify for the section 10 adjustment by the specified date.

In order to avoid penalizing those operators whose applications for a CPR 11 adjustment had not been processed prior to June 1, 1952, or who were unable to determine their eligibility for a redetermination before the cut-off date, operators will be permitted by this amendment to redetermine or to apply for redetermination of their ceiling prices until August 1, 1952.

Because of the beneficial nature of this amendment and the necessity for speedy action, the Director of Price Stabilization has found it neither necessary nor practical to consult with industry representatives, including trade association representatives. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all of the applicable standards of that Act.

AMENDATORY PROVISIONS

Paragraph (a) of section 10 of Ceiling Price Regulation 134 is amended by substituting the words "August 1, 1952" for the words "June 1, 1952" wherever they appear in that paragraph.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 3 to Ceiling Price Regulation 134 is effective June 27, 1952.

[General Ceiling Price Regulation, Supplementary Regulation 109]

GCPR, SR 109—CEILING PRICES FOR SEMI-VITREOUS DINNERWARE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 109 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes new ceiling prices for manufacturers of semi-vitreous dinerware at a level that is in accordance with the minimum prescribed by the industry earnings standard. A full statement of the reasons for this action are set forth in the Statement of Considerations for SR 29, Ceiling Price Regulation 22.

In the formulation of this supplementary regulation the Director has consulted with representatives of the industry, including trade association representatives and the Industry Advisory Committee, and has given consideration to their recommendations. In the judgment of the Director, the provisions of this supplementary regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices for semi-vitreous dinnerware dealt in between September 1, 1951 and June 27, 1952, inclusive.
3. Ceiling prices for semi-vitreous dinnerware which cannot be determined under section 2.
4. Relationship of this supplementary regulation to GOR 20 and GOR 21.

AUTHORITY: Sections 1 through 4 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes ceiling prices for sales by manufacturers of semi-vitreous dinnerware, replacing those previously established under sections 3, 4, 6 and 7 of the General Ceiling Price Regulation. All provisions of the General Ceiling Price Regulation not inconsistent with this supplementary regulation remain in effect.

SEC. 2. *Ceiling prices for semi-vitreous dinnerware dealt in between September 1, 1951, and June 27, 1952, inclusive.* (a) Your ceiling price for sale of a semi-vitreous dinnerware product is 106.25 percent of the highest price at which you delivered it or, if you did not deliver it, at which you offered it for delivery, between September 1, 1951 and June 27, 1952 to a purchaser of the same class. If your highest price during this period exceeded the applicable ceiling price, your ceiling price under this regulation is 106.25 percent of the ceiling price in effect at the time you received your highest price.

(b) A ceiling price established under this section must be consistent in every respect with your GCPR ceiling price for the same semi-vitreous dinnerware product. It must carry the same delivery terms, cash, trade and volume discounts, allowances, premiums and extras, deductions, guarantees and other terms and conditions of sale.

SEC. 3. *Ceiling prices for semi-vitreous dinnerware which cannot be determined under section 2.* If you are unable to establish a ceiling price for any sale of semi-vitreous dinnerware under section 2 of this supplementary regulation, you must establish such ceiling price in accordance with section 4, 6 or 7 of the General Ceiling Price Regulation. Section 4 requires you to determine a ceiling price by reference to the ceiling price of another commodity, called for convenience, your "comparison commodity". In applying section 4, use as the ceiling price of the "comparison commodity" a ceiling price determined under this supplementary regulation.

SEC. 4. *Relationship of this supplementary regulation to GOR 20 and GOR 21.* Notwithstanding any provisions of this supplementary regulation, you may elect to use General Overriding Regulation 20 or 21 to establish your ceiling prices for semi-vitreous dinnerware. If you so elect, you may not use the provisions of this supplementary regulation.

Effective date. The effective date of this supplementary regulation is June 27, 1952.

Director of Price Stabilization.

[General Overriding Regulation 7, Amendment 1 to Revision 1]

GOR 7—EXEMPTIONS AND SUSPENSIONS OF CERTAIN FOOD AND RESTAURANT COMMODITIES, ICE AND CANNED AND FROZEN FRUIT, BERRY AND VEGETABLE PRODUCTS

Pursuant to the Defense production Act of 1950, as amended, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to General Overriding Regulation 7, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to General Overriding Regulation 7, Revision 1, removes ice and certain canned and frozen fruit, berry and vegetable products from price control.

Ice. In the judgment of the Director of Price Stabilization, special circumstances which characterize the ice industry justify its removal from price control at the present time.

During the past several decades, with the exception of the war years, the consumption of ice has declined steadily. Since 1946 ice consumption has declined by more than 40 percent. This decline has followed the greatly expanded use of mechanical refrigeration in homes and the installation of small ice manufacturing plants in institutional and industrial establishments. As a result of this decline, the utilization of ice producing facilities has dropped to a low level. It is estimated that currently only one-third of this capacity is being used to meet the average day-to-day needs for commercial ice.

As might be expected from such a trend, prices charged for ice have been more stable during the past several decades than have the prices of most other commodities. It is estimated that ice prices today are only one-third higher than they were at the low point of the depression in the 1930's.

This trend has also been reflected in declining earnings. Not only have prices been held stable by competition from mechanical refrigeration and by competition between producers with excess capacity, but there have been increases in direct costs and the decline in volume has tended to increase overhead unit costs. Since 1946 many ice companies have gone out of business or merged with their competitors. Many small companies have in effect been "liquidating their capital".

It was the experience of the Office of Price Administration that a constant sequence of individual and area price adjustments was necessary to bring ice prices up to a level which would secure the continuation of an ice supply in various communities. In numerous cases annual adjustments were necessary to prevent substantial hardship in the face of increased costs and decline in volume. The same experience has begun to repeat itself since the institution of price controls in January 1951. The making of these numerous price adjustments has placed a substantial administrative burden of reporting, compiling of financial information and of record maintenance upon the ice industry. Processing these adjustment applications has required a considerable expenditure of manpower on the part of OPS. Moreover, the continuation of control involves technical complexities such as provisions for the importation of ice into areas formerly served by companies which have gone out of business. The prospect, in the absence of decontrol, is for these administrative burdens to increase rather than lessen with the passage of time.

In view of the decline in volume of the industry, the large excess of productive capacity, the availability of mechanical refrigeration, and the relatively stable prices during the last two decades, it is highly unlikely that uncontrolled ice prices will increase to levels above those which the agency would be compelled by the requirements of the law to establish through numerous adjustments. Therefore, the Director has concluded that the advantages to economic stabilization which can be derived by a continuation of controls upon ice are not commensurate with the burdens placed on the industry and upon this agency.

Canned and frozen fruit, berry and vegetable products. The canned fruits, berries and vegetables exempted by this amendment are either luxury items of limited volume, such as canned celery, or are items produced in limited quantities and sold almost entirely for remanufacturing purposes the final product of which remains under control, or are items packed regionally in small volume, or, finally, are specialty fruit items. In regard to all these products the number of processors is very small and the total pack of all products amounts to less than $\frac{2}{10}$ of one percent of all fruits and vegetables which are packed during a year.

The frozen fruits, berries and vegetables exempted from price control by this amendment are an insignificant part of the total frozen fruit, berry and vegetable pack. The frozen vegetables covered by this action constituted but 2.046 percent of the total frozen vegetables pack during 1951, while the frozen fruits and berries constituted 0.455 percent of the total frozen fruit and berry pack for that year. Many of the listed products have not been packed at all during the past two years, apparently because of the lack of consumer demand, while others are sold in particular regions but not in large volume.

Therefore, the commodities exempted by this amendment are of minor significance and have but a trifling effect on the cost of living, the cost of the defense effort or the general current of industrial costs. Furthermore, any ceiling price restrictions imposed on these products would involve an administrative enforcement burden out of proportion to the importance of keeping such commodities under price control.

In formulating this amendment, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable and has given full consideration to their recommendations. In his judgment the exemptions provided by the accompanying amendment will in no way defeat or impair the price stabilization program or the objectives of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 2 of Article II of General Overriding Regulation 7, Revision 1, is amended in the following respects:

1. The following subparagraph (9) is added to paragraph (d):

(9) Ice.

2. Paragraph (e) is changed to read as follows:

(e) *Canned fruit, vegetable and berry products.* The following domestically processed canned (in tin or glass) or packaged fruit, vegetable and berry products:

(1) Canned artichoke products whose vegetable ingredient consists predominantly of artichokes or parts thereof.
(2) Canned cabbage (white or red) (not kraut).
(3) Canned brussels sprouts.
(4) Canned broccoli.
(5) Canned celery.
(6) Canned eggplant.
(7) Canned melons (pickled or spiced including melon balls).
(8) Canned soy beans (fresh).
(9) Canned parsnips.
(10) Canned vegetable greens (except spinach and turnip greens).
(11) Canned rhubarb.
(12) Canned tomato aspic.
(13) Canned fresh shell beans (with or without snaps).
(14) Canned rutabagas.
(15) Canned turnips.
(16) Canned corn relish.
(17) Canned diced or pureed green or red peppers (not including pimientos).
(18) Canned meat loaf spice mixtures.
(19) Canned or packaged dehydrated vegetable relish.
(20) Canned pumpkin pie mix.
(21) Canned sweet potato pie mix.
(22) Canned carrot juice.
(23) Canned beet juice.
(24) Canned nectarines.
(25) All canned plums (except canned purple prune plums).
(26) Canned baked apples.
(27) Canned spiced apricots.
(28) Canned spiced figs.
(29) Canned spiced pears.
(30) Canned grapes (including spiced grapes).
(31) Canned crab apples (including canned spiced crab apples).
(32) Canned quinces.
(33) Canned or packaged crunchy apple chips and apple nougats.
(34) Canned apple pie mix.
(35) Canned cherry pie mix.
(36) Canned plum juice (including fresh prune plum juice).
(37) Canned huckleberries.
(38) Canned gooseberries.
(39) Canned loganberries (including juice and nectar).
(40) Canned elderberries.
(41) Canned dewberries.
(42) Canned youngberries.
(43) Canned strawberries.
(44) Canned strawberry juice.
(45) Canned cranberry juice.

3. Paragraph (g) is added to read as follows:

(g) *Frozen fruit, berry, vegetable and related products.* The following domestically processed frozen fruit, berry, vegetable and related products:

(1) Coconut.
(2) Feijoa.
(3) Figs.
(4) Guavas.
(5) Mixed fruits.
(6) Nectarines.
(7) Pears.
(8) Persimmons.
(9) Pineapples.
(10) Plums (fresh).
(11) Quinces.
(12) Sweet cherries.
(13) Cranberries.
(14) Dewberries.
(15) Elderberries.
(16) Gooseberries.
(17) Huckleberries.
(18) Youngberries.
(19) Artichokes.
(20) Beets.
(21) Blackeye peas (fresh).
(22) Celery.
(23) Field peas, fresh (including chick, cream, crowder, crowder with snaps and purple hull).
(24) Melon balls.
(25) Mushrooms.
(26) Okra.
(27) Peppers (including pimientos).
(28) Soy beans (fresh).
(29) Sweet potatoes.
(30) Tomatoes (including juices and purees).
(31) Vegetable greens (except spinach).
(32) Watermelons.

[General Overriding Regulation 4, Revision 1, Amdt. 5]

GOR 4—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

EXEMPTION OF CERTAIN FURS AND FUR PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to General Overriding Regulation 4, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment exempts from price control sales of certain furs and fur plates, as well as sales of garments, shells, linings, trimmings, and collars made from them. This amendment, however, does not exempt services rendered with respect to any of these commodities, nor does it exempt by-products produced from the exempted furs and peltries, such as beaver hair.

Studies have been made by this Agency concerning the prices as well as consumer use of furs and fur garments. From these studies it has been determined which furs, in general, are and are not of considerable importance to moderate income families.

The sales of items exempted by this regulation have little bearing on the cost of living. In general, sales of fur garments which retail at prices of approximately $400 or less, and furs from which they are made, remain under price control. The latter furs and fur items are generally of the type normally within the purchasing power of moderate income families. Further, sales of certain relatively higher priced furs, such as badger, continue subject to price control, due to their utilization in the manufacture of essential cost-of-living products or in essential industrial processing.

The difficulty of administering price controls with respect to the exempted furs and fur products is an additional factor warranting their exemption. Studies have revealed that no universally accepted grading standards exist as to quality and size of fur skins. Standards used were developed by individual dealers and processors; they vary widely not only as between different geographical areas but also as between dealers and processors in the same area. Further, valuation of fur skins largely turns upon minute variations between skins of the same general type as to color, shade, curl, length, fullness, luster, softness and silkiness. It is possible for experts in fur valuation to arrive at widely differing judgments with respect to the value of skins of the same general type; this is especially true of the exempted furs. The above considerations distinguish the problem of administering price controls with respect to such furs from that with respect to most other commodities.

The problem of controlling certain fur garments is also complicated by virtue of the fact that each fur garment is individually priced. In the higher priced ranges such as mink and beaver, two garments made of the same general type of skin, in the same factory, by the same general standards of manufacture will frequently be valued at widely different figures because of their differences in appearance and "feel." In the less expensive garments, such as mouton, rabbit, and kidskin, however, this variation in valuing garments is far less extensive.

The exempted furs have only a relatively limited use as trimmings for cloth coats. U. S. Department of Commerce reports indicate that only about 10% of the women's and misses' cloth coats manufactured in the United States have fur trimmings. It is estimated that not more than 50% of these fur trimmed coats have trimmings of furs exempted from price control by this regulation. The remainder of these fur trimmed cloth coats bear trimmings of the cost-of-living furs which are being continued under price control.

The Director has concluded that the relative insignificance of the exempted furs and fur garments as cost-of-living items, combined with the difficulty in administering price controls over them, warrants the exemption of their sales from price controls at this time.

The Director has consulted with the Federal Trade Commission as to the proper designation of the furs listed in this regulation which are continued under price control. The names used are those approved by the Federal Trade Commission and they apply to all furs properly designated by those names, although other names may have been commonly used in the trade to describe them. In some cases this amendment states the commonly used names of certain furs as well as their correct names; this is done for the sake of clarity alone, and is not to be construed as an approval of those commonly used names.

To the extent practicable under the circumstances, the Director has consulted with representatives of the industry involved, including trade association representatives, and has given consideration to their oral and written recommendations.

AMENDATORY PROVISIONS

Section 2 of General Overriding Regulation 4, Revision 1, is amended by adding the following paragraphs:

(e) All furs other than the following:

American Opossum.
Ariana Otter.
Badger.
Bassarisk (sometimes referred to in the trade as Ringtail Cat).
Chekiang Lamb, square handled.
Coyote Wolf.
Dog.
Fox (except white fox, natural black fox, natural blue fox, silver fox, cross fox and all mutation fox).
Hair Seal.
Hare.
Indian Lamb.
Kidskin.
Labrador Hair Seal.
Lamb processed to simulate Broadtail Lamb.
Lincoln Lamb.
Marmot.
Mouton Lamb.
Muskrat.
Peschanik (sometimes referred to in the trade as Russian Weasel).
Persian Lamb Paw.
Pony.
Rabbit.
Raccoon.
Mexican Raccoon.
Skunk.
Spotted Skunk (sometimes referred to in the trade as Civet Cat).
Wolf.
Beaver pieces.
Squirrel bellies.
Tails from all furs.

The term "furs" means any animal skin or part thereof with hair, fleece, or fur fibers attached thereto, either in its raw or processed state, but shall not include such skins as are to be converted into leather or which in processing shall have the hair, fleece, or fur fiber completely removed.

(f) Fur plates made from mink and backs of squirrels.

(g) All fur garments in which the principal quantity of body material consists of furs or fur plates exempted from price control under (e) or (f) above.

(h) All fur shells, fur linings, fur trimmings, and fur collars, in which the only furs or fur plates used are those exempted from price control under (e) or (f) above.

(Sec. 704, Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective June 27, 1952.

GOR 20—CEILING PRICE ADJUSTMENTS FOR SMALL BUSINESS CONCERNS UNDER SECTION 402 (d) (4) OF THE DEFENSE PRODUCTION ACT OF 1950, AS AMENDED

Due to clerical error in the third sentence of the example at the end of the third paragraph of section 11 of General Overriding Regulation 20, the date on which a ladies' blouse (Style B) was offered for sale was given as "September 1, 1951" instead of "September 1, 1950". Accordingly, this sentence is corrected to read as follows: "On September 1, 1950, you offered for sale a ladies' blouse (Style B) for which your ceiling price under the General Ceiling Price Regulation is $6.00."

[Defense Food Order 3, Amdt. 4]

DFO 3—AGRICULTURAL IMPORTS

MISCELLANEOUS AMENDMENTS

Pursuant to the authority conferred by section 704 of the Defense Production Act of 1950, as amended (50 U. S. C. App. Sup. 2154) and having determined that the following amendment of Defense Food Order 3, as amended (16 F. R. 7934, 8272; 17 F. R. 4490) is necessary or appropriate to carry out the provisions of said act and the determination made by the Secretary of Agriculture on August 9, 1951 (16 F. R. 7937) under section 104 of the act, said Defense Food Order 3 is hereby amended as set forth below. The amendment relieves certain restrictions presently imposed by the order and must be made effective promptly if it is to be of maximum benefit to importers. The order affects numerous segments of the economy and time does not permit consultation with all affected segments. Therefore consultation with industry representatives on the amendment is impracticable and has been omitted.

Summary of amendment. Section 2 (b) of Defense Food Order 3, as amended, prohibits the importation, purchase for import, receiving or offering to receive on consignment for import, and the making of any contract or other arrangement for the importing of certain commodities subject to the order, except as provided in section 5 of the order or as authorized in writing by the Director of the Office of Requirements and Allocations, Production and Marketing Administration, of this Department. The term "import" is defined to mean "to transport in any manner into the continental United States, Puerto Rico, the Virgin Islands, or any territory or possession of the United States from any foreign country." It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs. This amendment is intended to except from the requirement of an authorization by the Director imposed in section 2 (b) casein and lactarene, and mixtures in chief value thereof, n. s. p. f., and cheese, imported for any purpose other than consumption in the continental United States, Puerto Rico, the Virgin Islands or any territory or possession of the United States. Section 5 of the order is being amended to provide such exception. The amendment also modifies the provisions of section 13 of the order relating to petitions for relief from hardship.

AMENDATORY PROVISIONS

Defense Food Order 3, as amended, is hereby further amended as follows:

1. Section 5 is amended by redesignating paragraph (c) thereof as paragraph (d) and by adding a new paragraph (c) to read as follows:

(c) The provisions of section 2 (b) shall not apply to casein or lactarene, or mixtures in chief value thereof, n. s. p. f., or cheese, imported for any purpose other than consumption in the continental United States, Puerto Rico, the Virgin Islands, or any territory or possession of the United States. The provisions of section 2 (b) shall continue to apply, however, to casein and lactarene, and mixtures in chief value thereof, n. s. p. f., and cheese, with respect to direct entries for consumption, withdrawals for consumption of commodities in the custody of the United States Bureau of Customs in bonded warehouses, entries for consumption of commodities from foreign trade zones, and all other imports for consumption in the continental United States, Puerto Rico, the Virgin Islands, or any territory or possession of the United States. Moreover, the provisions of section 2 (b) shall continue to apply in all respects to other commodities followed by the designation (B) in Appendix A.

2. Section 13 is amended by adding at the end thereof a new sentence to read as follows: "The fact that a commodity is in a free port, foreign trade zone or the bonded custody of the United States Bureau of Customs, shall not be a basis for relief from hardship."

Effective date. This order shall become effective immediately. With re-

spect to violations, rights accrued, liabilities incurred, or appeals taken concerning Defense Food Order 3, as amended, prior to said effective date all the provisions of the order in effect at the time when such violations occurred, rights accrued, liabilities were incurred, or appeals were taken shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

CR 3—RELAXATION OF RESIDENTIAL CREDIT CONTROLS: REGULATIONS GOVERNING PROCESS AND APPROVAL OF EXCEPTIONS AND TERMS FOR CRITICAL DEFENSE HOUSING AREAS

APP.—CRITICAL DEFENSE HOUSING AREAS

This Amendment 13 amends the Appendix to CR 3 initially published in the FEDERAL REGISTER November 20, 1951 (16 F. R. 11731), which Appendix was revised and published in the FEDERAL REGISTER January 30, 1952 (17 F. R. 893) and last amended by Amendment 12 published June 14, 1952 (17 F. R. 5396), by adding the following additional critical defense housing areas to the areas already designated under CR 3:

Area, Including Geographical Description and Date Designated
178. Portsmouth, New Hampshire-Kittery, Maine, Area. TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 843]

ALASKA

WITHDRAWING PUBLIC LAND FOR USE OF DEPARTMENT OF THE AIR FORCE FOR MILITARY PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public land in Alaska is hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Air Force for military purposes:

Beginning at Corner No. 1, identical with Witness Meander Corner No. 8 of U. S. Survey No. 2627 which is an iron post with brass cap marked "W. C. S2627-C8" and from which point a tower bears N. 56° 24' W., 6,338.64 feet; thence by metes and bounds:

N. 23° 25' E., 1,440.6 feet along the 7-8 line of U. S. Survey No. 2627 to Corner No. 2;
S. 66° 30' E., 4,500.0 feet to Corner No. 3;
S. 31° 30' E., 4,000.0 feet to Corner No. 4;
N. 85° 30' E., 18,100.0 feet to Corner No. 5;
S. 4° 30' E., 11,700.0 feet to Corner No. 6;
S. 85° 30' W., 22,300.0 feet approximately to the mean high water line of the Yukon River, Corner No. 7;

Northerly, 18,000.0 feet meandering the said Yukon River to point from which Corner No. 1 bears N. 23° 25' E.;

N. 23° 25' E., 59.4 feet to Corner No. 1 and the point of beginning.

The area described contains 5,920 acres.

It is intended that the land described above shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which it is reserved.

R. D. SEARLES,
Acting Secretary of the Interior.

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

AVIATION TEXTILE PRODUCTS MANUFACTURING INDUSTRY

NOTICE OF HEARING WITH RESPECT TO PREVAILING MINIMUM WAGE

The Secretary of Labor, in an amended minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act (act of June 30, 1936, 49 Stat. 2036, 41 U. S. C. secs. 35-45) and effective January 25, 1950 (15 F. R. 382), determined that the minimum wage for persons employed in the performance of contracts with agencies of the United States Government subject to the act for the manufacture or furnishing of the products of the aviation-textile products manufacturing industry shall be not less than 75 cents an hour. This amended determination was based upon information indicating that substantially all employees in this industry are engaged in commerce or in the production of goods for commerce, as defined in the Fair Labor Standards Act, and that as a consequence the Fair Labor Standards Amendments of 1949 require payment of a wage rate of not less than 75 cents an hour to substantially all employees in this industry. This amended determination also provided that learners and handicapped workers might be employed at subminimum rates in accordance with regulations of the Administrator of the Wage and Hour Division of the Department of Labor under section 14 of the Fair Labor Standards Act (29 CFR Parts 522, 524 and 525 respectively).

A wage survey of selected aviation textile products manufacturing establishments made as of December, 1951, by the Bureau of Labor Statistics indicates that the 75-cent rate now in effect may not reflect the prevailing minimum wages in this industry; and it is proposed, therefore, to hold a hearing for the purpose of consideration by the Secretary of Labor of an amendment of the current determination.

In order to reflect more accurately the types of products manufactured, it is proposed to change the present title of the industry to the parachute and related aerial accessories industry and to amend the definition to read as follows:

The parachute and related aerial accessories industry is that industry which manufactures or furnishes products primarily of fabric (other than apparel) for airborne use, such as parachutes of any type or of any material; parachute packs and pack opening bands, harnesses and canopies; static lines; fabric aviation safety belts; aerial delivery containers; tow targets; and cloth drag sleeves for flares.

Excluded from the definition of this industry are canvas and other fabric articles for ground use such as signalling panels and ground cloths.

Now, therefore, notice is hereby given that a public hearing will be held on July 31, 1952, at 10:00 a. m. in Room 5406, United States Department of Labor Building, Constitution Avenue and Fourteenth Street NW., Washington, D. C., before the Administrator of the Wage and Hour and Public Contracts Divisions or a representative designated to preside in his place, at which hearing all interested persons may appear and submit data, views and arguments (1) as to the propriety of the proposed change in the title of the industry; (2) as to what are the prevailing minimum wages in the parachute and related aerial accessories industry; (3 as to whether there should be included in any determination for this industry provision for employment of learners, beginners (or probationary workers) and or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (4) as to the adequacy of the proposed definition.

Persons intending to appear are requested to notify the Administrator of their intention in advance of the hearing. Written statements in lieu of personal appearance may be filed with the presiding officer at the hearing. An original and four copies of any such statement should be filed.

Copies of tabulations of the wage survey data from selected aviation textile products manufacturing establishments entitled "Earnings in the Parachute and Related Aerial Accessories Industry" made by the Bureau of Labor Statistics as of December, 1951, and released by the Bureau as of June 6, 1952, together with additional tabulations prepared from such data at the request of the Wage and Hour and Public Contracts Divisions will be made available to interested persons upon request to the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington, D. C. Interested persons are invited to submit wage data, including data as to changes which may have taken place in the wage structure of the industry since the time of the survey.

In the discretion of the presiding officer, a period not to exceed 30 days from the close of the hearing may be allowed for the filing of comment on the evidence and statements introduced into the record of the hearing. In the event such supplemental statements are received an original and four copies of each such statement should be filed.

Signed at Washington, D. C., this 25th day of June 1952.

WM. R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

OFFICIAL SEAL

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Federal Civil Defense Administration is considering the issuance of regulations pursuant to section 204 of the Federal Civil Defense Act of 1950, as amended (64 Stat. 1254; 50 U. S. C. App. Sup. 2253), which describe the official seal of the Federal Civil Defense Administration, and establish requirements for the reproduction, manufacture, possession, and use thereof.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulations may do so by filing them with the Federal Civil Defense Administration, Washington 25, D. C., not later than thirty days after the publication of this notice in the FEDERAL REGISTER.

The proposed regulations are as follows:

PART 1709—OFFICIAL FEDERAL CIVIL DEFENSE ADMINISTRATION SEAL

Sec.
1709.1 Purpose.
1709.2 Description of official seal.
1709.3 Uses of official seal.
1709.4 Manufacture or reproduction of official seal.
1709.5 Violations.

AUTHORITY: §§ 1709.1 to 1709.5 issued under sec. 204, 64 Stat. 1254; 50 U. S. C. App. Sup. 2253.

§ 1709.1 *Purpose.* The purpose of the regulations in this part is to describe the official seal of the Federal Civil Defense Administration and to prescribe its uses.

§ 1709.2 *Description of official seal.* (a) The official seal of the Federal Civil Defense Administration, approved by the President by Executive Order No. 10350, dated May 14, 1952, is described as follows: On a disk of defenders blue a white triangle superimposed by a shield of the coat of arms of the United States proper, all encircled by a white band edged in defenders blue containing the inscription "Federal Civil Defense Administration" in scarlet letters.

(b) The seal may be reproduced in the above colors, in black and white, or, when reproduced on a colored or white surface, in the color of the surface and one other color, including black and white.

§ 1709.3 *Uses of official seal.* (a) The official seal shall be used on all official documents requiring a seal.

(b) Where appropriate, it may be used as follows:

(1) On official reports, publications, and documents of the Federal Civil Defense Administration.

(2) On letterheads of the office of the Administrator and Deputy Administrator.

(3) On materials, supplies, and equipment of the Federal Civil Defense Administration.

(4) As an identification device by employees of the Federal Civil Defense Administration and such other persons performing emergency civil defense services at the Federal level as the Administrator may deem desirable.

(c) It shall have such additional uses as the Administrator may direct.

§ 1709.4 *Manufacture or reproduction of official seal.* No manufacture or reproduction, or sale of the official seal, or any colorable imitation thereof, shall be made except upon order of the Administrator.

§ 1709.5 *Violations.* Whoever shall manufacture, possess, or wear the official seal of the Federal Civil Defense Administration, or any colorable imitation thereof, except as authorized under these regulations, shall be subject to a fine of not more than $1,000 or imprisonment of not more than one year, or both.

MILLARD CALDWELL,
Administrator.

POST OFFICE DEPARTMENT

FOURTH-CLASS MAIL

INCREASED POSTAGE RATES AND OTHER REFORMATIONS

The Comptroller General of the United States has ruled, in decisions dated March 19, 1952, and June 17, 1952 (B-108245), that (1) the general provisions relating to the Post Office Department contained in Chapter IV of the Supplemental Appropriation Act, 1951, approved September 27, 1950 (64 Stat. 1050; 31 U. S. C. 695), constitutes permanent legislation; and (2) in withdrawing appropriated funds from the general funds of the Treasury to the Post Office Department on or after July 1, 1952, the Post Office Department must certify that "its latest cost analysis shows that the fourth-class mail rates are producing sufficient revenues to cover the cost of carrying such mail, or that a further petition has been filed with the Interstate Commerce Commission for an increase in the rates to cover the deficiencies therein as disclosed by the annual cost accounting operations of the Post Office Department."

On the basis of the best information now available increases in the fourth-class mail rates and other reformations are necessary to produce sufficient revenues to cover the cost of carrying such mail. Accordingly, pursuant to section 207, 43 Stat. 1067, as amended (39 U. S. C. 247), and Chapter IV, 64 Stat. 1050 (31 U. S. C. 695), a request was filed with the Interstate Commerce Commission on June 25, 1952, for its consent to increased postage rates for fourth-class mail and other reformations on the basis of information to be furnished the Interstate Commerce Commission on or about January 1, 1953.

Although the rate making procedures in the Post Office Department with respect to fourth-class mail do not come within the rule making requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), it is my intention to afford the public an opportunity to present written data, views, or arguments for consideration by the Post Office Department in determining the extent and character of rate and other reformations to be established with respect to fourth-class mail. Accordingly, it is anticipated that as soon as the annual cost analyses and other necessary data are compiled, a further notice will be published in the FEDERAL REGISTER inviting, to the extent practicable, presentation by the public of written data, views, or arguments to the Post Office Department for consideration in arriving at the reformations to be presented to the Interstate Commerce Commission.

Postmaster General.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[CPR 7, Section 43—Partial Revocation of Special Order 256, as amended]

BENDIX RADIO; DIVISION OF BENDIX AVIATION CORP.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 256 under section 43 of Ceiling Price Regulation 7, as amended, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Bendix Radio—Division of Bendix Aviation Corporation, Baltimore 4, Maryland, having the brand name "Bendix Television."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Bendix Radio—Division of Bendix Aviation Corporation. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Bendix Radio—Division of Bendix Aviation Corporation was granted a special order under section 43 namely "Bendix Television" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Bendix Radio—Division of Bendix Aviation Corporation to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 256, as amended, establishes retail ceiling prices for sales of the Bendix Radio—Division of Bendix Aviation Corporation's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 256, as amended, issued to Bendix Radio—Division of Bendix Aviation Corporation, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Bendix Television" is hereby revoked. In all other respects Special Order 256, as amended, remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Bendix Radio—Division of Bendix Aviation Corporation must send a copy of this order to all purchasers for resale of "Bendix Television" branded television receivers to whom it has given notice of Special Order 256, as amended. Twenty days after the effective date of this order, each such purchaser for resale, before selling any "Bendix Television" branded television receivers, must (a) remove all tags which were affixed to "Bendix Television" branded television receivers in accordance with Special Order 256, as amended; and (b) determine ceiling prices for "Bendix Television" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 259 under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Ray Thomas Company, 1601 South Hope Street, Los Angeles 15, California, having the brand name "Capehart."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Ray Thomas Company. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Ray Thomas Company was granted a special order under section 43 namely, "Capehart" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Ray Thomas Company to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 259, establishes retail ceiling prices for sales of the Ray Thomas Company's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 259, issued to Ray Thomas Company, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Capehart," is hereby revoked. In all other respects Special Order 259 remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Ray Thomas Company must send a copy of this order to all purchasers for resale of "Capehart" branded television receivers to whom it has given notice of Special Order 259. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Capehart" branded television receivers, must (a) remove all tags which were affixed to "Capehart" branded television receivers in accordance with Special Order 259; and (b) determine ceiling prices for "Capehart" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

Effective date. This order shall become effective June 24, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

SPARKS-WITHINGTON CO.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 280 under section 43 of Ceiling Price Regulation 7, as amended, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by The Sparks-Withington Company, Jackson, Michigan, having the brand name "Sparton."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of The Sparks-Withington Company. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which The Sparks-Withington Company was granted a special order under section 43 namely, "Sparton" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded The Sparks-Withington Company to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 280, as amended, establishes retail ceiling prices for sales of The Sparks-Withington Company's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 280, as amended, issued to The Sparks-Withington Company, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Sparton," is hereby revoked. In all other respects Special Order 280, as amended, remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, The Sparks-Withington Company must send a copy of this order to all purchasers for resale of "Sparton" branded television receivers to whom it has given notice of Special Order 280, as amended. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Sparton" branded television receivers, must (a) remove all tags which were affixed to "Sparton" branded television receivers in accordance with Special Order 280, as amended; and (b) determine ceiling prices for "Sparton" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

Effective date. This order shall become effective June 24, 1952.

ADMIRAL CORP.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 297 under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Admiral Corporation, 3800 Cortland Street, Chicago 47, Illinois, having the brand name "Admiral."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Admiral Corporation. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Admiral Corporation was granted a special order under section 43 namely, "Admiral" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Admiral Corporation to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 297 establishes retail ceiling prices for sales of the Admiral Corporation's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 297 issued to Admiral Corporation, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Admiral" is hereby revoked. In all other respects Special Order 297 remains in effect.

2 Within 15 days after the effective date of this partial order of revocation, Admiral Corporation must send a copy of this order to all purchasers for resale of "Admiral" branded television receivers to whom it has given notice of Special Order 297. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Admiral" branded television receivers, must (a) remove all tags which were affixed to "Admiral" branded television receivers in accordance with Special Order 297; and (b) determine ceiling prices for "Admiral" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

OLYMPIC RADIO AND TELEVISION, INC.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 338 under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Olympic Radio and Television, Inc., 34-01 38th Avenue, Long Island City 1, New York, having the brand names "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Olympic Radio and Television, Inc. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Olympic Radio and Television, Inc., was granted a special order under section 43 namely, "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Olympic Radio and Television, Inc., to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 338, establishes retail ceiling prices for sales of the Olympic Radio and Television, Inc., branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 338, issued to Olympic Radio and Television, Inc., to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand names "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster," is hereby revoked. In all other respects Special Order 338 remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Olympic Radio and Television, Inc., must send a copy of this order to all purchasers for resale of "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster" branded television receivers to whom it has given notice of Special Order 338. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster" branded television receivers, must (a) remove all tags which were affixed to "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster" branded television receivers in accordance with Special Order 338; and (b) determine ceiling prices for "Olympic," "The Challenger," "The Riviera," "The Monte Carlo," "The Broadmoor," "The Versailles," "The Catalina," "The Prince George," "The Marlborough," "The Windsor," "The Lancaster" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

ALLEN B. DUMONT LABORATORIES, INC.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 479, under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers manufactured by Allen B. DuMont Laboratories, Inc., 750 Bloomfield Avenue, Clifton, New Jersey, having the brand name "DuMont."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of evidence produced by the Allen B. DuMont Laboratories, Inc., at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established. On the basis of information subsequently obtained, however, the Director now finds that the branded products of the Allen B. DuMont Laboratories, Inc., were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded Allen B. DuMont Laboratories, Inc., to produce satisfactory evidence that the branded products for which it applied for a special pricing order under section 43 of Ceiling Price Regulation 7 were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that Special Order 479, establishing retail ceiling prices for the sale by Allen B. DuMont Laboratories, Inc., of its branded television receivers, must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 479, issued to Allen B. DuMont Laboratories, Inc., establishing ceiling prices for sales at retail of television receivers having the brand name "DuMont," is hereby revoked.

2. Within 15 days after the effective date of this order of revocation, Allen B. F. B. CONNELLY CO.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 532, under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers manufactured by F. B. Connelly Company, 1015 Republican Street, Seattle 9, Washington, having the brand name "Sylvania."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of evidence produced by the F. B. Connelly Company, at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established. On the basis of information subsequently obtained, however, the Director now finds that the branded products of the F. B. Connelly Company were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded F. B. Connelly Company, to produce satisfactory evidence that the branded products for which it applied for a special pricing order under section 43 of Ceiling Price Regulation 7 were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that Special Order 532, establishing retail ceiling prices for the sale by F. B. Connelly Company, of its branded television receivers, must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 532, issued to F. B. Connelly Company, establishing ceiling prices for sales at retail of television receivers having the brand name "Sylvania," is hereby revoked.

2. Within 15 days after the effective date of this order of revocation, F. B. Connelly Company, must send a copy of this order to all purchasers for resale to whom it has given notice of Special Order 532. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Sylvania" branded television receivers, must (a) remove all tags which were affixed to "Sylvania" branded television receivers in accordance with Special Order 532; and (b) determine ceiling prices for "Sylvania" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

Effective date. This order of revocation shall become effective June 24, 1952.

ZENITH RADIO CORP.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 539 under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Zenith Radio Corporation, 6001 Dickens Avenue, Chicago 39, Illinois, having the brand name "Zenith."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Zenith Radio Corporation. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Zenith Radio Corporation was granted a special order under section 43 namely, "Zenith" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Zenith Radio Corporation to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 539 establishes retail ceiling prices for sales of Zenith Radio Corporation's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 539 issued to Zenith Radio Corporation, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Zenith" is hereby revoked. In all other respects Special Order 539 remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Zenith Radio Corporation must send a copy of this order to all purchasers for resale of "Zenith" branded television receivers to whom it has given notice of Special Order 539. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Zenith" branded television receivers, must (a) remove all tags which were affixed to "Zenith" branded television receivers in accordance with Special Order 539; and (b) determine ceiling prices for "Zenith" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

Effective date. This order shall become effective June 24, 1952.

[CPR 7, Section 43; Partial Revocation of Special Order 563]

CAPEHART-FARNSWORTH CORP.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 563 under section 43 of Ceiling Price Regulation 7, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Capehart-Farnsworth Corporation, 3700 E. Pontiac Street, Fort Wayne 1, Indiana, having the brand name "Capehart."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commoditics which were the subject of the application of the Capehart-Farnsworth Corporation. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Capehart-Farnsworth Corporation was granted a special order under section 43 namely, "Capehart" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Capehart-Farnsworth Corporation to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 563 establishes retail ceiling prices for sales of Capehart-Farnsworth Corporation's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 563, issued to Capehart-Farnsworth Corporation, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Capehart," is hereby revoked. In all other respects Special Order 563 remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Capehart-Farnsworth Corporation must send a copy of this order to all purchasers for resale of "Capehart" branded television receivers to whom it has given notice of Special Order 563. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Capehart" branded television receivers, must (a) remove all tags which were affixed to "Capehart" branded television receivers in accordance with Special Order 563; and (b) determine ceiling prices for "Capehart" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

Effective date. This order shall become effective June 24, 1952.

Director of Price Stabilization.

[CPR 7, Section 43; Partial Revocation of Special Order 540, as amended]

PHILCO CORP.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 540 under Section 43 of Ceiling Price Regulation 7, as amended, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Philco Corporation, Tioga and C Streets, Philadelphia 34, Pennsylvania, having the brand name "Philco".

A prerequisite to an applicant's eligibility for a uniform pricing order under Section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under Section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Philco Corporation. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Philco Corporation was granted a special order under Section 43 namely, "Philco", branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Philco Corporation to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 540, as amended, establishes retail ceiling prices for sales of the Philco Corporation's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of Section 43 of Ceiling Price Regulation 7, Special Order 540, as amended, issued to Philco Corporation, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Philco", is hereby revoked. In all other respects Special Order 540, as amended, remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Philco Corporation must send a copy of this order to all purchasers for resale of "Philco" branded television receivers to whom it has given notice of Special Order 540, as amended. Twenty days after the effective date of this order each such purchaser for resale, before selling any "Philco" branded television receivers, must (a) remove all tags which were affixed to "Philco" branded television receivers in accordance with Special Order 540, as amended; and (b) determine ceiling prices for "Philco" branded television receivers under Ceiling Price Regulation 7 or whatever other ceiling price regulation is applicable to him.

Effective date. This order shall become effective June 24, 1952.

[CPR 7, Section 43; Partial Revocation of Special Order 752, as amended]

RADIO CORPORATION OF AMERICA

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 752 under section 43 of Ceiling Price Regulation 7, as amended, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Radio Corporation of America, RCA Victor Division, Camden 2, New Jersey, having the brand name "RCA Victor."

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgement of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Radio Corporation of America. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Radio Corporation of America was granted a special order under section 43 namely, "RCA Victor" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Radio Corporation of America to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951 but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 752, as amended, establishes retail ceiling prices for sales of the Radio Corporation of America's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 752, as amended, issued to Radio Corporation of America, to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "RCA Victor," is hereby revoked. In all other respects Special Order 752, as amended, remains in effect.

2. [CPR 7, Section 43; Partial Revocation of Special Order 379, as amended]

MOTOROLA, INC.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 379 under section 43 of Ceiling Price Regulation 7, as amended, establishes ceiling prices for sales at retail of television receivers and other articles manufactured by the Motorola, Inc., 4545 Augusta Boulevard, Chicago 51, Illinois, having the brand name "Motorola".

A prerequisite to an applicant's eligibility for a uniform pricing order under section 43 of Ceiling Price Regulation 7 is that the branded products for which application is made must have been sold at substantially uniform retail prices for a period immediately prior to January 26, 1951. On the basis of the evidence produced at the time of its application under section 43, it was the judgment of the Director of Price Stabilization that this criterion of eligibility had been established for all of the commodities which were the subject of the application of the Motorola, Inc. On the basis of information subsequently obtained, however, the Director now finds that certain of the branded products for which the Motorola, Inc. was granted a special order under section 43 namely, "Motorola" branded television receivers, were not in fact sold at substantially uniform retail prices for a period immediately prior to January 26, 1951.

A further opportunity has been afforded the Motorola, Inc. to produce satisfactory evidence that its branded television receivers were sold at substantially uniform retail prices immediately prior to January 26, 1951, but such evidence has not been forthcoming. Therefore, it is the judgment of the Director of Price Stabilization that insofar as Special Order 379, as amended, establishes retail ceiling prices for sales of the Motorola, Incorporated's branded television receivers, the order must be revoked.

Revocation. 1. For the reason set forth in the Statement of Considerations, and in keeping with the provisions of section 43 of Ceiling Price Regulation 7, Special Order 379, as amended, issued to Motorola, Inc., to the extent that it establishes ceiling prices for sales at retail of television receivers having the brand name "Motorola," is hereby revoked. In all other respects Special Order 379, as amended, remains in effect.

2. Within 15 days after the effective date of this partial order of revocation, Motorola, Inc., must send a copy of this order to all purchasers for resale of "Motorola" branded television receivers to whom it has given notice of Special Order 379, as amended. CIVIL AERONAUTICS BOARD

[Docket No. 5573]

CONTINENTAL CHARTERS, INC.; COMPLAINT OF MARY BATTISTA ET AL.

NOTICE OF HEARING

In the matter of the complaint of Mary Battista, Mary Messerlos, Joseph Wozniak, Albert Dichak and Thomas E. Myers with respect to Continental Charters, Inc. local passenger tariff CAB #8 Rule 26.1 applying to certain persons to bar claims and actions for injury and death due to negligence of air carrier.

Pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, notice is hereby given that a hearing in the above-entitled proceeding is assigned to be held on July 1, 1952, at 10:00 a. m., e. d. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner James S. Keith.

Without limiting the scope of the issues presented in said proceeding, particular attention will be directed to the following matters and questions:

1. Whether under section 403 (a) of the Civil Aeronautics Act of 1938, as amended, Rule 26.1 Local Passenger Travel No. 1, CAB No. 8, issued by John J. Klak, Central Building, Washington, D. C., which reads:

No action shall be maintained for any loss of, any damage to or any delay in the delivery of, any property or baggage, or for injury to or death of any passenger or on any other claim arising out of the trans-

portation of or a failure to transport any passenger or property or baggage, unless notice of the claim is presented in writing to the general offices of the carrier within thirty (30) days after the alleged occurrence of the event giving rise to the claim, and unless the action is commenced within one (1) year after such alleged occurrence, has been, is or could be lawfully filed;

(a) Whether under section 403 (a) a regulation of the Board could lawfully require the filing of such rule;

(b) Do the regulations of the Board require the filing of such rule?

2. If such rule is lawfully filed, is it, has it been, or will it be unjust or unreasonable or is it unduly preferential or unduly prejudicial or unjustly discriminatory or otherwise unlawful;

(a) Are the practices of Continental Charters, Inc., have they been, or will they be under this rule unjust or unreasonable, unjustly discriminatory or unduly preferential or unduly prejudicial or otherwise unlawful?

3. If such rule has been, is or will be unlawful, what rule, if any, should the Board prescribe?

4. What other relief, if any, should the Board grant complainants?

Notice is further given that any person other than the parties and intervener of record desiring to be heard in this proceeding may file with the Board on or before July 1, 1952, a statement setting forth the issues of fact and of law raised by this proceeding which he desires to controvert, and such person may appear and participate in the hearing in accordance with Rule 14 of the rules of practice.

Dated at Washington, D. C., June 25, 1952.

By the Civil Aeronautics Board.

FEDERAL POWER COMMISSION

[Docket No. E-6437]

ELECTRIC POWER, INC.

NOTICE OF DECLARATION OF INTENTION

JUNE 23, 1952.

Public notice is hereby given that Electric Power, Incorporated, of Berlin, Connecticut, has filed a declaration of intention pursuant to section 23 (b) of the Federal Power Act (16 U. S. C. 817) to construct a hydroelectric development, to be known as the Shepaug Project (Docket No. E-6437) on the Housatonic River in Fairfield, New Haven and Litchfield Counties, Connecticut, about 12 miles upstream from the cities of Derby and Shelton, Connecticut, consisting of a concrete dam 1,412 feet long with maximum height of 139 feet creating a reservoir area of 1,870 acres; a powerhouse containing one vertical shaft Kaplan adjustable blade propeller having a rated capacity of 57,000 horsepower connected to a generator of 27,250 kilowatts rated capacity to be operated under a normal gross head of 97 feet. The power generated would be sold to the Connecticut Light and Power Company for distribution to its customers.

The Commission will investigate the proposed construction and determine whether a license under the Federal Power Act is required or whether the project may be constructed merely upon compliance with the State law.

Any communication from persons interested in this matter may be submitted within 30 days from publication of this notice to the Federal Power Commission, Washington 25, D. C.

[Docket No. G-1977]

LOPENO GAS CO.

NOTICE OF APPLICATION

JUNE 23, 1952.

Take notice that on June 19, 1952, Lopeno Gas Company (Applicant), a Texas corporation, address, Dallas, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the operation of certain river crossing facilities at the international boundary of the United States and Mexico extending from the international boundary to a point of connection within the United States with the natural-gas distribution facilities of United Gas Corporation in Roma, Texas.

Applicant states that said facilities have existed for over twenty years and have been utilized to export natural gas to Mexico. Applicant now proposes to utilize said facilities for the purpose of importing natural gas from Mexico to supply the needs of Roma, Texas, and to discontinue the exportation of natural gas heretofore made by means of said facilities. Applicant estimates the requirements of United Gas Corporation for distribution in Roma, Texas are approximately 500 Mcf per month. The natural gas to be imported is proposed to be purchased from Petroleos Mexicanos, a Public Institution of the Mexican Government, and such gas will be resold by Applicant to United Gas Corporation.

Applicant states that no capital expenditures are involved in connection with its proposed operation since it contemplates the use for importation of natural gas of facilities which have heretofore been used for its exportation.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 11th day of July 1952. The application is on file with the Commission for public inspection.

NOTICE OF HOUSING PROGRAMS AND RELAXATION OF CREDIT CONTROLS IN CRITICAL DEFENSE HOUSING AREAS

PART II—DEFENSE HOUSING PROGRAMS

Appearing below are amendments to previously published defense housing programs and also additional new defense housing programs and supplemental programs to area programs previously published. These amendments are published herein as amendments to Part II (Defense Housing Programs) of the Notice of Housing Programs and Relaxation of Credit Controls in Critical Defense Housing Areas initially published in the FEDERAL REGISTER on October 27, 1951 (16 F. R. 10962).

With respect to the needed housing set out in the additional new defense housing programs and the supplemental programs to area programs previously published, the aids authorized by the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st sess.) including a new and more liberal form of Federal Housing Administration mortgage insurance under Title IX of the National Housing Act, as amended, are available. The approval of an application under Housing and Home Finance Agency Regulation CR 3 is required as a condition to the approval by the Federal Housing Administration of an application for mortgage insurance under the provisions of Title IX of the National Housing Act, as amended. The requirements and restrictions imposed by or pursuant to CR 3 are in addition to all applicable requirements, conditions and restrictions imposed by or pursuant to said Title IX.

With respect to any application approved under NHFA Regulation CR 3 for an exception from residential real estate credit restrictions as being within the additional defense housing programs appearing below, residential real estate credit restrictions are suspended.

For the purpose of additional defense housing programs appearing below preference will be given to locations (within the geographical boundaries of the critical defense housing areas) in established communities nearest the defense activities, with consideration to be given to the availability of adequate community facilities and services.

AMENDMENTS TO DEFENSE HOUSING PROGRAMS PREVIOUSLY PUBLISHED

Amendment 1. Area Program numbered 24, appearing in the FEDERAL REGISTER of October 27, 1951 (16 F. R. 10962) is amended by deleting from the program the 30 one-bedroom rental dwelling units originally scheduled, and by increasing the number of 2 bedroom rental units from 35 to 45, and increasing the number of 3 or more bedroom rental units from 10 to 30. The total number of rental dwelling units is still 75. The program is further amended by increasing the maximum permissible rents of 2 bedroom rental units from $65.00 to $70.00, and the maximum permissible rents of 3 or more bedroom rental units from $75.00 to $77.50.

Amendment 2. Area Program numbered 31, appearing in the FEDERAL REGISTER of October 27, 1951 (16 F. R. 10962) is amended by deleting from the program the 30 one-bedroom rental dwelling units originally scheduled, and by increasing the number of 2 bedroom rental units from 50 to 70, and the number of 3 or more bedroom rental units from 50 to 80. The total number of rental dwelling units is still 150. The program is further amended by increasing the maximum permissible rents of 2 bedroom rental units from $65.00 to $70.00, and the maximum permissible rents of 3 or more bedroom rental units from $75.00 to $77.50.

Amendment 3. Area Program numbered 69, appearing in the FEDERAL REGISTER of December 19, 1951 (16 F. R. 12731) is amended by decreasing the number of one-bedroom rental units from 25 originally scheduled to 11, the number of 2 bedroom rental units from 225 to 100, and the number of 3 or more bedroom rental units from 50 to 20. The Area Program is further amended by decreasing the number of 2 bedroom sales units from 175 originally scheduled to 75, and deleting entirely the quota of 25 three or more bedroom sales units. The total of rental units has by such amendment been changed from 300 to 131 and the total of sales units from 200 to 75.

[4th Sec. Application 27183]

LIME FROM POINTS IN VIRGINIA TO POINTS IN SOUTHERN TERRITORY

APPLICATION FOR RELIEF

JUNE 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1227.

Commodities involved: Lime, Common, hydrated, quick or slack, carloads.

From: Points in Virginia.

To: Points in southern territory.

Grounds for relief: Rail competition, circuity, grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1227, Supp. 17.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 2-5794 (22-419)]

CHAMPION PAPER AND FIBRE CO.

NOTICE OF APPLICATION

JUNE 24, 1952.

Notice is hereby given that The Champion Paper and Fibre Company (applicant) has filed an application under clause (ii) of section 310 (b) (1) of the Trust Indenture Act of 1939 for a finding by the Commission that trusteeship by The First National Bank of Cincinnati under an indenture dated July 15, 1945 (which indenture was heretofore qualified under the Trust Indenture Act of 1939) and trusteeship by said bank under an indenture dated January 15, 1948, as supplemented by a supplementary indenture dated June 1, 1952 (hereafter collectively called "the 1948 indenture"), which was not qualified under the act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify said trustee from acting as such under the qualified indenture.

It appears from the application and the indentures: (1) That applicant proposes to issue $5,000,000 principal amount of its Sinking Fund Debentures 3⅝ percent Series B, due June 1, 1972, under the 1948 indenture under which The First National Bank of Cincinnati is to be indenture trustee, that said debentures will be sold to one institutional investor which will purchase them for investment and not with a view to distribution, that the transaction is therefore exempted from registration under the Securities Act of 1933 by section 4 (1) thereof, and that the 1948 indenture is exempted from qualification under the Trust Indenture Act of 1939 by section 304 (b) (1) thereof; (2) that said 1948 indenture will limit the aggregate principal amount of debentures at any time outstanding thereunder to $9,180,000, consisting of $4,180,000 principal amount of Debentures Series A already issued and $5,000,000 of Debentures Series B to be issued; (3) that applicant has outstanding its 3 percent Debentures due July 15, 1965, originally issued in the aggregate principal amount of $13,000,000 under the 1945 indenture which was qualified under the act; (4) that the 1945 indenture names The First National Bank of Cincinnati as indenture trustee and contains language substantially similar to that of section 310 (b) (1) of the act, including clause (ii) thereof; (5) that the 1945 indenture is, and the 1948 indenture will be, wholly unsecured and that the provisions of the 1948 indenture will in all other material respects be substantially the same as the 1945 indenture except that the 1948 indenture will contain different dates, interest rates, redemption prices, sinking fund amounts, an additional limitation on the company's ability to pay dividends, and the effectiveness of certain provisions conforming to the act will be deferred until the new indenture is qualified thereunder; (6) that a default under either of said indentures resulting in the acceleration of the maturity of the debentures issued thereunder will constitute a default under the other indenture; and (7) the differences existing between the 1945 indenture and the 1948 indenture are not likely to involve a material conflict of interest in the trusteeship.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission at 425 Second Street NW., Washington 25, D. C.

Notice is further given that an order granting the application may be issued by the Commission at any time after July 10, 1952, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in clause (ii) of section 310 (b) (1) of the Trust Indenture Act of 1939. Any interested person may, not later than July 7, 1952, at 5:30 p. m., e. d. s. t., in writing submit to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.
